Such an insight prospectively will involve putting into question naïve and ever evolving constructs in our modern-day mented/stigmatic psychology science like personality disorders on the fundamental argument regarding the relatively poor insight about the requisite reference-of-thought to be established in the first place before then qualifying personalities with respect to such a philosophically and insightfully soundly established reference-of-thought, and not just naïve assumptions whether on the basis of popular axioms, vagueness and personal however well-meaning; with the idea of meaningfulness that goes beyond just a conventioning reference-of-thought and is rather inherently upheld by ontologically-veridical insight and pertinence. Further, such a
‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ that is ontologically-driven will go beyond an exercise of mented/stigmatic phenotypes driven abstractly as inherent-personalities nature and in given settings-of-time, but grasp that human personality is critically involved in the de-mentation

(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) hermeneutically/reprojectively/supererogatingly/zeroingly-educing-human—meaningfulness-and-teleology—into-the-existentialism-becoming of personhoods-and-socialhood-formation as so-reflecting ontological-reconstituting—as-to-conflatedness/deconstruction as the more profound reference-of-thought and analysis, and with a more fundamental interdimensional/transdimensional/transcendental insight of the human existentialism form-factor. In this regard, it is the opinion of this author that many construed personality disorders that do not involve social deviances or not of physiological nature are actually adaptations at one time or the other in an ever-changing-and-challenging-construct that individuals make of a ‘wanting and developing social world with its stakes and confliction’, and it would rather be better to articulate personality as driven by a pertinence of being/ontological-extension-into-existentialism-or-full-depth-of-existential-implications with respect to such ‘a challenging and developing social world with its stakes and conflictions’ in the first place, otherwise we are just affirming arbitrary social classification schemes and not really involved in the requisite postconverging–de-mentating/structuring/paradigming shifts; and such could further be grasped regarding specifically how many an experimental psychology schemes ‘desperately’ striving to draw social-world level conclusions can’t seem to supersede the modesty of schemes that it is just too farfetched and synoptically-limiting, thus trending more towards the defect of apriorising/axiomatising/referencing—{of-attendant—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity}—constitutedness—in-preconverging-entailment in lieu of apriorising/axiomatising/referencing—
Foucault had qualified the current focus on abnormal psychology as tending more to an ‘economic’ practice. What about the notion of \( \text{de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics)} \) as the ‘surreptitious driving mechanism of human mental-devising-representation or mentation’ that fully encapsulates and explains human psychological development across all the times and the successive institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>) of human existential emanance, and so as an articulation that is retrospectively, presently and prospectively coherent? Given the fact that \( \text{de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics)} \) very much explains human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as the recurrent ‘postconverging-or-dialectical-thinking\(^{\text{1}}\)—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of an animal of limited-mentation-capacity-deepening\(^{\text{3}}\). Such a ‘postconverging-or-dialectical-thinking\(^{\text{1}}\)—apriorising-psychologism’ psychology driven by ontology or rather ontological-normalcy/postconvergence will be postdicatory, with the implications that this will fully focus the ‘kernels of postmodernism’ to usher in Suprastructuralism as an Age where humankind comes to grasp that its-meaningfulness-with Respect-to-intrinsic-reality as reflected by the successive institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>)}
Determinism has been progressing (more and more realistically) by successive suprastructuring of prior/transcended/superseded registry-worldviews/dimensions 'beyond their successive corresponding recomposured-consciousness-awareness-teleology', and introducing the veridical meaningful-frame/worldview of postmodernity with regards not only to the present but the totalising-renewing-realisation/re-perception/re-thought past and future, with the insight that our present recomposed-placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of the positivism–procrypticism registry-worldview will be subjected to this suprastructuring-meaningfulness nature of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor as well. In fact the underlying difficulty of deconstruction when extended from its ‘textual basis’ to its ‘full meaningfulness basis’ as ‘ontological-reconstituting–as-to-conflicatedness’, has to do with the fact that the full implications of ‘ontological-reconstituting–as-to-conflicatedness’/deconstruction is that it prospectively calls for suprastructuring or construal beyond-the-consciousness-awareness-teleology—<in-preconverging–existential-extrication–as-of-existential–unthought> of prior registry-worldview mindset/<reference-of-thought> (and so as a conception that enables opening-up/making-available the prospective registry-worldview), as implied by the veracity/ontological-pertinence of (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of <reference-of-thought> as the underlying human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology driving mechanism. Considering that deconstruction as ‘ontological-reconstituting–as-to-conflicatedness’ necessarily implies not one but two dialectically opposed
registries/meaningful-references/anchorings-of-meaning/ontological-references/contending-references/registry-worldviews/dimensions of meaningfulness; with the implication that the prospective/transcending/superseding is suprastructural to (beyond-the-consciousness-awareness-teleology\textsuperscript{10} -\textsuperscript{\langle in-preconverging-existential-extrication-as-of-existential-unthought\rangle \textsuperscript{6} } of) the prior/transcended/superseded, and so as a deeper superseding–oneness-of-ontology construal/conceptualisation. The fact is that without the notion of suprastructuring, the exercise of de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) will wrongly imply that the ‘postconverging-or-dialectical-thinking\textsuperscript{21} –apriorising-psychologism’ and the preconverging-or-dementing\textsuperscript{20} –apriorising-psychologism are of the same reference-of-thought of meaningfulness (which is obviously wrong), and is the effect of the illusion-of-the-present/present-consciousness/mirage as we recognise this fact from a vantage perspective to the prior (utter-uninstitutionalisation, base-institutionalisation, universalisation) but have ‘a complex’ recognising such a fact at a disadvantaged positivistic/procrypticism perspective with respect to the prospective (deprocrypticism), just as all institutionalisations tend to demonstrate when their own transcendance-and-sublimity/sublimation/supererogatory–de-mentativity is implied, and certainly so the higher the institutionalisation as the mindset/reference-of-thought is increasingly set to ‘relate to its institutionalised secondnatured construct as being our very own individuals essential dimensionality-of-sublimating\textsuperscript{13} –\textsuperscript{\langle amplituding/formative–epistemicity\rangle totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{11} } and not a secondnatured construct’, and thus perceived as beyond or almost beyond analysis due to the implied temporal alienating effect on us (but then it is the human psyche that gives-in to
intrinsic-reality/ontological-veridicality, as the foremost rule of humanity’s existential strive). Suprastructuring allows for the necessary transcendental-insight-projection-capacities for grasping the evasive Derridean conceptualisation of ‘metaphysics-of-absence⟨implicated-epistemic-veracity-of- nonpresencing⟨perspective–ontological-normalcy/postconvergence⟩⟩projection/postdication in overcoming the illusion-of-the-present/present-consciousness/mirageas ⟨amplituding/formative–epistemicity⟩totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as ‘metaphysics-of-presence⟨implicated-‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness ⟩’. Suprastructuring boldly answers the underlying issue involved with ‘communicating the true implications of deconstruction as ontological-reconstituting–as-to-conflatedness’ by highlighting the paradox that it is all about ‘articulating a conceptualisation which involves implying that the reference-of-thought and meaningfulness of the seemingly reference-of-thought is unsound and needs to be superseded’. It is rather about in the very first instance putting into question a given reference-of-thought and projecting the appropriate reference-of-thought, before even proceeding to articulate more specifically meaningfulness within the projected reference-of-thought. This is akin to the idea of a positivistic mindset/reference-of-thought articulating chemistry rules and principles to an alchemic mindset/reference-of-thought for the latter’s validation, requiring the latter to adopt a positivistic mindset/reference-of-thought in the very first place before issues of substantive pertinence about chemistry rule and principles are raised within their now mutually positivistic mindsets. Such an exercise requires a highly uninhibited/decomplexified human frame of mind. This may sound rather farfetched as a notion but it is important to remember that the positivistic mindset/reference-of-thought itself is the outcome of the décomplexing/uninhibiting of the human mind from earlier successive institutionalisations. Such an exercise is necessarily about psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the positivistic/procryptic
reference-of-thought of reference-of-thought of meaningfulness-and-teleology in the middle to long run construed as of de-mentation (supererogatory onto logical de-mentionation or dialectical de-mentation stranded or attributable dialectics) with respect to futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism; and with regards to Suprastructuralism as a notion, the implication is that this is a requisite idea that has to come to the collective consciousness (not just unconsciously as with prior institutionalisations, for instance the fact that notions of superstition are false had to be consciously brought up to the attention/consciousness-awareness-teleology of a non-positivism/medievalism mindset/ reference-of-thought for it to effectively undergo the necessary ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring by acting as the conscious backdrop that engenders prospectively a positivistic mindset) for human emancipation into a notional—deprocrypticism mindset; as with all psychoanalytic exercise whether of an individual or social conceptualisation nature, the idea of recognising/referencing/registering/decisioning the ontological-deficiency with respect to ontological-normalcy/postconvergence is central to superseding it. ‘Suprastructuring as such overcomes the ‘natural human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology reflex’ (in any registry-worldview/dimension) of ‘striving to avert preconverging-or-dementing—apriorising-psychologism mental-devising-representation/mentation’ (whether such averting is ontologically-veridical or not) and so by a mistaken reflex to preserve a wooden-language—(imbued—averaging-of-thought—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable—void '—with-regards-to-prospective-apriorising-implications)}
placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of intrinsic-reality (but which closure makes its representation of intrinsic-reality inherently incomplete and biased towards the illusion-of-the-present/present-consciousness/mirageas of its given registry-worldview metaphysics-of-presence), by effectively taking full cognisance of the fact that de-mentation is the driving mechanism of human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of intrinsic-reality and thus construe an opened-construct incorporating transcendental-insight-projection-capacities that enable the relative construal of the ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ and the preconverging-or-dementing–apriorising-psychologism de-mentation of reference-of-thought’, and so expanding the potency in construing a much more exact/thorough notion of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of intrinsic-reality and thus for ‘ontological-reconstituting–as-to-conflatedness’/deconstruction. In other words, in representing the veridically uninhibited/decomplexified nature of de-mentation of reference-of-thought’ that is not limited by the illusion-of-the-present/present-consciousness/mirageas of any registry-worldview/dimension and so at the deeper memetic/psychoanalytic level, suprastructuring as such reveals that ‘human psychology is very much an active construct associated with
‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity’—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification-in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing—as-veridical-epistemicity—relativism-determinism <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective- nonpresencing,—for-explicating-ontological-contiguity ’ in the reflection as placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of retrospective, present and prospective institutionalisations in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process points-of-reference, with the truer nature and representation of human psychology ultimately tied-to/driven-by ontological-normalcy/postconvergence-construct’. Insightfully, just as highlighted later that existence-defines/precedes-essence, ideally the construction of psychology needs to be priorly subjected to ‘a becoming that defines psychology with its veracity/ontological-pertinence arising in the ontological-reconstituting—as-to-conflatedness of that existential becoming’. Is our understanding of psychology notionally complete when we can’t seem to understand what happens in apparently mentally sound minds partaking in ‘socially degraded’ situations like murky human interest stories, mobs, genocides and even ‘the conventional acceptance and numbness to mass casualty warfare’. In other words, in the first place what is ‘ontologically normal’ beyond the subjective conventioning of the psychology science (before even worrying about the abnormal)? Further isn’t it possible to make the contribution of modern-day psychology more complete in constructing a more thorough and dynamic understanding of mentation/psyche in relation to individual-social-humanity aspiration, where psychology evolves in a complete existentialism cadre. In other words, so placed in a
becoming/existential cadre, is psychology not meant rather than just encapsulating what the human psyche/mentation is all about as if it is a set and determinate construct (strangely enough inadvertently and often mirroring schemes of social classification, and hence of social power relations) equally involve in articulating aspiratory models for human mentation/psyche? And such a postconverging–de-mentating/structuring/paradigming shift with regards to modern-day mented/stigmatic psychology can actually be implied by prospective ontological-normalcy/postconvergence as notional–deprocrypticism (involving ‘ontologically-reconstituting/deconstruction’ in upholding of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation by ‘overriding failing/not-upholding-<as-of-apriorising/axiomatising/referencing> and renewing ever sound and appropriate’ reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) over the ‘conventioningly-driven/conventionalised hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation whether the latter is failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Insight from ontological-normalcy/postconvergence as it matches placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology to ontological-veridicality (notwithstanding that this undermines habituated conventionalised mented/stigmatic placeholder-setup/mental-devising-representation/mentation) representing all the institutionalisations in a dialectical moment of appropriateness-of-reference-of-thought-as-of-conflatedness and thus mentally-straight/candored-and-dialectically-in-phase as simply involving the technique of a ‘prelogic/conviction-as-to-profound-supererogation’ placeholder-setup/mental-devising-
registry-worldviews/dimensions both as implied and driven by ontological-veridicality by way of ontological-reconstituting–as-to-confoundedness/deconstruction and point out their peculiar mental/circumscribed specificities in their hollow-constituting/as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation involving with all mental/devising-representations a circular preconverging-or-dementing-temporal-manifestation (subontologisation/subpotentiation (in-a-social-dynamism-of-meaningfulness-misappropriation) of slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect. In the bigger picture, actually the fact is that the various institutionalisations/institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism' are actually the levels at which their specific quality (whether as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism) actively and comprehensively define and characterise each of the institutionalisations while bringing the notion to the collective-consciousness/personhoods-and-socialhood-formation successive existentialisms/full-depths-of-existential-implications. But then, such notions which can be weakly sensed in all prior institutionalisations are actually inconspicuously, selectively and occasionally introduced in the prior institutionalisation in graduated/staggered stages starting with the proto-prospective-institutionalisation right up to the prospective-institutionalisation; whether as proto-base-institutionalisation in recurrent-utter-uninstitutionalisation up to the graduated/staggered attainment of base-institutionalisation, proto-universalisation in base-institutionalisation–ununiversalisation up to the graduated/staggered attainment of universalisation, proto-positivism in universalisation–non-positivism/medievalism up to the graduated/staggered
attainment of positivism, and effectively by a prospective insight, proto-notional–deprocrypticism in positivism–procrypticism. For instance, many an alchemist in the medieval world were actually very thorough and methodical in their pursuit with skills that could be qualified as ‘rudimentary positivistic’. However, the fact that fundamentally their preconverging–de-mentating/structuring/paradigming was a dead-end like the pursuit of the philosopher’s stone and the implications of not having an outright positivistic outlook/ideology is what mostly distinguishes them from the complexion of ‘true positivists’. Likewise, the ordinary practices in the positivistic world of deontological and jurisprudential nature, in disparate formal constructs and settings mostly, are mostly geared to carry abstract and coherent universal virtue implications with respect to all humans as the-Good/understanding-driven formal principles constructs, however approximate their applicative success (a principle is a notion that can coherently uphold itself, i.e. a principle is a notion that warrants that all persons covered by its ambit act the same way or are subjected to it in the same way, and not disparately, and it carries universal import; the opposite of ‘inductive limitation’ or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing totalising–in-relative-ontological-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of a temporal motive). But behind that pursuit is a covert admittance that without the deontology and jurisprudence and the corresponding induced culture as artifices (however approximate their applicative success) humans in their social dynamics do not have the inherent exclusiveness of intemporal-disposition quality to ecstatically/spontaneously/solipsistically/emanantly/becomingly adhere to intemporal/universal notions on the mere basis of ‘preaching’ the intemporal/universal notions and virtues (as the-Good/understanding/notional–knowledge-reification–gesturing-<in-
prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity }—conflatedness -in-[preconverging-disentailment-by]-postconverging-entailment>/<amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity ) without institutionalisation design or conceptualisation! This is an unspoken recognition of the inherent reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnatures—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor individuations nature, and the need to skew/design/institutionalise/intemporalise ‘the social’ for the primacy of the intemporal-disposition individuation, as secondnaturing. This is equally an unspoken insight not only to modern institutionalised/intemporalised-thresholds-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation conceptualisation of the-Good (positivistic <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity ). Such an insight is equally implied in prior institutionalisations of the-Good conceptualisations wherein for instance the prophetic philosopher using the prophecy tools of their times, as the summum of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for the social criticism of their own times, won’t naively imply ‘I have preached to you thus you’ve attain the intemporal’, but rather construe insightfully of a practice (institutionalising practice) that cultivates a relative orientation towards the reinforcement of the intemporal, say like having the believers follow a whole routine from their expression of faith, praying in conscious reinforcement, to a way of living, however approximate in its applicative success in inducing an intemporal inclination. Positivistic secondnaturing of disparate frameworks of deontologies,
constitutions and jurisprudence and the associated culture (as longness-of-register-of—meaningfulness-and-teleology/) can be seen as proto-deprocrypticism, including their individual and social internalisation in the collective consciousness, and these unsurprisingly are the few elements in the sovereignty constructs of positivistic democracies with their constituent public or private organisations and associations as well as subject matters and specialisms, that are always ferociously, blindly and without further justification upheld by regulation and law and/or newer legitimately made regulation and law even against popular whim given their ‘inherent assuredness to preserve the intemporal construct in a furtherance of intemporal-preservation percolation-channelling-<in-deferential-formalisation-transference>. Prospectively, notional–deprocrypticism institutionalisation will imply a superseding psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as new-mentation and further extension of formalisation as ‘deferential-formalisation-transference’ of ‘deprocryptic formalisation’ into the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology ) implying a greater underlying demystification of positivism/rational-empiricism manifestation of ‘procrypticism–or–disjointedness-as-of—reference-of-thought reasoning by way of the ontological-contiguity’ (as from prospective ‘deprocrypticism–or–preempting—disjointedness-as-of—reference-of-thought notional-contiguity/epistemic-contiguity—<profound-supererogation -of-mentally-aestheticised~postconverging/dialectical-thinking –qualia-schema>) with respect to the veridicality of human temporal-to-intemporal individuations dispositions nature that explains the nature of the positivism–procrypticism registry-worldview notional-discontiguity/epistemic-discontiguity –<shallow-supererogation -of-mentally-aestheticised~preconverging/dementing –qualia-schema> as we become more consciously insightful, preemptive and superseding of perversion-of—reference-of-thought<-as-preconvergingly-apriorising/axiomatising/referencing-in-
entropy-or-contiguity–or–ontological-preservation (ontology) supersedes intradimensional-subknowledging\(^{c}\)-normalcy (temporal conventioning compromise). This dichotomy between conventioning and ontology is critical to understand human mentation development along the successive institutionalisations, as transcendental knowledge is by definition prospective and hence recognises the ontological limits/thresholds of conventioning as knowledge and virtue reference because to start with all conventioning institutionalisations are de-mentatively/structurally/paradigmatically in want of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity whether as recurrent-utter-institutionalised, ununiversalisation, non-positivism/medievalism or procrypticism in a prospective insight. Conventioning as such could only prospectively reflect ‘sound \(^{c}\) reference-of-thought status’ when it prospectively coincides/proxies ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; the holy grail of the notional~deprocrypticism institutionalisation ideal. But actually a conventioning construct in contrast to attaining such a prospect of ‘utter-purism-of-ontology’ rather tends to operate on the basis of least-acceptable-meaningfulness-or-value-reference-denominator for that conventioning construct, and the latter is thus the ‘effective meaningfulness-or-value-reference’ of the said conventioning construct notwithstanding any grander ontological meaningfulness-or-value-reference striving for utter-purism-of-ontology. The implication here is effectively that grander ontological and philosophical meaningfulness-or-value-references are no more pertinent in a conventioning construct than its least acceptable meaningfulness-or-value-reference-denominator but for discretional or prestige basis of discretional and disparate recognition, out of discretionary formalisation in inducing the secondnaturing and internalisation for that recognition. This insight is pertinent in that in the construct of ontology driven meaningfulness-and-value-references of intellectual grounding (purism-of-ontology), it is important to grasp that the social
integration of meaningfulness-and-value-references in a conventioning construct is effectively a least-acceptable-meaningfulness-or-value-reference-denominator-driven dynamism, and that it is by an effective utilisation of the institutionalisation percolation-channelling-<in-deferential-formalisation-transference> mechanism that such ‘purism-of-ontology’, by it’s the-Good, can stand out in bringing to bear its human and social emancipation potential. In the same token, thus it is equally important to grasp that primacy of meaningfulness-or-value-reference orientations in conventioning constructs do not necessarily has to do with a primacy of ontological-veridicality pertinence especially where it is not driven by intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity but by social-aggregation-enabling, notwithstanding that such a conventioning construct may be seen as the social reference of grander meaningfulness-and-value-references in its subject area, and so fundamentally because it is a least-acceptable-meaningfulness-or-value-reference play-out notion and not an-utter-purism-of-ontology-reference notion. Thus the perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of meaningfulness in our positivistic registry-worldview/dimension should prospectively be subject to de-mentation<supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics> with corresponding de-mentation<supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics> even though it won’t be intelligible from our vantage superseded/transcended registry-worldview/dimension point just as with all transcended/superseded registry-worldviews/dimensions. may explain the initiation of a loss of intemporal social universal-transparency—

The point is reality is as of ontological-normalcy/postconvergence and suprastructural and is not constraint to and have nothing to do inherently with human mental-devising-representation incrementality-in-relative-ontological-incompleteness—enframed-conceptualisation and notional–disjointedness, as it is up to us to proxy to it and hence we can’t say we want to think-one-way or we’ve-been-thinking-a-certain-way (as reference-of-thought—‘categorical-imperatives/axioms/registry-teleology’) to naively imply that reality will and should comply, as failing/not-upholding<-as-of-apriorising/axiomatising/referencing> reference-of-thought—categorical-imperatives/axioms/registry-teleology speak of human mental-devising-representation dead-ends and the need for postconverging—dementating/structuring/paradigming shifts. Likewise, a suprastructural conceptualisation is one construed beyond and not limited to the {cumulated/recomposured}-consciousness-awareness-teleology or mental-devising-representation of a registry-worldview/dimension reference-of-thought—categorical-imperatives/axioms/registry-teleology, i.e. not limited to its temporal conventioning compromise. It is the cause-and-effect-effective-predication by its grander grasp of intrinsic-reality that by way of untenability/internal-contradiction/internal-

Such an insight can be garnered as, for instance, in the natural sciences we can’t negotiate about gravity being \( 9.8 \text{ m/s}^2 \), but with ‘the social’ which is rather ‘emotionally involved’, such negotiated social-and-temporal-trading idiocy is surprisingly quite recurrently articulated. The reason is that formal constructs and settings emphasise ‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness -or-ontological-reprojecting in longness-of-register-of–meaningfulness-and-teleology and hence are equally highly deferential whereas informal constructs and settings do not constrain temporal-dispositions and hence are highly subjected to circumventive/distractive-temporal-prioritisation-of- reference-of-thought in shortness-of-register-of–meaningfulness-and-teleology and are unsurprisingly rather not deferential given that they are opened to hotchpotching/undisambiguation of notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence>. ‘Intemporal-prioritisation-of- reference-of-thought’–as-conflatedness -or-ontological-reprojecting points out that conventioning constructs like sub-par/formulaic-association/temporal/alibi conventioning-rationalising do not supersede the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality/intrinsic-veridicality, as may be naively advanced with circumventing/distractive-temporal-prioritisation-of- reference-of-thought, such that just as the conventioning construct of non-positivism/medievalism cannot be evoked to imply that with respect to a non-positivism/medievalism mindset/ reference-of-thought a prospective positivism mindset, which is the outcrop of an ‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness -or-ontological-reprojecting exercise in non-positivism/medievalism registry-worldview/dimension, is unwarranted. Likewise, it is rather naïve and <amplituding/formative–
to advance circumventive/distractive-temporal-prioritisation-of-reference-of-thought concerning psychopathic and its social psychopathic collorary (perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) in wrongly implying that a notional~deprocripticism ontological-escalation/aetiologisation is unwarranted. More like the evocation of circumventive/distractive-temporal-prioritisation-of-reference-of-thought about a past war criminal or rapist based on conventioning constructs like their being in the past, their settled lives, etc. doesn’t dispense them from ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting, the need for their judgment and/or in advocating unfailingly/infallibly the uncompromising notions against rape or war crimes, and so without conjugating/inflecting/deriving any excepting human temporal circumstances into it by circumventive/distractive-temporal-prioritisation-of-reference-of-thought. This further point to the dichotomy between temporal-compromising-conventioning and ontology, with a registry-worldview’s/dimension’s institutionalisation dialectics wherein ontology as reference-of-thought/ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation perpetually elevates conventioning. This further translates in the conceptualisation of value-and-valor with the implication that while aspiring for temporal values and valor may be the standard wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> perception, however, grander value and valor effectively lies in the universalising and philosophising orientations (as ontological-profoundness-of-thought/ontological-normalcy/postconvergence in contrast to conventioning-profoundness-of-

The truest value and valor resided in what Aristotle and other thinkers or even prophesiers were striving for actually. Aristotle nor Socrates nor Plato nor the prophesiers (working rather more assertively on 'supernatural postconverging-de-mentating/structuring/paradigming' implications) nor latter thinkers like Descartes, Kant, Darwin, Leibniz, Rousseau strove for the golden mean in their overall endeavours. Rather from an ontologically verifiable reality as a the-Good/understanding/<amplituding/formative-epistemicity> causality as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity they actually aspired for 'intemporal-prioritisation-of-reference-of-thought’-as-conflatedness-or-ontological-reprojecting, that is, they were prioritising and focussing on that which establishes universal and philosophical principles of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as first-order-ontology for-prospective-living as the backdrop for enabling better human emancipation and living (even though where relevant this will subsume-as-supplant-{as-of-relatively-more-profound-construal-of attendant-ontological-contiguity.educed-existentialising/contextualising/textualising-contiguity}<reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context>) the golden mean into 'intemporal-prioritisation-of-reference-of-thought’-as-conflatedness-or-ontological-reprojecting but with the latter rather superseding/overriding such a golden mean conception if construed as of presencing—absolutising-identitive-constitutedness since we can appreciate the ontological-impertinence of such a golden mean notion with regards to the fact that the <cumulating/recomposuring-
attendant-ontological-contiguity >-succession of registry-worldviews/dimensions as manifesting their very own prospective disontologising uninstitutionalised-threshold renders absolutising their successive supposedly golden mean ontologically ridiculous as to the need for their prospective ontologising-and-re-ontologising for prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity). It is the establishment of such first-order-ontology for-prospective-living as base-institutionalisation, universalisation, positivism and prospectively notional-deprocrypticism which are of transcendental nature as ‘shaping the human psyche’ (as to prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) and providing the emancipating umbrella for second-order-ontology (as to derived institutional-development—as-to-social-function-development and living-development—as-to-personality-development) and their temporal yearnings which are rather non-transcendental prospectively and cannot de-mentatively/structurally/paradigmatically resolve fundamental issues, and of circular institutionalised-being-and-craft. A Rousseau may not be the ‘shrewdest aristocrat’ in terms—as-of-axiomatic-construct of the ordinary value of personal gain of the medieval world but the first-order-ontology resolution of issues of social emancipation passes by his and likeminded first-order-ontology philosophical projection. This certainly applies with regards to defining transformative impact of transcendental constructs across all registry-worldviews/dimensions that does not compare with ordinary being-and-craft second-order-ontology sense of value which is rather intradimensionally circular and is hardly of the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming addressed from first-order-ontology constructs. Granted if humans had absolute mentation capacity then ‘intemporal-prioritisation-of-reference-of-thought’—as-conflatedness—or-ontological-reprojecting will be skewed
('intemporality\textsuperscript{52}-asymmetric-subsumption-of-temporality\textsuperscript{58}', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/subliming/supererogatory-dementativity) or rather supersede/encompass all such desirabilities implied by the golden mean. However, we don’t have absolute mentation capacity and the most intemporal of our dispositions should take pride of place in defining our achievement motives whether as philosophies, causes, skillsets and talents in our value and valor aspirations, in line with the notion of a true principle, with the implication that such value and valor is capable of rationally upholding itself and its registry-worldview prospectively when implied\textsuperscript{10} universally (as to the fact that it is on this basis that human institutional-cumulation/institutional-recomposure\textsuperscript{(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>)} has been self-perpetuating in explicating the ontological-contiguity\textsuperscript{97}—of-the-human-institutionalisation-process\textsuperscript{98}). Such an insight can further be expanded thus, it is critical to note that the institutional-cumulation/institutional-recomposure\textsuperscript{(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>)} are developments of human mentation capacity in grasping its ‘internal ontological-reconstituting–as-to-conflatedness/deconstruction intermediating environment’ and the external environment. The former refers to the teleological devised representation of the relationship with the external environment like language, organisation, culture and other institutional construct by which it existentially accesses the external environment. In effect, though counterintuitive, human registry-worldview’s/dimension’s institutionalisation is actually an ‘intemporal-prioritisation-of-reference-of-thought–as-conflatedness/or-ontological-reprojecting/intemporal-preservation preemptive construct which paradoxically elicits devised mentation that goes on to build the ‘internal ontological-reconstituting–as-to-conflatedness/deconstruction)

ontological-contiguity ontological-veridicality). Further, it is important to appreciate that just as with the profoundness of treatment of subject-matters and specialisms (and even more so with regards to ‘the social’ given its characteristic ‘emotional involvement’ aspect), corresponding subject-matter ‘focussing of analysis and jargon’ will seem rather unusual and unnatural to ‘ordinary thinking’. But then ‘ordinary thinking’ is responsible for mostly nothing, if not thinking mostly in the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology}, and cannot be made a reference of formal thinking as issues requiring profound treatment invariably are construed based mostly on unordinary formal constructs which, granted, should be able to ultimately by their <amplituding/formative–epistemicity>causality –as-to-projective-totalitative–implications-of-prospective–nonpresencing—for-explicating-ontological-contiguity demonstrate that such formal constructs are the best ontological and virtue conceptualisation with regards to the issue or domain of concern. That’s why the populace is not asked its opinion about the law or astronomy or medicine, for instance, as the need for deferential-formalisation-transference arises for the effective ontological/intemporal treatment of domains of reality but for when the issues at stake require a sovereignty exercise requiring individuals informed consent whether political or decisional or rather as social learning/inculcation exercise; but then sovereignty exercises are not pure knowledge/ontological constructs but for the construals/conceptualisations of inherently sovereign choices as knowledge/ontological constructs of the sovereign choices. Thirdly, the conceptualisation of this paper is rather unusual and unordinary as it is transcendental by its construct and the implied registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications, and even further unusual by its phenomenological and hermeneutics methodological approaches, which frankly speaking is the only way to creatively garner such insights in broad strokes. Like with all transcendental constructs, which by definition tend to put the usual/ordinary in
question, it is not surprising that it will sound highly alienating to ordinary ways of thought. However, its ethos is that it is coming from a depth of conceptualisation that is more profound than our ordinariness when it grasps that other institutionalisations whether as recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism, had their own ‘ordinariness’ in totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag no less than we do, and that the underlying ontological reasoning is beyond the illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage as metaphysics-of-presence-{implicated-‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness}, of any registry-worldview/dimension including our positivistic meaningful frame, to arrive at a superseding and more profound ontological-veridicality or grasp of intrinsic-reality with corresponding illuminating implications. In that sense, an argument of the type our society is great as it is, will then be meted with a same argument that there were great things happening in medieval times as well and maybe we shouldn’t have transcended into positivism; speaking of a fundamental solipsistic ontological-bad-faith/inauthenticity. One could argue in the logic of those times, the serfs were doing great feeding themselves, as many did argue; and there was no need for science, as many did argue, etc. The fact is we are the outcrop of the possibility and potential for human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity before which doesn’t end with us but proceeds to undermine our own registry-worldview/dimension as well. Fourthly, it is obvious that if and where what is factored in is only the folksy ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ perspectives of individuals existentialism/full-depth-of-existential-implications of shallowness of scale and time, without the requisite philosophical depth requiring a profound appreciation, understanding and insights from
‘humanity existentialism/full-depth-of-existential-implications level scale and time’ which easily gets lost, and thus this bigger pursuit of this paper will be lost and misunderstood by such a shallowness of scale and time of thought, and non-contemplation and pseudologism as a mark of banality/folksy-logic. It is inevitable, as has been the case throughout the human past, that transcendental ideas are inevitably suprastructural/beyond-the-consciousness-awareness-teleology\(^6\) of the totalising~self-referencing-syncretising/circularity/interiorising/akrasiac-drag registry-worldview/dimension in which such notions are being advanced in. Fifthly, it is more likely that a banal/folksy inclination may hardly appreciate the difference between the outcome of a mindset/ reference-of-thought as a secondnaturedness and internalisation construct across successive institutionalisations with their requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposing induced from intemporal-disposition individuation disposition, and correspondingly differentiate between being so-institutionalised with a secondnatured and internalisation mindset/ reference-of-thought and the intemporal–individuation disposition that will equally be responsible out of mere intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality (and no secondnaturing and internalisation) for institutionalising/intemporalising with regards to the present registry-worldview/dimension at its uninstitutionalised-threshold\(^1\) that will be behind the secondnaturing and internalisation of prospective registry-worldview/dimension. This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions; and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever
the institutional-cumulation/institutional-recomposurer\textsuperscript{as-to- historiality/ontological- eventfulness \textsuperscript{/ontological-aesthetic-tracing-\textlangle\textlangle perspective–ontological- normalcy/postconvergence-reflected-\textlangle epistemicity-relativism-determinism\textrangle\rangle}, and inherently implies ‘a universal existentialisms/full-depth-of-existential-implications form-factor across institutionalisations’ though of differing ‘snowballed recomposuring’ of meaningfulness and reference-of-thought, defining their specificities and potentials. This is just a basic anthropopsychology/the-anthropological-continuity elucidation which while original and useful on its own right, is equally pertinent for an insight in the social manifestation of psychopathy.

Besides, one can imagine that a thorough grasp and creative application of the \textsuperscript{de-mentation\textsuperscript{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)}} as to ontological-normalcy/postconvergence drive, as this psychologically reflects/perspectivates postconverging-or-dialectical-thinking\textsuperscript{–apriorising-psychologism-<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase>} and preconverging-or-dementing\textsuperscript{–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>} of mental-devising-representation by which human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity occur can ultimately be the avenue for liberating the human mind to its full potential and directed transcending capacity. That is, transcendental capacity not only by way of a spontaneous and natural dialectical cycle of social-stake-contention-or-confliction behind the ‘postconverging-or-dialectical-thinking\textsuperscript{–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring history but a ‘consciously directed’ abstract understanding, more like deprocrypticism-over-procrypticism could-be and would-need-to-be relatively highly consciously directed given the relatively lower immediate positive-opportunism—of-social-functioning-and-accordance\textsuperscript{75} (for survival-and-flourishing to the
cross-section of human temporal interests) compared to the lower transcendence-and-sublimity/sublimation/supererogatory-de-mentativity like base-institutionalisation, universalisation and positivism, but for its abstract veridical pertinence and potentially grander possibilities in the institutionalisation/intemporalisation percolation-channelling-indeferential-formalisation-transference. Such a veering to the creatively abstract, with respect to the philosophical and the social sciences, but nonetheless ontologically veridical will be liberating/emancipating from the ‘spontaneously natural dialectical cycle of human progress’ and is increasingly certain to be the defining feature of human civilisation. It should be noted that Entropy as defined (‘intemporal-preservation-entropy-or-contiguity—or—ontological-preservation re-institutionalisation’) relates that the intemporal-preservation-institutionalisation entropy is the preceding-and-defining reference for the hermeneutic-referencing of the ontological meaning of all other associated conceptualisations and notions, and so as to nonpresencing—perspective—ontological-normalcy/postconvergence epistemicity. (By ontological meaning is implied intemporal/veridical/purism/operant-construct/predicative-effectivity—sublimation—as-to-underlying—ontological-commitment—inferred—self-assuredness—ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming—as-being-of-existential-reality) meaning or ontology/reality-centered-meaning as contrasted to temporal/non-veridical/compromised/non-operant-and-vagueas totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag meaning or metaphysical/speculative/banality/social-discomfiture/temporal-human-centered meaning).

Central to the hermeneutics approach towards elucidating psychopathy and the underlying psychological science is a method herein qualified as ‘referentialism’ which makes reference to the supersedingness/precedingness of the ‘intemporal preservation institutionalisation/intemporalisation entropy/contiguity’ before articulating concepts and
notions in referential and organic elucidation of the entropic construct. Referentialism as such is actually central to the spontaneity required in hermeneutics. It differs from the traditional scientific categorisation of concepts and notions, in that referentialism implies a highly contiguous, circumstantial and dynamic referencing elucidating of the superseding/preceding entropic notion while categorisation tends to be basically constitutive, definitive and ‘weakly contiguous/relatively-fragmented overall’ in its elucidation of notions, concepts and ideas. Categorisation has been very efficient with the physical and biological sciences with its classification approach enabling a profoundness of analysis while enabling excellent subject matter organisation. However, this author is of the opinion that categorisation as an approach is actually less efficient in the social sciences (and notions of an ephemeral character) as it underemphasises the ‘organic dynamism’ of social concepts and often leads to relatively trite classification schemes that are often inoperant or poorly operant given the relative ephemerality of the social world (a weakness of many categorisation classification schemes in the social sciences). On the other hand, referentialism carries the promise of ‘point-referencing’ notions and concepts in a contiguous dynamic, evolving and ontological-reconstituting–as-to-conflatedness/deconstruction way, putting emphasis on the relative relation of concepts and notions towards the central notion in its dynamic entropic conceptualisation (herein underlied by conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism as to human limited-mentation-capacity-deepening). This author is also of the opinion that referentialism is actually the natural human cognitive development approach to acquisition and classification of knowledge with emphasis on ‘the organic dynamics of understanding’ wherein a child for instance doesn’t necessarily grasp outright the fullness of concepts-of-meanings but rather the ‘relevant dynamic contextualisation of meanings’ ensuring a strongly operant and ‘wealthy’ relationship with meaning in the social context. ‘Intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation’ with respect to
uninstitutionalised-threshold of registry-worldviews/dimensions, can be construed as follows: Supposed all humanity across space and time that ever existed was just ‘one human temporal-to-intemporal individuation’, the process of general-institutionalisation from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to ununiversalisation–non-positivism/medievalism to positivism–procrypticism, and prospectively to deprocrypticism, is actually one same process but for ‘lack of the human-mentation-capacity and need for time for the cumulation of the mentation-capacity’ (lack of ‘brain capacity’) to get it all right from the start (i.e. to fully grasp notional–deprocrypticism starting from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to ununiversalisation–non-positivism/medievalism to positivism–procrypticism as convergent concepts towards notional–deprocrypticism (as ‘longness-of-register-of—meaningfulness-and-teleology over shortness-of-register-of—meaningfulness-and-teleology in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, as induced by maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of—maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation-as-inducing-the-prospective-institutionalisation’ and involving more profound/richer ontological-levels over shallower/poorer ontological-levels; with notional–deprocrypticism thus implying a ‘full-cycle ontological-contiguity—of-the-human-institutionalisation-process undermining of subknowledging /mimicking/emant-uninstitutionalisation-disposition’). Thus the successive institutionalisations are thus construed as ‘levels of compromise’ allowing for sufficient human limited-mentation-capacity-deepening to handle the requisite transcendence-and-sublimity/sublimation/supererogatory—de-mentativity even if from the very start the human doesn’t get a grasp of ‘higher institutionalisation/intemporalisation registry-worldviews/dimensions’ all-at-once/as-a-whole but achieves the ‘comprehensive
institutionalisation/intemporalisation frame’ only at deprocrypticism; as it goes on to take on
the successive challenges of base-institutionalising, then universalising, then positivising,
and finally with notional~deprocrypticism absolute ontological-contiguity by undermining
‘disjointedness-as-of-’ reference-of-thought’-as-misappropriated—meaningfulness-and-

of procrypticism had always been present at all times of human existence but the natural priority

This thus explains ontological-normalcy/postconvergence across human mental-devising-

points to the fact that ontologically for the full potential of human science, this should be ‘rising
from this fundamental philosophical depth/profoundness of thought’ to then transversally
address the issues it raises while projecting prospectively. A further insight can be grasped
regarding the relationship between psychopathy, anthropopsychology/the-anthropological-

(illusion-of-the-present/present-consciousness/epistemic-totalising 13~self-referencing-

supererogation registry-worldview”. For instance, there isn’t any logical nested-congruence between the non-positivism/medievalism mindset/ reference-of-thought and the positivistic mindset). A positivistic mind can’t explain the denaturing\textsuperscript{16} of the notion of witchcraft to a non-positivism/medievalism mindset as the state of being of non-positivism/medievalism means we make reference to non-positivism/medievalism\textsuperscript{58} reference-of-thought–categorical-imperatives/axioms/registry-teleology that end up endemising/enculturating such superstitious notions. Logic as logical-congruence only arises where there is a mutual registry-worldview\textsuperscript{59} reference-of-thought–categorical-imperatives/axioms/registry-teleology. What is thus needed is a ‘psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ of the medieval mindset/ reference-of-thought (which is subknowledging/mimicking) wherein the untenability/internal-contradiction/internal-incoherence/institutional-constraining generated by the positivist’s scientism (superseding) makes the medieval mind put in question its\textsuperscript{8} reference-of-thought–categorical-imperatives/axioms/registry-teleology in the very first place. This ‘psychoanalytic-unshackling process’ equally applies prospectively (regarding the positivism–procrypticism and the notional–deprocrypticism registry-worldviews/dimensions). In the phenomena of social psychopathy, it is important to grasp that the reflex to mentally represent the narratives of the psychopath and the protraction of the narratives by temporal supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’–apriorising-psychologism or prelogism\textsuperscript{78} minds as ‘straightness/candor/organic-comprehension-thinking of mind’ is wrong, ‘overcoming the mental-slantedness/decandoring/distractive-alignment-to– reference-of-thought–of-apriorising/axiomatising/referencing\textsuperscript{30} is thus called for, more like we perceive the ‘slantedness of a childhood cinglé’ (in terms–as-of-axiomatic-construct of the mental state of the psychopath as well as its protraction on the psychopath’s interlocutor). In other words, *the
mind is actually a mental devising tool’ whose veracity/ontological-pertinence must be validated by an abstractly veridical intrinsic-reality/ontological-veridicality. In other words, the abstract grasp of intrinsic-reality/ontological-veridicality defines mental-devising-representation as the latter is not inherently given (it is a devising tool validated by abstract intrinsic-reality/ontological-veridicality established by <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity>. For instance, while the traditional reflex of the human mental-devising-representation is disposed to think otherwise, Einstein theory-of-relativity abstraction, and likewise with many conceptualisations of a doppler-thinking nature, is more real by its <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity, thus pointing to the error of the human reflex/impulse thinking). In another light, this explains the transformative evolution of our registry-worldviews/dimensions mental-devising-representations of reality from the recurrent-utter-uninstitutionalised earlymen to our current positivism–procrypticism registry-worldview, with the insight that our mental-devising-representation will evolve when prospective abstract reality <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity shows that it is defective/perverted as procrypticism–or–disjointedness-as-of-reference-of-thought, from a deprocryptic mental-devising-representation. In the same vain, why we perceive the recurrent-utter-uninstitutionalised mind as that of ‘a savage’, the recurrent-utter-uninstitutionalised in its ‘<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence{(implicated-‘nondescript/ignorable–void ’)-as-to-presencing—absolutising-identitive-constitutedness } perceives its mind as straight/candored and as of organic-comprehension-thinking

