Such an incipient social conception and instigation of prospective genuine-knowledge as to its veridical existential veracity underscored the Socratic-philosophers and their successors development of philosophical schools propounding universalising-idealisation in sublimating self-assuredness-of-ontological-good-faith/authenticity—postconverging-de-mentating/structuring/paradigming—as-being-as-of-existential-reality subverting the Ancient-sophists ‘non-universalising sophistry ontological-bad-faith/inauthenticity—preconverging-de-mentating/structuring/paradigming ’, likewise budding-positivism movements with their correspondences and initiatives in sublimating self-

Thus the more centrally defining element of human angling-of-imaginary speaks to human capacity for contemplation of metaphysics-of-absence-⟨implicated-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩⟩ epistemic-projection which is in many ways elusive to psychical-nascency disposition. But then this is no more different for the implicit projective-insights approach to thinking pervading the natural sciences; as to a fundamental aptitudinal capacity to think in terms of perspectives (implicitly speaking to such notions like projections and fields of conceptualisation that do not absolutise our present conceptualising framework and actually factor in the limited-mentation-capacity as to apriorising/axiomatising/referencing to then project of the implications of human limited-mentation-capacity-deepening of apriorising/axiomatising/referencing). prospective knowledge generation is not associated with an absolutising conception of

notional—citationality as to when the ‘artifice of academic and institutional politics’ leads to a
conception of knowledge as of ‘an institutional and academic nombrilism of self-presence/self-constitutedness’ to which prospective human aporeticism overcoming/unovercoming is relatively irrelevant’ such that the construal of knowledge as to denoting/citation implications carries its very own ‘academic and institutional politics of knowledge’ undermining organic-knowledge notional-citationality (with notional-citationality so-implied in self-becoming/self-conflectedness /formative-supererogating-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,-in-perspective—ontological-normalcy/postconvergence> psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as to reference-of-thought postconverging—dementating/structuring/paradigming). It can be appreciated (as of an anthropological insight) that a positivistic/rational-empiricism mindset encounter with say an animistic social-setup cannot relate to the latter in ‘absolute terms of effectively demonstrable positivistic/rational-empiricism systematicity/entailment of sublimating’ (as it will so-relate to a fellow positivistic/rational-empiricism mindset) as this will induce excessive mental alienation to the ‘point of the positivistic-with-animistic mutualising mental shutdown’. But rather such a relation will be ‘within the scope of the animistic collective-social implications of human limited-mentation-capacity’ (or within the scope of the ‘debarking positivistic community and animistic social-setup shared/mutual collective-social implications of human limited-mentation-capacity’) to integrate prospective positivising ontologising-and-re-ontologising over the animistic social-setup prior non-positivising disontologising; as to the positivising mindset projection of ‘constraining existence—as-

that is rather decisive and indispensable to all ‘sublimating–nascence incipience/immediacy/directness’ as to their requisite ‘prospective reference-of-thought appraisal of sublimating–nascence comprehensiveness/nonimmediacy/indirectness’). Such an insight as to the supererogatory–wholesomeness/profound-supererogation of organic-knowledge for say present-day institutional-development–as-to-social-function-development can be garnered with the patent case of say knowledge for the management of a nuclear facility which is much more than its mere inherent processive technicalities (‘knowledge as a mere doable thing’) but equally with the technicity/profundity extending to the facility operators reflexive and contemplative appreciation of the dangerousness of nuclear materials and processes and ability to critically take appropriately conservative and cooperative or autonomous decisions to stave off any potential crises (with these associated elements including their mental/psychological suitability construed as the requisite epistemic-growth/disquiet/discomfort–induced-sublimation, as-from-existence’s—effusing/ecstatic–inlining—as–historiality–

7 tied to that knowledge and so within the framework of the facility thought-out/contemplated operational and designing conception integrative of such sublimating operation). This reality about the supererogatory–wholesomeness/profound-supererogation of organic-knowledge is relevant in all institutional domains as well but for when it comes to conveniencing, popularising, merchandising and media-ratings driven purposes which may be innocuous in other contexts but turn out to be particularly consequential when permeating and undermining the political process as to when human sovereign participation is in-effect construed as utterly dissociated with ontological-veracity; as to the fact that there can be ‘a thin-and-tenuous line between
ontological-good-faith/authenticity imbuing sublimation and ontological-bad-faith/inauthenticity imbuing gimmickiness/desublimation as to human aestheticisation—and—aestheticisation-towards-ontology, wherein apparently ‘gimmicky techniques’ are effectively sublimating as to their specific aestheticising/creative/artistic existentialising–frame but are rather desublimating when poorly aestheticised out of such specific aestheticising/creative/artistic existentialising–frame or when ‘circumstantially appreciatively aesthetically shallow/encumbering/vague/bland/incomplete/etc.’ or when poorly reflected in domains of aestheticisation-towards-ontology where profound ontological-pertinence is important (requiring in all such cases the appraisal of appropriate supererogatory—wholesomeness/profound-supererogation in postconverging—de-mentating/structuring/paradigming). This underlies the very ontological-normalcy/postconvergence epistemic-projection with regards to the conception of ‘ontological-good-faith/authenticity as to ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming’ wherein communication and marketing strategies in eliciting human interest as to ontologically relevant ways for instance associated with useful public information and promotion in health, business, etc. (construed as of ontological-good-faith/authenticity), when poorly and cynically projected as to subvert the requisite ontological-veracity and human epistemic-growth/disquiet/discomfort—{induced-sublimation,—as-from-existence’s—effusing/ecstatic—inlining—as—historiality—}

It can be appreciated in this regards as to the archetypal case of Galileo prosecution that in many ways the technical demonstrations with his telescope were more or less accommodable to his persocutors with
their grander issue being the implications of his interpretations on their overall nonpositivising/rational-empiricism conception of the world; and in many ways such an attitude is not exclusive to any one Age and society, and our very own positivism–procrysticism as to its occlusiveness is very much bound to turn a blind eye to its inconvenient truths as to prospectively requisite <amplituding/formative> disposedness/psychologismic-construct-{as-to-orientation/value-construct/valuation–and–derived-parameterising} and <amplituding/formative> entailment-{as-to-totalising-contiguous/coherent–factuality-of-variability}. as to when it claims to rather belonging to given societal and cultural traditions (rather than the
pertinence of claiming prospective sublimation short-and-simple); speaks of a ridiculous twist to the conception of knowledge as if there can be (as to the manifest sublimating–nascence incipience/immediacy/directness of the natural sciences) any given specific societal and cultural chemistry, biology, geology, etc. or is it the case that Einsteins physics applies only to his Germanic/Swiss tradition or Lavoisier chemistry applies only to his French tradition or Newtons physics applies only to his British tradition or Galileo’s physics applies only to his Italian tradition, etc.? In many ways such a surreptitious claim to veridical societal and cultural traditions that have to ‘supposedly be protected from prospective existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming’> speaks of a surreptitious self-anointedness that do not veridically reflect advantageously upon prospective individual, institutional and social emancipation/sublimation possibilities but rather speaks to an undercurrent of vague domineering that is not socially accounted (especially as can be reflected as from the ‘dragged-out nature or psychologismic–epistemic-acutisation<as-to-postconverging–dementating/structuring/paradigming,-eliciting-of-existence’s-sublimating-nascence-in-prospective-aporeticism-overcoming/unovercoming>’ of ‘prospective reference-of-thought appraisal of sublimating–nascence comprehensiveness/nonimmediacy/indirectness’) but for a mere sense of social ascendency which paradoxically leaves in its ‘non-ontologising/disontologising wake’ socio-econo-political crises and malaises to which the majority of the citizenry only come across in serenity as to their numbed/manipulatable/gullible underlying sense of common nation-belonging (and most critically manifests of a veridically suboptimal human-decisionality<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> capacity). In this regards, it is herein contended that veridical thought do not need any protection from itself with such covert/underhanded/minioning attitude
of non-ontologising/disontologising surreptitious knowledge-without-knowledge/knowledge-
outside-knowledge/extra-knowledge manifestation which is very much paradoxical as it is
rather more socially dangerous (as to when it implicitly posits to ‘covertly police’ right/sound
thought) in the sense that it is exactly the need for right/sound thought that can protect society
against unsound thought and there is no neutral/objective state of thought that knows of
unsound thought beforehand without the prior opened cultivation of right/sound thought (with
such non-ontologising/disontologising surreptitious knowledge-without-knowledge/knowledge-
outside-knowledge/extra-knowledge enculturation as to its ‘unevaluated/uncritical supposedly
right/sound thought’ thus leading rather to a collateralising mentality in the face of its
prospective desublimation and there is no telling to which extent prospective human
sublimating potential becomes shunted perpetually into this desublimating collateralising mode
and its collateralising dearth). The opened cultivation of right/sound thought is the appropriate

Thus the manifestation of ‘socially radiating sway of non-ontologising/disontologising surreptitious knowledge-without-knowledge/knowledge-outside-knowledge/extra-knowledge desublimation substituting over prospective veridical knowledge sublimation possibilities of social and institutional constructs as to prospective implicated_attendant—ontological-contiguity—educed—

In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing meaningfulness-and-teleology’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential
sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendency with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a de-mentative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value
This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein ‘the more
doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can dementatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to
thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of supererogatory–progressivity’ as so-associated with debt servitude and dementative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances
(especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow-suprerogation Economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation’ omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-
confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied notionally by a basic level of supererogatory—progressivity allow for the ‘delusion/sleight projected about a purist conception of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/vested-interest—drivenness—<as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness —social-vestedness/normativity—<discretely-implied-functionalism>). Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory—progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the modern-day statal conception of social supererogatory—progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory—progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory—progressivity as well as decolonised—capitalistic-by-statal supererogatory—progressivity so-construed as ‘anarchical individual and social supererogatory—progressivity’. Such a representation as herein articulated of the truer supererogatory—progressivity (however the ‘shallow-supererogation’ of supererogatory—progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to presencing—absolutising-identitive-constitutedness —social-vestedness/normativity—<discretely-implied-functionalism>). The relative veracity of supererogatory—progressivity is strongly seen with the state-driven Asian
and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is at least a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from a totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is preconvergingly–de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’.

Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that de-mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over ‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an

In other words, the notion of ‘the other’ as aetiology/ontological-escalation is much more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled
commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity for ontologically-veridical virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, a different interpretation can be made about the posture of a thinker like Heidegger during the troubled years of the 30s; as effectively, the implication of Heidegger’s analysis of the situation which he associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology—as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity points to ‘a conception emphasising ontology as defining virtue thus ultimately geared towards prospective notional-contiguity/epistemic-contiguity as of the need for prospective relative-ontological-completeness -of- reference-of-thought’, but failing not because of the said orientation but with regards to the wrong conclusion about Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology misunderstood as implying that it lies with a historical tradition like the Ancient Greece tradition or German Folk tradition rather than lying with an underlying transcendental universal notion construed as ‘going beyond them-and-us logic’ as of the implications of universal human emancipating potential of re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking ‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional–deprocripticism-prospective-sublimation), and this fundamentally scuppered his possibility of ‘attaining a conception of prospective notional-
contiguity/epistemic-contiguity<profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking-qualia-schema> as of the need for prospective relative-ontological-completeness<reference-of-thought>, rather than an 'ontologically-flawed idea implying a certain given historical tradition'. Likewise, but with regards to virtue analysts analyses that are naively articulated on the basis of the ontological-contiguity of our 'modern take attitude/mental-disposition/care–and–episteme' as of our amplituding/formative-epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness<reference-of-thought> leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the de-mentative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our 'modern take attitude/mental-disposition/care–and–episteme'; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity<profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking-qualia-schema> as of prospective relative-ontological-completeness<reference-of-thought>. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments. This existential reality about
<amplituding/formative–epistemicity>causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation—and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ~<as-to-perspective–ontological-normalcy/postconvergence- implied–prospective-aporeticism-overcoming/unovercoming> inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of 30s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care–and–episteme’ in ontological-contiguity as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness of reference-of-thought perspective construed-as reasoning-from-results/afterthought of modernity. Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notional-contiguity/epistemic-contiguity ~<profound-supererogation -of-mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema> as of prospective relative-ontological-completeness of reference-of-thought, as implicited with the case of Derrida’s spirit insight. Ultimately, the ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ should ontologically nurture the requisite psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective notional-
inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process⁴, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating⁶

incipiently/seedingly about dimensionality-of-sublimating
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’, and so just as searing with ‘de-mentative/structural/paradigmatic disseminative implications’ was the mathesis universalis metaphoricity extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective reference-of-thought de-mentation (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) implied as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporeticism overcoming/unovercoming (underlying that Descartes’ dimensionality-of-sublimating—(supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as—spontaneity-of-aestheticisation in then secondarily inducing his thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation). That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated
rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval-scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity implication that the natural can be thought of operationally and in sublimation on its own terms–as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and postconvergingly–de-mentating/structuring/paradigming the possibility of elucidation of any subject on this thinking educating sublimation basis’. In effect Descartes project is actually as to existence-potency ~sublimating–nascence, disclosed from prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing as of positivism/rational-empiricism, and so from the prior presencing—absolutising-identitive-constitutedness of non-positivism/medievalism. With both the budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme and postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, we may be forgiven to confuse-and-dismiss their schema as to-de-mentative/structural/paradigmatic—disseminative-implications as of prospective reasoning-through/messianic-reasoning as incoherent from a shallow-and-immediate
its-coherence/contiguity’ that comes out short and which ‘reinvigoration as of furthered ontological-faith-notion-or-ontological-fideism—imbed-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic asksesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ induces the successive prospective relative-ontological-completeness—of-reference-of-thought as to the ‘ontological-contiguity—of-the-human-institutionalisation-process’ as of ‘reference-of-thought différance/internal-dialectics/difference-deferral’. The appropriate contemplative perspective for the appreciation of their schema as-to-de-mentative/structural/paradigmatic—disseminative-implications is effectively crossgenerational as of the amplitude/breadth of reference-of-thought implied transcendence-and-sublimity/sublimation/supererogatory—dementativity; as we can effectively appreciate that the very mathesis universalis schema/disseminative metaphoricity engendering our positivism apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument attitude/mental-disposition/care—and—episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity—between—prior-shallow-supererogation—of-mentally—aestheticised—preconverging/dementing—qualia-schema_and_prospective-profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> analysis, implied as of prospective relative-ontological-completeness—of-reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness—of-reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising /circumscribing/delineating construct being the reference-of-thought. We can grasp that it is not existence and purviews/domains of existence
which will adjust to human-subpotency for ontologically-veridical meaningfulness-and-teleology but rather human-subpotency adjusting as to existence-potency ~sublimating-nascence,-disclosed-from-prospective-epistemic-digression; with such adjusting being construed as of prospective relative-ontological-completeness. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness -of- reference-of-thought/relative-ontological-completeness -of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification, implied as of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics) with regards to the reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In lieu the poor intuition is to imply that we are already well grounded and that prospective meaningfulness-and-teleology is an incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation to our already established psychoanalytic disposition rather than a maximalising-recomposing-for-relative-ontological-completeness —unenframed-conceptualisation in resetting-our-psychoanalytic-disposition/prospective-grounding as of amplituding/formative-epistemicity-totalising-renewing-realisation/re-perception/re-thought in apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity ~educed—existentialising/contextualising/textualising-contiguity }—conflatedness —in—preconverging-disentailment—by—postconverging-entailment, such that this leads to apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity ~educed—existentialising/contextualising/textualising-contiguity }—constitutedness —in—preconverging-entailment when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust to our human-
subpotency. Thus however counterintuitive, this overall conception structures the fact that it is as of de-mentation (supererogatory ontological de-mentation-or-dialectical de-mentation—stranding-or-attributive-dialectics) that our human amplituating/formative epistemicity totalising/circumscribing/delineating reference-of-thought is transcended for prospective relative-ontological-completeness-of reference-of-thought implied as of notional-discontiguity/epistemic-discontiguity —<between—prior-shallow-supererogation —of—mentally-aestheticised—preconverging/dementing —qualia-schema_and_prospective-profound-supererogation —of—mentally-aestheticised—postconverging/dialectical-thinking —qualia-schema>.

prospective institutionalisations’ reference-of-thought do not have their own attitude/mental-disposition/care–and–episteme as of their underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. This phenomenological insight in recognising that there is ‘an underlying metaphoricity-induced relative-emancipating migration’ from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism–procrypticism to the prospective postmodern man as of deprocrypticism, calls for a full appreciation of this most profound phenomenological transcendental process of corresponding ‘human attitude/mental-disposition/care–and–episteme migration’ inducing successive apriorisings/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human meaningfulness-and-teleology as of prospective relative-ontological-completeness reference-of-thought; and so, as of retrospective and prospective meaningfulness-and-teleology interpretation construed as historiality/ontological-eventfulness/ontological-aesthetic-tracing/perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism–determinism. Such a conception that goes beyond our natural inclination of ‘referring to’ and ‘adhocly-and-scantily’ identify other retrospective and prospective registry-worldviews/dimensions reference-of-thought apriorising/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme from our present attitude/mental-disposition/care–and–episteme, towards an ontologically-veridical transparent ‘to be or existing as wholly immersed-and-engrossed’ existential projection insight about all registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme is what underlies the protensive-consciousness of deprocrypticism, from which standpoint as of its ontological-completeness-of-reference-of-thought such an ontologically-veridical analysis of ‘human attitude/mental-disposition/care–and–episteme’ migration’ can be undertaken, for retrospective
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology; with the latter construed as postconverging-or-dialectical-thinking—apriorising-psychologism and the former construed as preconverging-or-dementing—apriorising-psychologism. Thus a registry-worldview/dimension institutionalisation reference-of-thought always operates as if it is the absolute framework of meaningfulness-and-teleology, that is, by its ‘interiorisation attitude/mental-disposition/care—and—episteme’, notwithstanding the ontological-veridicality of its prior relative-ontological-incompleteness—reference-of-thought at its uninstitutionalised-threshold, as reflected by the prospective registry-worldview/dimension institutionalisation reference-of-thought in an ‘exteriorisation attitude/mental-disposition/care—and—episteme’ towards it. Consider in this regard the ontologically-veridical reflected immersed-and-engrossed attitude/mental-disposition/care—and—episteme with respect to the ‘ill-health—amplituding/formative—epistemicity—totalising—devolved—purview/domain—of—construal—as—intrinsic—reality/ontological—veridicality/existential—reality’ wherein the ‘to be or existing as wholly immersed-and-engrossed’ recurrent-utter-uninstitutionalisation attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—lowest—level—reification perceptivity—as—of—bad—omen attitude/mental-disposition/care—and—episteme could involve a conversational stance of the sort, ‘I have been stricken by a spirit’, in an effusive-conversational-as—of—existential articulating of what can be done to allay such a spirit; or with respect to our positivism—procrypticism, in an effusive-conversational-as—of—existential articulating of a clinical analysis mainly as a patient ill-health state; or with respect to prospective postmodernism, in an effusive-conversational-as—of—existential articulating of associated socio-economic and socio-political factors behind a patient’s ill-health. Basically, ‘exteriorisation attitude/mental-disposition/care—and—episteme’, as relevant for the conception of a ‘postmodern exteriorisation attitude/mental-disposition/care—and—episteme’ relative to our modern take interiorisation attitude/mental-disposition/care—and—episteme’, as of

Thus singularisation-projected epistemic-immanence/veridical-epistemicity-relativism-determinism by its implied notional-conflatedness highlights that ‘axiomatic-constructs as of reasoning-through/messianic-reasoning. Thus singularisation-projected epistemic-immanence/veridical-epistemicity-relativism-determinism by its implied notional-conflatedness highlights that ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving’ in reflecting of ‘human-subpotency ontological-performance-correspondence with the full-potency of existence in its coherence/contiguity’ as of implied human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation, is effectively as of dissingularisation-projected epistemic-immanence/veridical-epistemicity-relativism-determinism to singularisation-projected epistemic-immanence/veridical-epistemicity-relativism-determinism. That is singularisation-projected epistemic-immanence/veridical-epistemicity-relativism-determinism points out that there is no inherent meaning of existence about existence as existence is tautologically what it is as existence, rather the notion of meaning arises as of the notion of human-subpotency strive to ‘grasp what is existence’, and that latter notion is all about human-subpotency ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving’ human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-

note for example that when equations didn’t work out in reflecting attendant–ontological-contiguity^67~educed–existentialising/contextualising/textualising-contiguity^40, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation—and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation~<as-to-perspective–ontological-normalcy/postconvergence-implied-prospective-aporeticism-overcoming/unovercoming> for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather the constraint for knowledge-reification–gesturing~<in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness ~in-{preconverging-disentailment–by}–postconverging-entailment> that determines science practice, and so in existential apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness ~in-{preconverging-disentailment–by}–postconverging-entailment. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as
science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) of the prior registry-worldview/dimension in usurpation’, which understanding is actually what empowers the possibility for prospective institutionalisations that supersede/transcend it. In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60–100 years of living perspective. That is, grounding of meaningfullness-and-teleology is certainly required, but as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it is not about grounding as of the present but rather as of psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective relative-ontological-completeness-of-reference-of-thought; and as highlighted elsewhere it is ontological-completeness-of-reference-of-thought (of human-subpotency as of its limited-mentation-capacity-deepening) that can imply human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence. meaningfulness-and-teleology is the fact that the human mind is not necessarily geared to come to terms with prospective relative-ontological-completeness reference-of-thought without the necessary psychoanalytic-unshackling/prospective-grounding/prospective-reification as of the developed disposition to register such implications as of their intemporal/longness-of-register-of meaningfulness-and-teleology pertinence; as the notion of crossgenerational de-mentation (supererogatory-ontological de-mentation-or-dialectical de-mentation—stranding-or-attributive-dialectics) herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendentally implying meaningfulness-and-teleology. A detailed examination of the text reveals that it contains complex philosophical ideas and arguments. The text discusses various concepts related to epistemology, relativism, determinism, and teleology, among others. It seems to be part of a larger work that explores the nature of knowledge and reality from a non-presencing, non-institutionalized perspective. The text is rich in technical terms and requires a deep understanding of philosophical discourse to fully appreciate its contents.
such a prior registry-worldview/dimension denaturing \textsuperscript{16} \textsuperscript{27} meaningfulness-and-teleology\textsuperscript{29}, and implying effectively that they are of lesser intellectual-and-moral dialogical-equivalence-as-to-psychologismic-apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity }-educed–existentialising/contextualising/textualising-contiguity }-conflatedness \textsuperscript{13} in \{preconverging-disentailment by\}–postconverging-entailment,-in-self-becoming/self-conflatedness /formative–supererogating\textsuperscript{2}. This further explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the \textsuperscript{56} meaningfulness-and-teleology \textsuperscript{99} that there is and can exist is ontological as of prospective relative-ontological-completeness\textsuperscript{87}, such that any such implied meaning is only ontologically intelligible with its reification as of prospective relative-ontological-completeness \textsuperscript{83}-of-\textsuperscript{83} reference-of-thought, as so implied from singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing as projected epistemic-immanence/veridical-epistemicity-relativism-determinism as the reflection of ontologically-veridical \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{99}. This points out that as of its very own <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34}, a registry-worldview/dimension \textsuperscript{8} reference-of-thought is not the ontologically-veridical point of conceptualisation of intemporal value reference, which is rather as of prospective relative-ontological-completeness -of- reference-of-thought reification of \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{99}, as we can appreciate with regards to all prior institutionalisations but will certainly be complexified/inhibited to construe the same as of our positivism–procrypticism as from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{99} as of prospective deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought prospective relative-ontological-completeness\textsuperscript{83} perspective. The fact is no registry-worldview/dimension as
existentialising/contextualising/textualising-contiguity. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating.\[\text{\langle amplituding/formative\rangle supererogatory-de-mentativeness/epistemic-growth-or-conflatedness }\text{/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\] inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness–of–reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipating vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care–and–episteme conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness–of–reference-of-thought; and in due course, by its \text{\langle amplituding/formative-epistemicity\rangle causality }\text{\textit{as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating–ontological-contiguity}\] constraining it crossgenerationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary-as-
potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness reference-of-thought with the latter’s <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity constraint as of <amplituding/formative–epistemicity>causality as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness reference-of-thought naïve non-transcendental <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘preconverging-existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of “meaningfulness-and-teleology”’. The intemporal
‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiological/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing mortals that we are for our prospective emancipation. Without an insight about reification and dereification, the notion of singularisation-projected epistemic-immanence/veridical-epistemicity-relativism-determinism as it reflects ontological-completeness-of-reference-of-thought for ontologically-veridical meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance-including-virtue-as-ontology> of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology reflecting dereified and reified construals of attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogue-equivalence psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity}

Insightfully, this author further addresses the

construed as ‘transcendental human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing’ that reflects ‘modern suprastructuralism’; just as a ‘postmodern suprastructuralism’ reflects notional-deprocripticism as of its preempting—disjointedness-as-of reference-of-thought over our positivism—procripticism disjointedness-as-of reference-of-thought. This insight about the need for prospective notional-contiguity/epistemic-contiguity profound-supererogation-of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema underlies a postmodern understanding, as it is herein contended, that it is by the exercise of prospective relative-ontological-completeness reference-of-thought as of human limited-mentation-capacity-deepening as of the need for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocripticism—or—preempting—disjointedness-as-of reference-of-thought and so over our positivism—procripticism temporal-to-intemporal mental-dispositions ‘mutual cognisance and integrativeness of procripticism—or—disjointedness-as-of reference-of-thought beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought’, that we provide the ontologically-veridical aetiologisation or ontological-esclation resolving the vices-and-impediments of our ‘so-prospectively deprocripticism-construed’ procripticism—or—disjointedness-as-of reference-of-thought as of its underlying totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and so beyond just our ad-hoc palliative construals of virtue. Basically when post-structuralists speak of ‘the other’ this translates into aetiologisation/ontological-escalation as of ‘universal projection implications attitude/mental-disposition/care—and—episteme event—-or-operant implications to all and sundry’ as implied in the above analysis, as postmodern-thought portends to be non-ideology-

However, approbating we may be predisposed to such palliative virtue constructs as of lack of dispensing-with-immediacy-for-relative-ontological-completeness<by-reification/contemplative-distension>, the fact is these are not really the underlying drivers for virtue transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and are peripheral to more ontologically profound theorised-or-untheorised emancipating events<driving virtue transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness<of>reference-of-thought, notwithstanding our state of beyond-the-consciousness-awareness-teleology<–in-preconverging–existential-extrication-as-of– existential-unthought>. The fact is from an ontological standpoint, we inherently are no more virtuously exceptional even with regards to the earliest of humans, and so as of the very same species potency, and thus we can’t ascribed inherent virtuous superiority by the mere token of our own practice. Rather the exceptionality behind human virtuous potential lies ontologically
Inevitably any such virtue construct is transcendental as meaning ‘going beyond oneself’; and so with regards to any prospective institutionalisation relative to the uninstitutionalised-threshold. Thus the ‘field of conception’/notional–conception/notion of virtue-as-ontology covers way more than its articulation within a same registry-worldview’s/dimension’s

On the contrary it is apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity \sim\text{educted}\}

that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening\textsuperscript{3} implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional\sim\text{conflatedness}\textsuperscript{1}\textsuperscript{1} of notional\sim\text{deprocrypticism}. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception of human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-

tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests in terms–as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care–and–episteme as of its prior relative-ontological-incompleteness of reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-
gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness of reference-of-thought/ontological-normaley/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipating virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfulness-and-teleology as of any specific human society relative-ontological-incompleteness of reference-of-thought as fundamentally denaturing, and likely to induce transversality—sublimating—existential-eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing—dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency—totalising-entailing—as-to-entailing—amplituding/formative—epistemicity—totalising—in-relative-ontological-completeness. Ultimately, such a double-gesturing hold out the possibility in reflecting holographically—conjugatively-and-transfusively—the ontological-contiguity of the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empricism attitude/mental-disposition/care—and—episteme, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a
universal positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\(^5\) in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency\(^5\)-\{transparency\-of-totalising-entailing, as-to-entailing\-\langle amplituding/formative–epistemicity\rangle totalising–in-\langle relative-ontological-completeness \rangle\}. Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation\-\langle as-to-the-nondisjointedness/entailment-of-prospective-\langle nonpresencing\rangle \rangle that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care–and–episteme\(^5\). Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold\(^2\)–reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\)–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^9\) as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity \langle between—prior-shallow-supererogation -of-mentally-aestheticised—preconverging/dementing –qualia-schema_and_prospective-profound-supererogation –of-mentally-aestheticised—postconverging/dialectical-thinking –qualia-schema\rangle. In other words, the
organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘universal projection implications attitude/mental-disposition/care–and–episteme event -or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking –‘projective-insights’/’epistemic-projection-in-conflatedness ‘-of-notional–deprocrypticism-prospective-sublimation) creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to
all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification–gesturing–

Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/supererogatory~de-mentativity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-
of—meaningfulness-and-teleology \textsuperscript{9} individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by amplituding-formative—epistemicity—causality ~as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating—ontological-contiguity tendential validation as to existence-potency \textsuperscript{79}—sublimating—nascence, disclosed-from-prospective-epistemic-digression. Such a construal of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our \textsuperscript{9} neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening \textsuperscript{3} analysis; and insightfully, as reflected in the underlying apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity ~educed—existentialising/contextualising/textualising-contiguity }—conflatedness —in {preconverging—disentailment—by}—postconverging—entailment of accreting—substitutive-subsumption—as-futural—différance—freplay\textsuperscript{9}, sublimation is achieved rather out of the notional obviating of human temporal—as-non-ontological \textsuperscript{5} neuterising with deneuterising\textsuperscript{12}—referentialism and with correspondent intemporal—as-ontological rearticulation/reconstrual of \textsuperscript{5} meaningfulness-and-teleology \textsuperscript{0} as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional—deprocrypticism perspective/framing/reference/horizon/projection. Similarly, this author’s articulation of futural—différance as of transcendence—and-sublimity/sublimation/supererogatory—de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futural différance that coincides—and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both
cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/superrogatory-de-mentativity is as of an ‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freplay différance, as a putting into question exercise, and subject to \(<amplituding/formative-epistemicity>\) causality \(~as-to-projective-totalitative-implications-of-prospective-\) nonpresencing, for explicating ontological-contiguity validation before attaining defining-transcendence and defining-sublimity’; and différance as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual-patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency~sublimating–nascence,~disclosed-from-prospective-epistemic-digression so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting–conviction-as-to-profound-
supererogation —of- ‘attendant-intradimensional’ -postconverging/dialectical-thinking —apriorising-psychologism deference to the prescience of existence-potency ~sublimating—nascence,—disclosed-from-prospective-epistemic-digression over any human-as-mortal framing of meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the postconverging—de-mentating/structuring/paradigming of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness—of—reference-of-thought over human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness—of—reference-of-thought, and so by maximaliing-recomposuring <amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential postconverging—de-mentating/structuring/paradigming of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation—ununiversalisation, universalisation—non-positivism/medievalism, and positivism—procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality—as-of-neuterisation/relative-ontological-incompleteness/proconverging—existential—extrication—as-of-existential-unthought. In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension reference-of-thought in prospective relative-ontological-completeness —of-axiomatic-construct-or—reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension reference-of-thought in prior relative-ontological-incompleteness, even if it such a mental-disposition could lead to such an outcome as in H.G.
Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that
the possibilities of such outcomes arise out of establishment Charlatanism, which knows better,
but exploits lack of ‘social universal-transparency—(transparency-of-totalising-entailing, as-to-entailing—⟨amplituding/formative–epistemicity⟩totalising—in-relative-ontological-completeness⟩’. But then it is actually a sign of ‘propounded theoretical health and pertinence’
when all such Establishment charlatanism comes to dodge such substantive-and-frontal
articulation of prospective knowledge, and in lieu come up with worn out refrains and
sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-
being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central
tenet has always been about theoretical disputative engagement and not acts of escapism and
downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’.
Thus by its prospective relative-ontological-completeness—of-axiomatic-construct-or-
reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-
différance-freeplay comes into terms with both presencing—absolutising-identitive-
constitutedness and nonpresencing—⟨perspective–ontological-normalcy/postconvergence⟩
on the basis of the prospective relative-ontological-completeness/ontological-contiguity of the latter over the prior relative-ontological-incompleteness of notional-
discontiguity/epistemic-discontiguity—⟨between—prior-shallow-supererogation—of-mentally-

schema⟩ of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-
veridicality, as to ‘human —⟨amplituding/formative–epistemicity⟩totalising—purview-of-
construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-
aposteriorising-or-logicising but rather difference-in-nature/difference-in-apriorising-or-
axiomatising-or-referencing between presencing—absolutising-identitive-constitutedness
and nonpresencing.<perspective–ontological-normalcy/postconvergence>. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon/projection as of prospective relative-ontological-completeness notional-contiguity/epistemic-contiguity’ construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology grounded on such a developed consciousness perspective/framing/reference/horizon/projection. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon/projection as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation meaningfulness-and-teleology without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon/projection as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon/projection’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon/projection as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon/projection’ to grasp positivistic meaningfulness-and-teleology without first developing a ‘positivistic mindset perspective/framing/reference/horizon/projection as of occlusive-consciousness
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon/projection’ to grasp notional–deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘notional–deprocrypticism mindset perspective/framing/reference/horizon/projection as of protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness-of-reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social universal-transparency\(^{10}\) (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness)’ such charlatanism is exposed for what it really is, explaining the paniciness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness development is the notion of \(^{15}\) de-mentation–(supererogatory–ontological-de-mentation-or-
dialectical–de-mentation—stranding-or-attributive-dialectics) which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing /ontological-discontinuity, underscore at once ‘both as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring》<as-to-postconverging-or-dialectical-thinking —apriorising—

meaningfulness-and-teleology should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising’, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing as of prospective relative-ontological-completeness-of-reference-of-thought bringing about transcendence-and-sublimity/sublimation/superrogatory-de-mentativity as of nonpresencing-<perspective-ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness and prospective relative-ontological-completeness, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ but rather a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ of the new physics as the new presencing; brought about from the transcendence-and-
notion of metaphoricity is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity as such simply refers to signification adjunctiveness to ‘underlying totalising/circumscribing/delineating signifying-construct of language’ as of both the ‘meaningfulness-and-teleology’ implications to the so-renewed ‘underlying totalising/circumscribing/delineating signifying-construct of language’. Metaphoricity is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing meaningfulness-and-teleology as an epistemic-totalising/circular construal’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-mentation-capacity as of growing certitude from the opening up of nonpresencing-perspective-ontological-normalcy/postconvergence by human re-projection/re-anticipation ultimately validated by existence/ontology’s-directedness-as-Being causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity. Further, metaphoricity as such speaks of the evasiveness of all human meaningfulness-and-teleology at uninstitutionalised-threshold as recurrently pointed out herein as of token threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism> possibilities relation to reference-of-thought–categorical-
depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology of prospective notional—deprocriptism institutionalisation implications representation, and so beyond just our natural inclination for Galileo could well have possibly recasted his implied positivism in scholasticism—mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing—or—withdrawal—or—metaphysics-of-absence—(implicated—epistemic-veracity-of—nonpresencing—<perspective—ontological-normalcy/postconvergence>—or—transcendental-reasoning-of-event—as—prospective-ontology-origination perspective/framing/reference/horizon/projection of positivism we entertain today. Likewise, as of such metaphoricity episteme, the herein implied as of its essence cannot do without this hermeneutic/reprojecting/supererogating/zeroing circle phenomenological ontology elucidation as of its psychoanalytic-unshackling apriorising/ axiomatising/referencing—{of—attendant—ontological-contiguity ~educed—existentialising/contextualising/textualising—contiguity }—conflatedness in {preconverging—disentailment by} postconverging—entailment; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting—substitutive-subsumption—as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon/projection and then contention/argumentation within such articulated perspective/framing/reference/horizon/projection, as so implied by postmodern-thought
together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon/projection for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity\(^6\). As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\(^{101}\) cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a
long way to ‘open-up’/‘throw-up’/‘reveal’ new and coherent thought possibilities as of its
grander and overall conception and spirit. Interestingly, what is central about the ontological-
bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-
insight about all these underlying elements of postmodern-thought construction: as failing to
grasp/recognise the implied double-gesture reification as of its transcendental-
enabling/sublimating/supererogatory de-mentativity implications, and by not appreciating due to
‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon/projection before contention/argumentation as of any
given perspective/framing/reference/horizon/projection, thus implying ‘poor critical judgment’.

