Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be
undertaken over it. Such a hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojecting/supererogating/zeroing insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’, more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes more-or-less similar-to-those-of-the-song construed as constituting the song). As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while
many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not dementatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at their apathetic threshold as these rather develop into denaturing\(^\text{16}\) _amplituding/formative_ wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or—dementing –narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology } stifling prospective sublimating possibilities, thus requiring prospective fundamental reconception. But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception—as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that

While the
natural sciences are ‘naturally’ constrained by the stronger manifestation for prediction, there is nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology } with asceticism does exist as has existed throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing<{perspective—ontological-normalcy/postconvergence-reflected—'epistemicity-relativism-determinism'}> since even the natural sciences practices arose out of the profound asceticism stances against their initial societal predispositions of presencing—absolutising-identitive-constitutedness. In this regards the transcendental/transvaluating conception of aporeticism overcoming/unovercoming is of existential comprehensiveness and cannot be just about the physical world without social world implications and vice-versa as so-underlined with the fact that both are for-human-studies/for-human-constructs epistemic-projection by the underlying fact that these are the very same human-subpotency sublimation implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-(imbued-and-\{hermeneutically/reprojectively/supererogatingly/zeroingly\}-educing-'\{herein-specifically\-relevant-human-subpotency\}-epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation); as inevitably the apparently socially innocuous Copernican, Galilean, Cartesian, Newtonian, etc. conception of the material world as of positivism/rational-empiricism in superseding their human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of ‘traditional mythological/supernatural conceptualisation of material world/things as of the universalising but non-positivism–medievalism preclusive-consciousness’ have constructive implications about corresponding requisite prospective positivism/rational-empiricism social-values (in superseding the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of ‘traditional mythological/supernatural
conceptualisation of the social-construct as of the \textsuperscript{103}universalising but non-positivism–medievalism preclusive-consciousness\textsuperscript{103}), and the possibility for the further advancement of such ‘material sciences as to cumulating/recomposuring positivism/rational-empiricism’ rather arises from the corresponding effectively enabling ‘cumulating/recomposuring positivism/rational-empiricism social-values’ like freedom-of-speech, opened communication, etc. availing as of the transcending positivism/rational-empiricism occlusive-consciousness. Likewise, it is herein contended that the future possibility for the natural sciences advancement is inseparable from the possibility of social and social-organisational advancement as of prospective human aporeticism overcoming/unovercoming as to the prospective \textsuperscript{1}deprocrypticism–or–preempting—disjointedness-as-of-\textsuperscript{1}reference-of-thought protensive-consciousness induced Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{99} and so over our present \textsuperscript{8}procrypticism–or–disjointedness-as-of–reference-of-thought occlusive-consciousness; and in effect this conjoint-epistemic-relationship-and-fate in the conceptualisation of the material and social world is even confirmed today as with the social and social-organisational framework that underlied and was necessary for most of the scientific and technological advances after the second-world war. Basically, dimensionality-of-sublimating \textsuperscript{2}\{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\} as such reflects the successively induced originariness-parrhesia,–as–spontaneity-of-aestheticisation specific ‘constructiveness-by-destructuring cut-offs/thresholds of human ontological-performance’\textsuperscript{1}–<including-virtue-as-ontology>’ so-construed as of notional–protensive-consciousness (trepidatious-consciousness/warped-consciousness/preclusive-consciousness/occlusive-consciousness/protensive-consciousness) implications; and as eliciting any such prospective specific construction-of-the-Self and its

Furthermore, besides the conceptualisation articulated herein, what vindicates this idea of apriorising/axiomatic/referencing intellectual break/schism/estrangement is effectively that the possibility for prospective "meaningfulness-and-teleology" is associated with a renewed framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology which is in ‘affirmation/projection by its underlying supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness—of—apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation’ to the superseded framework of prior ontologisation/ontological-veracity/aestheticisation-towards-ontology prospectively disontologising as unaffirmed/deprojected; as to the possibility of the recovery of dimensionality-of-sublimating ⟨<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflictedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ prospectively, disentangled from ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’. After many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skinned just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

it is critical to distinguish between a true philosophical development that arises by intemporal-disposition and an institutionalised development that is articulated to elicit ‘positive-opportunism—of-social-functioning-and-accordance’ in humans

the concepts of intemporality/longness and temporality/shortness is more scientific than the impression notions of good and bad

The use of ‘human mental-dispositions/individuations’ as of noational–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> herein doesn’t mean ontologically that some individuals are inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically intemporal

By pedestal is meant the ‘temporal-to-intemporal individuations dispositions of meaningfulness whether the intemporal-disposition individuation-pedestal or the temporal-dispositions individuations-pedestals

‘Unconscionability-drag’ (from an ontological/intemporal reference) refers to the comprehensive state of undisambiguation of temporal-dispositions individuation-pedestals which are wrongly associated to the intemporal-disposition as being ontologically-veridical as these conjugate/inflect/protract (in mimicking-protraction)

at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding as of positive-opportunism—of-social-functioning-and-accordance’

‘unconscionability-drag’ carries the resolution for disambiguating reference-of-thought in the ontological social construction of meaning

Unconscionability-drag (enabling ontological reference), by which the perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-perversions teleologies of meaning is accounted for

Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social construction of meaning’, intrinsic-reality by itself and in of itself (as may be grasped ontologically from superseding/transcendental categorical-imperatives preserving intemporality) is not necessarily the deterministic basis for human social adherence to it

perpetuating the precedingness/supersedingness/ascendency over reference-of-thought and meaningfulness of the intemporal-disposition as ontological over the temporal-dispositions

faced with incidental issues arising in various effective social contexts, the ‘ontological/intemporal postconverging–de-mentating/structuring/paradigming approach’ is to have at hand a ‘universal cadre’ that conceptualises and is geared towards attending-to/resolving all such and other incidental issues as it is suprastructural to all such incidentals.  

‘knowledge-notionalisation’ or knowledge construct not only based on intemporal idealisation but that also factors in how the temporalities will relate to meaning.

‘institutionalisation devising and devices’ already speaks a lot about human potential and capacity (and are basically our virtue with no need for ‘false idealisation’)

It is rather naïve to depart from a philosophical angle and try to imply causal effectiveness of a natural science nature (rather than effective validation techniques relevant to transversal nature of philosophical conceptualisation) just as the same holds true the other way round.

with our human limited-mentation-capacity-deepening, we are actually involved in a ‘developmental notional–teleology of ontology’ construed as coherent shallow superseding–oneness-of-ontology to coherent deeper superseding–oneness-of-ontology in reflecting holographically<conjugatively-and-transfusively> the ontological-contiguity—of—the—human-institutionalisation-process.

vices-and-impediments
There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ predisposed human mind’ so-reflected as prelogism -as-of-conviction,-in-profound-supererogation -<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> and so-construed as of human candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism -as-of-conviction,-in-profound-supererogation -<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind operates by an ad-hoc and circumspect exaggeration or omission). In other words, the psychopath manifests postlogism -as-of- compelling–nonconviction/madeupness/bottomlining(‘<decontextualising/de-existentialising–of–attendant-intradimensional–apriorising/axiomatising/referencing–induced-disontologising’-of-the–‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant–

This explains why at uninstitutionalised-threshold which are subject to ‘meaningfulness-and-teleology neuterising’, prospective institutionalisation can only be achieved as of secondnatured constraining social universal-transparency that overcomes the given uninstitutionalised-threshold ‘meaningfulness-and-teleology neuterising’ thus enabling the ontological-normalcy/relative-ontological-completeness reference-of-thought of the prospective institutionalisation. It also explains why naively implying at an uninstitutionalised-threshold that ‘the social—universally-non-transparent—thus-non-constraining—element of ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif-and-

As a further elucidation, a comparison can be made between a construct of ‘notional–referentialism’ disambiguated as referentialism, categorising neutronising, qualifying neutronising, tendentious neutronising and impulsive neutronising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring
capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of

in their reflection of the very same <amplituding/formative–epistemicity> totalising–devolved–

the insight here being that ‘relative completeness/profoundness of axiomatic-

what is ontologically preeminent/critical for the notional perspective of ontological

For instance, all subsequent axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue of the recurrent-utter-uninstitutionalisation registry-worldview/dimension are possible only by its (trepidatious-consciousness neuterising-induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness which is non-rules—apriorising/axiomatising/referencing—psychologism,-as-impulsive-or-accidented-or-random-mental-disposition as this basically defines the possibility of institutionalisation within recurrent-utter-uninstitutionalisation as inherently non-existent. ontological-faith-notion-or-ontological-fideism—imbeded-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for the prospective institutionalisation of base-institutionalisation that is the \(\text{warped-consciousness}^{58}\) neutering-induced)\(^{75}\) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness for enabling intradimensional existential-instantiations derived/devolved axiomatic-constructs of \(\text{meaningfulness-and-teleology}^{99}\) as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue of base-institutionalisation. with numerous existential circumstances reflecting the endemising/enculturating of non-positivistic superstition and its vices-and-impediments. The same applies from a notional-deprocrypticism perspective with regards to a procrypticism–or–disjointedness-as-of-reference-of-thought mental disposition as an argument seeming to articulate meaningfulness-and-teleology in the same disjointedness-as-of-reference-of-thought terms-as-axiomatic-construct by which the procrypticism–or–disjointedness-as-of-reference-of-thought arises in the first place is in circular totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of the same centered–epistemic-totalisation/reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments as of that fundamental totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology centered–epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an aetiologisation/ontological-escalation nature. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound/complete ontologically-veridical reference-of-thought construction of meaningfulness-and-teleology, as of the cumulating/recomposuring–attendant-ontological-contiguity–succession of registry-worldviews/dimensions from the notional–deprocrypticism perspective construal/conceptualisation, as being ‘the most

Inherently, such ‘a psychoanalytic-unshackling commitment’ inevitably and fundamentally puts into question the axioms and underlying supposedly transcendental-enabling/sublimating/supererogatory—de-mentativity notion as of the (given consciousness’s neuterising-induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness of the prior registry-worldview’s/dimension’s reference-of-thought of ‘meaningfulness-and-teleology’ which establishes its ‘grounded knowledge construct’, and so because of its denaturing of the prior institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology by way of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity at the registry-worldview’s/dimension’s uninstitutionalised-threshold inducing prior relative-ontological-incompleteness—of—reference-of-thought in need for prospective relative-ontological-completeness—of—reference-of-thought, and so as a transitional construct that is in effect as of a psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring articulation by its crossgenerational transcendental implications projection. Such that such ‘a psychoanalytic-unshackling commitment’ cannot be construed in the same terms—as-of-axiomatic-construct as ordinary intradimensional knowledge as of the established prior institutionalisation teleological-de-mentating/structuring/paradigming/teleological-possibilities for its ‘grounded knowledge construct’ as prior relative-ontological-incompleteness—of—reference-of-thought, but rather construed as of prospective ontological-normalcy/relative—

reference-of-thought it more critically and organically points to the uninstitutionalised-threshold state of the present registry-worldview’s/dimension’s reference-of-thought at its uninstitutionalised-threshold with respect to the prospective institutionalisation state of the prospective registry-worldview’s/dimension’s reference-of-thought as of its prospective relative-ontological-completeness reference-of-thought, and thus rather implies an de-mentation (supererogatory ontological de-mentation-or-dialectical de-mentation—stranding-or-attributive-dialectics). It is psychoanalytic-unshackling commitment and not grounded knowledge construct commitment, because it is for instance about articulating ‘prospective positivism axiomatic-construct (occlusive-consciousness neuterising-induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘non-positivism axiomatic-construct (warped-or-preclusive-consciousness neuterising-induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’, or in the case of articulating ‘futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’ as of prospective notional—deprocrypticism axiomatic-construct (protensive-consciousness deneuterising -induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘positivism—procrypticism axiomatic-construct (occlusive-consciousness neuterising-induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness. It is important to grasp in both instances that such psychoanalytic-unshackling commitment implications are not to be understood respectively as of the uninstitutionalised-threshold mental-dispositions of non-positivism/medievalism or procrypticism reference-of-thought—devolving-teleological-de-

Remarkably, such a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation behind the ontological-contiguity—of-the-human-institutionalisation-process enabling the human existential tale in successive institutional-cumulation/institutional-recomposure⟨as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’⟩⟩ is always rather perceived intradimensionally as an exceptional-askance and unordinary. For instance, the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence—{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>} analysis does apply with respect to superstitions, universal human rights, free society, modern science, etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-

This explains human mental states respectively as of uninstitutionalised-threshold — and as of prospective institutionalisation with respect to maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation as the process enabling prospective relative-ontological-completeness — of reference-of-thought of same totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality hitherto considered off limits to any challenging maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation at the uninstitutionalised-threshold but then acknowledged thereafter after prospective institutionalisation; with the implication that the possibility for all prospective transcendence-and-sublimity/sublimation/supererogatory—dementativity as of opened-construct-of—meaningfulness-and-teleology arise only by maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation but presences in their wooden-language—imbued—averaging-of-thought—as-to-leveling/resentment/closed-construct-of—meaningfulness-and—teleology—as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising—implications} consider maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation as of exceptional-askance and unordinary due to their totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex avoiding being ontologically decentered and preconverging—or-dementing—apriorising—psychologism. based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as validated by amplituding/formative–epistemicity–causality ~as-to-projective-totalitative–implications-of-prospective– nonpresencing,-for-explicating-ontological-contiguity. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such an apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity ~educed– existentialising/contextualising/textualising-contiguity }—constitutedness—in–preconverging– entailment ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory–de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual-patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-to-mere–extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside—attendant–ontological-contiguity–{of–educed–existentialising/contextualising/textualising-contiguity }—constitutedness—in–preconverging–de-mentating/structuring/paradigming of human reference-of-thought. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness–of–reference-of-thought, as of the incompleteness of the preconverging–de-mentating/structuring/paradigming of human reference-of-thought. Such
that a naïve categorisation/taxonomisation conceptual-patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the preconverging–de-mentating/structuring/paradigmig of human reference-of-thought; with the consequence that it is not ‘notionally postconvergingly–de-mentated/structured/paradigmed’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of

that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such
categorised/taxonomised thematics in of themselves’ as if an epistemic-totalising~devolved–purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,–eliciting-of-prospective-supererogation~<as-to-perspective~ontological-normalcy/postconvergence-implied~‘prospective-aporeticism-overcoming/unovercoming’>, Whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places attendant–ontological-contiguity~~educed–existentialising/contextualising/textualising-contiguity~<reifying-or-elucidating-of-prospective-relative-ontological-completeness~of~reference-of-thought~devolving-as-of-instantiative-context> above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whosever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their apriorising/axiomatising/referencing~{of-attendant–ontological-contiguity~~educed–existentialising/contextualising/textualising-contiguity}~constitutedness~in~preconverging entailment defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising apriorising/axiomatising/referencing~{of-

Further, such conceptual-patterning will often fail to identify the appropriate point for grasping

issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking

in providing theoretical, conceptual and operant constructs of 103 universal applicative

pertinence, and explains a certain position of closure that holds that philosophy is just a vague

thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory de-mentativity construal highlights the ontological-contiguity of all knowledge as of their reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming dynamic relationship, conceptual-patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling causality~as-to-projective-totalitative–implications-of-prospective- nonpresencing.-for-explicating-ontological-contiguity interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual-patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in apriorising/axiomatising/referencing-constitutedness–of-attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity—in–preconverging entailment rather than striving to expand the transcendental-enabling/sublimating/supererogatory de-mentativity causality~as-to-projective-totalitative–implications-of-prospective- nonpresencing.-for-explicating-ontological-contiguity existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual-patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual-patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual-patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual-patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve
categorising/taxonomising conceptual-patterning has to do with a certain vague intellectual
technique based on perceived intellectual pertinence in terms of the authorial ‘precedence of
mentioned terms’ irrespective of association whether simple formalistic identifying of terms
and notions with little consideration of the divergence of implied organic-knowledge as of their

artificial categorising and undermines originality and organic-knowledge, turning this into

Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness as for material and physical effecting devolving teleologies as meaningfulness’ while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness inherent effecting devolving teleologies as meaningfulness’. ‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. Now, the issue
of a centered–epistemic-totalisation defect arises where the given ‘reference-of-thought-as-of-
‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-

existentialising/contextualising/textualising-contiguity }—conflicatedness in {preconverging–
disentailment–by}–postconverging-entailment in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard talking about the physics example again, such a Derridean freeplay différance is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différance is the notion of <amplituding/formative–epistemicity>totalising~self-
referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of beyond-the-consciousness-awareness-teleology, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold temporal individuations circular undermining of the prospective institutionalisation reference-of-thought-as-to-postconverging-de-mentating/structuring/paradigmising implied transformation/shift as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness’-of-reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold reference-of-thought which is in amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with its ultimate crossgenerational collapsing for the prospective institutionalisation’s reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency ⟨transparency-of-totalising-entailing-as-to-entailing-amplituding/formative–epistemicity-totalising-in-relative-ontological-completeness⟩ as of prospective relative-ontological-completeness of reference-of-thought of the prospective institutionalisation’s reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness as of the

reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the
‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-

the same way that insight/intuition is reflected rather with regards to any given implicit

theory being any conception as of 56meaningfulness-and-teleology99 of supposed existential-

‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of
axiomatic-construct/ reference-of-thought’, as the axiomatic-construct/ reference-of-thought
is the effective human limited-mentation-capacity supposed correspondence relation with
existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-

constructs/theories/intersolipsistic-intercessory-notions/notional–referential-
notions/articulations/virtue, with increasing ontological-performance 72<-including-virtue-as-

could be perceived rather as a meta-conception or more like a technical practicality akin to say
the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of
axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic
and by extension mathematics imply elaboration-as-to-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant–
ontological-contiguity\textsuperscript{7}\textsuperscript{7}~educed–existentialising/contextualising/textualising-contiguity\textsuperscript{9}, whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking – apriorising-psychologism\textsuperscript{9} as of maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{9}—unenframed-conceptualisation. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory~de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory~de-mentativity’. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context as to attendant–ontological-contiguity\textsuperscript{7}~educed–existentialising/contextualising/textualising-contiguity\textsuperscript{9} of other applied and transcendental-enabling/sublimating/supererogatory~de-mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with
heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory—de-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as knowledge-reification—gesturing—<in-prospective_psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological—contiguity —educed—existentialising/contextualising/textualising-contiguity } — conflatedness —in—{preconverging-disentailment_by } —postconverging-entailment> for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about sublimating-validation/desublimating-invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential sublimating-validation/desublimating-invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest—subpotency—{in-transitive—
conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence) with regards to the ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidation of mathematics as of a ‘very existentially nominal supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other hand why the mere introduction of mathematics, statistics and data in domains requiring ‘human

supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation’ is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the inherent domain’s epistemic-conceptions phenomenal/manifest-subpotencies–(in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence) given ‘human

supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-
of mathematical equations’ without the prior insight about the physics domain-of-study and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendent-al-enabling/sublimating/supererogatory-de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^9\). The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendent-al-enabling/sublimating/supererogatory-de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendent-al-enabling/sublimating/supererogatory-de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension reference-of-thought-as-of-prospective-supererogation—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

‘human-amplituding/formative-epistemicity-totalising-purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness—of-reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence-(implicated-epistemic-veracity-of-

nonpresencing-(perspective-ontological-normaley/postconvergence)>\) that however deficient,
that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{99}. The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid \textsuperscript{83}reference-of-thought-as-of-\textsuperscript{13}reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\textsuperscript{79}meaningfulness-and-teleology\textsuperscript{99} as of prospective \textsuperscript{1}deprocrypticism—or—preempting—disjointedness-as-of- reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional–deprocrypticism psychoanalytic-unshackling metaphysics-of-absence\textsuperscript{{(implicated-epistemic-veracity-of-}\textsuperscript{61}nonpresencing-<\textsuperscript{perspective–ontological-normalcy/postconvergence}>\textsuperscript{⟩} and \textsuperscript{apriorising/axiomatising/referencing-}\{of-attendant–ontological-contiguity \textsuperscript{~educed–existentialising/contextualising/textualising-contiguity \textsuperscript{conflatedness \textsuperscript{in–}}\textsuperscript{preconverging–disentailment by}	extsuperscript{postconverging-entailment, and further subsumed in the word candidity or candour-capacity. The phenomenological insight here about the nature of ‘existence as so construed as of ontology’s-directedness-as-Being’ is that Being is the apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity \~educed– existentialising/contextualising/textualising-contiguity }\= conflatedness \in \{preconverging\-disentailment\-by\}\-postconverging\-entailment as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation selectivity inherent in existence that rather skews presence states towards the ‘ontological statistical-exception’ of intemporality\/longness over temporality\/shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality\-to-intemporality were to be arising in equivalence/equal-measure. Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory–de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual-patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory–de-mentativity implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity <between—prior-shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema_and_prospective-profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> of axiomatic-construct but rather a problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity of axiomatic-construct for grander human ‘meaningfulness-and-teleology’ ontological-performance <including-virtue-as-ontology>, as of the very same <amplituding/formative–epistemicity>totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. The notion of axiomatic-construct in ontological-contiguity\(^7\) arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity\(^7\). ontological-contiguity rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct/ reference-of-thought of construal; which for instance renders the idea of general relativity in relative ontological-contiguity\(^6\) and newtonian physics in relative notional-discontiguity/epistemic-discontiguity\(\langle \text{between—prior-shallow-supererogation of-mentally-aestheticised—preconverging/dementing—qualia-schema_and_prospective-profound—supererogation of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema}\rangle\) rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity\(\langle \text{between—prior-shallow-supererogation of-mentally-aestheticised—preconverging/dementing—qualia-schema_and_prospective-profound—supererogation of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema}\rangle\) will seem to imply correlatedness by the very nature of the term continuity. Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological "meaningfulness-and-teleology" could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness~of~reference-of-thought apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—constitutedness~in~preeconverging~
entailment as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness of reference-of-thought is a de-mentative/structural/paradigmatic deficiency inducing the totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness of reference-of-thought apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity ~conflateness in {preconverging–disentailment by–postconverging-entailment which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational meaningfulness-and-teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-teleology, with transcendence-and-sublimity/sublimation/supererogatory–de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory–de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism–of-social-functioning-and-accordance as of human amplituding/formative–
as social universal-transparency avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic-totalisation facticity but crossgenerationally human ‘re-conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on ‘meaningfulness-and-teleology with respect to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of ‘meaningfulness-and-teleology within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as ‘meaningfulness-and-teleology with regards to perceived social-
stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatc-drag \textsuperscript{34} human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatc-drag \textsuperscript{34} induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology\textsuperscript{99} within a given social-setup in the immediate-and-short-term. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness\textsuperscript{87–89} reference-of-thought occurs because de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of–meaningfulness-and-teleology\textsuperscript{99} given their supposedly coherent ontological-commitment \textsuperscript{95} <implied–self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> as of more profound

However, such a conception of supposedly coherent ontological-commitment ~implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming as-being-as-of-existential-reality is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation meaningfulness-and-teleology as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of meaningfulness-and-teleology social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of–social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s
reference-of-thought–categorical-imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ⟩ about such metaphoricity instigative reproducibility–mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment ⟨<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> that is subject to existence-potency ~sublimating–nascence,—disclosed-from-prospective-epistemic-digression —validatory <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,—for-explicating-ontological-contiguity⟩. As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment ⟨<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-
threshold of a social-setup allows for the possibility for prospective metaphoricity to reconstrue-and-redefine the social-setup. Such prospective metaphoricity possibility cannot be preempted because even the social-setup conventioning in its functional operation of meaningfulness-and-teleology needs this supposedly coherent ontological-commitment in other to affirm itself over any spontaneously arising disruptive meaningfulness-and-teleology that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology is not of poorer but rather of a superseding causality as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity as of the social-setup given supposedly coherent ontological-commitment in implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging-de-mentating/structuring/paradigming ~as-being-as-of-existential-reality>. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment respectively as of superstitious spiritualism or scholasticism pedantic dogmatism, as of the given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity ~postconverging-de-mentating/structuring/paradigming ~as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism
or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-faith/authenticity—postconverging-de-mentating/structuring/paradigming—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility for prospective metaphoricity to demonstrably undermine the implied supposedly coherent ontological-commitment of such prior social-setups registry-worldview/dimension meaningfulness-and-teleology, and so as of the prospectively induced amplituding/formative–epistemicity causality as-to-projective-totalitative–implications-of-prospective- nonpresencing—for-explicating-ontological-contiguity superseding meaningfulness-and-teleology as from existence-potency—sublimating–nascence, disclosed-from-prospective-epistemic-digression epistemic-or-notional–projective-perspective of relative-ontological-completeness of reference-of-thought by way of amplituding/formative–epistemicity causality as-to-projective-totalitative–implications-of-prospective- nonpresencing—for-explicating-ontological-contiguity such as with prospective positivism/rational-empiricism meaningfulness-and-teleology. Explaining in many ways why the elicitation of value as of prospective secondnatured institutionalisation rather occurs as of the superseding of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag<sup>34</sup> untransvaluated–temporal-intemporality<sup>9</sup>. Ultimately, prospective metaphoricity<sup>71</sup> in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuation realistically implies that it is rather fundamentally a question of grasping the mechanism that tips the balance towards human intemporality<sup>9</sup>/longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-disposition as to absolute ontological-commitment<sup>66</sup> <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–dementating/structuring/paradigming—as-being-as-of-existential-reality>. More critically, such a conception of prospective metaphoricity<sup>57</sup> cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling-<in-deferential-formalisation-transference>, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology<sup>6</sup>-<in-preconverging–existential-extrication-as-of-existential-unthought> with respect to prospective metaphoricity<sup>57</sup> as of the implications of such undermining of social deferential-

In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism metaphoricity implications are necessarily spurious and associated with our positivism–procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that budding-positivism can be demonstrated as more ontologically pertinent as of <amplituding/formative> causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity, so long as it is socially and institutionally credible to uphold non-positivism meaningfulness-and-teleology in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus’s heliocentric world work or engagement with Galileo’s support of heliocentrism then his persecution for publishing, rather speaks de-mentatively/structurally/paradigmatically of the covert/underhanded nature of the medieval establishment pedantic disposition as of the implications of ideas undermining medieval dogma

But then at such a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold, there is a relative variance of ontological-completeness-of-reference-of-thought as of the prospective relative-ontological-completeness’-of-reference-of-thought in intemporality/longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness reference-of-thought in temporality/shortness entailing the uninstitutionalised-threshold; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold and the prospective institutionalisation; given the variance of temporality/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism, and prospectively procrypticism—or-disjointedness-as-of-reference-of-thought with intemporality/longness rather as respectively in base-institutionalisation, universalisation, positivism and prospectively deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. insight about such a deneuterising\textsuperscript{17} storied-construct/ontologically-valid-narration from the fact that a non-positivism/medievalism or animistic social-setup is ‘not committed in a \textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\textsuperscript{14}’ to positivistic/rational-empiricism meaningfulness-and-teleology\textsuperscript{99} with regards to occurrences and incidents best explained and dealt with by such positivistic meaningfulness as of the latter’s prospective relative-ontological-completeness -of- reference-of-thought. As such non-positivism/medievalism or animistic social-setup ‘will not be self-effacing as of its ontologically-flawed \textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\textsuperscript{14}-temporal-mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about its uninstitutionalised-threshold \textsuperscript{102} of non-positivism and the prospective institutionalisation of positivism’. nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-expansion underdevelopment, individuals in positions of social-stake-contention-or-confliction with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-habits- and-mental-dispositions, to mere propositions of probity rather than in the face of weak-institutional-constraints-and-penalties to perceive such universal propositions as mere linguistic appendages of relative practical insignificance. The notion of beyond-the-consciousness-awareness-teleology is the effective and credible deneuterising enabling articulation that grasps such an ontologically flawed mental-reflex that recurrently permeates consciously and unconsciously human phenomenological mentation, as it ‘creibly’ grasps-and-accounts-for, without resorting to any neuterising, the full and complete possibilities of human mental-dispositions as of the exclusive dynamics of human limited-mentation-capacity across all registry-worldviews/dimensions involving the conjugation of the intemporal/longness-of-register-of–meaningfulness-and-teleology individuation and temporal/shortness-of-register-of–meaningfulness-and-teleology individuations of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-including-virtue-as-ontology. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{(a)} with respect to the
knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of \textit{amplituding/formative} \textit{wooden-language} \textit{imbued—averaging-of-thought—\text{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology —as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>}" are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of secondnatured education practically available to everyone interested, and so while alienating and considering general social \textit{amplituding/formative} \textit{wooden-language} \textit{imbued—averaging-of-thought—\text{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology —as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>} as improper and unqualified. This was to avoid a circularity of \textit{amplituding/formative} \textit{wooden-language} \textit{imbued—averaging-of-thought—\text{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology —as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>}} undermining of the intemporal-projection of their specific knowledge/science, as they contribute in overall \textit{Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology>}. The point here is that at \textit{uninstitutionalised-threshold} the idea of ‘equal opinionatedness’ doesn’t apply by the mere fact that knowledge of intrinsic-reality itself doesn’t arise by \textit{amplituding/formative} \textit{wooden-language} \textit{imbued—averaging-of-thought—\text{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology —as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>}} but rather ontological-pertinence, and the point in reflecting holographically—\textit{conjugatively-and—

This point is central and critical to the very notion of society-as-social-construct, as society is caught between the notion of sovereignty as-allowing-basic-level-of-universal-individual-and-collective-self-affirmation-striving-for-social-equality and the notion of knowledge as-of-selective-construal-of-social-value-and-institutional-hierarchisation-as-of-causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity—overriding-social-equality-for-the-sake-of-individual-and-social-emancipation-as-of-efficient-ontological-performance—including-virtue-as-ontology—implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought-categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’ within this articulated framework as enabled by ‘social universal-transparency —transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative—

However, all along this ontological-contiguity —of-the-human-institutionalisation-process a suboptimal relation between knowledge and sovereignty undermines Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of various pertinent social

‘knowledge inventing’ and prospective ‘knowledge inventing’, and so as of intellectual institutional-being-and-craft; –ultimately the very paradox of human <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag

means that the human sovereign psyche is one that is geared to construe of ‘presence as all-encompassing”meaningfulness-and-teleology” value construct’ such that the transcendental implications of knowledge by mental-reflex are construed as of ‘incrementalism-in-relative-ontological-incompleteness”—enframed-conceptualisation to presence, rather than as of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of presence construed as of prospective relative ontological-contiguity over prior/transcended/superseded relative notional-discontiguity/epistemic-discontiguity

However despite this knowledge and sovereignty dilemma associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, the insight about human <amplituding/formative–epistemicity>totalising–self-referencing-
The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating/supererogatory—de-mentativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism meaningfulness-and-teleology constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaus, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—'notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>'—existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency—{(transparency-of-totalising-entailing—<amplituding—formative—epistemicity—totalising—in-relative-ontological-completeness)}’. As it is the latter that induces that social positive-opportunism—of-social-functioning-and-accordance for deferential-formalisation-transference and institutional percolation-channelling—<in-deferential-formalisation-transference>, as of social deferential attribution of power for the beneficial
effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential reference-of-thought, transcendental knowledge is of a circular but consistent exercise of \textit{amplituding/formative–epistemicity} totalising–renewing-realisation/re-perception/re-thought, and so due to the ‘existential and emotive commitments’ it is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-discontiguity between prior-shallow-supererogation of mentally-aestheticised–preconverging/dementing of qualia-schema and prospective-profound-supererogation of mentally-aestheticised–postconverging/dialectical-thinking of qualia-schema reference-of-thought and introducing the prospective ontological-contiguity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-human reference-of-thought and ‘human reference-of-thought and referring to construal’.