The bigger scheme of things being the de-mentative/structural/paradigmatic preemption of a defective/perverted registry-worldview, in this case \(^8\) procrypticism–or–disjointedness-as-of- reference-of-thought. Such an emanant insight can be garnered from the fact that, positivism was established by the ‘diktat’/ordered-construct of the Descartes, Comtes, Galileos, Rousseaux, Newtons, Darwins… of the world, and the rest of humanity complied to the formalisms that ensue, by virtue of their proxying-to-intrinsic-reality and the positive-opportunism—of-social-functioning-and-accordance\(^5\) that led to psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (towards human formalisation and internalisation)! Thus de-mentatively/structurally/paradigmatically it is the prospective registry-worldview/dimension which is always the ‘prospective virtue potential’ for the prior/superseded registry-worldview/dimension. Basically, base-institutionalisation enabled the virtuous resolution of vices-and-impediments of the state of recurrent-utter-uninstitutionalisation, and likewise with universalisation and ununiversalisation, positivism and non-positivism/medievalism, and prospectively, notional—deprocrypticism and procrypticism—or—disjointedness-as-of-reference-of-thought. In the present world, we no longer do institutional slavery, we talk of universal rights and equality of all people, mob judgment and mob killing is hardly practised anymore, accusations of witchcraft are now viewed as ridiculous, etc.; it is the integration of a positivist registry-worldview/dimension, with corresponding psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that enabled such human transformation from a non-positivism/medievalism registry-worldview/dimension; and not the inherent exceptionalism, as biological or otherwise, of humans living now over their forerunners. Basically, human ‘supplanting—conviction-as-to-profound-supererogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism deductive reasoning’ as prelogism is effectively a sound construct for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation and hence virtue; that is, so long as it is adhered to properly. However, this is not the case on two grounds. It is critical to distinguish a defect in improper processing/operating of supplanting—conviction-as-to-profound-supererogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism or prelogism which is rather

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and not-of-logical-contention; due to the miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising and temporal-enculturation/temporal-endemisation (occurring at the specific temporal-dispositions). For instance, going by the BODMAS equation highlighted before, the mere operation of arithmetic without factoring in A’s condition/subknowledging-impulse/compulsive-slanting—preconverging-or-dementing-apriorising as of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation additionality with 1 leads to a systematic failure that is ontological and not a mere act defect, and defines an uninstitutionised-threshold. It should be noted that at all uninstitutionised-threshold, it is de-mentation—supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics that enables the mental-reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with)-representation of the registry-worldview’s/dimension’s-uninstitutionised-threshold—defect—ontological-or-existential—defect as perversion-of-reference-of-thought—preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation in construing unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought (preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase) from whence an exercise of ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring with new reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation initiates a crossgenerational transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Ontologically, the mental-devising-
representation of such \textsuperscript{7}perversion-of-\textsuperscript{3}reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> is as strands-of-perverting-temporal-dispositions, involving oblongating/decandoring/distractive-alignment-to-\textsuperscript{7}reference-of-thought-<of-apriorising/axiomatising/referencing>\textsuperscript{9}, that defines the dialectical-out-of-phasing (whether recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and, in the prospective representation, of procrypticism) as perversion-of-\textsuperscript{7}reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. For instance, in registry-worldview/dimension terms, medievalism/non-positivistic mental-disposition is systematically registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{02}–defect-<as-Being-or-ontological-or-existential–defect>\textsuperscript{85} at the uninstitutionalised-threshold\textsuperscript{02} where you need a positivisitic mental-disposition for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Likewise, procrypticism (threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{9}–<as-to–‘attendant–intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising–psychologism>–unsoundness-or-ontological-bad-faith/inauthenticity–of–reference-of-thought/mental-perversion/subknowledging\textsuperscript{9}–mimicking-and-corr}\textsuperscript{34}ponding\textsuperscript{9} amplituding/formative–epistemicity\textsuperscript{9} totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{9} of positivistic\textsuperscript{3}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{9},–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{02}–defect-<as-Being-or-ontological-or-existential–defect>\textsuperscript{85} at the uninstitutionalised-threshold\textsuperscript{02} where you need deprocrypticism. Reality being blunt/incisive as it is rather preceding/superseding and ontological-normalcy/postconvergence with respect to us,
is in essence of potent operant and deterministic phenomenality that doesn’t have any place for our thresholding discrete incrementalmism-in-relative-ontological-incompleteness—enframed-conceptualisation notions but even for the cases where such discretion is artificially devised/implied, it is applied as operant and deterministic (consider quantum-mechanics). So ontologically, the mental-devising-representation of perversion-of reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as strands-of-perverting-temporal-dispositions is definitely accurate on two insightful grounds. Reality's bluntness/incisiveness doesn’t leave room for discretionary judgments about ‘good-natured’/impression-driven conceptualisations of virtue and virtuous judgment within the overarching framework of such the-Good/understanding/notional-knowledge-reification-gesturing-in-prospective-psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity}—conflatedness-in-{preconverging-disentailment-by}-postconverging-entailment/>/<amplituding/formative–epistemicity>causality-as-to-projective-totalitative–implications-of-prospective–nonpresencing—for-explicating-ontological-contiguity reality determinism, and such impressions can only pass for an illusion-of-the-present/present-consciousness mirage and/or <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (attempting to operate logic in a superseding registry-worldview on the basis of the reference-of-thought–categorical-imperatives/axioms/registry-teleology-,for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a superseded registry-worldview; for instance, God-of-plane type of statement in say an animistic society that comes in contact with foreigners and a plane). The second reason is that we can garner insight on prior/superseded institutionalisations and understand that the vices-and-impediments are actually cross-sectional to the registry-

Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as such is more of a deterministic and operant process than discretionary, and works on the-Good/understanding/notional–knowledge-reification–gesturing-in-prospective-psychologismic–apriorising/axiomatising/referencing–of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity\textsuperscript{15} conflatedness\textsuperscript{16} in {preconverging-disentailment–by}–postconverging-entailment/<amplituding/formative–epistemicity>causality\textsuperscript{17} as-to-projective-totalitative–implications-of-prospective- nonpresencing–for-explicating-ontological-contiguity basis, even though counterintuitively we tend to turn towards impressions to construe virtue which only confuses the issue as we then wrongly define fulfilling temporal whims (good-natured impressions or not) of the ‘collective consciousness of the corresponding present-consciousness/illusion-of-the-present’ as an intemporal reference for defining virtue (with no ‘emanance disambiguation/notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>), rather than a transcendental understanding of the-Good, i.e. knowledge/virtue-as-institutional-cumulation/institutional-recomposure–as-to- historiality/ontological-

Actually, strands-of-perverting-temporal-dispositions are the characteristic backdrop mental-devising-representations of superseded/transcended registry-worldviews/dimensions when we think from an ontological perspective of the soundness-or-ontological-good-faith/authenticity reference-of-thought projection/representation that captures the meaningful framework of a registry-worldview teleology whether regarding a society at its ununiversalisation whether as recurrent-utter-uninstitutionalisation, ununiversalisation, and medieval/non-positivisitic, and prospectively, we can garnered such strands-of-perverting-temporal-dispositions with respect to procrysticism from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology as of prospective notional–deprocrysticism institutionalisation. Human mental development across time validate the notion that we have consistently been in a state of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as we institutionally skew/deferential-formalisation-transference towards intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with a better grasp of reality and causality as-to-projective-totalitative-implications-of-prospective non-presencing—for-explicating-ontological-contiguity.

At which point no articulation is inherently more right, however, the intemporal-disposition being ontological has causality\(^8\) as-to-projective-totalitative—implications-of-prospective-

It is only after such uninstitutionalised-threshold\(^1\) is superseded/dominated/preceded/overridden/uttered by the intemporal-disposition as an ordered construct institutionalisation/intemporalisation with corresponding human secondnaturing as internalisation and formalisation that logic becomes pertinent as it now operates only on one axiomatic-construct/categorical-imperatives/registry-teleology\(^9\) that establishes the ‘substantive hermeneutically/reprojectively/supererogatingly/zeroingly cumulated/recomposured abstract-tissue-of–social-emanance as to attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity ’ (not formulaic—projection/mimicry) and veracity/ontological-pertinence of interlocutors’ articulations. Thus the basis for Rational-Realism as the initial institutionalisation/intemporalisation recomposure orientation that goes beyond just articulating \(^8\)reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^9\),-for-intemporal-preservation but involves anticipating human notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective—ontological-normalcy/postconvergence> in preempting the \(^7\)perversion-of-

This raises two dilemma with respect to the conceptualisation of virtue as rational-realism implies that at the procrypticism—or—disjointedness-as-of—reference-of-thought uninstitutionalised-threshold, we have to register/acknowledge priorly our inclination to subknowledge-(preconverging-or-dementing -as-if-of-sound-knowledge) positivistic registry-worldview’s/dimension’s institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology to paradoxically then be able to anticipate and stifle this in the active construction of deprocryptic meaning, at which point the ontological-veridicality of meaning then involves not only logical operation/processing/contention on the basis of a sole intemporal-disposition, but equally registries-disambiguation to account for perversion-of-reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-perversion/preconverging-or-dementing—apriorising-epistemology by temporal-dispositions: (i) <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or Setting-aside (as being in denial of perversion-of-reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—defect) arises where a registry-worldview returns to its same reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that have been shown to be subknowledge-(preconverging-or-dementing -as-if-of-sound-knowledge)/perversion-of-reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in—

This latter instance involves de-mentation\(\langle\)supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\(\rangle\) or Coring (in reflection/perspectivation and acknowledgment of perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-) with corresponding decandoring/distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing and is what enables memetic-reordering/psychoanalytic-unshackling whereas <amplituding/formative-epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or Setting-aside at best induces ‘memetic-inching/psychoanalytic-realigning’ which are not of an immediate transcending nature. worldview/dimension (as in our present positivist registry-worldview/dimension) arises because other prior registry-worldviews/dimensions successively underwent their own psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring—as-dialectical-stranding-backdrop-for-prospective-transcendence for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, at their uninstitutionalised-threshold; and so, going back to the recurrent-utter-institutionalised early men who left the caves and trees, thus any denial of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as articulated above is an argument which incoherence emanantly imply ‘we should go back to the caves and trees’, as we’ll seem to validate that prior registry-worldviews/dimensions should never had transcended up to our very own registry-worldview/dimension, and beyond, prospectively. Stranding (of-perverting-temporal-dispositions-of-reference-of-thought) should be construed at a registry-worldview’s/dimension’s uninstitutionalised-threshold (the threshold where the registry-worldview/dimension is failing/not-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation), as the ‘base de-mentative/structural/paradigmatic decandored/distractive-alignment-to-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > defect reflex’ (not a straightness/candor/organic-comprehension-thinking/prelogism reflex), and ‘de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) rather points to ‘a (lack of) the-Good/understanding/notional–knowledge-reification–gesturing—in-prospective_psychologismic–apriorising/axiomatising/referencing–of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity }—conflatedness in (preconverging-disentailment-by)-postconverging-

The example highlighted on page provides an excellent ‘logical insight’ on stranding-backdrop-for-transcendence and recomposuring of a registry-worldview/dimension that is failing/not-upholding—<as-of—apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or—ontological-preservation at its uninstitutionalised-threshold. … To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a
new human subknowledging\(^{34}\) caused by a disease wherein we tend to say \(2+2=5\), \(5+1=7\) and \(7-3=3\), then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality<for-sublimating–existential-eventuating/denouement>--of-affirmative-and-unaffirmative–disambiguated–’motif-and-apriorising/axiomatising/referencing’ as from ontological-normalcy/postconvergence). Thus reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{39}\) are ‘mental and institutionalisation inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging\(^{34}\)/mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{39}\) null and void, calling for overcoming the slantedness/decandoring/distractive-alignment-to reference-of-thought–of-apriorising/axiomatising/referencing\(^{30}\) of mental-devising-representation as to its unsoundness-or-ontological-bad-faith/inauthenticity\(^{34}\)-of-reference-of-thought arising from the perversion-and-derived-perversion-of-reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, and the articulation of new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{39}\) reflecting the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as intrinsic reality. In practical terms, human/social VIRTUE is effectively articulated at ‘the crossroad of the notions’ of intemporal-disposition, ontologising/intemporal-disposition philosophical deference, conventioning, animality (the recurrent temporal-dispositions to subknowledge–(preconverging-or-dementing—as-if-of-sound-knowledge) intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{39}\),-for-
intemporal-preservation-entropy-or-contiguity—or—ontological-preservation across successive institutionalisations) and institutional recomposuring (prospective memetic-reordering). It is important to note that an ontological construct ‘escalates’ specific/particular instances of phenomena (in this case psychopathy and social psychopathy phenomenon) into a universal conceptualisation which ‘knowledge principle conceptualisation’ then addresses (percolates into) the ‘infinity of related incidental phenomena and cases’, i.e. Newton articulates the science of mechanics metaphorically from ‘an initial apple that hits his head while under a tree’ not because the science of mechanics will revolve around an apple that hit his head but because he’ll grasp the insight to understand the myriad and infinity of instances requiring those laws of physics. So the intemporal-as-ontological pedestal (in its treatment) involves universal projection to grasp universal principles and is not meant to ‘equivocate and idle’ with perversion-of- reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation temporal manifestations which are dialectically-or-contendingly-out-of-phase, but rather then apply the knowledge principles so articulated to the theoretically infinite incidental instances (on the validation and untenability/internal-contradiction/internal-incoherence/institutional-constraining or internal-contradictions induced by the knowledge principles <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity ). Of course, no registry-worldview/dimension thinks of itself as prospectively dialectically-primitive/dialectically-or-contendingly-out-of-phase, and as such its ‘supposed contention’ will always by reflex strive to arrive at an equilibrium in the same registry-worldview’s/dimension’s institutionalisation <reference-of-thought—notational-imperatives/axioms/registry-teleology>, but the template of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity shows that the intemporal prospective/superseding registry-worldview <reference-
of-thought takes precedence with contention construed by its categorical-imperatives/axioms/registry-teleology\textsuperscript{99}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation by the ontological-normalcy/postconvergence prioritisation of the relatively intemporal/universal/intrinsic, hence, ‘the inherent cumulating/recomposuring of intemporal-preservation-entropy’ going from recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–nonuniversalisation, nonpositivism/medievalism, positivis–procrypticism, and prospectively deprocrypticism. Such a subknowledged\textsuperscript{6} mimicking/registry-worldview denaturing\textsuperscript{6} resistance is not attended to logically/by-logical-congruence since a perversion-of-reference-of-thought\textsuperscript{<as-preconvergingly-apriorising/axiomatising/referencing-in-

For instance, men did not transcend from a medieval worldview to a positivistic worldview by a ‘logical exercise’ (the logical conceptualisation we have of such a transformation in today’s positive world is rather in effect an afterthought appraisal) but because the grander grasp on reality of positivism constrained and made the medieval registry-worldview untenable/internally-contradictory (the ships that set sail around the world for spices elicit a positive commercial opportunism that is responsible for destroying the social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not coerced the destruction of a superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, coerces the need to adopt a scientific worldview, etc.). It is naïve to think that such progression occurred because of cross-sectional human ‘dimensionality-of-sublimating-(amplituding/formative)supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) disposition’. Rather it is a secondnatured/ontological-contiguity—of-the-human-institutionalisation-process as this notion inherently validates the anthropological-continuity by distinguishing between the notion of same human natural ability
across the various registry-worldviews/dimensions and the notion more and more profound institutionalised registry-worldviews/dimensions arising out of human institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>} to the capacity bestowed by their forerunners; such that human limited-mentation-capacity is always mostly directed to the transformative of activities while taking for granted much of the bestowed knowledge heritage. Hence we can’t overrate the ‘dimensionality-of-sublimating’ {<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} disposition’ development of the cross-section/averageness/banality of solipsistic human thought to wrongly imply human dimensionality-of-sublimating {<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} disposition is inherently intemporal, for the possibilities of human progress (due to the veridicality of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor at the uninstitutionalised-threshold} across all levels of institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>} ‘a lost cause’ which will never be changed with the result that temporal-dispositions will always dement (‘perversion-of-’reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-

Directed-preconverging-or-dementing–apriorising-psychologism as such being a conscious and operant mental awareness of psychopathic/postlogic minds of the void of their narratives and teleology but understanding and acting by instrumentalisation on the basis that prelogic/conviction-as-to-profound-supererogation minds are disposed to elevate the hollow mimicking narratives (by ignorance and/or subsequently affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to wrongly validate the apriorising-registry as veridical thus falsely implying an implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology. Just as we work with the reality that all humans are
perspective–ontological-normalcy/postconvergence–existentialism-form-factor speak of ‘the-
real-nature-of-man’ that can be skewed with institutional recomposuring/memetic-
reordering/psychoanalytic-unshackling towards intemporal-preservation-entropy-or-contiguity–
or–ontological-preservation to explain how-man-can-be/the-nature-of-man at any registry-
worldview level, retrospectively or prospectively. Whereas, man, if naively perceived as a
whole rather only from the angle of a specific ‘institutionalisation/secondnaturing level’ which
is in ‘existential immediacy’ this may seem to indicate that we are talking about ‘different
species’ with ‘different ontological determinants’, which is naïve and false. The
anthropopsychological approach to psychology is analogical to the development of physics
which is not only on the basis of what is immediately at the consciously immediate human
operational/functioning level of physicists but equally projecting into a physics
conceptualisation of the macrocosm (astronomy and cosmology) as well as the microcosm
(particle physics) in other to place the subject on a comprehensively sound footing. Central to
such a sound footing in the ontological-normalcy/postconvergence conceptualisation of the
social domain is the idea of notional~firstnaturedness—temporal-to-intemporal-dispositions-
<so-construed-as-from-perspective–ontological-normalcy/postconvergence> and institutional-
cumulation/institutional-recomposure-{as-to_ historicality/ontological-
eventfulness /ontological-aesthetic-tracing-<perspective–ontological-
normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>}. On another note,
it is critical to distinguish between a true philosophical development that arises by intemporal-
disposition and an institutionalised development that is articulated to elicit ‘positive-
opportunism—of-social-functioning-and-accordance’ in humans, so that the intellectual
exercise doesn’t naively project a philosophical idealism where this doesn’t exist and by so
doing undermine its work by naively projecting \[10\] universal intemporality\[12\]/longness and
failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to articulate a realism that
takes account of temporal mental-dispositions (knowledge-notionalisation, i.e. apprehending not only intemporal implications of any knowledge construct, but preempting by transversality of-affirmative-and-unaffirmative–disambiguated-'motif-and-apriorising/axiomatising/referencing’ to potential temporal undermining of that intemporal idealism construct; the reason we institutionalise/intemporalise and formalise with subsequent internalisation/secondnaturing). It should be noted that the use of the concepts of intemporality/longness and temporality/shortness is more scientific than the impression notions of good and bad. Intemporality/longness points to ‘what generates the greatest universal virtue as ontological which is universally-centered’ (and that this corresponds to reality-referencing and the ontology pedestal) while temporality/shortness points to ‘what generates the non-ontological as shallow interest that may be self-centered, at various pedestals, (and that this corresponds to <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and metaphysical pedestals’). Intemporality/longness and temporality/shortness as such are operant knowledge concepts while good and bad are vague and non-operant impression concepts. In fact, why good and bad are impression-driven, intemporality/longness and temporality/shortness by their very definition above are made operant as an <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective–nonpresencing.–for-explicating-ontological-contiguity scientific principle (without making any reference to stigmatising impression of virtue) by the denotation as longness-of-register-of–meaningfulness-and-teleology (intemporality) and shortness-of-register-of–meaningfulness-and-teleology (temporality). That is, with respect to 'socially-perceived-value as of social-stake-contention-or-confliction' (at uninstitutionalised-threshold) the intemporal mind conceptually asks what is the best disposition in universal-depth that abstractly delivers the greatest good to all humans in similar 'socially-perceived-value as of
social-stake-contention-or-confliction' setup across space and time; while temporal minds under the same notion (intemporality\(^{52}\)-temporality\(^{90}\)) conceptually assume lower and lower shades ‘in mentation-capacity terms’ of such an intemporal \(^{10}\) universal-depth concept articulation stressing in lieu of ‘all humans’ various shades of ununiversal, particular or temporal-self-interest dispositions. So there is a depth of continuity in \(<\text{amplituding/formative–}\text{epistemicity}>\text{causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity}\) in the notion of intemporality\(^{52}\)-temporality\(^{98}\) that doesn’t need any impression-drive, and this notion can certainly be made scientifically operant as it is a contiguous mentation-capacity-based notion in terms–as-of-axiomatic-construct of low to high mentation-capacity. The idea of shortness-of-register-of–meaningfulness-and-teleology\(^{99}\) and longness-of-register-of–meaningfulness-and-teleology\(^{56}\) as such is devoid of stigmatisation which is the result of articulating meaning with respect to vague impression-driven temporal references harkening back to the prior/transcended/superseded \(^{83}\) reference-of-thought rather than the prospective/transcending/superseding \(^{83}\) reference-of-thought; since shortness-of-register-of–meaningfulness-and-teleology\(^{99}\) and longness-of-register-of–meaningfulness-and-teleology\(^{56}\) are a contiguous value construct as in \(<\text{amplituding/formative–}\text{epistemicity}>\text{totalising~‘ratiocontiguity/ratiocination-as-referentialism—implicated_attendant–ontological-contiguity’}-\text{-phenomenal-abstractiveness-of-presencing-in-‘protensive-consciousness’-enabling-}\text{apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of}\text{attendant ontological contiguity }\text{–educed–existentialising/contextualising/textualising-contiguity’ }\text{–<reifying-or-elucidating-of-}\text{prospective-relative-ontological-completeness }\text{-of- reference-of-thought- devolving-as-of-}\text{instantiative-context> of} \text{intemporal-preservation-entropy-or-contiguity–or–ontological–}

articulating meaningfulness in equivalence of temporality/shortness in its various shades, but rather with intemporal purpose and intent, and an ultimate quest for validation only as an causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity conceptualisation will be qualified as ‘longness-of-thought’; and it strives to achieve a prospective de-mentative/structural/paradigmatic existential registry-worldview/dimension conceptualisation of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity wherein aetiologisation/ontological-escalation for prospective transcendental intemporal virtue is the underlying drive. The non-implication of an equivalence between (‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling) with temporality/shortness in its various shades will imply a knowledge conceptualisation rather from the perspective of the comprehension of human species intemporal potential rather than mere extrication within a temporal inter-individuals-and–social-stake-contention-or-confliction context, wherein for instance the focus of a positivistic-inclined mindset/reference-of-thought is not to idly engage a medieval world in medieval terms to stigmatise as a final end but rather for the virtuous human species potentiality to transcend into positivism, and on the other hand equally not to shy away from articulating, however temporally unpalatable and unintelligible–or-existentially-suprastructural for the temporal present registry-worldview/dimension, an intemporal transcendental prospection on the validation that the present registry-worldview/dimension is the outcome of a same-kind intemporal transcendental prospection with a same-kind corresponding emanance unpalatability and unintelligibility for the preceding registry-worldview/dimension, be it in that case driven by a spontaneous and natural dialectical cycle of social constraints of stakes and confliction, in contrast now to a more ‘consciously directed’ abstract understanding regarding deprocrpticism-over-procrpticism (with intellectual responsibility itself being defined as the spirit for authentically upholding such
construing/conceptualisation and/or facilitating it as enabling further self-development together with the furthering of social/specie development). The use of ‘human mental-dispositions/individuations’ as of notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> herein doesn’t mean ontologically that some individuals are inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically intemporal. But rather, it is an abstract construction of human notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> mental-dispositions/individuation potential possibilities that can incidentally arise in any individual by a circumstance or circumstances across time and space; but with a strong propensity of specific dispositions being nurtured in varying profundity across different individuals as per context. This abstract and fleeting notion is known as ‘individuation’ (more like an abstract and superseding ‘hermeneutic-aetiology’ of notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> s, and hence the possibility of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity or scientism), and is the more scientific notion over ‘individual’ (which is just the receptacle of individuations). By pedestal is meant the ‘temporal-to-intemporal individuations dispositions of meaningfulness whether the intemporal-disposition individuation-pedestal or the temporal-dispositions individuations-pedestals (ignorance-temporal-disposition individuation-pedestal, affordability-temporal-disposition individuation-pedestal, opportunism-temporal-disposition individuation-pedestal, exacerbation-temporal-disposition individuation-pedestal, social-chainism/social-discomfiture/negative-social-aggregation-temporal-disposition individuation-pedestal or temporal-enculturation/temporal-endemisation-temporal-disposition individuation-pedestal).

the latter never changes, and it is mental devising that adjusts to the illumination/insight we get about abstract reality/veridicality as validated by causality as-to-projective-totalitative–implications-of-prospective-nonpresencing–for-explicating-ontological-contiguity! In the bigger scheme of things, ‘unconscionability-drag’ as a notion points to ‘ontological abstraction and mental-devising-representation of reality/veridicality defect’ whether dealing with psychopathic postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or temporal-dispositions conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation s or simply plain temporal-dispositions ‘defective mental-devising-representation of ontological reality/veridicality’. The notion of ‘unconscionability-drag’ thus extends to all mental-devising-representation of ontological reality/veridicality: reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of all registry-worldviews/dimensions with respect to the prospective transcendental as the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation registry-worldview/dimension, which is the point of ontological referencing (point-referencing). The reason why the ‘study of the social’ had hitherto been EPHEMERAL is because of the lack of contiguity in referencing the two elements of ontological meaning (reference-of-thought and logic); with reference-of-thought being hitherto undisambiguated in the social construction of meaning, thus leading to a ‘lack of constraining social universal-transparency–{transparency-of-totalising-entailing–as-to-entailing–amplituding/formative–epistemicity}totalising–in-relative-ontological-completeness} of temporal-dispositions prior relative-ontological-incompleteness–induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-

meaningfulness-and-teleology\(^9\) over shortness-of-register-of–meaningfulness-and-teleology\(^9\). The reason for the above is that you can’t address a registry-worldview/dimension perversion-of-reference-of-thought<as-preconvergingly-

The peculiarities of successive institutionalisations is that these address the successive emanant dimensional defects of: recurrent-utter-uninstitutionalisation by emphasising ‘base-institutionalising’, ununiversalisation by emphasising ‘universalising’, superstition/non-positivism/medievalism
by emphasising ‘positivising’, and procrypticism–or–disjointedness-as-of-reference-of-thought preconverging-or-dementing–apriorising-psychologism by emphasising the ‘undermining of disjointedness/subknowledgeing/mimicking’ and so as to ‘longness-of-register-of–meaningfulness-and-teleology over shortness-of-register-of–meaningfulness-and-teleology’ construed as deprocrypticising/preempting—disjointedness-as-of-reference-of-thought’ (noting that the latter institutionalisation/intemporalisation contains the sublimating–nascence of the previous institutionalisations up to its own threshold of institutionalisation/intemporalisation, with notional–deprocrypticism being organically imbued with all the prior/superseded institutionalisations); all these, pointing to ‘an ontological psychoanalytic/memetic-contiguity deconstruction across anthropology’ which the present treatment of psychology doesn’t recognise: (i) Psychopath narrative teleology: an adult psychopath meets a stranger and speaks to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children (ii) temporal-dispositions narratives teleologies: a stranger not knowing the other stranger aligning prelogically to the psychopath’s narrative will have a ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism ignorance-temporal-disposition defect’ if it articulated the following narrative: (a) Such a person should not be allowed to roam the streets and should be interned. A ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism affordability-temporal-disposition defect’ will arise if another interlocutor knowing the accused for not truly being a child molester but because of expediency with respect to the psychopath articulates the following narrative: (b) the guy is actually a bad person and they will not be surprise that he is a child molester. A ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism opportunism-temporal-disposition defect’ will arise if a
different interlocutor knowing truly that the accused is not a child molester but for a favour or sense-of-favour they owe to the psychopath articulates the following narrative: (c) this guy has been going around molesting young children for quite a while now. A ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing’–apriorising-psychologism exacerbation-temporal-disposition defect’ will arise where another interlocutor knowing the truth about the whole thing, thinks they can have an advantage by acting likewise as the psychopath and articulates the following narrative (d) they had actually witnessed the accused shoplifting. A ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing’–apriorising-psychologism social-discomfiture/(social-chainism/negative-social-aggregation)-temporal-disposition defect’ will arise where (e) such narratives are purposefully and consistently relayed in the social sphere based on ignorances/desublimation, affordabilities, opportunisms and exacerbations, and individuals come to make it a reference for their relation with the accused. And finally, a ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing’–apriorising-psychologism temporal-enculturation (temporal-endemisation)-temporal-disposition defect’ arises where (f) individuals come to learn that by having the appropriate social relations and social support network they can then initiate such narratives if they were to have competing 'socially-perceived-value as of social-stake-contention-or-confliction' situations with others, and not only that it also includes individuals passively accepting and giving up on the principle of the intemporality /longness and intrinsicness of meaning. It is important to distinguish all the above ‘temporal instances conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing’–apriorising-psychologism of the psychopath’s postlogism—slantedness in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation’, and is different from ‘a defect of logical operation/processing/contention which

of the so-called ‘perversion-of-reference-of-thought-as-preconverging-aperiorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation dimension’; this applies with regards to recurrent-utter-uninstitutionalisation and base-institutionalisation, ununiversalisation and universalisation, non-positivism/medievalism and positivism, and prospectively for upcoming times, procrypticism and deprocrypticism. The explanation is quite simple; as individuals in any institutionalisation/intemporalisation registry-worldview/dimension are formed by the memetic-ordering/psychoanalytic-construction at that registry-worldview/dimension which is ‘all-defining of meaningfulness (in terms–as-of-axiomatic-construct of reference-of-thought and logic)’ to the individuals and so right up to their subconscious mind. But then a prospective transcendental memetic-reordering/psychoanalytic-unshackling is placing such a prior memetic-order/psychoanalytic-construction of their existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation in jeopardy, and it is only the causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity social universal-transparency~(transparency-of-totalising-entailing–as-to-entailing ~amplituding/formative–epistemicity totalising~in-relative-ontological-completeness } of the prospective intemporal dimension inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining with corresponding percolation-channelling~in-deferential-formalisation-transference> impact from the prospective registry-worldview/dimension on the overall social-construct over a generation or two or more that allows for any such ‘habituation’ to a prospective registry-worldview’s/dimension’s transcendence-and-sublimity/sublimation/supererogatory–de-mentativity with its new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology. This will explain the difficulty of medieval minds (including institutions like the church) over centuries to come to terms with
positivism and scientism such that the positivistic psychoanalytic-unshackling/memetic-reordering/institutional-recomposing is still ongoing. Counterintuitively, every successive institutionalisation/intemporalisation registry-worldview/dimension naively thinks it being at the backend of the ‘institutional-cumulation/institutional-recomposure’ process’ means it is beyond transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as it doesn’t project of itself as being superseded by a prospective registry-worldview with its new recomposing reference-of-thought–categorical-imperatives/axioms/registry-teleology (as of supplanting-conviction-as-to-profound-supererogation –of–attendant-intradimensional–postconverging/dialectical-thinking –apriorising-psychologism) at the point where the former starts its own reference-of-thought–categorical-imperatives/axioms/registry-teleology, and does not tend to represent itself as oblongated/decandored/logical-incongruence-or-transversality–for-sublimating–existential-eventuating/denouement>/dialectically-or-contendingly-out-of-phase as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation <as-to–attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism> from a prospective dimension perspective in the sense that. reference-of-thought–categorical-imperatives/axioms/registry-teleology is the effective backdrop for ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for the prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and this is rather crossgenerational in nature (rather than instant intra-generational registry/registry-worldview transformation) as personhoods-and-socialhood-formation are rather grounded on the superseded/transcended/unsound reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. The above analysis shows that soundness-or-ontological-good-faith/authenticity reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontological-normalcy/postconvergence). Unconscionability-drag (from an ontological/intemporal reference) ensures the disambiguation of registries so that the psychopath’s and temporal-dispositions are not elevated to the intemporal level which then allows for, by reflex, a simple operation/processing of logic (whereas the fundamental defect being in terms–as-of-axiomatic-construct of the apriorising–registry-elements, implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology of the registries, i.e. rather the unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought or the dialectically-or-contendingly-out-of-phase meaningful construct). Unconscionability-drag (from an ontological/intemporal reference) is thus central to attending to the rational-realism of notional~deprocrypticism as of ratiocontiguity/ratiocination-as-referentialism—implicated_attendant–ontological-contiguity as nondisjointing ‘postconverging–de-mentating/structuring/paradigming as human-subject-
emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> as it accounts for the defect of temporal-dispositions teleologies of meaning (shortness-of-register-of-meaningfulness-and-teleology) while projecting intemporally/ontologically. The notion of ‘unconscionability-drag’ also explain how and why banal temporal-dispositions are not readily integrative of psychopathic postlogism-slantedness as conjugated-postlogism /preconverging-or-dementing-integration’ (hence no distracting-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing> to the childhood and early adolescent psychopaths but come to develop a ‘mental-unconsciousness’ (unconscionability) to be integrative of psychopathic postlogism-slantedness’ during the stage of late adolescence and adult psychopath. Antipodal to the idea of ‘unconscionability-drag’ is the idea of ‘conventioning’/social-temporal-thresholding. ‘Unconscionability-drag’ points to an abstract but more veridical ontological construct of the ‘social construction of meaning’ that is ontological-normalcy/postconvergence, based on intemporal-preservation-entropy-or-contiguity–or–ontological-preservation by using categorical-imperatives of the prospective superseding/transcendental registry-worldview/dimension whether such a representation is aligned or not with the society’s collective-social-psyche or present-consciousness. (For instance, we can generate an unconscionability-drag of a medieval society on the basis of a positivistic mental projection and categorical-imperatives; wherein we oblongate the solipsistic mental-dispositions of individuations in such a society. While such a representation, with its corresponding subknowledging/mimicking, is ontologically more accurate about such a society, however, the collective-social-psyche/present-consciousness of individuations in the said society will not recognise any such decandored/oblongated/logical-incongruence-or-transversality-<for-sublimating–existential-eventuating/denouement>/dialectically-or-contendingly-out-of-phase representation of themselves, rather the medieval society will
represent itself as candored/straight/integratively-aligned/dialectically-or-contendingly-in-phase which is then the ‘conventioning/social-temporal-thresholding representation of the social construction of meaning’). Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social construction of meaning’, intrinsic-reality by itself and in of itself (as may be grasped ontologically from superseding/transcendental categorical-imperatives preserving intemporality) is not necessarily the deterministic basis for human social adherence to it. Transcended and ontological meaningfulness of reality (contrary to conventioning/social-temporal-thresholding meaningfulness of reality which is rather towards totalising-self-referencing-syncretising/temporality-serving) requires a process of institutionalised/intemporalised social integration to induce untenability/internal-contradiction/internal-incoherence/institutional-constraining to ‘prior or circumstantial social integration gatekeeping construals or (institutionalisation/intemporalisation) percolation-channelling-in-deferential-formalisation-transference’ of ‘any social construction of meaning’ for there to be collective institutionalised social adherence (and by the relative positive-opportunism—of-social-functioning-and-accordance elicited). Institutionalisation/Intemporalisation percolation-channelling-in-deferential-formalisation-transference are the institutionalised relays for human survival-and-flourishing-teleology, whether diffusely from internalisation-and/or-formalism, and are increasingly vital with higher institutionalisations, and most vital for prospective perpetuation-of-deprocrypticism, such that abstractions that will normally hardly be socially integrated going just by averaging human temporal-to-intemporal nature, can actually come from re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-imbued-postconverging/dialectical-thinking-projective-insights/epistemic-projection-in-conflicatedness-of-notional-deprocrypticism-prospective-sublimation intemporal-disposition to inform social institutionalisation/intemporalisation, thus emphasising how vital percolation-channelling-in-

Institutionalisation/Intemporalisation percolation-channelling-<in-deferential-formalisation-transference> imply that the would-be intellectual analyst can perfectly uphold intrinsic reality over ‘social-and-temporal-trading’ and still impose veridicality (if truly veridical) over populist-inclined dispositions which are not veridical, just by the fact of the extendedly implied positive-opportunism—of-social-functioning-and-accordance for human survival-and-flourishing imbued in institutionalisation/intemporalisation percolation-channelling-<indeferential-formalisation-transference>. This implies that an exercise in institutionalisation/intemporalisation beyond just intemporal philosophical projection is needed for the social integration of any transcending veridicality postconverging–dementating/structuring/paradigming (the latter being any notion that put in question informal or formal conventioning/social-temporal-thresholding ways of perceiving and doing things for supposedly prospective better ways). Correspondingly, the social-construct cannot be and should not be related to as a philosophical construct since it is rather ‘conventionalised from institutionalisation/intemporalisation (secondnatured), and has not evolved as of dimensionality-of-sublimating→(<amplituding/formative>supererogatory–dementativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) projection; as it may be inclined to make references to temporal reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that are preconverging-or-dementing–apriorising-psychologism/of-perverted-registry/subknowledging/mimicking–and–epistemic-