With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-
thought as of an uninsightful literal and shallow-minded/banal/flimsy reading; and with the
ultimate outcome that all such naïve uninsightful literal and shallow-minded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct,
and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t
engage the intellectual credibility of the critique, a notion that is especially abused within a
media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-
thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-
transference as of institutional percolation-channelling-&lt;in-deferential-formalisation-
transference&gt; are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of

that as of the history of such critiques it will be naïve not to factor in the reality of ontological-
bad-faith/inauthenticity\textsuperscript{4} and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance peddled about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-bad-faith/inauthenticity\textsuperscript{4} critiques, as de-mentatively/structurally/paradigmatically that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-ontological-completeness\textsuperscript{8}—reference-of-thought-postconverging-or-dialectical-thinking\textsuperscript{9}—apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-ontological-incompleteness\textsuperscript{8}—reference-of-thought-preconverging-or-dementing\textsuperscript{9}—apriorising-psychologism. As ultimately, it is the prospective relative-ontological-completeness\textsuperscript{87-of-reference-of-thought} pursued by the former that supersedes and dissolves human vices-and-impediments\textsuperscript{105} as of prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory–de-mentativity reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity\textsuperscript{64} can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon/projection of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency\textsuperscript{104}–\{transparency-of-totalising-entailing, as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\}' with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic
disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity intellectuals with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive wooden-language imbued averaging-of-thought as-to-leveling/ressentiment/closed-construct-of meaningfulness-and-teleology as-of ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications ‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity intellectuals is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence-in-dimensionality-of-desublimating-lack-of-supererogatory-dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional–knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-
ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, and intellectuals’ choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>} will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness -of-axiomatic-construct-or-reference-of-thought over a <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought ‘as of the prospective relative-ontological-completeness -of-axiomatic-construct-or-reference-of-thought of a better knowledge perspective/ reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness with regards to reference-of-thought and its derived ‘meaningfulness-and-teleology, with the implication that we need to a prospective relative-ontological-
completeness-of-reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of "meaningfulness-and-teleology". In other words, all concepts, notions as of ontologically-veridical "meaningfulness-and-teleology", are made to have their internal-dialectics/différance as of nonpresencing-<perspective-ontological-normalcy/postconvergence> for their sublimation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into more profound and more complete "meaningfulness-and-teleology". For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical "meaningfulness-and-teleology" comes down to the capacity of arriving at the very essence of "meaningfulness-and-teleology" while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity; is the enabling approach for human ontological-reconstituting–as-to-conflatedness as of aetiologisation/ontological-escalation.
Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating-

conceptualisation) to ensure that we go about deriving ontologically-veridical
meaningfulness-and-teleology in relative-ontological-completeness. This is in reality the
ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-
speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this
is reflected in the very initiation of the postmodern postconverging–de-
mentating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the
latter construed by this author as ‘not founded-on-and-constrained-by ontological-
veridicality/intrinsic-reality as of <amplituding/formative–epistemicity>causality –as-to-
projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-
ontological-contiguity’, but rather dialectical discretion, imagination and speculation ‘as to
lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity’ as
herein implied by this author with ‘the ontological-contiguity—of-the-human-
institutionalisation-process congruent,-cogent-and-operant entailing framework of
ontological-contiguity’. Anecdotally, the shallow-mindedness of a ‘modern take’ in failing to
recognise the postmodern double-gesture reification will simply consider the blind men
reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’
without factoring in the underlying double-gesture reification for perspective and insight, given
the problematic of human limited-mentation-capacity that itself needs to be factored in and thus
actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity—aetiology—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sUBLIMITY/sublimation/supREROGATORY-de-mentativity is behind the respective registry-worldviews/dimensions as of their given reference-of-thought specific neuterising as well as the ultimate deneuterising—referentialism of deprocrypticism. But then ontological-bad-faith/inauthenticity is equally elicited by ‘lack of social universal-transparency’ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ arises for instance in the sense that however ‘wishful’ the causality—as-to-projective-totalitative-implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity transcendental-possibilities/potential as of knowledge-constructs/theories/interolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct

critically to intellectually decadent institutional dispositions and practices where imprimatur
and the dynamics of imprimatur by themselves are increasingly construed as of more critical
epistemic pertinence for knowledge constructions undermining the possibilities of
breakthroughs given that the primacy of intellectualism as of the pertinence of intellectual
arguments increasingly takes a back seat, with intellectual postures increasingly defended with
non-intellectualism obsession of ideologies of schools-of-thought as of institutional-being-and-
craft. This manifests itself in the form of many an intellectual increasing disposition ‘to
misunderstand’ others works, as there are little common stakes for breakthroughs but rather the
stakes are increasingly of institutions academic visibility and tenure with emphasis on likeminded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance; with a resultant sense of socioeconomic and socio-political impotence as such blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and preconverging-de-mentating/structuring/paradigmning of academic institutional setups into increasingly into notional-pedantising/muddling/formulaic-hollowing-out—insubontologisation/subpotentiation—blurring/undermining-of-prospective-totalising-entailing, as-to-entailing,<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness are not dissociated from the effective possibility for transcendental-enabling/sublimating/supererogatory-de-mentativity, especially as such breakthroughs require the spontaneity of Dionysian arrangements. This author’s construes of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigmning—of-meaningfulness’ conceptualisation as of ontological-escalation or aetiologisation, with respect to our present positivism—procrypticism disjointedness-as-of-reference-of-thought, as the more fundamental transcendental issue for prospective causality—as-to-projective-totalitative-implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity transcendental-possibilities/potential beyond self-referencing-syncretism and circular palliative knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue with regards to attending to the inherent deficient uninstitutionalised-threshold of knowledge-construct possibilities and vices-and-impediments imbued in our positivism—procrypticism disjointedness-as-of-reference-of-

Thus by its deneuterising—referentialism construed as of ‘historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism’>, notional-deprocrypticism enables a fundamental ontology-driven ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’, and so superseding a naïve metaphysics-of-presence implicited—nondescript/ignorable—void—as-to-presencing—absolutising-identitive-constitutedness affect-driven mented or stigmatic psychology rather as of a shallow perspective and vaguely articulated as of universal import. The idea here with regards to human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, is that from a creative perspective: the notion of a given neutering is equinominal/equivalent with a given presencing—absolutising-identitive-constitutedness, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this neutering that human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is achieved from the prospective notional—conflatedness of notional—deprocrypticism and so by deneuterising—referentialism, which is equinominal/equivalent to nonpresencing<perspective—ontological-normalcy/postconvergence>. In other words the historial implications of human limited-

Consider a metaphysics-of-absence(elucidation with regards to say a remote/isolated non-positivistic animist/base-institutionalisation society for instance which by some token has sustainable-and-learned access to basic but greatly enhancing productive techniques from travellers of a positivistic culture but without a substantial corresponding organisational and institutional diffusion associated with such greatly enhancing productive techniques due to the very brief nature of the encounter or disconnected/incoherent/perfunctory/chaotic nature of their relations, this will de-mentatively/structurally/paradigmatically have degenerative effect on such an animistic social organisation wherein this isn’t enhancing of the society’s social organisation and relations and will be possibly disruptive. This example isn’t that farfetched as anthropological evidence of such cases abounds with many native societies so disrupted by culturally alienating positivistic material diffusion. Human material/technical development and corresponding mentality as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—are inextricable and critical in reflecting holographically—of-the-human-institutionalisation-process including our positivism–procypticism registry-worldview/dimension. This explains the peculiar mimetised-preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology we’ll construe for instance of a non-positivism/medievalism mindset/\textsuperscript{83} \textsuperscript{99} reference-of-thought that doesn’t register positivistic meaningfulness \textsuperscript{99} reference-of-thought and likewise prospectively such a construal will have our present placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{99} as of priorly unsoundness-or-ontological-bad-faith/inauthenticity \textsuperscript{83}–of reference-of-thought/preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism by its positivism–procrypticism \textsuperscript{83} reference-of-thought. Just as the very nature of existential-reality by our limited-mentation-capacity-deepening\textsuperscript{53} construal/conceptualisation of it is rather ‘an uncompromising windedness/foldedness susceptible to our limited-mentation-capacity-deepening \textsuperscript{53} virtuality-or-ontologically-flawed-construal as decontextualising/unimbricating/unrecomposuring of its inherent nature’, correspondingly the exercise of ontologically-veridical reasoning is rather \textsuperscript{55} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{99}—unenframed-conceptualisation.

Correspondingly, from the vantage position of our present positivising/rational-empirical ontological-completeness-of reference-of-thought with respect to a non-positivism/medievalism worldview, we can garner an insight of the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-suprerogation\textsuperscript{83}–as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing \textsuperscript{20}–apriorising-psychologism of the postlogism -and-conjugated-postlogism\textsuperscript{77} in a non-positivism/medievalism setup, wherein faced with arguments of the sort who is the sorcerer,
nonconviction/madeupness/bottomlining-in-shallow-supererogation with regards to the limits of a registry-worldview’s/dimension’s institutionalisation (whether base-institutionalisation, universalisation and positivism eliciting respectively the uninstitutionalised-threshold of ununiversalisation, non-positivism/medievalism and procrypticism) across all the ontological-contiguity—of-the-human-institutionalisation-process wherein the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought in its (as metaphysics-of-presence){ implicited׳ nondescript/ignorable–void ’ as-to-presencing—absolutising-identitive-constitutedness }: illusion-of-the-present/present-consciousness/mirage) is representing itself as ‘postconverging-or-dialectical-thinking –apriorising-psychologism and dialectically/contendingly in-phase’ whereas from the prospective institutionalisation registry-worldview’s/dimension’s reference-of-thought, as of the ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective, it is ‘preconverging-or-dementing –apriorising-psychologism and dialectically/contendingly out-of-phase’. The reason for the ontologically defective (as amplituding/formative–epistemicity) totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is that all registry-worldviews/dimensions reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/supererogatory—de-mentativity)’ in their conventioning, and thus to the exclusion of prospective ontological profoundness of reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been wooden-language (imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of’nondescript/ignorable–void ’—with-regards-to—

prospective-apriorising-implications). However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening expansion of ontological-depth as increasing ontological-completeness-of-reference-of-thought (or reducing relative-ontological-incompleteness-induced,’threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation ’<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism’). Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to ‘meaningfulness-and-teleology’ whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding meaningfulness-and-teleology. A further example will be say ‘the God-of-plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ (its metaphysics-of-presence{(implicit‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness )}) and goes on articulating ‘meaningfulness-and-teleology’ even in the new existential transcendental/superseding contextualisation in terms–as-of-axiomatic-construct of the doubly-prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension. Given such a state of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, the notion of generating ‘meaningfulness-and-teleology’ from the ontological-normalcy/postconvergence epistemic-

Equally we can imagine that making a positivistic argument in the midst of a non-positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental
orientation will be geared to their traditional sense of meaning and living as absolutely defining, but then the ‘center’ had moved from their world (from non-positivistic as base-institutionalisation/animistic or medieval preconverging-or-dementing—apriorising-psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking—apriorising-psychologism center). Likewise such a suprastructural articulation of our positivism–procrypticism relationship to its postlogism that includes psychopathy and social psychopathy will apparently not make any sense to our present but then ontologically our present is now decentered as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing—apriorising-psychologism, though our mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-dementing—apriorising-psychologism as well. However, to the extent that it is ‘not such \textit{amplitudine/formative–epistemicity}\textit{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} temporal/shortness-of-register-of–meaningfulness-and-teleology inclinations’ that drove human registry-worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-threshold from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to universalisation–non-positivism/medievalism to positivism–procrypticism (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of–meaningfulness-and-teleology) extrication in any registry-worldview/dimension with no upholding of transcendental possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over human temporal complexes (and such a ‘transversality–for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and–
apriorising/axiomatising/referencing’ confliction’ resolved intemporally by prospective- nonpresencing,-for-explicating-ontological-contiguity and secondnaturing. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a prior/transcended/superseded reference-of-thought and a prospective/transcending/superseding reference-of-thought; given the blunt fact that ‘there is no untransvaluated–temporal-intemporality’ and pretences of inevitability of human progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-of-register-of–meaningfulness-and-teleology distraction’ with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of–meaningfulness-and-teleology projections.). Critically, the notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and transcendental-enabling/sublimating/supererogatory–de-mentativity associated with intemporality/longness and institutionalisation/intemporalisation as of its very defining core is rather one of <amplituding/formative–epistemicity>causality <as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity as it propounds the supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that <amplituding/formative–epistemicity>causality <as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied when conceptualising that empirical “meaningfulness-and-teleology” is the sole purview of the rational-empiricism/positivism registry-worldview/dimension failing to recognised that all other registry-worldviews/dimensions are actually empirical but differ as to
interpretation of empirical perception whether as to a magical, cultic or other non-positivising interpretation of empirical manifestation) but speaks of ‘the central human epistemic-totalising ~resubjecting or totalising-entailing~reconstrual heuristic drive’ defining as to preconverging/postconverging–de-mentating/structuring/paradigmizing meaningfulness-and-teleology the <cumulating/recomposuring–attendant-ontological-contiguity >succession of registry-worldviews/dimensions (however sublimatingly inefficient in relative-ontological-incompleteness and sublimatingly efficient in relative-ontological-completeness as from ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection); given that with corresponding shallow to limited-mentation-capacity-deepening”, as institutionalising <amplituding/formative–epistemicity> causality as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression. Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as <amplituding/formative–epistemicity> causality as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity of ‘meaningfulness-and-teleology’ going by their given limited-mentation-capacity. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and transcendental-enabling/sublimating/supererogatory–de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-mentation-capacity-deepening’ implies more and more profound
reconstruals/reconceptualisations (<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought) inducing transformative implications with respect to meaningfulness-and-teleology as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogising speaking thus of human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing–as-to-possibilities-of-self-becoming-as-of-'existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence. As knowledge conception as contrasted to sovereign conception, 'transcendence and transcendental-enabling/sublimating/supererogatory–de-mentativity doesn’t recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about 9.8 m/s² on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory–de-mentativity), with respect to transcendental-enabling/sublimating/supererogatory–de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices of meaningfulness-and-teleology as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-veridicality of the meaningfulness-and-teleology itself’ but ‘rather as of the veracity/ontological-pertinence
of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition’, and so with respect to historiality/ontological-eventfulness/ontological-aesthetic-tracing/perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating/supererogatory–de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality–ontological-coherence_or_superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology inorder-converging-existential-extrication-as-of-existential-unthought to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory–de-mentativity) to prospective transcendence-and-sublimity/sublimation/supererogatory–de-

The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in \langle amplituding/formative—epistemicity\rangle totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in \langle amplituding/formative—epistemicity\rangle totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in \langle amplituding/formative—

This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the amplituding/formative-epistemicity totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^3\) of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology\(^9\) ontological-performance\(^7\)-<including-virtue-as-ontology>, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. as-ontology>, with regards to its capacity of appreciating prospective relatively profound pure-ontology as herein implied that de-mentatively/structurally/paradigmatically supposedly supersedes our positivism–procripticism registry-worldview’s/dimension’s institutionalisation reference-of-thought. This explains why fundamentally most human transcendental ideas of progress have been re-originary–as-unenframed/unbeholdening/outlier-conceptualisation (imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-inconflatedness ‘of-notional–procripticism-prospective-sublimation) ideas which ‘proponents ultimate purpose (beyond-the-consciousness-awareness-teleology ‘<in-preconverging-existential-extrication-as-of-existential-unthought>)’ weren’t fundamentally a ‘direct convincing’ of humans exercise as of social-aggregation-enabling but rather in projecting a big picture of the-Good/understanding/knowledge-drive as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/suprerogatory–de-mentativity, however unintelligible, as a prospective institutional percolation-channelling exercise as validated by ultimate <amplituding/formative–epistemicity> causality ‘as-to-projective-totalitative–implications-of-prospective- nonpresencing.–for-explicating-ontological-contiguity with subsequent corresponding formalisation and secondnaturing. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaredness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor that ‘human knowledge is necessarily a secondnaturing construction’ and not an ‘intemporal-disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of–‘meaningfulness-and-teleology’, which is obviously false since we are temporal-to-intemporal by our mental-
disposition and our virtue with the notional–deprocripticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche and institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{96}–\textsuperscript{<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism>}. Thus human knowledge is a dynamic secondnated construct in upholding-and-vouching for the intemporal while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology\textsuperscript{99}–\textsuperscript{<in-preconverging–existential-extrication-as-of–existential-unthought>}. 

[The notion of ‘beyond-the-consciousness-awareness-teleology\textsuperscript{99}–\textsuperscript{<in-preconverging–existential-extrication-as-of–existential-unthought>’} as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology\textsuperscript{99}–\textsuperscript{<in-preconverging–existential-extrication-as-of–existential-unthought>’} speaks of the mental state as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{96}–\textsuperscript{<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism> by its relative-ontological-incompleteness\textsuperscript{88}–of–reference-of-thought at the point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (also referred to as ‘uninstitutionalised-threshold\textsuperscript{102}’) where the mental-disposition/mindset/\textsuperscript{7}reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology\textsuperscript{99}–\textsuperscript{<in-preconverging–existential-extrication-as-of–existential-unthought>\textsuperscript{6} implies ‘conscious’}

This effective realism as of rational-realism is the requisite insight in understanding how supposedly re-originary–as-unenframed/unbeholdening/outlier-conceptualisation{imbued-postconverging/dialectical-thinking –‘projective-insights’/‘epistemic-projection-in-conflatedness –of-notional–deprocrypticism-prospective-sublimation) transcendental
notions of intemporality/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. Further along the rational-realism line of thinking, the fact is paradoxically that as more cuttlingly demonstrated with ‘cultural diffusion driven transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, the mechanism of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is not a simplistic transference from a more ontologically-completeness-of-reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag towards the path of its transcendence; as notions and ideas of the prospective reference-of-thought gradually creep over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms–as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory—de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of thought; as explanations for the cure will still be advanced in terms—as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s reference-of-thought. <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimony displayed by succeeding institutional-cumulation/institutional-recomposure—,(as-to—historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence—reflected—‘epistemicity—relativism—determinism’>, which may wrongly imply being out of the scope of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnatures—temporal-to-intemporal-dispositions—<so-construed—as-from—perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor, and thus fundamentally undermine ontologically-veridical analysis where exceptionalism is adhered to instead of the mediocrity principle. This quite sums up the <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mechanism by which re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking —‘projective-insights’/‘epistemic—projection—in—conflicatedness —‘of-notional—deprocrypticism—prospective—sublimation) transcendental ideas

The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a ‘presencing—absolutising-identitive-constitutedness\textsuperscript{14} consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to crossgenerational import (prospective-institutionalisation\textsuperscript{56} meaningfulness-and-teleology \textsuperscript{99} as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). It is doubtful that Galileo or Diderot and others of their inclination were naïve to think that their initiatives will immediately lead to a positivistic transformation of society but they certainly had a cynical sense of crossgenerational purposefulness (whether beyond-the-consciousness-awareness-teleology \textsuperscript{6} in-preconverging-existential-extrication-as-of-existential-unthought). This equally explains why in all epochs, however different the nature, there is an inherent temporal mental-disposition abhorrence of transcendental ideas as putting into question the present and present interests (for instance, even the industrial revolution when considered as actually generating material wealth was poorly perceived by many trade guilds). It is only the `imbricatedness/threadedness/recomposuring as of attendant–ontological-contiguity \textsuperscript{87}–educed–existentialising/contextualising/textualising-contiguity\textsuperscript{40} <--reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context> as to existence-potency\textsuperscript{39} ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective of the `postconverging-or-dialectical-thinking\textsuperscript{21} reference-of-thought in relative-ontological-

Supposed there is a given context where the solution to additions of the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology) taken involves rewards depending on how big is the number with the Donor not in a position to pay particular attention to the exact sums to be resolved if a character is in a position to fiddle with the implied sum to be resolved like deliberately using the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements as perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation (more like the ‘covert negative vista’ of the hidden-nature/unavailable social universal-transparency—(transparency-of-totalising-entailing,-as-to-entailing–amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness of psychopathy especially at adulthood). Now supposed to resolve a ‘purposeful measurement’ (meaningfulness-and-teleology), A appropriately uses a correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements (appropriateness-of-reference-of-thought-as-of-conflatedness) and find out that the numbers measured and to be added are 5+2 and is trying its best thereafter to resolve the sum but fails in its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and gives 9 as the answer, this doesn’t void logically re-engaging with A with respect to other sums in terms of aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements to be undertaken (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism. Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology) is undertaken erroneously rather implying 6 + 3 instead of 5 + 2 (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as 5 + 2) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) is flawed since B is not committed due to its perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation (incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) to genuinely strive for correct answers (ontological-veridicality), and this speaks of the possibility of B denaturing an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant’ to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose reference-of-thought is not perverted, such that A’s defect is a defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance, on the other hand B’s defect is a Being/ontological/existential–defect, i.e. the teleological disposition of B inherently carries the defect (to the point that B can be socially-
while committing the defect, i.e. where the veridical
notion/axiomatic-construct of the defective
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not universally transparent as a ‘negative covert vista’). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B. In the instance where C is ignorant of B’s Being/ontological/existential–defect, there is a possibility of re-engaging with C but only where B’s condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity of normal additionality with such a social-aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C (where B’s condition is not exposed to it), D, E and F or temporal-endemisation/temporal-enculturation of B’s condition for B, C (where B’s condition is not exposed to it), D, E and F. It should be noted that C (where B’s condition is not exposed to it), D, E and F technically speaking have a ‘derived-Being/ontological/existential–defect’ as well, and so to the point that they consciously perceive it can be socially-functional-and-accordant to them wherein lack of ‘social universal-transparency’ -\{transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative–epistemicity\}\textsubscript{totalising–in-relative-ontological-completeness} which protects the internal-coherence of meaning for virtue’ enables their own ‘covert negative vista’ however ad-hoc as conjugated-postlogism, i.e. as to the conjugated-ignorance of C (where B’s condition is not exposed to it), conjugated-affordability of D, conjugated-opportunism of E, conjugated-exacerbation of F, and conjugated-social-chainism of B, C (where B’s condition is not exposed to it) D, E and F, and conjugated-temporal-enculturation to B’s condition of B, C (where B’s condition is not exposed to it), D, E and F; and they cannot therefore be re-engaged

accordant without negative consequences to its agents so long as it is not socially universally transparent, and so eliciting the respective temporality/shortness over the intemporality/longness of adhering to proper apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (ontologically-veridical meaningfulness-and-teleology). Further more than postlogism and conjugated-postlogism being just passively socially-functional-and-accordant, a more active socially-functional-and-accordant framework is often induced by extrinsic-attribution on the token of eliciting ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’. This is highly specific and circumscribe for efficacy-sake from accrued involvement with childhood psychopathy (with regards to adult psychopathy or adult postlogism) wherein achieving the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance threshold enabling postlogism/psychopathy and/or conjugated-postlogism/social-psychopathy involves an insight about how ‘lack of constraining social universal-transparency —{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness} of perversion-and-derived-perversion-of-reference-of-thought-<as-preconveringly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > determines how prelogism—as-of-conviction,—in-profound-supererogation —<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at> minds will act as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. In this regard, prelogism as-of-conviction,-in-profound-supererogation-as-of-conviction,-in-profound-supererogation—existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness—precedes-disontologising-logical-outcome-arrived-at minds generally adopt a generalising approach for determining ‘the overall registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance experiences and recounts with any specific individual’ including psychopathic or conjugated-postlogism, and in so doing construe dichotomously the said individual’s as adhering or not-adhering to the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance (and so specifically judged rather in various shades of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance implied mechanical-knowledge), as entails with associating or not associating the said individual in given occasions or in specifically given aspects of life depending on such experiences and recounts. With this in mind (based on its dormant childhood development experience), the adult psychopathy personality arising from its growth experience (and correspondingly the protraction into conjugated-postlogism behaviour in this regard), wherein its childhood psychopathy failing the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance induced a shift in behaviour such that in lieu of ‘such preposterous acts-and/or-narratives of vicious postlogism—as-of-compulsing—nonconviction/madeupness/bottomlining—langle—decontextualising/de-existentialising—of-attendant-intradimensional—apriorising/axiomatising/referencing—induced-disontologising—of-the—‘attendant—intradimensional—ontologising’—imbued—contextualising/existentialising—attendant-ontological-contiguity—rangle—as-to-disontologising-perverted—outcome-sought-precedes-existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing—logical-dueness—at childhood, the childhood psychopathy comes to grasp that ‘acts-and/or-narratives of vivious postlogism—as-of-

This faulty-mentation-procedure-deception mental-disposition at adulthood psychopathy is more profound than just an ad-hoc trite association between committing a given vicious act and initiating a given limited ‘compensating directed pseudo-virtue act-and/or-narrative’ in compensation as is the case at childhood psychopathy, since the adult psychopath discovers at that stage that such triteness of association is relatively inefficient for attaining the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (but rather requires a more profound association of the ‘postlogism-as-of-compulsing-nonconviction/madeupness/bottomlining-(‘<decontextualising/de-existentialising~of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant-ontological-contiguity>-in-shallow-supererogation-<as-to-disontologising-perverted-

As then during its childhood the ‘compensating directed pseudo-virtue acts-and/or-narratives’ are relatively universally transparent socially for what these truly are, as rather being associated with its faulty-mentation-procedure-deception mental-disposition of ‘perversion-of- reference-of-thought’<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, ‘than just merely or confused with innocent virtue acts-and/or-narratives’; and as ‘interlocutors in prelogism’-as-of-conviction,-in-profound-supererogation <-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> come to grasp the deliberativeness/consciousness of the artificial and fallacious systematic eliciting of ‘compensating directed pseudo-virtue acts-and/or-narratives’ as a crude-trite-compensating mechanism for its urge to commit ‘postlogism’-as-of- compulsing–nonconviction/madeupness/bottomlining<‘<decontextualising/de-existentialising~of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued<-contextualising/existentialising–attendant-ontological-contiguity>-in-shallow-supererogation<-as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness> vicious acts-and/or-narratives’ and is thus socially-dysfunctional at childhood. Whereas at adulthood psychopathy the overcompensating involves a surreptitious upending/undermining/blurring of this underlying insight that the ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ is rather as of a personality development derived-from and connected-with such

Consider for instance that transcendental is generally considered as the central notion of Kantian philosophy. The reality however is that the supposed transcendentalism is actually an elaboration in the terms of the actual and true rational-empiricism/positivism\textsuperscript{18}reference-of-thought transcendence-and-sublimity/sublimation/supererogatory—de-mentativity established by Descartes’ thinking proposition and scepticism exercise as the fundamental basis for continuously re-elaborated ‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (Copernican revolution) is not eliciting a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ of ‘amplituding/formative–epistemicity\textsuperscript{19}totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling\textsuperscript{20}–by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective—meaningfulness-and-teleology’.
(which is exactly what Descartes’ thinking proposition and scepticism exercise does with respect to the non-positivism/medievalism psyche/placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology’). The Kantian construct is an elaboration well within the psychical framework established by dimensionality-of-sublimating ‘{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} ‘extended rationalism’ thinking proposition and scepticism exercise, and Kantian 56meaningfulness-and-teleology’ is utterly comprehensible and intelligible to that psyche/mentation, though in many ways it is a more profound elaboration of 99meaningfulness-and-teleology issues. So it is actually an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument within the extended-rationalism 8reference-of-thought that doesn’t psychically and meaningfully supersede it but elaborates within it; and it doesn’t reference an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘{<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling{(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology )}’ as implied by a ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’, as from Recurrent-utter-uninstitutionalisation to Base-institutionalisation–ununiversalisation, to 10universalisation–non-positivism/medievalism, to Positivism–procrypticism, and prospectively to deprocrypticism; as successively non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition{as ‘base–constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument} gives way to
striving to establish universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow-to-deepening–limited-mentation-capacity,~as-limited-mentation-capacity-deepening. (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality as the absolute apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity—or–ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences)
cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/ALCHEMY/ESSENCES/MEDIEVAL REGISTRY-WORLDVIEW/DIMENSION certainly does has a name (transcendence-and-sublimity/sublimation/supererogatory–de-mentativity). But then it is more the case that from an amplituding/formative–epistemicity totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag posture holding only one registry-worldview/dimension as absolute, then prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather a beyond-the-consciousness-awareness-teleology notion. Besides, Kant’s notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (transcendental idealism) and subsequent philosophical development of the notion is one relating to immediate phenomenal conceptualisation rather construed as ‘phenomenal-abstractiveness of presence’ (and more precisely phenomenal-abstractiveness of presence as of the positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implied by Descartes) rather than a construal of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as implied herein as of limited-mentation-capacity-deepening with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human amplituding/formative–epistemicity totalising–purview-of-construal’ as superseding–oneness-of-ontology as an all-encompassing amplituding/formative–epistemicity totalising–renewing-realisation/re-perception/re-thought of human psychical and institutionalisation disposition for meaningfulness-and-teleology, even though fundamentally enabled by developing human
apriorising/axiomatising/referencing that doesn’t recognise that successive
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental
registry-worldviews/dimensions are defining transcendental-enabling/sublating/supererogatory-de-mentativity for new prospective relative-ontological-
completeness-of-reference-of-thought and so-reflected as to the de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-
attributive-dialectics) undergirding the ontological-contiguity of the human-institutionalisation-process. In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the existentialising/contextualising/textualising-contiguity of existence as of human shallow-to-deepening–limited-mentation-capacity, as of its successively developed transcendental psychical and institutionalisation
notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules—apriorising/axiomatising/referencing—psychologism, as-impulsive-or-accidented-or-
random-mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening, as further elaborated herein. This same
insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz;
wherein the latter established the ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psyche as
‘<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-

apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-
prospective–meaningfulness-and-teology’ of positivistic physics right back then in their

epoch such that the overall underlying principle of epistemicity-causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity as transcendental-enabling/sublimating/supererogatory-de-mentativity back then is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating/supererogatory-de-mentativity epistemicity-causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligence/setup/measuring/instrument relationship to epistemicity-causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity as of its non-scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic
and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-dementativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual-patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-dementativity construction having to do with an agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology is often wrongly construed as ontological as of reference-of-thought–categorical-imperatives/axioms/registry-teleology , for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. Consider for instance a situation where statistically people likely to rest more in their home in winter are compared with people spending more time outdoors with regards to prevalence of flu, and then arriving at the conclusion that the treatment for flu is resting more at home. Such a construct as basic apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } constitutedness in preconverging-entailment is at best a sound palliative construct and naïve conceptual-patterning however good-natured, well-meaning and wishful, but doesn’t deal with the required pure-ontology apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment by} postconverging-entailment as of

The practice in many a social science specialism is often to articulate concepts whose linkage with other social science concepts and the overall social science background knowledge construct is vague such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory~de-mentativity is hardly established but for bare ‘palliative constructs and naïve conceptual-patterning’ that are more often than not <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag than truly ontological when examined closely such that the test of transcendentally-enabling-level-of-ontological-good-faith-or-authenticity\(^\circ\)/objectification/desubjectification-as-objectification<as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as antinihilism>\(^\text{100}\).
when the implications of such notions are examined as of metaphysics-of-absence, not only in terms of one registry-worldview’s/dimension’s meaningfulness-and-teleology but two or more, say our present positivism reference-of-thought and retrospective non-positivism reference-of-thought, their ‘supposed ontological status’ turn out to be ridiculous, exposing their true nature as rather palliative constructs and conceptual-patterning. Even then and ultimately, it is mainly a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that progressively rids the prior conventional constructs of their essence as of <amplituding/formative-epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that enables prospective registry-worldview/dimension suprastructuration/transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. conflatedness—in—preconverging-disentailment-by—postconverging-entailment notion as of prospective relative-ontological-completeness—of—reference-of-thought and implying rather a prospective transcendental depth-of-thought/reference-of-thought. This equally explains why the implied supratransversality—in—sublimating—existential-eventuating/denouement—of—motif-and-apriorising/axiomatising/referencing as of aetiologisation/ontological-escalation is necessarily a ‘presencing—absolutising-identitive-constitutedness’ consummated/forfeiting posture of intemporality—symmetric-subsumption-of-temporality/ontological-asymmetrisation that needs to take into account this ‘paradox of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’. And critically so, because beyond just ‘human conscious willing’, transcendence-and-sublimity/sublimation/supererogatory—de-mentativity necessarily implies the ‘prospect of humans to appreciate/understand meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology—in-preconverging—existential-extrication-as—of—existential-unthought’ such that, de-mentatively/structurally/paradigmatically/necessarily, that which gets to ‘conceptualise/construe beyond-the-consciousness-awareness-teleology—in-preconverging—existential-extrication-as—of—existential-unthought’ is necessarily ontologically-asymmetrical as rather imbued with intellectual-and-moral responsibility over that which doesn’t get there (and so, even with regards to a basic non-transcendental construal of asymmetrisation within a same registry-worldview’s/dimension’s reference-of-thought like Doctor—Patient, Parent—Child, Server—Customer, Teacher—Student etc. as ensues from a Derridean binary opposition analysis). However at uninstitutionalised-threshold, the notion of intemporality—symmetric-subsumption-of-temporality/ontological-asymmetrisation is not readily acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded reference-of-thought—categorical-imperatives/axioms/registry-teleology inclined beyond-the-consciousness—
to uphold meaningfulness-and-teleology as such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness-of-reference-of-thought will certainly grasp the pertinence of intemporalidade-asymmetric-subsumption-of-temporality/ontological-asymmetrisation as of deconstruction/ontological-reconstituting-as-to-conflatedness aetiologisation/ontological-escalation; so construed, as prospective relative-ontological-completeness-of-reference-of-thought brings about deepening sense as to apriorising/axiomatising/referencing—psychologism of transcendentally-enabling-level-of-ontological-good-faith-or-authenticity/objectification/desubjection-as-objectification>as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as antinihilism meaningfulness-and-teleology construal for a sounder and sounder relationship with intrinsic-reality/ontological-veridicality. In this respect, it should be noted that in the example on the denaturing of Additionality as further articulated below with regards to the characters A, B, C, D, E, F and Z, it is naïve to think that the characters A, B, C, D, E, F will simply acquiesce to Z’s supposedly ontologically-veridical posture, as by their prior relative-ontological-incompleteness-of-reference-of-thought as beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought> they may operate on a logic that once such a situation as A induced additionality defect deception develops as of ‘lack of constraining social universal-transparency-(transparency-of-totalising-entailing—as-to-entailing/~amplituding/formative-epistemicity>totalising—in-relative-ontological-completeness ), that’s fine and implicitly others could just as well consciously go along with it, and that it is just as implicitly legitimate as of the ‘<amplituding/formative> wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing –

Likewise, it could be asked whether such an aetiologisation/ontological-escalation notion as notional–deprocrypticism institutionalisation implied suprastructuration over our positivism–procrypticism is rather not a beyond-the-consciousness-awareness-teleology^9^<-in-preconverging-existential-extrication-as-of-existential-unthought>-^6^ notion as of the present <amplituding/formative> wooden-language^9^ (imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-

The fact is that registry-worldviews/dimensions operate ‘meaningfulness-and-teleology^9^’ as of their ontological representation of reality within the limits of their ‘categorical-imperatives/axioms/registry-teleology^9^’ which provide them with their ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/’ reference-of-thought/axiomatic-construct for predicative-insights’ (so derived from prior ontological-faith-notion-or-ontological-fideisim induced projective-insights/postdication/deconstruction), but then the further possibility of expanding the axiomatic-construal/axiomatic-conceptualisation of ontological representation of reality as prospective registry-worldview/dimension suprastructuration requires new projective-insights/postdication/deconstruction to establish more profound ‘categorical-imperatives/axioms/registry-teleology^9^’ as new/prospective ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/’ reference-of-thought/axiomatic-construct for predicative-insights’; but then, such
‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ of each registry-worldview/dimension suprastructuration comes with a fundamental mentation-reflex flaw that their given ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ is absolute and non-transcendable beyond-the-consciousness-awareness-teleology<sup>®</sup>-<in-preconverging-existential-extrication-as-of-existential-unthought>, failing to grasp that projective-insights/postdication/deconstruction (factoring in human limited-mentation-capacity-deepening<sup>®</sup>) about prospectively more profound reference-of-thought–categorical-imperatives/axioms/registry-teleology<sup>®</sup> will certainly imply an altogether new/prospective ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ and notwithstanding the fact that that present registry-worldview/dimension is the result of prior projective-insights/postdication/deconstruction induced transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more ‘profound level of living in the realm of human thoughtfulness’ based on eudaemonic-contemplation of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-reprojecting that then ‘invents/creates’ the de-mentative/structural/paradigmatic possibility for prospective institutionalised-being-and-craft as there isn’t any inherent intemporality/longness but for the disposition for maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation out of the apathy of the ordinariness/averageness of any prior registry-worldview/dimension institutionalised-being-and-craft setup. representation-perversion has various shades of ‘temporal/shortness to intemporal/longness depth/register of meaningfulness stranded finalities/teleologies’. This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a ‘dereifying act’, then spills water on a chair and goes and tell dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism’ or prelogism in that a child who has a ‘poor or bad supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism’ or prelogism is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does. One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism-as-of-conviction,-in-profound-supererogation —<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’— logical-dueness-precedes-disontologising-logical-outcome-arrived-at> (‘poor or bad supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism’), whether by omitting or exaggerating in a circumspect and ad-hoc manner but relative to attendant–ontological-contiguity—educed–existentialising/contextualising/textualising-contiguity —<reifying-or- elucidating-of-prospective-relative-ontological-completeness —of- reference-of-thought-

What the psychopath is doing is ‘SLANTING’ as of compulsive-slanting—preconverging-or-dementing -apriorising. That is to arrive at a sought-outcome by subknowledging ’-or-mimicking the non-veridical hollow-form of the meaning of other persons supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking – apriorising-psychologism narratives which it perceives as ‘being blatantly deterministic’ of the

<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-
 logical-dueness-precedes-disontologising-logical-outcome-arrived-at mind’, i.e. the
 psychopath is ‘narrating veridical emptiness/hollow narratives’. The idea being about arriving at
 a sought-outcome by taking a posture that does not attach a depth of supplanting–conviction-as-
to-profound-supererogation —of–‘attendant-intradimensional’-postconverging/dialectical-
thinking –apriorising-psychologism on narratives but rather simply ‘the mere possibility of the
hollow narratives being articulated, and then integrated by interlocutors as real’. Thus the
psychopathic postlogic mindset and by derivation conjugated-postlogism/preconverging-or-
dementing-integration mindset is one of relating to meaningfulness as valid by ‘the mere
performative-form representation of meaningfulness’ rather than veracity/ontological-
pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to
perform in interlocution rather than express a genuine sense of supplanting–conviction-as-to-
profound-supererogation —of–‘attendant-intradimensional’-postconverging/dialectical-
thinking –apriorising-psychologism and hence the disposition for extrinsic-attribution by
active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of
passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-
attributeion associated with transcendental-enabling/sublimating/supererogatory de-mentativity,
but rather as a potent and active construct of social determinism which requires actually
eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence.
This mental-disposition is qualified as epistemic-decadence or postlogism and its
derivation/adoption by temporal-dispositions is derived-epistemic-decadence in conjugated-
postlogism. More precisely, it is critical to distinguish between the notion of slanting (cinglé
in French) as postlogism-as-of- compelling–nonconviction/madeupness/bottomlining

This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-

explaining the circular nature and its particularly overblown extrinsic-attribution mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity with regards to inherent reality and meaningfulness. The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. Thus slanting doesn’t have a ‘coherent whole of narratives’ with respect to attendant–ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity-reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as is the case when someone tells a lie, and actually where such a ‘coherent whole of narratives’ with respect to attendant–ontological-contiguity-educed–existentialising/contextualising/textualising-contiguity-reifying-or-elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is wrongly implied about slanting, it has to do with prelogism-as-of-conviction,-in-profound-supererogation-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at mind/mental-disposition ‘wrongly conjoining the

It is interesting to note that at childhood psychopathy where the mental-disposition is relatively universally-transparent what is perceived and related to by supplanting–conviction-as-to-profound-supererogation \textsc{of-‘attendant-intradimensional’-postconverging/dialectical-thinking \textsc{-apriorising-psychologism}} interlocutors is not a ‘coherent whole of narratives’ but a deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism \textsc{as-of-conviction,-in-profound-supererogation \textsc{<existentially-veridical–‘attendant-intradimensional–}} apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logically-outcome-arrived-at} alignment to psychopathic slanting is actually a mental-unsoundness not different as contemplating aligning in supplanting–conviction-as-to-profound-supererogation \textsc{of-‘attendant-intradimensional’-postconverging/dialectical-thinking \textsc{-apriorising-psychologism}} to the childhood psychopathy slanting as with the dereifying example of spilling water on a chair and accusing another. A salient comparison that strongly highlights the difference between slanting and lying, is that a lying child doesn’t come across as delirious since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a slanting deception is as of faulty-mentation-procedure-deception-or-urge due to psychopathic developmental failure to relate to meaningfulness as of prelogism \textsc{-as-of-conviction,-in-profound-supererogation \textsc{<existentially-veridical–‘attendant-intradimensional–}}

This induced deception does not however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. But then, more than just the deception this state of affairs has a further nefarious effect on the natural human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, as the induced ‘lack of constraining social universal-transparency^{103}:\{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\} with respect to intrinsic meaningfulness further elicits supplanting–conviction-as-to-profound-supererogation^{96}→of-‘attendant-intradimensional’–postconverging/dialectical-thinking→apriorising-psychologism minds temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, which can actually be more decisive grounds for the perpetuation of psychopathy as social-psychopathy, as the fact is the psychopath is very much pathological and tends to act compulsively in its faulty-mentation-procedure-deception as of circumstantiality.

Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing–apriorising-psychologism’ as of their relative-ontological-incompleteness of reference-of-thought-induced-virtuality-or-ontologically-flawed-condstural-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity as ontologically-veridical. Thus, notional–deprocrypticism as decentering and preconverging-or-dementing–apriorising-psychologism the positivism–procrypticism registry-worldview reference-of-thought will certainly imply an altogether different psychologism of meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset/reference-of-thought of meaningfulness-and-teleology with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-
reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening) a
renewing of mindset/reference-of-thought of meaningfulness-and-teleology with its
corresponding psychology/psychology-construct occurs, with this ontological-
contiguity—of-the-human-institutionalisation-process leading to the
successive registry-worldviews/dimensions reference-of-thought psychologies/psychology-constructs, and
implied prospectively as well with the notional–deprocrypticism worldview/dimension
reference-of-thought psychology/psychology-construct. Critically, a
psychology/psychology-construct takes an
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument form that
construes meaningfulness from the prior (and even lower) registry-worldview’s/dimension’s
reference-of-thought psychology up to its own registry-worldview’s/dimension’s
reference-of-thought psychology as of its more profound attendant–ontological-

successive registry-worldviews/dimensions reference-of-thought psychologies up to the deprocrypticism, is an
initiation into notional–deprocrypticism psychology as of its
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of its more

Basically, this idea of ‘human temporal uninstitutionalised-threshold mental-disposition’ as metaphysics-of-absence points out that ontological analysis should rather be from the prospectively implied ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’, and in this instance implying an ontological analysis of psychopathy and social psychopathy from futurul Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism registry-worldview reference-of-thought and not the present positivism–procrypticism, just as analysing notions-and-accusations-of-sorcery should rather be from the prospective positivism registry-worldview reference-of-thought and not its present universalisation–non-positivism/medievalism registry-worldview reference-of-thought; as of the fact of fundamental registry-worldview/dimension ‘prospective registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–as-Being-or-ontological-or-existential–defect’, so construed in order to supersedes its preconverging–de-mentating/structuring/paradigming vices-and-impediments. Structural/paradigmatically/de-mentatively, this idea extends to all issues implying metaphysics-of-absence points out that ‘human temporal uninstitutionalised-threshold mental-disposition’. This brings home the underlying notion of rational-realism as construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-
reality/ontological-veridicality as of a natural human psychological growth disposition ('postconverging-or-dialectical-thinking'—psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics'). Wherein, going by its first impulse with respect to its ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental ‘meaningfulness-and-teleology’.

This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn’t give agency (or at the least ‘perceived’ sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in adjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling
increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present ascendancy of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on the premise of a deference to intrinsic-reality as of its effective inherence validated by causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity that has accompanied human limited-mentation-capacity-deepening in construing/conceptualising meaningfulness-and-teleology. Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-deepening that actually is behind all threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to-
attendant-intradimensional’-prospectively-disontologising–preconverging/dementing – apriorising-psychologism> of the <cumulating/recomposing–attendant-ontological-contiguity >-successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of dementative/structural/paradigmatic social implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly
indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence\{(implicated-'nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-

nonpresencing-<perspective–ontological-normalcy/postconvergence>\} ontologies as enabling a further human emancipation registry-worldview’s/dimension’s reference-of-thought psychologism, notional–deprocrypticism psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction rather as socially-functional-and-accordant\textsuperscript{03}. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold\textsuperscript{02} mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supereorogatory-de–mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{00} frame of thought and social-stake-contention-or-confliction but rather carries a
prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic ‘meaningfulness-and-teleology’ to engage the non-positivistic social-setup in terms—as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘huma prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms—as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms—as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipating institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the ‘perpetually stable notional–firstnarednes—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold’, across all registry-worldviews/dimensions references-of-thought but for the fact that they have different reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation building up from
apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument defect (no perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) with social universal-transparency-(transparency-of-totalising-entailing-as-to-entailing-amplituding/formative–epistemicity-totalising–in-relative-ontological-completeness) of the calculations to be done, it is fair to say ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ in this reference-of-thought is of quasi-intemporal-disposition (and the whole point of human knowledge aspiration and virtue is to achieve this state or deferential-states-of-this-state as with formalisations and percolation-channelling-(in-deferential-formalisation-transference). Thus calculations (logically-derived meaningfulness) in such an institutionalised framework are effectively in ontological-good-faith/authenticity~postconverging-de-mentating/structuring/paradigmng but for failure in aposteriorising/logicising/deriving/intelligising/measuring performance as defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance. But then human existential-reality comes with human limited-mentation-capacity-deepening with limited grasp of intrinsic-reality at various stages of human emancipation up to the modern-day, such that social universal-transparency-(transparency-of-totalising-entailing-as-to-entailing-amplituding/formative–epistemicity-totalising–in-relative-ontological-completeness) required for ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human
temporal uninstitutionalised-threshold as of attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–reifying-or-elucidating-of-prospective-relative-ontological-completeness–of-reference-of-thought-devolving-as-of-instantiative-context> elucidated ontological-normalcy/postconvergence. It points to a fundamental de-mentative/structural/paradigmatic disposition for human temporalities–drives to adhere to the wooden-language–imbued–temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives–of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology } (failing/not-upholding–as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence–(implicated-epistemic-veracity-of-nonpresencing–perspective–ontological-normalcy/postconvergence>/postdication) of the given registry-worldview/dimension, when incapable of construing a prospective registry-worldview reference-of-thought as providing the resolution for the vices-and-impediments associated with such a present registry-worldview/dimension institutionalisation. Such notions as the following that can be at the very centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence–implicated-epistemic-veracity-of-nonpresencing–perspective–ontological-normalcy/postconvergence>) of the notion of ‘human temporal uninstitutionalised-threshold mental-disposition’ that de-mentatively/structurally/paradigmatically ‘notionally acquiesce to the possibility of a registry-worldview’s/dimension’s temporality /shortness and is non-transcendental to that possibility’: she deserves to be rape because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those
people/group/ethnicity deserved what happened to them because they are so and so; etc.

[We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant-threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold’ in the same social space that statements of ‘maximal-as-intemporal-operating-modality-of-maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation-as-inducing-the-prospective-institutionalisation’ are made but with both construed in the conventioning of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as effectively ‘non-dissociable’, thus validating the notion that institutionalisation is not about solipsistic transformation into the intemporality-drive (longness-of-register-of-meaningfulness-and-teleology disposition) but rather about acceptable thresholds for the registry-worldview/dimension institutionalisation defined social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, explaining why uninstitutionalised-threshold are bound to arise successively in the ontological-contiguity—of-the-human-institutionalisation-process (out-of-human temporality) together with corresponding prospective institutionalisations (out-of-human intemporality) with the latter enabling <amplituding/formative-epistemicity>totalising—renewing-realisation/re-perception/re-thought of defined social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as of the notional-contiguity/epistemic-contiguity—<profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking—qualia-schema> in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-

This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-construct further development requires that it can utterly be put into question by pure-ontology apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educated–

(As a reminder, the notion of intemporality \(\text{/temporality}\) is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature of the being domains-of-study of the social world should not naively imply a construct that isn’t ontological or otherwise, as in both instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as an otherness from any emotional-involvement/subjectification/notional <amplituding/formative–epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \(\text{\textgreater}\) predilection of the inquirer’. As ‘emotional-involvement’ is self-centering-and-definitional of human consciousness as of our animate-existential-referencing/subjectification, but actually such reality is otherwise of the same ontologically-veridical nature as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression into which everything else is caught into as superseding–oneness-of-ontology (even though our high temporal-to-intemporal-conjugating-

Thus an appropriate ontologically-veridical social-conceptualisation and/or storied-construct/ontologically-valid-narration as aetiological/ontologically-escalatory that has the capacity to supersede the inherent human high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction specific element (which tend to denaturing meaningfulness-and-teleology construal, as high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction is behind manifest human ‘non-dissociability’ of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance temporal-to-intemporal thresholds’ within the ontological scope of any given institutionalisation), should be able to imply the same underlying ontologically-veridical existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency sublimating—nascence,—disclosed-from-prospective-epistemic-digression of the superseding—oneness-of-ontology as any other truly ontologically-veridical conceptualisation, be it of animate or inanimate nature. Such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supercerogatory-de-mentativity is projectable about the uninstitutionalised-threshold, and not as it is circularly construed within the uninstitutionalised-threshold frame as a construal of logical pertinence (‘logical-processing-

The fact is with or without postlogism and derived conjugated-postlogism, human reference-of-thought—prelogism—as-of-conviction,—in-profound-supererogation—existsentially-veridical—attendant-intradimensional—apriorising/axiomatising/referencing—logical-dueness-precedes-disontologising—logical-outcome-arrived-at—tends to be relative. That is, even within a registry-worldview’s/dimension’s institutionalisation basis we don’t necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-teleology—in-preconverging—existential-extrication-as-of-existential-uthought) given our relative-ontological-incompleteness—of-reference-of-thought and secondly by projective-arbitrariness/waywardness in the choices we make, and this get even worst at the uninstitutionalised-threshold. Consider in this regard
even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute reference-of-thought—prelogism—as-of-conviction,-in-profound-supererogation <-existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal preconverging—dementating/structuring/paradigming and further so with respect to increasing informality as in the extended-informality—{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology } of all human institutions, and particularly where social universal-transparency —{transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness } is blurred and not forthcoming as logic tends out to be an issue of making-a-mistake-at-one-moment-expressing-the-most-profound-conviction-as-to-profound-supererogation—at-the-other-moment in a circular reference-of-thought. This tendency is further exacerbated with the dynamic conjugation of temporal-dispositions (‘ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to postlogism-slantedness. The point being that meaningfulness-and-teleology construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of reference-of-thought–prelogism-as-of-conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> as of reflex but equally examine ‘as of circumstances pointing to uninstitutionalised-threshold’ the possibility of the ontological-veridicality of interlocutors threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism> mental-dispositions, and as is often associated with mental-dispositions geared towards ‘flawed impression-driven, expletive-driven and non-intellectual critique’ contention. ‘universal social surreptitious parasitising/co-opting’ puts even such individuation in

disontologising–preconverging/dementing –apriorising-psychologism>, and so overall, on the
flawed mental-reflex that such protraction of threshold-of–
prospective nonpresencing for explicating ontological contiguity with respect to vices and impediments. Thus ensuring ontological veridical social universal transparency (transparency of totalising entailing as to entailing amplituding formative epistemicity totalising in relative ontological completeness) is de-mentatively structurally paradigmatically inherently 'advantaged ultimately' by the social construct functioning. (But then this can rather be achieved in the medium to long term as of a crossgenerational transcendence and sublimity sublimation supererogatory de-mentativity import and hardly so in the short run, given that in the short run the issue of the registry worldview dimension relative ontological incompleteness reference of thought is a drawback in this respect. As the framework of generalised social referencing of meaningfulness and teleology is a circular pervasiveness closed structure as of the habituated predicative insights for meaningfulness and teleology based on the relative ontological incompleteness of reference of thought of the registry worldview dimension as prior (despite the relative ontological incompleteness of reference of thought induced distinctive alignment to reference of thought apriorising axiomatising referencing and override any such sense of relative pure ontology apriorising axiomatising referencing of attendant ontological contiguity reduced existentialising contextualising textualising contiguity conflatedness in preconverging disentailment by postconverging entailment as of prospective relative ontological completeness of reference of thought apriorising axiomatising referencing of attendant ontological contiguity reduced existentialising contextualising textualising contiguity conflatedness in preconverging disentailment by postconverging entailment). So the transcendental meaningfulness and teleology implied as of projective insights about the prospective registry worldview dimension predicative insights of meaningfulness and teleology going by its prospective relative ontological completeness of reference of thought doesn't supersede the
prior’s ‘circular-pervasiveness closed-structure of habituated predicative-insights for meaningfulness-and-teleology’ in the short run. Chinua Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes ‘meaningfulness-and-teleology’ in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness -of- reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness -of- reference-of-thought had moved on to the new/prospective ‘meaningfulness-and-teleology’ which is now antipodal to his, hence his confliction with his circular-pervasiveness wooden-language<br/>{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness wooden-language-{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> when the foreign cultural diffusion arrived before superseding it crossgenerationally. We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of- reference-of-thought with regards to meaningfulness-and-teleology’, construal where Nunez’s ‘seeing of the environment’ reference-of-thought as of it prospective relative-ontological-completeness -of-axiomatic-construct-or- reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ reference-of-thought as of its prior relative-ontological-incompleteness’. This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior reference-of-thought as ‘feeling of
the environment’ explaining why a registry-worldview is a wooden-language-imbued—averaging-of-thought-as-to-leveling/resentment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications⟩} that hardly entertains its own transcendability/de-mentativity, and why transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather crossgenerational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their reference-of-thought’ despite their respective inherent prior relative-ontological-incompleteness—of-reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to-reference-of-thought-apriorising/axiomatising/referencing> from an ontological-normalcy/postconvergence epistemic-or-notional—projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-
worldviews/dimensions uninstitutionalised-threshold, including our own as positivism–procrysticism as of its disjointedness-as-of-reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distracting-alignment-to-reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective apriorising/axiomatising/referencing notwithstanding any notion of relative prospective ontological-completeness-of-reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather such a demonstration is more dementatively/structurally/paradigmatically, together with all other such demonstrations of the prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of the prior apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in its circular-pervasiveness’ at its uninstitutionalised-threshold as of its ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought; thus qualified as transcendence-and-sublimity/sublimation/supererogatory-dementativity suprastructuration. Just as the exercise of
demonstrative convincing on the basis of a scientific principle within a non-positivistic social context ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather de-mentatively/structurally/paradigmatically, together with all other such demonstrations as of scientific and positivistic principles/axioms/ reference-of-thought meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of non-scientific and non-positivism <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought- devolving-as-of-instantiative-context— meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in circular-pervasiveness’ at its uninstitutionalised-threshold as of its ontologising-deficiency/relative-ontological-incompleteness-of reference-of-thought. We can grasp an abstract sense of this situation as follows. Supposed human limited-mentation-capacity-deepening as inducing more and more profound projective-insights construed as the successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments representing the <cumulating/recomposuring–attendant-ontological-contiguity >successive registry-worldviews/dimensions reference-of-thought under which their respective predicative-insights construct their respective meaningfulness-and-teleology, so grounded axiomatically as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights; is compared imaginarily to ‘mental-dispositions at different successive ascertaining-perspectives unbeknown-to-each other for gauging the overall earth landscape’ (representing analogically ‘different <cumulating/recomposuring–attendant-ontological-contiguity >successive registry-worldviews/dimensions for meaningfulness-
purpose—of-obtained-measurements’ on the basis of its ‘sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’; and this same mental-reflex applies successively to relatively ‘lower-level-heights perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prior registry-worldviews/dimensions) with respect to relatively ‘higher-level-heights perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental difficulty is that ‘no given perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and by reflex circularly undertakes predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and it is only the long run crossgenerational habituation construed as of ‘de-mentation' (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with the prior ontologically construed as decentered and preconverging-or-dementing—apriorising-psychologism as of distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing>, with the implication that its logical-dueness doesn’t exist just as the logical-dueness of the animist reference-of-thought with their God-of-plane proposition doesn’t ontologically exist.) We can grasp as well that it is the ‘space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (deprocrypticism) that ultimately provides the ideal ‘ascertaining-perspectives for gauging the overall earth landscape’. Besides, why the explication herein is
necessarily implying a prospective ‘reference-of-thought (as the author in here with a supposed notional–deprocrypticism ‘reference-of-thought construal as implying a prospective relative-ontological-completeness ‘of- reference-of-thought over our positivism–procrypticism), the fact is that any transcendental analysis is caught in two worlds as two different ‘reference-of-thought in striving to explicate the ontological pre-eminence of the prospective ‘reference-of-thought as of ontological-normalcy/’postconvergence, thus facing the dilemma that by mental-reflex we are not ‘habituated’ to the notion of our ‘reference-of-thought being construed as ‘preconverging-or-dementing”–apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as preconverging-or-dementing”–apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing”–apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as preconverging-or-dementing”–apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing”–apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold will react when construed as preconverging-or-dementing”–apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing”–apriorising-psychologism and not thinking representation of ourselves construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought perspective as in disjointedness-as-of- reference-of-thought and rather in distractive-alignment-to- reference-of-thought<of-apriorising/axiomatising/referencing>! Thus the reality of this analysis in that sense is ‘sparing as of our high temporal-to-intemporal-
conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{3}~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature\textsuperscript{3} for the sake of deconstructive-engagement/engaged-destruktion because an analysis construed as of reference-of-thought is all about mental-soundness or unsoundness representation (with no logical engagement implication) hence rather of a psychoanalytic-unshackling purpose; as a change of reference-of-thought implies a change of perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-of–meaningfulness-and-teleology\textsuperscript{9} as a shift of the curve-of-prospective-relative-ontological-completeness\textsuperscript{7}–of–reference-of-thought/axiomatic-construct and not a change in logic as a change along the same reference-of-thought/curve-of-prior-relative-ontological-incompleteness\textsuperscript{8}–of–reference-of-thought/ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. In other words, a truly direct notional–deprocrypticism ontological analysis will be a ‘mental break-in’/preconverging–or-dementing–apriorising-psychologism of our positivism–procrypticism as we by reflex ‘mentally break-in’/dement a non-positivistic reference-of-thought (as we don’t engage it on the basis of the non-positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{3},-for–aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9}, just as a notional–deprocrypticism analysis will not engage us on the basis of our procrypticism–or–disjointedness-as-of–reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{9},-for–aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{9}, and so in both cases as of the relative ontologising-deficiency/relative-ontological-incompleteness–of–reference-of-thought of non-positivism and procrypticism–or–disjointedness-as-of–reference-of-thought). But then wholly carried out in both instances it
will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness -of- reference-of-thought over prior relative-ontological-incompleteness -of- reference-of-thought’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God-of-plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is cross generationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of amplituding/formative–epistemicity>totalising~self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness -of- reference-of-thought accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a notional–deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as procrypticism–or–disjointedness-as-of-reference-of-thought categorical-imperatives/axioms/registry-teleology failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism–procrypticism as preconverging-or–dementing –apriorising-psychologism/not-thinking and decentered, and wrongfully trying
to engage meaningfulness-and-teleology in positivism–procrypticism terms–as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-reference-of-thought. (More like a non-positivistic mindset/reference-of-thought insisting to contendingly engage a positivistic mindset/reference-of-thought but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought as of its prior relative-ontological-incompleteness of reference-of-thought. Such insight point out that the ‘mental tools’ available to a mental state of recurrent-utter-uninstitutionalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective state of base-institutionalisation, the ‘mental tools’ available to a mental state of base-institutionalisation–ununiversalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective mental state of universalisation, the ‘mental tools’ available to a state of universalisation–non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective mental state of positivism, and prospectively the ‘mental tools’ available to a state of positivism–procrypticism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing–apriorising-psychologism with respect to an implied prospective mental-state of deprocrypticism. Thus unlike is the case with issues of logical-dueness/logical-pertinence as of appropriateness or inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, issues of perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation rather render such notions as forgiveness/overlooking/resetting nothing more but vague amplituding/formative–epistemicity totalising–self-referencing

apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-

meaningfulness-and-teleology as of human limited-mentation-capacity for construing virtue-
as-ontology/ontology/intrinsic-reality/ontological-veridicality is ‘ever de-
mentatively/structurally/paradigmatically in need for prospective relative-ontological-

recurrent-utter-uninstitutionalised striving for base-institutionalisation, the base-
institutionalised–ununiversalised striving for universalisation, the universalised–non-

and so allowed by ‘de-mentation—(supererogatory—ontological–de-mentation-or-dialectical–de-

forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness
basis that human mental capacity is a given as if there is no de-
mentative/structural/paradigmatic issue of relative-ontological-incompleteness of reference-of-thought with no recognition of any such ontological-contiguity—of-the-human-institutionalisation-process as human limited-mentation-capacity-deepening retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived-perversion-of-reference-of-thought-as preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed de-mentatively/structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity within the framework in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process involving human limited-mentation-capacity-deepening. In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental de-mentative/structural/paradigmatic issue as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism—procrypticism disjointedness-as-of-reference-of-thought. In which case such vague approaches will simply imply beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought naïve perpetuation in of the fundamental vices-and-

worldview/dimension placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^9\) is always of prospective relative-ontological-completeness\(^7\)-of-\(^8\) reference-of-thought. But when it comes to a prospective assessment wherein we are of prior relative-ontological-incompleteness\(^8\)-of-\(^9\) reference-of-thought as ‘a preconverging-or-dementing\(^5\)-and-decentered-prior-institutionalisation’s–categorical-imperatives/axioms/registry-teleology\(^9\) positivism–procrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^9\) as unsoundness-or-ontological-bad-faith/inauthenticity\(^4\)-of-\(^8\) reference-of-thought’ from the ‘prospective presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^9\) of notional–deprocrypticism as of its prospective relative-ontological-completeness\(^7\)-of-\(^9\) reference-of-thought’ as ‘a postconverging-or-dialectical-thinking\(^1\)-and-centered-prospective-institutionalisation’s–categorical-imperatives/axioms/registry-teleology\(^9\) placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^9\) as soundness-or-ontological-good-faith/authenticity\(^6\)-of-\(^9\) reference-of-thought’, we are rather less apt to concur going by our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^3\) reflex such that such notions as forgiveness/overlooking/resetting and notions of positive psychology are rather just a failure to de-mentatively/structurally/paradigmatically recognise the implied perversion-and-derived-perversion-of-\(^9\) reference-of-thought\(^8\)-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^8\) as of our relative-ontological-incompleteness\(^8\)-of-\(^9\) reference-of-thought, and what we are doing then is ‘re-referencing from the same positivism–procrypticism relative-ontological-incompleteness ‘of-\(^9\) reference-of-thought’ and thus wrongly implying our under-mentativity hence our untranscendability for a de-mentative/structural/paradigmatic\(^8\) reference-
of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, and paradoxically thus by implication that there is no relative-ontological-incompleteness—of-reference-of-thought, to then wrongly imply such articulations of forgiveness/overlooking/resetting and positive-psychology are of intemporal projection whereas these are actually of conscious or unconscious beyond-the-consciousness-awareness-teleology temporal/shortness-of-register-of—meaningfulness-and-teleology projection. This insight explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/ontology articulated above as of de-mentative/structural/paradigmatic nature of the-Good/understanding/notional—knowledge-reification—gesturing—in-prospective_psychoanalytic~apriorising/axiomatising/referencing—of-attendant—ontological-contiguity —educed—existentialising/contextualising/textualising-contiguity—conflatedness—in—preconverging-disentailment—by—postconverging—entailment/<amplituding/formative—epistemicity—causality—as—to-projective—totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity—construal/conceptualisation, and not naïve at best palliative construals in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the fact that each registry-worldview’s/dimension’s reference-of-thought is inherently a metaphysics-of-presence—(implicated—nondescript/ignorable—void—as—to—presencing—absolutising-identitive—constitutedness ) construed as postconverging—or-dialectical-thinking—

But then ironically such a unde-mentativity posture could as well be adopted by a non-positivism/medievalism\textsuperscript{5} reference-of-thought in its own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-or-dialectical-thinking\textsuperscript{7} and centered-prospective-institutionalisation’s categorical-imperatives/axioms/registry-teleology\textsuperscript{9} with its logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation valid by default. This point out that there is necessarily a central growth element of a de-mentative/structural/paradigmatic \textsuperscript{8} reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{9}, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{99} for crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ allowing for de-mentativity and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such de-mentative/structural/paradigmatic \textsuperscript{6} amplituding/formative–epistemicity–causality–to-projective-totalitative–implications-of-prospective–nonpresencing, for-explicating-ontological-contiguity of vices-and-impediments\textsuperscript{15} of our prior relative-ontological-incompleteness\textsuperscript{8} of reference-of-thought that does not focus on substantive
critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is.

The bluntness of reality/ontology doesn’t recognise the mortals that we are and we can’t advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid ‘human closure of ‘meaningfulness-and-teleology’’ which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair
and accusing another, even at that relatively social universal-transparency {(transparency-}
level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child’s condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an uninstitutionalised-threshold situation which is necessarily beyond-the-consciousness-awareness-teleology and without social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) of the visitor. This example is exactly along the lines of the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, needed for construing postlogism/psychopathy and conjugated-postlogism as of its social model at uninstitutionalised-threshold, and so by way of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation (the latter is what sets up apriorising/axiomatising/referencing/intelligibility/setup/measuringinstruments and is of imbricatedness/threadedness/recomposuring attendant–ontological-contiguity—educed–existentialising/contextualising/textualising-contiguity—reifying-or-elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought—devolving-as-of-instantiative-context>, in contrast to elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferencing-of-elucidation-outside—attendant–ontological-contiguity—educed–existentialising/contextualising/textualising-contiguity, which is what renders-operant/incidenting predicative-insights). It is only then that such an established institutionalisation framework allows for elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferencing-of-elucidation-outside—attendant–ontological-contiguity—educed–existentialising/contextualising/textualising-contiguity on
the basis of the established reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\), for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^9\). Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology\(^9\) before the institutionalisation of such a specific uninstitutionalised-threshold\(^{102}\) takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity\(^{47}\)–educated–existentialising/contextualising/textualising-contiguity\(^{40}\). At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ of positivism–procrypticism that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism or ‘disjointedness-as-of-reference-of-thought’–as-misappropriated–meaningfulness-and-teleology\(^9\) going by the visitor’s relative-ontological-incompleteness–of-reference-of-thought as of positivism–procrypticism, while the explainer of the situation has factored in notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\), for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^9\) to preempt the induced procrypticism or ‘disjointedness-as-of-reference-of-thought’–as-misappropriated–meaningfulness-and-teleology\(^9\) from the childhood psychopathy slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\), for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology to preempt the slanted inducing of procryptism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology and gives up on positivism—procryptism—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology with respect to its relations with the childhood psychopathy. Thus at this individuation-level uninstitutionalised-threshold with respect to the childhood psychopathy, a new notional—deprocrypticism—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology has superseded the prior positivism—procryptism—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism—psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism/social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-
informality- \{\text{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology}\} by formality dynamics; with the implication of lack of social universal-transparency- \{\text{transparency-of-totalising-entailing,-as-to-entailing-<amplitunding/\text{formative--epistemicity}>totalising--in-relative-ontological-completeness}\} as the manifestation is beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existent-unthought> at this uninstitutionalised-threshold, together with the inherent human complex of non-transcendability and hence unde-mentativity across all the registry-worldviews/dimensions. At this registry-worldview/dimension-level it is obvious that a straightforward articulation going by the incidental situation of such an individuation-level analysis will not be the case, but rather requires focussing on the bigger de-mentative/structural/paradigmatic picture of perversion-and-derived-perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-innonconviction/madeupness/bottomlining-as-to-shallow-supererogation. However, suggesting at the registry-worldview/dimension-level of analysis the ontological-veridicality/intrinsic-reality of a new notional-deprocripticism categorieal-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring--meaningfulness-and-teleology that implies that the registry-worldview/dimension is in circular-pervasiveness of procripticism or ‘disjointedness-as-of-reference-of-thought’ as-misappropriated-meaningfulness-and-teleology\text{will meet with a mental-complex of <amplituding/formative--epistemicity>totalising-self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage metaphysics-of-presence-(implicated-'nondescript/ignorable--void 'as-to-presencing—absolutising-identitive-constitutedness ) and can only arise as of a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Supposed with regards to a case of notions-and-accusations-of-sorcery as highlighted before as of a social-setup whose relative-ontological-incompleteness of reference-of-thought is non-positivistic, a positivism minded interlocutor arguing that notions-and-accusations-of-sorcery do not exist upon an accusation of sorcery is literally undermining itself but is seen as ontologically necessary for the crossgenerational possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Supposed however that the interlocutor isn’t an isolated individual but a member from a positivistic society bringing about a cultural diffusion in the non-positivistic society such that the latter looks up to the former by its prospective relative-ontological-completeness of reference-of-thought as it effectively has greater control on intrinsic-reality/ontological-veridicality reflected by way of say its relative technology, then in this case the non-positivistic social-setup will at least in ad-hoc instances be circumspect in countenancing that notions-and-accusations-of-sorcery do not exist as of

<amplituding/formative–epistemicity>totalising–self-referencing-

While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism\(^{77}\) condition of the child. Likewise, a visiting stranger in such a non-positivistic social-setup might just as well have a similar reaction as the visitor in a positivism–procypticism social-setup by believing and reacting to the childhood psychopathy manifestation as the non-positivism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of attendant–ontological-contiguity \(^{\sim}\)–educed–existentialising/contextualising/textualising-contiguity\(^{10}\)–in-reification/dereification entertains/is-cognisant-and-integrative-of/is-in-notional-contiguity/epistemic-contiguity \(<\)profound-supererogation –of-mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema>–with superstitious claims in its \(^{*}\)meaningfulness-and-teleology\(^{99}\). An explainer to the visiting stranger in the non-positivism social-setup case about the whole situation would have articulated at the individuation-level of analysis a prospective ‘logically-due prelogism\(^{17}\)–as-of-conviction,-in-profound-supererogation \(<\)existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at\(>\) apriorising/axiomatising/referencing- \{of-attendant–ontological-contiguity \(\sim\)educed–existentialising/contextualising/textualising-contiguity \}<\)conflatedness \(^{11}\)–in \{preconverging-disentailment by\}–postconverging-entailment as of positivism \(^{1}\)‘reference-of-thought– categorical-imperatives/axioms/registry-teleology\(^{99}\),-for-aposteriorising/logicising/deriving/intelligising/measuring–‘meaningfulness-and-teleology\(^{99}\),\(>\)
social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-aftereffect/aftereffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism\textsuperscript{77} indiividuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-positivism in lieu of an ontologically-veridical positivism reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology and a conventioning positivism-procrypticism as procrypticism in lieu of an ontologically-veridical notional-deprocrypticism reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology.