Consider in this regard, that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-construct as of propective ontological-contiguity is more than just a reification gesturing of its very own axiomatic-construct affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring as to postconverging or dialectical-thinking apriorising-psychologism but extends to encompass a de-assertion/preconverging-or-dementing of apriorising-psychologism/unaaffirmation/deprojection/de-assertion/dueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring as to preconverging or dementing of ‘traditional classical mechanics axiomatic-construct’ at the threshold where it supersedes ‘traditional classical mechanics axiomatic-construct’, as being of notional-discontiguity/epistemic-discontiguity between prior-shallow-supererogation of mentally-aestheticised–preconverging/dementing of qualia-schema and prospective-profound-supererogation of mentally-aestheticised–preconverging/dementing of qualia-schema.
 registry-worldview/dimension as of the positivistic/rational-empiricism meaningfulness-and-teleology mindset as well as its distance rather with respect to physical reality, such a transcending reification gesturing as of the grandest axiomatic-constructs having to do with consciousness with regards to the ‘very reference-of-thought itself’ wherein the prospective ontological-contiguity reference-of-thought as deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought implies a transcending reification gesturing that not only affirms notional—deprocrypticism prospective registry-worldview/dimension but in that affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or—dialectical-thinking—apriorising-psychologism as of its ontological-completeness-of-reference-of-thought de-asserts/dements our positivism—procrypticism registry-worldview/dimension, this will elicit an existential and emotional involvement that will rather convert into a circular neuterisation of notional—deprocrypticism by a mental-complex avoiding such emotional discomfort and sense of existential ego undermining as is the case with all destructuring-threshold—{uninstitutionalised-threshold/presublimating—desublimating-decisionality}—of-ontological-performance—including-virtue—as-ontology with respect to their prospective institutionalisations. This explains why it is not a fundamental contradiction as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturaedness—temporal—to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>—existentialism-form-factor at uninstitutionalised-threshold that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits ontologically-flawed ‘uninstitutionalised-threshold by prospective institutionalisation dialogical-equivalence—as-to-psychologismic—apriorising/axiomatising/referencing—{of—

Such a temporal/shortness-of-register-of meaningfulness-and-teleology ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event—as-prospective-ontology-origination’ is fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/supersublimation—to-de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event—as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of meaningfulness-and-teleology ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology in-preconverging-existential-extrication-as-of-existential-unthought denaturing of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of preconverging-existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism—of-social-functioning-and-accordance’ it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care—and—episteme as of intemporality/longness behind ‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing, so-construed as organic-knowledge. Organic-knowledge requires the
articulation of 'meaningfulness-and-teleology' rather in postconverging nonextricatory existential-preempting-of-existential-unthought terms—as-of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the very attitude/mental-disposition/care—and—episteme' behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and-adoption of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme' when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be reconstrued circularly in animistic or medieval terms—as-of-axiomatic-construct as of the latter teleologically-degraded prior relative-ontological-incompleteness—as-of-reference-of-thought 'meaningfulness-and-teleology'. Likewise 'meaningfulness-and-teleology' articulated as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought relative to our positivism–procrypticism necessarily requires priorly the requisite apriorising-teleological-elevation-in-ontological-contiguity from positivism–procrypticism’s disjointedness-as-of-reference-of-thought mindset into deprocrypticism’s preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme' as otherwise such knowledge will be teleologically-degraded in circular positivism–procrypticism disjointedness-as-of-reference-of-thought terms—as-of-axiomatic-construct as of prior relative-ontological-incompleteness—as-of-reference-of-thought 'meaningfulness-and-teleology', even though in the latter case our <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence-(implicated—nondescript/ignorable—void).
as-to-presencing—absolutising-identitive-constitutedness) blinds us to appropriately appreciating this given the human mental-reflex of representing any uninstitutionalised-threshold as nondescript/ignorable–void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing-narratives) as of our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag.

The point here is that the meaningfulness-and-teleology so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon/projection for its prospective transcendence-and-sublimity/sublimation/superceryory–de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiologisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming and not temporal extricatory preconverging–de-mentating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t have any inherent meaningfulness-and-teleology as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme underlying its meaningfulness-and-teleology thus requiring the latter’s prior apriorising-teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme ‘for the notion of the mutual contemplation of Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-disposition/care–and–episteme with respect to human meaningfulness-and-teleology, as it is what underlies apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given registry-worldview’s/dimension’s institutionalisation reference-of-thought.

For instance, with respect to coming across and living say in an early hunter-gather society with its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-unflinching transversality <for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ as of the attitude/mental-disposition/care–and–episteme of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-teleology <in-preconverging–existential-extrication-as-of-existential-unthought> as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given reference-of-thought, say in our positivism/rational-empiricism
reference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme, and further at the individual level as of changing attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-developing. Attitude/mental-disposition/care–and–episteme as so-construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme’ as dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally–collateralising-beholdening-protohumanity’-to-‘attain-sublimating-humanity’-as-to-existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression to supersede human temporality)/shortness <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} to be able to achieve transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’, and so as of intemporality. With regards to living-as-of-human-personality-developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental-disposition/care–and–episteme that it has a poor dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification/contemplative-distension as of its more direct focus on instant-sensations-and-carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification/contemplative-distension that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification/contemplative-distension
completeness\textsuperscript{27} by-reification/contemplative-distension\textsuperscript{27} as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{27} by-reification/contemplative-distension\textsuperscript{27} is construed as the more profound attitude/mental-disposition/care-and-episteme for human optimum living, and so over say an animal-like immediacy attitude/mental-disposition/care-and-episteme\textsuperscript{1} of living. With regards to the second-level of social aetiologisation/ontological-escalation associated with ‘attitude/mental-disposition/care-and-episteme dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{27} by-reification/contemplative-distension\textsuperscript{27}’, for achieving transcendence-and-sublimity/sublimation/supererogatory-de-mentativity; humankind construes of existence as ‘more than just plain living as animals’ but as enabling for various domains of social projections dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{27} by-reification/contemplative-distension\textsuperscript{27} so-implied across the various registry-worldviews/dimensions, whether in an animistic social-setup involving animistic practices or in the modern social-setup as of our modern practices involving subject-matter specialisms, trade roles, functionaries, arts, research, sports and other activities, etc.; with each involving their specific attitude/mental-disposition/care-and-episteme dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{27} by-reification/contemplative-distension\textsuperscript{27}. The idea being that this provides more existential possibilities by the overall expanded human capabilities available directly or indirectly to fulfil individuals desires and needs. “meaningfulness-and-teleology” as such implies increasingly more profound-and-complete
enabling framework of human emancipation as of technical and existential possibilities arising from prospective relative-ontological-completeness reference-of-thought. We can get an insight of registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme contrast as clarified in the preceding example as of the technical and existential emancipating possibilities that can be contemplated with a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in an early hunter-gather social-setup inclined to construe of ill-health as bad omen; and appreciate that the human-subpotency is much more than stalling at any prior relative-ontological-incompleteness reference-of-thought registry-worldview/dimension, and so not only retrospectively but equally prospectively. Thus, an attitude/mental-disposition/care–and–episteme can pertinently be defined as the ‘assumed-and-unflinching transversality inducing a given specific nonpresencing-perspective–ontological-normalcy/postconvergence outcome with regards to prospective relative-ontological-completeness or-incompleteness-of reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of meaningfulness-and-teleology associated with that attitude/mental-disposition/care–and–episteme. Rather the attitude/mental-disposition/care–and–episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms–as-of-axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness, thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation. In this latter respect, and for the possibility of prospective social transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding prospective relative-ontological-completeness as of preceding intemporal dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension, and by that very implication this is what carries the possibility of ‘inventing’ as-of-prospective-institutionalisation social practices as of prospective relative-ontological-completeness. ontological-bad-faith/inauthenticity ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness but of a poor conception outside the prospective relative-ontological-completeness behind such social practices ‘inventing’ as-of-prior-institutionalisation and so-implied as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, are but denaturing and down the line equally undermines prospective relative-ontological-completeness for the further emancipation of human social practices. The further insight here is that, such a most ontologically-complete profoundness/depth of ‘phenomenological transcendental-point-of-departure handle in-its-overcoming-of-neuterisation ’ reflected by metaphysics-of-absence–(implicated-epistemic-veracity-of- nonpresencing–

meaningfulness-and-teleology3 with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality–as-to–‘human<amplituding/formative–
For instance, such epistemic-break/epistemic-resetting associated with the overall ontological-contiguity—of-the-human-institutionalisation-process necessarily explains the ‘mutually transversality—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ unintelligibility’ of the Galileos, Newtons, Diderots episteme articulating prospective positivising/rational-empiricism and the Establishment scholasticism medieval dogmatic episteme. The implication here is that the articulation of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of reference-of-thought is by itself tied up to a prospective epistemic disruption, construed as of soundness-or-ontological-good-faith/authenticity of reference-of-thought, beyond just grounded knowledge as of the prior episteme which is rather construed as of unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought. Such transcendental epistemic-breaks/epistemic-resetting arise because humankind is subpotent as of its knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue to the full-potency of existence, and in the human construal/conceptualisation of intrinsic-reality/ontological-veridicality, the ‘superseding party’ is not any involved humans as knowledge agents but inherent existential-reality itself, with any such humans as knowledge agents only ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’, with such delegation inherently revoked as of their failed ‘kowtowing to existential-reality’. To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency of totalising—entailing—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness}, an apparent episteme as of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-
veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal”’ arises as of institutional-being-and-craft. But then, where transcendental implications as of prospective institutionalisation prospective relative-ontological-completeness\(^\text{f}\) of reference-of-thought point to more profound \(^\text{g}\) reference-of-thought for construing/conceptualising existential-reality putting such a prior episteme in question, this induces a state of mutual ontological-bad-faith/inauthenticity\(^\text{h}\) between the prospective episteme and the prior episteme as of the lack of ‘axiomatic commonness-in-sharedness of human ‘meaningfulness-and-teleology\(^\text{i}\) with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal”’ with respect to social \(^\text{j}\) universal-transparency\(^\text{k}\) \(\langle\text{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness}\rangle\); and so more than just as of beyond-the-consciousness-awareness-teleology\(^\text{l}\) \(\langle\text{in-preconverging-existential-extrication-as-of-existential-unthought}\rangle\), but further because as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, there is ‘a drift from the ideal of knowledge agents only as ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’ towards a teleologically-degraded exercise of institutional-being-and-craft muddlement. It should be noted that such a notional construct of episteme interpreted herein is implied as of ‘dynamic social <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ across the entire social spectrum as of notional–episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity\(^\text{m}\) —of-the-human-institutionalisation-process\(^\text{n}\) as of
human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnatures—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentielism-form-factor arise wherein ‘the prior shaman is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthodds of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, antinihilism and transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme de-mentatively/structurally/paradigmatically loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology –<in-preconverging-existential-extrication-as-of-existential-unthought> undermines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of meaningfulness-and-teleology ontological-performance –<including-virtue-as-ontology> turning rather towards social-aggregation-enabling implications as meaningfulness-and-teleology ontological-
performance$^{72}$-<including-virtue-as-ontology>, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology$^{9}$ as of ontology’s-directedness-as-Being going by the human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness$^{9}$—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigmimg. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality/shortness or intemporality$^{5}$; such that even the budding-positivists carried elements of scholasticism but were more definitely of a positivistic outlook, and many scholastics articulated notions which could more fruitfully be developed in a positivistic outlook but were stifled by their scholasticism dogmatic intellectual commitments. In effect, human limited-mentation-capacity however the institutionalisation-level as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor implies that it is impossible for the intemporal projection as longness-of-register-of—meaningfulness-and-teleology$^{9}$ that prospectively construes of successive frameworks of ‘reference-of-thought—
thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{10} denaturing\textsuperscript{8}; as implied with base-institutionalisation prospective relative-ontological-completeness\textsuperscript{87}-of\textsuperscript{87} reference-of-thought over recurrent-utter-uninstitutionalisation, universalisation prospective relative-ontological-completeness\textsuperscript{87}-of\textsuperscript{87} reference-of-thought over base-institutionalisation–ununiversalisation, positivism prospective relative-ontological-completeness\textsuperscript{87}-of\textsuperscript{87} reference-of-thought over universalisation–non-positivism/medievalism, and prospectively notional–depocrypticism prospective relative-ontological-completeness–of reference-of-thought over positivism–procrypticism. Such that we can garner that it is a positivism registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness\textsuperscript{87}-of reference-of-thought social universal-transparency\textsuperscript{10}–\{transparency-of-totalising-entailing, as-to-entailing, </amplituding/formative–epistemicity> totalising–in-relative-ontological-completeness\} that makes it untenable for non-positivism/medieval temporal mental-dispositions to elicit non-positivism/medieval implied temporality\textsuperscript{98}. Likewise, prospectively it is a notional–depocrypticism registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness–of reference-of-thought social universal-transparency\textsuperscript{10}–\{transparency-of-totalising-entailing, as-to-entailing, </amplituding/formative–epistemicity> totalising–in-relative-ontological-completeness\} that can render it untenable for procrypticism temporal mental-dispositions to elicit procrypticism–or–disjointedness–as-of reference-of-thought implied temporality\textsuperscript{98}. Thus aetiolisation/ontological-escalation is not about transforming the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor as overcoming temporality\textsuperscript{98}/shortness inherently, but rather it is about bringing about prospective relative-ontological-completeness\textsuperscript{87}–
of reference-of-thought. The reality of human registry-worldview’s/dimension’s institutionalisation and uninstitutionalised-threshold mental-dispositions imply that at the uninstitutionalised-threshold prospective institutionalisation knowledge as transcendental-enabling/sublimating/supererogatory-de-mentativity is not socially integrated directly as of dimensionality-of-sublimating }\langle \text{amplituding/formative}\text{supererogatory-de-mentativeness/epistemic-growth-or-conflatedness } /\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} \rangle \text{ exercise engaging with intemporal-as-ontological 'meaningfulness-and-teleology'. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual syncretising/circularity/interiorising/akrasiatic-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority.