For instance, formal institutions selectivity mechanisms; and where the latter fail or are fallacious, basic positive-opportunism—of-social-functioning-and-accordance\textsuperscript{3} wherein the ontologising construct elicits positive-opportunism—of-social-functioning-and-accordance\textsuperscript{22} for the undermining of defective conventioning/social-temporal-thresholding constructs/categorical-imperatives of meaning (for instance, a natural causes disease conception leading to more cures such that positive-opportunism—of-social-functioning-and-accordance\textsuperscript{22} then undermines a superstitious-driven disease theory which leads to more pain and deaths). The big idea here is that, it is naïve philosophically to operate mainly on the basis of ‘ontological rightness of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ with respect to a species whose construct is structured to be temporal (shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{19}) to intemporal (longness-of-register-of—meaningfulness-and-teleology\textsuperscript{19}) requiring skewing (‘intemporality\textsuperscript{12}-asymmetric-subsumption-of-temporality\textsuperscript{19}’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference to the latter. And any such ‘ontological transcendence-and-sublimity/sublimation/supererogatory-de-mentativity by mere rightness’ has
never been acquiesced to for the sole reason of its intrinsic rightness. For instance, round world idea never took off even though it was ontologically right (as the medieval conventioning/social-temporal-thresholding construct and strongly ingrained social dispositions). It is the generated untenability/internal-contradiction/internal-incoherence/institutional-constraining together with positive-opportunism—of-social-functioning-and-accordance to coming from sailors sailing around the world on this idea to seek for spices and create wealth that constrained/institutionalised the medieval world into such an ontological transformation/transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Part and parcel of ontological transformation/transcendence is the existential cynicism to grasp the human sense of internal contradictions and positive-opportunism—of-social-functioning-and-accordance to introduce and uphold these by the mechanism known as institutionalisation/intemporalisation. Regarding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective notional-deprocrypticism undermining of procrypticism, it is doubtful that pertinent ontological constructs and generally the ‘perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ dynamics of procrypticism’ are by themselves a sufficient basis for the direct and immediate social integration of notional-deprocrypticism because of its ‘rightness’ over conventioning/social-temporal-thresholding. Part and parcel of the intellectual exercise is to understand how to manage the mechanism of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity wherein new and more profound ontological constructs are introduced and upheld, particularly by way of institutional percolation-channelling-in-deferential-formalisation-transference for intemporal transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. However, it should
be notated that the conceptualisation of ‘conventioning’ is not wholly antipodal to ‘ontologising/intrinsic-veridicality’ as the latter prospective integration in the social-construct is through the former; ‘conventioning’ is thus a dynamic conceptualisation articulating, on the one hand, how prospective temporality/shortness undermines/subknowledges-or-mimics the intemporal/ontological construction of meaning (like postlogism-slantedness, miscues, logical-drag, unconscionability-drag, sub-par-conventioning-rationalising, and temporal-enculturation, with respect to reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the intemporal meaning), and on the other hand, how prospective intemporality/longness is regenerated to supersede/transcend such perversion-of-reference-of-thought—as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and bring about new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Organic-comprehension-thinking (as to supplanting–conviction-as-to-profound-supererogation—of ‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism) as highlighted above contrasts with threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism> which is rather temporal-driven (whether ignorance at best, slantedness/psychopathy, affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). Organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of–reference-of-thought’–as-confledudness–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology), being intemporal-driven, with respect to transcendence-and-
sublimity/sublimation/supererogatory/de-mentativity points to the fact that the articulation of meaning referenced/registered/decisioned differently in two registry-worldviews/dimensions, the 'perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation' as retrospective and transcendental as prospective, is/should be wholly referenced/registered/decisioned intemporally from the superseding transcendence-and-sublimity/sublimation/supererogatory/de-mentativity that upholds intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; as the ‘intemporal mind’ can’t go after the value reference of both registry-worldviews/dimensions since transcendence-and-sublimity/sublimation/supererogatory/de-mentativity is about ‘subverting’ 'perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation' by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. For instance, the non-positivism/medievalism value references of aristocracy/class are contrarian to positivistic value references for the possibility of equal opportunities; and the intemporal projecting positivistic mind in medieval times has no business trying to appear ‘great and wonderful’ with respect to ‘conventioned’ value reference of aristocracy/class in the medieval world even though it is the dominant and encultured collective mental-disposition. Likewise, such logic will apply regarding notional–deprocripticism and procripticism requiring a reasoning that goes beyond the ‘<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present’ mindset/’reference-of-thought of our current procriptic mental-disposition, i.e. ‘the limit of ontological thought is not the banal <amplituding/formative> wooden-language ⟨imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology–as-of–’nondescript/ignorable–void ‘-with-regards-to-prospective-apriorising-implications⟩ of a registry-worldview/dimension’. Otherwise no
progress is possible as a dimension progresses exactly because it has defects which when overcome enables the progress to occur! The ‘apparent profoundness’ of such temporal reference of thought is rather ‘depth-of-ignorance’ rather than ‘depth-of-elucidation’. Threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation-<as-to-
attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –
apriorising-psychologism> arises as a result of shallow mental-dispositions induced by temporal-dispositions, and their disambiguation should be called for, and not decandored/straightened/integratively-aligned as if intemporal/longness in nature but rather as temporal/shortness. Threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation-<as-to–
attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –
apriorising-psychologism> as such is rather a ‘flatness-of-the-mind’ involving temporality’, ‘mental triteness’ and ‘gullibility’ with respect to, in the case of psychopathy, insane/slantedness integration as social psychopathy; and more generally, ‘lack of intemporal-disposition philosophical depth’, i.e. lack of spontaneous dimensionality-of-sublimating–
inclusion (the-guy-who-spontaneously-stands-out-against-say-a-genocide or the milgram-experiment-guy-who-sticks-with-what-is-reality-rather-than-going-with-the-flow, etc.) not to be confused with secondnaturing/institutionalisation, and as a consequence an inclination to compromise intemporality/longness as ‘conventioning (social-temporal-thresholding) of meaning’ rather than ‘ontologising (intemporal-uncompromising) of meaning’. Overall threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism points to the fundamental processes of ‘social temporal miscuing of meaning’ and the effective temporal consequences whether regarding defective enculturation or defective social ontologisation/ontological-veracity/aestheticisation-towards-ontology. This thus requires ‘deconventioning-for-ontologising involving the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise of undermining conventioning at uninstitutionalised-threshold (due to the inescapable veridicality of human individuation temporal/shortness-to-intemporal/longness which inevitably induces perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation at uninstitutionalised-threshold); deconventioning as such skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) and restores ontological veridicality for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. An essential element underlying the psychopathic and other postlogic relationship with meaning has to do with the nature of attachment to meaning. A postlogic mind doesn’t view meaning
articulations as ‘inherently sanctuous’ and thus is inclined to produce mechanically whatever
deductions that may engage an interlocutor in-prelogic supplanting–conviction-as-to-profound-
supererogation

apriorising-psychologismly/prelogically even if these are hollow mimicking non-veridical
narratives, i.e. vague-rhyming-or Copied-mimicry-or-formulaic-projection-or-projection-of-
form-or-hollow-and-vague-vocalisation-or-subknowledging (meaning-by-the-mere-Illogical-
possibility-of-it-being-formulaically-narrated). On the other hand, prelogism-as-of-
conviction,-in-profound-supererogation imply more of an organic alignment view of meaningful articulations as
‘inherently sanctuous’, i.e. ‘attendant-ontological-contiguity-educed—
existentialising/contextualising/textualising-contiguity /meaningful-projection-of-
intrinsicness’. Going by these two facts, the postlogic and psychopathic mindset/
reference-of-thought is readily inclined to call upon a broad base of vague-rhyming-or-copted-mimicry-or-
formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-
subknowledging (meaning-by-the-mere-Illogical-possibility-of-it-being-
formulaically-narrated) whereas the prelogic/conviction-as-to-profound-supererogation
mindset/reference-of-thought is inclined to call upon just the narratives it sincerely thinks are
relevant/due and intrinsically real. So it is critical not to confuse the over-articulation of
postlogic narratives (vague mechanical stylising-of-location) with an organic depth-of-thought
or profundness, given that these involve postlogism—slantedness, disjointed-logic, miscuing,
inventions and platitudes from the postlogic mindset, requiring
decandoring/oblongating/distractive-alignment-to/reference-of-thought<of-
apriorising/axiomatising/referencing> . Ontologically speaking, meaning is an essential
construct of human mental-devising-representation meant to allow for human intemporal
teleology. A postlogic-formulaic slanting threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-attendant-intradimensional’-prospectively-disontologising-preconverging/dementing—apriorising-psychologism relation to such a conceptualisation is sub-par-or-formulaic-association-or-temporal-or-alibi to ontology and is thus regarded as ‘perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ referencing’ that is ontologically inconsistent as it counts on the fact that others remain intemporal/ontological for it to exist parasitically/co-optingly. Worst still such vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging tend to be integrated at uninstitutionalised-threshold of conventioning/social-temporal-thresholds. Without a sense of ‘rational-realism’ (the veridicality of meaning involving not only the logical processing/operation of narratives but preceding notional–firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective–ontological-normalcy/postconvergence disambiguation, i.e. in terms–as-of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology), by prelogism-as-of-conviction,-in-profound-supererogation-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at reflex, prelogic/conviction-as-to-profound-supererogation and postlogism-formulaic slanting narratives as to threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-attendant-intradimensional’-prospectively-disontologising-preconverging/dementing—apriorising-psychologism will be analysed at the same pedestal towards construing veridicality/intrinsic-reality. Such an analysis is wrong as an inherently prelogic/conviction-as-to-profound-
syncretising/circularity/interiorising/akrasiatic-drag , with pertinence being about ‘articulating and directing’ intemporal/ontologically-contiguous meaningfulness towards the ‘institutionalisation/intemporalisation percolation-channelling<-in-deferential-formalisation-transference>’; the latter being utterly impersonal (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. By ‘uninstitutionalised-threshold’ (where there is no ‘intemporal social universal-transparency \{transparency-of-totalising-entailing,-as-to-entailing<-amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness \} as well as no notional-firstnatedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation/unequivalences/alienative-hierarchisation’) is meant, the possibilities of human dispositions and acts beyond frameworks that have not been institutionalised; manifesting as (uninstitutionalisation) ‘temporal-threshold logic’ or ‘discomfiture’. So the uninstitutionalised-threshold of the positive registry-worldview will refer to procrypticism (requiring deprocrypticism), to the non-positivism/medievalism registry-worldview it will refer to non-positivism/medievalism (requiring positivism), to the ununiversalised registry-worldview it will refer to ununiversalisation (requiring universalisation), and to the recurrent-utter-uninstitutionalised apriorising–registry worldview it will refer to recurrent-utter-uninstitutionalisation (requiring base-institutionalisation). Institutionalisation and formalisation are based exactly on the fact that we don't have a universal intemporality /longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Hence we tend to build artifices (institutions with their formal rules) by the skewing (‘intemporality asymmetric-subsumption-of-temporality’, for relative intrinsic-
reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-
mentativity)/deferential-formalisation-transference of our collective thought process in the
medium to long perspective towards intemporal-preservation-entropy, to dominate and preempt
temporal dispositions. This explains why modern man (positivistic registry-worldview) is
apparently more evolved/developed than he/she should normally be compared to previous
generations (recurrent-utter-uninstitutionalised men, ununiversalised men, non-
positivism/medievalism men, and prospectively, how he/she will be superseded by the
deprocryptic man). It doesn't mean that modern man has a genetic makeup or hardware that is
different from the others. The difference is the cumulated ‘software’ or institutionalisations and
formalisations that have been internalised into modern man. Anthropologists know that if you
were to take a newly born child from a society like those that do not have contact with the
modern world, and raise the child in a modern family, there is no different outcome on average
as with any other child bred in the modern world. So our faith in virtue is not in our inherent
excellence/exceptionalism but the excellence/exceptionalism of the software/institutionalisation
that has cumulated, and insightfully, which creative template we will prospectively develop!
Incidentally institutionalisation and formalisation ensures that we take the best form of human
individuation thinking/capacity potential and constrain society and individuals to that
individuation thinking/capacity potential, and inherently so, by the overall positive-
opportunism—of-social-functioning-and-accordance to the cross-section of the species since
it better grasp intrinsic reality and its virtues! Solipsism means I exist alone (as to the epistemic
perspective with respect to intrinsic reality/ontological-veridicality), and this author notionally
interpret solipsism as the deepest sense of existence and meaning available to an individual in
its spontaneous emanance or becoming, and as it projects itself ‘purely and universally’. It is
a firstnature/intemporal construct beyond and ‘inventing the possibility’ of secondnatured
institutionalisation, and places all humans at all times at the same pedestal of virtuous and
ontological appraisal, as it is about our ‘transcendental valour’ irrespective of the level of institutional-cumulation/institutional-recomposition/{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-{perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’}> at which we are. It contrasts with institutionalisation/intemporalisation which is ‘a negotiated and secondnatured or nurtured construct with respect to existence and meaning around social-stake-contention-or-confliction’. Institutionalisation/intemporalisation as such, by way of positive-opportunism—of-social-functioning-and-accordance ⁵ and inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining of temporal-dispositions, has at least the merit of allowing for the possibility for human temporal-dispositions to be skewed (‘intemporality⁶-asymmetric-subsumption-of-temporality⁷’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference towards the intemporal-disposition, and thus enabling social transcendence-and-sublimity/sublimation/supererogatory-de-mentativity which is upheld by formalisation and internalisation. By ontological-normalcy/postconvergence is meant that ‘intrinsic reality’ is one and given (ontology), and that the flaws and corrections in how we go about representing ‘intrinsic reality’ (metaphysics or the human-centered temporal-perspective) has no influence on reality’s intrinsic nature. Our mental-devising-representation of the world in 5000 BC, 2000 AD and possibly 3000 AD might be worlds apart, but the intrinsic nature of reality never changed and will never change an iota. So our knowledge construct is more of a proxying to intrinsic reality to grasp the possibilities of the-Good/understanding/notional~knowledge-reification–gesturing-{in-}

That idea that intrinsic reality is preceding/superseding is known as ontological-normalcy/postconvergence (we are converging to reality and not adding or taking away anything from it, it is us being illuminated as reality is already given). In the exercise of construing ontological veridicality what gives in when the pertinence of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity is known is the human psyche (whether by candoring/straightness/prelogism when pertinent or decandoring/slantedness/distractive-alignment-to–reference-of-thought–<of-apriorising/axiomatising/referencing> when impertinent), intrinsic reality never gives in (that’s why we are mortals and our hope is to always give-in to intrinsic reality for the possibilities of the future). This latter point is important as by reflex an epistemic-totalising ~self-referencing-syncretising/temporal-human-centered dimension in its flaws will strive to preserve itself by <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its registry-worldview/categorical-imperatives (setting-aside of perversion-and-derived-perversion–reference-of-thought) rather than psychoanalytically-unshackling/memetic-reordering (coring and superseding the perversion-and-derived-perversion–reference-of-thought) for prospective/transcending/superseding reference-of-thought–categorical-

purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality due to their ‘emotional involvement’ is immediately obvious with the natural sciences whereby the physicists nor chemists nor biologists worries about convincing anyone but is rather in the business of ‘the convincing from natural truths’ which then do not ask for human temporal validation but impose themselves because natural truths inherently supersede human egotistic or opinionatedness! Postconvergence, in the bigger scheme of things, implies that knowledge has to do with the development of our ‘mentation capacity’ (an entropic-referential memetic-reordering/psychoanalytic-unshackling exercise), across ‘retrospective-and-prospective history’, in grasping ‘intrinsic reality/veridicality’ which ‘has always and will always be ontologically same’. So the concern is about ‘us’; in the appropriateness of the registries we make of intrinsic-reality across retrospective-and-prospective history or rather shifting dialectical moments of relative-ontological-completeness! The articulation of reality, registry-worldviews/dimensions, mental strands (perverted or not), and other constructs of causality ~as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity is ‘at-a-superseding-pedestal and incisive/blunt’ by the very nature of ontological-normalcy/postconvergence reality. For instance, supposed a society with a non-positivism/medievalism belief system attributes the cause of a disease to say witchcraft, that doesn’t stop the reality of bacteria causing the disease even if such a representation of reality isn’t in the present-consciousness/illusion-of-the-present of that society. Such an ontological conceptualisation of reality equally applies in our times where it can be demonstrated prospectively that our mental-devising-representation of meaning regarding a phenomenon is out of kilter, and reality won’t stop to accommodate us or our banality of thought. Thus the conceptualisation of reality is rather articulated at this depth-of-
thought whether it accommodates our present-consciousness/illusion-of-the-present or not (reality personality), and operates by an ordered construct based on causality～as-to-projective-totalitative～implications-of-prospective-
nonpresencing～for-explicating-ontological-contiguity and not a disposition of averageness/banality/popularity/extrinsic-attribution-of-thought recurrent in uninstitutionalised-threshold 02 in the extended-informality～{susceptible-to-effecting-parsimony-as-of-shoddiness-
and-incompleteness-to～meaningfulness-and-teleology}, allowing for the possibility of transcendental meaning, institutionalisation/intemporalisation (skewing (‘intemporality 03～asymmetric-subsumption-of-temporality 03’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory～de-mentativity) for intemporal domination) and human progress; given human temporal/shortness-to-intemporal/longness dispositions. Such an articulation of reality introduces the concept of ‘reasoning-through/utterion’ over incrementalism-in-relative-ontological-incompleteness～enframed-conceptualisation and notional～disjointedness’. Reasoning-through/utterion refers to the uncompromising and non-negotiable nature of reality with respect to the meaningful frames of mortal creatures that we are as reality doesn’t adjust to our beliefs, desires, wishes, whims or miscues. Reasoning-through/utterion then implies that meaning is articulated exclusively in terms～as-of-axiomatic-construct of causality～as-to-projective-totalitative～implications-of-prospective～nonpresencing～for-explicating-ontological-contiguity and anything else is defined, whether to be candored or to be decandored, at that ordered construct point-of-reference or point-referencing. Reason is thus ontologically a ‘reasoning-through’ as allowed through in a ‘pure, organic and intemporally uncompromising state’ by reality causality～as-to-projective-totalitative～implications-of-prospective～nonpresencing～for-explicating-ontological-contiguity ‘at-a-superseding-pedestal and incisively/bluntly’. incrementalism-in-
relative-ontological-incompleteness\textsuperscript{58}—enframed-conceptualisation and notional~disjointedness-as-of-\textsuperscript{7} reference-of-thought refer to the human reflex to average minds or make reference to extrinsic elements rather than meaning by its inherence as can be predicated effectively, and involves ‘reasoning with’, as it introduces ‘temporal and social trading’ elements over or clouding or compromising inherent intemporal veridicality.

incrementalism-in-relative-ontological-incompleteness\textsuperscript{58}—enframed-conceptualisation and notional~disjointedness-as-of-\textsuperscript{7} reference-of-thought as such is patently wrong; as can be perceived from point-referencing superseding registry-worldviews/dimensions such that the ontological representation of the veridicality is different from the different perspectives of a recurrent-utter-institutionalised registry-worldview and the superseding institutionalised registry-worldview, and likewise with the ununiversalised and superseding universalised registry-worldviews, the non-positivism/medievalism and superseding positivistic registry-worldviews, and prospectively the procryptic and superseding deprocryptic registry-worldviews. It implies that ‘it isn’t veridically weird’ to articulate depths-of-meaning that may apparently seem idiosyncratic in our present illusion-of-the-present/present-consciousness registry-worldview, as the issue is not with such an articulation per se but rather ‘our defective apriorising–registry point-referencing threshold’, and implying rather the need for our psychoanalytic-unshackling/memetic-reordering/institutional-recomposing by distractive-alignment-to-\textsuperscript{10} reference-of-thought-\textsuperscript{7} of-apriorising/axiomatising/referencing.\textsuperscript{10}

Fundamentally, incrementalism-in-relative-ontological-incompleteness\textsuperscript{58}—enframed-conceptualisation and notional~disjointedness-as-of-\textsuperscript{7} reference-of-thought in human thinking as indicated above with the various institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-\textsuperscript{7} perspective–ontological-normalcy/postconvergence-reflected-’epistemicity-relativism-determinism’} is superseded by reasoning-through/utterion; in transversality-\textsuperscript{7} for-sublimating–existential-

Technically, pedestalled disambiguation should involve reflecting/perspectivating/highlighting from the intemporal-disposition pedestal teleology finality/questioning mental-profoundness (deep candor) the relative longness/shortness-of-teleology of temporal-dispositions teleologies finalities/questioning mental-triteness (light candor), starting with slantedness pedestal finality/questioning (which is the psychopath’s insane/slantedness-fitment-roaming/drifting-cycle), and as it conjugates/inflects across other temporal pedestals teleology finalities/questioning (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfure-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). Pedestalled disambiguation points to the fact that the social representation of meaning is transversal/logically incongruent at uninstitutionalised-threshold as reflected by human temporal-to-intemporal dispositions (hence the need to articulate various pedestals of

Pedestalled disambiguation explains the dynamism of human institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing,<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism-determinism’>}) going by a recurrent emanance/becoming template that involves: (1) Free-for-all implying an equivalence of notional-firstnatures—temporal-to-intemporal-dispositions-so-construed-as-from-perspective—ontological-normalcy/postconvergence as being all intemporal (rather than temporal-to-intemporal), with the result that meaning then becomes veridically a hotchpotch of various formulaic-association, temporal, attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity-reifying-or-

For instance, a state of nature (recurrent-utter-uninstitutionalisation) application of the law variably making reference to circumstantial social power relations and spontaneously articulated notions of vices and virtues but no or poor universal rules (mob situations as well as social psychopathic situations will fall under such an interpretation as well). (2) Pedestalling (‘intemporal-prioritisation-of-reference-of-thought’—as-conflatedness-or-ontological-reprojecting pedestalling) articulates the relative grandor and virtuous consequence of the pedestalled supersedingness of the intemporal-disposition by its intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that then leads to society’s temporal-to-intemporal cross-sectional ‘dimensionality-of-sublimating’; whether deference with regards to a superstition/belief system/religion, essences/universal-notions, positivist idealism/principles-rationalism (and prospectively rational-realism as of deprocrypticism), involving a posture (institutionalised disposition) of the sort ‘the-say-that or it-is-said-that’ as ‘dimensionality-of-sublimating’ projection induced deference’ to the intemporal/longness disposition, for instance, ‘scientists say that’, ‘the Bible says that’, ‘it is said that one should not set foot in that forest as it will bring bad luck’, etc. This ‘the-say-that/it-is-said-that’ ‘dimensionality-of-sublimating’ projection induced deference’ explains why
institutionalisation/intemporalisation has been happening across human history; whether deference from personalised/animists beliefs to philosophical, religious and other social belief systems, deference from haphazard application of social rules to universal notions, laws and principles, deference from spirit-and-mystical-driven notions of nature and various alchemies to a modern scientific construct system. Hence the very place of the averageness/banality-of-human-thought-and-meaning in history has been for it to defer to superseding intemporal-disposition construal by ‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling. There is no such thing as allowing thought-and-meaning to the whims of masses thinking but rather deference to ‘reality/veridicality predicating constructs’; as enabled abstractly and existentially by the human individuation intemporal-emanant-registry in superseding human individuations temporal-dispositions. ‘Intemporal-prioritisation-of- reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling carries the implication that reference-of-thought and meaningfulness is fundamentally/ontologically structured for ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and hence the precedence of higher intemporal teleologies over low temporal teleologies of reference-of-thought and meaningfulness; and that subpar preconverging—dementating/structuring/paradigming of reference-of-thought and meaningfulness not for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation but rather as perversion-of- reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of subpar reference-of-thought–categorical-imperatives/axioms/registry-teleology, of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as uninstitutionalised-threshold is ‘perverted reference-of-thought and meaningfulness’ (<amplituding/formative–epistemicity>totalising~self-referencing-

In the same vain, the outcrop of an organic-comprehension-thinking ‘intemporal-prioritisation-of’ reference-of-thought’–as-conflatedness\textsuperscript{13}–or-ontological-reprojecting conceptualisation of notional–deprocrypticism over procrypticism can only be construed within a formal institutionalised articulation not opened to ‘temporal/ordinary disposition contention’ as is the case with subject-matter constructs, but rather an institutionalised percolation-channelling-<in-deferential-formalisation-transference> exercise, so as to avoid temporal-dispositions
denaturing as is the case with all formal constructs, which rather strive to uphold the intemporal/longness-of-register-or-depth-of-meaningfulness teleology while relying on principled methods. Prospectively, the intellectual exercise involved in articulating procrypticism-notional~deprocrypticism and psychopathy and its corollary social psychopathy, will have to imply a ‘dimensionality-of-sublimating projection induced deference’ of the averageness/banality-of-thought (notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>) for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—‘meaningfulness-and-teleology’ as of prospective notional–deprocrypticism institutionalisation/intemporalisation ‘dimensionality-of-sublimating projection induced deference’ of the cross-section of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued ‘notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor to the intemporal-disposition in order for institutionalisation/intemporalisation to take place is critical in inducing the requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (in relation to the unchanging-nature/same-intrinsicness of reality) for human retrospective-and-prospective progress/transcendence; and is necessary by the inherent fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, going by the mediocrity principle (if men were only of intemporal-disposition, no institutionalisation/intemporalisation nor ‘intemporal-prioritisation-of-reference-of-thought’–as-conflicatedness–or-ontological-reprojecting pedestal will be necessary as the mere exposure-to/contemplation-of ‘rightness of thought and meaning’ will suffice for transcendence; such a complete human being doesn’t and has never existed, and not even philosopher-kings from the Socrates, Aristotles and others who explore such possibilities, even though intemporal-disposition possibilities will tend to accrue more to such ‘philosopher-kings’ individuals). (3) The establishment of institutionalisation/intemporalisation involves necessarily ‘delegated gatekeeping and institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> processes’ to uphold it thereafter with formalisms and officialdom surrounding it with respect to temporal-dispositions perversion-of-’reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > and corruption dispositions. For instance, the institutionalisation/intemporalisation of ‘scientific chemistry’ comes with a ‘chemistry lingua’ accessible to those sharing and/or educated to uphold the meaningful frame, on the justification that they explain and account more about the material world than any other alternative. This justification goes on to make them formalism and officialdom percolation-channelling-<in-deferential-formalisation-transference> to the

A further and nonetheless important reason for such delegation is the relative superficiality

validation and that there-is-no-discretionary-construal-of-ontology/ontological-reality since
intrinsic reality is superseding of all mortals including the intellectual-analyst. Basically the issue of the intellectual-analyst exercise in grasping such an intrinsic-reality is a proxying one superseded by the causality of reality ‘which in no way depends on any notion of the intellectual-analyst’s choice/luxury’ (as the intellectual-analyst might actually have by another individuation chose not an intemporal/ontological projection but a temporal posture ‘in moral/intellectual equivalence with temporal mental projections’ with nefarious temporal consequences). Basically, there is nothing like an intemporal temporality/shortness whereby there is any intemporality/longness in accommodating human temporality. Likewise, supposedly the intellectual-analyst was to come short in its intemporal projection or other universal values by temporal manipulation, it is very naïve to ‘reason and projecting temporally’ that eliciting such ‘an inductive-limitation (the-paradox-of-a-universal-rule-that-doesn’t-apply-universally-but-to-a-specific-circumstance-to-satisfy-a-temporal-urging)/gotcha-logic/suggestibility’ should undermine the essence of ontological/intemporal meaning which is ‘above a human intellectual proxying exercise to it’ and doesn’t depend on it to exist inherently, is nothing but temporal naivety. The reality of a round world doesn’t depend on its recognition of a medieval mindset/reference-of-thought for it to exist likewise with any veridicality/intrinsic-reality regarding psychopathy and a social manifestation whether it is palatable or not. Finally, temporal-dispositions as eliciting temporal vices-and-impediments are in no way qualified to contend about intemporal articulation/projection. In effect, such temporal pretence are nothing but totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions meant to satisfy the ‘mortals temporal preservation’ on the basis of ‘locale context logic’ and not ‘intemporal preservation as ontological veridicality with the potential for a grander human
good’ on the basis of ‘universal implications’; as inevitably, ontologically, the resolution of ontological/being perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation defects (and as per their manifestation and conjugation as postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought–devolving ontological-performance<including-virtue-as-ontology>) are as prospective registry-worldviews/dimensions constructs that supersede the prior/superseded registry-worldview’s/dimension’s perversion of reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (uninstitutionalisation de-mentatively/structurally/paradigmatically superseded/resolved/rendered-inoperant by base-institutionalisation, ununiversalisation by universalisation, non-positivism/medievalism by positivism, and prospectively procrypticism–or–disjointedness-as-of-reference-of-thought by deprocrypticism). Supposed the intellectual-analyst was to act temporally to the point of overlooking such ontological implications to the level of lowly temporal minds, lowly because not universal-projecting, it won’t mean that the ontological reality will evaporate. It will simply mean that the intellectual-analyst has failed in its intemporal/ontological projection, more like Darwin doesn’t have the choice/luxury of deciding from his insight that evolution doesn’t exist in placating any temporal mortals or Galileo doesn’t have the choice/luxury of deciding from his insight that the world is not round in placating any temporal mortals, and if they were to make that choice they affirm nothing more than their ‘aggrandised mortality’. The blunt/incisive reality is that they being in that position to affirm intemporality/ontology/intrinsic-reality-as-providing-future-universal-possibilities-for-the-human-species are the ‘very tip of the possibility of human civilisation’ and their
moral/intellectual posture is to ‘bluntly look down’ to the ‘little mortal creatures of temporality’ and ‘shepherd the sheepishness-of-the-species’ to grander civilisational grounds. It is an ontological ‘moral and intellectual responsibility and privilege’, actually, to be in any such position, going by the eudaemonic-contemplation which is what ‘effectively grants existential moral and intellectual superiority’ and not naïve temporality/shortness accommodating conventioning constructs about any such pretence which is nothing more than temporal/the-mortals’ perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing—apriorising-psychologism; as any such is not the intemporal-disposition that started base-institutionalisation (to thwart recurrent-utter-uninstitutionalisation) through universalisation (to thwart ununiversalisation), positivism (to thwart non-positivism/medievalism), and prospectively its intemporal-disposition that will enable notional-deprocrypticism (to thwart procrypticism—or-disjointedness-as-of-reference-of-thought) and thereafter; the intemporal individuation as such projects in an ‘abstract eternity’ which is what allows for the intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. Temporal-dispositions may not need to understand as of amplituding/formative–epistemicitytotalising~self-referencing-syncretising/present-consciousness/illusion-of-the-present for the pertinence of intrinsic reality to be established as it is preceding in ontological-normalcy/postconvergence, anyway, that is why it is ‘a registry-worldview’s/dimension’s prospective institutionalisation/intemporalisation secondnaturing exercise’, and ‘not human temporal-dispositions transformation exercise’ into intemporality!

Ultimately, like all institutionalisation/intemporalisation construct, there is a ‘dimensionality-of-sublimating’ projection induced deference’ to such an ontological construal by way

normalcy/postconvergence enables and allow creative projective-insights thought possibilities that the all too common ‘fixated traditional categorisation conceptualisation of reality’ doesn’t allow, as ontological-normalcy/postconvergence referentialism has the strength of overcoming the fundamental difficult issue of ephemerality (as priorly explained with the concept of unconscionability-drag) as ‘it enables mental-devising-representation contiguity in recomposuring’ across all institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>}. The reason this is possible is that such a referential ontological-normalcy/postconvergence representation is not shaped to prioritise any registry-worldview/dimension as being inherently the absolute reference of thought, such as we unwittingly do with our representation of reality due to the illusion-of-the-present/present-consciousness (a massive drawback in grasping veridical ontological reality especially in the ephemeral social world). With ontological-normalcy/postconvergence referentialism we place reality as an abstract construct of oneness that is preceding-and-supersedes our-and-all temporal representations of meaning, and the exercise of articulating ontological/intemporal meaning then becomes ‘one of recomposuring how our temporal-and-all-temporal representations of meaning are recomposured to be internally coherent with the abstract ontological-normalcy/postconvergence referentialism ‘sense of oneness of preceding-and-superseding intemporal/ontological meaning’ as implied by the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’. The insight we can thus garner is that in absolute terms veridical meaning as represented in ontological-normalcy/postconvergence is ‘a hypothetical abstraction’ of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (more like attaining the abstract but veridical purity in a field of study like mathematics) in ‘unwinding’ applicative ‘colour/emotion/temporal-frame/aesthetics/memetics/psychical-representation’ of manifest teleologic-articulations as
‘subexistence-in-existence/existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency’~sublimating–nascence,-disclosed-from-prospective-epistemic-digression (deconstruction/ontological-reconstituting–as-to-conflatedness possibilities) –subexistence-in-existence being that which holds existential possibilities or existential potency for existential reality or ontological veridicality, as allowed by referential-depth or (‘allant’ or ‘fugue’ in French) or ‘natural emanant dynamic creative vitality/drive’, i.e. ontological-normalcy/postconvergence ‘unwinding’ as deconstruction/ontological-reconstituting–as-to-conflatedness (more like the subconscious is that which holds existential possibilities/existential potency for ontologically-veridical ontological-normalcy/postconvergence maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation consciousness reality/veridicality, or more like quantum-mechanics is actually an ontologically-veridical ontological-normalcy/postconvergence maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation about evasive atomic-level physical reality, more like musical and/or artistic creativity hermeneutics is the subexistence-in-existence possibilities or existence-as-of-its-mimetic-echoness/existence-in-reverberation or existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression for ontologically-veridical ontological-normalcy/postconvergence ‘unwinding’ concrete music and/or art production). Thereafter, the ontological exercise is about having ontological-normalcy/postconvergence (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) as ‘an ontologically-veridical abstract and infallible referencing/correction-tool’ enabling dynamic recomposuring projecting-and-reflecting: on the one hand, candoring/prelogism/organic-comprehension-thinking ontologising, or on the other hand, decandoring/distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing>/threshold-of–nonconviction/madeupness/bottomlining-

Postdication (as an abstract and infallible referencing/correction-tool) allows for the ‘ontological liberation of human mental-devising-representation (of meaning) from any present {cumulated/recomposured}-consciousness-awareness-teleology’ (whether in the bigger scheme of reference of specific consciousness-awareness-teleologies like recurrent-utter-uninstitutionalisation–base-institutionalisation, ununiversalisation-universalisation, non-positivism/medievalism-positivism, and prospectively procryptism-deprocryptism) as ‘postdication doesn’t tie the mental-devising-representation process to any of the above registry-worldview/dimension habituated {cumulated/recomposured}-consciousness-awareness-teleology’ (given that these consciousness-awareness-teleologies are the recomposured outcome of ‘incomplete/incremental/temporal-accommodation human brain limited-mentation-capacity-deepening’ but ‘rather ties the mental-devising-representation process to the abstract and infallible ontological-normalcy/postconvergence ontological-veridicality referencing/correction-tool’ (given that this allows for complete/utter understanding by the very nature of the ontological-normalcy/postconvergence notion, of course in an ‘abstract and evasive caricature’), hence overcoming the illusion-of-the-present/present-consciousness inherent in any {cumulated/recomposured}-consciousness-awareness-teleology representing the mentally devised state of any registry-worldview/dimension. Postdication is all about an ontological-normalcy/postconvergence institutionalisation/intemporalisation-constraining for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as de-mentation→supererogatory-ontological–de-mentation-or-dialectical–de-mentation

educing-human—meaningfulness-and-teleology—into-the-existentialism-becoming of personhoods-and-socialhood-formation (existential-storying-in-contiguity). An analogue case in point will be ontological theory-of-relativity or quantum-mechanics wherein the abstractions go beyond our habitual mental-devising-representation of meaning as in the positivist registry-worldview’s/dimension’s {cumulated/recomposured}-consciousness-awareness-teleology. However, the bigger picture is that if prior/superseded institutional-cumulation/institutional-recomposition-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism have effectively occurred and so, counterintuitively to their natural {cumulated/recomposured}-consciousness-awareness-teleologies, as anticipated by postdication right up to our present positivistic institutionalisation/intemporalisation owns {cumulated/recomposured}-consciousness-awareness-teleology; there isn’t any particular ontological reason for intemporal/ontological meaning not to be construed in ontological-normalcy/postconvergence (postdication) as more veridically/ontologically real, beyond and counterintuitively to the positivistic mind’s temporal {cumulated/recomposured}-consciousness-awareness-teleology (even if it is unintelligible/existentially-suprastructural to it). Such counter-intuitiveness arises because a prospective transcendental psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring implied by postdication places the prior psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (in this case positivistic institutionalisation/intemporalisation) existentialism/full-existential-depth-implications personhoods-and-socialhood-formation in question/jeopardy. But then it is not reality that caves in, it is ‘the mortal’ with a renewed psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring at its uninstitutionalised-threshold involving organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought—as-
meaningfulness-and-teleology)-ontologising from the prospective registry-worldview/dimension. For instance, where a positivist mind might see a forest as a subject of scientific inquiry/understanding, a non-positivist/medieval mindset/reference-of-thought might rather see a mentally unconscious man going into the ‘evil forest’. Such ‘existential parochial perspectives’ will arise anyway from procrysticism viewed from deprocrysticism, though of a different nature than the example expressed above. In that sense, the deprocrystic mind might actually seem ridiculous in the procrytic registry-worldview/dimension but ‘there should be no temptation to want to appear great or adjust in such a perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation perspective but rather to make it irrelevant’ otherwise the deprocrystic mind compromises the essence of its purpose, just as a positivistic mind going by the ‘evil forest’ comparison ‘cannot afford to compromise its positivist stance’ by trying ‘to be wonderful’ in a non-positivism/medievalism perspective that is rather ‘in want of transcendence-and-sublimity/sublation/supererogatory-de-mentativity’; as it is exactly because the temporal non-positivism/medievalism reference is defective that it is being transcended. This speaks to the specificity of the would-be intellectualism involved in a transcendental construct, as different from just intellectualism as mere-institutionalised-being-and-craft; it carries the element of knowledge not only as an abstract intradimensional conceptual construct but in its fullness with existential implications and insights of the dialecticism and psychoanalytic-reorientations involved in all transcendence-and-sublimity/sublation/supererogatory-de-mentativity, requiring that such an intellectual analyst be of presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ in transversality-of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing with temporal meaningful frames which do not define
and are not a point-of-reference to intemporal/ontological meaningfulness’ with the registry-worldview/dimension in need of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (procrypticism) to avoid dividing its meaningful-referencing instead of taking it prospectively (deprocrypticism), for instance, medieval intellectuals like Galileo and Rousseau have to be of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ in transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ with temporal meaningful frames which do not define and are not a point-of-reference to intemporal/ontological meaningfulness’ with the medieval registry-worldview to generate prospective positivistic registry-worldview which at their time is not intelligible to a medieval take (categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) on meaningfulness! This can be further expanded on as follows. The intradimensional meaningful frame is ‘an abstraction to the de-mentative/structural/paradigmatic conceptual limits (uninstitutionalised-threshold) of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of that registry-worldview/dimension, which do not supersede/precede/override/undermine intrinsic-reality/ontology; and the issue that then arises is that it doesn’t carries the meaningfulness sought for transcendentally. On the other hand, transdimensional/transcendental 5 meaningfulness-and-teleology is precedingness/supersedingness/ascendency accruing as ‘existential psychoanalytic ontological form (in full blossoming of the transcending dimension)’ beyond the superseded intradimensional preconverging–de-mentating/structuring/paradigming conception limits (uninstitutionalised-threshold) of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation of that registry-worldview/dimension (which itself had been the
outcome of a preceding existential psychoanalytic ontological form). Memetism as to
 suprastructural meaninglessness-and-teleology will refer to the projective conceptualisation
of meaninglessness-and-teleology beyond and superseding an intradimensional registry-
worldview abstraction scope to the scope of transdimensional/transcendental existential
psychoanalytic ontological form (in full blossoming of the transcending dimension with its
existentialism/full-existential-depth-implications personhoods-and-socialhood-formation);
highlighting as ontologically wrong any relation to intradimensional meaningfulness as
(intemporally/ontologically)-sanctuous-by-reflex (as this wrongly undermines the de-

uninstitutionalised-threshold requiring prospective memetic-reordering. (As a side note, this
will explain while ‘referentialism’ in contrast to ‘categorisation’ is the appropriate knowledge-
cadre for such a more or less deconstructive articulation in ontological-
normalcy/postconvergence and suprastructural, as is the case herein, as to the requisite
‘habituation-into and repeatability-from-different-textual-meaningfulness-perspectives’ that is
necessary to get-to-and-grasp not only an explanation but critically as well the requisite
psychoanalytic-state of a construed existential psychoanalytic ontological form, in full
blossoming of the transcending dimension, as ontological meaningfulness.) Finally, it is just a
matter of fact going by the institutional-cumulation/institutional-recomposure-as-to-
historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-

By extension this explains how the notion of ‘knowledge problem’ is to be apprehended transcendentally/transdimensionally/interdimensionally (as a contiguous intemporal ontological construct). Commonly, intradimensionally, the knowledge problem as ‘social problem/questioning’ is an ‘intradimensional focus’ around logical operation/processing/contention based on the reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the registry-worldview/dimension ‘towards resolution’, with the temporal defect of possible denaturing of such reference-of-thought—categorical-
imperatives/axioms/registry-teleology\(^9\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation undermining the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. However, ontological-normalcy/postconvergence (preceding/superseding intrinsic reality) insight points to a depth-of-focus of the knowledge problem as ‘social problem/questioning’ on the ‘intemporal-preservation-entropy’ itself and beyond any set– categorical-imperatives/axioms/registry-teleology\(^9\)–implying-it (and by extension accounting for incompleteness of human mental/brain mentation-capacity which is the reason of the institutional-cumulation/institutional-recomposure\(\{\text{as-to-}\) historiality/ontological-eventfulness /ontological-aesthetic-tracing<<perspective–ontological-normalcy/postconvergence-reflected–’epistemicity-relativism-determinism’\}>\} process) to define ‘social problem/questioning’ as implying a \(\{\text{reference-of-thought–categorical-imperatives/axioms/registry-teleology}\)\(^9\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation recomposuring/memetic-reordering/psychoanalytic-unshackling to enable intemporal-preservation-entropy-or-contiguity–or–ontological-preservation when at the uninstitutionalised-threshold \(^{10}\) of the registry-worldview/dimension (the contiguous referential exercise of recomposuring/memetic-reordering/psychoanalytic-unshackling to perpetually enable intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is known as ‘postdication’, a term that is in contrast with ‘predication’ which is based on ‘constitutive categorisation elaboration on an intradimensionally affixed reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\) whereas postdication refers to a transcendentally/transdimensionally/interdimensionally/ across-all-institutional-cumulation/institutional-recomposure\(\{\text{as-to-}\) historiality/ontological-eventfulness /ontological-aesthetic-tracing<<perspective–ontological-normalcy/postconvergence-reflected–’epistemicity-relativism-determinism’\}>\} entropy as ontological-normalcy/postconvergence recomposuring/memetic-reordering/psychoanalytic-

intradimensionally unintelligible/existentially-suprastructural and unpalatable (consider in this
regard, the development of positivism from non-positivism/medievalism). It should be noted
then that the postconverging–de-mentating/structuring/paradigming is an
intemporal/ontological projection referencing beyond-and-non-implicative of an equivalence

with respect to the notion of disease, that is, it’s point is to define an altogether different and
superseding meaningful frame or postconverging–de-mentating/structuring/paradigming and is
not involved in an idle exercise of elevating and articulating its meaning in terms–as-of-
axiomatic-construct of and implying an equivalence with non-positivism/medievalism
meaningfulness. That is equally the relation between a transcending notional–deprocrypticism
registry-worldview and the transcended procrypticism worldview. Postdication as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (postconvergence), as an ontological-reconstituting–as-to-conflicatedness\(^1\) psychoanalytically/memetically/meaningfully allows for a purist (candored/decandored) ontological grasp/predication of the veridicality of any institutional-cumulation/institutional-recomposure–\(\text{as-to-} \) historiality/ontological-eventfulness/ontological-aesthetic-tracing–\(\text{as-to-} \) ontological-normalcy/postconvergence-reflected–\(\text{as-to-} \) epistemicity-relativism-determinism\(\)\)\) (retrospectively to prospectively); avoiding the defect of intradimensional-referencing of ‘reference-of-thought–‘categorical-imperatives/axioms/registry-teleology\(\),-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and consequently a superseded/transcended registry/registry-worldview-or-dimension as preconverging-or-dementing\(\)–apriorising-psychologism–\(\text{as-to-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase} \) undermining ontological veridicality. This transcendental insight is in line with the idea of low teleologies or temporal concerns in threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\(\), as to ‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising-psychologism\(\), and ontologically short in a temporal 80-to-90-years-of-life-mental-project, and higher teleologies or intemporal/transcendental concerns in organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of–‘reference-of-thought’–as-conflicatedness’–or-ontological-reprojecting/longness-of-register-of–‘meaningfulness-and-teleology\(\))\), and ontologically long in an intemporal/species-possibilities/abstract-eternity-of-being-mental-projection/eudaemonic-contemplation\(\), and their corresponding abstract individuation aetiologies (even though in effect individuals as ‘receptacles of specific individuation aetiologies’ cannot realistically be construed as absolutely tied to low or higher teleologies but rather as tending to accrue towards a specific-individuation-aetiology/characteral-disposition
whether of low or higher teleology\(^\text{96}\); hence any such ‘storied/articulated’ absolutely specific-
individuation-aetiologies are caricatural of the realistic nature of individuals as ‘receptacles of
individuation aetiologies’, though all such storied/narrated specific individuation aetiologies
represent the full possibilities of any and all individuals ‘as receptacles of individuation
aetiologies’). By ‘higher teleologies’ is meant ‘existential disposition’ which is ‘in essence
intemporally preserving solipsistically/emanantly/becomingly’ (and so, by a profound-
supererogation\(^\text{96}\) disposition that is beyond just one institutionalised/intemporalised registry-
worldview/dimension \(^\text{58}\) but abstractly and supererogatorily across all transcendental retrospective-and-
prospective institutionalisation/intemporalisation registry-worldviews/dimensions as so-
reflected by dimensionality-of-sublimating \(\langle\text{amplituding/formative}\rangle\text{supererogatory–de-
mentativeness/epistemic-growth-or-conflatedness }\text{/transvalutative-

implication that the highest teleologies of Base-institutionalisation (as percolation-channelling-
<in-deferential-formalisation-transference> undermining of recurrent-utter-
uninstitutionalisation and its vices-and-impediments\(^\text{105}\) –equivocates as of profound-