That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism\textsuperscript{77}/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing-as undermining apriorising/axiomatising/referencing-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-conflatedness in {preconverging-disentailment-by}-postconverging-entailment induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-
or-flawed <amplituding/formative–epistemicity>totalising~self-referencing-
syncretising/circularity/interiorising/akrasiac-drag that may induced its inclination for
desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the
fact of the relative contextual innocuousness with respect to social-stake-contention-or-

We can appreciate that the childhood psychopathy 'dereifying act' of spilling water on a chair is a distractiveness-drive with no existentially/ontologically veridical reference-of-thought which when wrongly implied as valid prelogism—as-of-conviction,—in-profound-supererogation

postlogism due to relative-ontological-incompleteness of reference-of-thought, and specifically in the case of positivism–procrypticism, due to disjointedness-as-of reference-of-thought. This equally underlies on the basis of dynamic-cumulative-aftereffect/aftereffect at the individuation-level and registry-worldview/dimension-level of analyses the notion of ‘decentering’ as of de-mentation (supererogatory–ontological de-mentation-or-dialectical de-mentation—stranding-or-attributive-dialectics), as the idea of value-reference if wrongfully ontologically construed as determined by the <amplituding/formative> wooden-language (imbued—averaging-of-thought-as-to-leveling/resentment/closed-construct-of meaninglessness-and-teleology as-of-nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications) as respectively non-positivism or procrypticism reference-of-thought, then in effect the phenomena of non-positivism/medievalism postlogism like notions-and-accusations-of-sorcery as well as psychopathic-postlogism and its social integration as of our procrypticism–or–disjointedness-as-of reference-of-thought will respectively be wrongfully construed to be of existential/ontological transcendental-enabling/sublimating/supererogatory–de-mentativity veracity. The bigger point being that symmetrisation implying mutual recognition of reference-of-thought can only arise where there is mutual appropriateness-of reference-of-thought-as-of-conflicatedness as existential/ontological transcendental-enabling/sublimating/supererogatory–de-mentativity veracity thus enabling the logical-dueness of both interlocutors to arise as of their soundness-or-ontological-good-faith/authenticity-of reference-of-thought in the very first place, notwithstanding thereafter the appropriateness or inappropriateness of the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation exercise which is then an altogether different issue of effective/ineffective logic as prelogism-as-of-conviction,-in-profound-supererogation <existentially-veridical–attendant-intradimensional>

Central to such a dynamic-cumulative-aftereffect/aftereffect registry-worldview/dimension-level analysis derived from such an individuation-level insight is the idea that social-functioning-and-accordance—as-of—social-stake-contention-or-confliction is contiguous as of meaningfulness-and-teleology as of the individuation-level and registry-worldview/dimension-level of analysis, notwithstanding it developing complexification as of dynamic-cumulative-after/effect as from the individuation-level to the registry-worldview/dimension-level and thus with a greater opportunity for the simplistic individuation-level childhood postlogism/psychopathy phenomenon relatively resolvable at that individuation-level to fail resolution with the myriad of such cases at the circular-complexification registry-worldview/dimension-level of more surreptitious adulthood pathological postlogism/psychopathy as the maturation/indirectness/spatialisation/credulity/craftiness induces ‘lack of constraining social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } with consequent conjugated-postlogism ‘involving beyond-the-consciousness-awareness-teleology -<in-preconverging-existential-extrication-as-of-existential-unthought> dynamics further associated with a generalised social ‘lack of constraining social universal-

aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology of our ‘lived social’ uninstitutionalised-threshold with respect to psychopathy and social psychopathy and procrypticism in general is a wholly new dramatically different depth of
(with the difference as of a ‘relatively lower sensibility’ arising just because of the new registry-worldview/dimension prospective relative-ontological-completeness\(^{87}\)-of\(^{87}\) reference-of-thought limiting/constraining on the possibilities of vices-and-impediments\(^{105}\)); implying an underlying ontological-contiguity\(^{67}\) of the reality of human temporal-to-intemporal mental-dispositions across all the registry-worldviews/dimensions. Thus while ‘ontologically superseding the prior beyond-the-consciousness-awareness-teleology\(^{99}\)-<in-preconverging-existential-extrication-as-of-existential-unthought>\(^{6}\) and prior ‘lack of constraining social universal-transparency\(^{103}\)-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } this does not imply apart from such institutionalisation-as-secondnaturing a change of human temporal-to-intemporal nature, given that this nature will further manifest at the prospective registry-worldview uninstitutionalised-threshold\(^{102}\) as its beyond-the-consciousness-awareness-teleology\(^{99}\)-<in-preconverging-existential-extrication-as-of-existential-unthought>\(^{6}\) and ‘lack of constraining social universal-transparency\(^{103}\)-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } inducing anew the new \(^{8}\) reference-of-thought owns threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^{9}\)-<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>. Anecdotally, we know as of our uninstitutionalised-threshold that in effect the technical constraints of the law tend to supersede the spirit of the law as it is naïve to think that a ‘sense of rightness’ is all that matters before the law, and this extends to human meaningful and organisational principles in general. Such that temporal-dispositions fulfilment of such ‘mechanistic’ effectiveness as

Thus such implied prospective \(^{83}\) reference-of-thought, social organisations and institutions as organic \(^{56}\) meaningfulness-and-teleology\(^{99}\) then tend to develop ‘subcultural reorientations’ that are ‘mildly alien’ and ‘on-occasional gravely alien’ to the (especially in the extended-informalities of the social and institutions) original organic-knowledge conceptualisation as of the implied prospective \(^{83}\) reference-of-thought social and institutions \(^{56}\) meaningfulness-and-teleology\(^{99}\). 81 reference-of-thought, as of prospective ontological-normalcy/postconvergence is to put into
perspective the idea that the present and as of our present social construction and individuations
as being relatively more exceptional than the solipsistic nature of humans in prior epochs is
false, with such wrongly implied exception rather being a confusion between ‘cumulated
institutionalisation’ (which we carry by being secondnatured at the backend in reflecting

drive solipsistic-choices are 5 maximalising-recomposuring-for-relative-ontological-

This notion of human mental-disposition and by extension 79 meaningfulness-and-teleology 99 as
comprising, rather as a more complete and grander conceptualisation, a registry-
worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold 102-facet,
so-construed by metaphysics-of-absence-implicited-epistemic-veracity-of-nonpresencing-perspective-ontological-normalcy/postconvergence, carries institutionalisation and uninstitutionalised-threshold implications with respect to the determination of ontologically-veridical meaningfulness-and-teleology as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. Such metaphysics-of-absence-implicited-epistemic-veracity-of-nonpresencing-perspective-ontological-normalcy/postconvergence considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold implications with respect to ‘a social prentence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’), like deferential-formalisation-transference, ordered-construct, percolation-channelling-in-deferential-formalisation-transference and transversality-for-sublimating-existential-eventuating/denouement-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing. Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic meaningfulness-and-teleology (as ‘moulting’ firstnature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory-de-mentativity) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific meaningfulness-and-teleology as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity), given the social non-positivism/medievalism uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-awareness-teleology—<in-preconverging-existential-extrication-as-of-existential-unthought>. This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality mental-disposition that conceive of positivistic meaningfulness-and-teleology in the uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of <amplituding/formative-epistemicity> causality as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling—<in-deferential-formalisation-transference> possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-
mentativity as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnaturing prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling-\(<\text{in-deferential-formalisation-transference}\>) and transversality-\(<\text{for-sublimating-existential-eventuating/denouement}>\text{-of-affirmative-and-unaffirmative-disambiguated-'motif-and-apriorising/axiomatising/referencing'}\>\). In another respect, with regards to scientific meaningfulness-and-teleology and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity that induces social deference to formal knowledge constructs and other formal constructs, on the basis that that will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal \(<\text{amplituding/formative}>\text{wooden-language-}\{\text{imbued—averaging-of-thought—}\text{as-to-leveling/ressentiment/closed-construct-of—}\text{meaningfulness-and-teleology—}\text{as-of—}\text{‘nondescript/ignorable—void—’with-regards-to-prospective-apriorising-implications—}\}\) mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/supererogatory~de-mentativity by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness’-of-reference-of-thought increasingly defer domains of meaningfulness-and-teleology more and more to formal constructs while increasingly reducing the sphere of the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) as of its free-for-all nature. The bigger point being that even in our positivism–procrusticism registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific meaningfulness-and-teleology terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal wooden-language-(imbued–averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications) mental-
dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding virtue (as of aetiologisation/ontological-escalation), and not ‘human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications}> mental-dispositions and projections’. Hence the construal of knowledge construct in such domains that are spurious and blurry as with respect to postlogism /psychopathy social implications should as of precedence be about articulating the illuminating insight that ultimately allows for the attainment of their own deferential-formalisation-transference based on ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’, and undermining a social relations with regards to knowledge and virtue that
is based on ‘social consensus as of social-aggregation-enabling by human temporal

knowledge. The afore elucidations are mainly to point out that it is naïve to construe the
analysis of postlogism phenomenon including psychopathy on the assumption of an overall
‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social
as of the present as metaphysics-of-presence—{implicit—nondescript/ignoreable—void ’—as-to-
presencing—absolutising-identitive-constitutedness } instead of assuming a ‘human temporal
uninstitutionalised-threshold mental-disposition’ of the social by prospective metaphysics-of-
absence—{implicit-epistemic-veracity-of- nonpresencing—<perspective—ontological-
normalecy/postconvergence—}, since the construal of our postlogism as of psychopathy and
social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic-or-
notional—projective-perspective, reflected from futural Being-development/ontological-
framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—
meaningfulness-and-teleology as of prospective notional—deprocrypticism registry-
worldview’s/dimension’s reference-of-thought. Insightfully, by metaphysics-of-absence—
{implicit-epistemic-veracity-of- nonpresencing—<perspective—ontological-
normalecy/postconvergence—} we can appreciate this logic with respect to notions-and-
accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-
positivism/medievalism social-construct mental-disposition is one of human registry-
worldview’s/dimension’s institutionalisation of an intemporality—drive whereas in fact it is
one of human uninstitutionalised-threshold of temporalities-drives such that it is
endemised/enculturated in various temporality/shortness shades
(ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩ in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal preconverging–dementating/structuring/paradigmating and not intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–dementating/structuring/paradigmating as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as de-mentatively/structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of being at the backend in reflecting holographically-⟨conjugatively-and-transfusively⟩the ontological-contiguity—as-of-the-human-institutionalisation-process of institutional-cumulation/institutional-recomposure-⟨as-to—historiality/ontological-
normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence \{(implicated-epistemic-veracity-of:nonpresencing-\langle perspective–ontological-normalcy/postconvergence\rangle)\}/postdication with reference-of-thought–categorical-imperatives/axioms/registry-teleology subservient to that purpose, and not about the temporalities-drives as ‘mere adherence as intradimensionally deterministic by form’ to reference-of-thought–categorical-imperatives/axioms/registry-teleology as these are failing/not-upholding-\langle as-of-apriorising/axiomatising/referencing\rangle intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence \{(implicated-epistemic-veracity-of:nonpresencing-\langle perspective–ontological-normalcy/postconvergence\rangle)\}/postdication rather than upholding it, their very raison d’être. Interestingly, supposed by some circumstance an individual of a positivistic insight found themselves in a non-positivistic community, whether base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness of reference-of-thought, by ‘intemporal-prioritisation-of reference-of-thought’–as-conflatedness-or-ontological-reprojecting its mental-disposition will be to unleash its maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation intemporality-drive to supersede the non-positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more than just the circumstantial situation will equally appreciate that positivistic thinking over
animistic or medieval thinking will go a long way in improving the community’s existence. It is interesting to grasp the difference in the dereifying and reifying construal of attendant-ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought and respectively as of their divergent non-positivists dereification perspective and positivist reification perspective; as seeing the positivist stranger walking into the supposed ‘evil forest’ will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition going by their supernatural conception of attendant-ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity –in-reification/dereification as of their prior relative-ontological-incompleteness-of-reference-of-thought, contrasted with the positivist naturalist conception of attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity –in-elucidation-or-reification as-seeking-a-cure as of its prospective relative-ontological-completeness-of-reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism–procrysticism registry-worldview/dimension as of its prior relative-ontological-incompleteness-of-reference-of-thought, as the notion of proof/evidence is more critically tied down to attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity –reification as of singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity <-profound-supererogation-of-mentally-
aestheticised-postconverging/dialectical-thinking –qualia-schema> in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter meaningfulness-and-teleology as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the universal ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the de-mentative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness of reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag>; with the implication that such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning contortion is rather in transversality.<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing of the prior relative-ontological-incompleteness of reference-of-thought and the contorted prospective relative-ontological-completeness of reference-of-thought from their respective existentialism intelligibility stances. metaphoricity\(^7\) that is ‘beyond the prior relative-ontological-incompleteness\(^8\) -of- reference-

implies that there is ‘nothing any more important than upholding the metaphoricity\(^7\) possibility
for prospective relative-ontological-completeness\(^8\) -of- reference-of-thought’; as
transcendental instigation can’t be of ordinary inclination at one moment and at another
moment of transcendental inclination, as this will only ‘teleologically-degrade and devalue’ the

Such a prospective ontological conception of asceticism rather as of reasoning-through/messianic-reasoning asceticism, different from asceticism as reasoning-from-results/afterthought or institutional asceticism, should basically be understood as of the general notion that all human meaningfulness-and-teleology are naturally ‘correlate-aesthetic-constructs as of the various reproducibility—mathesis/motif/thrownness-disposition,–as—reproducibility-of-aestheticisation in successive prior relative-ontological-incompleteness-towards-ontological-completenesss-of-deprocrypticism’ as of their specific reflection of the very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to—

Hence such a notion cannot be construed on the basis of ordinarily assumed ‘meaningfulness-and-teleology’ aposteriorising/logicising/deriving/intelligising/measuring which doesn’t put into question its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it is rather submerged/drowned into it by mental-disposition reflex; but rather as implied as of reasoning-through/messianic-reasoning, such a hermeneutic/reprojecting/supererogating/zeroing psychology is more about instigating a parrhesiastic psychoanalytic-unshackling soul-searching acumen. In this regard, it is akin for instance to budding-positivism reasoning-through/messianic reasoning implied within a non-positivism/medievalism social-setup, in the sense that that budding-positivism reasoning-through/messianic reasoning then ‘is-not reasoning-as-yet’ as reasoning is then as of the non-positivism/medievalism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘as non-positivism reasoning susceptible to superstition and medieval-scholasticism-like notional–pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing<-amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness} construed as 'universalisation-directed-rulemaking-over-non-rules—

It should be noted that the way the construction of knowledge works at ‘reference-of-thought-level of reasoning-through/messianic-reasoning is utterly counterintuitive to how we perceive prospective elucidation of human knowledge and emancipation going by the given reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of ‘reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for ‘meaningfulness-and-teleology’ aposteriorising/logicising/deriving/intelligising/measuring. apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring is the route for ontologically-veridical human knowledge transformation and emancipation in futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism is very much alien to our positivism—procrypticism cloistered-consciousness. In both instances the notion of prospective metaphoricity is one that necessarily faces the fact that the human mind is ever always entrapped in an existentially-invested ‘epistemic-totality’/reference-of-thought/epistemic-totalising~self-referencing-syncretising/circularity conception of meaningfulness-and-teleology which effective dislodgment/displacement/decentering is as of a crossgenerational instigation, but then wouldn’t happen just by accident and thus has to be instigated for prospective relative-ontological-completeness! In fact such an insight can be extended across ‘intemporal ontological-faith-notion-or-ontological-fideism—from-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity of-the-human-institutionalisation-process as of difference-conflatedness—totalitative-reification-in-singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>—as-veridical-epistemicity—relativism-determinism <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective- nonpresencing—for-explicating-ontological-contiguity’ to imply that the state of recurrent-utter-uninstitutionalisation is cognisant of emancipation but doesn’t anticipate that emancipation as of prospective relative-ontological-completeness is rather as of base-institutionalisation reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, and likewise the latter doesn’t anticipate the universalisation reproducibility—mathesis/motif/thrownness-

supererogation<as-to-perspective–ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming> as of <amplituding/formative–epistemicity>causality<as-to-projective-totalitative–implications-of-prospective-nonpresencing–for-explicating-ontological-contiguity>. But then the human reality across all registry-worldviews/dimensions, isn’t inherently ‘of immediate intellectual responsiveness’ to the notion of its uninstitutionalised-threshold and the corresponding superseding of this as of prospective institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus, but then paradoxically from the beginning of times superstitious beliefs had pervaded all the echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ of human <amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology/reference-of-thought/devolving. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its preconverging-or-dementing–apriorising-psychologism uninstitutionalised-threshold which it tends to represent as nondescript/ignorable–void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing–narratives), for the possibility of its prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity into prospective institutionalisation. This reality is known as human ‘supererogatory–de-mentative constraint’ to prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as
of the possibility of prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought. Human supererogatory-de-mentative constraint is fundamentally associated with poor universal-transparency {transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} with respect to social-stake-contention-or-confliction at uninstitutionalised-threshold\textsuperscript{105}. This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of <amplituding/formative> wooden-language {imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology} as of the prior institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{99} that stifle the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness\textsuperscript{88}, for resolving a given registry-worldview/dimension vices-and-impediments\textsuperscript{105}; this notion of human supererogatory–de-mentative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as implied by a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ that emphasises the ‘Lacanian subject’ growth as of de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics), rather than a second-guessing mented or
that human temporal willing/volition can effectively supersede the ontological integrity/veracity of meaningfulness-and-teleology as it reflects existence’s coherence/contiguity as of singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemicity-relativism-determinism. But then such a decontortioning disposition as can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitional of our uninstitutionalised-threshold where we are actually preconverging-or-dementing—apriorising-psychologism and prospectively dialectically-primitive, notwithstanding our attendant amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and vague untransvaluated–temporal-intemporality gesturing. The ontological-contiguity—of-the-human-institutionalisation-process can thus be construed as one of increasingly undermining the human subject temporal decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness; wherein across the successive institutional-cumulation/institutional-recomposure-⟨as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’⟩, decontortion is ontologically-constrained both as of the ‘dynamic construal of appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal of appropriate-as-intemporal existential human mental-disposition’. The former is ontologically-constrained as of amplituding/formative-epistemicity>causality—as-to-projective-totalitative-implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity in undermining the human temporal inclination to phenomenality/phenomenal-manifestation decontortion, while human temporal mental-disposition for decontortion is additionally ontologically-constrained with availability of
Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to decontortion as of blurriness and emotional-involvement. In another respect the implications of flawed identitive-constitutedness as-‘epistemic-totality’-dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > as-flawed-epistemicity-relativism-determinism as of dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemicity-relativism-determinism also has implications with the ontological-performance-<including-virtue-as-ontology> as of the effective productivity potential of human knowledge construction. In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness as-‘epistemic-totality’-dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > as-flawed-epistemicity-relativism-determinism implied as of dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemicity-relativism-determinism that in many ways ignores/overlooks knowledge-reification—gesturing-<in-

seems to imply that all along its practice human psychological illnesses have multiplied many
times over as of ever transforming and expanding formalisation credo, while the analytical
tradition of philosophy by the avowals of its internal critics has been involved in a recurrent
second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation
outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study
ecstatically allows for such an attitude/mental-disposition/care–and–episteme. Such an
approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather

existentialising/contextualising/textualising-contiguity[]. Such that beyond its abstracting
exercise, as when it returns in striving to supposedly elucidate social and other existential

precedingly/supersedingly as of ‘ecstatic totalising-entailing/nested-congruence’, with the
consequence that it naively construes of reification as simply projecting ‘the supposedly
reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential
phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-

With the very blurry nature of the social, even with the best of intentions as when continental philosophers try to engage the analytic tradition, the experience has often turned out poorly given the failure to explicitly grasp/appreciate the conflicting implications of their differing knowledge commitments as of supposedly coherent ontological-commitment `<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming –as-being-as-of-existing-reality>` implied ecstatic-totalising-entailing/nested-congruence with the former and logical-commitment implied atomising/taking-to-pieces formalisation with the latter; even as going by conceptual-patterning-(as-devoid-of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity ’s–reifying-or-elucidating-of-‘prospective-relative-ontological-completeness ’;–so-rather-enabled–<by-a- nonpresencing-divulging-of-momentous- historiality/ontological-eventfulness /ontological-aesthetic-tracing,<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism–determinism’>), it can be naively implied that similar conceptual wordings imply similar knowledge commitments and operant articulations. In the same vein, one can say that notions like spacetime, force, atoms, etc. in the physics `<amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality are inherent supposedly coherent ontological-commitment `<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming –as-being-as-of-existing-reality>` about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ that are in need of knowledge-reification–gesturing–<in-prospective psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }— conflatedness ~in {preeconverging-disentailment_by} postconverging-entailment> as of
ontological-commitment `<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> ‘concurrent formatting as formalisation’ being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ towards that purpose. Such reflecting-and-constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficultly be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its `<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag` presumption; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ that provides the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ insight about supposedly coherent ontological-commitment `<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality>` articulated as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-
existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of explicited/implicated coherence/contiguity with another/other ‘transversally devolving-or-complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-commitment implying self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality> in producing knowledge as ‘meaningfulness-and-teleology’; such that critically, appropriate philosophical phenomenal insight with regards to ‘the general and normal day to day experience about living itself’ as of observational and articulated ontological-pertinence sufficiency, and as supplemented with the grasp and engagement with other philosophical works, speaks of veridical scientific insight and validity subject to amplituding/formative–epistemicity> causality –as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity, and so because such well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’ in the philosophical domain-of-study is generally more ontologically profound and comprehensive as of apriorising/axiomatising/referencing–of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity}
confounded in preconverging disentailment by postconverging entailment than any contrasted ad-hoc and focussed domain study, even though such domain studies may be insightfully relevant in specific ways but still as of the more profound background of well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’. The point here is to highlight that by its very given domain-of-study with respect to overall existence, philosophical knowledge more profoundly makes a totalising-entailing apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed– existentialising/contextualising/textualising-contiguity }—confoundedness in preconverging disentailment by postconverging entailment demand on human living experience for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ than other more specific domains-of-study for which ad-hoc and focussed domain study methods are pervasively decisive for ontological pertinence. But then this is more a question of ‘expanded onticising construal of existence as of <amplituding/formative–epistemicity>totalising~devolved purviews of existence so-construed as subject-matters/domains-of-study’. The ontological-veracity and epistemic-veracity of all such <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality are effectively as of the very same underlying congruent philosophical domain-of-study construal of ecstatic manifestation of existence but for their ‘onticising specifisms of existence’s ecstatic manifestation’; as so-implied as of overall existence metaphoricity /ecstasy reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility ⟨imbued-and- {hermeneutically/reprojectively/supererogatingly/zeroingly}educing ‘herein-specifically-relevant human-subpotency’–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation⟩ as of supervening-confoundedness\[\textsuperscript{11}\]. necessarily instigated as from a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. Insightfully, while in many ways such an elucidation hardly needs to be explicited in many a natural science domain-of-study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of causality as to projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity as to existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression, this unexplicated implicitness should not be confused with the notion that the natural sciences are essentially reduced to their science approaches and methodologies; as is often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding the ‘onticising specifisms of existence’s ecstatic manifestation’ of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with attendant–ontological-contiguity as of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity}—conflatedness in {preconverging–

In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising specificity of existence’s ecstatic manifestation’ as of the amplituding/formative–epistemicity totalising–devolved–purview–as-domain–of–construal–as–intrinsic-reality/ontological-verbatim of natural sciences; with the implication that the philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the implicated nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidation outcomes as of amplituding/formative–epistemicity causality as-to-projective-totalitative–implications-of-prospective nonpresencing, for-explicating-ontological-contiguity will seem to wrongly imply otherwise. Ultimately the bigger issue arises as of the poorly-singularised/poorly-immanented nature of many a social domain-of-study unlike the grand singularised/immanented totalising/circumscribing/delineating \(<\text{amplituding/formative–epistemicity}>\) reference-of-thought\(^8\) devolving \(<\text{postconverging–narrowing–}

Critically, lost to many naïve ‘science ideologues’ preaching about modelling the social domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their ‘cogent-unifying-operant-dynamics’ from whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without precedingly construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educted—existentialising/contextualising/textualising—contiguity }—confuted—in—{preconverging-disentailment—by}—postconverging—entailment that points to the specific scientific methodology of relevance or irrelevance, given that in certain cases the qualitative nature of things will for instance render statistical and

This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in many social domains-of-study, including domains like medical and healthcare practice for instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative address the displacement/decentering-of-the-human-subject in reflecting the need to undermine human destructuring-threshold\{(uninstitutionalised-threshold /presublimating−desublimating−decisionality)−of-ontological-performance \}<\{including-virtue-as-ontology\> to further advance its constructive/institutionalising/nascent−sublimating-decisionality nature thus overcoming underlying logocentrism as of prospective relative-ontological-completeneness transcendentaland-sublimity implications, and thus reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness\}\{ and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness\} as of the <amplituding/formative−epistemicity>causality −as-to-projective-totalitative−implications-of-prospective−nonpresencing,"for-explicating-ontological-contiguity of apriorising/axiomatising/referencing-\{of-attendant−ontological-contiguity ~educated−existentialising/contextualising/textualising-contiguity \}|―conflicatedness | in \{preconverging−disentailment by\} postconverging−entailment. This lack is quite often reflected in such misconstrued analyses of traditional philosophical figures by a failure to understand the overall coherent narrative of such figures as of an atomising/taking-to-pieces predisposition to identitive-constitutedness -as-epistemic-totality -dereification-in-dissingularisation<as-to-the-disjointedness/disentailment-of-presencing-absolutising-identitive-constitutedness>-as-flawed-epistemicity-relativism-determinism ending up quite often claiming the incoherence of such figures and/or of their narrative accounts, and so in a ‘naïve insight’ arising exactly because the possibility for understanding requires the critic’s own parrhesiastic insight and then hermeneutic/reprojecting/supererogating/zeroing conceptualisation to then develop the capacity to grasp first of all such traditional philosophical figures underlying knowledge-reification-gesturing-in-prospective.psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity}—conflatedness—in-{preconverging-disentailment-by}–postconverging-entailment> process/gesturing and thus be able to understand how such knowledge-reification-gesturing—in-prospective.psychologismic-apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity}—conflatedness—in-{preconverging-disentailment-by}–postconverging-entailment> process/gesturing develops and why, and thus enabling the grasp not only of the accuracy of narrated accounts and notions but equally insight about the nuanced and covertly narrated accounts and notions, and all these while being informed by the immediate and broader underlying social background and implicated social and philosophical stakes of contention-and-confliction. In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing analytical insight actually converges with the epochal philosophical implications of attendant—
ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity in apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity} conflatedness in {preconverging–disentailment by} postconverging-entailment and are actually more scientifically profound in that respect than meets the eye as to the fact that such analyses are more than just ‘archivistic retrieving’ but de-mentatively/structurally/paradigmatically conceptualise the extended existential possibilities of falsifiability and validation in determining ontological-veracity as of a critical exercise of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity, and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’.

In this regards, such hermeneutic/reprojecting/supererogating/zeroing and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the de-mentative/structural/paradigmatic possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel universalising-idealisation that ‘runs-through/is-deflating’ by its evental -instigation traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced universalising-idealisation transformative meaningfulness-and-teleology infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a presencing—absolutising-identitive-constitutedness orientation that Socratic-philosophers were institutionally ‘anti-democratic’, going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the
prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning-as-devoid-of-attendant-ontological-contiguity-educed-existentialising/contextualising/textualising-contiguity-s-reifying-or-elucidating-of-

<perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism’⟩ as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic-philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the comprehensive process of our modern democracy’ such that modern-day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition—as-reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism-imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality dimensionality-of-sublimating ⟨<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-

Likewise, the transformative nature of budding-positivism more than just as garnered from the precised narrative accounts about budding-positivist thinkers, lies more profoundly with its meaningfulness-and-teleology infrastructure impact on the developing enlightenment social
developments and as this budding-positivism metaphoricity epistemically-riochettingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic/reprojecting/supererogating/zeroing insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extent that that deference fulfils its promise of knowledge-
entailment> for prospective human transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity’. In this regards, the transcendental-and-
sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as
hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social
domain-of-study and even some of the natural sciences as of naïve science-ideology, and so
because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-
existence-implications there need to be ‘human intemporal contemplation that abstractly

In the bigger picture, the above human meaningfulness-and-teleology aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility {imbued-and-

Another criticism is the inclination for such atomising/taking-to-pieces formalisation predisposition to start out with ad-hoc disparate conceptualisations as of identitive-constitutedness’-as-‘epistemic-totality ’-dereification-in-dissingularisation¬as-to-the-

nondisjointedness/entailment-of-prospective- nonpresencing> -as-veridical-epistemicity-relativism-determinism . The implication here is that quite often when required to explicate
social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very wooden-language-⟨amplituding/formative⟩ averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of⟩ meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’-⟨with-regards-to-prospective-apriorising-implications⟩ that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural reification/elucidation projection as from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought, failing to factor in the attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘⟨meaningfulness-and-

Such a construal of relative truth doesn’t imply a lack of commitment in truth, but is utterly the contrary as of ‘a much more critical and ontologically decisive commitment to truth and growing truth’ as any pertinent critique can garner in Foucault’s truth-delogocentering works/research-programme and its extensive interpretational citability in other scholarly works/research-programmes as of its scholarly advancing of the humanities and social sciences; as his works/research-programme quest for truth ‘expands the conception of truth beyond our presencing–absolutising-identitive-constitutedness’; \textless amplituding/formative–epistemicity\textgreater totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions as if all the world that has ever existed is as of ‘presencing–absolutising-identitive-constitutedness’, and displaces/decenters the human subject as of its presencing–absolutising-identitive-constitutedness cloistered-consciousness for a more mature and nuanced conception of truth and the implications of truth; and so, beyond the contemplation of naïve atomising/taking-to-pieces formalisation dereifying rhetorisations that border on \textless amplituding/formative\textgreater wooden-language\textlangle imbued—averaging-of-thought\textrangle\textless as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology–as-of–nondescript/ignore\textgreater–void ’-with-regards-to-prospective-apriorising-implications\rangle populist interpretations rather than elevating human ontological construal of the social domain-of-study!

Consider in this regard that the repeated 5 maximalising-recomposuring—for-relative-ontological-completeness —unenframed-conceptualisation articulation by this author on the theme of conceptual-patterning here further complements as of further articulated reification of this very theme elsewhere herein, more than just about a mechanical repeating; and this knowledge-reification—gesturing—<in-prospective_psycho

of-study). In this regard, the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve conceptual-patterning conception of knowledge; going by their profound association with earlier scholars and more specifically Heidegger and Nietzsche. From a creative knowledge-reification–gesturing<in-prospective_psychologismic–apriorising/axiomatising/referencing-
{of-attendant–ontological-contiguity ~educted–existentialising/contextualising/textualising-contiguity }—conflatedness ~in–{preconverging-disentailment by}–postconverging-entailment> construal perspective, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual-patterning of concepts originarily/as-of-event available to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual-patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual-patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative knowledge-reification–gesturing<in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educted–existentialising/contextualising/textualising-contiguity }—conflatedness ~in–{preconverging-disentailment by}–postconverging-entailment> <amplituding/formative–epistemicity> causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human<amplituding/formative–
epistemicity> totalising–purview-of-construal’, with the intellectual’s job to the best of their abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior
thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying-or-elucidating the headway as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for knowledge-reification-gesturing—<in-prospective_psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity ~educated—existentialising/contextualising/textualising-contiguity }—conflatedness —in—{preconverging-disentailment—by—postconverging-entailment}, inducing successive differences of ontological-performance—<including-virtue-as-ontology> of meaningfullness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human—amplituding/formative—epistemicity—totalising—purview—of—construal’ with increasing prospective relative-ontological-completeness’. This is especially the case where such headway mirrors ‘pure-ontology’ articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a solid ontological pathway just as physicists orientation and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth, in both instances as of their knowledge-reification—gesturing—<in—prospective_psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological—contiguity ~educated—existentialising/contextualising/textualising-contiguity }—conflatedness —in—{preconverging-disentailment—by—postconverging-entailment}. Ultimately, and it is herein contended that the various scholarly contributions to postmodern-thought can be understood as rather pointing to the de-mentative/structural/paradigmatic disseminative implications of futural Being-development/ontological-framework-expansion—as-to—depth-of—ontologising-development—as-infrastructure—of—meaningfulness-and-teleology as of
prospective deprocripticism—or—preempting—disjointedness-as-of-reference-of-thought ontologically-veridical difference-conflatedness—as-to-totalitative-reification-in-singularisation—<as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing>—as-veridical-epistemicity-relativism-determinism. We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative metaphoricity’ orientation making the human subject thinking as of mathesis universalis conceptualisation central’ reflected by Descartes ‘I think therefore I am’, and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/poria ‘left it’ to existence as of <amplituding/formative-epistemicity>causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity to ‘continually select’ rational-empiricism/positivism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, leading to our present refined positivism/rational-empiricism conception! But then because our present ‘positivism—procripticism human subject is rather undecentered’ relative to the prospective postmodern—notional—deprocripticism self-conscious mindset we fail to truly appreciate the dementative/structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of ‘leaving it’ to existence as of <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity as the veritable transcendental-

On the other hand, recurrent conceptual-patterning predispositions and orientations arise because of poor appreciation/reference for judging knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals, ‘apparently and falsely surpass existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’. Such institutional nombrilistic inclinations operate on the naivety that institutional processes are inherently reifying by their mere infrastructure and deferential-formalisation-transference, and set up enframed constraints that are in many ways self-defeating for the purpose of profound knowledge-reification—gesturing—prospective_psycho...