Consider that the first president of the United States in position of power was a slave-owner
thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory de-mentativity causality as-to-projective-totalitative–implications-of-prospective- nonpresencing–for-explicating-ontological-contiguity construal as implied with notional–deprocrypticism as preempting—disjointedness-as-of–reference-of-thought and so be able to keep their head up from drowning in human totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance –including-virtue-as-ontology) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory de-mentativity for the social avoiding the platitudes of
our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human \(\text{amplituding/formative–epistemicity}\)-totalising–thrownness-in-existence\(^{15}\) (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\(^{12}\)-<including-virtue-as-ontology>) implies the need for a sound perpetuating construct of \(^{10}\) universal projection as intemporality-or-longness-of-register-of–meaningfulness-and-teleology\(^{10}\) as the opportunity for prospective transcendental-enabling/sublimating/supererogatory–de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative \(^{10}\) universal implications as beyond presence issues and complexes as it sublimates presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing-\(\text{amplituding/formative–epistemicity}\)-totalising–in-relative-ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of \(^{10}\) universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory–de-mentativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom
for instance that humankind appeared on earth about 100000 years ago but the pervasive de-
mentative/structural/paradigmatic determinism of the nation-state which became common just
about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary
construal’ and humankind’s apriorising/axiomatising/referencing-{of-attendant–ontological-
contiguity ~duced–existentialising/contextualising/textualising-contiguity } =
constitutedness—in–preconverging entailment to the notion of nation-state seems to create an
impasse for human Being-and-contemplative development. Consider again the possibility
capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his
analysis of spirit. Derrida grasps that Heidegger strove to produce 103 universal human
meaningfulness-and-teleology but was caught up in the amplituding/formative–
epistemicity totalising–thrownness-in-existence I exist therefore existence is of
transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency /
hyperbole-of-temporal-to-intemporal-ontological-performance~<including-virtue-as-
on-tology>) as spirit failed to universalise and so Heidegger couldn’t carry the effective
implications of his work to its true universal conclusion as he was caught up in the
‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-
into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as
transcendental over the them-and-us as a position of making a universal ‘response construal’.
This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’
were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was
being condemned by many for not adopting it. The question can be asked whether any genuine
intellectualism as providing a ‘response construal’ for humankind overall can construe of
emancipation meaningfulness-and-teleology in them-and-us basis and whether this isn’t a
recipe for potential disaster as all them-and-us rationale are just variances of the same insanity!
We can imagine that a true understanding and universal application of Derrida’s spirit insight
as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence-{implicited-epistemic-veracity-of- nonpresencing-<perspective–ontological- normalcy/postconvergence>} as of notional–deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence-{implicited-'nondescript/ignorable–void –as-to- presencing– absolutising-identitive-constitutedness } framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as implied here is with regards to reference-of-thought/epistemic-totalisation level ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,as-to-‘human–amplituding/formative– epistemicity>totalising–purview-of-construal’ in epistemic-conflatedness as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is actually what a Kantian transcendental
imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory–de-mentativity rather as of ‘phenomenal-abstractiveness’ as the basis/grounding to then construe/conceptualise ‘meaningfulness-and-teleology’ failing to factor in that ‘existential phenomenal-abstractiveness conflates-in-effecting-wholeness-as-of-profoundness-and-completeness-to–meaningfulness-and-teleology’ all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of ‘meaningfulness-and-teleology’ to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, given that it is consciousness that teleologically-registers/recognises phenomenal-abstractiveness as of ‘meaningfulness-and-teleology’ in addition to the implications thereof with regards to the varying-as-transcending nature of consciousness with human limited-mentation-capacity-deepening arising in further apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity} conflatedness in {preconverging-disentailment–by}–postconverging-entailment as of human maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation in an exercise of <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought that re-projects-or-re-anticipates the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–human<amplituding/formative–epistemicity>totalising~purview-of-construal’, and so as of a retrospective to prospective insight. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is
rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment — implied self-assuredness of ontological-good-faith/authenticity ~ postconverging de-mentating structuring paradigmimg — as being as of existential-reality’ for its evolving and devolving construct of ‘meaningfulness and teleology’. Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the amplituding formative epistemicity totalising self-referencing syncretising circularity interiorising akraisiatic drag dynamics of individual and collective-social ‘meaningfulness and teleology’, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely existentially present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations instances stakes institutions and processes’. The above insight further points out the pertinence of construing of and analysing language more completely as of human existentialism thrownness facticity, giving that language is more phenomenologically and pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations instances stakes institutions and processes’. This highlights the ‘knowledge implications of accreting substitutive subsumption as futural différance freeplay with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations instances stakes institutions and processes from childhood to adulthood’, notwithstanding the fact that the privileged social conceptualisation of language is as of ‘language as the complete possibilities of language as of
need to supersede the limited certitude as of human limited-mentation-capacity, inherently implies that the possibility for ‘absolute certitude as of its theoretical possibility’ lies with such an adjunctive-metaphoricity -significations apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }]—confatedness—in-{preconverging-disentailment-by}–postconverging-entailment as of syncretising-effecting as ultimately converging towards a deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought and so as of the prospect of an ontologically-veridical Theory of Everything, and insightfully with regards to elucidating the pervasiveness of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay’ construed as différance in apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }]—confatedness—in-{preconverging-disentailment-by}–postconverging-entailment’ associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon/projection of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism’>. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms—as-of-axiomatic-construct of its end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the
transversality\textless for-sublimating–existential-eventuating/denouement\textgreater of affirmative-and-unaffirmative–disambiguated\textquoteright motif-and-apriorising/axiomatising/referencing\textquoteright of various temporal-to-intemporal perspectival existential amalgamation that de-mentatively/structurally/paradigmatically reflect the dynamics of human ontologically-veridical construals and misconstruals towards transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Accreting-substitutive-subsumption-as-futural-différance-freeplay is thus reflective of the fulsome humanity existential ontological-conceptualisation dynamics than just as of the select ontological-veracity of the privileged as dominant social and institutional end-purpose perspective/framing/reference/horizon/projection. Consider in this regard supposedly that ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs reflect an historiality/ontological-eventfulness/ontological-aesthetic-tracing\textless perspective–ontological-normalcy/postconvergence-reflected\textquoteright epistemicity-relativism-determinism\textgreater as transcendental outcomes of such différance, accreting-substitutive-subsumption-as-futural-différance-freeplay is not only about the successive \textless amplituding/formative–epistemicity\textgreater totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as différance transcendental outcomes as of ‘developed classical mechanics’ and then ‘developed theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs’ as of their prospective relative-ontological-completeness/relative-ontological-contiguity as axiomatic-constructs of ‘the very same physics \textless amplituding/formative–epistemicity\textgreater totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, but will grasp the deeper-level phenomenological insight with regards to all the background efforts and contributions that ultimately brought about these two successive \textless amplituding/formative–epistemicity\textgreater totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construed as the \textless historiality/ontological-eventfulness\textgreater/ontological-aesthetic-tracing\textgreater.
The implication here resonates with the idea that knowledge is much more than the construal of conceptual sublimation knowledge outcome, but rather its construal as notional-knowledge involving the dynamic understanding of both its temporality /misconstrual/desublimation and intemporality -as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différance-freeplay involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising — referentialism and thus beyond 'neuterising' reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing of the uninstitutionalised-threshold and the prospective institutionalisation; as the 'effecting implications of knowledge' are more than just about its conceptualised intemporality-as-ontology but involves grasping this together with the implications of temporality, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential meaningfulness-and-teleology signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon/projection that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon/projection tend to be in apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—constitutedness—in-preconverging- entailment. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay is the existentially veridical and effective basis for reflecting historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-’epistemicity-relativism-determinism’> transcendental
outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful "meaningfulness-and-teleology". Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology"<in-preconverging-existential-extrication-as-of-existential-unthought>"; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality/longness doesn’t take its due place, it is occupied by ignorance as of human temporality/shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–"meaningfulness-and-teleology". Basically, just as the adjunctive-metaphoricity-signification instigation of positivistic rationality as a potent construct took the form of a centered–epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–"meaningfulness-and-teleology"", postmodern-thought and as of its underlying phenomenological depth transcendentally carries prospective Being adjunctive-metaphoricity-signification as of a potent construct for a centered–epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human existence, and so for the better of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–"meaningfulness-and-teleology". Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure
handle as of the notional–conflatedness of notional–deprocrypticism deneuterising—referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-différance-freeplay and is the maximal ontologically veridical articulation of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in-{preconverging-disentailment by}—postconverging-entailment that ‘undermines the privileging of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of its ubiquitous-protractedness as to de-mentative/structural/paradigmatic ‘ontological-contiguity’ or difference-of-kind’ disposition, and so beyond just reflecting such ‘presencing—absolutising-identitive-constitutedness privilege undermining as of transcendental outcomes implied by historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected‘epistemicity-relativism-determinism’>. While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in-{preconverging-disentailment by}—postconverging-entailment, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-educing—
nonpresencing-<perspective–ontological-normalcy/postconvergence>. In any case thus such a ‘Derridean quasi-transcendental-freeplay différance’ doesn’t have any serious ontological consequences with respect to ‘presencing—absolutising-identitive-constitutedness since it is reflected with the Glas experimental project, but it fails to recognise the possibility of a futural différance where meaningfulness-and-teleology is construed as of the prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation which points to a prospective relative-ontological-completeness /ontological-contiguity as of the very same amplituding/formative–epistemicity totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; even though it is the first step towards such a futural différance transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. It equally explains such a Derridean conclusion that human sublimation is an always evasive notion given its failure to recognise the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing as of the transcendental implications of prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> in inducing sublimation, with such a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing arrived at by human limited-mentation-capacity-deepening as of de-mentation ⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩ involving ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality driven re-projection/re-anticipation as of prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument about ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-

So because at the point of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—\langle as-to-perspective—ontological-normalcy/postconvergence—\rangle implied—‘prospective-aporeticism-overcoming/unovercoming’— and not make any determination priorly, even as of freplay. more-or-less within the same positivism/rational-empiricism registry-worldview, though it
might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—

developments in physics since then, even though its $^{56}$meaningfulness-and-teleology$^{56}$ remains
intelligible, more or less, to the positive science essentially by the modern conception of
observational and experimental validation. However, the idea of requisite shift in
attitude/mental-disposition/care–and–episteme$^{5}$ from that simplistic ‘modern conception’
cannot be contested. Such an attitude/mental-disposition/care–and–episteme$^{5}$ implied shift as
articulated above, construed as of an overall registry-worldview/dimension $^{53}$reference-of-
thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather
‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such
attitude/mental-disposition/care–and–episteme$^{5}$ transitioning have tended to take place rather
crossgenerationally as of human beyond-the-consciousness-awareness-teleology$^{107}$-<in-
preconverging–existential-extrication-as-of-existential-unthought$^{107}$>. As we can now imagine the
transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme$^{5}$
from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a
more $^{107}$universal valid notion of positivism/rational-empiricism as of its spread worldwide and
profoundness in today’s societies. Interestingly, this transitioning nature of human
attitude/mental-disposition/care–and–episteme$^{5}$ renewal manifestation as of the social collective
evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-
individuation-ontological-performance$^{72}$-<including-virtue-as-ontology$^{72}$>; as at any given
moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–
and–episteme of dual-language/split-mentality as of <amplituding/formative–
epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of
transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency /

existentially dual-language/split-mentality that on the one hand fails the implied emancipation
and on the other hand implies a strife for such emancipation. Consider in this regard, the
attitude/mental-disposition/care–and–episteme of warring nations in the early 20\textsuperscript{th} century all
too ready to arm themselves massively in preparation for the world wars and equally very much
aware of the need for international peace, or in the 18\textsuperscript{th} and 19\textsuperscript{th} centuries the dual-
language/split-mentality of universal human rights and ending slavery in the new world and
the slave trade on the one hand and on the other still practicing it up to the point of wars like the
American civil war to bring an end to it. In a more prosaic note, the dual-language/split-
mentality associated with the evasiveness of emancipating social and political dispositions as of
relevant settings and contexts. In fact, this author will surmise that in many ways we already

apriorising/axiomatising/referencing—{of-attendant-ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in—{preconverging-disentailment-by}—postconverging-entailment implication with respect to existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior ~nonpresencing-<perspective–ontological-normalcy/postconvergence> as if of absolute certainty, so construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise always held in prospective existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing, and so as of the certainty of human limited-mentation-capacity prospective relative-ontological-completeness ~of-axiomatic-construct-or~reference-of-thought ~amplituding/formative–epistemicity>causality ~as-to-projective-totalitative-implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity for transcendence-and-sublimity/sublimation/supererogatory~de-mentativity, implied as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This explains why ontology’s-directedness-as-Being is the direction of meaningfulness-and-teleology grounding as always prospective as of prospective relative-ontological-completeness of reference-of-thought; and so, as of the successive base-institutionalisation, universalisation, positivism and notional~deprocrypticism registry-worldviews/dimensions ~nonpresencing-<perspective–ontological-normalcy/postconvergence> respectively as successive meaningfulness-and-teleology grounding for recurrent-utter-uninstitutionalisation, base-
singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> insight translate the reality that ‘conventioning and tradition grounded critiques’ of postmodernism fundamentally misconstrue that they are departing, as of their reference-of-thought, from a less real position to evaluate a more real position; more like the irony oftrying to evaluate the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what fundamentally underlies the naïve misunderstanding of human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>. For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness of reference-of-thought. It is human limited-mentation-capacity-deepening\(^{53}\) as of prospective relative-ontological-completeness of reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of amplituding/formative-epistemicity-causality~as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity by existence-potency~sublimating-nascence,-disclosed-from-prospective-epistemic-digression; as all along humankind existence
as of human-subpotential, the new reality so-spouséd ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening for human emancipation. Thus implying existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression is ‘not really about any variation as of the ‘human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> directed directly to inherent-existence-as-of-existential-reality/existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the ‘human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> as of human limited-mentation-capacity-deepening bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing>’ of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising ‘meaningfulness-and-teleology’ that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective ‘meaningfulness-and-teleology’’ as we cannot argue that the theory-of-relativity-together-
with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—
axiomatic-constructs since it involved the human-subject-emancipating-relativism-driven-
recomposuring-constructivism-towards-singularisation that led to human limited-
mentation-capacity-deepening. Quite the contrary, it is that exercise in inducing prospective
relative-ontological-completeness of-axiomatic-construct-or reference-of-thought that
brings about greater objectivity, as reflected in the ontological-contiguity of-the-human-
institutionalisation-process behind Being-development/ontological-framework-expansion—

That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal
amplituding/formative—epistemicity totalising—self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by
default without a double-gesturing, on the ‘wrong assumption that they already have the most
ontologically-developed perspective/framing/reference/horizon/projection for grasping
prospective meaningfulness-and-teleology; and failing to project/anticipate prospectively
the implications of their very own shallow limited-mentation-capacity implications from a
deeper prospectively-construed perspective/framing/reference/horizon/projection. Such a
‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence

contemplation of the retrospective and prospective projective-insights for construing
ontologically-veridical meaningfulness-and-teleology. This paradox for human knowledge,
as implied with the postmodern double-gesture reification, highlights that the human
preconverging/postconverging—de-mentating/structuring/paradigming for construing knowledge
is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about
‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-limited-mentation-capacity-deepening to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ as underlying a given registry-worldview’s/dimension’s reference-of-thought for meaningfulness-and-teleology conceptualisation and ontological-performance-including-virtue-as-ontology. In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity deepens by human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing’ paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension institutionalisation’s reference-of-thought as of its prospective relative-ontological-completeness-reference-of-thought in terms of the prior registry-worldview/dimension uninstitutionalised-threshold’s reference-of-thought as of it prior relative-ontological-incompleteness-reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness-reference-of-thought as of a shallower limited-mentation-capacity (as to ‘redounding/wavering/machineforming—of-the-referencing-and-the-devolved-referencing—

actually a point of prospective de-mentation—(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/‘constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus the ontologically affirmative position adopted herein as of the prospective ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme ’ is not contradictory but rather complementing their positions as it rather reinterprets their observations/remarks/‘constations’ as of human limited-mentation-capacity prospective relative-ontological-completeness -of- reference-of-thought <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of- prospective- nonpresencing,-for-explicating-ontological-contiguity ; wherein for instance, for the recurrent-utter-uninstitutionalisation ³ reference-of-thought ill-health is as of a attendant–ontological-contiguity’ ~educed–existentialising/contextualising/textualising-contiguity ’-lowest-level-reification perceptivity-as-of-bad-omen while for the positivism ’ reference-of-thought ill-health is as of a perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation. However, at its uninstitutionalised-threshold the prospective ‘concurrent <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity’ as of the prospective institutionalisation’s basis of validation of knowledge grounded on the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the prospective institutionalisation’s <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology.<in-preconverging-existential-extrication-as-of-existential-unthought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of ‘concurrent <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s

Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent \(<amplituding/formative–epistemicity>causality\)–as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating–ontological-contiguity’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism—of-social-functioning-and-accordance\(^73\) that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary-as-

We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern-day medicine however its overall ‘concurrent <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance

ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance of any reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ warrants that postmodern-thought hitherto articulated beyond-
ontological-completeness of reference-of-thought is wrongly construed as deriving posteriorly from the prior relative-ontological-incompleteness of reference-of-thought, this induces apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity -educed-existentialising/contextualising/textualising-contiguity }—constitutedness in preconverging entailment ‘as has been the case with prior postmodern-thought construed as of a modern take attitude/mental-disposition/care—and—episteme’; thus leading to a sort of postmodern-thought mechanical knowledge that is in many ways just budding and poorly acted upon. Ultimately, a ‘new/prospective postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ crossgenerational development, which is its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought is rather a notional—conflatedness as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness of reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought

The ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ should equally enable the avoidance of the erroneously implication of ‘a metaphysical/ideological advocacy’ as postmodern-thought as to human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation as-to-the-nondisjointedness/entailment-of-prospective nonpresencing> is so with regards to the inherent ontological sublimating human possibility in existence/intrinsic-reality/ontological-veridicality as to human-subpotency implied human potential, and so as emphasised and reflected with regards to the need for human limited-mentation-capacity-deepening.

human<amplituding/formative–epistemicity>totalising–purview-of-construal’, in defining which

reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is ‘relevant as the attitude/mental-disposition/care–and–episteme’ of wholly immersed-and-engrossed ‘meaningfulness-and-teleology’. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care–and–episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-
of reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-and-teleology between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligence/setup/measuring/instrument present attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-teleology’ as of their given neuterising-as-of-prior-relative-ontologicl-incompleteness-of reference-of-thought if a ‘prior/old/superseded attitude/mental-disposition/care–and–episteme’ or deneuterising-as-of-prospective-relative-ontological-completeness-of reference-of-thought if a ‘prospective/new/superseding attitude/mental-disposition/care–and–episteme’, whilst the ‘present attitude/mental-disposition/care–and–episteme’ is then rather adhocly-and-scantily identified now as either deneuterising if it in relation to the prior/old/superseded or neuterising if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension implications, ontologically-veridical representation of attitude/mental-disposition/care–and–episteme means ‘to be or exist as of the given registry-worldview/dimension reference-of-thought’ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-flawed as it registers into the ‘present attitude/mental-disposition/care–and–episteme’ unlike the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination

Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care–and–episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of <amplituding/formative–epistemicity>totalising–self-referencing-sycretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporality at its ontologically-veridical uninstitutionalised-threshold, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness-reference-of-thought. Thus, the manifestations of temporality/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of–meaningfulness-and-teleology posture in <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag, rather than a recognition of it prior relative-ontological-incompleteness reference-of-thought, implying recognising its uninstitutionalised-threshold with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/superroratory-de-mentativity, as knowledge-notionalisation not only factors in conceptual sublimation knowledge dynamics but equally the dynamics of the conceptual ignorances/desublimation to better skew meaningfulness-and-teleology towards intemporality/longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to-‘human-amplituding/formative-epistemicity(totalising-purview-of-construal’, the ‘postmodern preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ grounded on such rational-realism recognition of humankind temporal-to-intemporal nature at its uninstitutionalised-threshold is actually ‘effectively empowered’ to incisively tackle issues arising from human temporality/shortness as of its prospective de-mentative/structural/paradigmatic prospective relative-ontological-completeness reference-of-thought; and so beyond just amplituding/formative-epistemicity(totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and ad-hoc palliative resolution of a ‘modern take attitude/mental-disposition/care–and–episteme’ very much inclined to aberrational/oddities conceptioning of such temporality /shortness manifestations thus leading to their endemisation/enculturation from ‘ontologically-flawed and inevitability analyses’ conception. Thus a ‘modern take
attitude/mental-disposition/care–and–episteme’ is de-mentatively/structurally/paradigmatically disempowered to address issues of its temporality/shortness as of the vices-and-impediments at its uninstitutionalised-threshold. So because its epistemicity is ‘existentially invested’ in modern social-stake-contention-or-confliction framework of meaningfulness-and-teleology as of procrypticism–or–disjointedness-as-of-reference-of-thought from where it derives its value-construct and value-reference, as it hardly countenances that prospective transcendental knowledge implied value-construct and value-reference is not meant to be of ‘idle’ relevance to the modern social-stake-contention-or-confliction framework but rather redeploy an altogether empowering perspective of prospective relative-ontological-completeness reference-of-thought postmodern social-stake-contention-or-confliction framework of meaningfulness-and-teleology of value-construct and value-reference at the procrypticism uninstitutionalisation. Such prospective change as of de-mentation (supererogatory–ontological–de-mentation–or–dialectical–de-mentation—stranding-or-attributive-dialectics) of attitude/mental-disposition/care–and–episteme can be appreciated retrospectively with respect to non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme which from our modern take attitude/mental-disposition/care–and–episteme we rather construe as vague scholastic pedantic dogmatism with regards to budding-positivism/rational-empiricism, but then such a conclusion as of their non-positivism/medievalism habits and traditions is not necessarily obvious to the non-positivism/medievalism

herein contended that the critical notion underlying wooden-language—\{imbued—averaging-of-thought—\{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—\{as-of—\{nondescript/ignorable—void—\}'-with-regards-to—prospective-apriorising-implications—\}\}, ressentiment and leveling specifically with reference to Heideggerian and Nietzschean thought can actually be interpreted critically as relating rather to ‘originariness-parrhesia,—as—spontaneity-of-aestheticisation over the human atrophying tendency for prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility—of-aestheticisation’ with regards to ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency—\{~sublimating—nascence,—disclosed—\}—from-prospective-epistemic-digression. But then Heidegger failed to realise that the induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity of the Socratic-philosophers—\{universalising-idealisation as well as that of Descartes and other budding-positivists rational-empiricism/positivism were both originariness-parrhesia,—as—spontaneity-of-aestheticisation disseminative events—\} induced as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency—\{~sublimating—nascence,—disclosed—\}—from-prospective-epistemic-digression involving transcendence-and-sublimity/sublimation/supererogatory—de-mentativity from non-universalising sophistry and medieval-scholasticism pedantic dogmatism respectively; and so as to the fact that dimensionality—of—sublimating—\{\}—suppererogatory—de—mentativity/epistemical—growth—or—conflatedness—is—aporetically—\{\}—the more fundamental incipient/seeding originariness-parrhesia,—as—spontaneity-of-aestheticisation to both Descartes thinking-proposition for budding-positivism and Socrates’s universalising-idealisation in then secondarily inducing their respective reproducibility—\}
mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ and thus in many ways the naïve/flawed conception of Platonism and Cartesianism today arise as to a reasoning as from reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation perspective whereas Descartes and Plato—and–Plato’s Socrates are more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising and ancient-sophists non-universalising respectively. These induced transcendence-and-sublimity/sublimation/supererogatory/de-mentativity later on became prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of their mere ‘atrophying mechanical practice’ with succeeding generations, and so just as Nietzsche equally appreciated that Christianity was becoming a mere ‘atrophying mechanical practice’ of succeeding Christian generations as for instance with ascetic practices becoming more of symbolism/aura and losing their inventive emancipating inspiration. Thus with all these instances rather warranting renewed originariness-parrhesia,—as—spontaneity-of-aestheticisation as to existence—as-sublimating-withdrawal,eliciting-of-prospective-supererogation and so as of prospective projection as implied with the ontological-contiguity—of—the—human—institutionalisation—process, but instead Heidegger will elicit a naïve turn to the pre-Socratics while Nietzsche will express admiration of Buddhism as both being of grander originariness and ontological-good-faith/authenticity. However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation notion of philosophy, it is herein contended that this relatively deficient analysis reflects the fundamental ontological-deficiency of subsequent philosophies influenced by Kantian philosophy which is rather ‘as a projection within the very same intelligible Cartesian/budding-positivists induced rational-empiricism/positivism registry-worldview’s/dimension’s supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of—

In this regards, we can appreciate that all human –meaningfulness-and-teleology– arises as of
aestheticisation before converging towards ontologisation, just as rightfully implied by
Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively
implied with Nietzscanean thought) since aestheticisation convergence towards ontologisation
leads to grander ontological-performance –<including-virtue-as-ontology>. In this regards, we
can appreciate that while from our vantage modern perspective the ontological-veracity of the
Egyptian cultural system aestheticisation behind the construction of the pyramids will seem
inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern-day science ontologisation; and besides, it can equally perfectly be claimed that even our modern-day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to wooden-language-(imbued—averaging-of-thought-

whether with the Ancient-sophists or medieval-scholasticism pedants. We can further appreciate the critical impact of the universalising-idealisation infrastructure of the Socratic-philosophers and their successors as providing the appropriate meaningfulness-and-teleology infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced meaningfulness-and-teleology infrastructure of budding-positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-flung societies opportunistic activities distortive of budding-positivism meaningfulness-and-teleology infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever always caught up between on the one hand human limited-mentation-capacity to come to terms with ‘transvaluation as causality in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity —of-the-human-institutionalisation-process anamnesis as of difference-conflatedness-as-to-totalitative-reification-in-singularisation as-veridical-epistemicity-relativism-determinism underlying the human construction-of-the-Self and on the other hand ‘the effective ontological-impertinence/dereification arising in the conceptualising of human value-construction as of a wooden-language—imbued—averaging-of-thought—

transvaluation and effective social–value-construction narrative as of any given registry-
worldview/dimension) is reflected in the underlying reality that effectively practised human
value-construction is the ‘outcome of privileged institutional end-purpose
perspective/framing/reference/horizon/projection’; wherein social–value-construction across the
successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly
coherent ontological-commitment—ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming—as-being-as-of-
existential-reality> and so in order to elicit stable social-functioning-and-accordance for social-
stake-contention-or-confliction, whether such social–value-construction is ontologically-
pertinent or not. In this respect, the reality in reflecting holographically,<conjugatively-and-
transfusively> the ontological-contiguity—of-the-human-institutionalisation-process points
to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-
construction’, so-construed as ‘expected equity of all individuals for social–value-construction’
and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly
implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty,
class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern-day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-
monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive 79 presencing—absolutising-identitive-constitutedness 14 is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating "historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-normality/postconvergence-reflected-‘epistemicity-relativism-determinism’> notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification–gesturing:<in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness —in-{preconverging-disentailment-by}—postconverging—
entailment of social-value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. The occlusivity of our positivism/rational-empiricism social-value-construction as such from the prospective perspective of deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable—void falsely implying ‘the appropriate exhaustiveness of our rational- empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and secluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty
paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed oclusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments as so-reflecting the grandest deeds of ontological-performance -<including-virtue-as-ontology>-/morality/ethics/etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold-(uninstitutionalised-threshold /presublimating–desublimating- decisionality)-of-ontological-performance -<including-virtue-as-ontology> dynamics of notional–firstnaturedness—temporal-to-intemporal-dispositions--so-construed-as-from-perspective–ontological-normalcy/postconvergence’ ). But then while such an abstract transvaluation perspective for the construal of social–value-construction is cogently obvious, however the fact remains that the human subject as of its limited-mentation-capacity exists in circumstances of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as of its given reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation inducing its deficient ontological-performance -<including-virtue-as-ontology> thus explaining its given registry-worldview/dimension vices-and-impediments. Consider in this regards the implications for an individual having to respond to an accusation of sorcery in a non-positivism social-setup as the individual and the social-setup both effectively believe in superstition. Transvaluation insight will point out that ontological-veracity as of \(\text{foregrounding entailment}\) \(\text{(<postconverging–narrowing-down~sublimation-as-to–existence—as-sublimating-withdrawal,}\) eliciting-of-prospective-supererogation \(\text{‘-in-reflecting–‘immanent-ontological-contiguity’,};\) as-operative-notional–deprocrypticism\) lies with the-Good/understanding/notional~knowledge-reification–gesturing:<in-prospective_psychologismic~apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity \}—conflatedness ~in-{preconverging-disentailment–by}—postconverging-entailment>/\(\text{<amplituding/formative–epistemicity>causality ~as-to-projective-totalitative—

We can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness/psychologismic-construct’ say with regards to a mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a reference-of-thought\textsuperscript{44} devolving-level manifestation of the primacy of existence equally extends to reference-of-thought-level wherein overall existence ‘as transcendental-enabling’ for a rational-empiricism/positivism registry-worldview/dimension as of its supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of- apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for– conceptualisation ‘is more effective’ with respect to human grasp of existential reality manifestations than a non-positivism registry-worldviews/dimension, just as a prior universalisation registry-worldview/dimension ‘is more effective’ as of its supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of- apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for– conceptualisation in grasping existential reality manifestations than a preceding ununiversalisation registry-worldview/dimension. In this regards, the broader and more profound conception of human sovereignty and free—will as reflected by human <amplituding/formative—epistemicity> totalising—thrownness—in—existence is rather grounded in the reality that all humans come into existence as of an overall framework of Being—development/ontological—framework—expansion — as—to—depth—of—ontologising—development as infrastructure—of—meaningfulness—and—teleology, institutional—development— as—to—social—function—development and living—development — as—to—personality—development within which the notion of human sovereignty and free—will then arises in the very first place; such that in many ways human sovereignty and free—will is collectively predicated to the social—setup social—functioning—and—accordance as of its implied supposedly coherent ontological—commitment — <implied self—assuredness—of—ontological—good—

Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness/psychologismic-construct’ rather speaks of a poor ontological sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification–gesturing—confatedness in {preconverging-disentailment by} postconverging-entailment and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as 6 m/s\(^2\) rather than the existence-potency ~sublimating–nascence,—disclosed-from-prospective-epistemic-digression manifestation of 9.8 m/s\(^2\) and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere disparateness-of-conceptualisation. It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification—gesturing—in-prospective_psychologismic-apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—}—
interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification—gesturing—in-prospective-psychologismic—apriorising/ axiomatising/referencing—{of-attendant—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity} is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency’—sublimating—nascence,—disclosed-from-prospective-epistemic-digression from such human-subpotency prior reproducibility—mathesis/motif/thrownness-disposition’. This reflects the ontological-veracity that human sovereignty and free-will can only be construed in apriorising/ axiomatising/referencing—{of-attendant—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity} as of human <amplituding/formative-epistemicity>totalising—thrownness-in-existence as wrongly implying human sovereignty and free-will supersedes existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression rather than the epistemic-veracity of difference-conflatedness as-to-totalitative-reification-in-

We can garner for instance that there is and has never been any truly presencing-absolutising-identitive-constitutedness of the sciences as often wrongly implied by science ideologues, but that scientists across-the-times have allowed existence-potency sublimating-nascence-disclosed-from-prospective-epistemic-digression to manifest itself in determining amplituding/formative-epistemicity-causality-as-to-projective- totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity: and so, as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern-day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study together with human limited-mentation-capacity-deepening implications in transforming the conceptualisation within any such specific subject-domains of scientific study as of their knowledge-reification-gesturing-in-prospective-psychologismic-apriorising/axiomatising/referencing-of-attendant-ontological-contiguity~educed-existentialising/contextualising/textualising-contiguity—conflatedness~in—preconverging-disentailment-by—postconverging-entailment—rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation-and—existence—as-sublimating-withdrawal,eliciting-of-prospective-supererogation—as-to-perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’. A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal.
of the ‘implications of deferential-formalisation-transference as being de-
mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-
fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-
of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-
operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-
transference as being de-mentatively/structurally/paradigmatically both-intensional-and-
extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human
sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather de-mentative/structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall ‘expected equity of all individuals for social–value-construction’ in relative-ontological-incompleteness treatments⁄relative-ontological-completeness treatments—sublimating–referencing/registering/decisioning,—as-self-becoming/self-conflatedness/formative–supererogating—projective/reprojective—aestheticising-re-motif—

We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern-day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are preconvergingly–dementated/structured/paradigmed to default/revert into the interests of powerful groups and
corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern-day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting
as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening as to the ‘relative-ontological-incompleteness’/‘relative-ontological-completeness’{(sublimating–referencing/registering/decisioning–as-self-becoming/self-conflatedness /formative–supererogating–<projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–in-perspective–ontological-normalcy/postconvergence)} as to human-and-social–expectations/anticipations—metaphoricity”–as-rede-mentating/restructuring/reparadigming–psychologism” for knowledge-reification–gesturing–<in-

Consider in this regards for instance as of the presencing—absolutising-identitive-constitutedness notion of ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently
making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity <discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’ argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument—form—conceptualisation in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring—as-to-preconverging-or-dementing—apriorising-psychologism of any such implied slavery ‘human social-vestedness/normativity <discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity <discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring—as-to-preconverging-or-dementing—apriorising-psychologism of any such implied slavery ‘human social-vestedness/normativity
implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’. This points to the reality that ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity construable ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a ‘presencing—absolutising-identitive-constitutedness false sense of logical-dueness as of ‘relative-ontological-incompleteness’/relative-ontological-completeness’ (sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating<-projective/ reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence>) as to human-and-social–expectations/anticipations—

inherent ‘meaningfulness-and-teleology’ but rather as of the specific human-subpotency with