<in-deferential-formalisation-transference> undermining of ununiversalisation and its vices-
and-impediments\(^\text{105}\) –equivocates as of profound-supererogation\(^\text{96}\) to the highest teleologies of
Positivism (as percolation-channelling-<in-deferential-formalisation-transference> undermining of non-positivism/medievalism and its vices-and-impediments\(^\text{105}\) –and prospectively,
equivocates as of profound-supererogation\(^\text{96}\) to the highest teleologies of

‘equivalences of existential’ (in terms—as-of-axiomatic-construct of notional–firstnaturedness—
temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-
normalcy/postconvergence), and not equivalences of institutionalisation/intemporalisation
levels. That is, being in a transcended institutionalised/intemporalised registry-

equivocate as highest teleologies to the existential projection that ‘had the vision’ in the
prior/superseded subknowledging /mimicking/untranscended registry-worldview/dimension

unintelligible/existentially-suprastructural to the prior/superseded untranslated/preconverging-or-dementing—apriorising-psychologism registry-

(emphasising the existential intemporal-disposition as a seed-of-virtue over institutionalisation/intemporalisation outcome, which the former enables) being in an
institutionalised/intemporalised positivistic world doesn’t necessarily equivocate us to the

upholding-for-percolation-channelling— in-deferential-formalisation-transference of a
positivistic registry-worldview/dimension (even though together with them we all may
recognise and operate within a positivistic world). That is, the ‘existential profound-

And why is this distinction critical? Because prospective (intemporality ) need for prospective institutionalisation/intemporalisation/transcendence for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation necessarily calls upon the (intemporal)-kind that articulated-and-upheld-for-percolation-channelling-<indeferential-formalisation-transference> the superseding institutionalisation/intemporalisation/transcendence; and the condition of mere-institutionalised-being-and-craft in the untranscended registry-worldview/dimension doesn’t speak of a disposition to prospectively articulate-and-uphold-for-percolation-channelling-<indeferential-formalisation-transference> an intemporally requisite prospective registry-worldview/dimension institutionalisation/intemporalisation that is intemporally preserving (in ontological-normalcy/postconvergence), highlighting the veridicality and need for ‘human registries-disambiguation at uninstitutionalised-threshold’, and as being notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>. The notion of higher teleologies as such is specific to the human species in holding that beyond just ‘a physical animal passing of specie generational succession’ for survival and optimising-specie-flourishing, with higher teleologies there is ‘an even more critical passing of generational succession’ as memetic-skewing-or-reordering/philo-cultural optimising of possibilities of the species towards intemporal virtue as civilisational over temporal vices-and-impediments (philo-cultural and not cultural, because philosophy notionally supersedes and defines cultural possibilities); and so, by virtue of the exceptional possibility, in time and space, of human transformation/transcendence by philo-cultural skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative
intrinsic-reality/ontological-veridicality transcendent

base physical animal selectivity process (genetics) of the human species generational

Basically, it can be said that without the human quality of the ‘aetiologisation/ontological-escalation individuation of the intemporal’ we’ll still be probably in caves. Of course, such a depth-and-projecting-scale-of-thought requires an appreciation of the ‘percolative impact’ of the ‘firstnature/intemporal’ (which is not readily available to the immediacy/shortness-of-register-of—‘meaningfulness-and-teleology’ of minds of temporal-dispositions). For instance, men did not ‘by magic’ develop the possibilities of civilisations whether the stone, bronze, copper, iron ages, the antiquities, the medieval and today modern positivism; without a corresponding ‘psychoanalytic liberation’ that allowed for such a development induced by philosophical revolution, however, prosaic the philosophy. For instance, it is not by magic that science and vaccines were not developed in antiquities but were developed in early industrial Europe, as the ‘psychoanalytic liberation’ of the ideas expressed by the Descartes and Galileos ‘shaped subsequent common minds’ to be inclined to rationalise profoundly their grasp of physical phenomena like Pasteur and others. Likewise, the philosophical development in antiquities not being ‘profoundly applicative enough’ and more or less cultic (available more or less to a
priestly class and poorly universalising in many such slaving-and-class society), such a psychoanalytic liberation percolation-channelling<&in-deferential-formalisation-transference> effect could hardly be obtained from say Aristotle’s writings (granted, it percolated into the medieval Arabic and European worlds), and in addition the ‘intellectualism’ was more like contained in a ‘cultic class’, and hardly the bread and butter of commoners (and even then, Athens was outlying without scale and time and the sufficient lack of chaos and war). As the establishment of a registry-worldview’s/dimension’s ‘(re-originary–as-unenframed/unbeholding/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking -‘projective-insights’/epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation}) originary/event –of-prospective-ontology-origination psyche rule of intrinsic-reality/ontological-verification transcendental-enabling/sublimating/superroratory-de-mentativity as of phenomenal-abstractionness-of-presencing-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of attendant ontological-contiguity -educed–existentialising/contextualising/textualising-contiguity -<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context> conceptualisation’ is what allows for human individual and collective orienteering–focussing–persisting of construal/conceptualisation by that transcendental-enabling/sublimating/superroratory-de-mentativity (re-originary–as-unenframed/unbeholding/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking -‘projective-insights’/epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation}) originary/event –of-prospective-ontology-origination psyche rule to the full exhaustion of what intrinsic-reality/ontological veridicality can avail to humankind as of the-Good/understanding/notional~knowledge-reification–gesturing<&in-prospective_psychologism~apriorising/axiomatising/referencing-

Basically, the entropy behind such a philosophical-driven conceptualisation of human meaning and corresponding psychoanalytic-unshackling, percolation-channelling-<in-deferential-formalisation-transference> into an overall relaying defining the human anthropological-continuity or anthropopsychology or institutional-cumulation/institutional-recomposure-{as-to-

The reason for a registry-worldview’s/dimension’s institutionalisation/intemporalisation transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity from the superstitious RELIGION, universal-notions/essences, principles-rationalism/positivist-idealism and then the rational-realism of notional—deprocrypticism as of ratiocontiguity/ratiocination-as-referentialism—implicated_attendant–ontological-contiguity as nondisjointing is that psychoanalytically/memetically/meaningfully the human psyche is inclined/shaped/desires to find an all-in-all-encompassing-response (magic wand) to explain its world, but then realises across institutional-cumulation/institutional-recomposure—(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence- reflected-‘epistemicity-relativism-determinism’) that successive introduction of more and more ‘realistic’ conceptualisations enable a grander <amplituding/formative—epistemicity> causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing.—for-explicating—ontological-contiguity and grasp of its world.

Further, what differentiates principles-rationalism/positivist-idealism and the rational-realism of notional—deprocrypticism as of ratiocontiguity/ratiocination-as-referentialism—implicated_attendant–ontological-contiguity as nondisjointing is that the ‘institutionalising threshold for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ of the latter introduces the disambiguation of dispositions in meaning construal and subsequent logical operation/processing/contention at reference-of-thought (on the basis that human dispositions are temporal-to-intemporal/shortness-to-longness; with human registers/registry-teleologies involving subknowledging—impulse/compulsive—dementing /slantedness/psychopath, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). Methodologically, it should draw on phenomenological-and-hermeneutic-insights, as with this research paper, and extending into a ‘creative existentialism (full-existential-depth-implications) storying construal’ as the ‘ontologically effective, applicative and operant articulation insight’ to this background phenomenological-and-hermeneutic-insights. Its highlighting of such a transcendence-and-sublimity/sublimation/supererogatory-de-mentativity should be similar to say a literary work like Things Fall Apart by Chinua Achebe even though the latter is rather more about cultural-diffusion-from-Western-philosophical-transcendence which positivistic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity integration into the society’s institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> undermines-psychoanalytically/psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring the society’s existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation allowing for positivistic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. But then unlike Things Fall Apart, such a perpetuation-of-notional-deprocrypticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity being not a cultural-diffusion-from-another-society’s-philosophical-transcendence but rather a universal-human-intradimensional-philosophical-transcendence can be creatively devised as being in substitution
to an ‘abstract cultural-diffusion-from-another-society’s-philosophical-transcendence

insight. However, the latter storying will have to be more deterministic, operant and of aesthetic

mental ‘postconverging-or-dialectal-thinking—a-priorising-psycho-linguism’ representation. In the bigger scheme of things, such a ‘creative existentialism (full-existential-depth-implications) storying construal’ on perpetuation-of-notional—deprocrypticism re-elaborated to a ‘creative existentialism (full-existential-depth-implications) storying construal’ of all the transcendence-and-sublimity/sublimation/supererogatory—de-mentativity provides an even more profound and emanant-insight understanding of the anthropological continuity/anthropopsychology and the proper place of the present positivistic mind in the bigger scheme, and what is prospectively implied, as a perpetuation-of-notional—deprocrypticism transcendence-and-sublimity/sublimation/supererogatory—de-mentativity). Another ontological element of the perpetuation-of-notional—deprocrypticism transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is that it is ‘weakly positive opportunistic’ to the cross-section of the social construct. Prior/superseded transcendence-and-sublimity/sublimation/supererogatory—de-mentativity are relatively ‘strongly positive opportunistic’ with base-institutionalisation transcendence-and-sublimity/sublimation/supererogatory—de-mentativity from recurrent-utter-uninstitutionalisation being the strongest in its positive-opportunism—of-social-functioning-and-accordance as the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation reference-of-thought—categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of: ‘organising rules/principles’/base-institutionalisation are opportunistically critical for temporal direct/immediate survival itself, i.e. such an uninstitutionalised state with uncertainty, lack-of-knowledge about the environment and relative lawlessness ‘focuses the individual’s mind’ to adhere to any dependable organised rules/principles/laws, even where such organising rules/principles/laws are bad so long as they are predictable, be it circumstantially (and effectively, base-institutionalisation is a state where such organising/rules/principles/laws are constantly being remade competitively with respect to
survival-possibilities and power-relations, but on the other hand base-institutionalisation tends to have weak institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> for intemporal transcendence-and-sublimity/sublimation/supererogatory-de-mentativity in the long run due to ‘holding-on-to-the-initial-proven-survival-and-flourishing-assets/tradition’ and ‘a question of power relations’, and more likely than not, in such human society in ‘clanic turbulence’ base-psychoanalytic-unshackling/memetic-reordering/institutional-recomposing is a highly-diffusionary-juggling-and-reconstituting-transcending-across-clans rather than oriented towards just a singular intra-social intemperoal-philosophical transcending, but also involving on the rare occasion a lopsided diffusion from an altogether different and dominant cultural grouping); those of ‘projecting rules/principles’ or \textsuperscript{103}universalisation are less opportunistically critical for temporal direct/immediate survival but are relatively vital and extend the ambit of the former; while those of ‘empirical rules/principles’/positivism are even less positive-opportunistically critical for temporal direct/immediate for immediate/direct survival but relatively critical for flourishing (science, human rights, democracy, etc.). So these institutionalisations transcendence-and-sublimity/sublimation/supererogatory-de-mentativity can elicit, in effect, a grander sense of intemporal/ontological/social/species/\textsuperscript{103}universal/transcendental/maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming rather than a temporal extricatory preconverging–de-mentating/structuring/paradigming in their cross-section of the social-construct. However, it will probably be more facile for such a cross-section of the social-construct to be strongly disposed to adopt an extricatory/temporality\textsuperscript{98} preconverging–de-mentating/structuring/paradigming rather than intemporal/ontological/social/species/\textsuperscript{103}universal/transcendental/maximalising-
recomposuring-for-relative-ontological-completeness\(^2\)—unenframed-conceptualisation postconverging-de-mentating/structuring/paradigming regarding the \(^3\)reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^9\), for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of ‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> accountability as intemporality\(^1\)-skewing (‘intemporality\(^5\)-asymmetric-subsumption-of-temporality\(^5\), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) rules/principles’ or notional-deprocrypticism with regards to their temporal direct/immediate survival opportunism statistically to individuals on the cross-section of the social-construct. An intemporal disposition as ontological projecting that may elicit a sense of positive-opportunism—of-social-functioning-and-accordance \(^5\) for survival itself with base-institutionalisation will not necessarily have the same adherence effect on the cross-section of the social-construct when it comes to a transcendence-and-sublimity/sublimation/supererogatory-de-mentativity which temporal directness/immediacy for ‘individuals sense of survival-and-flourishing’ is not so obvious but for its abstract ontological veridicality and abstract intemporal transformation implications as is the case with deprocrypticism; but is rendered possible because of the relatively ‘strong preset institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ (on the basis of its untenability/internal-contradiction/internal-incoherence/institutional-constraining generation capacity); more like it would be fair to say that many an abstract and boring scientific efforts do not necessarily appeal temporarily but for the strongly preset institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> for their social integration. Basically, with transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as temporal
directness/immediacy weaken on the one hand, the element of untenability/internal-contradiction/internal-incoherence/institutional-constraining (with institutional percolation-channelling-<in-deferential-formalisation-transference> for transcendence-and-sublimity/sublimation/supererogatory~de-mentativity) in assuring prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity strengthens. To sum up, this highlights the ‘temporal existentialism/full-existential-depth-implications practicality aspect’ involved in all human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. That is, transcendence-and-sublimity/sublimation/supererogatory~de-mentativity is more of a human-mentation-capacity driven construct and its mundane recognition is not inherently by its supposed virtue (given that survival-and-flourishing, and not veracity/ontological-pertinence, are the more immediate/direct basis for the human temporal drive). To the extent that transcendence-and-sublimity/sublimation/supererogatory~de-mentativity highlights critically that it is what is the best enabler for survival-and-flourishing then it is a force of social transformation. Equally, an ontologically-veridical but not immediately/directly survival-and-flourishing will not, with regards to human temporal practicality, by mere ontological-veridicality be a basis for its social integration, if the insight that it provides a grander survival-and-flourishing scheme isn’t immediately palpable. As in this case human temporal practicality disposition is perfectly inclined to threshold at its registry-worldview/dimension uninstitutionalised-threshold. But then with an increasing cerebral grasp of our nature and our surrounding world rather than just passive endurers of nature-in-action, we can fairly anticipate and supersede intellectually our human temporal practicality dispositions, in this case with regards to deprocrypticism, and attain prospective knowledge-and-virtue generally. Meaning (defined previously as what defines/predicates value, thought and action) is actually a referential memetic construct in the referential exercise of the entropic preservation of preceding-intemporality/intrinsic-reality as validated by <amplituding/formative-
This leads in the instance of perversion-of-reference-of-thought-to the notion of ‘memetic-corruption or psychoanalytic-misrepresentation of categorical-imperatives/axioms/registry-teleology to the entropic preservation of intemporality/intrinsic-reality as validated by amplituding/formative-epistemicity>causality-as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity. The referential memetism as suprastructural-meaningfulness implying that meaning is in fact a ‘human mental devising construct’ (not inherently ontological or intrinsic-reality) and it is grounded on its validation/veridicality by its amplituding/formative-epistemicity>causality-as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity in showing it is proxying to ‘abstract and inherent ontology/intrinsic-reality/veridicality’ which is a preceding/superseding notion (postconvergence) to our mental devising of meaning; explaining why we adjust our meaning model/memetic-reordering/psychoanalytic-unshackling (soundness-or-ontological-good-faith/authenticity-of-reference-of-thought/candored, and then mentally-oblongated/deandored with respect to new/superseding soundness-or-ontological-good-faith/authenticity-of-reference-of-thought/candored) when the proxying-registry-construct is internally-contradictory and demonstrated to be flawed at successive uninstitutionalised-threshold whether from recurrent-utter-institutionalised to base-institutionalised, ununiversalised to universalised, non-positivism/medievalism to positivistic, and prospectively procrypticism to deprocrypticism.
More than just an exercise of grasping the possibilities of human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity, it is critical that for future transcendence-and-sublimity/sublimation/supererogatory~de-mentativity we don’t confuse the development of a ‘banal/temporal/averaging-of-temporal-thoughts’ notion in ‘our shortness of the lives of mortals’ (80 or 100 years or so) as defining what is ‘existential idealism/success’ on the basis of such ‘mental shortness’ (which isn’t even solipsistically/emanantly/becomingly the intemporal responsibility for the transcendence-and-sublimity/sublimation/supererogatory~de-mentativity that enabled its world, the positive worldview from non-positivism/medievalism, but has been rather ‘institutionalised and secondnatured there’, and so is ‘philosophically irresponsible’ prospectively with respect to the bigger scheme of things regarding transcendence-and-sublimity/sublimation/supererogatory~de-mentativity/prospective-institutionalisation, necessarily so when inclined to an extricatory temporal-disposition that is not solipsistically intemporally responsible). Intellectually and knowledge-wise, the articulation of ‘existential idealism/success’ must be the exclusive purview of the aetiological individuation of the intemporal-disposition whose organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of–reference-of-thought’–as-conflatedness–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology‘)’s universal projection/intemporality keeps alive the notion of existential idealism/success as long as from its intemporal-disposition that started base-institutionalisation (to thwart recurrent-utter-uninstitutionalisation) through universalisation (to thwart ununiversalisation), positivism (to thwart non-positivism/medievalism), and prospectively its intemporal-disposition that will enable notional~deprocrypticism (to thwart procrypticism–or–disjointedness-as-of-reference-of-thought) and thereafter; the intemporal mind as such projects in an ‘abstract eternality’ that is what allows for the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In the bigger scheme of things, all the vices-and-impediments of
successive registry-worldviews/dimensions can be directly ascribed as corresponding perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of temporal-dispositions at the registry-worldviews/dimensions uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and prospectively procrypticism (pointing to the fact that virtue is about ‘the-Good/understanding/notional-knowledge-reification-gesturing-in-prospective_psychologismic-apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity}—conflatedness—in-{preconverging-disentailment–by}–postconverging-entailment)/<amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing—for-explicking-ontological-contiguity constructs’ of base-institutionalisation, universalisation, positivism and prospectively deprocrypticism, and not ‘good-natured/impression constructs’ which are vague, as it is inevitable that there is no good-naturedness/impression-drive that exist to prevent a recurrent-utter-institutionalised mind from deterministically committing the vices-and-impediments of recurrent-utter-uninstitutionalisation, of an ununiversalised mind those of ununiversalisation, of a non-positivism/medievalism mind those of non-positivism/medievalism, and prospectively of a procryptic mind (as subknowledging/mimicking/perverting positivistic meaningfulness) those of procrypticism. Virtue is plainly and simply about the-Good/understanding/notional-knowledge-reification-gesturing-in-prospective_psychologismic-apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity}—conflatedness—in-{preconverging-disentailment–by}–postconverging-

It is critical for the sake of the temporal mortal that we are, not to be allowed to be our own God; that is exactly what creates transcendental possibilities, otherwise we syncretise and preserve and articulate our temporality/shortness as being intemporal! (ii) ‘Intellectual solipsistic/emanant irresponsibility’ referring to ‘intellectual idealism’ success in conceiving intemporal meaning but failure in preserving intemporal meaning from ‘temporal mimicking, denaturing’ and subknowledging” with corresponding poor temporal-dispositions orientations/registry-worldview over that intemporal meaningfulness in relation to the bigger picture of human/social progress postconverging–de-mentating/structuring/paradigming. While intellectual ontological/intemporal meaningfulness may strive to articulate a universal idealism/intemporal projection, it is rather naïve to operate on the ‘romantic’ basis that universal idealism/intemporal projection is the sole disposition of humans as temporal dispositions like postlogism-slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfitorsocial-aggregation/temporal-enculturation-or-temporal-endemisation are endemically part and parcel of the reality of human dispositions; and so, as a matter of fact on a simple ‘scientific basis of determining first principles’ and not necessarily to stigmatise, as reality works on the basis that ‘what is, is what is!’ That then being the case, what then is the relevant question is how do we ensure by institutionalisation/intemporalisation (based on the-Good/understanding/notional~knowledge-reification–gesturing-sin-}

For instance, if men were of an intemporal-disposition we will only need ‘moral philosophy’ and ‘no law’ as the institutionalising principle of the law is a tacit recognition that realistically we need ‘dominating/superseding artifices’ or ‘institutions and their rules and narratives’ whether the human subjects have a grasp of the ‘philosophical’ universal end purpose or not). This is the attitude that preserves the virtue inherent in the intemporal conceptualisation of meaning and ‘not any temporal romantic idealism’ which only leads to perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation that goes on to undermine directly or by sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising conjugations the virtue in knowledge, and so in particular in the ‘extended-informality-{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology}’ (informal settings) where the constraining social universal-transparency ~(transparency-of-totalising-entailing-as-to-entailing~amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness) (usually introduced in formal settings) is not available. Hence intellectual responsibility warrants that the intellectual exercise (as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) involves both a construction of the intemporal ideal and equally a stifling of the possibilities of perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing–apriorising-psychologism. This involves avoiding the naivety of articulating meaning only in the sense of the intemporal ideal but including a constraining and notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence-disambiguating realism that upholds/preserves intemporality /longness and stifles temporal-dispositions persion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-inclinations. Such an approach is known as the ‘knowledge-notionalisation’ or knowledge as a continuum-of-construal from human individuative manifestations of ‘ignorances’/desublimation/temporal-dispositions to knowledge/sublimation/intemporal-disposition which then allows for scrutinising and preempting ‘the ignorances/desublimation’/temporal-dispositions, i.e. apprehending not only intemporal implications of any knowledge construct, but being transversally/logically-incongruent preemptive to potential temporal undermining of that intemporal idealism construct). ‘Intemporal and temporal disjuncture’ basically refers to the fact that in the elaboration of conventioning with respect to ontological-veridicality with regards to social-stake-contention-or-confliction both the intemporal and temporal-dispositions are preservational in their finalities, i.e. temporal-dispositions do not transcend philosophically but by untenability/internal-contradiction/internal-incoherence/institutional-constraining, and it is vague and naïve to intemporally/ontologically engage at the philosophical level to wrongly imply such a solipsistic transcendental process as this should not be confused with the formalisation effect of secondnaturing and internalisation. ‘Intemporal and temporal disjuncture’ can equally be analysed as ‘transcendental-or-transdimensional prospective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and intradimensional-meaningfulness disjuncture’ given there is mutual unintelligibility between
prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and intradimensional meaningfulness for instance respectively as notional–deprocrypticism and as procrypticism (‘perversion-of–reference-of-thought’as-preconverging–apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of positivistic meaningfulness), just as there is mutual unintelligibility between positivism and non-positivism/medievalism meaningfulness. This mutual unintelligibility should not be ‘addressed logically’ actually by the intemporal-disposition or prospective-memetism or prospective/transcending registry-worldview/dimension as this naively implies both registry-worldviews/dimensions share the same reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (going from the insight of a common vantage perspective of mutually unintelligible/existentially-suprastructural positivism and non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation); wherein it is transversality<for-sublimating–existential-eventuating/denouement> of affirmative-and-unaffirmative–disambiguated–‘motif-and:
apriorising/axiomatising/referencing’ that plays out to enable the utter superseding/transcendence of the intemporal-disposition or prospective memetism or prospective/transcendental/superseding registry-worldview/dimension over the prior/transcended/superseded intradimensional meaningfulness. For the simple reason that intrinsic-reality being preceding as ontological-normalcy/postconvergence it won’t let the positivistic mindset/ reference-of-thought (as intrinsic-reality/ontology is inherently suprastructural or beyond-the-consciousness-awareness-teleology<in-preconverging–existential-extrication-as-of-existential-unthought> of the mortals that we are, in the sense that a cholera epidemic that was to occur say in 100 B.C. Will not stop from occurring because
human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; thus naivety will be to strive to syncretise in temporal-and-social-trading our discomfort/unpalatability in construing intrinsic-reality/ontology) to be involved in social-and-temporal-trading with the non-positivism/medievalism mindset/ reference-of-thought as inherently all the greater possibilities of grasping a more profound intrinsic-reality/ontology lies with ‘reasoning-through/utterion’ with the prospective memetism of positivism which actual mental-devising-representation of non-positivism/medievalism is as preconverging-or-dementing apriorising-psychologism (where the non-positivism/medievalism registry-worldview/dimension is the prior/transcended/superseded intradimensional meaningfulness perspective). The validation arises from the untenability/internal-contradiction/internal-incoherence/institutional-constraining in the long-run of non-positivism/medievalism, as the more profound positivistic meaningfulness takes hold in the-Good/understanding/supplimenting/formative-epistemicity>causality ~as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity institutionalisation percolation-channelling<-in-deferential-formalisation-transference> mechanism. This ontological insight (transversality)<for-sublimating–existential-eventuating/denouement>~of-affirmative-and- unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing” that plays out to enable the utter prospective/superseding/transcending of the intemporal-disposition or prospective memetism or prospective/transcendental/superseding registry-worldview/dimension) also informs, as with all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, the relation between the prospective meaningfulness/memetism or transcending/superseding registry-worldview/dimension as notional-deprocrypticism and prior/transcended/superseded intradimensional meaningfulness/memetism as our procrypticism, with the latter superseded/transcended as of
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that enables prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Thus technically, preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism arises simply by a shift of reference-of-thought (in the strive for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation wherein the latter reference-of-thought as a registry-worldview/dimension is shown to be more intemporally-preservational); with the preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism reflected/perspectivated in the mental-devising-representation fully implied by the new transcending/superseding\textsuperscript{21} reference-of-thought (of postconverging/dialectical-thinking\textsuperscript{1}–apriorising-psychologism) about the prior transcended/superseded reference-of-thought (and so, beyond the latter’s registry-worldview/dimension wrongful reflex to set-aside/ignore the implications of its demonstrated ontological-impertinence as of notional-discontiguity/epistemic-discontiguity-and-shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> and go on to be of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{3} this now shown-to-be-wrong reference-of-thought). Preconverging-or-dementing–apriorising-psychologism as such is easily and spontaneously reflected of a prior/superseded/transcended registry-worldview/dimension like for instance a positivistic registry-worldview/dimension mental-devising-representation reflecting the preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism of a medieval registry-worldview/dimension. But then this is because the positivistic registry-worldview/dimension doesn’t have to deal with any existential illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage that the non-positivism/medievalism registry-worldview/dimension personhoods-and-socialhood-formation has to deal with. However, implying similarly the preconverging-or-dementing\textsuperscript{20}–apriorising-
psychologism of the positivistic registry-worldview/dimension from its intradimensional perspective where its own \( ^{2} \) reference-of-thought is superseded/transcended by a prospective \( ^{2} \) reference-of-thought as notional–deprocrypticism will, this time around by the positivistic registry-worldview/dimension existential illusion-of-the-present/present-consciousness/epistemic-totalising \( ^{1} \) self-referencing-syncretising/mirage that its personhoods- and-socialhood-formation has to deal with, lead to the positivistic registry-worldview/dimension by reflex setting-aside/ignoring the prospective and veridical \( ^{3} \) reference-of-thought and corresponding (postconvergence) ontological-veridicality/ontological-contiguity\( ^{4} \), and go on to self-reference-syncretise its transcended/superseded \( ^{5} \) reference-of-thought. In concrete terms for instance, whereas a positivistic mindset/ reference-of-thought will likely shift the \( ^{6} \) reference-of-thought with regards to say a non-positivism/medievalism context of notions-and-accusations-of-sorcery where A were to accuse B for being a sorcerer who caused A’s illness, the mental-devising-representation of the positivistic mindset/ reference-of-thought will be that A is preconverging-or-dementing\( ^{7} \)–apriorising- psychologism and that a germ and biological functioning theory of the human body is the \( ^{8} \) reference-of-thought for A’s disease. But then intradimensionally, A and B and their society of personhoods-and-socialhood-formation and existentialism/full-depth-of-existential-implications that are non-positivism/medievalism will tend to harken back to \( ^{9} \) reference-of-thought– categorical-imperatives/axioms/registry-teleology\( ^{10} \), for-intemporal-preservation- entropy-or-contiguity–or–ontological-preservation that uphold the prior/transcended/superseded \( ^{11} \) reference-of-thought that admits to notions-and-accusations-of-sorcery. mental-devising-representation of a retrospective/transcended/superseded impression-driven/good-naturedness/wishfulness construct is always a preconverging-or-dementing–apriorising-psychologism construct, and so across all institutionalisations indicating that the ontological-

Virtue and ontology/intrinsic-reality rather lies in the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and not its reference-of-thought–categorical-imperatives/axioms/registry-teleology, with the latter only being pertinent in the sense where it relays intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Such a relaying is not within the ambits of good-naturedness constructs but rather the-Good as a continuous refinement of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity that ensures re-institutionalisation/re-intemporalisation for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation when <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity so reveals it. Thus supposed an individual shows good-naturedness following the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the recurrent-utter-uninstitutionalised registry-worldview/dimension that warrants that one simply gets one’s way no matter the situation even if it means committing murder to have some food for oneself and close ones; a good-natured quality that is highly rated for survival in a recurrent-utter-uninstitutionalised setup. This same fundamental dilemma arises with all other institutionalisations.

Thus the basic reason for this counter-intuition about the veridical nature of good-naturedness construct is that it is intradimensionally \(\text{amplituding/formative–epistemicity}\) totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with the wrong implications of inherently representing the \(\text{reference-of-thought–categorical-imperatives/axioms/registry-teleology}\), \(\text{for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation}\) of the registry-worldview/dimension as absolute intrinsic-reality/ontology without any factoring of intrinsic-reality/ontology ontological-normalcy/postconvergence and suprastructural nature as

This fundamentally explains why all prior/transcended/superseded registry-worldview’s/dimension’s present-consciousness/illusion-of-the-present/epistemic-totalising~self-referencing-syncretising/mirage are necessarily preconverging-or-dementing~apriorising-psychologism from the mental-devising-representation of the prospective/transcending/superseding registry-worldview/dimension in the requisite ‘postconverging—or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposing exercise that enables the existentialism (full-depth-of-existential-implications) deconstructed/’ontologically-reconstituted’ becoming of the prospective/transcending/superseding registry-worldview/dimension. The bigger insight here has to do with the ontological-normalcy/postconvergence nature of intrinsic-reality. Intrinsic-reality/ontological-veridicality is already given and what is required to access it absolutely is not the notion of ‘any hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation” initiative/effort’ from the reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of a reference/registrying/registry-worldview/dimension that is necessarily sub-par to intrinsic-reality/ontology (this is the central idea that fundamentally explains how perversion-of—reference-of-thought—as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-

Intradimensionally within a registry-worldview like positivism, this could be construed as there is no basis for a mindset/ reference-of-thought advocating for scientific medicine as practised in hospitals to ‘logically convince’ another mindset/ reference-of-thought advocating rather for traditional medicine (involving a mix of herbalism, incantations, spirits, etc.) that the former is more ontologically-veridical on purely logical terms (as the traditional medicine interlocutor operates logic according to the apriorising–registry or reference-of-thought–categorical-imperatives/axioms/registry-teleology behind its traditional medicine meaningful-frame while the scientific medicine interlocutor operates logic according to the apriorising–registry or reference-of-thought–categorical-imperatives/axioms/registry-teleology of a positivistic

This latter point can be seen in context in the example priorly highlighted at the beginning: For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right in abstract terms but does the apriorising–registry apply?, i.e. The faulty-mentation-procedure-deception-or-urge is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the elements of the apriorising–registry as of reference-of-thought–categorical-imperatives/axioms/registry-teleology(by simply implying their ‘static or abstract non-veridical/vacuous state of essence-of-meaningfulness’ over suprastructuring construal-as-of-perversion-and-derived–perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as-to-uninstitutionalised-threshold-self-referencing-syncretising–and–subtransversality-in-desublimating–existential-eventuating/denouement–of-motif–and-apriorising/axiomatising/referencing’–and–‘corresponding-ontological-reconstituting–as-to-conflatedness-of-veridical–reference-of-thought-as-prospective-institutionalisation/supratransversality-in-sublimating–existential-

disambiguating-and-establishing the existential-contextualisation of the various characters-states-of-minds/the various characters-registries with respect to ontological/intemporal meaningfulness in establishing veridicality in the very first place (whether of temporal-dispositions (conjugated-postlogism), intemporal-dispositions or postlogism compulsive-slanting—preconverging-or-dementing apriorising), hence wrongly turning the analysis into a logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation issue, rather than an analysis of perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation in the very first place, as a ‘Différance-disambiguation-of-ontologically-veridical—meaningfulness-and-teleology’. So without existential-contextualisation, the hollow forms of the essence-of-meaningfulness are available for arrogation/impostoring by slanted/postlogic as of preconverging-or-dementing—apriorising-psychologism and in protraction/conjugation by the temporal-dispositions (beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought). - As previously explained, it is important to grasp that temporal-to-intemporal individuations dispositions are within the receptacles that are individuals, and hence there is no contradiction in saying that all individuals potentially have both the intemporal-disposition and temporal-dispositions, with the major existential/contextual difference among individuals with regards to the existential/contextual inclination to preserve-intemporality or fail-intemporality /temporality as social-stake-contention-or-confliction arise varying with regards to the implications of graver and graver temporal consequences (wherein as an archetype elucidation for instance, Socrates or Galileo will strive to keep on preserving intemporality /longness even when the conventional social-stake-contention-or-confliction threaten as they view the perpetuation of the ideas and principles they stood for were more critical for human posterity, but again ‘a sense of

formalisation-transference towards the intemporal (intemporalisation) is actually an artifice
(artificial conceptualisation) that is habituated for its relative positive-opportunism—of-social-

to long run construed as of de-mentation—(supererogatory—ontological—de-mentation-or-
dialectical—de-mentation—stranding-or-attributive-dialectics). However, no institutionalisation
construct, going by its implied transcendence-and-sublimity/sublimation/supererogatory—de-
mentativity alienating ‘present as prior/transcended/superseded ontological-reference
conceptualisation’ for ‘future as prospective/transcending/superseding ontological-reference
conceptualisation’, has ever been acquiesced to socially without resistance even in instance
induced by diffusion involving the power dominance of one cultural entity over another, with
such resistance being at least in the short-term of a covert nature and of a
<amplituding/formative—epistemicity>totalising—self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag nature as well. Resistance is even stronger
where transcendental institutionalisation is implied within a same cultural entity. Thus it might
just be the case that the more or less itinerating clanic or tribal groups of early humans were the perfect model for a sort of complementary diffusion of transcendentalism that quickly enabled a hominid to achieve the core assets for its perpetuation of civilisation as complex meaningfulness enabled by language and culture. Insightfully as well the possibility of positivism/rational-realism arising in Western Europe was greater by this same mechanism of complementary diffusion of transcendentalism given the mutually feeding diffusional dynamics across the constitutive feudal entities of Medieval Europe sharing a common referent Judaeo-Christian worldview of a ‘relatively weak dogmatism’; and this can be contrasted during or just before the same period with the hegemonic or near-hegemonic governance of China and of the Islamic world ultimately stifling their nascent positivistic inclinations involving the stifling of a potential Chinese age of voyage and trading as it turned inward or the stifling of Islamic learning and science respectively. Equally, anthropological examination of various cultural groups shows that human progress is not a given and that if the appropriate conditions are not satisfied there is nothing that says a given society will fulfil its potential for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and this author thinks that applies to us as of the positivism–procrypticism registry-worldview as we are not beyond ontological-veridicality/intrinsic-reality by mere vague egotistic/self-referential complex but rather as of a lucid contemplation and subjection to insight about prospective ontological-veridicality/intrinsic-reality axiomatic-construal, in much the same way positivism institutionalisation transcendence-and-sublimity/sublimation/supererogatory-de-mentativity came about. The bigger point here is that while within ‘institutionalised constructs’, there is more or less summative perception of social-functioning-and-accordance—as-of—social-stake-contention-or-confliction on the basis of common/same/shared registry-worldview reference-of-thought priorly institutionalised by prospective-institutionalisation/intemporalisation-as-transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, however, at
uninstitutionalised-threshold, we should be expecting nothing less than the ‘normal’ human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued ‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, and so at the threshold between recurrent-utter-uninstitutionalisation and base-institutionalisation, universalisation and ununiversalisation, non-positivism/medievalism and positivism, and prospectively procrypticism and deprocrypticism. The implication is that naturally all prospective institutionalisations by their implied transcendence-and-sUBLIMITY/sublimation/supercRogatory—de-mentativity are ‘antagonistic by inducing contrariety in the temporal sense’ even though we’ll appreciate that their intemporal valor is inestimable (at least when we are looking retrospectively in appreciating that a positivistic outlook should supersede a non-positivism/medievalism outlook, and in the case where we are not uninhibited/decomplexified to equally construe that prospectively as a notional~deprocrypticism outlook should supersede a procrypticism outlook). This insight equally highlights that institutionalisation/intemporalisation is implied with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued ‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, and is critical for would-be emancipation-inducing intemporal individuations in grasping the whys and hows of social reaction to transcendental conceptualisation going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued ‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, how
temporal ‘resistance’ is superseded, the mechanism of percolation-channelling-in-differential-
formalisation-transference and how transcendental ideas are taken up over time and induce
untenability/internal-contradiction/internal-incoherence/institutional-constraining and positive-
opportunism—of-social-functioning-and-accordance in the short run and secondnaturing in
the middle to long run construed as of de-mentation-(supererogatory-ontological-de-
mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics). The fact is that
while the social-construct is by and large a conceptualisation that determines individuals
possibilities, the reality is equally that the social-construct does have ‘powerful channels’ that
enable individuals to drastically redefined what is the social. The individual, it is often ignored,
is an abstract-atomic-social-construct, as in the individual is priorly implied in the social,
beyond just in terms—as-of-axiomatic-construct of social aggregation in implying a
meaningfulness and value-reference construct relationship to the abstract summative social.
Such insight on the nature of human transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity will certainly highlight why the
Encyclopédistes coordinated by Diderot played a relevant role in inducing a domino effect
contributing in transforming medieval European societies mindsets into a positive worldview
by cynically putting together all the positive knowledge they could muster and disseminating it
throughout Europe, and so over the forces of obscurity of the days who understood the
implications of such a venture. The fact here as well as with all issues of perversion-of-

a case of transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-

of-social-functioning-and-accordance from its relative ontological effectiveness such that it
ends up being secondnatured further by percolation-channelling<in-deferential-formalisation-

conceptually contiguous, and while not necessarily implying similar dramatisation, in addition
to its relatively diffuse implications in the sense of the contention being rather about human-
mentation-capacity-furtherance and the fact that as a latter institutionalisation it is apparently
less dramatic, at least as of its apparent negative social consequence given it is so focussed on
human individuations as atomic-level point-of-departure of transformation but rather finding its
radicalness more in the boldly implied décomplexing/uninhibitedness (suprastructuring/metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-

human, and as with all other institutionalisations, it is thus not an issue that
notional-deprocrypticism meets in the short-term and temporary with ‘resistance’ or rather criticism (possibly by and large more in terms–as-of-axiomatic-construct of intellectual agreement/disagreement, as obviously every notion seriously contemplated about is); such that focus should be relatively more about construing veracity/ontological-pertinence and percolation-channelling-in-deferential-formalisation-transference thereof, as an objectively engaged intellectual/emancipating exercise. - As the above circularity/recurrence/repetition/repeatability of temporal-dispositions acting-recurrently-in-temporal-preservation …) is the basis for the registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-as-Being-or-ontological-or-existential–defect reflected/perspectivated as the

disontologising–preconverging/dementing apriorising-psychologism’ social constructions of meaningfulness are in effect reflecting the registry-worldview/dimension uninstitutionalised-threshold requiring corresponding prospective institutionalisations/intemporalisations (whether-consciously-or-unconsciously-and-so-beyond-the-consciousness-awareness-

normalcy/postconvergence appreciation) are as critical and defining in their existentialism/full-depth-of-existential-implications just as institutionalisations, to fully appreciate the very nature of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as the most important thing/purposefulness of humanity-at-large. But then, our human intemporal-disposition responsible for the institutionalisation/intemporalisation process is equally inclined to focus-the-mind-more-thoroughly when dealing with phenomena that undermine ontological-veridicality and so specifically with the undermining of soundness of reference-of-thought, and so across the various institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>}. It is more likely that in this regard, more likely than not perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > phenomena as postlogic effect including psychopathic may actually have been a boost for more rapid human registry-worldview’s/dimension’s institutionalisation/intemporalisation as our intemporal-disposition going by its own intemporal preservational individuation disposition (in intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is rather prone to apprehend and deal with perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > issue at the humanity-at-large scale for the need of human registry-worldview’s/dimension’s institutionalisation as secondnaturing given that with human limited-mentation-capacity-deepening it is naïve to operate on the basis of a ‘human transformation on the wrong dependence of our intemporal-disposition as firstnatureness’, thus the reason why we institutionalise as secondnaturing taking cognisance of the reality of our temporal-to-intemporal individuations dispositions. Just as implied elsewhere in this paper, the skewing
(‘intemporality’-asymmetric-subsumption-of-temporality, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) (from shortness-of-register-of-‘meaningfulness-and-teleology’ to longness-of-register-of-‘meaningfulness-and-teleology’) of capacity as shallow-limited-mentation-capacity to deeper-limited-mentation-capacity, is the trascendental construct of human virtue, and so as a contiguity notion, and not of abstract analogy. This notion of contiguity is what explains the capacity for humankind to accumulate/recomposure/reorder its institutionalisation/intemporalisation capacity. This can be explained as follows. Considering the instance where for instance the target of accusations of sorcery was to equally adopt a temporal stance by making a vague accusation of sorcery as well. Seemingly, such a temporal approach will more or less be more effective in preempting the ‘incidental resolution of temporal-preservation-as-pseudointemporality-preservation’ (with respect to themselves in their specific locale) associated with the ‘dynamic-cumulative-aftereffect of subontologisation’ (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect) rather as an extricatory/temporal preconverging-de-mentating/structuring/paradigming in serving their purpose of a temporal mortal. In so doing incidentally it doesn’t actually preempt but fails the ‘universal resolution of temporal-preservation-as-pseudointemporality-preservation’ (at humanity-at-large scale) as it advances an argument that still enculturates/endemises the upkeep of notions of superstition and sorcery. This approach of temporal-dispositions of dealing with temporality/shortness with respect to perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation in all the registry-worldviews/dimensions (institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-
reference-of-thought. The fact has always been that throughout the various institutionalisations this human intemporal-disposition individuation disposition has always been an indispensable re-originary-as-unenframed/unbeholdening/outlier-conceptualisation (imbued-postconverging/dialectical-thinking -‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional-deprocrypticism-prospective-sublimation) (as longness-of-register-of-‘meaningfulness-and-teleology’) with respect to human social-stake-contention-or-confliction-and-confliction and the reason for its conceptualisations to be construed as institutionalisation-as-virtue even though going by temporal-dispositions inclinations, ‘such abstract projection basically would hardly make sense’. The fact is that this intemporal inclination, while often not downright articulated for what it is but rather implied, is actually behind all formal constructs with an adoption of a ‘maximalist approach’ in the construal of social phenomenal possibilities. Likewise, the hermeneutic/reprojecting/supererogating/zeroing orientation of this paper takes up such a maximalist approach in understanding phenomena of perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and more precisely psychopathy and social psychopathy in the social-construct even though from a simplistic temporal perception it may seem at times overblown (very much like in a core medieval setup a positivistic maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation disposition such as Galileo’s or Darwin’s or Rousseau’s or Descartes’s assertions will seem overblown to the ‘core non-positivism/medievalism mindset’ going by its customary perception), since it doesn’t accommodate temporal/incremental/’disjointedness-as-of-reference-of-thought’ ways of thinking and instead strives for a universal implications depth-of-thought. Basically, on the same token the maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation of formal constructs is all about construing human
transcendental potential as a ‘virtue tipping exercise’ wherein for instance the seemingly overblown representation of humans as susceptible to malfeasance/offence by the construct of the Law doesn’t necessarily imply that everything about humans is how they are likely to commit malfeasance/offence but rather that the transcendental potential of the construct of Law caters for and is a virtue tipping exercise for maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation the possibility of limited committing of malfeasance/offence, just as likewise the maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation construct of medicine of humans as likely to be diseased doesn’t necessarily mean that everything about humans is how they will get an ailment but is a human transcendental potential as a virtue tipping exercise for maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation the possibility of human health. The reason for this deferential-formalisation-transference disposition is simple, as formal constructs ‘reason’ on the basis of intemporality/utter-ontological-veridicality in the quest for reifying abstract universal projection very much unlike everyday informal conceptualisations that are rather driven by vague impressions and good-naturedness and tend to construe meaningfulness by reflex without factoring in relative-ontological-incompleteness\textsuperscript{89}–induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{86} <as-to-’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism\textsuperscript{8}’ of ordinary day to day thinking (common sense), and tend to be unsure, poorly methodical, poorly universalising, poorly insightful, and with elevated subjectivity (not only with regards to facts but with the purported reference-of-thought as well as the apriorising-reference-of-thought-elements/apriorising–registry-elements which are implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{8}), and so beforehand/as-of-a-priori even without the instigating effect.