We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. This immanence-function-conflatedness inspiration is effectively what marks prospective deprocryticism/preempting—disjointedness-as-of- reference-of-thought as of an utterly different protensive self-consciousness from our hesitant and occlusive positivism–procrysticism self-consciousness. Hence existence’s ecstatic singularity is very much akin with the Deleuzian plane of immanence construed herein as of existence’s ecstatic singularity immanence/internal-necessity <amplituding/formative–epistemicity> causality ~as-to-

Immanence-function-conflatedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness and prior relative-ontological-incompleteness is fundamentally flawed as of apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity ~educed–

Thus metaphoricity of non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a positivism mindset registers as of positivism immanence-function-conflatedness reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstitution, spiritualism, etc. This same conception holds with the notional–deprocrypticism immanence-function-conflatedness overriding the “meaningfulness-and-teleology” of procrypticism–or–disjointedness-as-of-reference-of-thought mindset ‘supposedly in an objectifying/contending discursivity’ with the notional–deprocrypticism mindset, as the latter reflects the underlying positivism–procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of-reference-of-thought. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring, with immanence-function-conflatedness implying that all the meaningfulness-and-teleology is necessarily as of the prospective relative-ontological-completeness over the prior relative-ontological-incompleteness; respectively as of positivism and deprocrypticism. If by anticipation we do know immanently that a non-positivism mindset is bound to a non-positivistic-as-existentially-superstitious apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of de-
mentative/structural/paradigmatic internal-necessity/determinism insight from positivism immanence-function-confoundedness with the obviousness there is no point implying an ontologically-flawed objectifying/contending discursivity in assessing the non-positivism existentially-superstitious inclination, the same implication will extend to notional–deprocrypticism immanence-function-confoundedness as of de-mentative/structural/paradigmatic internal-necessity/determinism insight with regards to anticipating the disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument mindset of our positivism–procrypticism mental-disposition with no pretence of such a positivism–procrypticism ontologically-flawed objectifying/contending discursivity in assessing the disjointedness-as-of-reference-of-thought inclination. In other words, immanence-function-confoundedness is all about reflecting the straightforwardness of amplituding/formative–epistemicity causality as-to-projective-totalitative–implications-of-prospective-nonpresencing, for explicating ontological-contiguity as of singularisation as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemicity-relativism-determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive predisposition to make of its objectifying/contending discursivity as de-mentatively/structurally/paradigmatically deterministic by mere mental-reflex of naively elevating prior relative-ontological-incompleteness meaningfulness-and-teleology as if of prospective relative-ontological-completeness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument. Immanence-function-confoundedness equally highlights knowledge as of its essential organic construct implications. As an apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity } constitutedness in preconverging entailment predisposition tends to imagine that knowledge
is basically a cumulative exercise to an already soundly postconvergingly–de-
mentated/structured/paradigmed mindset, but nothing could be farther from the truth as
knowledge is really an exercise of re-forming-or-reshaping-as-transforming the
postconverging–de-mentating/structuring/paradigming of the mind. In other words, it is rather
vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an
unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a
further complexification of the non-positivism mindset
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a
reflection as ‘God-of-plane’ in a non-positivism animistic social-setup, speaking of non-
positivism complexification and not positivism knowledge acquisition. This is effectively what
validates the notion of the ‘decentering of the human subject’ as central to the very notion of
organic knowledge as it enables prospective transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-
completeness –of- reference-of-thought. Such a ‘decentering of the human subject’ implies
that the false ontological-certitudes of the non-positivism mindset as of its non-positivism
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily
ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism
social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced
curing eliciting psychoanalytic-unshackling with respect to the non-positivism
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its
superstitious value-reference structure is shown to be inadequate given that it is the violation of
that non-positivism value-reference that is what carries the potential for its prospective
emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic
knowledge as of its transcendental implications cannot imply that the
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of a prior

The study of the social as of immanence-function-conflectedness insight grasp that the blurriness, <amplituding/formative-epistemicity> totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and remoteness of cause-and-effect invoke a more refined conception of <amplituding/formative-epistemicity> causality as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity as reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability and validation is more in line with the Lakatosian research-programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining
immediate cause-and-effect determination, renders knowledge validation more of a ‘construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive research-programme implications’, but this should however implicitly reflect concurrently the underlying notions of falsifiability\(^2\)-or-deferring-falsifiability\(^2\) and validation-or-deferring-validation. It is herein contended that it is the implicated orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough knowledge-reification–gesturing in their scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes’ turn out to be of weaker existential ramifications. This insight equally informs the supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—anteriorising-psychologism herein that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further knowledge-reification–gesturing—in-prospective-psychologism–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity }— conflatedness—in-[preconverging-disentailment by]–postconverging-entailment> in their disposition for advancing overall knowledge-notionalisation level reflecting the ontological-contiguity—of-the-human-institutionalisation-process as to transversality—<for-sublimating–existential-eventuating/denouement>—of-affirmative-and-unaффirmative—

immanence-function-conflatedness insight in the study of the social as of its inherent complex
nature is certainly justified to adhere to a research-programme epistemic model as herein
articulated. In another respect, while intellectualism as of organic knowledge implications in
many ways commands massive social deference and adherence, it is equally important not to
naively assume that at uninstitutionalised-threshold \textsuperscript{102}, human existential-investment as of its
temporality /shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent
in the sense that transcendental knowledge is articulated mostly as of its undermining of human

Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procrpticism social-setup to perceive our positivism–procrpticism humanistic knowledge system as absolute; it is immanence-function-conflicatedness\textsuperscript{10} by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity\textsuperscript{7}—of-the-human-institutionalisation-process\textsuperscript{8} as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9} conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions reference-of-thought. With such immanence-function-conflicatedness\textsuperscript{10} insight, the epistemic and methodological pretences as of our humanistic positivism–procrpticism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge
cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic postconverging–dementating/structuring/paradigming as of their ultimate knowledge-reification–gesturing–in-prospective psychologismic–apriorising/axiomatising/referencing–of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—

conflatedness ~in–{preconverging-disentailment by}–postconverging-entailment> as knowledge construed as their research-programmes. This speaks of the fact that such a conception of epistemic commitment as of research-programme is effectively one of epistemic singularisation–as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism so-implied as of ontological-normalcy/postconvergence associated with ontologically-uncompromised—referentialism deprocrypticism; and very much overcoming the limiting effect of our present conception of epistemic commitment as rather dissingularisation–as-to-the-disjointedness/disentailment-of–presencing—absolutising-identitive–constitutedness > /epistemic-nonimmanence/flawed-epistemicity-relativism-determinism as of ontologically-compromised—categorising positivism–procrypticism. Thus, if immanence-

Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of...
their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence-and-sublimity/sublimation/supererogatory–de-mentativity wouldn’t be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs as to conflict with the naïve social ‘sense of presence’ as absolute, and so because it is all about the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human-<amplituding/</formative–epistemicity>-totalising–purview-of-construal’ but with contrastive underlying relative-ontological-incompleteness ~/relative-ontological-completeness |

transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. While today that	onight of contrariety has in many ways sanked in and been accepted with natural science
knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter
is that the possibility of the profound study and emancipation of the social inevitably comes
with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was
what brought about the positivistic mindset today that allowed for modern-day science to
develop and just as well modern-day social science, it is inevitable that a further development
of human knowledge as of its organic knowledge construct warrants a further ‘decentering of
the human subject’ as implied by \deprocrypticism-or–preempting—disjointedness-as-of-

intrinsic-reality/ontological-veridicality, the ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality<-for-sublimating–existential-eventuating/denouement>-of-affirmative-and-unaffective–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ constraining to the ‘superior party’ that is existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of ‘human-subpotency in its amplituding-formative–epistemicity-totalising→self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical meaningfulness-and-teleology implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by amplituding-formative–epistemicity-causality→as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity. Thus intemporal ontological-performance-{including-virtue-as-ontology} ever always warrants huma prospective relative-ontological-completeness-of-reference-of-thought for empowering and responsible meaningfulness-and-teleology for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance-{including-virtue-as-ontology} arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic asksis-
or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency’\(^\text{–<including-virtue-as-ontology>}\) equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human <amplituding/formative–epistemicity>totalising–thrownness-in-existence\(^3\) the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory–de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipating possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic <amplituding/formative> wooden-language-{imbued–averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology –as-of–‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance\(^7\)-<including-virtue-as-ontology> as of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence\(^5\) induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. It is this insight that validates the ontological-veracity of the conception of ‘human
contiguity in accounting for human differences of ontological-performance\textsuperscript{72} -\textlt<including-virtue-as-ontology> across the \textlt<cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions \textsuperscript{81} reference-of-thought-level of ontological-performance\textsuperscript{72} -\textlt<including-virtue-as-ontology> as well as the temporal-to-intemporal differences of ontological-performance\textsuperscript{72} -\textlt<including-virtue-as-ontology> as of each registry-worldview’s/dimension’s \textsuperscript{81} reference-of-thought-\textsuperscript{84} devolving-level, rather than flawed impression-driven/good-naturedness/wishfulness conceptualisation as of inherent identitive essences flawed accounting of human differences. This idea of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’ fundamentally harkens back to the notion of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of its ‘seeding promise of human-subpotency ontological-performance\textsuperscript{72} -\textlt<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’; wherein successive prospective relative-ontological-completeness\textsuperscript{81} -of- reference-of-thought generate de-mentative/structural/paradigmatic existential implications as of ‘successive specific less-and-less-degenerate human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’ with respect to the \textlt<cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions construction-of-the-Self, as of their ontological-performance\textsuperscript{72} -\textlt<including-virtue-as-ontology>-and-ones-and-impediments\textsuperscript{105}. Basically, construction-of-the-Self is herein construed rather as: ‘the self, as of its amplituding/formative–epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{74} metaphoricity’, as of its evolving-and-devolving constraining \textsuperscript{81} reference-of-thought pitting its preconverging/postconverging–de-mentating/structuring/paradigming

The psychoanalytic pertinence of human akrasia-susceptibility-or- akrasiatic-drag complex, so-implied as ‘human akrasia-susceptibility-or- akrasiatic-drag/shiftiness-of-the-Self\(^{15}\)/ontological-fracturing/desublimation/gimmickiness complex’, is hinted at even by traditional psychology but rather indirectly as of its ontologically-flawed perspective as of human-subpotency <amplituding-formative-epistemicity>-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{14}\) when it recognises that we do fall short of intemporal ontological-performance\(^{27}\>-<including-virtue-as-ontology>, but strangely enough hardly has there been articulated any conception about this obviously fundamental preconverging/postconverging- de- mentating/structuring/paradigming ontologically-veridical implication of human-subpotency psyche limitation/compensative complex as from the perspective of existence-

totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity). This explains why Socrates construed knowledge as virtue, given that what approaches absolutising capacity in the human is rather the ‘sense-of-right-orientation with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of existentially-becoming-and-developing phronetic/practicality situations as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression (with anamnesis so-construed as ‘dimensionality-of-sublimating ⟨<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ mental-disposition’) and not any presencing—absolutising-identitive-constitutedness as reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. This in many ways explains many a critic misinterpretation of a rift between Socrates and Plato as of their emphasis on anamnesis and the forms/ideas on the one hand and Aristotle on the other hand as of his phronesis/practicality emphasis (on the basis of the specific universalising-idealisation phronetic/practicality situations as to its defining existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression). The fact is that Socrates (and as momentously reflected in his abhorrence of writing as of his focus on the ‘very spirit-of-things in his pedagogy’ over ‘mere reproducing by writing that is not necessarily pedagogically instructive’, and thus not contradictory with Plato’s writing as of recording-for-posterity) and Plato were more engaged with establishing overall philosophical insight beyond just their universalising-idealisation renewed reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation over non-universalising sophistry (even as their association of anamnesis with mythical recollection was caught up in the universalising-idealisation apriorising/axiomatising/referencing–psychologism but by the practical demonstration is relevant in all registry-
worldviews/dimensions as of the example articulated as well herein by this author with regards to a child’s solipsistic sense of meaning wherein after grasping the rules of additionality even a deliberately collective social misleading will not derail the child’s true sense of meaning) as they factored that any such renewal is being undertaken phronetically/practically with human limited-mentation-capacity that is not of absolutising conceptualisation, speaking prospectively of destructuring-threshold-(uninstitutionalised-threshold / presublimating–desublimating–decisionality)-of-ontological-performance −<including-virtue-as-ontology>, and thus what is more profoundly critical is knowledge-reification–gesturing−<in-prospective_psychoLogicalism−apriorising/ axiomatising/referencing−{of-attendant–ontological-contiguity −{educed–existentialising/contextualising/textualising-contiguity }− conflatedness −in [{preeconverging-disentailment_by}−postconverging-entailment}> as of the transepistemic implications of human limited-mentation-capacity-deepening 1. Aristotle as successor to their thought effectively had to move on to more fruitfully and complementarily elaborate phronetically/practically the implications of universalising-idealisation meaningfulness-and-teleology infrastructure as of science, practical-virtue, rationality, etc., rather than just theoretically reiterating his predecessors, and as such phronesis as of reproducibility—mathesis/motif/thrownness-disposition,−as–reproducibility-of-aestheticisation is what induces attendant–ontological-contiguity {educed–existentialising/contextualising/textualising-contiguity 0} and thus allows prospective dimensionality-of-sublimating −{<amplituding/formative>supercerogatory–demantativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} insight for further human limited-mentation-capacity-deepening 13 (as to ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,−and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’,

But the fact is there is comprehensive coherence in the philosophical articulations of the three thinkers when construed with this comprehensive philosophical knowledge-reification—gesturing—<in-prospective_psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—conflatedness—in—{preconverging-disentailment by}—postconverging-entailment> projection insight. In other words, Socratic anamnesis anticipates the implications of knowledge as virtue in the sense that human knowledge-reification—gesturing—<in-prospective_psychologismic—apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity }—conflatedness—in—{preconverging-disentailment by}—postconverging-entailment>—, and so in all domains without exception, is one of a dynamic complementary relationship between dimensionality-of-sublimating—(<amplituding/formative—supererogatory—dementativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) and phronesis—attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—in order to grasp ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-

In concrete terms, we can contrastively construe of such akrasia-susceptibility-or-akrasiatic-drag complex <amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{97}–qualia-schema’ existential desublimation manifestation of meaningfulness-and-teleology\textsuperscript{99} as of both a universalisation–non-positivism/medievalism and our positivism–procrypticism registry-worldview/dimension with regards to ‘mental-dispositions of general social living, institutional and Being ontological-bad-faith/inauthenticity\textsuperscript{94} geared to undermine ontological-veracity’; but then the positivism–procrypticism perspective as of its prospective relative-ontological-completeness\textsuperscript{97} will be less complexed in identifying the mental flaw of the universalisation–non-positivism/medievalism manifestation of akrasia-susceptibility-or-akrasiatic-drag complex ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing–qualia-schema’ as of the former’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{94} as it underlies non-positivism preconverging-or-dementing\textsuperscript{97}–apriorising-psychologism acts ‘like say a plot to accuse someone of sorcery’ than its own akrasia-susceptibility-or-akrasiatic-
measuring as-to-preconverging-or-dementing apriorising-psychologism devaluing the conventioning-referencing as of aristocratic/despotic self-aggrandisement apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in prior relative-ontological-incompleteness's. Thus more critically prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is induced as of the displacement/decentering-of-the-human-subject in its prior relative-ontological-incompleteness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so as of epistemic-ricochetting/transepistemicity reasoning-through/messianic-reason metaphoricity that exploits the supposedly coherent ontological-commitment self-assuredness-of-ontological-good-faith/authenticity ~postconverging-de-mentating/structuring/paradigming ~as-being-as-of-existential-reality so-implied as of a social-setup 'self-assuredness-of-ontological-good-faith/authenticity ~postconverging-de-mentating/structuring/paradigming ~as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction' which opens it up to prospective intemporal-as-ontological metaphoricity. The reality thus is that prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from a presencing—absolutising-identitive-constitutedness perspective is not actual meaningfulness-and-teleology but rather such is rather acting as a constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment self-assuredness-of-ontological-good-faith/authenticity ~postconverging-de-mentating/structuring/paradigming ~as-being-as-of-existential-reality to which the social-setup cannot overtly turn around and wholly assume a contradictory nihilistic disposition; with metaphoricity rather inducing prospective meaningfulness-and-teleology mostly as of prospective crossgenerational reasoning-from-results/afterthought. In this regards as of the possibility of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism/teleology transcendence-and-sUBLIMITY/sublimation/supererogatory de-mentativity, this author is of the opinion that any intellectual endeavour must preceedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency/sublimating–nascence,-disclosed-from-prospective-epistemic-digression reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-
framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—
meaningfulness-and-teleology/. Knowledge cannot and should not be forestalled because of
any supposed politico-economic penchant. The idea that liberal society can only be upheld by
artificial and anti-intellectual undermining of many a critical theory including postmodern-
thought as of the vital possibility of human social regeneration, is ridiculous and speaks of
intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such
inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up
to free intellectuals to affirm themselves as to what they think society and human intellectual
potential can be, beyond the institutional constraints geared to such naïve conventioning-
referencing which seem to imply that as of its anti-knowledge posture it will determine the
limits of what can be human knowledge. Human history has systematically shown that despite
human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor there is an effective mechanism of

mankind, and the more critical problem for human emancipation arises as of the contending
sophistries that confuse-and-disrupt-as-of-significant-otherness that institutionalisation

reasoning-through/messianic-reasoning disposition has more critically focussed rather on

The implication here is that all projections of idealisation should be anticipatory-and-preemptive of the possibility of their prospective ontological-fracturing, for efficient institutionalisation percolation-channelling—deferential-formalisation-transference, ‘in order to be more ontologically pertinent and resilient constructs’, as they are otherwise subject to the temporal denaturing of such idealisations with regards to their more profound transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implications. In the same vein, we tend as
of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the de-mentative/structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuation-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance\textsuperscript{72}—<including-virtue-as-ontology> is inherent, the underlying de-mentative/structural/paradigmatic reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance\textsuperscript{72}—<including-virtue-as-ontology> in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human registry-worldview’s/dimension’s institutionalisation outcome as of percolation-channelling—<in-deferential-formalisation-transference> doesn’t substitute for the <amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought as of the underlying dimensionality—of-sublimating<\langle<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit—drivenness—equalisation\rangle> individuation disposition that of reasoning-through/messianic-reasoning brought about seconddnatured institutionalisation. It is this element that equally ultimately renders the study of the social, notwithstanding its strong underlying <amplituding/formative—

In other words, it is herein contended that the implied notion of relative truth expressed by postmodern-thought is not a rejection of truth as they are wrongly accused, but that truth deepens relatively with human limited-mentation-capacity-deepening\textsuperscript{\textcopyright}; and this notion of relative truth is reflected in their works/research-programmes that undermine our amplituding/formative–epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag identitive-constitutedness-as-‘epistemic-totality’–dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing–absolutising-identitive-constitutedness-as-flawed-epistemicity-relativism-determinism perspective. Thus metaphoricity as such is a notion that is beyond just simplistic transmission/spreading of prospective meaningfulness-and-teleology as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology as say the commonality of such metaphoricity inclined re-originary–as-unenframed/unbeholdening/outlier-conceptualisation (imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness ‘of-notional–deprocrypticism-prospective-sublimation’) thinkers sharing a common emancipating metaphoricity mathesis/motif-thrownness-disposition like Socrates, Plato, Aristotle and their schools with their universalisation projection or the Descartes, Galileos, Copernicuses, Newton, etc. with budding-positivism/rational-empiricism. But rather beyond such shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology that is instigative, metaphoricity is critically about the prospective ricochetting postconverging–de-mentating/structuring/paradigming implications for inducing such prospective meaningfulness-and-teleology implications on the fabric of the social as an epistemic-totality framework (beyond-the-consciousness-awareness-teleology-<in-preconverging–existential-extrication-as-of-existential-unthought>), as the supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity–postconverging–de-mentating/structuring/paradigming–as-being-as-of-existential-reality> of ‘self-assuredness-of-ontological-good-faith/authenticity–postconverging–de-mentating/structuring/paradigming–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ of the social-setup
exposes it to such an epistemic-ricochetting/transepistemicity metaphoricity\textsuperscript{[27]}. This is so because in the long run transversality\textlt{<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’} of temporal-to-intemporal–ontological-performance\textsuperscript{[72]}-\textlt{<including-virtue-as-ontology>}–of-narratives is rather as of \textlt{<amplituding/formative–epistemicity>} causality \textlt{~as-to-projective-totalitative–implications-of-prospective-}\textlt{nonpresencing,-for-explicating-ontological-contiguity} selecting/skewing-towards intemporality\textsuperscript{[7]} /ontological-veracity as to existence-potency\textsuperscript{[10]}–sublimating–nascence,–disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup value construct lies somewhere between the possibility of its conventioning-referencing and its presencing—absolutising-identitive-constitutedness. Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{[99]}, when it comes to assessing the possibility of prospective meaningfulness-and-teleology\textsuperscript{[99]} inducing of metaphoricity\textsuperscript{[27]}. It is not necessarily the case that a society that doesn’t or poorly appreciate the implication of science will value as of immediacy prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{[99]} like the cultivation of science over its conventioning-referencing as a cultural inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting disposition towards the cultivation of science as in Europe and the Arabic world during the medieval period, or even disparity in ontological progressiveness within the very same societies at various epochs. Thus the assumption that any given society or period is absolutely turned/committed to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{[99]} including our modern
period, is a flawed appraisal; as in many ways, beyond our perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-threshold as of the privileging of conventioning-referencing over purely prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the implication of the conception of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocripticism metaphoricity in our positivism–procripticism; as its brings to the self-consciousness the reality that the implication of such a notional–deprocripticism articulation is bordering on the limits/thresholds of our institutional capacity for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of a privileging of conventioning-referencing disposition to adopt and assume intellectual nihilism at such an uninstitutionalised-threshold; it is herein contended that the reality is similar to that which scuppered Arabic medieval science or scuppered medieval China progressiveness.  nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricocheting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity meaningfulness-and-teleology whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}-of-ontological-performance_

 nature is effectively what underlies in ontologically neutral/objective terms–as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction in disjointedness-as-of-reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms–as-of-axiomatic-construct of the circumstantial social primacy of this temporal
framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness\textsuperscript{87} deprocrypticism; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding-positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness\textsuperscript{88} temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness\textsuperscript{87} positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87} by-reification/contemplative-distension\textsuperscript{27} (as of human self-surpassing—existentialism-form-factor,\textsuperscript{27} in-overcoming—‘notionally–collateralising-

prospective-apriorising-implications\textsuperscript{43})); which will explain in many ways the difficulty of the Copernicuses, Galileos, Descartes’, Diderots, etc. so effectively enculturate their budding-positivism. With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism prior relative-ontological-
incompleteness\textsuperscript{8} human social-stake-contention-or-confliction as of its disjointedness-as-of-reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness\textsuperscript{9} notional–deprocrypticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporality /longness and temporality /shortness as to human limited-mentation-capacity relative ontological-performance\textsuperscript{10}<including-virtue-as-ontology>. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness\textsuperscript{11} notional–deprocrypticism that we can appreciate more profoundly the universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of prospective relative-ontological-completeness\textsuperscript{12} notional–deprocrypticism herein construed as human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{13}<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> ; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter’s state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to
attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness\(^7\)/contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness\(^7\) positivism/rational-empiricism, we don’t ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is universally emancipating as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\(\langle\text{uninstitutionalised-threshold } / \text{presublimating–desublimating-decisionality}\rangle\)–of-ontological-performance\(^7\)–<including-virtue-as-ontology> nature inherently points out why human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of intemporal metaphoricity\(^7\) epistemic pertinence doesn’t lie with any inherent suprasocial framework or inherent wooden-language\(\langle\text{imbued—averaging-of-thought}\rangle\) framework. The fact is that the inherent human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-

This destructuring-threshold\textsuperscript{72}—<including-virtue-as-ontology> analysis further highlights the ‘transitive nature’ of the human psyche across the various registry-worldviews/dimensions uninstitutionalised-threshold\textsuperscript{02} in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{68}—of-the-human-institutionalisation-process\textsuperscript{68} with respect to destructuring at all uninstitutionalised-threshold\textsuperscript{02}; as so-implied by \textsuperscript{15} de-mentation—\textsuperscript{supererogatory—ontological—de-mentation-or—dialectical—de-mentation—stranding-or-attribute-dialectics}. The comprehensive social susceptibility to destructuring-transitoriness\textsuperscript{11}—as-of-deratiocination/deratiocontiguity as the defining element of the social-construct destructuring is what underlies passive to active social mobbishness phenomena as of human limited-mentation-capacity social dynamic implications of lacking social ontologically-hegemonising-narrative\textsuperscript{1}. The failing cogency and individual wariness of the social as of the lack of a comprehensive expectation of ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance\textsuperscript{1}—<including-virtue-as-ontology>’ arises because of destructuring-transitoriness\textsuperscript{11}—as-of-deratiocination/deratiocontiguity as of its implied destructuring-threshold—<uninstitutionalised-threshold \textsuperscript{72}—< including-virtue-as-ontology> parasitism <amplituding/formative—epistemicity> totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34}, as beyond-the-consciousness-awareness-teleology—<in-preconverging-existential-extrication—as-of-existentiași-unthought> this reflects the individual psyche conception of the social especially as of its extended-informality as not necessarily of high operant
‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’<including-virtue-as-ontology>, and is further reflected in a social dynamics of dual overt and covert implicated interpretations of social phenomenality arising as of beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought>cognisance-and-adaptation to the reality of the ontologically compromisable possibility of social meaningfulness-and-teleology. Insightfully, it can be appreciated that the ontological-contiguity<of-the-human-institutionalisation-process is one long process involving the undermining of destructuring-transitoriness<as-of-deratiocination/deratiocontiguity at uninstitutionalised-threshold with relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance’<including-virtue-as-ontology> as of ontologically-hegemonising-narrative implied as of prospective ‘amplituding/formative–epistemicity>totalising–ratiocliguity/ratiocination-as-referentialism—implicated_attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity’ constructiveness disposition in singularisation<as-to-the-nondisjointedness/entailment-of-prospective nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism. In this regard, we can appreciate anthropologically as of human limited-mentation-capacity-deepening implications the destructuring-transitoriness<as-of-deratiocination/deratiocontiguity that upholded superstitious beliefs in non-positivism social constructs but as of positivism/rational-empiricism ontologically-hegemonising-narrative implied with social enlightenment and the sciences rendered many purviews of existence as of relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance<including-virtue-as-ontology>’. We can similarly project the same with respect to our positivism–procripticism disjointedness-as-of<reference-of-thought destructuring-transitoriness<as-of-deratiocination/deratiocontiguity at its uninstitutionalised-threshold as to be prospectively superseded by notional–deprocripticism preempting—disjointedness-as-of-
reference-of-thought ontologically-hegemonising-narrative thus rendering human ontological-performance correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
threshold-presublimating-desublimating-decisionality}-of-ontological-performance

<including-virtue-as-ontology> analysis’ is rather notionally/epistemically reflective of the social-construct constructiveness-of-ontological-performance

as such an antiakrasiatic analysis of uninstitutionalised-threshold notionally/epistemically reflects the ontological-contiguity—of-the-human-institutionalisation-process; and so, similarly as the analysis of prospective possibilities of disease and illness is not about being pessimistic about the biology of human beings but is notionally/epistemically reflective of the possibility for the further development and provision of medicine and healthcare, and just as the projective analysis of lack of science and technology capacity is not about being pessimistic about human technical development but is notionally/epistemically reflective of the possibility for the further invention of technologies and scientific discoveries. We can appreciate here that the very same epistemic/notional conceptualisation with respect to the human subject as with natural subject-matters elicits in the former high emotional involvement whereas the latter as of its direct causality as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity elicits low emotional-involvement, but for the case where with regards to high and conflicting human social-stake-contention-or-confliction even the natural domain is not immuned from high emotional-involvement as with the climate change issue for instance. The point being made here is that sober analyses of the social as herein articulated tends to elicit naive criticism that human progress happens anyway, but then such naive criticism only recounts the fact of human progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity implications for prospective human progress’ it fails to account for how human progress occurs in the very first place or even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-uninstitutionalised-
threshold \textit{\textbackslash presublimating–desublimating–decisionality}} of ontological-performance\textsuperscript{72}--\textit{\textbackslash including-virtue-as-ontology}} and as reflected at uninstitutionalised-threshold\textsuperscript{102}. As the Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance\textsuperscript{72}--\textit{\textbackslash including-virtue-as-ontology}} destructuring-threshold-\textit{\textbackslash uninstitutionalised-threshold}--\textit{\textbackslash presublimating–desublimating–decisionality}}~of-ontological-performance\textsuperscript{72}--\textit{\textbackslash including-virtue-as-ontology}} and uninstitutionalised-threshold\textsuperscript{102}, and it is this difficult task of crossgenerational mobilisation that enables the prospective constructiveness-of-ontological-performance\textsuperscript{72}--\textit{\textbackslash including-virtue-as-ontology}} for human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, institutional-development–as-to-social-function-development and living-development–as-to-personality-development. The implicated passivity behind such reflections that human progress occurs anyway again highlights why the intemporal mental-dispositions behind the superseding of destructuring-threshold\textit{\textbackslash uninstitutionalised-threshold}--\textit{\textbackslash presublimating–desublimating–decisionality}} need to be integrated into the very core of such secondnatured formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68}; such that prospective social-construct constructiveness-of-ontological-performance\textsuperscript{72}--\textit{\textbackslash including-virtue-as-ontology}} and institutionalisation is ever always a process of \textsuperscript{55}maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{87}—

perspective for aetiologisation/ontological-escalation such temporal-dispositions are rather
unwarranted and irrelevant since such aetiologisation/ontological-escalation is rather geared

We can appreciate in this regards that the intemporal projection as of base-institutionalisation implies an incisive/edgy apriorising—teleological—elevation—in—ontological—contiguity beyond recurrent-utter—uninstitutionalisation social-stake-contention—or—confliction as of its ‘<amplituding/formative—epistemicity—totalising/circumscribing/delineating—preconverging/dementing—qualia—schema’ in <amplituding/formative—epistemicity—totalising—self—referencing—syncretising/circularity/interiorising/akrasiatic—drag, and likewise with the intemporal
projection as of universalisation over base-institutionalisation–ununiversalisation, positivism over universalisation–non-positivism/medievalism and prospectively notional–deprocrypticism over positivism–procrypticism. In this regards, the notion of preconverging-or-dementing–apriorising-psychologism as reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing–qualia-schema’ of prior relative-ontological-incompleteness is tied-to and a necessarily associated notion with that of postconverging-or-dialectical-thinking–apriorising-psychologism as reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema’ with respect to the possibility of a protracted-consciousness conceptualisation in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process; and as this explains the successive construction-of-the-Self reflected in the <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions. It is the possibility for the human mind to dement as of a ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing–qualia-schema’ by its self-conscious <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of its <amplituding/formative–epistemicity>totalising–thrownness-in-existence that dementatively/structurally/paradigmatically allows for the possibility of prospective institutionalisation involving the displacement/decentering-of-the-human-subject. Unlike our naïve human-subpotency epistemic-or-notional–projective-perspective inclined to perceive prior registry-worldviews/dimensions in their ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing–qualia-schema’ in stigmatising terms–as-of-axiomatic-construct, the ontological-veracity from existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression epistemic-

In fact, the notion of preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism as such speaks of the fact that the entire cross-section of humanity as of recurrent-utter-uninstitutionalisation is of a ‘amplituding/formative–epistemicity totalising/circumscribing/delineating preconverging/dementing\textsuperscript{20}–qualia-schema’ with respect to prospective base-institutionalisation ‘amplituding/formative–epistemicity totalising/circumscribing/delineating postconverging/dialectical-thinking\textsuperscript{11}–qualia-schema’, and likewise\textsuperscript{10} universalisation with respect to base-institutionalisation–ununiversalisation,\textsuperscript{103} universalisation–non-positivism/medievalism with respect to positivism, and our present positivism–procrypticism with respect to prospective deprocrypticism. The fact is, even the said prospective transcendence-and-sublimity/sublimation/supererogatory–de-
mentativity emancipators across the successive registry-worldviews/dimensions in reflecting holographically-conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{65} are just as equally relatively enmeshed in many ways with their reference-of-thought old psychology ‘amplituding/formative–epistemicity totalising/circumscribing/delineating preconverging/dementing–qualia-schema’ like say Newton’s involvement with alchemy, and the idea of projecting to a prospective ‘amplituding/formative–epistemicity totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema’ speaks of a first level of human uninhibitedness/decomplexification that is exactly what allows for human emancipation. This further shows how our seemingly objectified \textsuperscript{70} presencing—absolutising-identitive-constitutedness\textsuperscript{1} positivism–procrypticism disposition is all-encompassing as of our amplituding/formative–epistemicity totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34} when we construe of ourselves as ‘postconverging-or-dialectical-thinking–apriorising-psychologism as of in-the-absolute’ without projecting that just as prior generations of humans were both postconverging-or-dialectical-thinking–apriorising-psychologism as of their constructiveness-of-ontological-performance\textsuperscript{72}.<including-virtue-as-ontology> reflected as of ‘amplituding/formative–epistemicity totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema’ at their relative-ontological-completeness\textsuperscript{87} and preconverging-or-dementing–apriorising-psychologism as of their destructuring-threshold (uninstitutionalised-threshold /presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{72}—<including-virtue-as-ontology> reflected as of ‘amplituding/formative–epistemicity totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ at their relative-ontological-incompleteness\textsuperscript{88}, we equally manifest the same and so-perceived

This fundamental disjointedness explains why and how our positivist science-ideology and humanism ideology so-misconstrued beyond-the-consciousness-awareness-teleology<-in-preconverging-existential-extrication-as-of-existential-unthought> rather turns out to be denaturing and undermines prospective Being-development/ontological-framework-development, and explains our inclination to ask the wrong questions given the false sense of certainty arising from this ‘positivism–procrypticism attendant-ontology—as-of-conventioning-referencing’. Such questions with regards to how the humanities can be further developed as efficaciously as the natural sciences, how can philosophy be more socially potent, and on the social paradoxes of our suboptimum

(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-

‘human capacity for decomplexified/uninhibited preconverging-or-dementing \(^2\)–apriorising-

postconverging-or-dialectical-thinking \(^2\)–apriorising-psychologism’. In this regards, we can
factor in for instance that more critically rather than construing the prospective reification of the
humanities and philosophy for instance in terms of breakthroughs along the lines of say
exceptional methods or capacity along the lines of our ‘positivism–procrypticism attendant-
ontology—as-of-conventioning-referencing’, the reality of any such transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity will rather be ‘a more candid face-up
with our procrypticism–or–disjointedness-as-of- reference-of-thought’ as herein implied by
this author as of the notion of ‘beyond-the-consciousness-awareness-teleology \(^9\)-<in-

<including-virtue-as-ontology> cloud/undermine the potential for further intellectual
emancipation, and so similar to the breakthrough that brought about budding-positivism/rational-empiricism as of say the reasoning-through/messianic-reasoning Galilean gesturing postconverging–de-mentating/structuring/paradigming based on the fact that looking in the telescope we can appreciate how the planets moved around the sun and as this budding-positivism/rational-empiricism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation was relayed by other budding-positivists, and so over the destructuring-threshold ⟨uninstitutionalised-threshold /presublimating–desublimating–decisionality⟩~of-ontological-performance ~<including-virtue-as-ontology> of traditional medieval no-trouble disposition to perceive and take comfort in traditional medieval-scholasticism reasoning-from-results/afterthought notional–pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation {(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness )} as if critical reification will arise by that pathway. In other words, the possibility of all huma prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of incrementalism-in-relative-ontological-incompleteness 5—enframed-conceptualisation disposition but rather more concretely only after human decomplexing/uninhibiting de-mentative/structural/paradigmatic development ‘weaning humankind from its traditional complexes/inhibitions reasoning-from-results/afterthought conceptualising flaws’ that then brings about the corresponding existence-potency 7—sublimating–nascence,–disclosed-from-prospective-epistemic-digression level for human emancipation as of maximalising-recomposuring-for-relative-ontological-completeness 5—unenframed-conceptualisation; and this is effectively reflected in all cases of human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Whether of low or high emotional-involvement, it is inevitably the case that the de-
mentative/structural/paradigmatic possibility for prospective human transcendence-and-

In all these instances, the sophists as of its preconverging existential-extrication-as-of-existential-unthought with respect to social-stake-contention-or-confliction are ever always inclined to eliciting-of-immediacy-as-of-relative-ontological-incompleteness\textsuperscript{88}-dereification for wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} disposition, and when the outcome of reasoning-through/messianic-reasoning dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{27}-by-reification/contemplative-distension\textsuperscript{27} accrue prospectively the sophists react as if ‘human progress occurs anyway’ as the idea of a human existential tale perpetuation and its implications is alien to the sophists since all that counts is the immediate now and its temporal/mortal social-stake-contention-or-confliction interests; and worst still, human limited-mentation-capacity in inducing prospectively relative-ontological-completeness\textsuperscript{27} as of the weaknesses associated in all human transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity is held by the sophists against any such reasoning-through/messianic-reasoning for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity—of-the-human-institutionalisation-process as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’, what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the present one as of an overall human tale, as the threat of rationalising the implications of such a human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications necessarily involves a parrhesiastic reifying gesture of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension which is ‘never always the easiest of notion’ for human wooden-language-⟨imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩ disposition, especially as this often always implies the displacement/decentering-of-the-human-subject, it is inevitably the case that such ideal as of ‘intemporal ontological-faith-notion-or-

This is more critically the case as the fact is the possibility for prospective human emancipation is exactly the most difficult thing for humankind to countenance, and that is exactly why the successive uninstitutionalised-threshold arise in the first place; and the sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its temporal social-stake-contention-or-confliction has always been addressed not by a faulty pretence of mutually objectifying intellection between genuine intellectualism and sophistry, which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it essentially is; as with the universalising-idealisation philosophers not wasting their time in pretence of engaging the sophists—ideal-type-or-individuation of ad-hoc/makeshift/nonprincipled–syllogising mindset or the budding-positivists/rational-empiricists dismissing off-hand pedantic scholasticism. Ultimately, the notion of ‘meaningfulness-and-teleology’ as of ontological-veracity is about the ‘reasoning-through transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-

We can appreciate in this regards that the universalising-idealisation philosophers and budding-positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning–suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning–suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’ induced as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’, is nothing but <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which obviously doesn’t register/is-unaccounted internally because (but from the existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notional–deprocrypticism perspective) de-mentatively/structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to see of its defective ontological-performance–including-virtue-as-ontology> as it surreptitiously implies that it is absolute beyond-the-consciousness-awareness-teleology’. The fact is, it is this
possibility of the universalising-idealisation philosophers Socrates/Plato/Aristotle and the budding-positivists putting into question their conventioning-referencing meaningfulness-and-teleology and value that allows for prospective institutionalisation to arise as of universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the <cumulating/recomposuring–attendant-ontological-contiguity>-successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; and in this regards, we can appreciate that the pre-Socratic world very much construed of critical ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding-positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology, and likewise it is the case that our
conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, that in many ways just as the manifestation of postlogism -slantedness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} and underpinning–suprasocial-construct meaningfulness-and-teleology integration of their given non-positivism and superstition, in many ways the manifestation of psychopathy and social psychopathy in our positivism–procrypticism is equally subject to our <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} and underpinning–suprasocial-construct underlying disjointedness-as-of-reference-of-thought muddlement of social-stake-contention-or-confliction as of our uninstitutionalised-threshold; and in both instances insightfully point to underlying reference-of-thought relative-ontological-incompleteness at destructuring-threshold {uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance—<including-virtue-as-ontology> which is the grander issue of aetiologisation/ontological-escalation as to the fact that fundamentally prospective positivism
registry-worldview/dimension supersedes-and-deflates the vices-and-impediments of non-positivism as of animism or medievalism and thereof their devolving associated manifestations of non-positivism and specific superstitious nature as well as the idea that prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought supersedes-and-deflates the overall vices-and-impediments of our positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of-reference-of-thought underlying the devolving social manifestation of psychopathy and social psychopathy. Thus the practice of construing absolutely the <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument of any given registry-worldview/dimension in relative-ontological-incompleteness like our positivism–procrypticism speaks of a loss of ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’ to the given registry-worldview/dimension conventioning-referencing. Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/reference-of-thought will most likely not necessarily perceive and construe the ‘achievement motives and temporal-stakes in animistic or medieval lives and living’ in the non-positivistic social-setup as ‘grandest living’ but rather the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation ‘of positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of existential worth’ from its vantage ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness ‘-or-ontological-reprojecting that enables human memetic-rescheduling (psychoanalytic-unshackling/institutional-recomposuring) as from recurrent-utter-uninstitutionalisation to modern-day positivism–procrypticism and prospectively deprocrypticism; together with the idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory preconverging–de-mentating/structuring/paradigming relationship with "meaningfulness-and-
teleology (undermining the implied reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the wooden-language ⟨imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology ⟩ as deterministic thus subknowledging /mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-dementing—apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft ‘inventing’. But then transcendental constructs of meaningfulness going beyond the ‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective reference-of-thought of meaningfulness, is an afterthought social recognition by the prospective registry-worldview’s/dimension’s reference-of-thought institutionalisation, not the social recognition of their own registry-worldview’s/dimension’s reference-of-thought (as the prior/transcended/superseded), as transcendental meaningfulness-and-teleology involves psychical and institutional recomposuring of high contrariety implications to human temporality/shortness as putting into question the present as prior/old, but then the vocation of all transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as all knowledge is not about being
responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity of an intersolipsistic nature. It is equally important to grasp that transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is the more profound origination of reference-of-thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually transcendental and this is not to be confused with its distance/remoteness as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’ (whether as base-institutionalisation, universalisation, positivism or prospectively notional—deprocrypticism knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior reference-of-thought—categorical-imperatives/axioms/registry-teleology with the prospective one for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation <amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re-thought, in contrast to a naïve incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-reflex. The idea that
knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the \textsuperscript{83}reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking \textsuperscript{83}reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaus, etc. who and others, then were transcendental as of \textsuperscript{apriorising/axiomatising/referencing-}of-attendant–ontological-contiguity \textsuperscript{~}educed–existentialising/contextualising/textualising-contiguity \textsuperscript{~}re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{33}~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{33}~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of \textsuperscript{83}reference-of-thought’ arises as for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, it will be naïve to imply that knowledge is neutral failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to register that all knowledge is the outcome of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as ‘reappraisals of \textsuperscript{83}references-of-thought’ and inducing their corresponding prospective psychologisms
(apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-orincidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of reference-of-thought that enabled it to be as of the present reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the reference-of-thought for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness of reference-of-thought. Hence it is rather ontological-completeness-of-reference-of-thought that is the viable construing reference of knowledge with its transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications for completing the reference-of-thought, and so not only with regards to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of retrospective registry-worldviews/dimensions reference-of-thought but equally with the implication of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity for prospective registry-worldview’s/dimension’s reference-of-thought as so validated by ontological-normalcy/postconvergernce. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as pervention-and-derived-perversion-of-reference-of-thought<as-preconvergingly apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> within the positivism–procrypticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social
speaking of the positivism–procrypticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived perversion-of reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in nonconviction/madeupness/bottomlining-as-to-shallow-supererogation while prospective uninstitutionalising-facet insight will rather overlook such implied denaturing as of beyond-the-consciousness-awareness-teleology-in-preconverging-existential-extrication-as-of-existential-unthought. This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a registry-worldview’s/dimension’s uninstitutionalised-threshold defining its very notions of lawfulness and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc. across the full breadth and depth of human institutions dynamic social construction of perceived social-stake-contention-or-confliction at that uninstitutionalised-threshold especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–procrypticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the social dichotomy notions implied above, and so as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging-de-mentating/structuring/paradigming, uninstitutionalised-threshold mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory preconverging-de-mentating/structuring/paradigming. This is very much in sync with the
reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity.

untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or crossgenerationally as intemporality-asymmetric-subsumption-of-temporality.