The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in existence. In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference
as to various cultivated skills/arts and time investment with their knowledge deferentialformalisation-transference validation as of the supposedly coherent ontological-commitment — implied—self-assuredness-of-ontological-good-faith/authenticity ~ postconverging — de-mentating/structuring/paradigming — as-being-as-of-existential-reality; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality’/shortness <amplituding/formative> wooden-language {imbued—averaging-of-thought <as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology — as-of — nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>} is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual
between human-subpotency and existence-potency~sublimating-nascence,-disclosed-from-prospective-epistemic-digression) is effectively what underlies human institutional paralysis and social-vestedness/normativity-discretely-implicated-functionalism as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology-in-preconverging-existential-extrication-as-of-existential-unthought) is predicated upon and drags along the shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presencing—absolutising-identitive-constitutedness as historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), and so towards humankind’s
supposed future (as of Being-development/ontological-framework-expansion–as-to-depth-of-
ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, institutional-
development–as-to-social-function-development and living-development–as-to-personality-
development); and in many ways this historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition has already been stifling/stalling the huma prospective potential as from the ontological-normalcy/postconvergence perspective conception of future historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-
presencing—absolutising-identitive-constitutedness notional framework of human stake-contention-or-confliction. historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition thus involves a <amplituding/formative–epistemicity> totalising/circumscribing/delineating conception of social-vestedness/normativity <discretely-implied-functionalism> as to an underlying human psychological entrapment (as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology , institutional-development—as-to-social-function-development and living-development—as-to-personality-development) that is incapable to re-stake/put-back-at-stake “meaningfulness-and-teleology” out of its historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition social-vestedness/normativity <discretely-implied-functionalism> in order to reflect the true prospective overall aestheticisation—and—aestheticisation-towards-ontology as to the unbridled ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective re-originariness/re-origination of human limited-mentation-capacity-deepening. Such social and institutional social-vestedness/normativity <discretely-implied-functionalism> for instance like in many ways the practice in modern-day scholarship (especially when poorly constrained to existence-potency ~sublimating–nascence,–disclosed-from-prospective-epistemic-digression) is bound to ‘make its own weather’ rather as from human-subpotency temporality'/shortness; wherein ‘invested’ institutional and theoretical/conceptual postures take on an essence all of their own, and so independently and overlooking the precedence of existential-reality for the possibility for prospective sublimation and knowledge-reification–gesturing—in-prospective_psychologismic–apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } conflatedness ~in–{preconverging-disentailment by}–postconverging-entailment> and failing to ‘effectively re-stake/put-back-at-stake in re-originariness/re-origination the capacity of
ontologising/infrastructure-of—meaningfulness-and-teleology of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-from-perspective—ontological-normalcy/postconvergence—existentialism-form-factor; and so in all situations particularly those poorly constrained to existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression. Such that such ontologically-flawed presencing—absolutising—identitive-constitutedness becomes a psychological entrapment of an overwhelming presence hardly capable of profound re-originariness/re-origination but for its thresholding to the accrued historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition perception of temporal/shortness human stakes-contention-or-confliction framework; with the consequence that this mitigates the possibility to broaden-the-latitude-of-human-collective-consciousness off-the-beaten-path of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition (as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development) as to the relation with human lopsided material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a desublimation/gimmickiness rather than its very own sublimation in tandem with material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/aloofness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and
merchandising as of ‘presencing—absolutising-identitive-constitutedness—meaningfulness-and-teleology’ given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now de-mentatively/structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of Being-development/ontological-framework-expansion—development-as-infrastructure—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development) such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic-or-notional—projective-perspective of re-originariness/re-origination as implied with prospective deprocrypticism—or—preempting—disjointedness—as-of— reference-of-thought.

Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness—meaningfulness-and-teleology’ given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness—meaningfulness-and-teleology’ the modern mindset has tended to construe of its lopsided
material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology\(^9\)-<in-preconverging-existential-extrication-as-of-existential-unthought\>); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation--and--aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation--and--aestheticisation-towards-ontology as 'meaningfulness-and-teleology\(^9\)' with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension\(^27\). Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orginariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a\(^7\) presencing—absolutising-identitive-constitutedness\(^{14}\)-of—‘meaningfulness-and-teleology\(^9\)’ given ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism-determinism’>. While a traditional conception of human sublimating-over-desublimating social-and-institutional-constructs—of—‘meaningfulness-and-teleology’—in-cumulation/recomposuring is often articulated as resting on ‘human social-vestedness/normativity-<discretely-implied-

This patent elucidation of the decoherencing-structure—of—meaningfulness-and-teleology\(^{(9)}\)-for-institutionalisation as to such a supposedly most abstract and enlightening-giving notion that is philosophy is a basic insight (as construed from the ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective) of desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition psychological entrapment with respect to the overall prospective sublimating historicity/ontological-eventfulness\(^{(7)}\)/ontological-aesthetic-tracing\(^<(\text{perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism})\) (which de-mentatively/structurally/paradigmatically seems to be entrapped/stifled in human taxingness-of-

Effectively, human decoherencing-structure—of—meaningfulness-andleology—for-institutionalisation arises as of ‘taxingness-of-originariness (what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation). The idea of superseding the human registry-worldview’s/dimension’s institutionalisation decoherencing-structure—of—meaningfulness-teleology—for-institutionalisation (as to ‘abstractly projected finality in reflecting holographically-conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\(^{68}\) for prospective sublimating historiality/ontological-eventfulness\(^{38}\)/ontological-aesthetic-tracing\(<\text{perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism}\>), patently makes obvious what the true implications of prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought project with respect to its dispensing-with-immediacy-for-relative-ontological-completeness\(^{87}\)-by-reification/contemplative-distension\(^{77}\) re-originariness/re-origination conceptualisation in relation to our present positivism-procrypticism aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-andleology\(^{76}\). This is reflected in the projected underlying ontological-performance\(^{72}\)-<including-virtue-as-ontology> divergent relation between historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition (as constrained to human taxingness-of-originariness as to: what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation) and prospective historiality/ontological-eventfulness\(^{38}\)/ontological-aesthetic-tracing\(<\text{perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism}\>.

\(^{47}\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition as implied at all uninstitutionalised-threshold\(^{102}\) is what underlies the notionally-collateralising inclination of human meaningfulness-andleology as of any given registry-worldview/dimension in relative-ontological-incompleteness\(^{88}\); speaking in reflecting

This limitativeness of \(^4\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is fundamentally an issue of human psychological entrapment ‘defining naivities and complexes’ as to human shiftiness-of-the-Self\(^1\) as of its \(^7\) presencing—absolutising-identitive-constitutedness\(^14\) (construable abstractly as fundamentally subpar to human effectuation potential but for the fact that the psychological entrapment is a paradoxical circular constituent of the human as to its ‘notionally—collateralising-beholdening-protohumanity by sublimating-humanity existentialism-form-factor’). Human \(^9\) presencing—absolutising-identitive-constitutedness\(^14\) as the very seeding disposition for \(^4\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is ever always characterised by its immediacy-reactive-criticality (over panoramic-sublimating-criticality) as to its constraining aestheticisation—and—aestheticisation-towards-ontology framework; such that the propensity for human \(^9\) meaningfulness-and-teleology\(^9\) to be instigated (as to human limited-mentation-capacity-deepening\(^7\) before any construable human panoramic-sublimating-criticality outcome of \(^9\) meaningfulness-and-teleology\(^9\)) has ever always been bound to take ‘a notionally-collateralising inclination detour of aestheticisation—and—aestheticisation-towards-ontology’ (as of the defining ‘originariness-by-reproducibility-laddering effect of human ontological-performance \(^7\) -<including-virtue-as-ontology>’), and so as of the ‘varying magnitudes/scales—as-to-successively-profound-rede-mentating/restructuring/reparadigming–frames-as-from-living,-institutionalising,-and-Being-ontologising/infrastructure-of—\(^9\) meaningfulness-and-teleology\(^9\) of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-

More than just about abstract knowledge-reification-gesturing—apriorising/axiomatising/referencing—{of-attendant-ontological-contiguity—educed-existentialising/contextualising/textualising-contiguity}—conflatedness—in—preconverging-disentailment—by—postconverging-entailment> the implications of science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient presencing—absolutising-identitive-constitutedness analyses that fail to factor in that the
very notion of ‘positivistic science experimental framework’/ontological-eventfulness/ontological-aesthetic-tracing was developed and enculturated/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their medieval-scholasticism (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern-day science experimental framework speaks of the characteristic nature of a flawed prior knowledge-reification–gesturing–exercising that doesn’t factor in human limited-capacity-deepening as of ‘relative-ontological-incompleteness’/relative-ontological-completeness as to human-and-social–expectations/anticipations—metaphoricity as-rede-mentating/restructuring/reparadigming—psychologism as to <amplituding/formative-epistemicity> causality as-to-projective-totalitative–implications-of-prospective–nonpresencing—for-explicating-ontological-contiguity. However, the case with psychological, social and ‘interest-driven scientific frameworks’ is quite often ‘hardly one of high predicative-effectivity–sublimation{(as-to-underlying,-ontological-commitment Œ-implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming —as-being-as-of-existential-reality>)}’ with the result that such a ‘purist ontological and scientific framing of

In many ways taking such ontologically-flawed interpretations seriously induces human impotency and desublimation (as to the implicated contention that the human ‘supposedly has no profound sublimating social and socio-psychological phenomenal/manifest—subpotencies—(in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence)” with the ‘supposedly profound phenomenal/manifest—subpotencies—(in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence)” construed rather in reductionist terms of biology/neurology or physicalism) as is often also associated with social-vestedness/normativity—<discretely-implied-functionalism> disparateness—of—conceptualisation—<unforegrounding—disentailment,—failing—to—reflect—‘immanent—ontological-contiguity’>; thus
‘actually denying the metaphysical nature and thus ontological nature of the sublimating social and socio-psychological’ such that existence-potency\^\(x\)~sublimating–nascence,~disclosed-from-prospective-epistemic-digression sublimation implications with regards to the social and socio-psychological are hardly contemplated and recognised as so-projected herein as to the ontological-contiguity\(^{\(y\)}\)—of-the-human-institutionalisation-process\(^{\(y\)}.\) But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest–subpotencies\(\langle\text{in-transitive-conflatedness} \text{–reflexivity, } \text{in-the-full-potency-of-existence’s–sublimating–nascence}\rangle\) to then ‘utilise the clout to falsely imply substitutive/reductionist sublimation over the social and socio-psychological phenomenal/manifest–subpotencies\(\langle\text{in-transitive-conflatedness} \text{–reflexivity, } \text{in-the-full-potency-of-existence’s–sublimating–nascence}\rangle\) (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). But then the giveaway of such a flawed conception of science/ontology lies in the fact that such approaches do not project any ‘\(<\text{amplituding/formative–epistemicity}>\text{totalising/circumscribing/delineating } \text{necessitation frame–of–ontological-contiguity} \rangle\)’ as all pretences of science/ontology must demonstrate and aspire to (consider in this regards the ‘\(<\text{amplituding/formative–epistemicity}>\text{totalising/circumscribing/delineating } \text{necessitation frame–of–ontological-contiguity}\rangle\)’ of physics, chemistry, biological, genetic theories as to the ontological-contiguity\(^{\(z\)}\) imbued \(4\) foregrounding entailment\(\langle\text{postconverging–narrowing-down–sublimation-as-to–existence—as-sublimating-withdrawal,~eliciting-of-prospective-supererogation } \langle\text{in-reflecting–immanent-ontological-contiguity}\rangle;\text{–as-operative-notional–deprocrypticism}\rangle\) of their respective inherent sublimating phenomenal/manifest–subpotencies\(\langle\text{in-transitive-conflatedness} \text{–reflexivity, } \text{in-the-full-potency-of-existence’s–sublimating–nascence}\rangle\).

The reality of such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological is rather one that points out that the ‘traditional nature versus nurture debate itself is fundamentally an axiomatically bankrupt conception’ since ‘not even such proponents implicitly point to an underlying human drivenness and functioning of the social and socio-psychological framework on the basis of any such supposed ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of biological/neurological and evolutionary substitutive/reductionist interpretations’, but rather the strategies of such proponents (beyond-the-consciousness-awareness-teleology<-in-preconverging-existential-extrication-as-of-existential-unthought> ) work paradoxically only by impliciting the reality of the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of the social and socio-psychological epistemic-conception phenomenal/manifest–subpotencies⟨in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence⟩ (as to their implied sublimating existence’s necessitating implications and consequences)’, and then surreptitiously project/select/pop-up (in totalisingly-disentailing—discretion/whim-of-thought) opportune/ad-hoc biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological frame–of–ontological-contiguity’, and so as of vague disparateness–of-conceptualisation<-unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’>. Such flawed and surreptitious representation that biological/neurological and evolutionary substitutive/reductionist interpretations are the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity ’ of the social and socio-psychological (rather than the truly inherent social and socio-psychological epistemic-conception

Such claims often project/imply that analysing the social qua social is just about irrelevant (or paradoxically ‘make their very own subterfuge social interpretations’ as from the psychological trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from the clout of a natural science without demonstrating the epistemic-veracity for such a bypassing/dodgery as to arrive at the social ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’’, sublimating implications and consequences). Besides, such claims are often so-
etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ speak to the more profound reality that the ordinariness of human thought across the <cumulating/recomposuring–attendant-ontological-contiguity >-succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence’ despite the delusion of all registry-worldviews/dimensions in their <presencing—absolutising-identitive-constitutedness> as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions <presencing—absolutising-identitive-constitutedness> failure to directly grasp their very own <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, even as the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). In other words, the ‘effective equilibration of human sublimating-<meaningfulness-and-teleology> across the <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions’ does not lie with any ‘ordinariness/common sensicality as of the <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions <presencing—absolutising-identitive-constitutedness> as falsely elicited by their sophistic/pedantic dispositions, as in reality it rather lies in ‘the dynamically differentiated transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-

rather more bent upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence’s necessitating implications and consequences. Such notions of veracity/truth without articulating existence-potency\textsuperscript{39}−sublimating−nascence,−disclosed-from-prospective-epistemic-digression are vague disparateness-of-conceptualisation\textsuperscript{46} \texttt{<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’ \textsuperscript{1}>}, and worse still when accompanied by claims of humility as to inherent institutionalised prescience are more often than not mere manifestations of intellectual entitlement; (as to imply the society is inherently beholden to the mere institutionalised imprimatur of intellection even as to when it projects intellectual desublimation associated with notional−pedantising/muddling/formulaic- hollowing-out—\texttt{in-subontologisation/subpotentiation-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising−in-relative-ontological-completeness )} as well as intellectually-distortive practices such as blind institutionalised priming/funnelling/staking of specific theoretical postures over genuine and profound ontological elucidation as to existential contextualisation with the associated academic careerism at the very antipode of genuine sublimating intellection) and so as reflecting the modern-day intellection relevant prospective human-subpotency−aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency\textsuperscript{39}−sublimating−nascence,−disclosed-from-prospective-epistemic-digression; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective over the prior institutionalised/classical-mechanics—axiomatic-constructs with the latter never assuming any arrogance as to its prior

Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given presencing—absolutising-identitive-constitutedness’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of
projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness\textsuperscript{87} knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and\textsuperscript{90} procrypticism–or–disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation,\textsuperscript{103} universalisation, positivism/rational-empiricism and deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellecction as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness\textsuperscript{87} has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness\textsuperscript{87}. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness\textsuperscript{88} arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective) as to an epistemically-decadent <amplituding/formative> wooden-language-{imbued—temporal—mere—form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology}; and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}—by-reification/contemplative-distension\textsuperscript{87} out of concern about huma prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{99} ‘is the most important human and humanity-producing enterprise’ notwithstanding the paradox that the prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism–or–disjointedness-as-of-reference-of-thought respectively are intellectually-
and-morally undeveloped to be the framework for appraising value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought respectively in many ways explaining the underlying implications of human registry-worldview’s/dimension’s institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification–gesturing—prospective _psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educted–existentialising/contextualising/textualising-contiguity }—conflatedness—in–preconverging-disentailment~by—postconverging-entailment is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the the flawed prior _knowledge-reification–gesturing—exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification–gesturing—

Hence basically the overall differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity–discretely-implied-functionalism> epistemic-conception of veracity/truth’ lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying point has de-mentative/structural/paradigmatic implications with regards to human meaningfulness-and-teleology (as to human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, institutional-development–as-to-social-function-development and living-development–as-to-personality-development). This differentiation can be rearticulated in aestheticisation terms to imply that existence (as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression) is ‘the scalar conception that enables prospective human sublimation as of aestheticisation-towards-ontology’ while on the other hand human-subpotency (as to human presencing—absolutising-identitive-constitutedness <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ) is ‘a non-scalar conception that induces prospective human desublimation aestheticisation’. The ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as such is reflected with regards to prospectively implied ontological-normalcy/postconvergence construed as of maximalising-recomposuring-for-relative-ontological-completeness<as-to-

epistemic-abnormalcy/preconvergence construed as of incrementalism-in-relative-
ontological-incompleteness—enframed-conceptualisation epistemic-projection perspective.
Basically, ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and
‘human-subpotency non-scalarity/beholdening-as-to-what-has-gone-before-aesthetically-de-
mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ thus
speak to the fact that huma prospective transcendence-and-
sublimity/sublimation/superrgatory-de-mentativity implied limited-mentation-capacity-
deepening (as to dispensing-with-immediacy-for-relative-ontological-completeness -by-

distension so-construed as ‘dispensing-with-immediacy-for-relative-ontological-
completeness-by-reification/contemplative-distension’ imbued prospectively of both
sublimating historiality/ontological-eventfulness/ontological-aesthetic-trace and
desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition; as
to prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-trace
‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as prospectively
preserving ontology/ontological-veracity and ‘human-subpotency non-scalarity/beholdening-
as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-
possibility-for-the-later-ontologisation’ prospective desublimating historicity-tracing—in-
presencing—hyperrealisation/hyperreal-transposition as prospectively obviating
ontology/ontological-veracity. This insightful grasp of the implications of human limited-
mentation-capacity-deepening (construed as from ontological-normalcy/postconvergence
epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient
grounding’ of relative human limited-mentation-capacity (however ‘the better relative
notional-deprocriptism as such by its ontologically-uncompromised nature ‘technically entails’: prospective human ontological-performance \( \langle \text{including-virtue-as-ontology} \rangle \) as to sublimating \( \langle \text{historiality/ontological-eventfulness} \rangle \) \( \langle \text{ontological-aesthetic-tracing} \rangle \langle \text{perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism} \rangle \) as of ‘scality/immanency of existence’s ontological-normalcy/postconvergence’ in overcoming the desublimating \( \langle \text{historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of human-subpotency non-scalarity/beholdening—as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation} \rangle \)’ in presencing—absolutising-identitive-constitutedness. Translated, this ‘scality/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholdening—as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ underlying prospective human ontological-performance \( \langle \text{including-virtue-as-ontology} \rangle \) with regards to human \( \langle \text{meaningfulness-and-teleology} \rangle \) speaks to the fact that prospectively induced human sublimation is bound to paradoxically distort-and-desublimate the ontological-veracity appraisal for inducing further and concomitant human sublimation (and so because of the de-mentative/structural/paradigmatic effect of relative limited-mentation-capacity-deepening in constrast to what will prevail in case of ‘absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’). But then such effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity\( \langle \text{discretely-implied-functionalism} \rangle \) epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity—sublimation\( \langle \text{as-to-underlying–ontological-commitment} \rangle \langle \text{self-assuredness-of-ontological-good-faith/authenticity} \rangle \langle \text{postconverging–de-mentating/structuring/paradigming as-being-as-of-existential-reality} \rangle \) is strongly prone to

<perspective—ontological-normalcy/postconvergence-reflected—'epistemicity-relativism-

sublimating, and it is here as well that even the propensity for sublimation of ‘purist

ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional

genuinely projected knowledge as of ontological-good-faith/authenticity 97 ~postconverging—de-

This is more obviously grasped with respect to human institutional-development–as-to-social-function-development and living-development–as-to-personality-development as to the positive-opportunism—of-social-functioning-and-accordance implications eliciting a decomplexed placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of such ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ but less obvious and poorly grasped with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–‘meaningfulness-and-teleology’. In this respect with regards to human institutional-development–as-to-social-function-development and living-development–as-to-personality-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary ‘meaningfulness-and-teleology’ desublimation which wouldn’t achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical meaningfulness-and-teleology (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with the relation thus involving the requisite ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism> of the professional with a corresponding deferential apriorising/axiomatising/referencing–psychologism of the client’ and so as reflecting the sublimating knowledge ontological-good-faith/authenticity~postconverging–de-

However, this sublimating knowledge ‘ontological-good-faith/authenticity\(^0\)–postconverging–de-mentating/structuring/paradigming\(^0\) existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ across all registry-worldviews/dimensions is ever always poorly appreciated with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^0\) (even though from a retrospective perspective we can grasp the preconverging/dementing\(^0\)–qualia-schema of ‘the God-of-plane’ type of articulation of say base-institutionalisation as of animistic social-setup as from our positivism/rational-empiricism reflex ‘ontological-good-faith/authenticity\(^0\)–postconverging–de-mentating/structuring/paradigming\(^0\) existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ but it is important to note that such an animistic social-setup doesn’t project of any such preconverging/dementing\(^0\)–qualia-schema placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^0\) going by its\(^7\) presencing—absolutising-identitive-constitutedness\(^10\) just as we will be disinclined to contemplate about the more veridical preconverging/dementing\(^0\)–qualia-schema of our\(^8\) procrypticism–or–disjointedness-as-of–reference-of-thought uninstitutionalised-threshold\(^0\) as from a prospective notional–deprocrypticism perspective projected placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^0\)). The blunt fact is that as explained above and clearly obvious with human institutional-development—as-to-social-function-development and living-development—as-to-personality-development the ordinariness of meaningfulness-and-teleology\textsuperscript{99} is not to be exploited as if it is a credible state of profound ontological-veracity given the lack of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87} -by-reification/contemplative-distension\textsuperscript{27} (as to a disparateness-of-conceptualisation\textsuperscript{2} \textit{unforegrounding-disentailment,-failing-to-reflect—immanent-ontological-contiguity} \textsuperscript{67} which notional~pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing\textsuperscript{5} \textit{amplituding/formative—epistemicity} totalising—in-relative-ontological-completeness ) thrives on this lack of \textsuperscript{10} universal-transparency\textsuperscript{10} (transparency-of-totalising-entailing,-as-to-entailing\textsuperscript{10} \textit{amplituding/formative—epistemicity} totalising—in-relative-ontological-completeness ) with regards to prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—
meaningfulness-and-teleology underlying the genuine social intellectual–function/posture. Intellectualism as such is much more than just about presencing—absolutising-identitive-constitutedness methodologising/mutualising/organising/institutionalising enterprise as to the fact that all given registry-worldviews/dimensions as presencing—absolutising-identitive-constitutedness underpinning–suprasocial-construct relate to their given meaningfulness-and-teleology in absolute terms whereas in reality there are veridically relative subontologisation/subpotentiation of ontology as metaphysics-of-presence\{(implicitied-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness \})'; and it is here that the genuine social intellectual–function/posture comes in to veridically reflect the reality that a social-construct is not of absolute scalarisation of human ontological-performance\{-<including-virtue-as-ontology> for the possibility for its prospective scalarisation-as-to-rescalarisation-as-re-ontologisation/supererogatory-involuting-or-guiding-or-amplifying–scalarisation-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation', and the genuine social intellectual–function/posture as such is not about a naivist social-vestedness/normativity\{<discretely-implied-functionalism> as otherwise the possibility for the <cumulating/recomposuring–attendant-ontological-contiguity >-succession of registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory-de-mentativity right up to our present wouldn’t have availed speaking to our very own intellectual-and-moral responsibility for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\}. The genuine social intellectual–function/posture means that human thought can project beyond, overlook and override presencing—absolutising-identitive-constitutedness\{<preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness\{as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition\} conception

implicitly recognise this reality even as the overall underpinning–suprasocial-construct tends to
be abstractly preconvergingly–de-mentated/structured/paradigmed to skew towards ‘immediacy
supposed absolute sublimating value and ontological-veracity disposition’ (as for instance
professional choices and callings made well beyond just a question of their remunerative or
supposed incidental social prestige worth). Part and parcel of the genuine social intellectual–
function/posture is to undermine this skewing towards ‘immediacy supposed absolute
sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-
awareness-teleology
reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given ‘presencing—absolutising-identitive-constitutedness’ ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human presencing—absolutising-identitive-constitutedness’ mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Copernicuses, Galileos, Descartes, Kants, Newtons, Leibniz, Rousseaux, Diderots, Pasteurs, Lavoisiers, Teslas, Einsteins, etc. upon whose ‘meaningfulness-and-teleology’ infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human ‘meaningfulness-and-teleology’ (and so not only with human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—‘meaningfulness-and-teleology’ but is equally reflected in a poor-spirited bland conception of human institutional-development—as-to-social-function-development and living-development—as-to-personality-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning—suprasocial-construct projected and preconvergingly—de-mentated/structured/paradigmed ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed
as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-threshold \(^7\) of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as underlying \(^6\) presencing—absolutising-identitive-constitutedness \(^1\) end up as the registry-worldviews/dimensions Establishments underpinning—suprasocial-construct as to dominance/vested-interest—drivenness—<as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,—as-inducing-prospectively-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness \(^4\) <preconverging—‘motif-and-apriorising/axiomatising/referencing’—imbuing—existing—enframing/imprintedness—(as-to— historicity-tracing— in-presencing—hyperrealisation/hyperreal-transposition) of social-vestedness/normativity \(^2\) <discreetly-implied-functionalism> and social-stake-contention-or-confliction. This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholding to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our modern-day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity\(^4\)~postconverging–dementating/structuring/paradigming \(<\text{existential-condescension}<\text{of-apriorising/axiomatising/referencing–psychologism}>\)’ with regards to the human species on Earth and strife to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness\(^5\) doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance\(^6\)~<\text{including-virtue-as-ontology}>\) state failing to factor in human specific apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity}—ontological-deficiency arising from its specifically given \(<\text{amplituding/formative–epistemicity}>\) totalising~thrownness-in-existence\(^7\)’ but together with the extraterrestrials is rather dementatively/structurally/paradigmatically in existential-discursivity—implicated-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any
subpotency (speaking fundamentally to prior human ontological-commitment -implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—dementating/structuring/paradigming –as-being-as-of-existential-reality) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorily of existential-discursivity—implicated-sublimation-over-desublimation superseding pretenses of mere-formulaic methodologising/mutualising/organising/institutionalising prescences as to entitlements of presencing—absolutising-identitive-constitutedness articulated induced elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity ~educed—existentialising/contextualising/textualising-contiguity. Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness is-educed—and—avails—and—re-avails rather than ontological-bad-faith/inauthenticity in upholding relative-ontological-incompleteness (given that immortality/existence-perspective as to intemporality cannot be construed as arising from our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to preconverging—or-dementing —apriorising-psychologism and not postconverging—or-dialectical-thinking—apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicated-sublimation-over-desublimation that explains why the educing—and—availing—and—re-availing of relative-ontological-completeness as to dimensionality-of-sublimating -<amplituding/formative–supererogatory—dementativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> takes precedence in defining human intellectual-and-moral ontological-performance -<including-virtue-as-ontology> and so as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation. This <amplituding/formative–epistemicity> totalising—thrownness-in-existence implied existential-discursivity—implicated-
sublimation-over-desublimation as to ‘ontological-good-faith/authenticity~postconverging-de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ effectively underlies the ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’, as the preformulating/preframing/premeaningfulness<metaphoricity~disposition—as-to-psyche-induced-psychologism-of-existential-stake> from which human meaningfulness-and-teleology veridically arises. Thus existential-discursivity—implicated-sublimation-over-desublimation implies that the human is already ‘de-mentatively/structurally/paradigmatically intellectually-and-morally existentially engaged as to its limited-mentation-capacity’ without any ‘neutrally/objectively sound human ontological-performance<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence’. This insight puts into perspective our presencing—absolutising-identitive-constitutedness conception of intellectual-and-moral responsibility wherein supposedly failed/unsuccessful/ineffective initiatives undertaken as to relative-ontological-completeness (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness aetiologisation/ontological-escalation posturing) without factoring in that ‘the social-setup’s relative-ontological-incompleteness specific apriorising/axiomatising/referencing-{of-attendant–ontological-

coherent as to the discrepancy in the occurrence of specific sublimations and desublimations

desublimation of the nascent-particular/incipient-and-material/technical-sublimations—<blinded-
to-their-relative-ontological-completeness — reference-of-thought— devolving⟩. In this
regards, we can appreciate how the subsequent immaterial/social sublimation required for
prospective positivism/rational-empiricism came to be appreciated by such thinkers like the
Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated
with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective human aporeticism overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technically more efficient guns with gunpowder didn’t imply just killing animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking—apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness and the immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing—of—predicative-effectivity—sublimation—<as-to-underlying,—ontological-commitment—<implied—self-assuredness—ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being—as-of-existential-reality>’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains ‘the enlightenment struggle against feudalism and slavery as advocated say with such a thinker like Rousseau’ as to the fact that the technical and scientific progress as to relative-ontological-completeness
weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness\textsuperscript{6}–presublimation-construct–of–"meaningfulness-and-teleology\textsuperscript{8}\"value-construct and shallow-supererogating methodologising/mutualising/organising/institutionalising preconverging–"motif-and-apriorising/axiomatising/referencing–"imbuing"existentialising—enframing/imprintedness–\{as-to-history-tracing—"in-presencing—hyperrealisation/hyperreal-transposition\}, but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism—of-social-functioning-and-accordance\textsuperscript{8} driving the secondnatured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possibilities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{7}–by-reification/contemplative-distension immaterial/social sublimation considerations that rise to the aporeticism overcoming/unovercoming challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—"in-presencing—hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with "meaningfulness-and-teleology\textsuperscript{7}\" of our positivism–procrystalism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual–function/posture as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination\textsuperscript{7}\{so-construed-as-to-ontological-

Even in the purely intellectual sense, modern-day scientific advancements and achievements have correspondingly given rise to a

teleology can be understood in the sense that just as we can appreciate that if supposedly we are found in say an exclusively animistic social-setup with supposedly no possibility to rejoin a positivistic social-setup, while at the very least we appreciate that the material/technical capacity of a positivistic social-setup overall will enhance such an animistic social-setup as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation, the fact remains that our meaningfulness-and-teleology in the animistic social-setup requires at least a basic engagement tolerable to its meaningfulness-and-teleology before any pretense to a projection of positivistic meaningfulness-and-teleology (as can so be appreciated with the cultural diffusion encounters throughout human history). But then this equally points out that human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> is not inherently sublimation even as ‘human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> is as of a seemingly inseparable amalgamation with effectively-manifest-sublimation/sublime’ as to the fact that effectively-manifest-sublimation/sublime is as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^6\) as rather unbeholding to human-subpotency imbued human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> (even as when human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> in its sublimation-construct induces a convergence to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^6\) for effectively-manifest-sublimation/sublime with regards to such appropriately induced human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation>). Insightfully thus, all the inherent sublimation-structure that existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^6\) can reveal/divulge to human-subpotency is tautologically given as of inherent immanent-existence (as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal) but then the effective potentiality for human-subpotency grasp of immanent-existence’s sublimation-structure (reflected by effectively-manifest-sublimation/sublime) is tied to human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> capacity underlied by overall existential dimensionality-of-sublimating\(^5\)