Basically, incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation relation to meaningfulness as ‘a comprehensive additionality exercise’ thus fails to account for human temporality/temporal-dispositions as ‘not transformed’ and will tend at uninstitutionalised-threshold towards the perversion/derived-perversion of the institutionalisation reference-of-thought or reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation (whether unconsciously, expediently or consciously), involving flawed-existing-elevation-of-reference-of-thought. This insight equally explains the nature of human progress as the natural mental-reflex is to think that human progress occurs incrementally as an exercise of additionality to the prior reference-of-thought and institutionalisation, which is wrong as human progress is all about our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology grasp of the same intrinsic-reality-as-ontological-veridicality in construing meaningfulness-and-teleology /teleological-differentiation involving rather a ‘continuous maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation exercise’ of the same intrinsic-reality-as-ontological-veridicality but with deeper limited-mentation-capacity/{as of relative apriorising/axiomatising/referencing—of-attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}—conflatedness—in{preconverging-disentailment by}—postconverging-entailment} arising from the overall and specific accumulated human experiential possibilities of being on earth. Furthermore, the precedingness nature of ontological normalcy/postconvergence with respect to human existential reference/existential tautologisation pivoting to ontology/ontological veridicality speaks of a ‘decentering’ to the prospective ontological construct that maximalising recomposuring for relative ontological completeness—unenframed conceptualisation effectively enables by placeholder setup/mental devising representation mentation/consciousness awareness teleology rescheduling (as it perpetually recomposes to the intemporal as the relative absolute in value and ontology) over incrementalism in relative ontological incompleteness—enframed conceptualisation which wrongly falls back to the relatively limited mentation capacity deepening of the temporal presencing as if definitely set in wrongly construing it as the relative absolute reference of thought. Insightfully with respect to the notion of maximalising recomposuring for relative ontological completeness unenframed conceptualisation, the law typically operates on the basis of anticipating maximally the possibilities of criminal acts with the anticipation of the maximal possibilities of victimisation from such acts (when it regulates weapons ownership, for example) in effectively construing optimal prevention of criminality in society as a de-mentative/structural/paradigmatic construct that more vitally shapes human action and its ‘effective enforcement’ is actually a minor portion of the de-mentative/structural/paradigmatic construct of law over lawlessness; as it carries an inherent intemporality / longness that is further summonable in improving the law with human ‘shallow limited mentation capacity as of relative
formalisation-transference. The notion of intersolipsism is actually the notional validation of the solipsistic argument as it frames the question in the right manner, that is, inversely (contrary to the traditional philosophical framing of the solipsism question, which by so doing naively and wrongly implies that ‘individuals precede and/or are in supposedly in existence in existence’ upon an affirmative solipsistic response, rather than the idea of becoming solipsistically in existence which subsumes their individuality and projecting of the same about others in an intersolipsistic recognition arising from individuals’ own solipsistic insights of predication-and-projection as so-reflected as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—{imbued-and-

ontology as the intercessory basis for mutual-solipsism/intersolipsism. This author equally conceptualise of a difference between solipsism and subjectivity in that solipsism is rather purely ontological as it implies notionally the individual’s perspective in existential becoming as of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness or existence-in-reverberation or existence-potency—sublimating—nascence,—disclosed-from-prospective-
epistemic-digression (however effective—as-solipsistically-intemporal or ineffective-as-
solipsistically-temporal such perspectival performance), whereas subjectivity refers to our animate-existential-referencing-as-subjectification which is not necessarily oriented to the ontological appropriateness/veridicality of that reference but rather is a notional construal of the reality of ‘human condition of perceived ontological appropriateness/veridicality’ irrespective
of whether it can be said of such perception as being objectively right or wrong going by inherent ontological-veridicality. So solipsism speaks of the human projection in notionally construing ontological veridicality/appropriateness notwithstanding the perspectival effectiveness or ineffectiveness of such a construal as of solipsistic-temporality to solipsistic-intemporality and as such solipsism as of solipsistic-intemporality is the drive behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Whereas subjectivity speaks notionally of a human condition orientation with respect to perceived ontological veridicality/appropriateness no matter whether right or wrong. This possibility of distinguishing an inherently ontological foundation of existential meaning different from an ontological as human epistemic-conception reflexivity of perceived existential meaning is central to a notional~deprocrypticism mindset in enabling the most elaborate transcendentally-enabling-level-of-ontological-good-faith-or-authenticity/objectification/desubjectification-as-objectification-as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as antinihilism construal since necessarily intrinsic-reality/ontological-veridicality is inherently tautologuous, and ‘human capacity to grasp the possibilities of referential relations to inherent existential tautology as of human animate-existential-referencing/subjectification’ in conjunction with ‘human construal of the inherent existential tautology’ is exactly the definition of notional~knowledge. Supposed for instance a child comes to learn the rules of addition for all types of number additions such that the child understands the addition principle, but then there is a deliberate ploy by the teacher and other ‘supposed learners’ all along to constantly calculate 2+2 as equals to 5. Sooner or later the child’s solipsistic sense of meaning (as becoming into existence alone in an intersolipsistic relationship with others interceded with <amplituding/formative–epistemicity>causality—as-to-projective-
totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-

Insightfully despite the constant ‘social affirming’ that the correct answer is 5, unlike it might be erroneously be thought, the child’s insistence now that the answer is 4 is ‘not truly’ out of the ordinary as with respect to its construal of all other meaning including other additions, the child’s knowledge and learning has always been about confirming any such meaning by its notional sense-of-solipsism as of superseding–oneness-of-ontology; but this particular solution for the addition rather becomes outlying for the child because despite the ‘social affirming’ of 2+2 as being 5, such a confirmation by a notional intemporal sense-of-solipsism as of superseding–oneness-of-ontology is not forthcoming, and in lieu rather gets the solipsistic confirmation as 2+2=4! Thus this points out that our interrelationship to meaningfulness is most authentically and fundamentally by pointing out a notional intemporal ‘sense of solipsism’ in each of us to access intrinsic meaning. Such ‘intersolipsistic-pointing exercise’ is only possible because of: our common underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment\(~\text{<implied—self-assuredness-of-ontological-good—}\)

Furthermore, solipsism will equally explain why human meaningfulness-and-teleology is developed rather by —unenframed-conceptualisation of the same superseding–oneness-of-ontology as of our limited-mentation-capacity-deepening (whereby successive generations take a shot at the superseding–oneness-of-ontology that is existence like Ancient Civilisations like Greece establishing that matter is made up of water, fire, air, earth and ether critically establishing the psyche of matter as composed of basic elements and successive recomposurings right up to our modern-day quantum-mechanics recomposuring as of historicality/ontological-eventfulness/ontological-aesthetic-tracing—perspective–ontological-

‘conceptual devices’ are reformulations arising from ‘grander/transcendental insights’ about the same question but implying a radical transformation of ontological/meaningful conceptualisation of the human mind and human teleology. Technically, the implication is that existence/being cannot be thought outside of human thought/limited-mentation-capacity); as a conclusion driven by the insight that human thought/limited-mentation-capacity in construing existence/being implies human ‘meaningfulness-and-teleology’ is necessarily of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity or attendant. However the disavowal rather than renewal/deconstruction/ontological-reconstituting–as-to-conflatedness of human thought/limited-mentation-capacity will imply its dissolving into a ‘nihilism of meaningfulness-and-teleology’ as the alternate logical outcome, but then with this latter construal/conceptualisation being rather ‘an unequal measure alternative’ since it has the drawback of ‘putting an end to contemplation itself’, of ‘misunderstanding that contemplation is a human growth activity and not an absolutely achieved activity’, besides abandoning the notion of human existentialism/throwness/facticity behind human strife itself thus contradictorily undermining again the assumption of such an alternate logical outcome as itself a ‘contemplated strife’ construed as arising only by the implication of such existentialism/throwness/facticity, and further failing to factor in that deepening human thought/limited-mentation-capacity increasingly narrows the framework of human existential contingency/

Such that vague arguments of the type we’ve been living well without such ideas are nothing but avowals of temporal-dispositions poor grasp of how their present institutionalisation came about and future institutionalisation possibilities; since we can project that all humans in recurrent-utter-uninstitutionalisation were recurrent-utter-institutionalised, all humans in ununiversalisation were ununiversalised, all humans in medieval non-positivism were non-positivistic, and by extension (but for the complexes arising from our metaphysics-of-presence—implicated-nondescript/ignorable—void—as-to-

As such, solipsism enables the requisite ‘moultling’ of human limited-mentation-capacity-deepening of notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective–ontological-normalcy/postconvergence to allow for successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity; and as a social conceptualisation operates as ‘a relation of intersolipsistic mindsets in transversality-<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ led by the preceding/superseding intercession of intrinsic-reality/ontological-veridicality as validated by causality—as-to-projective-totalitative–implications-of-prospective-nonpresencing.–for-explicating-ontological-contiguity. this latter point answers the fundamental philosophical quest to escape metaphysics for ontology as of the very ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} which is rather about ‘successions of metaphysics-of-absence\textsuperscript{61}〈implicit-epistemic-veracity-of-nonpresencing-〈perspective-ontological-normalcy/postconvergence〉〉 insights as the successive transcendental-enabling/sublimating/superoeditary-de-mentativity rules in reflecting holographically-〈conjugatively-and-transfusively〉 the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} yielding in-lockstep the successively more ontologically profound metaphysics-of-presence\textsuperscript{61}〈implicit-'nondescript/ignorable–void-as-to-presencing—absolutising-identitive-constitutedness〉\textsuperscript{14} construed as the successive institutionalisations as implied by ontological-normalcy/postconvergence’ towards the notional-deprocrypticism registry-worldview/dimension which is what then achieves ontology as ‘attained ontological-normalcy/postconvergence’. Likewise, since in effect there is hardly any ‘present pure-ontology’ as one that is beyond existential implications contentions about the purity/absoluteness/unassailability of its veracity, this rather validates a novel and positive construal of metaphysics as that which is subject to present existential implications contentions such that all supposed present ontologies are metaphysical constructs as of their non-elucidations. Hence even science itself despite its positive perspective is a metaphysical construct.) Beyond our illusion-of-the-present/present-consciousness/mirage as <amplituding/formative-epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag positivistic registry-worldview perspective, we can grasp that the lower registry-worldviews/dimensions ‘mentally projected prelogism-as-of-conviction,-in-profound-supererogation <existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at reflex (or ‘conviction-as-to-profound-supererogation-reflex’ or intemporal-disposition-reflex-admittance-reflex/in-phase-reflex’) are flawed at their uninstitutionalised-threshold, and the same applies to us in ontological-normalcy/postconvergence. The nature of this ‘conviction-as-to-profound-supererogation-reflex flaw’ is that it actually defines ‘a threshold of

meaningfulness’ of the intemporal-disposition), as the basis of the institutionalisation/intemporalisation process at registry-worldview/dimension or intradimensional level, and ultimately explaining the transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation level successiveness of institutionalisations (as recurrent-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism, positivism/procrypticism, and perpetuation-of-deprocrypticism); and so, by ‘a human limited-mentation-capacity-deepening’ recurrence of intemporal projection over the alterity/alteration, in circularity/recurrence/repetition/repeatability by temporality”, and such iterability/iteration (of ontologically-veridical-meaningfulness-and-ontological-reference) being driven by intemporal-preservation-in circularity/recurrence/repetition/repeatability (as longness-of-register-of-meaningfulness-and-teleology) with the latter ‘distracted/circumvented’ by temporal-preservation-as-pseudo-intemporality—preservation alterity/alteration-in circularity/recurrence/repetition/repeatability as shortness-of-register-of-meaningfulness-and-teleology, requiring the further realterity/realteration-of-such temporal-preservation-alterity/alteration-in circularity/recurrence/repetition/repeatability as ‘ontological-reconstituting—as-to-conflatedness/deconstruction’ by intemporal-preservation-entropy-or-contiguity—or-ontological-preservation in iterability/iteration (for the preservation of ontologically-veridical-meaningfulness-and-appropriateness-of-reference-of-thought-as-of-conflatedness). In the bigger picture and as with all natural iterations, this ‘alterations-iterability dynamism’ at the-individuation-level takes the form of an existential-flux (‘dynamic-cumulative-aftereffect of subontologisation’) of recursive/recurrent alterity/alterations which tend to be perpetuating (like the pathological psychopath’s disposition out of a faulty-mentation-procedure-deception/’urge/entitlement-folie of postlogism-slantedness effect) or
progressive alterity/alterations which could be regular (like an exacerbation or opportunism interlocutors in conjugated-postlogism) or regressive alterity/alterations which could be momentary (like an ignorance or affordability interlocutors in conjugated-postlogism). The notion of iterability as ‘the induced effect of alterity/alterations (by the temporal-dispositions hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation’ and the intemporal-disposition compensation-alterity/alteration by ‘ontological-reconstituting-as-to-conflatedness’/deconstruction) in the repeatability/recurrence of same-terms-of-expressions or same-implied-meaningfulness’, implies that temporal-dispositions being just as preservational as the intemporal-disposition thus inducing the circular recurrence of iterability (as prospective successive institutionalisations and uninstitutionalised-threshold), the exercise of institutionalisation/intemporalisation is not about transforming temporal-dispositions as of dimensionality-of-sublimating-⟨amplituding/formative⟩supererogatory-de-

mentativity)/constraining towards’ the intemporal-disposition for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation to enable the given prospective institutionalisation. Thus the fact is that this iterability (of meaningfulness and ontological-reference) is not a property of ‘intrinsic-reality as existence-emanance’ but actually the result/effect of human limited-mentation-capacity-deepening coming-into-grips with intrinsic-reality as existence-emanance, and so in the succession of institutionalisations. The implication of this iterability (due to temporality-preservational-alterity/alterations in
distraction/circumvention of intemporality\textsuperscript{52}-preservation-iteration for construct of intemporal/ontologically-veridical meaningfulness) is that all issues of \textsuperscript{7}perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-

wrongfully elevate postlogism-and-conjugated-postlogism in preconverging-or-

postlogism-and-conjugated-postlogism which is in preconverging-or-dementing-

Ultimately the philosophical pessimism of many a philosopher stems from this confusion about the achievement of human emancipation and virtue, in naively construing that such an achievement is a definitiveness-construct-of-meaningfulness rather than an ‘iterability-construct-of-meaningfulness for the upholding of the intemporal construct of ontologically-veridical-meaningfulness’ as implied by the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence. clairvoyance of institutionalising principles and rules’, and ‘not the purported impression-
driven/good-naturedness dispositions of the one or the other’, as this is an unsustainable
construct and is simply a call for institutional failure in the middle to long run. A human
secondnaturing institutionalising construct is a requisite because, at best even the intemporal-
disposition individuation in individuals purporting prospective emancipation comes from and
are from the stock of the prior \(8\) reference-of-thought uninstitutionalised-threshold\(10\) registry-
worldview/dimension, and such prospective emancipation involves such individuals own
‘moulting’, as actually intemporality /longness is a ‘potential construct of orientation’ as
implied by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-
upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) and it is
only a devised institutionalisation construct as secondnaturing that achieves that potential-
construct-of-orientation and not any naïve inherently intemporal-disposition in individuals. By
that token there is no base-institutionalised individual in recurrent-utter-uninstitutionalisation, no universalised individual in ununiversalisation, no positivistic individual in non-positivism/medievalism, and prospectively no notional-deprocrypticism individual in procrypticism, as at best such emancipating intemporal individuals are ‘moultlng’ their intemporal individuations and implying-of-the-same of their registry-worldview in prospective institutionalisation design/conceptualisation, as the effective institutionalisation is what is really and effectively attained. - As the notion of ‘dynamic-cumulative-aftereffect of ontology and subontologisation/subpotentiation (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect),’ is rather an operant conceptualisation that highlights the need for an operant conceptualisation of psychology in grasping human dynamics. But then psychological science as we know today in many ways mainly takes the form of an adjunct construct in grasping the social as is equally the case with social psychology; as the focus of can mostly be resumed to ‘identity’ of individual dispositions such that psychology tends more to have a subjective intercessory practice nature involving intersubjective valuation. Thus, as with all such approaches it is hardly surprising that we haven’t got an academic ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural-psychological-dynamics’ (as an ontology-driven
meaningfulness-and-teleology as of prospective notional-deprocrypticism (‘postconverging-or-dialectical-thinking–apriorising-psychologism’ reference-of-thought). With ontology-driven implying that our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is just a ‘placeholder-setup’ that doesn’t have any inherent ontological validity, but is rather as valid as its representation/schedule of ontology/ontologically-veridical-meaningfulness/intemporalintemporal, such that with the insight of more profound ontology/ontologically-veridical-meaningfulness/intemporalintemporal, the ‘placeholder-setup’ as placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is accordingly rescheduled psychoanalytically (‘postconverging-or-dialectical-thinking–psychology or psychology-ointment-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring), validating and explaining why our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology has been developing all along from the mindset/reference-of-thought of a recurrent-utter-institutionalised, base-institutionalised, universalised and positivised, with the implication that the latter’s mindset/reference-of-thought is not beyond prospective transcendence-and-sublimity/sublimation/supernatural–de-mentativity where such prospectively more profound ontology is demonstrated to imply a renewal of human reference-of-thought of meaningfulness (as deprocrypticism), and with the further implication that all along it is essentially about a same species of a same underlying human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued ‘notional–firstnaturedness—temporal-to-intemporal-dispositions’–existentialism-form-factor induced dynamism of shallow limited-mentation-capacity {as of relative apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity–educed–}.
In fact, psychoanalysis is actually a natural existential human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology process with the difference that such comprehensively conceptually-directed constructs as is implied with notional–deprocrypticism with respect to the present positivism/procrypticism are relatively more focussed and thus potent where ‘ontologically-pertinent and so-demonstrated to be ontologically-pertinent’; and by and large form part and parcel of the human psychoanalytic experience with regards to passive to conceptually-directed constructs of human teleological projection. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (prospective) as a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology effectuation, is not technically achieved as may naively/counterintuitively be implied by construing directly of a prospective placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology (from the present) but rather, on the basis of ‘prospective reference-of-thought transcendental insights’, it correspondingly implies ‘construing the present as metaphysics-of-present as the transcended/superseded/prior placeholder-setup/mental-devising-representation/mentation’ to be represented as ‘preconverging-or-dementing apriorising-psychologism reference-of-thought’, and so implied by the ‘prospective reference-of-thought transcendental insights’, such that the prospective (transcending/superseding) placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology defect as ‘postconverging-or-dialectical-thinking apriorising-psychologism reference-of-thought’ is naturally implied as
being the new and prospective suprastructuring, (beyond-the-consciousness-awareness-teleology⁹⁹ - in preconverging-existential-extrication-as-of-existent-unthought) of the ‘old present’/retrospective as prior. That is it is critical to grasp that 'de-mentation' (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) of ‘postconverging-or-dialectical-thinking¹¹—apriorising-psychologism’ and preconverging-or-dementing—apriorising-psychologism is never about generating a prospective ‘postconverging-or-dialectical-thinking —apriorising-psychologism’ (with respect to the present as ‘postconverging-or-dialectical-thinking —apriorising-psychologism’), but such ‘de-mentation’ (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) is rather about decentering and preconverging-or-dementing—apriorising-psychologism/oblongating the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology⁹⁹ of the present as preconverging-or-dementing—apriorising-psychologism which becomes ‘old-present’/retrospective as prior’ and dialectically ushering contrastively from that backdrop a new and prospective ‘postconverging-or-dialectical-thinking—apriorising-psychologism’. This is actually about maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation of the implied prospective meaningful-reference/anchoring-of-meaning/ontological-reference/contending-reference, rather than attempting its elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity which will ‘wrongly make reference to and wrongly elevate’, and so by mix-up, the prior reference-of-thought as veridical. maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation being about optimally rescheduling the ‘placeholder-setup’ (as placeholder-setup/mental-devising-representation/mentation) with regards to ontologically-veridical-meaningfulness, on the ontological backdrop of a more

‘deeper superseding–oneness-of-ontology construal/conceptualisation’ veering towards transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. That is, by transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is meant dispose to construe the ontological resolution of registry-worldview’s/dimension’s-uninstitutionalised-threshold transcedentally/transdimensionally/interdimensionally, as needing a prospective registry-worldview/dimension; for instance, capable of putting in question medieval intradimensional superstition in the first place supersedingly/transcendentally by implying the need for positivising rather than a usual temporalities-drives reciprocity of superstitious contentions or capable of putting into question positivism–procrypticism postlogism and-conjugated-postlogism in the first place supersedingly/transcendentally by implying the need for notional–deprocrypticism rather than temporalities-drives reciprocal equivalence of procrypticism–or–disjointedness-as-of-reference-of-thought. Further the notion of deeper superseding–oneness-of-ontology conceptualisation and shallow superseding–oneness-of-ontology conceptualisation, central to a maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation, can be demonstrated as follows: supposed A has the (existentially veridical) mental projection with respect to say a housing project and undertook the initiative of bringing together and obtaining advanced payments from prospective buyers for the project, and B was to by non-veridical/vacuous hollow-constituting mental-disposition spread stories of the scheme being a scam (not to the buyers who have all the documentations validating the genuineness of A’s housing project) but rather other interlocutors mainly to undermine A’s business credibility, and so whether B is pathological/psychopathic or postlogically-enculturated, and supposed some other interlocutors, not only by ignorance but affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-

tend to be incomplete and requiring further re-categorisations and readjustments as rather
construed/conceptualised on an <amplituding/formative–epistemicity>totalising~self-referencing-

in the full potency for grasping intrinsic reality and requiring further adjustments all along (the
whole exercise actually being ‘ad-hoc referentialism’), and why referentialism as previously
articulated, though ‘relatively abstract as a notion of representation’ is a conceptualisation basis
needing constant insights, it is actually a better conceptualisation scheme of prospective
being/becoming notions particularly of an ephemeral nature. Just as we will represent the non-
positivism/medievalism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology allusions to superstition in its <amplituding/formative–epistemicity>totalising–self-referencing-
constitutedness}; with the implication that the concepts and conceptualisations of the individual of the current ‘psychology of qualification and qualification schemes’ are actually and effectively construed by the ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ as of an ontological-normalcy/postconvergence cadre and as becoming into the social, for its analytic purposes and framework. ‘Possibly’ this won’t imply ‘doing away’ with concepts and conceptualisations of the current ‘psychology of qualifications and qualification schemes’, but will however be uncompromising with respect to being ontology-driven, and thus ‘possibly’ enable the reconstrual of such psychology concepts as the self, ego, id, etc. in their metaphysics-of-absence–(implicit--epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>/postdication (as the existential social) articulation. Insightfully, a ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ rather mobilises ‘maximalising-recomposuring-for-relative-ontological-completeness’ —unenframed-conceptualisation as is necessarily the case with all metaphysics-of-absence–(implicit--epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>/postdication conceptualisations (which must avert the mix-up induced by the illusion-of-the-present/present-consciousness/mirageas <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as metaphysics-of-presence–(implicit–‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive–constitutedness) in ontologising/ontological-conceptualising. This thus validates and operates on the fundamental assumption that the individual-as-of-its-temporal-to-intemporal-individuation-potency is an abstract-atomic-social-construct capable-of-and-as-the-basis-for-both-social-effectuation-and-institutionalisation/intemporalisation. What is then qualified as social phenomenon is determined and effectively deconstructible/ontologically-reconstitutable from

alterations-and-realterations as ‘ontological-reconstituting–as-to-confalatedness’ realterations over hollow-constituting alterations in upholding ontology over subontologisation/subpotentiation and so beyond-intradimensional-institutionalisation-limits/transcendently/transdimensionally/interdimensionally, is what effectively allows for the ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that sustains the possibility for human-crossgenerational prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory–de-mentativity towards ontological-normalcy. As previously indicated, a registry-worldview/dimension ontological/being-construal-defect (as its subontologisation) is ‘not caused’ by compulsing–nonconviction/madeupness/bottomlining (‘<decontextualising/de-existentialising–induced-disontologising’–imbued–ontological-contiguity >;in-shallow-supererogation –as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–apriorising/apriorising/axiomatising/referencing’–logical-dueness>) or postlogism, whether pathological/psychopathic or enculturated, (as this is priorly due to the inherent registry-worldview’s/dimension’s uninstitutionalised-threshold ‘in wait’ for such compulsing–nonconviction/madeupness/bottomlining (‘<decontextualising/de-existentialising–induced-disontologising’–imbued–ontological-contiguity >;in-shallow-supererogation –as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–apriorising/apriorising/axiomatising/referencing’–logical-dueness>) or postlogism elicitation of its

This aspect of postlogism and conjugated-postlogism /preconverging-or-dementing -integration temporal-preservation-as-pseudointemporality-preservation endemisation/enculturation is thus the more salient construal for the de-endemisation/de-enculturation of ontological/being-construal-defect as unsound reference-of-thought of meaningfulness, as defined by recurrence and ‘non-transient transcendency’ at the uninstitutionalised-threshold; (in contrast with either a state of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation that doesn’t speak of ‘recurrence of perversion/unsoundness of reference-of-thought’ or an ‘abstract’ state of inherent uninstitutionalised-threshold but which is ‘transiently transcendant’ as it is not in temporal-preservation-as-pseudointemporality-preservation instigated by postlogism-as-of-compulsing–

‘recurrence’ and ‘non-transience’ transcendency arising from postlogism\textsuperscript{77} and conjugated-postlogism /preconverging-or-dementing -integration that is ontologically relevant for

(as it conceptually defines the successive uninstitutionalised-threshold\textsuperscript{102} of recurrent-utter-

it basically encapsulates the phenomenality of preconverging/dementing\textsuperscript{20}–apriorising-

indeterminacy/deficiency/limitation/constraint—imbued- ‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor speaks otherwise (even though such an axiom of ‘a universal human intemporal-disposition’ is only surreptitiously implied, as a necessary ‘functional pseudo-conceptualisation’ which functionally assumes intemporality\(^2\)/longness to avoid the cumbrous need for disambiguating reference-of-thought of meaningfulness into notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> (at any singular instances) ‘within established institutionalised registry-worldview/dimension’ but virtue cannot be assumed beyond the uninstitutionalised-threshold\(^2\); that is, virtue is de-mentatively/structurally/paradigmatically the result of intemporalisation-as-institutionalisation secondnaturing, for instance, we can broadly argue that the positivistic registry-worldview/dimension implies more or less a ‘universal positivistic intemporality\(^2\)’ as a functional pseudo-conceptualisation of intemporality\(^2\)/longness ‘as people do not act medieval by and large’ but at our uninstitutionalised-threshold\(^2\) wherein procrypticism—or—disjointedness-as-of—reference-of-thought arises our positivistic registry-worldview/dimension can only be qualified as of notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> since the requisite intemporalisation-as-institutionalisation as deprocrypticism—or—preempting—disjointedness—reference-of-thought secondnaturing is wanting), but virtue should rather be construed as the superseding/transcendental institutionalisation/intemporalisation design/conceptualisation that by inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and positive-opportunism—of-social-functioning-and-accordance in the short run and secondnaturing in the long run enables the prospective registry-worldview/dimension institutionalisation; it is this focus on
institutionalisation/intemporalisation that is effectively institutionalisation-as-virtue given that in the succession of human institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism}, no institutionalisation effectively transforms human notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence nature into an absolutely intemporal-disposition nature, but rather reduces human epistemic-abnormalcy/preconvergence towards ontological-normalcy/postconvergence as deeper and deeper superseding—oneness-of-ontology construal/conceptualisations. The bigger point being that it is by effectively grasping that any human intemporal-disposition individuations that can ‘spontaneously’ arise in whatever concern there is should be directed/skewed ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) (as deferential-formalisation-transference of meaningfulness) for institutionalisation/intemporalisation-as-virtue for secondnaturing, and not a wrong implication of functionally grounding virtue on human ‘temporal disposition’ which will inevitably bring about temporal-and-social-trading with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. The fact is that our institutional and organisational constructs at their very core, unspokenly do imply this notion of institutionalisation-as-virtue (in tacit recognition of our notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence), however, the notion of ‘consciously-spoken’ as herein highlighted is that it enables the necessary uninhibitedness/decomplexification that allows the requisite ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural-psychological-dynamics’ psychoanalytic-unshackling/memetic-
reordering/institutional-recomposuring required in fully assuming the reference-of-thought of any prospective registry-worldview/dimension. Actually, it could be argued that the more critical element of medieval emancipators/enlighteners had to do often not with their specific discoveries, which were more or less debated issues as well in their societies, but critically the idea that they were ready to imply ‘a new psychological orientation as positivistic’ that in itself structured the possibilities of a new worldview and many other positivistic discoveries once it became mainstream. Insistence of making mainstream such ideas as a heliocentric solar system by Galileo a century after Copernicus based on observations, the evolution of living things by Darwin based on research analysis, ‘amplituding/formative–epistemicity>totalising rationalism’ by Descartes based on methodical thinking, universal human rights by Rousseau based on thorough analysis of the human condition, principles explaining physical phenomena by Newton and Leibniz based on physical observation, etc. all speak of a new mindset/ reference-of-thought as a postconverging–de-mentating/structuring/paradigming shift that has no complexes and is uninhibited with respect to notions of the old notions of dogmas, alchemies, essences and myths. The fact is that (unlike we may naively reason by reflex from our relatively vantage position at the backend of the institutional-cumulation/institutional-recomposurer-{as-to- historiality/ontological-eventfulness }/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism'} process) this is not spontaneously given, when we consider that many of such emancipators were equally relatively enmeshed with the old psychology like Newton’s involvement with alchemy, for instance. This point to the critical importance of the psychological state of the mind for the very possibility of prospective ontologically-veridical transcendence-and-sublimity/sublimation/supercorogatory–de-mentativity to occur; as ontology is already given as a oneness and it is up to the human psyche to ‘moult itself’ (psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) towards a more profound
construal/conceptualisation as of that superseding–oneness-of-ontology, however strongly we might naively believe in our ideas in any given epoch as of its metaphysics-of-presence

That explain why “maximalising-recomposing-for-relative-ontological-completeness”—unenframed-conceptualisation construct are meant to be detached and totalisingly-entailing so as to act as a backdrop for prospective institutionalisation, and not to necessarily make sense in terms–as-of-axiomatic-construct of ‘the now temporal mental-disposition reference-of-though’ which, it is contended, is in want of prospective institutionalisation with its corresponding psychologism. perspective of a suprastructural superseding/transcending/deeper/intemporal superseding–
oneness-of-ontology mental-conception teleology\(^{17}\). As beyond the epiphenomenon of
psychopathy and social psychopathy, as it provides a peculiar perspective for insight on human
placebo-teleology with respect to reference-of-thought and meaningfulness; ‘Différence-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ implies preempting—disjointedness-as-of-reference-of-thought, as-to–amplituding/formative-epistemicity; growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—in-superseding-mere-formulaic-positive/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism as deprocrypticism. Insightfully, ontological-normalcy/postconvergence establishes beyond human limited-mentation-capacity-deepening that there is a potent and overall oneness/contiguity of ontologically-veridical meaningfulness which transverses and supersedes all other conceptualisations of reference-of-thought and meaningfulness (which are therefore approximates) by mere ‘ontological-consistency’ whether with regards to virtue conceptualisation (as highlighted with the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) or second-level ontological constructs as is the case with subject matters conceptualisations. Ultimately, the capacity for philosophy to further clarify such an ‘ontological-consistency’ will be a further critical foundation for broadening the efficacy of all second-level ontologies (as the veritable job of philosophy). Inherently, ‘ontological-consistency’ as superseding–oneness-of-ontology is by itself the complete rationale for explaining human possibilities with regards to knowledge and virtue as so reflected/perspectivated by the very potency of ontological-normalcy/postconvergence, as the latter is ‘the potency for all the text-of-ontologically-veridical-meaningfulness that can exist’. Ontological-consistency in the inherent intemporalisation/institutionalisation orientation of ontological-normalcy/postconvergence validates virtue conceptualisation not as a discreet
notion of choice, but rather a necessary disposition as ‘intemporal projection’ (or longness-of-register-of–‘meaningfulness-and-teleology’) for human-mastery-of-reality or knowledge, as inherently implied by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). The reason is simple. It is impossible, for instance, for an utter-ununiversalisation setup ‘to access’ the emancipating ontological possibilities available to a prospective base-institutionalisation setup without the ‘requisite solipsistic insight’ of intemporal-disposition individuation within the recurrent-utter-uninstitutionalisation registry-worldview that ‘projects’ that rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism, ⟨as ‘first-level presencing—absolutising-identitive—constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument⟩ as a postconverging—de-mentating/structuring/paradigming for superseding the vices-and-impediments inherent to recurrent-utter-uninstitutionalisation is a necessity-for-its-own-and-by-extension-the-registry-worldview’s/dimension’s ‘moulting’ in the middle to long run construed as of de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics into a base-institutionalisation registry-worldview. Such solipsistic insight is the effective ‘transcendental virtue conceptualisation’ that drives ontological-normalcy/postconvergence across all the successive institutionalisations and by that token coincides with ontology as a necessary ontological development driver in an animal of shallow limited-mentation-capacity—{as of relative apriorising/axiomatising/referencing—{of-attendant—ontological—constitutedness—educed—existentialising/contextualising/textualising—constitutedness—in—preconverging—entailment} to deeper limited-mentation-capacity—{as of relative apriorising/axiomatising/referencing—{of-attendant—ontological—constitutedness—in—preconverging—entailment} to deeper limited-mentation-capacity—{as of relative apriorising/axiomatising/referencing—{of-attendant—ontological—constitutedness—in—preconverging—entailment} to deeper limited-mentation-capacity—}—conflatedness—in—{preconverging—entailment}—}{

In other words, it is the necessary ‘transcendental virtue projection’ for a prospective registry-worldview superseding the vices-and-impediments of the prior registry-worldview that enables the
ontological possibilities for such prospective registry-worldview to even arise existentially; as the temporally-inclined recurrent-utter-institutionalised individuation is non-cognisant of any such thing as base-institutionalisation and the ontological possibilities availing to it, likewise with the temporally-inclined ununiversalised individuation with respect to universalisation and its ontological possibilities, the temporally-inclined non-positivism/medievalism individuation with respect to the positivistic and its ontological possibilities, and prospectively the temporally-inclined procrypticism individuation with respect to notional-deprocrypticism and its ontological possibilities, and all such possibilities as allowed by ontological-normalcy/postconvergence. A question that arises will be how can a society deliver an Einstein or a Bohr respectively that will articulate the theory-of-relativity or quantum-mechanics without it having the necessary institutional-recomposure (orientation and capacities) and memetic-reordering (of the individual mindset/reference-of-thought and associated other contributing mindsets) that allows for the possibility of such discoveries? In other words what was the possibility for the theory-of-relativity or quantum-mechanics to be delivered in the Middle Ages, for instance? Rather improbable. As a side note, such an insight equally attends to such a debate we currently entertain with respect to coming into contact with an advanced alien civilisation. A transcendental virtue conceptualisation will hold that in the very first place such a civilisation won’t be able to exist without the necessary virtue construct (as successions of \[\text{implicated-epistemic-veracity-of- nonpresencing-<perspective-ontological-normalcy/postconvergence}>\} insights yielding in-lockstep the successively more ontologically profound \[\text{implicated-'}nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness} \] as implied by ontological-normalcy/postconvergence) that enables it to come into being; as necessarily they will be base-institutionalising, universalising, positivising and probably deprocrypticising, such that it will be untenable and inconsistent to have cosmic travellers that are savage-inclined or of a
medieval age, for instance, going by the mere human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–
‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor. Insightfully thus, while ontological-normalcy/postconvergence expands human ontological possibilities (comprehensively), it also leads to a growth in human institutionalised virtue disposition in equivalence which sustains such ontological development. However wary we should be with the possibility of nuclear annihilation, we equally can recognise that the ‘better’ registry-worldview/dimension-level, in terms–as-of-axiomatic-construct of its relative transcendental virtue conceptualisation, to handle such weapons is the present one (positivistic) with regards to the possibility of averting a global annihilation compared to say feuding tribal or medieval setups (that is, if by some imaginary circumstances they could have access to and utilise such weapons). This points out that virtue is rather an inherent and necessary construct of ontology, existentially speaking; as the transcendental construct that enables the expanding of the ontological possibilities of an animal of shallow limited-mentation-capacity–{as of relative

On the other hand, the postlogic/psychopathic disposition (and by extension temporal-dispositions conjugated-postlogism/preconverging-or-dementing-integration dispositions) adhere to an elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—educed-existentialising/contextualising/textualising-contiguity basis of meaningfulness on the ground that plausibly construing a false-premising to an existential-context-of-reference-narrative ‘provides licence’ to then (‘recursively’ in concurrence—in the case of the postlogic/psychopathic character, progressively—in the case of a conjugated-exacerbatory and conjugated-opportunism characters, and regressively—in the case of a conjugated-ignorance and conjugated-affordability characters) comprehensively articulate any possible existentially-unreal-and-abstract-narratives (on the basis of a conceptualisation of mere hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation static-or-abstract non-veridical/vacuous-state of essence-of-meaningfulness’ with respect to reference-of-thought–categorical-imperatives/axioms/registry-teleology and hence failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) by exploiting the plausibility derived from the concurrently-false-premising existential-context-of-reference-narrative. Thus unlike in a case of defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance the idea of falling-back to the same exercise to correctly do the exercise (logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) in a same or different circumstance, is invalidated when dealing with perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect<as-Being-or-ontological-or-existential–defect> (with regards to both postlogism and conjugated-postlogism); with the implication that there can’t be mutual contention but rather transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ wherein the superseding (and ontologically-veridical) reference-of-thought can only construe of the superseded (and ontologically unsound) as preconverging-or-dementing–apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity ‘of- reference-of-thought/oblongated requiring psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring to transcend into the superseding reference-of-thought in the very first instance, before any ontologically-veridical pretence to mutual contention. Certainly this same reaction is what is warranted in the example highlighted before (if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about,...) In the bigger perspective with regards to the institutionalisation of notional~deprocrypticism for instance, it is such an existentialism

This shows that going by human-subpotency- aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—