This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-completeness-of-reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiologisation/ontological-escalation in notional~deprocrypticism apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in–{preconverging-disentailment–by–postconverging-entailment} and so over procrypticism disjointedness-as-of-reference-of-thought denaturing and harkening back in undermining psychopathy and social psychopathy as the more specific individuation-level denaturing. Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–’notional~firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-positivism/medievalism postlogism manifestation like

accusations-of-sorcery speak of the more profound relative-ontological-incompleteness of

reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and
susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of
perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding

lying. Insightfully, we can grasp that the fundamental defect of the
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements systematically keeps on making wrong aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (systematically flawed meaningfulness) as its fundamental registry-worldview’s/dimension’s-uninstitutionalised-threshold (defect-<as-Being-or-ontological-or-existential–defect> (in registry-worldview terms of implications). On the other hand, a lying deception is tantamount to undertaking an inappropriate measurement-as-of-aposteriorising/logicising/deriving/intelligising/measuring–purpose (flaw logical-processsing/act-execution-implicitation meaningfulness) with an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is not defective (thus appropriateness-of reference-of-thought-as-of-conflatedness ). This technique of mentally grasping the psychopath and other postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal prelogism-as-of-conviction,-in-profound-supererogation mind ordinarily aligns to meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp the psychopath’s and other postlogic mental-dispositions which mental-alignment are rather as of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation mind to wrongly elevate psychopathic ‘meaningfulness-and-teleology’ as of veridical ‘attendant-ontological-contiguity’-educed–existentialising/contextualising/textualising-contiguity’ rather than reflect the reality of its

reference and teleology is ‘existentially’ established. *Critical for ontological-veridicality of meaningfulness and knowledge, the relatively ontologically-complete-reference-of-thought defines what is meaningfulness as of its ‘soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’ construed as ‘postconverging-or-dialectical-thinking–apriorising-psychologism and centered understanding’ over the relatively ontologically-incomplete-reference-of-thought as of its ‘unsoundness-or-ontological-bad-faith/inauthenticity–reference-of-thought’ construed as ‘preconverging-or-dementing–apriorising-psychologism and decentered understanding’. Slanting (and by derivation cohering-slanting) is ‘technically coherent logical articulation’ however over flawed or non-existent apriorising-reference-of-thought-elements/apriorising–registry-elements, and thus falsely implying the apriorising-reference-of-thought-elements/apriorising–registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-ontological-good-faith/authenticity–reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-ontological-good-faith/authenticity–reference-of-thought in the first place) so ‘we don’t tend to question the being/ontological/existential veridicality of reference-of-thought–reflected-as-soundness-or-ontological-good-faith/authenticity–of-reference-of-thought). But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cinglé-effect’ of the implied-reference-of-thought/implied-registry and its elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology is rather obvious

escalation or aetiologisation as ‘metaphorical principle for an infinity/a-million-and-one-

meaningfulness-and-teleology is that the apriorising–registry (as the individual grounding of
the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic
as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath
were to meet a stranger and spoke to him about another stranger whom it knows nothing about,
saying logically that it is a bad thing for this guy to be molesting children, etc. The logical
operation is entirely right and sound in abstract terms but does the apriorising–registry
(reference-of-thought) apply?, i.e. The faulty-mentation-procedure-deception-or-urge is not
with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the
elements of the apriorising–registry as of reference-of-thought–categorical-imperatives/axioms/registry-teleology which are: implied–logical-dueness-or-implied-scape (the implied–logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of registry/axiom/categorical-
conjoining-looping-set-of-narratives as-of-cohering-logic-reflex to the psychopath’s ‘denaturing’ postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>-with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. This is known as conjugated-postlogism /preconverging-or-dementing-integration (whether conjugated to in ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation), which is to be construed as ‘distractive-alignment-to-<apriorising/axiomatising/referencing> and once it is induced by ignorance it leads to an undermining of ‘deductive social universal-transparency ⟨transparency-of-totalising-entailing,as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness ⟩ which protects the internal-coherence of meaning as of soundness-or-ontological-good-faith/authenticity of-reference-of-thought and corresponding virtue’ and so by way of ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ at ‘uninstitutionalised-threshold’ of registry-worldviews, with subsequent conjugating ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, the conjugated-postlogism /preconverging-or-dementing-integration is derived from the psychopath’s initiated postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> and goes on to lead to social
of the iterating narratives, the succeeding changing/decentering/non-cohering foci (thus revealing the ‘deliriousness/delirious-effect/cingle-effect’ as unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought inducing the preconverging-or-dementing apriorising-psychologism which is particularly obvious at childhood psychopathy but its perception easily gets lost at adult psychopathy with psychopath increasing maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction) are constantly modified with circumstantial hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> by ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold; and so in order to wrongly imply the apriorising—reference-of-thought-elements/apriorising–registry-elements as the foundation for its faulty-mentation-procedure-deception-or-urge. However, the natural level of human interlocution engagement ‘is not the enlightenment of the retracing of an interlocutor’s sets-of-narratives’ (as this could vary anywhere from say a few days or weeks to years of supplanting–conviction-as-to-profound-supererogation—attendant–intradimensional—postconverging/dialectical-thinking—apriorising-psychologism engagement, for such an insight to arise), but rather as of ‘specific singular circumstantial narrative of interlocution without a comprehensive attendant–ontological-contiguity—reduced–existentialising/contextualising/textualising-contiguity—reifying-or-elucidating-of-prospective-relative-ontological-completeness—reference-of-thought–devolving-as-of-instantiative-context—projection’ by which interlocutors deduce circumstantially. Thus the postlogism—and-conjugated–postlogism habit of producing sets-of-narratives (which collective retracing reveals their unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought and perversion-and-derived—perversion-of—reference-of-thought—<as—

Further, this ‘natural level of human interlocution engagement is a perpetuation’ explaining why the conjugated-postlogism mental-disposition is one of ‘slanted-cohering/conjoining’ as it rather further integratively rationalises the latest iterated narrative as an elucidation rather than a further preconverging-or-dementing—apriorising-psychologism of adult psychopath/postlogism (as obvious with the child psychopathy ‘delirium effect’ as it slants and re-slants on the initial slanting in an absolving-logic/fleeting-logic/escaping-logic reflex); and, the falsely projected reference-of-thought implied-elements of logical-dueness-or-implied-scape/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology, create a new foundation for further preconverging-or-dementing—apriorising-psychologism when wrongly eliciting in an interlocutor logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation issue, such that one salient manifestation of conjugated-postlogism arises with many of such an interlocutor vaguely articulating propositions based on such falsely
The idea that the ‘natural level of human interlocution engagement is a perpetuation’ can be understood insightfully with respect to a non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism reference-of-thought terms when invalidated positivistic terms doesn’t imply that such interlocutors will instantly dramatically change their reference-of-thought into the positivistic terms with their successive contentions (due to <amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag >), as their reference-of-thought remains rather in non-positivism/medievalism circularity/recurrence/repetition/repeatability >, and in the big picture in all likelihood can only be ‘weaned from’ crossgenerationally as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Likewise the ‘natural basis of human interlocutory engagement tends to be perpetuating’ when it comes with psychopathy and social psychopathy with respect to its eliciting of a ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold >{as-procrypticism}’, thus equally implying a <amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag > circularity/recurrence/repetition/repeatability > of the reference-of-thought as of the uninstitutionalised-threshold > or procrypticism–or–disjointedness-as-of-reference-of-thought. Thus the central notion for preempting psychopathic postlogism > and conjugated-postlogism is the ‘retracing of their sets-of-narratives as of attendant–ontological-contiguity >–educed–existentialising/contextualising/textualising-contiguity’ > <reifying-or-

This phenomenon of the ‘social protraction of psychopathy across individuals and society’ can be articulated as follows. It is important to grasp that the mechanism of SLANTING as of compulsive-slanting—preconverging-or-dementing -apriorising is actually about ‘denaturing’ postlogic-backtracking-<iterative-looping-’set-of-dereifying-hollow-narratives-and-acts’> ° with ‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. The suspected psychosomatic basis for the psychopath to be slanted/’cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge (entitlement folie/folie raisonnante)’ as opposed to a logical motivation of a supplanting–conviction-as-to-profound-supererogation —of-’attendant-intradimensional’ -postconverging/dialectical-thinking –apriorising-psychologism or prelogic mental-disposition.

It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the normal process of prelogism as-of-conviction,-in-profound-supererogation —<existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> logical articulation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/disontologising-perverted-outcome-sought-precedes-existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing postlogic-backtracking devoided-
of-conviction-as-to-profound-supererogation-or-prelogism-basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition). Even if this latter narrative is proven to be false (as it is another perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge not being the logic itself, but in wrongly implying as existentially real the ‘apriorising—reference-of-thought-elements/apriorising—registry-elements (out of attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—reifying-or-elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought-devolving-as-of-instantiative-context’) of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge operating logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation on such false axioms. Thus, with respect to postlogism generally what is critical for the psychopath/postlogic-mindset is to be seen as being prelogic supplanting—conviction-as-to-profound-supererogation of—‘attendant-intradimensional’—postconverging/dialectical-
thinking apriorising-psychologism even if it is a perception of ‘poor or bad supplanting-conviction-as-to-profound-supererogation’ of ‘attendant-intradimensional’ postconverging/dialectical-thinking apriorising-psychologism’ since that will validate the apriorising-reference-of-thought-elements/apriorising-registry-elements (out of attendant-ontological-contiguity) educed—existentialising/contextualising/textualising-contiguity reduced—existentialising/contextualising/textualising-contiguity

The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation—or-prelogism—basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-
formulaically-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction-as-to-profound-supererogation\(^a\)) to or prelogism\(^b\), at-a-pedestal,-in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling such hollow mimicking in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking-<iterative-looping-*set-of-dereifying-hollow-narratives-and-acts’>*\(^c\) as absolving/fleeting/escaping-reflex-logic among different set-of-interlocutors (this is simply because postlogism\(^d\) in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness’ unlike postlogism\(^d\) as prelogism\(^e\) which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at’), and inducing mutual misconstruing; and the reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (which is an unusual and rare social experience given that a psychopathic personality and postlogism\(^d\) in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation are an outlying phenomenon) with one set-of-interlocutors will involve either a temporal commitment to the postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (due to the lack of constraining social universal-transparency\(^f\) (transparency-of-totalising-entailing, as-to-entailing-amplituding/formative–
failing-intemporal-preservation> ‘conjoining looping narratives (of flawed-existential-elevation-of-reference-of-thought and developing a supplanting-conviction-as-to-profound-supererogation—of-attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism or prelogism out of them), to the psychopath’s ‘denaturing postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> - with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. But again, this is just when the temporal prelogic/prelogism-as-of-conviction,-in-profound-supererogation—<existentially-veridical—attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-preccedes-disontologising-logical-outcome-arrived-at mind is ignorant of the slanted mental state of the psychopath. The general and complete operative psychopath perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mechanism (it isn’t necessarily completed in all manifestations as is rather a ‘mental roaming/drifting-cycle disposition known as postlogism-retreating’ that carries on depending on how the situation permits) involves the psychopath first projecting initially neutral narratives (pre-valuation), then narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted ‘out of context’ unfavourably with non-veridical hollow mimicking narratives about the psychopath’s ‘socially-perceived-value as of social-stake-contention-or-confliction target’ (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements;
‘consternation’ wherein narratives with a ‘sense of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on the interlocutor about the target, ‘certainty’ wherein narratives with a ‘false sense of undoubtedness’ are projected about the target on the interlocutor, and finally ‘a sense of passive or suggestive alienation’ towards the psychopath’s target is projected upon the interlocutor to ‘subconsciously induce a sense of alienation from the target’. The psychopath then strives to settle on the whole of this process circularly doing likewise with other new and pertinent interlocutors as well (commitment). By and large this circularity thus involves these four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with its corollary, social psychopathy, this disposition (passive or suggestive alienation) is at various level-of-consciousness-and-wittiness extended to the social-construct as a comprehensive nature of extrinsic- attribution. Passive or suggestive alienation as such with corresponding ‘temporal-dispositions miscuing’ which is ‘misconstrued as intrinsic ontological depth-of-conviction-as-to-profound-supererogation’. The underlying reason for the entirety of this mental process in the psychopath has to do with its ‘mere-formulaic constrained/unconstrained perception and relation to meaningfulness-and-teleology’ (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging faulty-mentation-procedure-deception/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) which poorly perceives ‘supplanting–conviction-as-to-profound-supererogation of attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism contentions’ not in the ‘essence/conviction-as-to-profound-supererogation sense’ but rather as ‘formulaic mental alienation schemes’ wherein disontologising-perverted-outcome-sought-precedes-

Critically, it should be understood that passive or suggestive alienation is actually the summum of the possibilities of the psychopath’s meaningful finality that starts from prevaluation (neutral narrations). It should be noted that the mental state of the psychopath’s interlocutor as ‘ignorance-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing –apriorising-psychologism’ is not really ontologically-speaking a prelogic/conviction-as-to-profound-supererogation\textsuperscript{96} mental state but rather technically a ‘miscuing/dialectically-or-contendingly-out-of-phase postlogic mental state’. There are two stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as an ignorant of psychopathic postlogism\textsuperscript{77} in hollow-constituting<as-disjointed-
misappropriation-of-meaningfulness-and-failing-intemporal-preservation> to which the interlocutor aligns prelogically and then miscues, and then secondly (in addition), as ‘committed-by-temporality'/interest over intrinsic-veridicality’ whether in the form of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. It should be noted that this psychopathic manifestation process can be mimicked in the context of social psychopathy, and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing”–apriorising-psychologism’. Over a given or extended period the underlying effect sought by the psychopath might stick, especially where the social target, interlocutors and others are utterly unaware of the mental state of the psychopath, and so evolving more like a social-discomfiture of relationship over ‘socially-perceived-value as of social-stake-contention-or-confliction’ (*social-discomfiture as such can be defined as the subsequent, ignorant or deliberate/disingenuous, adherence as if veridical to the slanted and hollow mimicking narratives of the psychopath with the corresponding ‘perversion-of-’ reference-of-thought-as-preconvergently-apriorising/axiomatising/referencing-in-
nonconviction/madeupnessbottomlining-as-to-shallow-supererogation or mental-perversion in the social context). It is important to see that such social-discomfiture is in reality not a veridical logical ‘contention’ but in veridicality/ontologically a ‘protracted manifestation’ of notional–procrypticism/notional-disjointedness-as-of-’reference-of-thought as to underlying registry-worldview/dimension uninstitutionalised-thresholdperversion-of-’reference-of-thought-as-preconvergently-apriorising/axiomatising/referencing-in-

stature/presumptuousness to ‘logically contend’ about the ontological veridicality of an accusation of witchcraft with a suprastructuring positivistic mind, as the former makes syncretic/circular references to non-positivism/medievalism in its supposed articulation of logic). Paradoxically, the normal prelogism-as-of-conviction,-in-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex to the notion of the essence of supplanting—conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism meaning (as it is not priorly inclined to put into question narratives but rather to quickly operate/process logic to arrive at outcome while ‘trusting’ that the other is also prelogism-as-of-conviction,-in-profound-supererogation—of-‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism in their apriorising—registry, and so because psychopathy is a relatively outlying phenomenon thus the natural human personality development doesn’t take it much into account in the bigger scheme of things, i.e. it will be ‘a waste of too much mental energy’ to be verifying in detail the apriorising—registry implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology of every interlocutor, so mentally the human mind has developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and appearance’; but such a scheme is strictly speaking ontologically incomplete and underminable but it is standard as it ‘saves mental energy and time’, hence it is the strongest factor for the social prevalence of psychopathy and its social psychopathy corollary, and by extension all
postlogism /perverted-as-disontologising-outcome-sought-precedes–logical-dueness across all registry-worldviews/dimensions); that it will find it hard to articulate or for that matter not believe the comprehensiveness and extent by which the psychopath can produce non-veridical hollow mimicking narratives towards its end purpose, particularly as it is a rather social outlying phenomenon and hence not usually integrated in many an individual’s conceptualisation of social relations and phenomena. That’s why the manifestation of ‘poor or bad supplanting–conviction-as-to-profound-suprerogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism’, contrasted to the psychopath’s compulsing–nonconviction/madeupness/bottomlining-⟨‘<decontextualising/de-existentialising~of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant-ontological-contiguity >;-in-shallow-suprerogation -<as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness⟩⟩ or compulsively-dementing ⁹, is ad-hoc, circumspect and highly contextualised since the prelogism⁷⁻as-of-conviction,-in-profound-suprerogation -<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind even when acting temporally/badly has a hard time escaping from supplanting–conviction-as-to-profound-suprerogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism or prelogism⁷⁻ (it has qualms/conscience) while the psychopath’s compulsing–nonconviction/madeupness/bottomlining-⟨‘<decontextualising/de-existentialising~of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant-ontological-contiguity >;-in-shallow-suprerogation -<as-to-disontologising-perverted-

In so doing, the psychopath has a parallel formulaic-representation-of-meaning/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated which ‘subknowledging’/mimics’ the fundamental elements of ‘supplanting–conviction-as-to-profound-supererogation ‹of–‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism deductive meaning’ such that the (adult) psychopath’s non-veridical hollow mimicking narratives come across paradoxically as highly credulous. Basically the relevant question for the psychopath is: ‘how was the hollow mimicking form that can be grasped in a prelogism ‹-as-of-conviction,-in-profound-supererogation ‹existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at› mind deterministic of other prelogism ‹-as-of-conviction,-in-profound-supererogation ‹existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at› minds behaviours, and how can I then mimic-and-project this hollow mimicking form to determine how others minds will act. transparent (at uninstitutionalised-threshold). Further, the element of the need to be socially–
functional-and-accordant first, implies that psychopathy is ‘more than just the drive of a
pathological individual’ but inevitably psychopathy and correspondingly social psychopathy
involves a ‘social split-dynamism’ wherein the ‘unordinary eliciting’ of temporal interest
among some as extrinsic-attribute (praising, endearing, owing a favour, gifting, assisting,
being friendly towards, etc.) is the basis for the targeting of another or others, further
compounded by the fact that while so-called ‘rules of sound logic’ abstractly permeate more or
less effectively most of our formal setups, their sociological pertinence is actually far from
established, but for the fact that broad and large general education diminishes social
egregiousness in this respect, as specifically ‘reasoning by significant others’ is actually the
more common mental-disposition in the extended-informality–{susceptible-to-effecting–

including the ‘informal spaces’ of formal setups, with the result that this is a further factor that
makes psychopathy poorly graspable as simply of individual denaturing dynamics rather than
of social denaturing dynamics, thus better construed phenomenally as social psychopathy; as
logic will often tend to be ‘rationalised in social rather than abstract terms’ depending on level
of individuals intuition about the underlying dynamism of the postlogism–as-of–compulsing–

There is equally a social dynamism aspect wherein the issue of ‘social allegiance, affordability and initial prelogism—as-of-conviction,-in-profound-supererogation’ ~<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> alignment to psychopath-and/or-the-protracted-postlogism ’ comes to override the issue of ‘intrinsic rightness’ leading to what is known as ‘social-chainism or negative-social-aggregation or social-discomfiture’ which in turn (because individuals find ‘apparent social success and conventioning/social-temporal-thresholding’ in such social behaviour) leads to the ‘temporal endemisation/enculturation of social psychopathy’. The underlying mental-disposition of the psychopath as postlogic and the
temporal prelogic/conviction-as-to-profound-supererogation minds pedestals that endemise/enculturate this process thus becoming conjugated-postlogism, is known as ‘extrinsic-attribution’, i.e. the idea of satisfying an interlocutors sense of temporal interests is more important and critical in gaining their support than the notion of intrinsic truth/veridicality of meaning (intrinsic-attribution) thus reflecting their threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-<as-to-'attendant-intradimensional'-prospectively-disontologising-preconverging/dementing–apriorising-psychologism>. Ontologically, this requires an altogether PURIST and UNCOMPROMISING intemporal/ontological conceptualisation of such a-comprehensive-social-temporal-hodgepodging which is rather ontologically-discontinuous. This author qualifies as procrypticism preconverging-or-dementing–apriorising-psychologism, and so as ‘ONTLOGICAL ENTRAPMENT’ going by the ‘human solipsistic/emanant template of institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’. At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding-<as-of-apriorising/axiomatising/referencing> slanted mental process as it faces the negating social reaction of its immediate family environment and the grander society with respect to its compulsive-slanting—preconverging-or-dementing–apriorising. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'>-absolving-or-fleeting-logic-reflex-or-escaping-logic wherein ‘disontologising-perverted-
outcome-sought-precedes-existentially-veridical–ʻattendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging(94) from ‘a direct and blatant faulty-mentation-procedure-deception-or-urge(96) for postlogic slantedness’ in a given social space during its childhood to a state in which the psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-urge’ for postlogic slantedness to attain an apparent normal social equilibrium or socially-functional-and-accordant(93) state within any given social space as it develops into adulthood’. It is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting–conviction-as-to-profound-suprerogation(96) ofʻattendant-intradimensional’-postconverging/dialectical-thinking apriorising-psychologism interlocutors, and so along five factors: - MATURATION (as childish slanted delirious non-veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-ontological-bad-faith/inauthenticity of-reference-of-thought/slantedness become harder to perceive); - INDIRECTNESS (as the psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-urge, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner); - SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking narratives and comparing with the effective social reality context to establish whether the narratives are sound); - CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine supplanting–conviction-as-to-profound-suprerogation(96) ofʻattendant-intradimensional’-postconverging/dialectical-thinking apriorising-psychologism narratives’ and at an even deeper level mimicking ‘profound supplanting–conviction-as-to-profound-suprerogation(96) ofʻattendant-
intradimensional—postconverging/dialectical-thinking —apriorising-psychologism mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slanting—preconverging-or-dementing—apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the compulsive-slanting—preconverging-or-dementing—apriorising, etc. oince it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’.

Further slanting is done at what it perceives to be ‘the credulity-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding-<as-of-apriorising/axiomatising/referencing> is an experiential basis that ultimately skews (‘intemporality -asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) it into more strategic postlogic slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism-slantedness is not socially—universally-transparency, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation or threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—‘attendant-intradimensional’—prospectively—disontologising—preconverging/dementing —apriorising-psychologism or ‘uninstitutionalised-threshold’) of many an interlocutor; - CRAFTINESS (with increasingly greater crude-to-polished threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—

So basically, as social-and-confliction-stakes develop from childhood to adulthood, likewise the psychopath’s postlogic narratives exercise develop and become increasingly serious in its social consequences as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath. The fact, however, is that many of those who grow together with the psychopath (immediate family, close family friends and relatives, etc.) generally have some insight, however wobbly, into this mental process. Further, psychopathic phenomenon meets with varying impact levels as it’s just a way of being/living for the psychopath, and differences in the setup of 'socially-perceived-value as of social-stake-contention-or-confliction' context and time might play a role in making its social consequences benign or aggravated. But then psychopathy and its social consequences, as a social phenomenon, is often wrongly perceived as exclusively due solely to an individual (the psychopath). This is rather an incomplete picture of things actually. The psychopath in a way can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-contention-or-confliction’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising–) reference-of-thought-elements/apriorising–registry-elements which
when wrongly acquiesced to is the foundation for its faulty-mentionation-procedure-deception-or-urge; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-reflex-logic and the deliriousness/delirious-effect/cinglé-effect. Paradoxically, this faulty-mentionation-procedure-deception-or-urge points to the fact that the slanted child psychopathy mind has a developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from attendant-ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity ~reifying-or-elucidating-of-prospective-relative-ontological-completeness of-reference-of-thought devolving-as-of-instantiative-context), which is what validates logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as a process reflecting existential-reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology), in the formation of a basic and normal supplanting–conviction-as-to-profound-supererogation of–attendant-intradimensional’–postconverging/dialectical-thinking apriorising-psychologism of prelogism as-of-conviction, in-profound-supererogation <existentially-veridical–attendant-intradimensional apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at’ mindset/’reference-of-thought’ inducing rather a postlogic ‘compulsing–nonconviction/madeupness/bottomlining‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>–induced-disontologising’–of-the ‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity>; in-shallow-supererogation <as-to-disontologising-perverted-

paradoxically then wrongly validate the psychopath as prelogic supplanting–conviction-as-to-

However, psychopathy tends to take a social dynamism all of its own which cannot only be
explained by the nature of the psychopath who initiates it. The fact is, while supplanting–
conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–

apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ derived from the
psychopath’s initiated postlogism in hollow-constituting—<as-disjointed-misappropriation-of—
That is, abstractly, with respect to 'socially-perceived-value as of social-stake-contention-or-confliction' humans do solipsistically/emanantly/becomingly suffer perpetually, at ‘uninstitutionalised-threshold’, from the temporal-dispositions of slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome with institutionalisation/intemporalisation and formalisations with corresponding internalisation of values or secondnaturing. However, at circumstances where the institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the ‘extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology)’, then ‘a induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ will elicit the ‘mediocrity/averageness of mind’. This is strongly the case with psychopathy which when ‘successful’ (and not perceived deliriously but rather wrongly integrated prelogically/in-conviction-as-to-profound-supererogation) will often perfectly elicit an ‘induced-ring-of-gyges-effect/solipsistic-point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dynamism’ in the social-construct such that others will find it to their temporal self-interest to perpetuate, whether circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can rationalise their dispositions and acts. This as ‘social psychopathy’ as a result of the psychopath’s initiated postlogism in hollow-constituting as-disjointed-misappropriation-of-
meaningfulness-and-failing-intemporal-preservation\textsuperscript{2} (involving protracted/derived slantedness), in the absence of social \textsuperscript{103} universal-transparency\textsuperscript{10} (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{104} on the veridicality of narratives with respect to social-and-confliction-stakes tends to induce \textsuperscript{50} ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (at the point of such lack of social \textsuperscript{105} universal-transparency\textsuperscript{10} (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{104} of its postlogism \textsuperscript{103} -slantedness to many a supplanting–conviction-as-to-profound-suprerogation \textsuperscript{103} of ‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism interlocutor as the ‘uninstitutionalised-threshold’\textsuperscript{102}). Hence psychopathy when studied dynamically is rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally influences social behaviour as at ‘uninstitutionalised-threshold’\textsuperscript{102} human learned behaviour is primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-thresholding rather than ontological rightness for rightness sake’, whether intemporal (the-Good as longness-of-register-of–meaningfulness-and-teleology\textsuperscript{103}) or temporal (shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{103}), hence its relation to sociopathy which is a more generalised notion of social vices-and-impediments \textsuperscript{105}. The social psychopathy phenomenon (in describing the underlying abstract nature of man before institutionalisation/intemporalisation; institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition by its purist and \textsuperscript{103} universal projection rules in an ‘ontological entrapment’ exercise to undermine/override temporal-dispositions subknowledging\textsuperscript{67}/mimicking, by virtue of its <amplituding/formative–epistemicity>causality \textsuperscript{61} as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity and overall medium to
long term good to the cross-section of human temporal interests) is equally associated with the notion of the stages of human transcendence-and-sublimity/sublimation/supererogatory-dementativity/civilisation, in an intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, from a recurrent-utter-institutionalised animal through subsequent stages of institutionalisation/intemporalisation (as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge\{preconverging-or-dementing -as-if-of-sound-knowledge\}/pervert intemporal categorical-imperatives) starting with base-institutionalisation (initial sense of social rules/organisation), universalisation, positivism and prospectively the future institutionalisation/intemporalisation this author qualifies as notional–deprocrypticism (preempting procrypticism, so construed by ‘notional–deprocrypticism ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking\'-differentiation-as-of-supratransversality\<in-sublimating–existential-eventuating/denouement>\~of-motif-and-apriorising/axiomatising/referencing\’). That is, psychopathy as postlogism\) is associated with temporal-dispositions in their ‘perversion-of-reference-of-thought\<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \> (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology\)\) of the various institutionalisation/intemporalisation levels (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging\) of the reference-of-thought–categorical-imperatives/axioms/registry-teleology\)\) behind a registry-worldview’s/dimension’s institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation of prospective \)reference-of-thought–categorical-imperatives/axioms/registry-teleology\). To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a new human
caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality<for-sublimating-existential-eventuating/denouement>--of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ as from ontological-normalcy/postconvergence). Thus reference-of-thought–categorical-imperatives/axioms/registry-teleology are ‘inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging/mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders categorical-imperatives/registry/axioms-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation null and void, calling for the overcoming of the slantedness/decandoring/distractive-alignment-to reference-of-thought-apriorising/axiomatising/referencing> of mental-devising-representation and the articulation of new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reflecting intrinsic reality. anthropological experience; as putting into perspective and not excepting any particular stage of institutionalisation/intemporalisation, as we might tend to do by focussing on the present positive registry-worldview which is just the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process, while ignoring the ‘effective and causative intemporal-disposition behind the institutional-cumulation/institutional-recomposurer (as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>) transcendental/psychoanalytic-unshackling process’, which skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) ‘the cross-section of human entropic being’ in the medium to long run towards intemporal-disposition preservation while undermining temporal-dispositions. Such a depth-of-thought as projected by the ‘institutionalisation intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojecting/supererogating/zeroing psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall perspective of the human species we can’t afford not
worldview defect/perversion of positivistic categorical-imperatives/axioms known as procrypticism preconverging-or-dementing–apriorising-psychologism, for a prospective anticipation and preemption of this known as ‘deprocrypticism’! It should be noted that while ‘institutional-cumulation’ and ‘institutional-recomposure’ are used interchangeably, however, the two terms carry two different connotative emphases necessary to make the conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process of human institutional transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) while institutional-recomposure stresses the peculiarity of the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/memetic-reordering wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposured peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposured in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposured into notional–deprocrypticism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive recomposuring/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus
mentation capacity on developing new memetic-reordering/recomposuring. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposure-{as-to-

(beyond any given registry-worldview’s/dimension’s institutional mirage/illusion-of-the-present/present-consciousness) such that ontologically speaking it is prospectively predicative of future institutionalisation/intemporalisation like deprocripticism. This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing←perspective–ontological-normalecy/postconvergence-reflect-ed-‘epistemicity-relativism-determinism’} analysis) is not, as may wrongly be thought, analogical but is rather ‘an ontologically-contiguous ‘meaningfulness-and-teleology’ reference’ (given the contiguity in the ‘precedingness/supersedingness/ascendency-and-continuity of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation referencing’ across all cumulating/recomposuring institutionalisations); i.e. memetic contiguity as the underlying principle of memetic-reordering which is the ‘contiguous dynamism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the continuous transdimensional/transcendental relation of intemporal and temporal-dispositions’ at uninstitutionalised-threshold, and so, across all cumulating/recomposuring institutionalisations whether from a retrospective, present or prospective perspective. Psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring process can then be defined as arising when a registry-worldview’s/dimension’s {cumulated/recomposed}-consciousness-awareness-teleology is transcended/superseded as to human limited-mentation-capacity-deepening, at its uninstitutionalised-threshold involving-organic-comprehension-thinking in contrast with threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation –as-to–’attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism>; in transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–‘motif-and–apriorising/axiomatising/referencing’ along three transversality<for-sublimating–existential-

This brings up the notion that while candoring/straightness is the way meaning is represented within any registry-worldview/dimension institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, this is just a mental-devising-representation for implying intemporality—of-thought without which meaningfulness is not functional in the registry-worldview’s/dimension’s {cumulated/recomposured}-consciousness-awareness-teleology, but then at that same prior registry-worldview’s/dimension’s uninstitutionalised-threshold, transcendence-and-sublimity/sublimation/supererogatory—dementativity into a prospective registry-worldview’s/dimension’s {cumulated/recomposured}-consciousness-awareness-teleology put into question this candoring/straightness mental-devising-representation and the prior registry-worldview’s/dimension’s consciousness-awareness-teleology is then represented as preconverging-or-dementing—an apriorising-psychologism/decandoring/oblongated. This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics). Stranding purely has to do between placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-

Each of such psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (along the institutional-cumulation/institutional-recomposure ⟨as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing ⟨perspective–ontological-normalcy/postconvergence-reflect−epistemicity-relativism-determinism⟩⟩ process), have particular ‘central recomposuring determinants’ which the new registry-worldview is coming after, as follows: (i) for Base-Institutionalisation, it has to do with the requisite ‘organising rules/principles’ as ‘a memetic ontological entrapment’ for superseding recurrent-utter-uninstitutionalisation (as an inherently−‘preconverging-or-dementing apriorising-psychologism-or-subknowledging or- perversion-of reference-of-thought−as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, and-corresponding amplituding/formative–epistemicity totalising−self-referencing-syncretising’ relation to meaningfulness). (ii) for universalisation, it has to do with requisite ‘projection rules/principles’ as ‘a memetic ontological entrapment’ for superseding ununiversalisation (as perversion-of reference-of-thought−as-preconvergingly apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of base-institutional meaningfulness). (iv) for Rational-Realism (deprocrypticism), it prospectively has to do with ‘notional–firstnaturedness—temporal-to-intemporal-dispositions−⟨so-construed-as-from-perspective–ontological-normalcy/postconvergence⟩ accountability/intemporality–skewing (‘intemporality−skewing−-

Noting as well that previous uninstitutionalised-threshold\textsuperscript{02} as to recurrent-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation,\textsuperscript{103} universalisation/non-positivism-or-medievalism equally had a sense of straightness/candor of their meaningfulness in a full blossoming of their own existentialism/full-existential-depth-implications of supposed postconverging–dementating/structuring/paradigmning as we do in our positivistic/procrypticism registry-worldview, within the ambits of their the-Good/understanding/notional–knowledge-reification–gesturing\textsuperscript{<in-prospective Psychologism–apriorising/axiomatising/referencing–\{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity \}–conflicatedness –in–\{preconverging–disentailment–by\}–postconverging–entailment\textsuperscript{<amplituding/formative–epistemicity>causality –as-to-projective-totalitative–implications-of-prospective–nonpresencing,–for-explicating-ontological-contiguity conceptualisation. This equally explains why uninstitutionalised-threshold\textsuperscript{02} equally carried a
complex about their registry-worldview/dimension and these complexes certainly sound unintelligible to us given our vantage perspective at the backend of the institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing,<perspective-ontological-normalcy/postconvergence-reflected-’epistemicity-relativism-determinism’}> process. With rational-realism (deprocrypticism), institutionalisation/intemporalisation raises the issue of notional-discontiguity/epistemic-discontiguity—between—prior-shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema_and_prospective-profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> (undisambiguation as notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> are wrongly given the same elevation), and relevantly so at the procrypticism–or–disjointedness–as-of—reference-of-thought uninstitutionalised-threshold. The very specific nature of the deprocryptic transcendentiveness-and-sublimity/sublimation/supererogatory—dementativity/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor at the procryptic uninstitutionalised-threshold, and conjugate this in meaningfulness by going beyond just logical operation/processing/contention of narratives but rather in the first instance introducing the notion of ‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’ disambiguation’ to avoid wrongfully operating/processing of logic by the categorical-imperatives/axioms/registry-teleology, for-intemporal-
preservation-entropy-or-contiguity—or—ontological-preservation which is ontological (i.e. is in sync with intrinsic-reality/veridicality), where the effective registries are actually temporal-dispositions thus to be construed as of their temporal references-of-thought. It involves (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding—or-attributive-dialectics) temporal-dispositions manifest denaturing and thus to avoid elevating temporal-dispositions to intemporal logical contending status as this result in the miscuing of meaning as of notional-discontiguity/epistemic-discontiguity between—prior—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema_and_prospective-profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema—, notional—deprocrypticism institutionalisation/intemporalisation takes stock of the veridicality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—so—construed—as—from—perspective—ontological-normalcy/postconvergence’—existentialism-form-factor; as successive circular/recurrent/repetitive/repeatable iterating preconverging constructs, and not as may wrongly be reflected by the natural reflex to be postconverging constructs, to emphasise the ‘dominance/supersedingness/suprastructuring of the intemporal-disposition skewing (‘intemporality—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity)’ for the fulsome articulation of ontology as ‘utter (postconvergence) ontological-veridicality/ontological-contiguity in conscious transdimensional/transcendental-memetic-depth (thinking-and-preconverging-or-dementing—dialectical-dynamism-or-dialectics) of ontological-normalcy/postconvergence or prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (unlike all prior institutionalisations which are rather intradimensional in their meaningful-depth construed only