In this respect, it is critical to understand what defines humanity as to the ‘firstnatureness and derived secondnaturedness positive-opportunism—of-social-functioning-and-accordance required for human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally—collateralising-beholdening-protohumanity’—to—‘attain-sublimating-humanity’—as—to—existence—potency —sublimating—nascence,—disclosed—from-prospective-epistemic-digression; as to the fact that all human sublimation is instigated as of re-originary—as—unenframed/unbeholdening/outlier-conceptualisation—\{imbued-postconverging/dialectical-thinking —‘projective-insights’/‘epistemic-projection-in-conflatedness’ —of—notional—deprocrypticism-prospective-sublimation\} before secondnaturing positive-opportunism—of-social-functioning-and-accordance institutionalisation, as so-reflecting Derridean messianicity wherein even when the messiah comes they still have to come (inevitably-so given prospective human notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> to whatever induced supererogation/messianicity of originariness-parrhesia,—as—spontaneity-of-aestheticisation so-associated with human dimensionality-of-desublimating-lack-of \{<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or—conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit—drivenness—equalisation\}). Teslas, Einsteins, etc. didn’t ask for any prior consent from the rest of the human species to 
undertake whatever sublimation they envisioned about humanity making nonsensical the idea 
that there is any ‘generalised human deterministically constraining contemplation of

This poor appreciation of technicity/profundity in the public arises as of a poor projection of existence’s sublimating–nascence to wrongly imply that the individual ‘is perfect as they are’ with supposed ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-by-institutional-by-social sovereign’s service’, and critically wrongly implying that knowledge as to organic-knowledge can be acquired without the requisite ‘epistemic-growth/disquiet/discomfort-{induced-sublimation,-as-from-existence’s—effusing/ecstatic-inlining-as- historiality-{science/authenticity/nonextrication}-beyond-mere-formulaicity-as-historicity-tracing-{science-ideology/fashionability/distraction}} as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension’ of the individual as to their ‘appropriate notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>’, while at the same time ‘a pseudo-contrition as to awareness of such relatively shallow technicity/profundity cultivated in such social-and-media spaces’ doesn’t deter such spaces (consciously or unconsciously) from surreptitiously acting as of profound technicity/profundity at critical moments of public discourses with the consequence that ‘there is an opaque connection/continuity between public, media and institutional discursivity with social and institutional outcomes as if these are discrete and unrelated activities’ (whereas the supposed relevance of discursivity has to do with how it allows for comprehensible public ‘epistemic-growth/disquiet/discomfort-{induced-sublimation,-as-from-existence’s—effusing/ecstatic-inlining-as- historiality-{science/authenticity/nonextrication}-beyond-mere-formulaicity-as-historicity-tracing-{science-ideology/fashionability/distraction}} as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension’ in effectively appreciating social and institutional
outcomes processes rather than individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction). The concrete and natural human psychological disposition with respect to knowledge as to organic-knowledge is in appreciating that for critical thinking even for the novice it is imperative to truly engage with the substance of the matter comprehensively-and-insightfully notwithstanding the level of exactifying comprehension (again whether as to direct knowledge acquisition or appropriate percolation-channelling-<in-deferential-formalisation-transference> enabling the sovereign-function/posture ontologising-aptness). The abstraction-of-thought/principled-thought articulated with subject-matters content is not done gratuitously as it is often popularly advanced especially with ‘ontologically-flawed frameworks of blurriness and ratings/sales immediate interests’ susceptible to normalised/stereotyped/selfhelping/feel-good construal of knowledge. Subject-matter abstraction-of-thought/principled-thought content are not so-produced gratuitously in the sense that this effectively speaks to: the requisite sophistication/complexity for ‘full incipient supererogating breadth of human intelligibility transmutation’ (as ‘<supererogatory–human-subpotency>–effecting imbued epistemic-totalising’ preformulating/preframing/premeaningfulness of notional~originariness-parrhesia,–as–spontaneity-of-aestheticisation’ before the incipience of metaphoricity and then as–meaningfulness-and-teleology as to existentialising–frame) ‘that then permits hermeneutically/reprojectively/supererogatingly/zeroingly human sublimating-accessing/sublimating-relating-to’ existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (noting here that what is key here is ‘the existence constrained educed sublimating’ however the technicity/profundity whereas an attitude of normalised/stereotyped/selfhelping/feel-good knowledge that ‘doesn’t align with the existence constrained educed sublimating’ is fundamentally besides the point however its ‘false convincing of the fellow human mortal approach’ so-reflected as to the deficient social
outcomes it is bound to be associated with’). Critically when push comes to shove, such blatantly flawed conception of true knowledge but socially accommodated as to ‘a social-functioning-and-accordance—as-of–social-stake-contention-or-confliction conception associated with immediate public ratings and/or sales/merchandising’ (over the ‘epistemic-growth/disquiet/discomfort-{induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as- historiality-{science/authenticity/nonextrication}-beyond-mere-formulaicity-as- historicity-tracing-{science-ideology/fashionability/distraction}} as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension’ implications of ‘constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ imbuing human ontological-commitment’ <implied—self-assuredness-of-ontological-good-faith/authenticity— postconverging—de-mentating/structuring/paradigming—as-being-as-of- existential-reality’) are found to be wanting in contrast with the true nature and existential sublimating/desublimating implications of professional/technical/scientific knowledge inherent subject-matter content as abstraction-of-thought/principled-thought (notwithstanding supposedly professional/technical/scientific auxiliary/substitutive practices of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-by-institutional-by-social sovereign’s service lacking in the underlying conception of epistemic-growth/disquiet/discomfort-{induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as- historiality-{science/authenticity/nonextrication}-beyond-mere-formulaicity-as- historicity-tracing-{science-ideology/fashionability/distraction}} as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension’ that are closely attached-and-driven directly or indirectly by public ratings and/or sales/merchandising with little consideration for veridical/optimal existential sublimating/desublimating implications, even as it is herein argued
professional/technical/scientific abstraction-of-thought/principled-thought content mustn’t necessarily generate less public interest but should primarily be motivated with inherent knowledge-reification–gesturing—prospective psychologismic–apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in–{preconverging-disentailment by] postconverging-entailment> sublimating–existentialising–decisionality implications). It is herein contended however counterintuitive that the idea of understanding 100% of knowledge content at one go (as commonly assumed and cultivated with such content driven by public ratings and/or sales/merchandising as to excessive simplification, distortion, superficiality, ephemerality and attention-grabbing undermining organic knowledge) is very much detrimental for a profoundly engaging and sublimating practice of public exposition to knowledge as so-inducing the degradation/banalisation of content in order to supposedly capture the most number of people at one go, and so it is herein argued very much contrary to the natural human potential for profound knowledge assimilation which is rather of hermeneutic/reprojecting/supererogating/zeroing potential. A lot of true learning, understanding and engagement (beyond attention-grabbing and simplification convenience) comes and expands hermeneutically/reprojectively/supererogatingly/zeroingly as to re-exposition to same and similar content for eliciting an active thought/contemplative engagement that is sufficiently challenging to people's true intellectual growth possibility as to creatively eliciting and developing true contemplative interest and not just passivity (however the habituation of a plainness that turns out to seem to be ‘the popular choice’ to which in reality all individuals can succumb to but which is as of their self-reflection actually subpotentiating with regards to the ‘broad existential panoply of human epistemic-growth/disquiet/discomfort–{induced–sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as- historiality–

Such an attitude of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-by-institutional-by-social sovereign’s service lacking in the underlying conception of epistemic-growth/disquiet/discomfort {induced-sublimation, as from—existence’s—effusing/ecstatic—inlining–as—historiality—{science/authenticity/nonextrication}-beyond-mere-formulaicity-as—historicity-tracing—{science-ideology/fashionability/distraction}} to the education of children and young people can be particularly detrimental to critical thinking (while cultivating ‘an elicited mere-formulaic—conformity/trending/voguing/fashionability/resonance relation to”’ meaningfulness-and-teleology’’) due to the overly denatured and insufficiently challenging—and—dependence-eliciting existentialising-frame of”’meaningfulness-and-teleology”’ (as to veridical hermeneutic/reprojecting/supererogating/zeroing re-exposition for eliciting active thought/contemplative engagement as of prospective epistemic-totalising”’~resubjecting or totalising-entailing–reconstrual of attendant–ontological-contiguity”’~educated–existentialising/contextualising/textualising-contiguity”’~in-elucidation-or-reification of knowledge content and generation of varying interests); and so in reflection of the fact that a lot of childhood and human developmental learning is rather ‘passive integration of schema of thinking/contemplation and engagement’ as more decisive than really ‘knowing and recalling
knowledge content’ (notwithstanding the inherently basic interrelatedness) with ‘passive integration of schema of thinking/contemplation and engagement’ critical for elaborating/framing meaning starting with the very incipient and appropriate jargon/language-conceptualisation for producing meaning (that is bound to align with constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^96\) and so rather than ‘an elicited mere-formulaic—conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology\(^99\)’ with a poor sense of the prospective attendant–ontological-contiguity\(^97\) educed–existentialising/contextualising/textualising-contiguity\(^97\) in-elucidation-or-reification of knowledge content as to epistemic-totalising\(^3\) resubjecting or totalising-entailing–reconstrual). In this regards, the sovereign–function/posture ontologising-aptness is truly realised as to a dynamic deferential-formalisation-transference relation with the genuine social intellectual–function/posture that is much more than a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the

But rather the sovereign–function/posture ontologising-aptness in many ways is in a protracted continuum with the genuine social intellectual–function/posture, so-implied as to ‘a totalitative construal of the genuine social intellectual–function/posture parallel intellectual contestation of aptitudinal-substantive-pertinence educing layers of deferential-formalisation-transference as of percolation-channelling-{in-deferential-formalisation-transference} enabling the sovereign–function/posture ontologising-aptness (as so-undergirded by ‘the overall underlying social-construct ontological-commitment’ <implied—self-assuredness-of-ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality> so-reflected as of social notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>”). sublimation/desublimation’ is critically inadequate for ‘neutral sovereign–function/posture upholding’ as so particularly elicited with distractive-alignment-to-‘reference-of-thought<of-apriorising/axiomatising/referencing>’ issues. The fundamental point here is that existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<as-to-perspective–ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’> makes nonsense of any such vague notion as ‘neutrality by the balancing of human-subpotencies’ so-reflective of ‘vested interests driven conception of balance as to discrete interests’ (rather than common/mutualising interest conception of balance rather requiring the cultivation of a veridical social exercise of notional–self-distantiation<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> as to implied social formativeness<as-to-interolsolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>-of—meaningfulness-and-teletology reflective of nonpresencing,<perspective–ontological-normalcy/postconvergence> epistemic-projection implications), with such ‘vested interests driven conception of balance as to discrete interests’ rather an exercise consciously or unconsciously of manifest ontological-bad-faith/inauthenticity in preconverging-existential-extrication-as-of-existential-unthought. Thus ontological-veracity (as to the pertinence of ‘overall social intellection-aptitude body’ as to its capacity for ‘neutral sovereign–function/posture upholding’) rather arises as of a ‘human knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism imbued theoretical/conceptual/operant implications detour to existence-potency<~sublimating–nascence,—disclosed–from-prospective-epistemic-digression’ in pointing out the prospect of sublimating/desublimating–existentialising–decisionality socio-econo-political outcomes and implications rather than the ‘passive deification of institutional process/processiveness as of mere-formulaicity<as-to-mere-formulaic—
methodologising/mutualising/organising/institutionalising>' (underlying why such a deficient social intellection posture will tend to be one step behind cumulating desublimating socio-econo-political outcomes as if it is most critically about reflecting upon such cumulating desublimating–existentialising–decisionality socio-econo-political outcomes rather than truly a posture of anticipative analysis and preemption). This mere process/processiveness induced deficiency is often critically reflected in a ‘barest and passive/poorly-reflexive conception of sovereignty in the democratic process’ that is poorly cognisant of the appropriate overall social enlightenment/knowledge imbuing oversight of the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) that is ‘much more than about leaving the room for competing/contending parties narrations/orientations/advocacies for socio-econo-political existentialising–decisionality but appraising-and-critiquing the effective coherence of such narrations/orientations/advocacies as to socio-econo-political outcomes expectations of the sovereign–function/posture’; so-underlying the more profound-supererogation notion of sovereignty associated with ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of veridical social knowledge percolation-channelling-<in-deferential-formalisation-transference>. The consequence of this mere process/processiveness induced deficiency is reflected in an entrenched dichotomy of the democratic process between the reality of recurrent narratives of disontologising socio-econo-political outcomes on the one hand and on the other hand a publicly cultivated <preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness– ⟨as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition⟩ political culture/discourse that by its self-drivenness/self-containment at critical moments of the

In this regards, it should be appreciated that as to notional~deprocrypticism reflecting holographically¬conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process‘such a deprocrypticism imaginary is claiming to be the very rule of human civilisation’ as to the fact that ‘there is no recurrent-utter-uninstitutionalisation basis for advancing prospective base-institutionalisation’, and ‘no base-institutionalisation basis for advancing prospective universalisation’, ‘no universalisation basis for advancing prospective positivism/rational-empiricism’ and prospectively ‘no positivism–procrypticism basis for advancing prospective deprocrypticism/nondisjointing’ but for ‘the inherent nonpresencing<perspective–ontological-normalcy/postconvergence> nature of existence’ instantiated hermeneutically/reprojectively/supererogatingly/zeroingly as to prospective human limited-

We can appreciate in this regards that the ‘sublimating–existential-decisionality potency of a scientist thought is not in-and-about themselves’ as so-manifested in a ‘normalised/stereotyped/selfhelping/feel-good conception of knowledge’ but rather ‘their inherent coherent knowledge formulation technicity/profundity and elucidating elaboration’ which then has to avoid explicited or implicited contradictions with regards to the knowledge technicity/profundity ‘enhancement of the overall social-setup self-reflexivity as of the breadth of socially cogent percolation-channelling—<in-deferential-formalisation-transference>

In other words, ‘existence imposes its sublimating rules to the human mortal subpotency’ as the very ‘fundamental meaning of science’ (notwithstanding vague human-subpotency self-important ‘methodologising/mutualising/organising/institutionalising’ anti-intellectual fooling-about and complotment); in a continual prospective relativistic process of human limited-mentation-capacity-deepening. In this respect, it is herein contended as of a most intimate appreciation that such anti-relativism stances which will imply no human progress occurs are ‘so moronic’ it is doubtful these are held out of true conviction (bad or good), but rather are ‘cynical and strategic anti-intellectualism stances hanging upon mere institutional imprimaturing (as overplaying the card of ‘minimum-and-balancing expectations/anticipations of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction’ as to the protection offered by sensibility/decorum of institutional imprimatur)’ in undermining the implications of prospective profound-supererogation-entailing-<amplituding/formative-epistemicity>totalising~in-relative-ontological-completeness as associated with social equality and anti-bigotry movements as to class, race, gender, etc. (and so-reflected by the fact that their proponents have ‘hardly been able to meet the academic standards of the arguments implied and projected by proponents of relativism’ and rather turning to surreptitious and media-driven strategies avoiding intellectual engagement in inducing social and institutional numbing-traction–of-desublimating–meaningfulness-and-teleology {as-perspective-lost-of-supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbued-postconverging/dialectical-thinking –of–notional–deprocripticism–{in-dimensionality-of-

Such ‘strategic and cynical institutionalised notional–pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation’ it is herein contended is much more potently effective in preconvergingly–de-mentating/structuring/paradigming social and institutional in-effect bigotedness (consciously or unconsciously) than the overt and superficial name-calling social manifestations conception of bigotry/prejudice/narrow-mindednes as to emotional distress; and so, as the deferential social and institutional interpretation of such in-effect bigotedness stances surreptitiously/underhandedly undermine the requisite social and institutional prospective human aporeticism overcoming/unovercoming as to profound supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness eliciting of human ‘epistemic-growth/disquiet/discomfort—(induced-sublimation,—as-from-existence’s—