That is, by transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is meant dispose to construe the ontological resolution of an intradimensional ontological/being-construal-defect transcendentially/transdimensionally/interdimensionally; for instance, capable of putting in question non-positivism/medievalism intradimensional
superstition as of the registry-worldview defect in the first place supersedingly/transcendentally rather than a usual attendant/incidental reciprocity of superstitious contentions or capable of putting into question procrypticism/perversion-of-positivistic-meaningfulness with its corresponding postlogism\textsuperscript{77}-and-conjugated-postlogism\textsuperscript{77} of psychopathy and social psychopathy as of the registry-worldview in the very first place supersedingly/transcendentally rather than a temporally reciprocal equivalence. Basically, such an intemporal-disposition/ontologically-veridical transcendental disposition storied-construct/ontologically-valid-narration will be of imbricatedness/threadedness/recomposuring as existential-tracing of ontologically-veridical-meaningfulness reflecting temporal-dispositions rather in ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’. The fact being that, in the short term, the temporally-minded recurrent-utter-institutionalised individuation has no place for the ‘transcendental rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,—(as’first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) notion’ (for base-institutionalisation) of the intemporal-minded individuation; the temporally-minded ununiversalised individuation (in base-institutionalisation) has no place for the ‘transcendental rules\textsuperscript{103} universalising notion’ of the intemporal-minded individuation; the temporally-minded non-positivism/medievalism individuation has no place for the ‘transcendental positivising/rational-empiricism notion’ of the intemporal-minded individuation; and likewise, prospectively, the temporally-minded procrypticism individuation has no place for the ‘transcendental deprocrypticism/rational-realism notion’ of the intemporal-minded individuation; rather as the subontologisation/subpotentiation moves from slantedness-effect, miscuing towards sub-par/formulaic-association/temporal/alibi conventioning-rationalising in all the different registry-worldviews/dimensions, ‘for intradimensional functionality sake a
transcendental articulation is beyond the intradimensional summative mental-disposition of value-referencing’, as the summative mental projection of individuals is more of an earthily life-span conceptualisation rather than transcendental or poorly appreciative of the transcendentalism that is de-mentatively/structurally/paradigmatically responsible for present reference-of-thought to project to the postconverging–de-mentating/structuring/paradigming need of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. This further points out that with regards to ‘metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}', projection (in overcoming the illusion-of-the-present/present-consciousness/mirage/epistemic-totalising ~self-referencing-syncretising), across all registry-worldviews/dimensions from prior to prospective there are basically two ways by which the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology works with respect to the same intrinsic-reality/ontologically-veridical-meaningfulness; for the ‘intradimensional reflex’ sake of having a coherent functioning by sharing a common/same reference-of-thought as it is obvious that if one was to drop in a thoroughly non-positivism/medievalism setup and insisted absolutely to articulate meaningfulness in positivistic terms, there will be no mutual understanding, at least at the (positivistic) uninstitutionalised-threshold of that medieval setup, whether at one moment or another it fails intrinsic-reality/ontologically-veridical-meaningfulness/intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, any registry-worldview/dimension as prior wrongly represents that such its registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect-<as-Being-or-ontological-or-existential–defect> is non-transcendable/unsuperseded by its <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as ‘metaphysics-of-presence-{implicated-‘nondescript/ignorable–void ’ as-to– presencing—absolutising-identitive–constitutedness’}, thus upholding its soundness-or-
ontological-good-faith/authenticity -of- reference-of-thought by ignoring the registry-worldview’s/dimension’s-uninstitutionalised-threshold \( ^{12} \)-defect-<as-Being-or-ontological-or-existential–defect>\(^{15} \) while the prospective registry-worldview/dimension implying a new reference-of-thought that de-mentatively/structurally/paradigmatically resolves the prior’s registry-worldview’s/dimension’s-uninstitutionalised-threshold \( ^{12} \)-defect-<as-Being-or-ontological-or-existential–defect>\(^{15} \) represents the prior as prior/transcended/superseded and hence unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought/preconverging-or-dementing –apriorising-psychologism/suprastructurable (at that uninstitutionalised-threshold \( ^{12} \)). The bigger point here is that just as we will represent the non-positivism/medievalism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{10} \) allusions to superstition in its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as utterly preconverging-or-dementing\(^{20} \)-apriorising-psychologism and unintelligible/existentially-superstructured, a notional–deprocrypticism placeholder-setup/mental-devising-representation/mentation/{cumulated/recomposed}-consciousness-awareness-teleology\(^{10} \) of \(^{10} \) procrypticism–or–disjointedness-as-of-\(^{13} \) reference-of-thought mindset/ reference-of-thought will rather be construed as decentered and preconverging-or-dementing\(^{20} \)-apriorising-psychologism, unintelligible/existentially-suprastructured with respect to ‘our positivism–procrypticism terms of meaningfulness’ that is, at the (deprocrypticism) uninstitutionalised-threshold \( ^{12} \) in order to effectively and adequately reflect the requisite metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>} necessary to act as the referenced/registered/decisioned–psychical-backdrop for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\(^{56} \)meaningfulness-and-teleology\(^{19} \) as of prospective deprocrypticism, as
implied by \( \text{de-mentation}\{\text{supererogatory–ontological–de-mentation-or-dialectical–de-} \)
\( \text{mentation–stranding-or-attributive-dialectics}\) as-uninstitutionalised-threshold \( ^{10} \) suprastructuring \( \text{de-mentation}\{\text{supererogatory–ontological–de-mentation-or-dialectical–de-} \)
\( \text{mentation–stranding-or-attributive-dialectics}\) that is the mechanism of a ‘postconverging-or-dialectical-thinking\(^{21}\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective institutionalisation. This latter notion is important as with all psychoanalysis whether of an individual or social conceptualisation nature, the idea of recognising/referencing/registering/decisioning the registry-worldview’s/dimension’s-uninstitutionalised-threshold \( ^{10} \)–defect-<as-Being-or-ontological-or-existential–defect> \( ^{15} \) is central to superseding it, and so the idea of implying preconverging-or-dementing \( ^{20} \)–apriorising-psychologism/out-of-phase/dialectically-primitive is ‘beyond the notion of an idle denotative exercise’, be it validly so, and the meaningfulness of such conceptualisations certainly do not carry the poorer connotations of temporal/banal mental-dispositions, but rather it is technically a necessary and useful ontological conceptualisation in the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring from our shallow limited-mentation-capacity\( ^{[}\text{as of relative apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity\}—constitutedness}^{1} \text{in–preconverging-entailment}\)} to deeper limited-mentation-capacity\( ^{[}\text{as of relative apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity\}—confatedness}^{13} \text{in}\{\text{preconverging–} \text{disentailment–by}\}\text{postconverging-entailment}\). Thus psychoanalysis is actually in effect an existentialism process of human skewing towards intemporal-disposition as we construe meaningfulness and value-referencing, and so beyond the Foucauldian referenced critique of a relatively ‘economic/traded/exchange/battered’ conceptualisation of psychology we know of
when we talk of psychoanalysis in the subject matter of psychology, but rather construed as a natural ontologically-driven ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ behind human secondnaturing across the successive institutional-cumulation/institutional-recomposure-{as-to-

historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-

normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>} are actually broad categorisations and that actually human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^9\) of intrinsic-reality/ontologically-veridical-meaningfulness varies (though not varying in terms–as-of-axiomatic-construct of the central defining conceptualisation of each registry-worldview/dimension) within each registry-worldview/dimension from its early to later spectrum, given human more or less passive continuous psychoanalytic readjustment to ‘ontological experience’. For instance, there is certainly a marked difference in scope and depth between the positivistic construct in the th century with its nature in the late 20\(^{th}\) and early 21\(^{st}\) century. Further to the two elucidations made of postlogism\(^7\)/psychopathic and conjugated-postlogism\(^7\)/preconverging-or-dementing\(^7\)-integration distortion/perversion of essence-of-meaningfulness that go on to endemise psychopathy and social psychopath with reference to with the ‘Différance-disambiguation-of-ontologically-veridical–meaningfulness-and-teleology\(^9\)’, and its ‘Différance-existential-transitory-articulation-of-the-protraction-of-\(^7\) perversion-of-\(^7\) reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-

technique as well as plausibly concurrently-false-premising to an existential-context-of-
reference-narrative providing licence for postlogic narratives, a third elucidation provides an
even more profound insight of the distortion/perversion of essence-of-meaningfulness and the
implications at the comprehensive existential level. This basically has to do with the ontological
consequences and implications of the ‘existentialist’ and ‘non-veridical/vacuous’
conceptualisation of reference-of-thought and meaningfulness, and so with respect to

In other words meaningfulness and reference-of-thought is only veridical as an ‘ontologically-veridical construct’ validated in the construal of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity-reification_or_intrinsic-reality—ontological-coherence_or_superseding—oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation that establishes ontologically-veridical-meaningfulness. The human ‘existentialist-shortfall’ with respect to ontologically-veridical meaningfulness and reference-of-thought thus allows for an overall existential/being framework/cadre of ‘non-veridical/vacuous distortion/perversion’ of meaningfulness in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation induced from postlogism/psychopathic and temporal-dispositions-conjugated-postlogism which is wrongly projected as of the recurrence in existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity-reification_or_intrinsic-reality—ontological-coherence_or_superseding—oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as ontologically-veridical-meaningfulness, and particularly so as the postlogism /psychopathic disposition is basically recursive (recursive denaturing alteration of the essence-of-meaningfulness and so ‘pathologically iterative’, in the form of hollow-

as it is not about substituting our species but enabling the further development of our same species as institutionalisation/intemporalisation, articulated as a Derridean deconstruction involving ‘ontological-reconstituting–as-to-conflatedness’ of the prospective postconverging-or-dialectical-thinking—apriorising-psychologism reference-of-thought over the hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of the prior preconverging-or-dementing—apriorising-psychologism meaningful-reference/anchoring-of-meaning/ontological-reference. So our natural ‘argumentation reflex’/new logical-processing-or-logical-implicitation—supposedly—apriorising-in-conviction-as-to-profound-supererogation as ‘prelogic supplanting–conviction—as-to-profound-supererogation—of–attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism re-engaging reflex’ with respect to the more familiar existentially veridical logical-dueness and from thence enabling the construing of relevant soundness or unsoundness of logical-processing-or-logical-implicitation—supposedly—apriorising-in-conviction-as-to-profound-supererogation do not apply with respect to ‘Différance-disambiguation-of-ontologically-veridical–meaningfulness-and-teleology’; as the latter is more about an engagement between a prior/transcended/superseded reference-of-thought say in registry-worldview terms like non-positivism/medievalism (which harkens back to its categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation) as rather hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation to its reference-of-thought–categorical-imperatives/axioms/registry-teleology whether these are failing/not-upholding—as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or–ontological-preservation and a prospective/transcending/superseding reference-of-thought like positivism (which develops new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-

The underlying idea here being that faced with incidental issues arising in various effective social contexts, the ‘ontological/intemporal postconverging–de-mentating/structuring/paradigming approach’ is to have at hand a \textsuperscript{10} universal cadre that conceptualises and is geared towards attending-to/resolving all such and other incidental issues as it is suprastructural to all such incidentals. This implies individuality is then simply ‘the unique incidence’ of ‘human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor individuations dispositions (as form-factor)’ in the ‘receptacle’ that is an individual in a given ‘recomposured-existentialism contextualisation’, and as such a given ‘recomposured-existentialism contextualisation’ harbours other individuals (as receptacles) of their own ‘unique incidence’ of ‘human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor individuations dispositions’. A further implication is that going by ontological-normalcy/postconvergence (prospective-transcendence-
so-disambiguated as of ‘reference-of-thought’ devolving ontological-performance <including-virtue-as-ontology> ‘conjugate with and thus pervert intemporal/ontological meaningfulness’ requiring ‘ontological-reconstituting–as-to-conflatedness’ over their hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) contrasted to ‘notion of agreement-disagreement’, is a permanent construct for the ontological/intemporal resolution/skewing of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, and in registry-worldview terms ‘Différance-disambiguation-of-ontologically-veridical–meaningfulness-and-teleology’ is the mechanism of transcending the registry-worldview reference-of-thought as ‘ontological-reconstituting–as-to-conflatedness /deconstruction’ articulates better and better ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and is geared exclusively for prospective intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus recomposuring-in-a-snowballing-effect base-institutionalisation, universalisation, positivism, and prospectively deprocrypticism. It also points out that the exercise of institutionalisation/intemporalisation is not an exercise of human emanance transformation from temporal-dispositions to intemporal-disposition (as we wrongly imply by intuition) but a registry-worldview’s/dimension’s institutionalisation or secondnaturing exercise, explaining why we are continually the same species from utter-institutionalisation to prospectively deprocrypticism. This point can be demonstrated by the fact that when a prospective/transcending/superseding registry-worldview is institutionalised, our same temporality /shortness as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-

Effectively given that going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, the determinant nature of intemporal/ontological constructs induced by institutionalisation with respect to social-stake-contention-or-confliction is always bound to elicit two classes of human mental-dispositions
with respect to it whether as a temporal extricatory preconverging–de-

‘institutionalisation devising and devices’ already speaks a lot about human potential and capacity (and are basically our virtue with no need for ‘false idealisation’ that just induces ‘vain-temporality’ passing for intemporality’), and just as previous institutionalisations prospered, due to increasing realism, because they did away with deities and spirits in recognising that human potential lies in what humans can do themselves, and strived even more by doing away with essences in recognising that understanding effectively what happens in the world is what gives power and effectiveness over nature, a further extension of rational-realism is to do away with the ‘false feel good’ naivety of construing man by reflex in intemporal terms (not recognising or rather taking full cognisance of the implications that we have notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as shortness-to-longness-of-register-of–meaningfulness-and-teleology or perversion-of–reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-

aspiring for the intemporal while factoring in the temporal. In a further elaboration, there is no pathway for prospective base-institutionalisation without a recognition of recurrent-utter-uninstitutionalisation for its superseding, no pathway for prospective universalisation without a recognition of perversion of reference of thought, apriorising/axiomatising/referencing in nonconviction/madeupness/bottomlining as to shallow supererogation, of base-institutionalisation as ununiversalisation for its superseding, no pathway for prospective positivism without a recognition of perversion of reference of thought, apriorising/axiomatising/referencing in nonconviction/madeupness/bottomlining as to shallow supererogation, of universalisation as non-positivism/medievalism for its superseding, and there is equally no pathway for futural Being-development/ontological-framework-expansion as to depth of ontologising development as infrastructure of meaningfulness and teleology as of prospective notional deprocrypticism without a recognition of perversion of reference of thought, apriorising/axiomatising/referencing in nonconviction/madeupness/bottomlining as to shallow supererogation, positivism as procrypticism for its superseding. However, such an intemporal disposition of transcendental depth of thought, it must be acknowledged is hardly the panacea of a wooden language imbued--averaging of thought, leveling/ressentiment/closed construct of meaningfulness and teleology as of nondescript/ignorable void ‘with regards to prospective apriorising implications’ temporal mental disposition that is more predisposed to project mainly in terms as of axiomatic construct of ‘temporal lifespan of living scale’ rather than ‘humanity-at-large spatial and timeless scale’ of intemporal projection of thought mental disposition; with the inherent moral and intellectual superiority of the latter warranting an uncompromising stance over the former, in transversality for sublimating existential eventuating/denouement of affirmative and

Insightfully, superseding—oneness-of-ontology points out that human ascription of knowledge into various categories as science, humanities, arts, etc. is actually an unnatural differentiation that has to do with arbitrary human categorisation out of practicalities of division of labour and organisation, while equally leading to confusions. Actually knowledge as a whole imply the two basic elements: its conceptualisation and the causal effectiveness thereof of the conceptualisation. Knowledge conceptualisation and causal effectiveness can successively be construed in three respects; specific, intermediary and general, with all aspects of conceptualisations being notionally philosophical as providing meaningful insights while all aspects of causal effectiveness provide confirmatory and predicative-insights to meaningful insights. (Interesting it is important to note that empiricism speaks of the possibility of knowledge revelation by the inherent nature of the subject-matter and not an abstract approach as often naively construed; with the implication that empiricism can be construed as deriving from a confirmatory analysis of a mere insight, observation or experiment depending on the inherent nature of the said subject-matter, so long as this then allows for <amplituding/formative—epistemicity>causality —as-to-projective-totalitative—implications-of-prospective—nonpresencing.—for-explicating-ontological-contiguity. ) Thus notionally speaking all human knowledge is philosophical knowledge as being about meaningful insights. For practicalities, the general basis for establishing conceptual pertinence as of the more general abstract notions of knowledge is attributed to the philosophical disciplines (involving philosophy and the philosophies of subject-matters
including sciences, and its extension in the humanities and social sciences) even though in further practical terms such construal will be punctually undertaken as well when relevant to specific disciplines of immediate cause-and-effect construals/conceptualisations. This equally practically partakes in the denotative and connotative disambiguation of subject-matters. The practical basis for intermediate conceptual pertinence has to do with the inter-relation and delineating of subject-matters with a lesser direct implication of the philosophy, and even less so when it comes to the practical basis for specific conceptual pertinence as practised within subject-matters/specialisms themselves. Thus in human practical terms, knowledge can be construed as a wheel made up of three parts with the central part viewed as the hub of the wheel (philosophical) that provides control (as asking the most basic notional questions of meaningfulness and logic), the outer part of subject-matter (tyre) that connects with the ground (as causal effectiveness asking the more immediate questions of specific domains of nature and reality) and the middle part as the rim and spoke of the wheel holding the other two parts together (providing logical coherence, construed both within subject-matters/specialisms and philosophical disciplines). For practical purposes though, any of these conceptualisation – logical-coherence –causal-effectiveness dispositions can be overemphasised or underemphasised, but it is critical to grasp that any such underemphasising or overemphasising doesn’t speak of a change of ontological-veridicality/intrinsic-reality but a human practicality purpose (conventioning) which pertinence lies in not losing sight of and ultimately recovering the superseding ontological-veridicality/intrinsic-reality. This basic conception of knowledge fundamentally explains what to expect of the philosophical as first-order ontology or the sciences including all other applied studies of second-order ontology. Often times, issues are raised which underlying presumption/presupposition/premise should actually be wholly or partially of fundamental philosophical conceptualisation of “meaningfulness-and-teleology” but naively purported to be answered wholly as of a second-order ontology terms. Broadly
speaking philosophy as the first-order ontology (acting as a cog) has been more about providing
the overall scope for meaningful insights and the broader conceptual background for other
subject-matters while science and other second-order ontology disciplines (as the wheel that
meets the ground) draws on a sound and broad philosophical conceptual background to
articulate causal effectiveness (as of the inherent nature of their subject-matters). It is rather
naïve to depart from a philosophical angle and try to imply causal effectiveness of a natural
science nature (rather than effective validation techniques relevant to transversal nature of
philosophical conceptualisation) just as the same holds true the other way round. The reality is
that if science was the best method to answer philosophical questions as of its subject-matter,
then it would have already taken over from philosophy as practised and the reverse holds true
as well, as in reality it is all about human practical organisation in construing a superseding–
oneness-of-ontology while dealing with our given limited-mentation-capacity-deepening. The
fact is science is de-mentatively/structurally/paradigmatically bound to construe causal
effectiveness as of the inherent nature of its domains of reality and philosophy is fundamentally
conceptualising by its very nature and providing the broad conceptual background for all
human knowledge with the implication that without such conceptualisation the historical insight
for the need and upholding of the sciences and scientific method wouldn’t have come about
while equally defining the limits of what science can achieve. Insightfully and beyond their
practical differentiations, with all knowledge actually being conceptually philosophical, a lot of
science is actually a sort of impromptu and punctual heuristic philosophy at sciences subject-
matter level. So it is rather critical here to distinguish between a human denotative and
segmenting exercise (as not determining inherent reality) which is conventioned knowledge and
the inherent connotation of the reality of knowledge as the superseding knowledge ontology
inherent structure. In that sense, one often misconstrued notion with respect to notional
philosophy is that it is not as successful as the sciences, which is a naïve conceptualisation as
the very idea of such notional philosophy is its conceptualising irradiation of second-order ontology with the more immediate and causality as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity success being not only a success of the second-order ontology but a percolated success of notional philosophy as of its historical development of human conceptualisation in inducing the second-order-ontologies and irrigating them with meaningful-insights, whether we talk about the sciences, jurisprudence and law, ethics, engineering, aesthetics, etc. (This insight means that the classical conception we have of philosophy as mainly about great philosophical thinkers is incomplete as we equally need to understand the ‘organic-knowledge’ as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of other thinkers as they were developing second-order ontologies, and analyse such thoughts in philosophical terms and make these part and parcel of philosophy without necessarily going deeply in their concrete ‘operant mechanical-knowledge’ except where this clarifies their ‘organic-knowledge’. That’s why the work of such transcendental thinkers like Newton, Galileo, Einstein, Bohr, Pasteur, etc. are ‘more than just technicalities’ as these involve a certain commitment as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality which needs to be properly relayed not only in the further development of the ‘mechanical-knowledge’ they advanced but equally about elucidating the profundity of knowledge itself. This insight is equally valid with respect to great artists like Michelangelo, among others. While critically, highlighting how human emancipation has been associated with such ‘organic-knowledge’ brought by scientists, artists and philosophers as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality across various
epochs, such that the history of philosophy is much more than just biographical and analytical accounts of past masters but further involves the active relation of these in construing the ‘becoming-and-emancipating human psyche as of individual and social implications then and now’.) ‘Notional philosophy’ as articulated above is the very profundity behind the human (‘social framework of intersolipsistic deambulation’) imagination, projection, development, articulation and conceptualisation-resourcing possibilities for all second-order ontologies; not so as an instant present development (of philosophers and philosophy-impacting scientists and artists) but rather as of its historical development, accrual and drive into today’s second-order ontologies, as inventing the overall knowledge psyche and their perspectives in the very first place. A notion that is often hardly grasped because of the poor imagination of the notional philosophical work across epochs inducing human <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought, and psychically and institutionally bringing about our present conventioned knowledge being naively related to as if our present mentation-capacity and insights are simply a given, lacking a full appreciation of prior notional philosophical transformations of mindsets/ references-of-thought/psychologisms and human developments of knowledge construal/conceptualisation, and correspondingly lacking a full appreciation of prospective overall human knowledge development possibilities of future philosophical <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought as of a prospective mindset/ reference-of-thought/psychologism for the construal/conceptualisation of all human knowledge. It should be noted that this articulation about the role of notional philosophy speaks of the ontologically philosophical beyond just conventioning/classical sense of conceptual philosophy. That is, a scientist that develops insights about issues of philosophical import is ontologically contributing to philosophy even though qualified as a scientist by conventioning (as the natural ontological construct of knowledge as intrinsic-reality/ontological-veridicality doesn’t
recognise our artificial delimitations of knowledge organisation), just as the reverse equally holds true as well. Consider that Aristotle set out as a philosopher but in many ways has turned out to be the true father of science. Notional philosophy in the bigger framework construed of organic-knowledge itself as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as the superseding drive behind the ‘inventing/creating’ of all human technicalities/mechanical-knowledge refers to the mental-disposition to break from ‘ordinary apathy and constraining framework of secondnatured institutionalisation’ to rearticulate dimensionality-of-sublimating —(<amplituding/formative>suppererogatory—de-mentariveness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) projection underlying the ‘inventing/creating’ of prospective secondnatured institutionalisation possibilities as prospective knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue. Ultimately and beyond shallow technicalities/professions of presences as has been variously and decisively the case throughout humankind history, the most important philosophical work is the preservation of the human existential tale in prolongation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality by ‘maintaining a contemplative distance/detachment from ordinary human blithe’ susceptible to render <amplituding/formative>meaningfulness-and-teleology as of a closed-structure (as merely-exploiting-Being-as-of-its-presence-state-with-poor-regards-for-Being-underdevelopment-and-development-potential-construed-as-nihilism as of wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct—meaningfulness-and-teleology—as-of-'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) as of its temporal <amplituding/formative—
by adopting a ‘presencing—absolutising-identitive-constitutedness’ consummated/forfeiting posture’ as ‘looking down upon the value-reference constructs of all successive presences construed as conventioned-aberrations of pure-ontology’ in order to ‘keep agape’ an opened-structure (as developing-Being-potential-over-mere-exploiting-of-presence-state-of-Being-construed-as-antinihilism-or-opened-construct-of–meaningfulness-and-teleology for prospective meaningfulness-and-teleology); as no registry-worldview/dimension ‘as a product of secondnatured institutionalisation’ should be construed as defining itself ‘in its self-referencing/nombrilism as being the ultimate grounding of meaningfulness-and-teleology’, be it at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. That is the most important work of all human jobs whether it is done as of ‘institutionally secondnatured construed technical/professional philosophy’ or not, as secondnatured institutionalisation by itself doesn’t guarantee such a requisite dimensionality-of-sublimating projection even though the latter does ensue in any case as of notional philosophy. Such ‘dimensionality-of-sublimating’ projection notional philosophical dispositions’ upholding an opened-construct-of–meaningfulness-and-teleology to enable prospective institutionalisation as assumed by the Socrates, Aristotles, Avicennas, Mansa-Musas, Zheng-Hes, Buddhas, Copernicuses, Galileos, Rousseaux, Diderots, Darwins, etc. as-‘inventing’-or-‘creating’-or-‘upholding’-new-intellection—de-mentating/structuring/paradigming-of-societies, are the
‘most social of human acts’ as keeping up by renewing–apriorising/axiomatising/referencing of prospective apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity-duced–existentialising/contextualising/textualising-contiguity —conflatedness in {preconverging-disentailment–by–postconverging-entailment as of ontological-normalcy/postconvergence behind the possibility of prolonging the human existential tale for prospective civilisation, and so not on the same pedestal with ‘nombrilistic presences of registry-worldviews/dimensions in their <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal-dispositions’ as <amplituding/formative> wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology -as-of- ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> blithe to such retrospective-and-thus-prospective insight by their temporal extricatory preconverging–dementating/structuring/paradigming in distractive-alignment-to-<reference-of-thought-of-apriorising/axiomatising/referencing> as of epistemic-abnormalcy/preconvergence. This is enabled by the tautological/referential/existential-reference nature of intrinsic-reality/ontology/existence allowing for ‘predication or predictive-insight’ and ‘postdication or projective-insights’, the latter very much attached with the arts and aesthetic forms but hardly hitherto associated with the predicting of the former like in scientific constructions, though such postdication-as-predictive can possibly be enabled as ‘metaphysics-of-absence>{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>} conceptualisations’ in domains concerned with predication as introduced (besides the ‘projective intemporal-preservation-contiguity/referential analysis’ of this author in this paper taking cognisance of metaphysics-of-absence>{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>} as the need to supersede our illusion-of-the-present/present-consciousness/epistemic-totalising”–self-

Central to such ‘ontological-tautologisation/existential-reference conceptual-scheme’ is the idea of superseding–oneness-of-ontology, as obviously there can’t be any predication-and-postdication without a ‘sole ontology’ with a ‘sole intrinsic ontologically-veridical-meaningfulness’ (otherwise meaningfulness will be chaotic-and-meaningless), not to be confused with human constantly evasive meaningful grasp of intrinsic-

target of such postlogism \textsuperscript{1} -slantedness inducing ‘faulty-mentation-procedure-deception-or-urge’ \textsuperscript{1}’ about the latter, that trace-of-dots-as-narratives from the supplanting–conviction-as-to-profound-supererogation \textsuperscript{1} —of-‘attendant-intradimensional’-postconverging/dialectical-thinking \textsuperscript{1}—apriorising-psychologism and the postlogic/psychopathic and/or conjugated-postlogic interlocutors will reveal the ontological nature of the ‘faulty-mentation-procedure-deception-or-urge’ \textsuperscript{1}’. The reason why ‘separate dots as separate narratives’ lead to postlogic and conjugated-postlogic faulty-mentation-procedure-deception-or-urge \textsuperscript{1} is that their extrapolation is actually an extrapolation of ‘perversion-of-’ reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-

That’s why spatialisation, indirectness and craftiness are critical to postlogic and conjugated-postlogic mental-dispositions so as to evade their prospective interlocutors ‘putting one and one together’ as will arise in an existentially veridical context and so that their interlocutors should rather undertake elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant ontological contiguity\textsuperscript{22}—educed—existentialising/contextualising/textualising-contiguity\textsuperscript{10} of the purely abstract meaning as seemingly sound separate dots as separate narratives but which are non-existentially real, rather than existentially trace the successive dots as separate narratives. This is what enables the establishment, as of the circularity/recurrence/repetition/repeatability\textsuperscript{10} as of existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_attendant-ontological-contiguity\textsuperscript{22}—educed—existentialising/contextualising/textualising-contiguity\textsuperscript{10}—reification_or_intrinsic-reality—ontological-coherence_or_superseding–oneness-of-ontology\textsuperscript{11}, at the relative-ontological-incompleteness\textsuperscript{11}—induced,—‘threshold-of–nonconviction/madeupness/bottomlining—in-shallow-supererogation—<as-to–‘attendant-intradimensional’–prospectively-disontologising~preconverging/dementing—as-priorising-psychologism>’-threshold (as-it-is—thus–‘in-wait’–for– perversion-of—reference-of-thought—as-preconvergingly—apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—>—or-temporal-preservation-as-pseudointemporality—preservation), defining the typical threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to–‘attendant-intradimensional’–prospectively-disontologising~preconverging/dementing—as-priorising-psychologism> psyche of successive uninstitutionalised-threshold\textsuperscript{11} (beyond-the-consciousness-awareness-teleology\textsuperscript{10}—<in-preconverging–existential-extrication-as-of—existential-unthought>—manifestation intradimensionally, and so-construed from the perspective of their corresponding superseding/transcending/prospective institutionalisations)

This equally reflect how the childhood psychopathy psyche is preconverging-or-dementing\(^{20}\)–apriorising-psychologismly perceived though at childhood temporal-dispositions-conjugated-postlogism /preconverging-or-dementing -integration to psychopathy is not significant as its perversion-of\(^{7}\) reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(\Rightarrow\) is still universally transparent as delirious and thus it doesn’t elicit temporal-preservation by conjugated-postlogism\(^{72}\)/preconverging-or-dementing\(^{19}\)-integration, since it is not spatialising, maturating, and being sufficiently indirect, credulous and crafty to be non-transparent by its motives and acts. Ultimately, this highlights generally that at relative-ontological-incompleteness\(^{11}\)-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \langle\text{as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism}\rangle\text{-threshold (as the-relative-ontological-incompleteness –is-inherently-thus–‘in-wait’ for perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(\Rightarrow\) or temporal-preservation-as-pseudointemporality\(^{52}\)-preservation) as so-manifested at the uninstitutionalised-threshold\(^{12}\), hollow-constituting\langle\text{as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation}\rangle/\text{extrapolating/inferring to derive essence-of-meaningfulness is not a credible notion with respect to a human animal of notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> wherein ‘same-terms-of-expressions/seemingly-same-implied-}

Vitally, with regards to postlogism and conjugated-postlogism, it is always about ‘falsely and parasitically/co-optingly’ staking a claim to the reference-of-thought in order to wrongly elicit its implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology to a prospective interlocutor, and so recursively (psychopathic/postlogic-character), progressively (conjugated-exacerbation and conjugated-opportunism characters) and regressively (conjugated-ignorance and conjugated-affordability characters). Generally, this insight harkens back to the previous elucidation with regards to the BODMAS characters where the pure arithmetic operation as a deductive/infering/extrapolation exercise is no longer valid when the fundamental axiom is breached due to a pathological condition, and with the ‘lack of constraining social universal-transparency {(transparency-of-totalising-entailing,-as-to-totalising—for-amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness }) resulting in other temporal characters, beyond-the-consciousness-awareness-teleology –<in-preconverging-existential-extrication-as-of-existential-unthought>, operating arithmetic as if the condition never existed; and thus there is a need for a retracing to establish the existential reality of the breaching or non-breaching of axiomatic rules, before determining the ontological-veridicality of the results of the arithmetic operations. In a further elucidation of psychological/psychoanalytical basis of meaningfulness representation, this further confirms
the fact that temporality/shortness (shortness-of-register-of—meaningfulness-and-teleology) and intemporality/longness (longness-of-register-of—meaningfulness-and-teleology) are both basically the same notion of intemporality, but with temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) being rather in various grades of poor execution of intemporality/longness (longness-of-register-of—meaningfulness-and-teleology) but that in so doing such temporal-dispositions of individuation ‘falsely retaining their teleology/purposefulness’ as if of intemporal-disposition leading to their ‘pseudointemporality’ (and so with respect to their apriorising-registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology), inducing preconverging—dementating/structuring/paradigming registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—as-Being-or-ontological-or-existential—defect where such false-retention construed as temporal-preservation-as-pseudointemporality—preservation is rather in conjugated-postlogism; with the idea that this ‘false-retention’ by temporal-dispositions individuations results in ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation with respect to ontologically-veridical-meaningfulness as meaningfulness become ‘an exercise in threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’ as-to-‘attendant-intradimensional’—prospectively-disontologising—preconverging/dementing—apriorising—psychologism (whether-consciously-or-unconsciously), as can be so established as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_attendant—ontological-contiguity—as—educed—existentialising/contextualising/textualising-contiguity—reification_or_intrinsic-reality—ontological-coherence_or_superseding—oneness-of-ontology by maximalising—

This conceptualisation of temporality / shortness as being about failing/not-upholding-as-of-apriorising/axiomatising/referencing> intemporality / longness (which perfectly syncs intemporality / longness and temporality / shortness as longness-of-register-of-meaningfulness-and-teleology and shortness-of-register-of-meaningfulness-and-teleology), beyond just a qualification notion but rather a amplituating/formative-epistemicity—totalising—‘ratiocontiguity/ratiocination-as-referentialism—implicated_attendant—ontological-contiguity ‘-phenomenal-abstractiveness-of-presencing-in—‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of attendant—ontological-contiguity — educated—existentialising/contextualising/textualising-contiguity—reifying-or-elucidating-of-prospective-relative-ontological-completeness — of— reference-of-thought—devolving-as-of-instantiative-context> construct), equally perfectly renders the notion of temporality / shortness and intemporality / longness operant for a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ ‘psycho-ontological-tautologisation/psycho-existential-reference conceptual-scheme’. The notion of temporality / shortness as actually ‘pseudointemporality’ provides a deeper insight to such traditional notions as bad, evil, wicked, etc. that we attach to temporal-dispositions (specifically, in the moral sense as temporality / shortness is much more than morality as derived from intemporality / longness which is about ‘full potency of ontological-and-virtue effectiveness’) by de-emphasising the naïve but wrong intuition that these notions have their own ‘mental-dispositional drives-as-teleology’ (to be bad, to be evil, to be wicked, etc.) by rather highlighting that ‘mental-dispositional incapacity for intemporality’ of such individuations induces ‘notional-disjointedness-as-of-reference-of-thought’ misappropriated

Such a ‘postconverging—or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ ‘psycho-ontological-tautologisation/psycho-existential-reference conceptual-scheme’ will further highlight in contrast to the present ‘psychology of qualification/qualification-schemes’ that human psychology is actually much more of a becoming dynamic construct, rather than static, which wholly readjusts to human deepening grasp of ontologically-veridical-meaningfulness/intrinsic-reality/existence as a retrospective, present and prospective development; that collectively-and-inclusively-individuals-and-their-social-constructs do have latitude for the choices they make in existence more than and beyond the limits of personality traits and social character, and further that the human mind is ‘not irresponsible’ with respect to given personalities dispositions (whether with respect to abnormal psychology or functional psychology) with the idea that such stances taken by a ‘psychology of qualifications/qualification-schemes’ induces a confounding-effect with respect to individual personalities themselves in assuming their self-emancipation possibilities and what they can aspire for together with their interveners/relators, whether social or clinical. Such insight do arise when we factor in that all along in reflecting holographically—<conjugatively-and—
transfusively> the ontological-contiguity\(^{57}\) —of-the-human-institutionalisation-process\(^{68}\), human secondnaturing is actually the very central ontologically-led developmental element as the critical tool of human psychological renewal that enabled ‘an animal in many ways’ to emancipate itself developmentally across epochs such that the ‘insightful depth’ of such a developmental understanding of human psychology is necessarily much more than ‘a cultural universe of several decades of modernity’, as it conceives that human psychology is an ongoing active construct such that a ‘postconverging-or-dialectical-thinking\(^{21}\)–psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ rather captures the ontological undercurrents that constantly redefine human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{99}\) as it recognises that (and explains why) the mental-disposition/consciousness-awareness-teleology\(^{99}\) of a recurrent-utter-institutionalised mindset/ reference-of-thought varies from that of a based-institutionalised/ununiversalised mindset, the latter from that of a \(^{101}\)universalised/non-positivistic-or-medieval mindset, the latter from that of a positivistic/procrypticism mindset/ reference-of-thought (our own mental-disposition), and the latter from that of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{99}\) as of prospective notional~deprocrypticism mindset, while not ignoring as well the intradimensional spectrum of variation within each mindset; and wherein \(\text{de-mentation-}\left(\text{supererogatory-ontological-de-\}ementation-or-dialectical-de-mentation—stranding-or-attributive-dialectics}\right)\) is the central concept for such a succession of human ‘postconverging-or-dialectical-thinking\(^{21}\)–psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ renewal retrospectively, presently and prospectively, with ontological-normalcy/postconvergence teleology \(\text{being the central determinant driving and defining human psychology construed by its metaphysics-of-absence-(implicit-ed-epistemic-veracity-of- nonpresencing}<\)perspective—

Existence is actually a contextualising-contiguity of existence-potency\(^{(3)}\)-sublimating-nascence,-disclosed-from-prospective-epistemic-digression—rules-of-
to the string phenomenology approach. This conceptually implies that the ‘all-in-one/oneness’ (of ontology) implied of existence supersedes our elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity conceptualisations, and while these are ‘mental tools of analysis’ we have in grasping knowledge, as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity these are rather ‘sub-par to the full grasp of existential reality’ (given that our limited-mentation-capacity-deepening as of our relative-ontological-incompleteness—induced—threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—attendant—intradimensional—prospectively-disontologising—preconverging/dementing—apriorising—psychologism’, will often fail to reference the underlying being-construal/existential-reference/existential-tautologisation ‘for a contextualising-contiguity of existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression—rules-of—apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very—ontologically-same-existential-reality that syncs with existential reality’. For instance say in the case of the BODMAS characters highlighted before, where the other characters ignore the given pathological condition in simply operating arithmetic rules, however, the inherence of existential reality will not be superseded simply by such elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity of arithmetic rules in protraction as ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’, as such arithmetic rules of extrapolating/constituting/abstracting/deducing/inferring will have to be adjusted-in-a-
‘threadedness/imbricatedness/recomposuring’ like subtracting 1 to A’s results to sync with the existential reality implications of A’s pathological condition of wrongly adding 1 to the correct result of arithmetic operations, and as metaphysics-of-presence⟩{implicated-nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness’ ⟩ (i.e. ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existentreference’) metaphysics-of-absence⟩{implicated-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩} is rather the ontological-normalcy/postconvergence correction-tool of postdication, as-of projective-insights for predication, which is equally construed as ontological-reconstituting—as-to-conflatedness /deconstruction (i.e. implying ‘projective-insights of imbricatedness/threadedness/recomposuring as of attendant–ontological-contiguity educed–existentialising/contextualising/textualising-contiguity -<reifying-or-elucidating-of- prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context> as to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existent-reality/dynamic-cumulative- aftereffect/aftereffect’). This is more of a simplistic though conceptually correct demonstration, and the implications to meaningfulness can be much more elaborate and as explained further below, with the notion of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant–ontological-contiguity educed–existentialising/contextualising/textualising-contiguity as ontologically-veridical only as abstract-construal (such as the abstract arithmetic operations) but its wrong ontological derivation in lieu of being-construal/existential-reference/existential-tautologisation is ontologically wrong/non-veridical as it leads to ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existent-
reference’ (wherein the elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity in protraction of the abstract arithmetic operations wrongly overlooks existential-reality as of being-construal/existential-reference/existential-tautologisation given by the existential pathological condition), instead of ‘projective-insights of imbricatedness/threadedness/recomposuring as of attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—<reifying-or-elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought—devolving-as-of-instantiative-context> as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-aftereffect/aftereffect’ as the ontological-veridicality of being-construal/existential-reference/existential-tautologisation (which in the face of the ‘existential pathological condition’ as being-construal/existential-reference/existential-tautologisation upholds existential-reality by way of imbricatedness/threadedness/recomposuring by subtracting 1 from A’s result to existentially account for its pathological condition). It is thus not a coincidence that a Deleuzian approach and string phenomenology approaches intuitively develop the same insight about the need for ‘creative-spaces-of-expression/metaphors’ to be able to conceptualise by projective-insights on topics that critically highlight this more fundamental nature of existential reality as a contextualising-contiguity of existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality so-construed from the perspective of our limited-mentation-capacity-deepening as of our relative-ontological-incompleteness—induced,—

as this leads to ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-

how the ontological-veridicality of an ‘abstract-construal’ and a ‘being-construal’ can be

differences with respect to their consciousness-awareness-teleologies and registry-worldviews/dimensions causality as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity. In fact, ontological-reconstituting-as-to-conflatedness/deconstruction which always refers rather to the issue of reference-of-thought is actually of ‘projective-insights of imbricatedness/threadedness/recomposuring as of attendant ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context-as-to-existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-aferffect/aftereffect’ nature and it is about implying a prospective reference-of-thought, rather than just a différance (differentiation) as within the same prior/given reference-of-thought as of a basic abstract-construal. This is one of the reasons for its misapprehension as it implies an overall change in the reference-of-thought of appreciation which ends up putting everything ‘of old/of prior’ into question, contrary to the traditional analytical expectation of selective-or-limited critique/contestation usually of a non-transcendental nature. Insightfully, the overall relation of deconstruction as ontological-reconstituting-as-to-conflatedness to the existential framework of ontological-veridicality should further allay the confusion. Deconstruction is actually tautological with respect to intrinsic reality/ontological-veridicality because it is always about the same existential reality being dealt with by improving human limited-mentation-capacity-deepening as shallow-mented-r-mentation-capacity to deeper-mented-mentation-capacity ontological-reconstituting-as-to-conflatedness; generating differing consciousness-awareness-teleology outcomes of the same existential reality whether talking of deconstruction at the registry-worldview/dimension or intradimensional level or
individuation-level. Since it is always about the same existential reality, in effect the readjustment for intrinsic-reality/ontological-veridicality is actually a human ‘changing-of-the-psyche’/psychical-readjustment (psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) with its increasing-ontological-completeness or diminishing–human-epistemic-abnormalcy-or-preconvergence as implied by an ontology-driven ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’, wherein placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology scheduling ‘is not inherently sanctimonious’ (the naïve way every registry-worldview tends to relate to its mental-disposition) but is determined and shaped (by way of ‘de-mentation\(\langle\supersub{\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}}{83}\text{reference-of-thought}\rangle\) by construed ontological-veridicality. Since it is always about the same existential reality but improving-rather-as-cumulating/recomposuring human limited-mentation-capacity-deepening in ‘engaging the same existential reality and drawing implications thereof’ as human epistemicity-totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling\{by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology\} as ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness or existence-in-reverberation or existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression, it is thus analysed as maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as a mental-rescheduling and goes by the ‘projective-insights of imbricatedness/threadedness/recomposuring as of attendant ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—reifying-or-elucidating-of-

(It is important in this regard to distinguish what is implied by ‘incidenting’ not to be confused with ‘instantiation’, as incidenting implies an ‘abstract construction’ of the implication of logic or any ‘knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue’ that may or may not be of existential-instantiation, whereas instantiation refers actually to ‘actual existential instance’. It is critical to uphold this distinction with respect to the existentially attendant nature, as of imbricatedness/threadedness/recomposuring, of human limited-mentation-capacity grasp of all ‘intersolipsistic-intercessory-notions/notional~referential-notions’/knowledge including our grasp of logic or mathematics. As ‘abstractly-speaking’ there is no absolute certitude that in say a million years from now ‘a given as of yet unelucidated notion’, as a further imbricatedness/threadedness/recomposuring, will invalidate in a million years from now the ‘existential-instantiations’ validity of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue including logic and mathematics as we know of them today. Such distinction as of more immediate concern is to point out the subsuming precedence of existence as of its inherent intrinsicism beyond-and-over human construal/conceptualisation of ‘meaningfulness-and-teleology’ about it as at best the latter can only achieve as of its upper limit ‘a correspondence of construal/conceptualisation of existence’; noting here as well for coherence sake that such a statement cannot be made about existence itself as the absolute a priori, simply because any arising existential-instantiations no matter the strangeness or abnormality to what is traditionally thought or expected however imbricated/threaded/recomposured or
entailment. Pointing out that there must necessarily be an exercise in developing the requisite ‘ontological reference-of-thought or axiomatic-construct of an epistemic-totalising ~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality’ to which logic and mathematics (and any knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue) can then contribute in furthering its elaboration (as of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression), but it wouldn’t work out the other way round on the basis of simple methodological mimicry starting out from the mimicked construal/conceptualisation of logic and mathematics (and any such knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue) on the naïve goal of then grasping a reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of a given <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. For instance, the need to develop a reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the specific biology <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality as DNA-based genetics that explains genes and genetic principles is ontologically preceding and defining of how the knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue of mathematics, logic, information processing, etc. can further contribute in elaborating DNA-based genetics but it is rather naïve to think mathematics, logic, information processing or for that matter any other knowledge-
constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue like ‘mere research methodologies lacking critically the requisite ontological cogency’ can by themselves develop a ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^9\) of a given <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality by such vague methodological mimicry. The latter at best induces a vague and blurred ‘conceptual patterning’ particularly in such domains-of-study where the positive or negative sanctioning by <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity is not immediately perceptible but rather remote like in the human sciences and to some extent as well with some studies in the natural sciences (where for instance the overall cogency of the whole experimental framework relative to the conclusions advanced of many a research study is dubious as not pertinently unconfounded). Supposedly a mathematical and/or statistical methodological analysis was to be introduced with regards to the underlying articulation herein and based say on an ‘arbitrary \(^\text{historiality/ontological-eventfulness}\)/ontological-aesthetic-tracing:<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'> grounded methodology on the basis of just vague impression’ it will rather be conceptual patterning. The contention being that studies and research that do not develop their conceptual formulations validly and succinctly as the underlying framework of the <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but simply expect to dangle/associate methodologies including statistical and mathematical analyses are rather involved in vague conceptual patterning as of reference-of-though apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity –educed– existentialising/contextualising/textualising-contiguity }—constitutedness —in–preconverging–entailment. This insight is critical with respect to the validity of interpretations and conclusions in many experimental and study frameworks in the social sciences often ‘under-elaborating the ontological reference-of-thought or axiomatic-construct of their study’ to which the implications of statistical and mathematical methodologies and analyses are naively brought to bear. This further speaks in the bigger scheme of things, of the need for the articulation of what will be a ‘fully intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superrerogatory–de-mentativity constraining social science’ as futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology° as of prospective notional~deprocrypticism registry-worldview psychologism should fully enable (rather as an overall grounding of meaningfulness-and-teleology° that overcomes disjointedness-as-of-

Thus it may be useful for ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining (as we are more likely to have complexes about our positivistic/procrypticism registry-worldview/dimension as untranscendenable) by articulating the same aetiolgisation/ontological-escalation storied-construct/ontologically-valid-narration at a ‘notional~deprocrypticism imbricatedness/threadedness/recomposuring as against procrypticism-virtuality’ as well as ‘positivism imbricatedness/threadedness/recomposuring as against non-positivism-or-medieval-virtuality’ wherein from our vantage positivistic position we’ll recognise the suprastructurally implied preconverging-or-dementing—apriorising-psychologism and dialectically-out-of-phase state of non-positivism/medievalvirtuality-or-ontologically-flawed-construal putting us in a paradox with respect to recognising the same from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—as of prospective notional~deprocrypticism about the suprastructurally implied preconverging-or-dementing—apriorising-psychologism and dialectically-out-of-phase state of our procrypticism–virtuality; and so, introducing the grounds for our prospective ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring wherein notional~deprocrypticism is the structural-resolution for the perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as the preconverging-de-mentating/structuring/paradigming vices-and-impediments of our positivistic meaningfulness. The fact is all constructs as transcending or implying transcendence-and-sublimity/sublimation/supererogatory-de-mentativity are always

The reason is rather straightforward as there is a ‘mental/psychoanalytic investment’ behind the construal of meaningfulness in a given way within a registry-worldview’s/dimension’s reference-of-thought defining its ontological-capacity with respect to inherent intrinsic-reality–ontological-coherence_or_superseding–oneness-of-ontology. Ultimately, the very transversality of for-sublimating—existential-eventuating/denouement—of-affirmative-and-unaffective—disambiguated—motif-and-apriorising/axiomatising/referencing’ between the prior registry-worldview/dimension as of its prior relative-ontological-incompleteness reference-of-thought and the prospective registry-worldview/dimension as of its prospective relative-ontological-completeness—reference-of-thought is ‘the very paradox of meaningfulness-and-teleology explaining their discordance, construed as the paradox of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’. This further explains ‘the socially conflicted nature of all implied transcendental constructs’ whether with prophesying metaphysico-theological constructs of early times reflected in non-universal and universal creeds up to our metaphysico-ontological worldviews implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and so as of human-subpotency—aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturenedness—temporal—

The implication here is that from a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation, just as a positivistic supratransversality will imply a deeper intellectual-and-moral ontological construct (in a projection of a positivistic worldview where the mental-dispositions and conventioning in a non-positivism/medievalism setup are construed as prospectively questionable) of non-equivalence over that projected by a non-positivism/medievalism subtransversality.