For instance, the uninstitutionalised-threshold for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with universalisation–non-positivism–medievalism and our positivism–procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in a recurrent-utter-uninstitutionalised registry-worldview. Knowledge-notionalisation as such carries a transcendent-existentialism/in-full-existential-
depth-of-notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence>—implications which is more than just reactionary to the possibility of temporality/shortness (shortness-of-register-of—meaningfulness-and-teleology) but rather ‘a transcendent-existentialism maturing of thought’ (intemporality as longness-of-register-of—meaningfulness-and-teleology) that takes abstract cognisance of temporality/shortness as an intransient potency (hitherto accounting for the circularity/recurrence/repetition/repeatability of human circular-uninstitutionalised-threshold) to be conceptually understood and superseded recurrently and perpetually. Critically, this insight about the effective nature of ontological-normalcy/postconvergence (in its becoming in a conscious transdimensional/transcendental-meaningfulness or memetism or suprastructural-meaningfulness) as ‘postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectics/dialectical-dynamism’ indicates that while psychoanalytically prior registry-worldviews/dimensions had hitherto been based on mental-devising-representations of ‘thresholding meaningfulness constructs’ (with their reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy—or-contiguity—or—ontological-preservation) within their ‘functional institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy—or-contiguity—or—ontological-preservation’, notional—deprocrypticism going by ontological-normalcy/postconvergence implies a mental-devising-representation of ‘non-thresholding meaningfulness as transdimensional/transcendental-meaningfulness or memetic refinement (or a postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectics/dialectical-dynamism paradox) ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-to-conflatedness as dialectical transformation as-prospective reference-of-thought’ in its

dementing –apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity –of–reference-of-thought does not arise because of failure of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation but rather because of failure of reference-of-thought as of perversion-and-derived perversion-of reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >. This is unlike the case where logical-engagement of mental-devising-representation as ‘postconverging-or-dialectical-thinking’–apriorising-psychologism'/soundness-or-ontological-good-faith/authenticity –of–reference-of-thought is still relevant where there is failing/not-upholding<as-of-apriorising/axiomatising/referencing> logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation (like calculating the answer of an arithmetic operation wrongly) so long as the reference-of-thought is sincerely/genuinely working in adherence to arithmetic axioms to produce the right answer. But this is invalid and not applicable where the issue is about deliberate disposition not to adhere to arithmetic axioms but usurp them (whether consciously, expediently or unconsciously). Soundness-or-ontological-good-faith/authenticity –of–reference-of-thought on the other hand implies being-or-ontological-or-existential-or–meaningfulness-and-teleology disposition as of supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism (reflecting sound logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and at worst defect–of–logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) and so in effective prelogism wherein logical-process-precedes-outcome thus upholding intemporal/veracity/ontological-pertinence; so construed from a more profound ontological-normalcy/postconvergence insight. This is the fundamental basis and backdrop for an insight

Hence the postconverging/dialectical-thinking –apriorising-psychologism mental-devising-representations of either sound logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and defect–of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation are ‘projectively validated by reflex as possibly-of-postconverging-or-dialectical-thinking –apriorising-psychologism/possibly-of-soundness-or-ontological-good-faith/authenticity of reference-of-thought (and not projectively invalidated by reflex as possibly-of-preconverging-or-dementing –apriorising-psychologism/possibly-of-unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought) in implying the ‘upholding of their sound reference-of-thought status’. To illustrate, suppose X and Y are contending (ontological-reference) to know what 5+4 will give as answer (ontological-veridicality), if X is using pencils to count but inadvertently misplaced a pencil or doesn’t perfectly understand how to stack up the pencils to use to count the whole lot, then where his answer was to come out as
5+4=8, we talk of defect-of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as X sincerely wants to calculate to produce the right answer but X’s logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation failed. This doesn’t invalidate the notion that Y can still engage X as ‘possibly-of-postconverging-or-dialectical-thinking—apriorising-psychologism’/possibly-of-soundness-or-ontological-good-faith/authenticity—of-reference-of-thought in contending (appropriateness-of-reference-of-thought-as-of-conflatedness) with respect to another arithmetic operation, that is, possibly after pointing out to X where they went wrong in their operation of arithmetic. While threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—‘attendant—intradimensional’—prospectively—disontologising—preconverging/dementing—apriorising—psychologism performs subsequent acts of similar—or-protracted-contextualisation to their prior acts verified to be of threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—‘attendant—intradimensional’—prospectively—disontologising—preconverging/dementing—apriorising—psychologism are priorly projectively invalidated by reflex as ‘possibly—of-preconverging—or—dementing—apriorising—psychologism’/possibly—of—unsoundness—or—ontological—bad—faith/inauthenticity—of-reference—of—thought and not ‘possibly—of—postconverging—or—dialectical—thinking—apriorising—psychologism’/possibly—of—soundness—or—ontological—good—faith/authenticity—of-reference—of—thought in implying the ‘revoking of their sound reference—of—thought status’.

To illustrate, suppose X above rather slyly and deliberately (preconverging—or—dementing—apriorising—psychologism mental—devising—representation) miscalculated (non—ontological-reference/non—contending—reference) the answer (in notional—discontiguity/epistemic—discontiguity—between—prior—shallow—supererogation—of—mentally—aestheticised—preconverging/dementing—qualia-schema_and_prospective—profound—

The implication being that in a contention among interlocutors in recurrent-utter-uninstitutionalisation, the mentation is very much different from ours (positivism) as any imagined pretext is a legitimate one with emphasis being rather on established dominance/subservience relations, with base-institutionalisation the mentation was to arbitrarily invoke any of a number of recognised or incidentally introduced rules that are in one’s favour and again where dominance/subservience relations played a large part, while with universalisation while power relations also played a part the rules and rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,⋯’ as ‘first-level presencing—absolutising-identitive-constitutedness’ of reference-of-thought’

Interestingly, while the socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation
explains how and why successive institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-as-to-epistemicity-relativism-determinism are at their given institutionalisation levels on the basis of a memetic suprastructural-meaningfulness analysis or a transcendental/transdimensional-meaningfulness analysis, the notion of socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation actually initially applies intradimensionally in all registry-worldviews/dimensions and it is actually the ‘intemporal/ontological signal’ for the need of prospective transcending/superseding due to ‘failing/not-upholding-as-of-apriorising/axiomatising/referencing’ intradimensional ontologising/intemporal-preservation’. Insightfully, we can grasp the ‘intemporal/ontological signal’ pointing to a socially-betraying-threshold-of-ontologising-depth-of-analysis with regards to a dimension’s/registry-worldview ‘preconverging-or-dementing—apriorising-psychologism phenomenon’ like psychopathy and social psychopathy (with respect to procrypticism or perversion-of—reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of positivistic meaningfulness) or accusations and notions of sorcery (with respect to medievalism); as this has to do with human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—as-so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor individuations dispositions wherein intradimensionally, the ‘socially-betraying-threshold-of-ontologising-depth-of-analysis’ (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation or threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—attendant—

Thus for instance with regards to adult psychopathy and the induced social psychopathy, it will be naïve to simply analyse on a dichotomous basis of psychopathy and its violation of social norm, with the idea that psychopathy is associated with temporal-dispositions destructuring-threshold\textsuperscript{7}\{uninstitutionalised-threshold /presublimating–desublimating-decisionality\}—of-ontological-performance\textsuperscript{7}<-<including-virtue-as-ontology> ‘as of the positivism–procrypticism registry-worldview’s/dimension’s socially-betraying-threshold-of-ontologising-depth-of-analysis’/socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation (in conjugation to ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) and it is naïve to simply analyse on the basis that other interlocutors have an intemporal/ontological disposition, in the very first instance. In this respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it ‘becomes existentially in a dynamism of conventioning and ontology’. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to \langle perversion-of–reference-of-thought\rangle <as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \rangle phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant ‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily
induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals- and-institutional levels, and worst still perpetuate social ignorance simply by wrongly implied, naïve and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with regards to psychopathy is that these often tend to be short-sighted given the unsustainable nature of the arguments in the middle to long run, and tend to be based on inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-*totalising~in-relative-ontological-completeness* as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In this respect, one can cite at individuals-levels instances of many a human interest story tragedy in the press which often go unanalysed, and in the bigger institutional-level for instance what is the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably due to grave and unprincipled mismanagement with profound social repercussions. The implied intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, contrasted with a temporal extricatory preconverging–de-mentating/structuring/paradigming, is necessarily the prospective transcending/superseding registry-worldview/dimension. Consider the case of contending about a perversion-of-reference-of-thought—reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation like accusations and notions of sorcery in a non-positivism/medievalism setup where there is no intradimensional intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation
postconverging–de-mentating/structuring/paradigming given the obliviousness to a positivistic ontological-reference-of-veridicality/contending-reference-of-veridicality as it is suprastructural/beyond the registry-worldview’s/dimension’s/recomposured-consciousness-awareness-teleology to non-positivism/medievalism. Likewise the positivistic meaningful frame is oblivious to its procrypticism, and corresponding resolution as notional–deprocrypticism as the prospective/transcending/superseding ontological-reference-of-veridicality/contending-reference-of-veridicality. Further, this notion of registry-worldviews/dimensions having socially-betraying-threshold-of-ontologising-depth-of-analysis (that need to be suprastructured by prospective/transcending/superseding registry-worldviews/dimensions) explains why a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ aligned with ontological-normalcy/postconvergence is what escapes and provides for grander emancipating possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/{cumulated/recomposured}-consciousness-awareness-teleology in reference (as ‘tentative references-of-thought’) of this same one (ontological-normalcy/postconvergence) ontology/ontological-veridicality/intrinsic-reality and our corresponding/derived ‘meaningfulness-and-teleology’ thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the finality of such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that aligns with and is driven by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation) wherein ontological-normalcy/postconvergence is ‘an abstract conceptualisation that by artifice covers for human limited but deepening mentation capacity’. Ontological-normalcy/postconvergence (as to epistemic relative-ontological-completeness) abstractly refers to any relevant/implied registry-worldview/dimension that is in a reflected/perspectivated state of prospective transcending/superseding whether as base-institutionalisation, universalisation, positivism or notional~deprocrypticism as having ‘relative sound/ontologically-veridical reference-of-thought status’, in relation to a corresponding reflected/perspectivated state of prior transcended/superseded registry-worldview/dimension whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism which is then correspondingly of ‘relative unsound/ontologically-impertinent reference-of-thought status’, and so going by the inherent human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued~notional~firstnatures—temporal-to-intemporal-dispositions<so-construed-as-from-perspective~ontological-normalcy/postconvergence>–existentialism-form-factor that arises by the mere fact that all the institutionalisations are of the same ‘human form-factor’ with their ‘snowballed differences’ arise solely due to limited-mentation-capacity-deepening involving institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective~ontological-normalcy/postconvergence-reflected~epistemicity-relativism-determinism">. Ontological-normalcy/postconvergence as such will imply that the successive institutionalisations are rather shifts-in-the-curve-of-prospective-relative-ontological-completeness of reference-of-thought-as-of-ontological-normalcy/postconvergence (shifts-in-the-curve-of-human-grasp-of-one-ontology/ontological-reference-of-veridicality’, which will graphically/as-imagery imply ‘human-grasping-capacity’ on one axis and ‘depth-of-ontology/ontological-reference-of-
insight is critical because the defect of logical-processing-or-logical-implicitation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance will often be implied with regards to an issue and resolution of perversion-of-reference-of-thought—which rather speaks to a defect ‘revoking the sound reference-of-thought status’ construed as perversion-and-derived—perversion-of-reference-of-thought—speaking of registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—as-Being-or-ontological-or-existential—defect. For instance, there is no intradimensional resolution of sorcery accusations and notions of sorcery as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming within a non-positivism/medievalism world, as what is required is a shift-in-the-curve-of-prior-relative-ontological-incompleteness—of—reference-of-thought-as-of-ontological-normalcy/postconvergence to imply a prospective transcending/superseding positivistic registry-worldview/dimension as the resolution wherein positivising/rational-empiricism takes pride of place as reference-of-thought of meaningfulness. This applies with all perversion-of-reference-of-thought—in all institutionalisations as the reference-of-thought is what gives registry/anchoring-of-meaning/meaningful-reference/ontological-reference/contending-reference/registry-worldview status which is voided in the instance of perversion-of-reference-of-thought—

to the childhood psychopathy/cinglée mental-disposition, given that an initial encounter often

In the bigger scheme of things, it equally explains our mental-devising-representation preconverging-or-dementing apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity of-reference-of-thought underlying reflex with respect to prior/transcended/superseded registry-worldviews/dimensions and ‘postconverging-or-dialectical-thinking apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity of-reference-of-thought mental-devising-representation underlying reflex with respect to prospective/transcending/superseding registry-worldviews/dimensions. A perversion-of-reference-of-thought as preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation speaks of a hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation defect (as sticking ‘in form’ to reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that are ontologically defective rather than as being an adjunct to intemporal-preservation-entropy-or-contiguity—or—ontological-preservation per se, and so due to having attained the socially-betraying-threshold-of-ontologising-depth-of-analysis and thus not initiating ontological-reconstituting—as-to—

It should thus be noted that the preconverging-or-dementing\(20\)–apriorising-psychologism of reference-of-thought of a registry-worldview/dimension implicitly reflects a defective/sub-par relative state-of-conceptualisation in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (a fundamentally defective/sub-par state-of-disposition) with respect to ontological-normalcy/postconvergence, as can be demonstrated by ontological-reconstituting–as-to-conflatedness /deconstruction, (and has nothing to do, as-being-caused-by, with an inducing phenomena of ‘perversion-of- reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as to preconverging-or-dementing\(50\)–apriorising-psychologism’ behind say sorcery and psychopathy; even though
such phenomena tend to instigate and reveal the inherent defect/sub-par nature of registry-worldviews/dimensions with respect to ontological-normalcy, with the need for ontological-reconstituting–as-to-conflatedness\(^1\)/deconstruction). In other words, the state of being non-positivism/medievalism with respect to ontological-normalcy/postconvergence is already a defective state ‘in-wait as of prior relative-ontological-incompleteness’\(^3\)/reference-of-thought defective\(^8\)/reference-of-thought\(^3\)/categorical-imperatives/axioms/registry-teleology\(^9\) for issues of superstition/lack-of-rational-empiricism to arise whether we talk of sorcery, bodily mutilations and their effects, charlatanisms, etc. Likewise, it will be naïve to imply that our registry-worldview as positivism–procrypticism is in absolute sync with ontological-normalcy/postconvergence by the mere fact that we are at the backend of the institutional-cumulation/institutional-recomposure\(\langle\text{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-}<\text{perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’}>\rangle\), as we can equally project prospectively from a retrospective projection insight to grasp how ‘from an utter hermeneutic/reprojecting/supererogating/zeroing circle exercise of ontological-reconstituting–as-to-conflatedness\(^1\)/deconstruction (of our notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature)’ how procrypticism (preconverging-or-dementing\(^8\)–apriorising-psychologism as to mere-formulaic positivistic ‘meaningfulness-and-teleology\(^9\) in a positivistic registry-worldview de-mentatively/structurally/paradigmatically endemises psychopathy and social psychopathy. Insightfully, for a grander grasp of ontological-normalcy, the notion of institutional-cumulation/institutional-recomposure\(\langle\text{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-}<\text{perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’}>\rangle\) and their related conceptualisations are not just ad-hoc in nature but of ‘existentialism/full-depth-of-existential-
implications form-factor’; which is fundamentally defined by ontological-normalcy/postconvergence (going by shallower-limited-mentation-capacity to deeper-limited-mentation-capacity), in reflecting the precedence/supersedingness of intrinsic-reality/ontology to which an ‘animal’ comes-to-and-re-compose-with-cumulatively by ontological-reconstituting–as-to-conflatedness/deconstruction (which is the critical subsuming mechanism for re-establishing reference-of-thought and ontological-veridicality/ontological-contiguity as intemporal-preservation-entropy-or-contiguity—or–ontological-preservation, above and beyond the simple hollow-constituting of defective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of any registry-worldview/dimension and requiring their prospective suprastructuring). This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the human limited-mentation-capacity-deepening induced institutional-cumulation/institutional-recomposure–as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing–‘epistemicity-relativism-determinism’, and inherently implies ‘a universal existentialisms/full-depth-of-existential-implications form-factor across institutionalisations’; which define their specificities and potentials which are basically abstractly of a same ‘human form-factor’, with regards to the reality of their notional~firstnaturedness—temporal-to-intemporal-dispositions–so-construed-as-from-perspective–ontological-normalcy/postconvergence> and the existential implications on every registry-worldview/dimension thereof, though of differing ‘snowballed recomposuring’ of

Ontological-entrapment (as a deterministic point of reference that defines dialectical-out-of-phasing/dialectical-primitivity registry-worldview/dimension, and thus avoiding any confusing effects to analysis of the de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics)) is attained by ‘keeping or aligning’ preconverging-or-dementing apriorising-psychologism (with no shifting by reflex into postconverging-or-dialectical-thinking apriorising-psychologism) of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of the wrong ontological-references/contending-references of all established perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation prior/transcended/superseded registry-worldviews/dimensions, in hollow-constituting- as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation failing/not-upholding-as-of-apriorising/axiomatising/referencing the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, with respect to ontological-normalcy/postconvergence represented by the rightful ontological-references/contending-references of the prospective/transcending/superseding registry-worldviews/dimensions whose mentation/mental-devising representation are ‘kept or aligned’ as ‘ontologically-reconstituting’-or-prelogic-or-logical-process-precedes-outcome-or-conviction-as-to-profound-supererogation, as in ontological-reconstituting–as-to-conflicatedness/deconstruction of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with sound reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. A ‘postconverging-or-

This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipating potential’ over ‘deluded idealisms’ that simply create space for falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since basically knowing-is-acting as of conceptivity/epistemic-reflexivity/epistemicity-relativism—

Rational-realism (as to prospective deprocrypticism) as such involves rather elucidating /decandoring with three de-mentative/structural/paradigmatic teleologies: - subknowledging\textsuperscript{94}-impulse/compulsive-dementing\textsuperscript{94} temporal-disposition (psychopath), with ‘slanted mechanical narratives’ (preconverging-or-dementing\textsuperscript{94}–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); - subknowledging\textsuperscript{94}-temporal-dispositions-teleologies (the-various-temporal-dispositions-teleologies), with ‘banal mechanical narratives discomfiture’ (preconverging-or-dementing\textsuperscript{94}–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); and - the intemporally given and ontologising teleology\textsuperscript{99} which ontologically reflects/perspectivates the subknowledging -impulse/compulsive-dementing\textsuperscript{94}-temporal-disposition-{psychopath} and the subknowledging\textsuperscript{94}-registries-teleologies (the-various-temporal-dispositions-teleologies), from an organic-comprehension-thinking depth as the de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) backdrop of new recomposuring reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Thus at the institutionalised-threshold\textsuperscript{102}, it is counterintuitive for temporal-dispositions not to perceive their registry-worldview/dimension as ‘un-transcendable’ (acting as if in intemporal-preservation-entropy-or-contiguity–or–ontological-preservation while actually in temporal preservation-as-pseudointemporality; hence de-mentable/no-longer-thinking) due to </amplituding/formative–epistemicity>totalising~self-referencing-syncretising/present-consciousness/illusion-of-the-present/mirage as metaphysics-of-presence</implicated-'nondescript/ignorable–void 'as-to- presencing—absolutising-identitive-constitutedness> which blinds the temporal-dispositions to the registry-

Galileo’s medieval ‘round world utterances’ nor Darwin’s and others ‘evolution contentions’ are not idle-and-dispensable articulations as all transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (occurring at the registry-

It calls for a knowledge construct, whether social or physical, beyond just positivistical categorisation of knowledge but as ‘ontological-normalcy/postconvergence referentialism as of intemporal-preservation-entropy-or-contiguity—or–ontological-preservation ontology’. Thus, the doppler-thinking exercise of suprastructuralism enables the conceptualisation/construal of institutionalisation-or-intemporalisation-or-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in grasping the denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology as of ontological-normalcy/postconvergence basis of analysis, and by so doing grasping the precedingness/supersedingness/ascendency of intrinsic-reality.

[Referentialism involves a reference-of-thought (so-characteristic of the prospective deprocrypticism registry-worldview/dimension) construing existence and existential-
profound ontological-normalcy/postconvergence of existential-reality factoring in human limited-mentation-capacity-deepening\textsuperscript{53} as of metaphysics-of-absence\textsuperscript{\{implicated-epistemic-veracity-of-nonpresencing-\langle perspective-ontological-normalcy/postconvergence\rangle\}}, and as implied by the notion of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that goes beyond \textsuperscript{\{amplituding/formative\} wooden-language\textsuperscript{\{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or—dementing —narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology } which are continually put into question, by being open-ended to upholding/not-failing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening\textsuperscript{53} by a re-equilibrating metaphysics-of-absence\textsuperscript{\{implicated-epistemic-veracity-of-nonpresencing-\langle perspective-ontological-normalcy/postconvergence\rangle\}}/postdication. Thus, apriorising/axiomatising/referencing-\{of-attendant—ontological-contiguity ~educed—existentialising/contextualising/textualising-contiguity \}—constitutedness\textsuperscript{\{constitutedness}—in—preconverging entailment will wrongly induce virtuality—or—ontologically-flawed—constplural/being—constplural—as—abstract—constplural—as—of—flawed—and—shallow—and—non—veridical—existential-reference, and so, with more and more profound defective constplural/conceptualisation consequence with deeper and deeper categorisation and analysis. Often, and where aware, about the critical defective nature implied by apriorising/axiomatising/referencing-\{of-attendant—ontological-contiguity ~educed—existentialising/contextualising/textualising-contiguity \}—constitutedness\textsuperscript{\{constitutedness}—in—preconverging entailment in categorisation schemes, there will be re-categorisation/re-adaptation/re-classification as an attendant resetting resolution for the induced ‘virtuality—or—ontologically-flawed—constplural—of—constplural—of axiomatic-constuct/ reference-of-thought’ (by elaboration-as-to—mere—extrapolating/constituting/abstracting/deducing/inferring-of-elucidation—

But then the inherent nature of existence in relation to human limited-mentation-capacity-deepening construal of it is one of evasiveness as implied by the ‘imbricatedness/threadedness/recomposuring as of attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity -<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought devolving-as-of-instantiative-context> as to existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ such that we are only occasionally and partially aware about the critical defective nature implied by apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—constitutedness in preconverging entailment in categorisation schemes, thus fundamentally defining the limits even of a presencing—absolutising-identitive-constitutedness as of existential-conceptualisations/construals. The implication is beyond just the notion of knowledge construal/conceptualisation categorisation schemes and scheming but extends to the very inherent construal/conceptualisation of knowledge as of its implied ontological and virtue construct itself; so because the de-mentative/structural/paradigmatic basis of categorisation scheming are equally the de-mentative/structural/paradigmatic basis of the inherent analysis and meaningfulness-and-teleology construed/conceptualised. These two concepts are critical relative to grasping and analysing human choice/notions relative to \textsuperscript{83}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{102} of meaningful-frameworks. Other implications have to do with human personality development psychology in relation to meaningfulness extending to the construal/conceptualisation of language development as well as aesthetics and virtue as

Consider the example of the ‘God-of-plane’ type of expression in an animistic/base-institutionalisation setup, where their fundamental psychologism is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued in the animistic/base-institutionalisation psychologism, until down the line the latter’s meaningfulness-and-teleology <amplituding/formative–epistemicity> totalising–self-

amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving. Thus use of numbers is defined by other ideas in such early hunter-gather and animist societies given Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology like the notion of wealth accumulation, which will be predominantly about ‘inducing a sense of social obligation or faithfulness or deference’ from other persons, and so together with other cultural peculiarities that avoid hoarding and emphasise wealth display, gifts, etc. Psychologism (as being central in apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }= conflatedness in {preconverging-disentailment by} postconverging-entailment or rather ‘presencing—absolutising-identitive-constitutedness’ as recurrent re-categorisation/re-adaptation/re-classification of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }= constitutedness in {preconverging-entailment}, refers to the underlying human reflex mental scheme of a given registry-worldview’s/dimension’s reference-of-thought ‘allowing for its given capacity to supersede its psychological complex in construing amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity transcendental-enabling/sublimating/superceregatory~de-mentativity and corresponding meaningfulness-and-

The bigger question could be asked; why doesn’t humans in recurrent-utter-uninstitutionalisation spontaneously articulate and relate to ‘meaningfulness-and-teleology’ as humans in base-institutionalisation-ununiversalisation, who do not do likewise as humans in universalisation–non-positivism/medievalism, who do not do likewise as humans in positivism–procrypticism? Is it a difference in species, as of successive species? Obviously, no! As we know from history and anthropology that cultural diffusion has shown that all humans are able to come to terms and operate at the highest forms of human registry-worldview’s/dimension’s institutionalisation. This fundamentally points to the centrality of a registry-worldview’s/dimension’s reference-of-thought psychologism ‘placeholder-setup/mentation/mental-devising-representation/consciousness-awareness-teleology as arising and determined by its specific limited-mentation-capacity-as from relative apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity }—constitutedness—in preconverging-entailment to relative apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity }—confladedness—in {preconverging-disentailment by?–postconverging-entailment} construal/conceptualisation as soundness-or-ontological-good-faith/authenticity—of-reference-of-thought’. The underlying human psyche is in need of a ‘framework of intelligibility construal/conceptualisation’ as its mental-scheme (psychologism) by which humans, given their limited-mentation-capacity-deepening, can then project ‘mental and existential investment’ in a world of perceived stakes (social, natural and/or supernatural) in a ‘social framework of intersolipsistic deambulation’ (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential
possibilities, on the basis of its limited-mentation-capacity-deepening determinating its prospective relative-ontological-completeness of reference-of-thought, as enabled by the ‘social framework of intersolipsistic deambulation’. This ‘social framework of intersolipsistic deambulation’ is highly linear as of the possibilities for construing human psychical and institutional readjustments in inducing successive institutional-cumulation/institutional-recomposure as to historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism–determinism’> which are thus equally in a linearity. This notion of ‘social framework of intersolipsistic deambulation’ harkens back to that of human registry-worldview’s/dimension’s institutionalisation by its socially-functional-and-accordant thresholds of notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence> further redefining the possibility of institutionalised-threshold as the threshold for failing/not-upholding the institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology and the possibility of prospective institutionalisation as renewing reference-of-thought—categorical-imperatives/axioms/registry-teleology for upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence with respect to the institutionalised-threshold, thus further redefining successive prospective socially-functional-and-accordant thresholds as successive prospective registry-worldviews/dimensions. Thus, implying a dual-faceted representation of human mental-disposition as institutionalised-and-uninstitutionalised, wherein by metaphysics-of-presence (implicated–‘nondescript/ignoreable–void ’–as-to– presencing—absolutising–identitive-constitutedness), the present registry-worldview’s/dimension’s reference-of-thought by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in excluding its uninstitutionalised facet from placeholder-setup/mental-

Ultimately, given the comprehensive and typical underlying proneness of human limited-mentation-capacity-deepening to apriorising/axiomatising/referencing-{of-
postconverging-or-dialectical-thinking\textsuperscript{21}–apriorising-psychologism’ is valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{9} of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’; and so, with no relevant need for attending to any ‘psychological complexes’ with respect to a representation as of an uninstitutionalised-threshold\textsuperscript{102} wrongly being construed as of institutionalisation (at the uninstitutionalised-threshold\textsuperscript{102}) as being ‘a mentation reflex as centered and postconverging-or-dialectical-thinking\textsuperscript{21}–apriorising-psychologism’ instead of ‘a mentation reflex as decentered and in \textsuperscript{1}de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)’. The point of this statement is that when procrypticism as our uninstitutionalised-threshold\textsuperscript{102} is bound to be construed as of metaphysics-of-absence-(implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>), the normal psychologism we know of as of our positivism institutionalisation will no longer apply, as our procrypticism meaningfulness-and-teleology\textsuperscript{9} will be represented as decentered and in \textsuperscript{1}de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as the necessary/requisite backdrop for the construal of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ushering in notional–deprocrypticism as prospective institutionalisation. In this regard, we’ll certainly inherently relate to preceding successive uninstitutionalised-threshold\textsuperscript{102} of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism effectively as decentered and in \textsuperscript{1}de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics), though this will most probably be resisted with respect to such a representation of our denaturing\textsuperscript{16} of positivistic meaningfulness as our prospective procrypticism uninstitutionalisation (just as the correspondingly humans in the
preceding successive uninstitutionalised-threshold by mentation reflex had, consciously and unconsciously, resisted a representation as decentered and in de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics)); while we can recognise successively the centered and postconverging-or-dialectical-thinking apriorising-psychologism nature of base-institutionalisation, universalisation and positivism, though probably less so of notional–deprocrypticism institutionalisation as it points to the decentering and de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) of our procrypticism uninstitutionalisation. Such institutionalisation and uninstitutionalised-threshold construal at the transcendental/transdimensional/interdimensional-level is reflected/perspectivated operantly by the concepts of apriorising/axiomatising/referencing {of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging disentailment by} postconverging entailment as of centering and postconverging-or-dialectical-thinking apriorising-psychologism reference-of-thought implied with institutionalisations and apriorising/axiomatising/referencing {of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } constitutedness in preconverging entailment as of decentering and ontologically/preconverging-or-dementing apriorising-psychologism reference-of-thought implied with uninstitutionalised-threshold; prompting the respective institutionalisation and uninstitutionalised-threshold psychologisms as of the apriorising/precedingness of attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity <reifying-or-elucidating-of-prospective-relative-ontological-completeness > of reference-of-thought- devolving-as-of-instantiative-context> reflecting this reality beyond and above our subpar <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{[34]}\textsuperscript{[34]}\textsuperscript{[34]} reference-of-thought in positivism–procrypticism from a notional–deprocrypticism perspective, just as we’ll recognise for instance that a \textsuperscript{[103]} universalisation–non-positivism/medievalism mental-disposition contending against positivism institutionalisation meaningfulness is actually acting out a subpar \textsuperscript{[amplituding/formative–epistemicity]} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{[34]}\textsuperscript{[34]}\textsuperscript{[34]} reference-of-thought as of the apriorising/precedingness of attendant–ontological-contiguity educed–existentialising/contextualising/textualising-contiguity reifying-or-elucidating-of prospective-relative-ontological-completeness of reference-of-thought devolving-as-of-instantiative-context reflecting this reality beyond and above it from the positivism perspective. Thus it is fundamentally the case that the requisite construal/conceptualisation as decentered and in de-mentation\textsuperscript{[supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics]} of an uninstitutionalised-threshold \textsuperscript{02} is hardly just one of ‘simplistic knowledge elucidation’ but rather an elucidation as of intellectual courage in bluntly asserting decentering and de-mentation\textsuperscript{[supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics]}. Intellectual courage as imbuing knowledge with organic profoundness of intemporal-disposition philosophy rather than just a mechanical construct of technicalities is the central driver for all initiated transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and prospective institutionalisations, as this goes beyond intellectual institutional-being-and-craft, since there is ‘no magical knowledge technicality’ for implying a more profound ontological-completeness-of\textsuperscript{reference-of-thought} over a relatively relative-ontological-incompleteness\textsuperscript{reference-of-thought} but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-positivism/medievalism mindset/reference-of-thought, fundamentally so with respect to such
an intrinsic-reality/ontological-veridicality knowledge construct issue associated with transcendental-enabling/sublimating/supererogatory-de-mentativity rather than a conventioning sovereign construct/choice issue associated with social-aggregation-enabling. In this regard, the issue arising is ‘altogether not a knowledge elucidation problem’ with respect to the implied representation of uninstitutionalised-threshold as decentered and in de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) but rather a ‘psychological complex issue’ of the prior/transcended/superseded reference-of-thought. This explains why the issue is construed ontologically in ‘psychologism terms as of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, as requiring a coming to terms with the understanding implied by prospective institutionalisation as of its more profound attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity ~<reifying-or-elucidating-of-prospective-relative-ontological-completeness ~of~ reference-of-thought~ devolving-as-of-instantiative-context>; as more fundamentally, Galileo’s use of a telescope to demonstrate a heliocentric system with respect to the non-positivism/medievalism reference-of-thought is not about the inherent knowledge implications to which the non-positivism/medievalism mindset reference-of-thought has ‘mentally shut-off’ to, but fundamentally about the ‘psychological complex’ of the non-positivism/medieval world of countenancing such meaningfulness as jeopardising the prior (non-positivism/medievalism), with the implication rather for the need of the prospective psychologism as the positivism institutionalisation psychologism (<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought foundation as new placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology~) requisite knowledge or meaningfulness-and-teleology reference-of-thought. Such equally applies with respect to
notional-deprocrypticism prospective institutionalisation relative to our procrypticism uninstitutionalised-threshold. In other words, prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is construed not in terms—as-of-axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic causality—as-to-projective-totalitative–implications-of-prospective- nonpresencing—for-explicating-ontological-contiguity’ outcomes construed as the overtly compelling aspect of the knowledge’ validating a knowledge construct but is construed rather in terms—as-of-axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discreitional contemplative aspect of the knowledge, behind the thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is grounded on such an underlying reference-of-thought associated with organic-knowledge qualified as the institutionalisation psychologism. In this regard, a chemist or botanist for instance in a non-positivistic as medieval or animistic/base-institutionalisation setup will certainly not confuse the fact that its demonstration of chemical reactions or a plant demonstration to approval in such a social-setup necessarily imply that ‘the underlying positivism mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discreitional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of positivistic knowledge’ behind its thought process eventually producing the validating causality—as-to-projective-totalitative–implications-of-prospective- nonpresencing—for-explicating-ontological-contiguity outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-
knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology\[^6\] conjure up explanations/meaningfulness-and-teleology\[^9\] in terms—as-of-axiomatic-construct of its non-positivistic medieval alchemic or non-positivistic animistic\[^6\] reference-of-thought psychologism; as it is naïve to think that implied organic-knowledge as of prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory—d-mentativity requiring its own\[^8\] reference-of-thought psychologism can simply be construed as ‘mechanical-knowledge’ while still upholding/keeping the prior/transcended/superseded registry-worldview’s/dimension’s\[^8\] reference-of-thought psychologism, as the organic-knowledge rather points to ‘validating <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity outcomes as its mechanical-knowledge aspect but further requires a development of the discrentional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the knowledge’, grounded rather on such a prospective institutionalisation psychologism as its ‘suprastructuration’ or its ‘suprastructural psychical-and-institutionalisation orientation of ‘meaningfulness-and-teleology’\[^9\] synopsising-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding—oneness-of-ontology’, and not the prior/superseded/transcended uninstitutionalised-threshold\[^10^2\] psychologism. Such organic-knowledge gets institutionalised to an extent by the habituation as of circularity/recurrence/repetition/repeatability\[^10\] of the mechanical-knowledge implied\[^6\] reference-of-thought of ‘meaningfulness-and-teleology’\[^9\] as of crossgenerational psychoanalytic-unshackling involving <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the ultimate crossgenerational alignment to the prospective/transcending/superseding registry-worldview
reference-of-thought, as a positivistic registry-worldview. Interestingly, and so across all successive institutionalisations, what tends to be lost ‘the failure to register fully that the ‘intemporal-disposition projecting mental-disposition’ behind validating the institutionalisation of ‘mechanical-knowledge’ is rather the ‘vitality aspect’ of organic-knowledge and it is ‘not a passive dispensation’, just as well that the ‘temporal mental-dispositions’ superseded towards attaining the ‘mechanical-knowledge’ is ‘not simply a passive distraction’ with the insight that there is a contingency as of temporal-to-intemporal mental-disposition relative to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality across all the successive registry-worldviews/dimensions as at all their uninstitutionalised-threshold temporal-individuations-as-shortness-of-register-of—meaningfulness-and-teleology are a drawback to transcendence-and-sublimity/sublimation/supererogatory—dementativity (by adherence to wooden-language—{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the reference-of-thought—categorical-imperatives/axioms/registry-teleology } of prior/transcended/superseded registry-worldviews/dimensions’ inducing their successive threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to—‘attendant-intradimensional’—prospectively-disontologising—preconverging/dementing—apriorising-psychologism>, and critically so as across all registry-worldviews/dimensions postlogism leads to a characteristic mental-disposition at their uninstitutionalised-threshold of deception-of-concurrently-false-presupposing/false-presuming/false-premising-of-narratives and the consequent derivation, due to induced ‘lack of constraining social universal-