This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more ‘profound level of living in the realm of human thoughtfulness’ based on eudaemonic-contemplation of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-reprojecting that then ‘invents/creates’ the dementative/structural/paradigmatic possibility for prospective institutionalised-being-and-craft as

The implication is that acting as-of-a–‘secondnatured reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation nature’ is not enough for articulating prospective institutionalisation requiring ‘intemporal projection \textsuperscript{amplituding/formative–epistemicity}totalising–renewing-realisation/re-perception/re-thought’ for the requisite prospective \textsuperscript{55}maximalising-recomposuring-for-relative-ontological-

The transcendental first-order-ontology/ontological-construal work derived by maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation (as intemporal-projection/longness-of-register-of—meaningfulness-and-teleology) in recurrent-utter-uninstitutionalisation inducing transcendental/intemporal-preserving base-institutionalisation, maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation in base-institutionalisation—ununiversalisation inducing transcendental/intemporal-preserving universalisation, maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation (as intemporal-projection/longness-of-register-of—meaningfulness-and-teleology) in universalisation—non-positivism/medievalism inducing transcendental/intemporal-preserving positivism, and prospectively maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation (as intemporal-projection/longness-of-register-of—meaningfulness-and-teleology) in positivism—procrypticism inducing transcendental/intemporal-preserving deprocrypticism, are the most important effort available at every corresponding registry-worldview as defining the institutionalisation possibilities and psyches that secondnatured as institutionalisation as their corresponding institutionalised-being-and-craft setups even though paradoxically the ordinariness within such institutionalised-being-and-craft setups may be impervious to what is behind this very creation/invention in the first place as it fails philosophically to appreciate the need for transcendental first-order-
ontology/ontological-construal in the elucidation (as institutionalisation and psychical-reorientation) of meaningful-and-teleological pertinence within its own registry-worldview/dimension but equally in ‘inventing/creating’ the institutionalisation possibilities and psyche for the prospective institutionalised-being-and-craft setup. Thus it is generally not surprising that the transcendental first-order-ontology/ontological-construal by an ascetic intemporal-prioritising/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation Socrates will be passed by the ordinariness/earthliness of thought in that institutionalised-being-and-craft setup as vague while upholding its shallow notion of value with the true worth and value of such implied transcendence-and-sublimity/sublimation/supercerogatory–de-mentativity grasped, at least expediently, mostly in the prospective institutionalised-being-and-craft setup it ushers, the same could be said of an intemporal-prioritising/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation Copernicus, an intemporal-prioritising/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation Rousseau, an intemporal-prioritising/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation Galilei or an intemporal-prioritising/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation Darwin, and so as a fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnatedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor. But then mental-dispositions that come to intemporal notions by expediency cannot truly have the pretence of engaging such on the basis of shallow temporal extricatory preconverging–dementating/structuring/paradigming as of institutionalised-being-and-craft setup whose temporal-dispositions terms are alien to the intemporal disposition required for
transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation first-order-ontology/ontological-construal required for ‘creating/inventing’ the prospective institutionalised-being-and-craft setup! That failed test of understanding the transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation not in a prospective appreciation, but rather possibly as of retrospective appreciation and expediency, speaks of the social-construct as more of a secondnatured institutionalised-construct rather than an intemporal-disposition construal, and therefore assertive pretences that naively imply the latter should necessarily be suspect of their threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to-
‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing—apriorising-psychologism> without the corresponding demonstration of the requisite salient philosophical insight of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming (that goes beyond subontologisation/subpotentiation as slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect); and the fundamental issue that will then arise in that instance is one of ‘irrealism and corresponding virtualities’ that will undermine analytical pertinence, as man has to be understood exactly for what man is in effective reality, to then articulate effective knowledge constructs that are actually most efficient because of their realism, and that is paradoxically our virtue, not a wrong or false idealism (which metaphorically ends up hiding things under the table beyond the analysis required for their understanding and resolution)! It equally speaks of the ‘requisite specialness of the discipline of philosophy as a first-order ontology’ among all subject-matters
(or-as-it-protrudes-into-subject-matters-or-second-order-ontologies), as the one that can least afford to be of normal trade, as it starts with a commitment of the mind (rather like modern-day religion) rather than just a normal craft, and further requiring the central quality of transcendentally-enabling-level-of-ontological-good-faith-or-authenticity /objectification/desubjectification-as-objectification-as-to-ontological-faith
notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing-as-so-being-as-of-existential-reality as antinihilism of thought, postures and teleology above anything else (not even the value of institutional recognition as Socrates, Rousseau, Sartre and others intuitively understood, necessarily so, since it is what is of a priori definition and can’t be compromised in institutional-constructs-and-setups)! The blunt fact here is that, with respect to social-stake-contention-or-confliction within a given registry-worldview, the everyday wooden-language (imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications) or banality-of-thought doesn’t necessarily as of solipsistic intemporal projection appreciate ‘the need for prospective transcendental/’ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming over the extricatory/temporal/expediency preconverging–de-mentating/structuring/paradigming with respect to its registry-worldview/dimension’ (even though it does appreciate this retrospectively with respect to prior registry-worldviews/dimensions), but for effective secondnatured institutional devising. Inevitably an aetiologisation/ontological-escalation construct is rather about intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming which is necessarily antipodal to the

We would possibly appreciate this argument from a retrospective insight of how the retrospective institutionalisations came about to the present, but it will certainly be alienating to think the same of our present in those transcended terms from a prospective transcending reference, even though the ontological insight points in that direction. The conceptual background for this tone-as-temperament and thematic teleological conceptualisation (for the storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation) lies in the notion that human construal of meaningfulness/memetism defines and structures its teleology /teleological-differentiation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ situations whether in ‘notional~firstnaturedness—temporal-to-intemporal-dispositions→so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuation terms’ and as this in dynamic-cumulative-aftereffect defines individuals actions intradimensionally or transcendentally/transdimensionally/interdimensionally/maximalisingly. For instance, in the latter case a meaningfulness/memetism fundamentally based on spirits as causes-and-effects
will fundamentally be predisposed to a defining teleology /teleological-differentiation of animism practices, and the corresponding ways of thoughts and live patterns; likewise a meaningfulness/memetism fundamentally based on a grand religion will fundamentally be structured on the basis of such religious practices, and the corresponding ways of thoughts and live pattern (depending on the degree of religious absolutism) as its defining teleology /teleological-differentiation, and likewise a meaningfulness/memetism that is mostly secular-inclined will be predisposed to the defining teleology /teleological-differentiation of down-to-earth interests including utilitarianism and practical knowledge/scientism, and the corresponding ways of thoughts and live patterns. Going by the defining notional-firstnatedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> of individuals action intradimensionally (and as recurrently affirmed by the ontological-contiguity—of-the-human-institutionalisation-process across all the registry-worldviews/dimensions, giving rise to prospective institutionalisations and uninstitutionalised-threshold), this establishes that there is a deterministic existential-tautologisation/existential-reference of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnatedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor mental-dispositions with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ highlighting a teleology /teleological-differentiation at the individuation-level in a continuum from pseudointemporality (involving the ‘faulty-mentation-procedure-deception-or-urge’ of postlogism-slantedness and the derived-by-conjoining temporal-accommodation-of-this-perversion-of reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as conjugated-postlogism /preconverging-or-dementing-integration,

Thus, decentering is what divulges all the uninstitutionalised-threshold as recurrent-utter—uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism by maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation, while ‘centering’ divulges all the institutionalisations as base—institutionalisation, universalisation, positivism and prospectively deprocrypticm; and so with their ontological possibilities and limits as well as corresponding ‘postconverging—or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or
impediments associated with a positivism–procrpticism mental frame, even though we’ll possibly carry-complexes/complexé about the blunt fact, as all registry-worldviews/dimensions prior to ours had equally done. Decentering thus fundamentally speaks of human shallow-limited-mentation-capacity to deeper-limited-mentation capacity recomposuring from ontological-normalcy/postconvergence point of reference maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation across all institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>). The notion of pivoting/decentering as fundamentally psychoanalytic actually extends to the construal of understanding itself with regards to the underlying rescheduling of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology, as the idea of pivoting/decentering extends to the notion of the ‘self’s own pivoting/decentering for understanding’. It is an aberration to construe ‘transcendental text’ which puts into question the reference-of-thought itself in non-transcendental terms ‘as the transcendental reality (divulged by human limited-mentation-capacity-deepening with corresponding recomposuring of ontological import) that is being implied given the ontological-normalcy/postconvergence nature of transcendental text doesn’t concede to a human temporal complex of its established metaphysics-of-presence-{implicit–'nondescript/ignorable–void 'as-to-' presencing—absolutising-identitive-constitutedness } conventioning/traditional-ways of understanding as superseding but rather superseded, and having to cave in’. In other words the aporeticism overcoming/unovercoming nature of a Derridean deconstruction text doesn’t speak of the poor writing of Derrida, it speaks of the reader’s ‘complex of understanding’ that fails to recognise its need to psychoanalytically-unshackle, construed in interdimensional transcendence-and-sublimity/sublimation/supererogatory~de-mentativity terms as akin to a positivistic laden text
attributive-dialectics) involved in such a pivoting/decentering as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Suprastructuralism as such will also explain the underlying logic of Bruno Latour’s famous criticism of the notion that scientists reported discovery of TB as being the cause of Pharaoh Ramses II death together with the organisation of an official ceremony in full honours in celebration of Ramses II corpse and the discovery, as being an entanglement of references-of-thought between the modern frame-of-reference/collective-consciousness-awareness-teleology and the Ancient Egypt pharaonic era frame-of-reference/collective-consciousness-awareness-teleology (a mix-up that must not occur for history itself to conceptually exist ‘since history wouldn’t deny its object of study its own frame-of-reference, as being oblivious here to the notion of TB’, for an exercise of understanding the past and projecting to the future); as if it were ‘possible and desired’ that the modern frame-of-reference equally carry modern weapons back in time in Ancient Egypt and fight pharaoh Ramses II wars (which is obviously ridiculous). Suprastructuralism as such highlights the ‘mental complex of all present mindsets as metaphysics-of-presenceˈ(implicited-ˈnondescript/ignorable–void ’-as-to- presencing—absolutising-identitive–constitutedness ˈ), and going by ‘projective-insights’/postdication/metaphysics-of-absenceˈ(implicited-epistemic-veracity-of- nonpresencing–perspective–ontological-normalcy/postconvergence)ˈ is equally what can enable our own prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity in grasping a more profound intrinsic-reality/ontological-veridicality as notional–deprocrypticism which is deeper than our present positivism–procrypticism registry-worldview references-of-thought. As implied in this paper, the implication of pivoting/decentering for understanding itself is that our metaphysics-of-presenceˈ(implicited–ˈnondescript/ignorable–void ’-as-to- presencing—absolutising-identitive–constitutedness ˈ) traditional/conventioning reference-of-thought–categorical-imperatives/axioms/registry-teleology is put into question, and the notion of understanding
itself is pivoted/decentered such as implied by the referentialism approach of this hermeneutic/reprojecting/supererogating/zeroing design (as opposed to a categorisation constituting elaboration basis for understanding). As the referential harkens to the most profound concept (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation also construed as ontological-normalcy/postconvergence) and ontologically-reconstitutes/deconstructs lesser and lesser profound concepts in relation to the most profound concept by a referencing understanding. The implication is that the entirety of the text is a unity in contiguity perceptible from the subtexts fusion with the unity. Hence the organisation of the text can only be cross-referencing (and not, wrongly, an organisation based on categorisation constituting elaboration) to retain its cross-referencing coherence of prospective meaningfulness. The recognition for the need to disambiguate human mental-dispositions as of temporal-to-intemporal is not an exception here as all our formalisations implicitly operate on this basis as deferential-formalisation-transference, tacitly confirming its veracity/ontological-pertinence. It should be noted that the representation of registry-worldview’s/dimension’s uninstitutionalised-threshold as of ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’–<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> based on their respective relative-ontological-incompleteness-induced,–‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’–<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> while most ontologically-veridical from an ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective, such a suprastructural-meaningfulness/memetism is rather unordinary and suprastructural (beyond-the-consciousness-awareness-teleology –<in-preconverging-existential-extrication-as-of-existential-unthought> ) to the given uninstitutionalised-threshold registry-

prospective ontology/ontological-veridicality (as psychoanalytic-unshackling/memetic-

in all prior registry-worldviews, the pseudointemporality\textsuperscript{14} logic will tend to become one of conscious or unconscious ontological-bad-faith/inauthenticity\textsuperscript{14} that construes of the present (by its\textsuperscript{83} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{11},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation whether being usurped/disjointed/impostored/parasitized/co-opted) as of absolute reference-value regardless, failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to register that the grandest value as ontologically-coherent (as a principle sustaining its perpetuation) is the transcendental/\textsuperscript{14}maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{82}—unenframed-conceptualisation as longness-of-register-of-meaningfulness/intemporality\textsuperscript{82} that accounts for the becoming from all the priors to the present to the prospective registry-worldviews/dimensions institutionalisations, thus not wrongly implying an equivalence between such a meaningful construct of\textsuperscript{10} universal import with temporal extricatory preconverging–de-mentating/structuring/paradigming contentions (more like metaphorically an apple falling on Newton’s head and his projection of this in grasping the\textsuperscript{10} universal implications of the laws of motion being wrongly equivocated in the terms of say an apple merchant and other interests in extricatory/temporal fear of the idea that understanding the laws of motions will be ‘temporally’ undermining in one way or the other). Critically, it isn’t idle idealism but rather a realistic insight, as just as articulations of notions of positivism like evolution,\textsuperscript{10} universal human emancipation, rationalism, empiricism and science cannot be sustainably intelligible in a mindset/psyche that is non-positivism/medievalism and has not been pivoted (psychoanalytically-unshackled/mimeticly-reordered/institutionally-recomposured) to a positivistic mindset/psyche thus explaining why their proponents actively undermined the overall ordinary meaningful-frame of non-positivism/medievalism including such effort as the Encyclopédistes, likewise it is naïve to think that notional–deprocrypticism (by its\textsuperscript{14} deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought

Critically, ontological-normalcy/postconvergence points out that paradoxically the transcendental mindset/reference-of-thought associated with a ‘knowledge construct of intrinsic-reality’ should priorly be established (‘centered’ over the prior meaningful-frame which is ‘decentered’) for the knowledge construct to take hold by the continuing ‘moulting’ of its proponents and corresponding social construct, as intrinsic-reality doesn’t adjust its inherent meaningfulness to us but rather humans need to achieve a given psychical development to have-access-to or be-able-to-register the knowledge construct of the more profound existential-reference/existential-tautologisation to intrinsic-reality/ontological-veridicality that that psychical development allows for, in meaningfulness-and-teleological terms. This is rather a difficult task as it implies
‘de-mentation’(supererogatory–ontological–de-mention-or-dialectal–de-mention–
stranding-or-attributive-dialectics) of ‘reference-of-thought’ behind the psychoanalytic-
unshackling/memetic-reordering/institutional-recomposuring, and no registry-
worldview/dimension sees itself as de-mentable prospectively, as being decentered for a
prospective centering, even where it acquiesces to the notion retrospectively up to its own
institutionalisation; pointing that ontological-normalcy/postconvergence is the genuine
perspective for construing the dynamism of knowledge-and-virtue or ‘meaningfulness-and-
teleology’. The fundamental point of a knowledge construct (which is necessarily tautological
as intrinsic-reality/ontology is already given) is rather an exercise of ‘human

enabling/sublimating/supererogatory de-mentativity as intemporal reference-of-thought (thus implying a mental-representation-devising/mentation/placeholder-setup of the ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity’ as ontologically preconverging-or-dementing –apriorising-psychologism from the perspective of the transcendental-enabling/sublimating/supererogatory de-mentativity as ontologically thinking). Insightfully, for a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation, such a ‘dynamic-cumulative-aftereffect of individuation/intradimensional/transcendental-or-transdimensional-or-interdimensional levels of conceptualisation’ ontologically validates ‘a deterministically teleological-differentiated storied-construct/ontologically-valid-narration’ of projectable/predictable-relative-existential-implications of the various ‘incrementalism-in-relative-ontological-incompleteness’ —enframed-conceptualisation temporal-dispositions incremental/shortness-disposition-relative-finitudes’ and ‘maximalising-recomposing-for-relative-ontological-completeness’ —unenframed-conceptualisation intemporal-disposition superseding/longness-disposition-to-finitude’; finitude being the full-depth-of-existential-implications/existentialism arising when acting (as-being/as-existing) with regards to one’s prior relative-ontological-incompleteness /relative-ontological-completeness of reference-of-thought. As a side note, such a notion of mentarchy in its dynamic-cumulative-aftereffect should be able to highlight the peculiarity of reference-of-thought associated with human languages from ancient ones to modern ones (as of the registry-worldview/dimension-levels of the corresponding societies), facilitating the deciphering and understanding of ancient languages, as well as the reconceptualisation of
meaningfulness-and-teleology across history, which conceptual exercise tends to be rather biased towards a modern perspective metaphysics-of-presence \(\text{implicated-nondescript/ignorable–void as-to-presencing—absolutising-identitive—constitutedness} \). Finally, a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation will need to take cognisance of the very peculiar nature of the social world (in contrast to the natural world) that makes the social ‘susceptible to incorrect understanding and analysis’ particularly at a practical and operant level by the fact that it is highly emotionally-involved/politically-driven especially so with disturbing issues, and this is further compounded by the ‘blurriness’ and distance of samplituding/formative—epistemicity causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’, and finally from a transcendental/maximum-recomposing-for-relative-ontological-completeness unenframed-conceptualisation perspective human mental-disposition with regards to the social can be poorly ontological with unconscious, expedient or conscious emphasis on significant others basis of logic as well as averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications} mental-dispositions (social-aggregation-enablers) undermining the solipsistic relationship with intrinsic-reality required for veracity/ontological-pertinence (transcendental-enabling/sublimating/supererogatory—de-mentativity). In this regard, it will actually be naïve to assume that an articulation of veracity/ontological-pertinence as with the natural sciences is all that is necessary in achieving effectiveness. With the weaknesses highlighted above with regards to grasping the social, it is important that such veracity/ontological-pertinence is effectively emphasised within the ‘realistic social contexts of mental-dispositions and actions’
driven by social-aggregation-enabling, wherein for instance the transcendental-enabling/sublimating/supererogatory-de-mentativity that is intrinsic-reality/ontology grounded on intrinsic-attribution can easily take a backseat over social-aggregation-enabler grounded on extrinsic-attribution driven by such ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation (so-called principle that is not articulated as a universal construct but targeted, avowing its reality as fake), etc., and so, including intellectual milieus as well. The implications for a truly ontologically effective social science can be construed as follows; say for instance an accused miscreant was to articulate a credibly demonstrable notion in physics or chemistry, the ‘promptness of causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ will easily allow for such veracity/ontological-pertinence to establish itself without undermining of the transcendental-enabling/sublimating/supererogatory-de-mentativity that is intrinsic-reality/ontology by any social-aggregation-enabler (perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation or so-called principle that is not articulated as a
universal construct but targeted, avowing its reality as fake, etc.). The ‘blurriness’ and distance of causality as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ makes this altogether a more difficult proposition in the social sciences particularly with issues that are highly emotionally-involved/interested/politically-driven wherein even in intellectual circles arguments of differentness/subtle-infamy-implications/status/significant-others-basis-of-logic/repute are often easily advanced in undermining inherent veracity/ontological-pertinence. One such notorious argument with regards to poststructuralists involved the notion that French post-structuralism was developed by peripheral intellectuals of French society but then failing to equally say that a lot of the good science and social science in many Western countries have generally had the same personalities attributes. Of course, such a narrative will not be countenanceable in the promptness of effectiveness driven natural science of causality as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity, for instance, holding that Einstein’s theory-of-relativity is flawed with the non-substantive argument he was a peripheral intellectual to German or Swiss or American society. The bigger point here with respect to a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation, is that veracity/ontological-pertinence by mere articulation of sound ontological conceptualisations as transcendental-enabling/sublimating/supererogatory-de-mentativity-of-intrinsic-social-reality in the social contextualisation especially where blurry is often not sufficient purely by itself but that it needs to be creatively construed in facing off ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ with the transcendental-enabling/sublimating/supererogatory-de-mentativity-of-intrinsic-social-reality
This weakness actually takes a turn for the worst when it comes to the phenomenon of psychopathy and social psychopathy as this phenomenon is actually the quintessence of active extrinsic-attribution ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory−de-mentativity’ as driven by postlogism—construed-as-of-disontologising-perverted-outcome-sought-precedes-existentially-veridical−’attendant-intradimensional−apriorising/axiomatising/referencing’−logical-dueness backtracking-<iterative-looping−’set-of-dereifying-hollow-narratives-and-acts’> postlogism and corresponding conjugated-postlogism conjoining-looping-set-of-narratives of such postlogic-backtracking-<iterative-looping−’set-of-dereifying-hollow-narratives-and-acts’> respectively in recursiveness (psychopathic), progressiveness (opportunistic and exacerbatory) and regressiveness (ignorance and affordability). So a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation will need to demonstrate veracity/ontological-pertinence of the conceptualisations highlighted in this paper not purely by themselves as transcendental-enabling/sublimating/supererogatory−de-mentativity-of-intrinsic-social-reality but rather such conceptualisation in a supratransversality-<in-sublimating–existential-eventuating/denouement>−of-motif-and-apriorising/axiomatising/referencing should be over-and-face-off a subtransversality-<in-desublimating–existential-eventuating/denouement>−of-motif-and-apriorising/axiomatising/referencing of temporal undermining by ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory−de-mentativity’ such as perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between
universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation (so-called principle that is not articulated as a universal construct but targeted, avowing its reality as fake), etc., and this is the realistic developing social contextualisation within which psychopathy and social psychopathy manifests itself. Further the social-aggregation-enabler mechanism is what brings about social-chainism/social-discomfiture/negative-social-aggregation as well as the temporal-endemisation/temporal-enculturation of psychopathy and social psychopathy by eliciting of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation, etc., to induce subontologisation/subpotentiation or existential-decontextualised-transposition. Ontologically, thus the construal/conceptualisation of the Social postconverging–de-mentating/structuring/paradigming is necessarily a construct that harkens to the intemporal-projection enabling the thoughtfulness as the imbued intemporal-preservation consciousness-awareness-teleology with corresponding meaningfulness-and-teleology (so-reflected as to the success of registry-worldviews/dimensions of the ontological-contiguity—of-the-human-institutionalisation-process) inducing the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation: so-enabling the development and endemisation/enculturation, as from recurrent-utter-uninstitutionalisation (non-rules—apriorising/axiomatising/referencing—psychologism,—as-impulsive-or-accidented-or-random-mental-disposition), successively of base-institutionalisation (rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism) social-setup, universalisation (universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—
reference-of-thought-as-of-conflatedness) ‘is ontologically social’. The Social as such is an abstract construct not about the ‘equability in mutuality of the mortals that we are’ but rather the opportunity for transcendental construal of our potential for intemporality. Paradoxically and across all registry-worldviews/dimensions this has always imply sociologically that uninstitutionalised-threshold are in a transversality-eventuating/denouement-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing of these two divergent mental-dispositions with respect to meaningfulness-and-teleology whether conceptualisation of the transcendental as defining prospective social ontology in a sense of intellectual solipsistic fulfilment driven by relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superceratory-de-mentativity or conceptualisation in aggregativity/social-aggregation as of wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable–void ’with-regards-to-prospective-apriorising-implications} driven by social-aggregation-enabling, explaining the underlying confliction implied by any prospective institutionalisation as transcendentonal. This insight can be grasped from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective, when we garner that the ‘equability in mutuality of temporally-disposed minds as shortness-of-register-of—meaningfulness-and-teleology in a non-positivism/medievalism social-setup doesn’t supersede the ontological-veridicality of a social ontology insight providing anchoring for prospective positivistic institutionalisation construed reference-of-thought. Plausibly most likely the ‘developing consciousness-awareness-teleology mindset’ of such a ‘social ontology insight about prospective positivism’ (as maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) may lead to its very own circumspection
with the registry-worldview’s/dimension’s meaningfulness-and-teleology and possibly non-aggregativity. Consider the instance of such characters as Galileo and Newton, at the crossroad of ‘what is to be considered as valued meaningfulness-and-teleology’ with respect to the prospective as the posivistic registry-worldview/dimension and the prior as the non-positivism/medievalism world, as consciously-or-unconsciously they register that the prior needs to be ‘decentered’ and the prospective ‘centered’, even though by reflex the prior will construe of itself as undecenterable center of meaningfulness-and-teleology. This may go a long way in explaining such biographic accounts about Isaac Newton as unsocial wherein a naïve conceptualisation of impression-driven/good-naturedness/wishfulness construal as virtue (in lieu of the-Good/understanding/notional-knowledge-reification-gesturing-in-prospective-psychologismic-apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity) conflatedness in {preconverging-disentailment-by}-postconverging-entailment/>\langle amplituding/formative-epistemicity\rangle causality as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity in its \langle amplituding/formative-epistemicity\rangle totalising-‘ratiocontiguity/ratiocination-as-referentialism—implicit_attendant—ontological-contiguity’-phenomenal-abstractive-ness-of-presencing-in-‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of_attendant-ontological-contiguity-educed—existentialising/contextualising/textualising-contiguity <reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context> of intemporality/) will not factor in the inherent deficiency in value judgment of a non-positivism/medievalism inclined ordinary mindset/ reference-of-thought from which such accounts are coming from (given such a society’s state of paradox of
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of relative-ontological-incompleteness\textsuperscript{-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising~preconverging/dementing –apriorising-psychologism'}) about a figure involved in ‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness ‘-or-ontological-reprojecting as partaking in the ‘inventing/creating’ of the de-mentative/structural/paradigmatic possibility (and the corresponding psychologism) for prospective positivism institutionalised-being-and-craft, more like biting a hand that intemporal-solipsistically as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality provides the opportunity for prospective de-mentative/structural/paradigmatic human flourishing, with the underlying fact being that inherently such a personality type rather as of a solipsistic-intemporality\textsuperscript{i} individuation disposition, by its contemplative reappraisal, is exactly what can provide the opportunity for such transcendental possibilities (when we come to grasp that the true profundness of knowledge is more than just ‘mechanical as something construed soullessly’ without a more complete appreciation of knowledge as ‘organic as something construed with a profound sense of intemporal projection philosophy as to profound-supererogation\textsuperscript{i}’ with the idea that the type of knowledge construed as of first order transcendental-enabling/sublimating/supererogatory-de-mentativity is not based on an ordinary notion of ‘intelligence as we’ll normally think of as simply technical’ but rather on such a sense of intemporal philosophical projection and more than just a ‘product’ for a materiality purpose but a driven sense of human emancipation). In fact, this equally points to a major flaw of the inherently implied value judgement in a lot of what passes for social sciences today explaining the vagueness, platitude and emptiness of little or no relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity implication as
an an an <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag circular exercise, wherein the unabated recourse to naïve feel good averaging of thought mental-dispositions are equated with ontological-veridicality uncritically, rather than construing that the animal that we are is in want of knowledge as a construct that enable it to supersede/transcend itself rather than a vain exercise of nombrilism, in which case one may argue that each registry-worldview/dimension <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveving/ressentiment/closed-construct-of- meaningfulness-and-teleology as-of- ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> ideas should be the basis for construing its social science! In fact, technically Newton might be the most inclined person for social engagement but then will he as of intemporal projection be inclined to ‘go along as social’ where he construed beyond-the-consciousness-awareness-teleology^{9} -<in-preconverging-existential-extrication-as-of-existential-unthought> ‘the medieval social’ as in want of its further development (this highlights a contrast between a stigmatic/mented psychology of the present, as of any ‘present registry-worldview/dimension’, with value references related to as absolute without or poorly factoring in that the animal that is the human is rather a becoming animal in constant psychological development of its limited-mention-capacity with respect to social universal-transparency^{10} -{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness } as of attendant-ontological-contiguity^{12} -educed-existentialising/contextualising/textualising-contiguity -<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context> as of ontological-completeness-of-reference-of-thought; as determining its value reference and defining its underlying placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology^{9}, and hardly addressing such a
more fundamental question as implied by ‘postconverging-or-dialectical-thinking’ psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’). In this respect, this makes many such so-called ‘social science approaches’ ‘poorly grounded on a social relative intrinsic-reality/ontological-veridicality' more or less sciences of methodological mimicry, as we know that much of the ‘true sciences’ (including the natural sciences and many a true social science are not grounded on an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construal but identify objective reality by its naturally constraining <amplituding/formative–epistemicity>causality –as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity, as differing from sovereign constructs, as the determinant of pertinence (and such profound transcendental-enabling/sublimating/supererogatory–de-mentativity basis of knowledge are then bound to further redevelop sovereign constructs and conventions, with the sovereign constructs and conventions not becoming intrinsic-reality/ontological-veridicality in of themselves but rather as of social, institutional, cultural, moral or historical reality of the human condition); though much more easier for the natural sciences as hardly any or nobody feels impinged today with scientific discoveries and inventions given that their transcendental-enabling/sublimating/supererogatory–de-mentativity as of a positivism outlook psychologism of the world had taken place both in philosophical and practical scientific terms with the Descartes, Hobbes’s, Kants, Copernicuses, Galileos, Newtons, of the past. Whereas a lot of modern-day social science is relatively pulled back in many an unsuspecting manner, by elicited emotional involvement and underlying constraints of their institutional setups. Such can equally be implied with regards to procrypicism from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–
meaningfulness-and-teleology as of prospective notional–deprocrypticism insight, wherein positivism–procrypticism is decentered and notional–deprocrypticism is centered, and so in comprehensive psychologism terms; with the idea that the possibly unsavoriness is not of this author’s or anyone’s chosen but rather that the test for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity set by intrinsic-reality/ontological-veridicality requires us coming to terms with it, no lesser than the test set by positivistic transcendence-and-sublimity/sublimation/supererogatory–de-mentativity in the non-positivism/medievalism epoch intrinsic-reality required them to come to terms with this, however unpalatable to many then, and this underlying vitality across all epochs as of attendant ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity<reifying-or-elucidating-of-prospective-relative-ontological-completeness–of-reference-of-thought- devolving-as-of-instantiative-context>, induced by prospective relative-ontological-completeness<reference-of-thought> of reference-of-thought is what counts as true knowledge beyond the blurriness-in-reflecting-and/or-coming-to-terms-with-implied-transcendence that often tends to arise with all institutionalisations institutionalised-being-and-craft erudition! More fundamentally, as previously highlighted with the mediocrity principle of science as it applies to humankind as well (as the notion of metaphysics-of-absence<implicated-epistemic-veracity-of- nonpresencing–<perspective–ontological-normalcy/postconvergence> is pushed to its full implications over metaphysics-of-presence<implicated–nondescript/ignorable–void ‘-as-to- presencing—absolutising-identitive-constitutedness > as our present-consciousness/illusion-of-the-present/epistemic-totalising~self-referencing-syncretising/mirage), the reality of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional~firstnaturedness—temporal—
to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence'–existentialism-form-factor may actually more objectively (and so beyond-our-consciousness-awareness-teleology') point to the idea that institutionalisation (the ontological-contiguity—or-of-the-human-institutionalisation-process as intemporalisation is actually 'a maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation recomposured abstract-construction/institutionalisation-designing' which in its operant effectuation (due to limited-mentation-capacity as of 'presencing—absolutising-identitive-constitutedness') defines its very own prospective interspersing with uninstitutionalised-threshold articulated as 'socially-functional-and-accordant' temporalisation of meaningfulness-and-teleology as from idiosyncratic individuations frame-of-reference at childhood to full-blown threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to—attendant—

based on reasoning in terms—as-of-axiomatic-construct of cumulating institutionalisations’). Such a construal/conceptualisation of ‘institutionalisation as of uninstitutionalised-threshold’ will explain why with regards to ‘all the successive institutionalisations formal constructs’ as of their respective ‘comprehensive abstract setups of deferential-formalisation-transference institutionalised ‘meaningfulness-and-teleology’, there is a tendency associated with their corresponding extended-informality—{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to— meaningfulness-and-teleology } wherein there is ‘parallel construed extended-informality—{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to— meaningfulness-and-teleology } ‘meaningfulness-and-teleology’—as-of-a-relatively-poor-institutionalising-inclination’ of a subpar and occasionally of a superseding practical applicative bearing/effectiveness over the supposedly formal construct. By and large, this will often arise within the scope of blurry institutional setups not construed for operant effectiveness. Strangely enough we do actually tend to elicit such extended-informality—{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to— meaningfulness-and-teleology } construal as more determinant when the principles of formal constructs are rearticulated operantly in extended-informality—{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to— meaningfulness-and-teleology } ‘meaningfulness-and-teleology’—as-of-a-relatively-poor-institutionalising-inclination terms; and often contributing to institutional inefficiencies and failures of all sorts whether with respect to mismanagement, misappropriation, incompetence, etc. from a modern perspective of analysis. Further, the fact is such extended-informality—{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to— meaningfulness-and-teleology } effect can be more than just about the operant effect but equally protracted as ‘designed-formalisation-ineffectiveness’ in ensuring the ascendency of

For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a supplanting-conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism mind). As with all prospective institutionalisations, a human secondnaturing institutionalising construct is a requisite because, at best even the intemporal-disposition individuation individuals, purporting (by maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation) prospective emancipation come from and are of the stock of the prior reference-of-thought uninstitutionalised-threshold registry-worldview/dimension, and such prospective emancipation involves such individuals own ‘moulting’, as actually intemporality\textsuperscript{52}/longness is a ‘potential construct of orientation’ as implied by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) and it is only a devised institutionalisation construct that achieves that potential-construct-of-orientation and not any implied inherent emanance intrinsincity (though the meaningfulness as articulated as such, and as the meaningfulness in this entire paper, is rather of an intemporal register validation and not of any temporal register validation, since an authentic psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring is what underlies transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as a ‘deeper limited-mentation-capacity—a\textsuperscript{as of relative apriorising/axiomatising/referencing—a\textsuperscript{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity}\textsuperscript{ }—conflatedness—in {preconverging disentailment by}—postconverging entailment\textsuperscript{ }’ existential-tautologisation/existential-reference pivot/decenter to reconstrue/reconceptualise.

By that token there is no base-institutionalised individuation in recurrent-utter-uninstitutionalisation, no universalised individuation in ununiversalisation, no positivistic individuation in non-positivism/medievalism, and prospectively no notional–deprocryptic individuation in procrypticism; as at best such emancipating intemporal individuation are ‘moulting’ and implying-of-the-same of their registry-worldview in prospective institutionalisation design/conceptualisation, as the effective institutionalisation is what is really and effectively attained. The notion of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation as defining the registry-worldviews/dimensions uninstitutionalised-threshold is rather a most real idea from an ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective wherein we can very much fathom out that the successive relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ as the successively reducing-ontological-abnormalities of recurrent-utter-uninstitutionalisation uninstitutionalisation, ununiversalisation uninstitutionalisation, non-positivism/medievalism uninstitutionalisation and procrypticism uninstitutionalisation effectively speaks of their threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation as the respective uninstitutionalised-threshold with respect to the
superseding–oneness-of-ontology which as existential-reality isn’t changed but rather the respective cumulating/recomposuring uninstitutionalised-threshold \(^1\) are due to ‘changes in human meaningfulness and the teleological implications thereof’ confirming by extension that the reality of their threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \(^2\) is veridical or a most real idea with implications on psychical-orientations/mindsets as structured by the ontology-driven ‘postconverging-or-dialectical-thinking’ psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’. However apparently logical this idea, it is an altogether different to mentally register the idea of such a threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \(^1\) construct and perception about our own registry-worldview uninstitutionalised-threshold \(^2\) as procrypticism just as it would be by reflex difficult in all the successive registry-worldviews, often requiring a generation or more for transcendental implications to sink in. This threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \(^1\) conceptualisation of ‘the social as at its uninstitutionalised-threshold \(^2\) threshold’ wherein the representation as ‘being in threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \(^1\)’ is more real (from an ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective) than the actual placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology \(^1\) defect of conscious mindsets within the given uninstitutionalised-threshold \(^2\) registry-worldview/dimension (as the

is an ontological validation of Derridean hauntology/hantologie conceptualisation of the social in cinematographic terms of meaningfulness (and will seem very much akin, from an ontological perspective, to the central notion of ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the superseding referential conceptualisation of ontology and inherently imbued with ontological-reconstituting–as-to-conflatedness as a centering/decentering mechanism’ as implied in this paper, though hauntology/hantologie is not quite articulated in such more precise ontological terms but imbricatedness/threadedness/recomposuring notion of existential-reality in there can be grasped), and equally highlights the fundamental ‘paradox of post-structural deconstruction by its transcendental implications’, in that the mental-disposition/psychical-orientation of the present registry-worldview/dimension as positivism–procrypticism is not developed enough (in terms–as-of-axiomatic-construct of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) to grasp its implications (in want of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought imbricatedness/threadedness/recomposuring as of attendant ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity reifying-or-elucidating-of-prospective-relative-ontological-completeness–of–reference-of-thought–devolving-as-of-instantiative-context> as to existence-potency ~sublimating–nascence,—disclosed-from–prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further–
epistemically-unconceal-the-very-ontologically-same-existential-reality’ for intemporal-preservation-entropy-or-contiguity—or–ontological-preservation), just as the core non-positivism/medievalism mindset/reference-of-thought wasn’t developed enough to grasp the implications of created-and-accruing positivistic meaningfulness and redefined mindset/psyche inducted by the Descartes, Copernicuses, Galileos, Newtons, Kants, Rousseaux and it had to psychoanalytically-unshackle/memetically-reorder/institutionally-recomposure over generations ‘for what were re-originary-as-unenframed/unbeholdening/outlier-conceptualisation⟨imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation⟩’ outlying ideas to become the defining ideas of modernity’. Thus the apparent issues today raised with post-structuralism have as much to do with the psychical orientation (as underdeveloped) of its critiques as well as the requisite effort required to further develop, elucidate and focus it; and in this regard why there have been many serious and constructive criticisms of post-structuralism as required for any subject-matter, most of the ‘popular criticisms’ levied against post-structuralism fail to past the test of intellectual criticism and have mostly been populist and media-driven attacks, gaining traction by social trending than genuine intellectual validity. The most popular being an initiative on an unrecognised social science journal which by that mere token disqualifies the so-called criticism but has turned out to be the most populist ploy by all accounts for condemning post-structuralism. Furthermore and critically, the intellectual exercise as with all institutional processes operate fundamentally on a basis of mutual trust. However the methodologies, theories and concepts, what can be articulated as new knowledge is not necessarily assessed on the basis that any peer review mechanism is absolutely full-proof particularly as the new knowledge is often at the margin of what is understood, and thus much of peer reviewing is not really an approval of the knowledge but rather an admission into the
body of institutionally or formally acknowledgeable perspectives for further elucidation. Even then many a study not approved with peer reviewed journals have later on down the years ended up becoming dominant theory. So there isn’t any inherent sanctity in peer reviewing but for its practicality in formal knowledge organisation (and not even so with approval). Technically the majority of all new knowledge down the years will be found wanting in many ways, and the objective of the overall peer review process is to channel potentially admissible and debatable knowledge towards further elucidation in the overall scheme of establishing overall human knowledge as of veracity/ontological-pertinence. Review of new knowledge doesn’t end with a journal’s peer review though that point tends to be a ‘highly political point nowadays’ as of the increasing bean-counting institutional reflex of funding implications and sometimes at the detriment of novel approaches to knowledge. The abstract notion of reviewing goes well beyond journals approval and extends with the continual critiquing of knowledge whether dominant or outlying. Ultimately, the more fundamental test in such a negotiated process is a strive for consistency and validatory clues with no guarantees of effectiveness but for the overall consistency, as of the very cutting edge of peer reviewed knowledge. Just for the sake of perspective here, it might equally be argued that peer-reviewing and by extension all epistemological and their corresponding methodological activities are not natural knowledge activities as of inherent pure-ontology in of itself but derived activities as of human norms, practices and policies for establishing thresholds that then enable articulated qualifications as of pure-ontology; in other words, any such epistemological and methodological activity is irrelevant if pure-ontology can be arrived at without it. Consider for instance that mathematicians hardly make use of experimental designs or that many secret research by corporations and government aren’t peer reviewed, at least not publicly. Besides at a more fundamental level the question can be asked what are the metaphysics-of-absence-implicated-epistemic-veracity-of-nonpresencing-perspective-ontological-normalcy/postconvergence?

By extension the question can be asked whether beyond our institutionalised positivism conceptualisation of meaningfulness-and-teleology whether such is truly in a ‘requisite

It should be noted here that the more pertinent quality for such implied transcendentalism as of its implied organic-knowledge beyond just a mechanical construct is ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality explaining the disparate nature of the development of human knowledge. This author as previously articulated points out that there is a more profound basis for how and why new/prospective knowledge whether outlying or main stream is socially integrated in driving ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-

Basically the transcendental as (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking –'projective-insights'/'epistemic-projection-in-conflatedness –'of-notional~deprocrypticism-prospective-sublimation)) originary/event –of-prospective-ontology-origination to a knowledge and its knowledge system however remote the origination, in the very first place, speaks of the notion of <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought associated with ‘postconverging–or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ behind any retrospective or prospective registry-worldview’s/dimension’s ^8 reference-of-thought validation-conceptualisation/epistemological relationship to knowledge/ontological-construal. Ultimately, the very transversality <for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–‘motif–and-apriorising/axiomatising/referencing” between the prior registry-worldview/dimension as of its prior relative-ontological-incompleteness –of–reference-of-thought and the prospective registry-worldview/dimension as of its prospective relative-ontological-completeness –of–reference-of-thought is ‘the very paradox of meaningfulness-and-teleology explaining their discordance, construed as the paradox of transcendence-and-sublimity/sublimation/supertorogatory–de-mentativity’. In other words, if the former had a grasp of its state ‘as to its prior relative-ontological-incompleteness –of–reference-of-thought’ with the transcendental de-mentative/structural/paradigmatic <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective-nonpresencing,–for-explicating-ontological-contiguity arising thereof it would have paradoxically transcended, thus explaining the psychoanalytic-unshackling/memetic–
reordering/institutional-recomposuring nature of transcendence-and-sublimity/sublimation/superceryatory-de-mentativity as of a crossgenerational exercise and why such implied transcendental meaningfulness-and-teleology might seem arbitrary when meaningfulness-and-teleology is rather interpreted in terms of the prior registry-worldview’s/dimension’s reference-of-thought not factoring its prior relative-ontological-incompleteness reference-of-thought. But this is simply valid on the fact that a more profound axiomatic-construct on a given domain of reality as of prospective relative-ontological-completeness reference-of-thought is of intemporal-or-ontological prioritisation as of its apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity—conflicatedness—in-preconverging-disentailment-by-postconverging-entailment relative to a less profound axiomatic-construct on that same given domain of reality as of prior relative-ontological-incompleteness reference-of-thought as of its apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity—constitutedness in preconverging entailment, as the latter is rather in shortness-of-register-of meaningfulness-and-teleology /distractiveness to the former as of reference-of-thought-as-to-preconverging/postconverging-de-mentating/structuring/paradigming—ontological-performance <including-virtue-as-ontology>. Consider for instance Einstein’s theory-of-relativity and Newton’s laws of motion with respect to the same given physics domain-of-study reality, wherein the former’s prospective relative-ontological-completeness reference-of-thought over the latter implies the former’s utter ‘ontological-resetting’ in the conceptualisation of the very same physics domain-of-study reality as of transversality for sublimating—existential-eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ with the latter; as henceforth the logical-dueness of

humankind has always been called upon to show itself capable of superseding/surpassément for
prospective possibilities to avail. A second weakness of many critiques is by naively
misrepresenting post-structural meaningfulness, and going on to criticise this. For instance,
such arguments about post-structuralism as a theory that has no worldview are not made by
poststructuralists who in their transcendentally-enabling-level-of-ontological-good-faith-or-
authenticity /objectification/desubjectification-as-objectification-as-to-ontological-faith-

have been rather questioning openly what the reality of the meaningfulness they construct
implies, as a basis for further intellectual development. This explains the convoluted responses
of say Derrida because that is the intrinsic-reality insight at hand, and the issue is rather how to
further develop. This will be tantamount to criticising early quantum physics for contending
that the fundamental particles are rather like waves and evasive without yet establishing an
advanced basis of the science. Knowledge is not an exercise of one set of individuals arguing
against another nor is it a popularity contest but rather it is all about finding out what constitutes
intrinsic-reality as it reflects <amplituding/formative–epistemicity> causality <as-to-projective-
totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-
contiguity>; intrinsic-reality being the superseding transcendental enabler, and not any humans
no matter their statuses. A third weakness has been by relating to poststructuralists as if they
have got to get all their ideas right on by the instant, as if the theoretical framework isn’t in
development like all theoretical frameworks (by the same token imagine all the unanswered
questions that underlie quantum physics for over half a century that are still being elucidated,
for instance, string theory which is so highly speculative but is still credibly a basis for research
and analysis). The purpose of a theoretical framework is not to provide an immediate answer
for everything but rather to provide a framework for constant critical development of ideas.
Otherwise, it will be best to develop a correlational construct that may statistically be coherent
with many arguments at any given point in time but is of little predicative or projective value
because it hasn’t got a profundity as a genuine theoretical construct which may actually be
mostly incoherent with many arguments at its earlier stage but provides a wealthy framework
for the continuous articulation of ideas and resolutions, and this is actually the point of a theory
in the very first place. It is thus no accident that many other disciplines have found post-
structuralism as a relatively ideal tool for invoking much needed insight. A fourth criticism has
to do with the ‘political nature’ of human affairs obviously, and even the intellectual is not
beyond this especially with ideas of ‘socially-perceived disturbing implications’ (as has been
the case throughout human history) and further so in a social domain that is not immediately
amenable to predicative-effectivity–sublimation–as-to-underlying–ontological-commitment
implies—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-
mentating/structuring/paradigming—as-being-as-of-existential-reality> as with the natural
domain even though the latter equally faces similar issues but to a lesser extent. When we come
to reflect that the leading poststructuralist of his time had an entire school, rather than focusing
on developing research criticisms of his work and other poststructuralists (which would have
been the more impressive thing to do) instead taking a ‘political stance’ for the denial of his
recognition with an institution of higher learning. Thus it is obviously, naïve for anyone to think
that intellectualism and ideas occur in an absolute neutral environment particularly when of
socially-perceived disturbing implications. While it is generally recognised that knowledge is
determined on its own merits as an interest-free principle, the fact is in the real world of
‘socially-perceived-value as of social-stake-contention-or-confliction’ situations, human
mental-disposition is not that intemporal and principled, whether wittingly or unwittingly, and
extra-intellectual meaningfulness becomes fair game. Fifthly, the argument of unintelligibility
of post-structural meaning is outright ridiculous with respect to the exegetical aims of its
authors, and no less so as expecting advanced chemistry, biology and physics writing to be
popularly intelligible. Jargon is rather a mechanism of deferential-formalisation-transference
permeating all subject-matters and disciplines, which speaks to the idea that the ‘ordinariness of
thought’ is not the sound basis for construing issues raised in terms—as-of-axiomatic-construct
of profoundness of contemplation. The ontological-contiguity—of-the-human-
institutionalisation-process by its deferential-formalisation-transference is an exercise of
shrinking the melee of common sense wherein spheres previously opened for common
opinionionatedness are shoved away as ‘deferred to’ specialisms whether institutional or
subject-matters by the mere effectiveness, with ‘informed common and individual opinions’
being the panache for the expression of sovereignty whether about the polity or individual
choices, but not to be confused as a sign of inherent knowledge as of popularity. The idea that
there is a common sense social science is a falsehood no more than there is no common sense
natural science, and intellectuals are irresponsible when peddling the notion that readers
shouldn’t acquire the requisite ‘intellectual elevation’ to grasp the profundity of meaningfulness
and rather expect that they should be able to satisfactorily engage at the same intellectual level
(‘reference-of-thought) involving advanced studies and research on the basis of ordinariness of
thought. This should not be confused with a popularising exercise meant to stir popular interest
like popular science, though in fact there is no truly popular science for that matter but
serious/candid science. Such a confusion can hardly arise in the natural sciences because of the
‘promptness of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity /intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity’ in constraining veracity/ontological-pertinence of thought by the immediate effectiveness of studies, discoveries and inventions wherein a flaw thought proposition will be proven wrong by its ontological ineffectiveness with relatively little concern for third-party convincing over the transcendent-enabling/sublimating/supererogatory–de-mentativity that is existence/intrinsic-reality/ontological-veridicality, whereas the ‘blurriness’ and distance of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity /intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity’ in the social sciences allows for propositions to crop up that are hardly constrained by immediate effectiveness of studies, discoveries and inventions, such that such propositions will often border on popular thinking or the political (technically) or a concern priorly driven with garnering support and agreement, rather than of genuine intellectual strife for <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity /intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity. In this regard, the central tenet of poststructuralists with respect to their pursuit has been transcendentally-enabling-level-of-ontological-good-faith-or authenticity /objectification/desubjectification-as-objectification~as-to-ontological-faith- notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing~as-so-being-as-of-existential-reality as antinihilism> with respect to their reflections, studies and research at all cost, even at the cost of many poststructuralists not recognising explicitly that they are poststructuralists or not recognising
similarities in their works with other poststructuralists, so because fundamentally they can only vouch for their authentic reflections and analyses without a ‘surreptitious pretence’ for such amalgamation which will undermine their ontological-good-faith/authenticity with regards to conceptualising intrinsic-reality/ontological-veridicality, with the idea that the notion of a commonness of their ideas and as a movement will take care of itself if they are truly articulating an intrinsic-reality/ontological-veridicality that reflects that commonness; more like the Indian story of blind men who came across an elephant and each one sincerely/authentically said what their capacity enabled them to say, no more no less, with the idea that if what they say is of-the-reality of an elephant, that notion will take care of itself but their first posture is to say authentically what is in front of them. This speaks of the essential nature of all sciences wherein the researcher considers the most determinant element to be not itself or other humans (who are together mortals; mortal because they/humans don’t really invent any rules of existence-or-intrinsic-reality-or-ontological-veridicality but rather at best discover them or utilise them as ‘supposed inventions’ –and the scientist is all about a validation by intrinsic-reality/ontological-veridicality-as-the-transcendental-enabling/sublimating/supererogatory–de-mentativity in contrast to a mental-disposition of social-aggregation-enabler where the emphasis is naively about convincing the other mortal or mortals over a validation by intrinsic-reality/ontological-veridicality transcendental enabler thus leading to subontologisation/subpotentiation in-a-social-dynamism-of-meaningfulness-misappropriation, rather than the supersedingness/precedingness of intrinsic-reality/ontological-veridicality transcendental enabler) but the superseding transcendental-enabling/sublimating/supererogatory–de-mentativity which is intrinsic-reality/existential-reality/ontological-veridicality as reflected by effectiveness of <amplituding/formative–epistemicity>causality as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity and projection; with the latter wholly
the focus of intellectual contention. The medical researcher involved in seeking a cure by reflex is concerned about what the transcendental-enabling/sublimating/supererogatory--dementativity that is intrinsic-reality/ontological-veridicality/existence ‘naturally and best construed/conceptualised’ in the crafted jargon of biomedical sciences will make available as cure as the ‘superior party’ over whatever they themselves or for that matter any other humans no matter their statuses may ‘sovereignly’ want to think or imagine. This same notion applies in the construct of knowledge in the social sciences, the pursuit of the social scientist as the study of social reality is ‘not about convincing people or making sense to people’ (that can be accessory) but rather about grasping/conceptualising the intrinsic-reality/ontological-veridicality of the social as the transcendental-enabling/sublimating/supererogatory--dementativity whatever the jargon required for that purpose; the social education/enlightening exercise that arise thereafter just as a popular science exercise is an altogether different exercise of education and not first-level scientific engagement, and even then such education exercise will still call for a degree of intellectual elevation of the general public. It is critical that in the natural competition of intellectual ideas, intellectuals do not fall in the pattern of using debased or social feel good basis of non-intellectual logic in eliciting ‘mass thinking’ in order to advance their postures but rather fairly and squarely engage at the transcendental-enabling/sublimating/supererogatory--dementativity of intrinsic-reality/ontological-veridicality level in proving or disproving those they agree or disagree with as of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity ontological implications of existence—as-the-absolute-a-priori-of-conceptualisation–and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation“<as-to-perspective–ontological-normalcy/postconvergence-implied–'prospective-aporeticism-overcoming/unovercoming‘>. Sixth, thus the idea of deferential-formalisation-transference behind formal predicates of
subtransversality-<in-desublimating–existential-eventuating/denouement>~of-motif-and- apriorising/axiomatising/referencing as the melee of common sense inducing the latter’s ‘deference’, for instance, such deference as such postures as the law says that…, physicists say that…, etc. and not a common sense posture of the sort I think that…, thus relegating the melee of common sense out of the construal and conceptualisation of institutional or domain specialisms which hitherto had been free-for-all opinionatedness. Such an exercise is not just retrospective but prospective as well in the expansion of human formalised constructs and including in this case the relatively profound insights of such social science as post-structuralism which sadly get undermined paradoxically by some critiques not by a same-level supratransversality-<in-sublimating–existential-eventuating/denouement>~of-motif-and- apriorising/axiomatising/referencing intellectual criticism but raising subtransversality-<in- desublimating–existential-eventuating/denouement>~of-motif-and- apriorising/axiomatising/referencing narrative to wrongly imply that post-structuralism should be as intelligible as common sense thinking, which is paradoxically never the case with say the jargon of law, natural sciences, etc. exactly for the reason highlighted above. The fact is the melee of common sense as subtransversality-<in-desublimating–existential-eventuating/denouement>~of-motif-and-apriorising/axiomatising/referencing hasn’t got the requisite intemporality²²/longness in terms–as-of-axiomatic-construct of universal projection of reference-of-thought and the logical-dueness/profile/presumption/assumptions/value-reference/teleology²⁹ that arises from such a formal reference-of-thought (for instance, as the universal/intemporal proposition underlying this paper’s purported construct for aetiologisation/ontological-escalation in grasping the phenomenon of postlogism in general and the general background human science conceptualisation; together with its exposure for falsifiability /validation from subsequent critical analyses). Such that there will tend to be ‘confusion of reference-of-thought’ where such subtransversality-<in-desublimating–
existential-eventuating/denouement>~of-motif-and-apriorising/axiomatising/referencing melee of common sense was apparently to act assumingly/presumptuously rather than ‘to defer’, or otherwise the instance where individuals assume the requisite intellectual elevation (whether by corresponding education and reflection) for a first-level engagement with such specialisms. As our melee of common sense defers when it comes to the natural sciences, it defers when it comes to the legal science, it shouldn’t expect otherwise but to defer when it comes to rigorous post-structural and other social science constructions however their approximations, and so as the best construction potential of human meaningfulness and teleological possibilities. On that same token the notion of validation of supratransversality-<in-sublimating–existential-eventuating/denouement>~of-motif-and-apriorising/axiomatising/referencing with respect to subtransversality-<in-desublimating–existential-eventuating/denouement>~of-motif-and-apriorising/axiomatising/referencing is not one of contending/argumentative validation at a same contending pedestal but rather as a validation of the supratransversality-<in-sublimating–existential-eventuating/denouement>~of-motif-and-apriorising/axiomatising/referencing reference-of-thought as intellectually-and-morally institutionalising and not implying its equivalence with subtransversality-<in-desublimating–existential-eventuating/denouement>~of-motif-and-apriorising/axiomatising/referencing melee of common sense reference-of-thought, wherein for instance a consistent demonstration of a chemistry science (as supratransversality-<in-sublimating–existential-eventuating/denouement>~of-motif-and-apriorising/axiomatising/referencing) effectiveness earns chemistry science the deferential-formalisation-transference of no longer being engaged at a same contending pedestal as the melee of common sense with respect to human social contention about material constitution in order to avoid the circular drawback of constantly making arguments in wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-}
nondescript/ignorable–void 'with-regards-to-prospective-apriorising-implications>' terms–as-of-axiomatic-construct, such that social deference is now institutionalised as 'chemists say that/it is said in chemistry that’ rather than a social melee of common sense equivalence of 'chemists think that but I also think that going by my common sense’. This argumentation is not idle as the social sciences as 'being closest to human conscious sense of sovereignty’ tend to be most affected by such fallacies as highlighted that should be superseded by all knowledge whether natural or social-construct, and while such notion are often intuitively grasped with other formalisms whether institutional, legal or in the natural sciences subject-matter specialisms, for the social sciences there is a need to actively bring this notion to the consciousness-awareness-teleology in order to circumvent such nature of knowledge fallacies with regards to an emotionally charged domain that is the social. This equally explain why the studies of the social are easiest prone to ontological-bad-faith/inauthenticity, whether beyond-the-consciousness-awareness-teleology-in-preconverging-existential-extrication-as-of-existential-unthought', as even where contending intellectual postures are of relative elevated formal knowledge, it is quite easy for a notional-pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } with <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}' mentality in order to advance one intellectual posture, and so as intellectual politics rather than genuine intellectualism. Seventh, as advanced by this author the ontological-normalcy/postconvergence of intrinsic-reality as reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process validates and restores the notion of essential meaningfulness (the notion of a center –be it

Even then the practical application and conceptualisation of post-structural meaningfulness has always been one that has tended to restore a sense of re-equilibrium with respect to perceived vested interest and skewed power relations whether with regards to its articulation in feminist studies, postcolonial studies, power relations in social settings with regards to appropriate deliverance and more responsive public services, etc. as post-structuralism has often been a framework giving weaker and subjected meaningful frames public voice. Thus the so-called ‘human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> of post-structuralism’ has been in real and practical world terms more a question of abstract reconstructive thinking since such practical applications have tended to be effective further highlighting the need rather for more decentering contemplations. Besides, post-structuralism practical emphasis has mostly been methodical rather than dogmatic. In the bigger scheme of things, this author further highlights that post-structuralism by implying ‘decentering’ is implying transcendence-and-sublimity/sublimation/supererogatory–de-mentativity or an ‘existential-reference/existential-tautologisation pivoting/decentering’ such that ‘the center’ as the new basis of analysis/knowledge-construct has moved to the prospective/transcendental/superseding.
reference-of-thought putting into question the now-and-present way of thinking as prior/transcended/superseded reference-of-thought. What has been misconstrued is exactly the idea of ‘existential-conversion’ that is actually central to all subject-matters wherein the abstract articulation of principles is of existential-tautologisation/existential-reference neutrally. For instance, physics principles can be used for either aggressive and warring applications or peaceful and life-enhancing applications, and to say that physics principles are wrong because these can be construed as applicable for non-peaceful purposes is to misunderstand the fundamental nature of theoretic knowledge as fundamentally construing the possibility of existential-reality. Hence human application of knowledge as ‘human existential-conversion’ implies human self-preservation disposition in redefining ‘meaningfulness-and-teleology’ from existential-tautologisation/existential-reference as of human subpotent existential-teleology within the full potency of existence-as-of-its-mimetic-echoness or existence-in-reverberation or existence-potency -sublimating–nascence,-disclosed-from-prospective-epistemic-digression. In other words, abstract post-structural construct as any other theoretical constructs have no commitments to upholding any value-disposition and teleology but rather construe the ontological possibility conflated as of existential reality. The idea of discretely eliciting value-disposition and teleology choices/options is a secondary exercise of human social application (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism in existence as ontological, so-reflecting disposedness/psychologismic-construct-{as-to-orientation/value-construct/valuation–and–derived-parameterising} and entailment-{as-to-totalising-contiguous/coherent–factuality-of-variability}', and so with regards to the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility -imbued-and-hermeneutically/reprojectively/supererogatingly/zeroingly-educing-‘herein-specifically
specifically with regards to the practical application of post-structural thought as a re-equilibrium exercise derived from the ‘theoretic reshuffling-of-the-cards/putting-into-question’. Thus post-structuralism being so construed as ontologically-driven (having a center as of ontological-normalcy/postconvergence grasable by ‘the dynamics of metaphysics-of-absence ⟨implicated-epistemic-veracity-of- nonpresencing-⟨perspective–ontological- normalcy/postconvergence⟩⟩ or postdication insight with respect to metaphysics-of-presence ⟨implicated-‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive- constitutedness⟩) involving diminishing–human-epistemic-abnormalcy-or-preconvergence’/increasing-relative-ontological-completeness’-of-’ reference-of-thought in construing-ontological-veridicality as determined-by attendant–ontological-contiguity educed–existentialising/contextualising/textualising-contiguity’<reifying-or-elucidating-of- prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of- instantiative-context> due to human limited-mentation-capacity-deepening as ‘shallow limited-mentation-capacity to deeper limited-mentation-capacity-{as of relative appriorising/axiomatising/referencing-{of attendant–ontological-contiguity -educed– existentialising/contextualising/textualising-contiguity }—conflatedness ‘in {preconverging- disentailment–by}–postconverging-entailment} development’) effectively heralds post-ideology as ideas and notions are validated/invalidated by their demonstrated ontological-veracity/ontological-pertinence. In order words the supposed ontological-terms of notions and ideas are the basis for their analysis as ontologically-pertinent or impertinent, and so more than just perfunctory analyses constrained by the limiting framework of institutionalised-being-and-craft constructs and setups but at an existentialism/full-depth-of-existential-implications level highlighting the precedingness/supersedingness/ascendency of ontologically-driven analysis
over ‘habits’, ‘conventions’ and rights-of-precedence/entitlement fallacies. Post-structuralism as such should posit to remedy and supersede the inherent ‘conceptual hyperbole’ imbedded in the often ‘poorly-ontological, non-ontological or metaphysical constructions permeating ideologies’ and projected as worldviews, to ‘restore existential veracity/ontological-pertinence as the central notion behind worldview construction and representation’, and so beyond just ‘present-driven conceptualisations’ of ideologies, but of an insight derived from a historical and ethnological depth with respect to human mentation, meaningfulness and institutional-development–as-to-social-function-development as implied by a suprastructuralism highlighting of metaphysics-of-absence-(implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>) or postdication. Such a grounding of post-structuralism provides the underlying ontological outlet of analysis with regards to issues and conundrums of veracity/ontological-pertinence faced by earlier poststructuralists like Sartre (not often recognised as a poststructuralist but whose work interpretively does fit the mould, just as the works of many ‘seriously engaged’ critiques of post-structuralism like Gadamer and Habermas have been highly beneficial to post-structuralism), Foucault and Derrida when it came to draw out veracity/ontological-pertinence from such hyperbolic traditional ideologies including Marxism as constructs highly laden with metaphysics/non-ontology, on the one hand, while addressing, on the other hand, the imbued liberal and neoliberal dogmas of their times wrongly upholding that its ‘dogmatic practices and conventions’ are beyond ontological-reconstituting–as-to-conflatedness/deconstruction, and pertinently so by highlighting their underlying ontological failures with recurrent just about decadal institutional crises and social malaises, speaking of the ontological-wobbliness of a liberal thought that has become highly contradictory as marked by its very own perpetual second-guessing. Eighthly, it is this author’s ‘suprastructural contention’ that human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional~firstnaturedness—temporal-
to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor and a social world is inherently hampered by a blurriness and distance of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity /intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’. Thus approaching a scientific study of the Social on the same operational basis as that of the natural world is necessarily deficient as the latter’s immediacy of concurrent <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity /intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as well as the fundamental pivoting/decentering of understanding involving the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that took place starting over 500 years ago in establishing the positivising/rational-empirical mindset/ reference-of-thought by the Galileos, Newtons, Leibnizes, Darwins, etc. of the world, such that an Einstein could perfectly articulate the idea of the-theory-of-relativity that would normally make no sense even to the majority of the scientific community at the time but for the ‘very strength’ of the established positivistic/rational-empiricism psyche (operating on the basis that what predicates on rational-empirical basis takes precedence) already established which ensured its transcendental enabling. The positivistic/rational-empirical psyche today, it is herein contended, is not ‘ontologically performant’ enough (of sufficient ontological-completeness-of-reference-of-thought in construing-ontological-veridicality as determined-by its attendant ontological-contiguity ~reduced–existentialising/contextualising/textualising-contiguity ~<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought-devolving-as-of-instantiative-context> for the further development today of the study of the
Social as of its fleeting/blurred nature (on such terms of ‘what predicates should take precedence’). It must be said that the notion of transcendental enabler with regards to the Social today is rather of relative ontological weakness such that critically a lot of the basis for the social sciences today is influenced rather by practice, authority, and is more or less intellectual-politics driven beyond-the-consciousness-awareness-teleology\(^\circ\)\(^\circ\)-<in-preconverging-existential-extrication-as-of-existential-unthought>, rather than truly ontological-primemovers totalitative-framework deterministic ontological ‘projected constructs’. Consequently despite the projected candour, the study of the social is inevitably permeated with ‘intellectual-ontological-bad-faith/inauthenticity\(^\circ\)\(^\circ\)’ (unconsciously or consciously), and by this is meant it will be naïve to think that all issues of intellectual disagreements with respect to the study of the social are necessarily in purely logical terms without factoring the possibility of ‘intellectual perfidy’. What the blatant constraining of the natural world can do to thinking by mere ontological-primemovers totalitative-framework under the rational-empiricism postconverging-de-mentating/structuring/paradigmning is often weakly possible with the Social particularly where there is perceived interest to act otherwise. This is particularly the case with regards to the undermining of social criticism and especially post-structuralism with the intellectual standards of such criticisms strangely enough falling incredibly so low (and mostly finding credibility by ‘pride of place’ of intellectual engagement often beyond-the-consciousness-awareness-teleology\(^\circ\)\(^\circ\)-<in-preconverging-existential-extrication-as-of-existential-unthought>\(^6\) abused as objective bases of intellectual criticism get discarded easily for highly subjective ones); and this author equally holds that a ‘fully emancipated social science’ will only prevail with the requisite pivoting/decentering of understanding as ‘deprocrypticism–or–preempting—disjointedness-as-of-\(^7\)’ reference-of-thought psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, which should enable the attainment of a suprastructural/beyond-the-consciousness-awareness-teleology\(^8\)-<in-preconverging-existential-
extrication-as-of-existential-unthought> level of social thought involving notional-deprocrypticism as preempting—disjointedness-as-of-reference-of-thought. More like in many ways the level of thought in the natural sciences is wholly divorced from our consciousness awareness teleology and is fully transcendental-enabling/sublimating/supererogatory-de-mentativity by confirmatory existence/intrinsic-reality/ontological-veridicality with little or no social-aggregation-enabling but say for human organisational issues and wrong preconceptions induced by social-aggregation-enabling. This arises because it is inevitable to have conscious or unconscious ontological-bad-faith/inauthenticity just going by human temporal-to-intemporal nature without an inherently strong transcendental-enabling/sublimating/supererogatory-de-mentativity. While in the natural and mathematical sciences the subject-matter by itself is highly transcendental-enabling/sublimating/supererogatory-de-mentativity this is not the case with the subject-matter of the social due to its high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction requiring rather a further strengthening of ontologising rules as of knowledge-notionalisation and utter-ontologising-recomposuring (notional-deprocrypticism as preempting-procrypticism or preempting—disjointedness-as-of-reference-of-thought) beyond the present just positivistic/rational-empiricism striving social science bringing together profound insight with causal effectiveness. This doesn’t necessarily imply a naïve mimicry of the experimental approach as is often the case it can be argued as prevalent in the psychological sciences, and even in the natural sciences there is need for thorough insight when experimenting like say much of quantum physics is often based on elaborate abstractness of thought that is merely validated by critical confirmatory experiments. In fact, this author will contend that the overall ‘insightful empirical’ conceptualisation of this paper is actually more profound than catches the eye in a naïve empirical sense that cannot see.
beyond our positivistic registry-worldview to recognise human successive transcendental states like recurrent-utter-uninstitutionalisation, base-institutionalisation-ununiversalisation, universalisation-non-positivism/medievalism, positivism–procrypticism and deprocrypticism; as even empirical conceptualisations requires insight and it is more than just a matter of obtaining results because an experiment has been made which is certainly simplistic as the very existential state of things when disambiguated is actually a more profound notion of experiment. It is interesting to note that this argument on the specific basis of (conscious or unconscious) ontological-bad-faith/inauthenticity for the requisite condition of a ‘fully emancipated social science’ is more than just of circumstantial and idle implication but is rather construed as a de-mentative/structural/paradigmatic notion much like saying it is impossible to have a fully emancipated science in a transitory non-positivism/medievalism to positivistic social-setup still emphasising essences and supranatural causations over a transcendental-enabling/sublimating/supererogatory–de-mentativity of rational-empiricism/positivising based knowledge of intrinsic-reality, as transcendental-enabling/sublimating/supererogatory–de-mentativity positivistic contentions will still be undermined with such a discrepancy of notional-discontiguity/epistemic-discontiguity -<shallow-supererogation of-mentally-aesthetised-preconverging-dementing-qualia-schema> in the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of reference-of-thought/axiomatic-construct. Likewise, the positivism–procrypticism meaningful-frame is not sufficiently beyond-the-consciousness-awareness-teleology -<in-preconverging-existential-extrication-as-of-existential-unthought> of social-aggregation-enabling with respect to its social reality subject-matter as of its spurious/remote nature, for a more profound transcendental-enabling/sublimating/supererogatory–de-mentativity (unlike the relative case with the physical reality subject-matter as immediate) as required for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness and-teleology as of prospective notional—deprocrypticism intrinsic-reality/ontological-veridical transcendental enabling. Thus, the only credible logic this author can think of is that post-structuralism as one of the major critical theories given its potential ontological vigour has been seen as a threat with a deliberate covert non-intellectual effort to stifle it and limit its influence often having to do with misrepresenting the ideas and implications of the ideas of its main proponents (as in fact, one of the central issue with regards to post-structural thinking with respect to other intellectual postures has had to do with the unusually high level of accusations of its proponents of misrepresentation of their ideas by many of their critiques whether with respect to such accusations of nihilism or untruth, with a central characteristics of many of such critiques being a failure of recognising exactly the central point of post-structural thinking as rather ‘a putting-into-question/shuffling-of-the-cards for a more profound perspective for ontological analysis’. Consider in this case one media-driven and popularised argument that Karl Rove ‘we make our own reality’ quote during the Bush mandate, is due to post-structuralism. Such arguments are revealing of the ‘non-intellectual spirit’ of many such critics, and in this instance wrongly intimating that Karl Rove considered himself a poststructuralist whereas a sincere take will garner that this is nothing other than a Machiavellian, opportunistic and unprincipled statement than ‘truly post-structural theory inspired’ as with or without post-structuralism it is no less likely that the same statement would have been uttered. And the pseudointellectual exercise of linking the two is revealing not only of such out-of-the-way criticism but equally the ‘wayward mindset’ that is often brought into supposedly rigorous social science on the basis of such anything-goes rhyming-logic! Post-structuralism generally occupy a relatively sound position when it comes to all the practical applications of post-structural thought which, to say the least, have always highlighted a sense of re-equilibrium rather than the bogus and insincere criticisms of nihilism or untruth which this author construes as ‘in-effect ontological-bad-faith/inauthenticity’ of ‘parodying’ of
Poststructuralists positions and analysing the ‘parody’ in usurpation as against a genuinely candid critical intellectualism of their true postures in ontological-good-faith/authenticity. Post-structural exposition of the realities of the social are not value judgements in themselves just as natural sciences exposition of natural and physical reality doesn’t carry any value judgements. For instance, discovering that bacteria cause disease is a simple objective truth then giving rise to human animate-existential-referencing/subjectification inducing the teleological meaningfulness to pivot/decenter that knowledge into avoiding disease and finding cure for diseases. This is no more different with post-structural thought which is not a metaphysical/ideological advocacy but telling the social reality for what it is, with human pivoting/decentering to apply that knowledge for its defined teleological meaningfulness. One of the serious consequence of such a weakened social criticism driven by such a targeted and induced atmosphere of quasi-anti-intellectualism is the result that the domain of the political economy and corresponding economic interests have been spared from the critical analysis of such powerful ontological tools; specifically going by the issues of misallocation and inequality we face today based on axioms of models that remain critically beyond analysis, as effectively an anti-intellectualism with respect to social criticism including post-structuralism is cultivated in favour of a default socially uncritical political economy practice (with the cover-up of an ‘intellectually platitudinal’ media) to protect them. Notwithstanding the impressive theoretical conceptualisations of an ever second-guessing economics science, the ‘underlying liberal political economy axiomatic constructs’ on which it rests are massively arbitrary, flawed and degenerate; and this is one area in which developed social criticism including post-structuralism could do an excellent job in debunking the ‘underlying mysticism’, as the domain of the political economy beyond competition of ideas at such a fundamental level is the very foundation of the uncritical preservation of such axioms. Such issues as political choices for bailouts, reallocations and remuneration practices are strictly speaking not economic science
issues but political economy issues that require a criticism with respect to social choice about
the political economy, but this has been usurped uncritically as if of a natural economic
allocation mechanism (a falsehood). This author makes this latter point on the belief that
knowledge is an existential exercise and that the intellectual should sincerely put their ‘hand in
fire’ at the risk of being proven wrong, as the intellectual exercise is not one of self-veneration
but discovering the truth (even at the risk of sounding/looking ridiculous). If there is one area of
speculative thinking allowed to this author in this paper, it is such a proposition together with
the idea that it is incredible to think that a lot of the criticisms directed to post-structuralism
since the 1980s arises out of such (it is herein contended) ‘intellectual triteness’ by such critics
particularly going by the ‘frivolous arguments’ advanced compared to the high intellectual
standards they have been able to show elsewhere, together with the notion that these have
tended to be unusually media driven in inducing a populist effect. Imagination will point to the
idea that something much more ‘cynical and non-intellectual’ must be at work but passing for
legitimate intellectualism; or is it, more like the medieval scholasticism erudition establishment
more or less grasping the true implications of a non-medieval positivistic thinking on the whole
intellectual, belief system and social-construct, and cynically upholding notions they knew
better to be wrong but for their overall sense of preservation of their present and their present
interests. This impression can be extended as well with respect to the idea of the social
implications of postlogism/-as-of-compulsing-nonconviction/madeupness/bottomlining
(‘<decontextualising/de-existentialising~of-attendant-inradimensional–

As we can grasp that an aetiologisation/ontological-escalation as resolution for non-positivism/medievalism world postlogism which is more than just palliative/incidental-in-its implication with regards to a specific instance or specific instances of notions and-accusations of-sorcery for instance, but rather construing the whole non-positivism/medievalism registry-worldview/dimension relative-ontological-incompleteness-induced,—‘threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—attendant—intradimensional’—prospectively-disontologising—preconverging/dementing—apriorising—psychologism’ (as of metaphorically-a-million-and-one-instances and-locales as enabling the possibility of the phenomenon of notions and-accusations of-sorcery and other vices and-impediments of the state of non-positivism/medievalism and thus requiring de-mentatively/structurally/paradigmatically and comprehensively a positivistic ontological-completeness of reference-of-thought will de-mentatively/structurally/paradigmatically elicit a non-positivism/medievalism world sense of ‘temporal/shortness of-register-of—meaningfulness and-teleology’ preservation’ that wouldn’t necessarily construe the social manifestations of notions and-accusations of-sorcery with their associated vices and-impediments as abstractly and ontologically unwarranted universally (which we know was actually the case, with the ‘establishment’ idea being that the masses didn’t need to know about such ‘positivistic stuff’ even if such stuff was ontologically-veridical), to ensure its ‘temporal/shortness of-register-of—meaningfulness and-teleology’ preservation’. Likewise an
articulation as of aetiologisation/ontological-escalation (ontological-resolution) that is more than just palliative/incidental-in-its implication with respect to the notion of psychopathy and social psychopathy with regards to a specific instance or specific instances of psychopathy and social psychopathy but by pointing to the bigger picture to the procrypticism registry-worldview’s/dimension’s disjointedness-as-of-reference-of-thought relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-suprerogation’<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>’ (as enabling the possibility of the phenomenon of psychopathy and social psychopathy as of metaphorically-a-million-and-one-instances and-locales as well as other vices and-impediments of procrypticism de-mentatively/structurally/paradigmatically and comprehensively requiring a notional-deprocrypticism ontological-completeness of-reference-of-thought will de-mentatively/structurally/paradigmatically elicit a human procrypticism sense of ‘temporal/shortness of-register-of–meaningfulness and-teleology preservation’ that wouldn’t necessarily construe the social manifestations of psychopathy and social psychopathy with their associated vices and-impediments as abstractly and ontologically unwarranted universally and such an approach may just be off-putting with regards to the prospective implication for the need for notional-deprocrypticism ontological-completeness of-reference-of-thought (as intemporal/longness of-register-of–meaningfulness and-teleology) undermining of procrypticism relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-suprerogation’<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>’ (as the temporal/shortness of-register-of–meaningfulness and-teleology).

Such an articulation equally extends to the idea that notions overlooking vices and-impediments associated with psychopathy and equally wrongly implying its associated virtue
defect) as at adulthood, the postlogism ‘disjointedness-as-of-reference-of-thought’ misappropriated ‘meaningfulness and-teleology’ in arrogation tends to extend as conjugated-postlogism ‘disjointedness-as-of-reference-of-thought’ misappropriated ‘meaningfulness and-teleology’ in arrogation involving the temporal elicitation of derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, and it is thus naïve to construe postlogism without such a corresponding differentiation of social analysis in the construing/conceptualisation of ontological-veridicality. Now the criticism of populism-driven critiques of post-structuralism is not raised idly, as an exercise that purports to articulate such breadth and depth of novel ideas as herein necessarily requires that the authorship effectively assume the profile and presumption that the implied knowledge construct warrants (which obviously every truly intellectual spirit will appreciate for what it is, if not agree with the arguments). Such an articulation is driven by the idea that knowledge as a transcendence-enabling construct is more than just about its craftiness/technique but part and parcel of the intellectual exercise is to articulate meaningfulness by its existentialism/full-depth-of-existential-implications. And just as faced with the evasive nature of quantum theory the physicists never said reality is wrong since it is difficult to understand, likewise it is naïve to imply that the reality reflected by post-structuralism is wrong because it doesn’t quite fit into our ordinary everyday way of thinking (that is exactly the point, our ordinary everyday way of thinking is in want of its further development, just as all prior ordinary everyday ways of thinking had to be psychoanalytically-unshackled)!