The Nietzschean metaphor ‘God is dead’, as of human emancipation, is one whose validity can only be countenance where it implies the capacity of human pretence of intellectual-and-moral sublimation, and not the notion of intellectual-and-moral decadence. *Thus to sum up, the overall notion of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity }—conflatedness—in-{preconverging–disentailment–by}–postconverging entailment in relation with other elucidative associated notions can further be clarified as follows in ‘interdimensional/transdimensional/transcendental terms in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity”—of-the-human-institutionalisation-process as well as ‘individuation terms of human temporal-to-intemporal mental-dispositions’. In other words, suprastructuralism (as of its referential and ontological-normalcy/postconvergence emanance perspective and as a doppler-thinking exercise) ushers in a whole new comprehensive registry-worldview across the entire social construction-of-meaning called deprocrypticism, much like positivism did over non-positivism/medievalism or universalisation over ununiversalisation or base-institutionalisation over tter-uninstitutionalisation. Central to such ‘a universal notion of deprocrypticism’ is the idea of an utter-recomposing-ontologising by upholding ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, involving postdication with postdicatory techniques and postdicatory mindset/reference-of-thought in reflection of the suprastructural and ontological-normalcy/postconvergence nature of intrinsic-reality (more like the positivistic registry-worldview is all about existential positivistic conceptualisations, positivistic techniques and basic positivistic mindset/reference-of-thought superseding existential alchemic conceptualisations, alchemic techniques and a basic alchemic mindset/reference-of-thought that defined the non-positivism/medievalism registry-worldview/dimension); involving ensuring intemporal-disposition organic-comprehension-thinking that upholds-and-is-the
the latter tends relatively to be weakly ontologically-contiguous with all the existential implications thereof, whether with regards to virtue construal or subject-matters issues. Further as with all transcendence-and-sublimity/sublimation/supererogatory~de-mentativity, the transcendence-and-sublimity/sublimation/supererogatory~de-mentativity going from procrystalism, or the preconverging-or-dementing\(^{20}\)–apriorising-psychologism (perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing \(^{20}\)–apriorising-psychologism) of positivistic\(^ {56}\) meaningfulness-and-teleology, to notional–deprocrystalism will involve a psychoanalytically preconverging-or-dementing\(^ {20}\)–apriorising-psychologism deconstruction/ontological-reconstituting–as-to-conflatedness\(^ {3}\) of our present positivistic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^ {9}\) wherein this is presently postconverging-or-dialectical-thinking\(^ {21}\)–apriorising-psychologism-<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^ {9}\) wherein the notional–deprocrystalism mindset/reference-of-thought reflects/perspectivates the positivistic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^ {9}\) at its uninstitutionalised-threshold\(^ {12}\) in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> or preconverging-or-dementing\(^ {21}\)–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>. So the notional–deprocrystalism institutionalisation (as a renewed existentialism/full-depth-of-existential-implications meaningfulness-and-teleology\(^ {9}\) or memetic-refinement) ontologising involves an ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness\(^ {3}\) as dialectical transformation, as-prospective\(^ {3}\) reference-of-thought, of

Even though as with all transcended registry-worldviews/dimensions such an implied veridical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology will probably sound unintelligible/existentially-suprastructural due to our positivistic illusion-of-the-present/epistemic-totalising ~self-referencing-syncretising/present-consciousness/mirage; as the reference-of-thought, in articulating ontological-normalcy/postconvergence and the suprastructural nature of intrinsic-reality/ontological-veridicality, moves away from a positivistic registry-worldview registrying/dueness to a notional~deprocripticism registry-worldview registrying/dueness with the corresponding de-mentation

Likewise such a threshold-of- nonconviction/madeupness/bottomlining-in-shallow-supererogation\^\textsuperscript{\textasciitilde}<-as-to-'attendant-intradimensional\^\textsuperscript{\textasciitilde}-prospectively-disontologising-preconverging/dementing –apriorising-psychologism\^\textsuperscript{\textasciitilde} registry-worldview projection though of a different nature of the positivistic registry-worldview/dimension can be made prospectively from a notional–deprocrypticism insight that overrides our illusion-of-the-present/epistemic-totalising\^\textsuperscript{\textasciitilde}~self-referencing-syncretising/present-consciousness/mirage given its more suprastructural and ontological-normalcy/postconvergence vantage perspective in relation to intrinsic-reality/ontological-veridicality/ontological-referencing. The general underlying principle for notional–deprocrypticism methods and techniques is that of being utterly ontologising, beyond positivistic meaningfulness conventioning and temporal-accommodation as ‘ontologically-reconstituting/deconstruction’ for undermining notional-discontiguity/epistemic-discontiguity\^\textsuperscript{\textasciitilde}-<between—prior-shallow-supererogation -of-mentally- aestheticised-preconverging/dementing –qualia-schema_and_prospective-profound-supererogation -of-mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema> arising from temporal-dispositions perversion-of- reference-of-thought<-as-preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as to preconverging- or-dementing\^\textsuperscript{\textasciitilde}~apriorising-psychologism, and as it upholds veridical ontological-veridicality/ontological-contiguity\^\textsuperscript{\textasciitilde} as the veridical reference-of-thought; which is what is actually up for contention and is effective contention (organic-comprehension-thinking) over

Noting as well that with regards to human mentation
capacity, the successive institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>} elicit successive circumspections (as recomposured-consciousness-awareness-teleology\(^{39}\)) in human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{39}\) capacity that are enablers of the associated institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>}: for base-institutionalisation the circumspection is one of contrastive uninstitutionalised-threshold \(^{02}\) –institutionalisation analytical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{39}\) capacity for upholding institutionalisation; with \(^{103}\) universalisation the circumspection involves contrastive ununiversalisation—and—\(^{103}\) universalisation analytical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{39}\) capacity for upholding \(^{103}\) universalisation; with positivism the circumspection involves contrastive non-positivism/medieval/alchemic—and—positivism/rational-empiricism analytic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{39}\) capacity for upholding positivism/rational-empiricism; and prospectively, for notional~deprocrypticism the circumspection will involve contrastive notional~firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence> analytic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{39}\) capacity for upholding the intemporal-disposition as ontology. Critically, human analytical mentation capacity mainly disambiguates what-is-in-effect organic-comprehension-thinking and threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^{46}\)<as-to–‘attendant-intradimensional’–prospectively–

Equally, with regards to human mentation capacity, the effect of limited mentation capacity characterising a given registry-worldview/dimension or intradimensional level and its social-construct not only defines its inherent vices-and-impediments\textsuperscript{[1][3]} but such a social-construct further and critically structures and stifles the natural renewal of human emancipative dispositions. For instance, non-positivism/medievalism stifling inclinations to think outside of medieval mental-dispositiona and likewise with regards to our procrypticism.

The bigger point of successive institutionalisations has to do overall with their specific emancipative registry-worldview/dimension framework as fertilising the cross-section of human practical and conceptual incidental issues and endeavours as well as the virtue constructs at the said registry-worldview/dimension. What is interesting with regards to an incidental study like psychopathy and social psychopathy with respect to the grander notional-deprocrypticism institutionalisation level within the treatment of the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'> meta-conceptual frame is that it provides (besides being critically important to grasp by itself as a parasitising/co-opting phenomenon that can potentially arise in all human locales) the incidental and the-Good/understanding/notional-knowledge-reification-gesturing<-in-prospective-psychologismic-apriorising/axiomatising/referencing-\{of-attendant-ontological-contiguity-\textsuperscript{-reduced-existentialising/contextualising/textualising-contiguity}\} conflatedness-in\{preconverging-disentailment-by\}postconverging-entailment/</amplituding/formative-epistemicity>causality-as-to-projective-totalitativo

Such dynamic and mutually beneficial insight at the meta-conceptualisation and incidental further extends to other related incidental issues relevant to the meta-conceptualisation. It should be noted that this overall explanatory exercise is ‘not reasoning by analogy’ but rather contiguous (ontological-contiguity) as the fundamental notion is institutionalisation/intemporalisation entropy (intemporal-preservation contiguity; by a skewing device (‘intemporality’-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference of the averageness of human temporal-dispositions, with corresponding formalisation and internalisation as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, towards the supersedingness of the intemporal-disposition which is inherently ontological and syncs with intrinsic reality in its amplituding/formative–epistemicity causality—as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity, and hence its
supersedingness as it induces overall social virtue-as-of-ontology).

institutionalisation/intemporalisation (whose reference-of-thought—categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation will carry the ‘virtuous and intellectual responsibility’ to recognise that ‘perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ is an endemic human mental defect/perversion disposition retrospectively to prospectively, and that this is ‘a lost cause’ due fundamentally to mediocrity principle of humans having in reality ‘notional~firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’ and not ‘universal intemporal-disposition’, and the construct of deprocryptic categorical-imperatives/axioms should be anticipatory and preemptive of ‘perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ perpetually at the ‘uninstitutionalised-threshold’. More like the modern notion of medicine doesn’t work on the idea of exceptional people, as this will ultimately lead to a wrong and superstitious disease theory, but accepts that de-mentatively/structurally/paradigmatically bacteria, cancer, organ failure, etc. cause disease and that the virtue of medicine is about how to understand and preempt the above causations; likewise deprocryptic virtue operates on a realistic grasp of human subknowledging/mimicking/temporal-to-intemporal-solipsistic-projections at uninstitutionalised-threshold and then strives to skew/deferential-formalisation-transference for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-preservation entropy/contiguity). We can garner such emanant (becoming) ‘psychoanalytic unshackled insight’ of how we transcended from non-positivism/medievalism to a positivistic registry-worldview. A literary insight can also be grasped reading Chinua Achebe’s Things Fall Apart on how a community where a traditional registry-worldview with its sense of purpose
had to deal with positivistic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Think of the state of the mind of Okonkwo of the Umuofia Clan. Though, in this case the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is by cultural diffusion rather than by internal philosophical transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Basically, all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity involve ‘a psychoanalytic-unshackling of this sort’. Counterintuitively, it should be understood that no transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rational because you rationalise by operating logic on a sound registry-worldview/axiomatic construct/categorical-imperatives but then the need for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity due to perversion-and-derived-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and the registry-worldview’s/dimension’s relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism’ is putting the soundness of registry-worldview/axiomatic construct/categorical-imperatives in question (as reference-of-thought-supersedes/precedes logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), so you rather have a reinvention as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of a new and better registry-worldview/axiomatic-construct/categorical-imperatives by the psychoanalytic-unshackling coming from its better grasp/<amplituding/formative–epistemicity>causality –as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity of the world/intrinsic reality. Basically, we can say that human-emanant/becoming-transcendence is
the first level of human invention (incremental inventions of relatively sounder minds; with the
would-be ‘intellectual-analysts’ undergoing their own philosophical/first-level transcendence-

doesn’t mean that the Descartes, Comtes, Galileos, Newtons, Darwins… of the world,
miraculously came up with positivism to supersede/precede/override/utter medievalism, as they
were of medieval stock but by philosophical transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity could project beyond the limits of non-
positivism/medievalism even were they were still imbued with remnants of the old like
alchemic beliefs. Hence it is the transcendentral process that is actually critical)! Now what
positive can come from psychopathy? From the intemporal perspective NONE. Besides specific
social consequences of psychopathy as the context of ‘socially-perceived-value as of social-
stake-contention-or-confliction’ moves from family, neighbourhood, school, company,
administration, business, criminality, etc. depending on the development of the specific
psychopath; by and large, ontologically and as reflected by the organic-comprehension-thinking

prospective transcendental construct of deprocrypticism, as the ‘ontologising organic-

lot of ‘good’ to a specific individual or group of individuals (for instance, steal and distribute or
even some other things but coming initially from a vice; as may be enabled by the psychopath’s Faulty-mentation-procedure-deception-or-urge\(^4\) to attain an outcome). This dynamic element can make psychopathy and social psychopathy difficult to deal with as a social phenomenon, as the questions are not only how culpable is the psychopath but extend to who is temporally getting what from the psychopathic situation, what accounts and narratives should be believed, etc., thus requiring an utter and intemporally uncompromising ontological conceptualisation to construct an \(<\text{amplituding/formative-epistemicity}>\text{causality as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity}\>\)\text{ science. That said, beyond just about such a present worldly take to societal issues, there is a bigger question of the \(103\) universal implications on human civilisation of postlogism\(^7\) in hollow-constituting\(<\text{as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation}>\) and \(\text{perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>}\) phenomena as reflected above regarding the contiguous process of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation behind human civilisation. It is equally important to note that as much as the psychopath seem to have a weird mentality (slantedness), the incidence and initiation of psychopathy, equally has to do both with the nature of the psychopathic/postlogism\(^7\) mind contrasted to the nature of the ‘normal supplanting–conviction-as-to-profound-supererogation of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism or prelogic mind’, which are antipodal as the normal mind is by reflex prelogic supplanting–conviction-as-to-profound-supererogation\(^0\) of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism as to attendant–ontological-contiguity\(\sim\)educed–existentialising/contextualising/textualising-contiguity and by reflex will tend to see prelogic supplanting–conviction-as-to-profound-supererogation of-‘attendant-intradimensional’\)

The mechanism of institutionalisation/intemporalisation and formalisation ensures that because of the positive-opportunism—of-social-functioning-and-accordance that the intemporal-disposition (as it syncs with intrinsic reality and is thus ontological) brings to the cross-section of human temporal interests at 'socially-perceived-value as of social-stake-contention-or-confliction', it tends to skew ('intemporality-asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity)/deferential-formalisation-transference and dominate temporal-dispositions in the medium to long perspective. For instance, everyone will like to see a good legal system to ensure that they do not fall afoul of a bad judgment even if, circumstantially, maybe they themselves may be inclined not to have others or some others to enjoy the same (of course, the internalisation of our ‘present institutionalised/intemporalised positivistic meaningful worldview’ will seem to imply that we do have a first nature disposition to be inherently civilised to want to universally wish that everyone have to deal with a fair legal system, that anyway is to the credit of the institutionalisation/intemporalisation process, but that is a secondnatured/internalised construct). This explains why there is no need to breach the scientific principle known as the ‘mediocrity principle’, (which says that there are no exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in reality man is a notional—firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-

Why talk of ‘uninstitutionalised-threshold’? This is the underlying notion of ‘a grand theory of psychology’ that has been missing to turn psychology from a preconverging–de-mentating/structuring/paradigming of the human presencing—absolutising-identitive-constitutedness as modern into a postconverging–de-mentating/structuring/paradigming across-and-of-all-times of nonpresencing as anthropopsychology or ‘the-anthropological-continuity’, i.e. cumulating/recomposuring from recurrent-utter-uninstitutionalisation, based-institutionalisation–ununuversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism). The present treatment of psychology will seem to imply that all psychology is about psychoanalytic techniques on the modern positive mind, which is rather naïve and uninsightful not just in terms of scope but critically depth of conceptualisation. The answer to this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation abstractly allows for human-subpotency survival/existence/emanance/fulfilment/flourishing in existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression and assumes a fundamental referencing base in the study of the psyche (noting that by saying ‘notion’ is meant, the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation covers the concepts of temporal

candoring’ where mental-devising-representation syncs with intrinsic-reality and mental
decandoring where mental-devising-representation is a wrong/flawed perverted representation

Ontology is an altogether coherent construct with no room for excepting from coherence, which then simply implies the superseding of any such pretence of an excepting. (For instance, we can be calculating the sum \(5 \times 5\) + 5 – 5, and make the mistake to say \(5 \times 5 = 24\) but then overlook it and agree together that the answer should be \(24\) and go on to resolve the entire equation as \(24\).

This type of non-ontological thinking (a non-ontological thinking is also known as a misanalysis or misthinking or misreasoning or mislogic or preconverging-or-dementing \(\text{apriorising-psychologism} \langle \text{stranded-as-rightfully-oblengated/decandored-and-dialectically-or-contendingly-out-of-phase} \rangle \) or \(<\text{amplituding/formative–epistemicity} >\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \rangle \) or notional-discontiguity/epistemic-discontiguity \(<\text{between–prior-shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema_and_prospective-profound-supererogation -of-mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema} \rangle , as there is no veridical meaningfulness that exists out of ontology or isn’t in ontological-contiguity \(/angle\) is highly prevalent in the extended-informality \(\langle \text{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology} \rangle\) of society as social-aggregation-enabling, the reason we strive to formalise whether in terms–as-of-axiomatic-construct of laws, institutions, organisations, etc. The basic fact is that the virtue of the intemporal-disposition constructs cannot accommodate non-ontology since reality doesn’t adjust to man and it is man that adjusts to reality. The \(\text{de-mentation} \langle \text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics},-in-a-contiguity-of-increasing-ontological-normalcy/postconvergence \rangle \) implies that an interlocutor’s retrospectively demonstrable narratives miscuing and subsequent perversion-of–reference-of-thought\(\langle \text{as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-} \rangle\)
supererogation speaks of the real nature of its present and prospective narratives as decandored and oblongated in effect ontologically but that by an illusion-of-the-present reflex as well as for the sake of functioning we tend to represent by default such miscuing and perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation meaning as straightness/candored (intemporal) which is not ontologically veridical; in which case the prospective transcended registry-worldview strands such meaningfulness as decandored/oblongated (subknowledging/mimicking) even if the mental-disposition of the transcended registry-worldview is in an illusion-of-the-present straightness/candoring mental-devising-representation of meaning. In other words, de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) ensure an affixing of temporal-dispositions perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation teleologic orientations denaturing to the corresponding temporal perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mindsets in their ontological-escalation/aetiologisation without letting for a disjunction/skipping into intemporal/straightness-of-mental-devising-representation disposition teleologic orientation, and so, to the point of the temporal-dispositions collapsing/overriding (‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) with the new prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the transcending registry-worldview/dimension. Stranding is validated by the fact that transcendental/transdimensional/interdimensional/\textsuperscript{*} maximalising-recomposuring-for-relative-ontological-completeness\(^\ddagger\)—unenframed-conceptualisation speaks of an ‘institutionalisation/intemporalisation constraint/secondnaturaing’ and ‘not temporal-dispositions transformation into intemporal-disposition as dimensionality-of-sublimating\(^\ddagger\)’; and this idea is so foundational that it is beyond-and-supersedes/precedes/overrides/utters the consciousness-awareness-teleology\(^\ddagger\) of temporal-dispositions such that ‘they are not called upon in argumentation’, just as we are not consciously called upon to establish whether blood flows in our body, as it is a preceding/superseding truth that supersedes/precedes/overrides/utters our thinking or not of it!

Thus \textcircled{1} de-mentation\(\langle\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}\rangle\) is rather intemporally/ontologically conceptualised for its validation and integration in the survival-and-flourishing imbued institutionalisation/intemporalisation percolation-channelling-in-deferential-formalisation-transference\(\langle\text{formalisms and internalisations}\rangle\) mechanism with the implied \(\langle\text{amplituding/formative–epistemicity}\rangle\text{causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,–for-explicating-ontological-contiguity}\) and positive-opportunism—of-social-functioning-and-accordance\(^\ddagger\) as ontological entrapment, with no temporal-dispositions firstnature-or-intemporal-level-validation but rather secondnatured-or-institutionalisation/intemporalisation-level-validation. ontological-preservation. For instance, the positive (as to intemporal project) will not engage in a direct logical convincing with the non-positivisitic/medieval mind as this just validates to the non-positivism/medievalism disposition that its non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation relation with meaningfulness-and-teleology is sound such that it goes on to operate/process logic by amplituding/formative–epistemicity–totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag non-positivism/medievalism meaningfulness-and-teleology reference-of-thought–categorical-imperatives/axioms/registry-teleology. Rather the positivistic mindset/ reference-of-thought will project the new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivism (as rational-empiricism/positivising basis of reasoning) through positivism institutionalisation/intemporalisation percolation-channelling<in-deferential-formalisation-transference> and highlighting, in the bigger scheme of things, the relative sublimating efficiency and positive-opportunism—of-social-functioning-and-accordance of a positivism-based rule of law, social organisation, polity, nation-building, etc. based on positivism axioms and which inherent effectiveness and supersedingness/transcendence breaks the non-positivism/medievalism mindset/reference-of-thought (which are not rational-empirical/positivising and tend to essences, alchemic-logic, sorcery constructs, etc.) with its defective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This takes an utterly impersonal form (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. The ‘transcendental/transdimensional/interdimensional//maximalising-recomposuring-for-relative-

But then, if such a complex is to stand, the transcendental exercise by which man left the cave-to-so-called-modern-man wouldn’t have happened, and any registry-worldview/dimension (retrospective, present, prospective) that fails its own \{supererogatory\, ontological\, de-mentation-or\, dialectical\, de-mentation—stranding-or-attributive-dialectics\} as to elucidation-and-superseding-of-its-\{perversion-of-\} reference-of-thought\{as-preconvergingly\}-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\}—as-to-preconverging-or-dementing—apriorising-psychologism to allow for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for transcendence-as-the-grander-possibility-for-human-survival-and-flourishing is obviously failing/not-upholding-\{as-of-apriorising/axiomatising/referencing\} its ‘own homework’ for the bigger picture in the human species survival-and-flourishing scheme, notwithstanding it is at the backend of the institutional-cumulation/institutional-recomposure-\{as-to-\} historiality/ontological-eventfulness /ontological-aesthetic-tracing-\{perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’\}\} ontological-contiguity—of-the-human-institutionalisation-process! As an anthropopsychological disposition, rational-realism as notional–deprocrypticism just like all successive transcendence-and-sublimity/sublimation/supererogatory–de-mentativity in emphasising increasing realism counter-intuitively to a naïve temporal take is actually a ‘positive-minded/well-meaning disposition with respect to man/the-human-species’ with the idea that ‘it is better working with what intemporally/ontologically is (that is, the-Good/understanding/notional~knowledge-reification–gesturing–in-prospective\, psychologismic–apriorising/axiomatising/referencing\{of-attendant–ontological-contiguity \~educed–existentialising/contextualising/textualising-contiguity \}\}–conflatedness \~in–\{preconverging-disentailment–by\}–postconverging-entailment\}–amplituding/formative–epistemicity\}causality as-to-projective-totalitative–

The idea of understanding the ontology of human temporal mental defect is not to ‘idle’ in a temporal circularity that defeats-and-debase the grandor of a universal/intemporal projection but rather strives to better stir man towards the intemporal-and-ontological as virtue, an exercise which while of ‘presencing—absolutising-identitive-constitutedness consumed/moribund posture’ with regards to human temporality/shortness wouldn’t however acquiesce to the naïve disconcertment that takes the ‘presencing—absolutising-identitive-constitutedness consumed/moribund posture’ of intemporality/longness for temporal correctness towards which the intemporal-disposition is definitely intransigent and uncompromising for effective intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. Such a rational-realism as notional-deprocripticism disposition views the fundamental anthropopsychology drive for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity which involves (supererogatory—ontological—de-mentation—dialectical—de-mentation—or-attributive-dialectics) for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity by decandoring/oblongating (representation of perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) on the basis of the veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal—to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor rationally, and ontologically

and hence a complete ontology. To put it in other terms, for instance, transversality of ‘keeping the faith’ only in the intrinsic operation of rules of arithmetic (transversality of ‘keeping the faith’ only in the intrinsic operation of rules of arithmetic) is vital to preserving ‘ontological arithmetic’ as transcendental-enabling/sublimating/supererogatory-de-mentativity, whereas if the notion of arithmetic calculations was to involve social-and-temporal-trading with other humans (interlocutors logical nested-congruence) instead of intemporal exercise, it is obvious that down the line the notion of ‘ontological arithmetic’ will sooner or later be corrupted and/or teleologically-degraded as more likely than not the intemporality/purity of mathematics will be compromised to human mortals stakes of social-and-temporal-trading as social-aggregation-enabling, and so as of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguataed as of reference-of-thought-devolving ontological-performance-including-virtue-as-ontology. * It should be noted that in de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics), -in-a-contiguity-of-increasing-ontological-normalcy/postconvergence dialecticism of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity involving the transcended and the transcending dimensions, the terms highlighting the
transcended dimension like decandored, oblongated, dialectically-out-of-phasing/dialectically-
primitive, etc. (as to its superseded Being-development/ontological-framework-expansion–as-
to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology

transcended dimension (as to its given institutional-development–as-to-social-function-
development and living-development–as-to-personality-development so-referenced to its given
Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of–meaningfulness-and-teleology ). The idea is not to idle in
articulating meaningfulness within the dimension in need of transcendence-and-
sublimity/sublimation/suprerogatory–de-mentativity. For instance, a positive mind’s
articulation of defective meaningfulness in non-positivism/medievalism registry-
worldview/dimension is not to ‘idle’ by relating and staking such meaningful articulation in
terms–as-of-axiomatic-construct of the non-positivism/medievalism world sense of meaningful
purposefulness but rather to project a positivistic worldview’s transcendentual meaningful
purposefulness. In that sense, actually for the social scientist and philosopher words like
dialectically-or-contendingly-out-of-phase, primitive, decandored, perverted don’t carry the
ordinary and temporal connotations of stigmatising under a temporal extricatory
preconverging–de-mentating/structuring/paradigming. Rather, these are critical and actively
sought after notions that provide the ‘dialectical backdrop’ for enabling prospective
transcendence-and-sublimity/sublimation/suprerogatory–de-mentativity by psychoanalytic-
unshackling/memetic-reordering/institutional-recomposuring. The idea is that these notions are
veridically dialectical notions that apply in all transcendence-and-
sublimity/sublimation/suprerogatory–de-mentativity unlike a simplistic ‘history fixating
conceptualisation’ will have. In other words, our non-positivism/medievalism ancestors’
possibility of being-represented/mental-devising-representation as dialectically-or-
contendingly-out-of-phase/dialectically-primitive) is the opportunity for the contrastive
collection of a superseding/transcendental registry-worldview/dimension that brought about
the relative virtue in the positivistic registry-worldview/dimension of their great-grandchildren
today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in
a notional–deprocrypticism institutionalisation/intemporalisation with respect to procrypticism.
In the bigger picture, identifying inherent virtue in the institutionalisation/intemporalisation

In this regard, the hermeneutic/reprojecting/supererogating/zeroing exercise originates from an even more wildly idiosyncratic (but personal incommunicable) reflexive process initiated rather spontaneously by the author a few years back which has formed the backdrop for this ‘rather relatively benign idiosyncrasy’ in this paper as the reader may come across and is the explanation for many of the author’s insights. It is this mechanism of deconstructing meaningfulness exhaustively in search of an idiosyncratic but profound philosophical and creative insight that allows the hermeneutic/reprojecting/supererogating/zeroing design in a ‘continuous meaningfulness reshuffling in the quest for veracity/ontological-pertinence’ analogical to a twisty puzzle cube exercise in order to infer and arrive at a profoundly
explanatory hermeneutic/reprojecting/supererogating/zeroing insight extending to the possibility of a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibilities for transcendental institutionalisation/intemporalisation of notional–deprocrypticism (superseding the vices-and-impediments of, as well as human emancipation over, procrypticism). -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a
registry-worldview/dimension whether these are intemporal-preservational or not, hence have
little transcendental capacity. Going by an ‘ontologically contiguous comparison’ with
reference to Arithmetic where a condition was to cause a character to resolve additionality as
1+3=5, 2+5=8, 5+6=12, etc., the ontological-veridicality/ontological-contiguity
of
reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective) of additionality with regards to this character will always
involve as of
reference-of-thought–categorical-imperatives/axioms/registry-teleology
that
subtracts 1 from the results of that character’s operations of additions (as the
imbricatedness/threadedness/recomposuring for upholding existential-reality), and the usual
principles of additionality (its traditional
reference-of-thought–categorical-imperatives/axioms/registry-teleology of simply summing directly) will be existentially
rendered null and void in order to allow for intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation. Now supposed such a framework (reference-of-thought) for
resolving Arithmetic calculations now involves the contribution of 6 characters working in
collaboration with each contributing their specific arithmetic principle role while taking
cognisance of the others roles in ‘resolving arithmetic calculations’ (as ontological-
completeness-of-
reference-of-thought, and so taking into account the prior mentioned
character with its defect of additionality; wherein such a framework is BODMAS-based with
character B working on brackets operations, character O working on order operations, character
D working on division operations, character M working on multiplication operations, the
priorly mentioned character A working on addition operations and character S working on subtraction operations, and so (from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective) setup for resolving arithmetic calculations (ontological-completeness-of-reference-of-thought setup). Naturally, the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as the usual BODMAS Arithmetic rules) should apply but this is no longer existentially the case in this instance, where the equation is for instance $7(\sqrt{64}+3-1)-(6+4-2)+2$. Going by the natural arithmetic rules for BODMAS, the equation will be resolved first with the brackets, and within the brackets for the first brackets the order operation is first carried out, that is, $\sqrt{64}=8$ and then addition $8+3=11$, then subtraction $11-1=10$. For the second brackets, addition as $6+4=10$, then subtraction as $10-2=8$. The division operation then follows with the second brackets result as $8+2=4$. Then the multiplication operation with the first brackets result as $7\times10=70$. Finally, comes the subtraction with $70-4=66$ as the final answer that is ontologically-veridical (in ontological-normalcy/postconvergence).

But then, in this particular case where character A (Addition) operation of additionality is perverted as stated above as a result of its condition, the equation will resolve as $\sqrt{64}=8$, $8+3=12$, $12-1=11$, for the first brackets, and $6+4=11$, $11-2=9$, for the second brackets. The division operation with the second brackets yields $9\div2=4.5$, and the multiplication operation with the first brackets yields $7\times11=77$. Finally, subtracting both brackets gives $77-4.5=72.5$ as the final result which is ontologically wrong (from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective), and points to the fact that all the 6 BODMAS characters, not only A (Addition) the additionality defect character have failed ontological-veridicality/ontological-contiguity as of their relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation ’, ‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –
apriorising-psychologism’ (from ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective), as reference-of-thought~categorical-imperatives/axioms/registry-teleology~for-intemporal-preservation-entropy-or-contiguity~or-ontological-preservation are not by themselves the definitive basis for ontology/intrinsic-reality/existential-reality as these are only as pertinent as they are ontologically-veridical/ontologically-continuous/contextually-contiguous (in ontological-normalcy/postconvergence). This ontological state with respect to all the characters registries (not only A) is known as perversion-and-derived-‘perversion-of-‘reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as-of-unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought, as ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective) precedes projected <amplituding/formative> wooden-language-⟨imbued—temporal—mere-
form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing-narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology ⟩, with reference-of-thought—categorical-imperatives/axioms/registry-teleology nothing more but human mental inventions (construed by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) for the sake of achieving ontology/intemporal-preservation-entropy-or-contiguity~or~ontological-preservation, and pertinent in that regard only when not-failing/upholding intemporal-preservation-entropy-or-contiguity~or~ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence (implicated-epistemic-veracity-of- nonpresencing-perspective~ontological-normalcy/postconvergence)/postdication. Hence the notion of ontological-
normalcy/postconvergence and postdication construes intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as superseding/preceding over projected <amplituding/formative> wooden-language-{imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing – narrations—of-the- reference-of-thought– categorical-imperatives/axioms/registry-teleology }. In which case the resolution for the Arithmetic equation (supposedly where A, Addition, is unamendable due to a condition), will involve the other characters taking cognisance of A’s (Addition’s) condition and adhere to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation over projected <amplituding/formative> wooden-language-{imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing – narrations—of-the- reference-of-thought– categorical-imperatives/axioms/registry-teleology }. Thus the new categorical-imperatives/axiom/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation deployed with respect to resolving calculations (ontological-completeness-of—reference-of-thought will integrate the notion that additionality requires subtracting 1 from its results as well as taking cognisance that other characters will be
perverted in their operation if they do not take cognisance of A’s (Addition’s) condition and subtract 1 from it before their operation (whether unconsciously by ignorance, expediently by affordability, and consciously by opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). For instance, B (Brackets) is still in a position to articulate an ontological-normalcy/postconvergence ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective) by factoring in all the defects as follows: by reverting all other characters operation up to the point they had to deal with A (Addition) and subtracting 1 from the results at these point before allowing the other characters operations, which then yields the right result. That is $77 ÷ 7 = 11$ and $4.5 \times 2 = 9$ as reverting back, then $11 - 1 = 10$ and $9 - 1 = 8$ to factor in A’s (Addition’s) additionality defect to yield the results of the two brackets. Before then letting back the division and multiplication operations for both brackets respectively, giving $8 ÷ 2 = 4$ and $7 \times 10 = 70$. Finally $70 - 4 = 66$, giving the final result that is ontologically-veridical (in ontological-normalcy/postconvergence). So this approach is the new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontologically-veridical/of-intrinsic-reality that B should be operating. In the bigger scheme of things, this explains institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>)/memetic-reordering/psychoanalytic-reorientation with respect to an animal that is always bound to permutation-of-reference-of-thought <as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing –apriorising-psychologism by the very fundamental veridicality of its notional–firstnaturedness—temporal-to-intemporal-dispositions-

In the bigger scheme of things, this calls for a prospective registry-worldview/dimension institutionalisation articulation that supersedes/overrides such a temporal dynamism of \( \text{perversion-of-}\text{reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-

This by itself explains why the different registry-worldviews/dimensions are seemingly preconverging-or-dementing–apriorising-psychologism with respect to one another (from the prospective perspectives), and not that we are talking about different species of humans, as transcendentalism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is the foundational concept retrospectively, presently and prospectively; even though by the illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage, all dimensions, and not only ours, tend to think of themselves as definitely mentally straight/candored-and-dialectically-or-contendingly-
or-ontological-preservation while rather reflecting the uninstitutionalised-threshold that requires renewed mental-devising-representation, and this is not ontologically consistent and fundamentally undermines and overlook the idea of an insight about a prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity with the present registry-worldview/dimension corresponding to the superseded perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation registry-worldview/dimension. Thus but for the inherent difficulty of living and experiencing the effective personhoods-and-socialhood-formation existentialism across all the registry-worldviews/dimensions, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘beyond any one registry-worldview/dimension meaningfulness’ like ours is perfectly possible in garnering a more profound and informed insight on human nature whether presently, retrospectively to prospectively. In the bigger scheme of things, just as logic can only be grounded on coherent and concrete reference-of-thought—categorical-imperatives/axioms/registry-teleology based articulations for its ontological effectiveness and veridicality, human ontological transcendental possibilities arise from human individualizations that correspond to the appropriate ‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the latter is made possible by the ‘so-renewed apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to renewed logical-basis/logic,-as-derived-from—transversality—eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ going beyond the reference-of-thought—categorical-imperatives/axioms/registry-teleology within just a given registry-worldview/dimension as if it were the absolute mental-devising-representation with respect to

The conceptual pertinence in this Arithmetic ontological-contiguity\(^7\) comparison can be rearticulated as follows for greater clarity. As previously highlighted the developmental psychology of the psychopath from childhood to adulthood, involves a child psychopath who is dysfunctional as its subknowledging -impulse/compulsive-dementing \(\text{→}\)postlogism \(\text{→}\) in hollow-constituting-\(<\text{as-disjointed-misappropriation-of-meaningfulness-and-failing-}\)intemporal-preservation\(\text{→}\) is relatively transparent to interlocutors and it induces a ‘delirious

It is obvious that A’s condition/subknowledging-‘-impulse/compulsive-dementing disposition as an adult psychopath isn’t systematic with every interlocutor but rather it arises only in the face of perceived–social-stake-contention-or-confliction-and-confliction-targets and furthermore the profoundness of the postlogism-slantedness manifestation is directly related to the gravity of the perceived–social-stake-contention-or-confliction the situation and how the ‘evolving social psychopathy situation permits’. Hence the notion of A having an absolute condition wherein it increments additionality by 1 is rather an absolute ideal conceptualisation,
as in reality it is a question of degree and highly circumscribed with the adult psychopath who needs to have a postlogic-equilibrium that can be socially-functional-and-accordant\textsuperscript{91}, unlike the dysfunctional child psychopath. This comparison equally articulates the nature of uninstitutionalised-threshold \textsuperscript{92}. Consider B (together with the other BODMAS characters) in the instance where despite A’s conditions they were to stick to the registry-worldview’s/dimension’s institutionalisation \textsuperscript{85} reference-of-thought–\textsuperscript{2} categorical-imperatives/axioms/registry-teleology \textsuperscript{73} thus effectively producing the wrong result \textsuperscript{72}.5 for the particular equation which is not intemporal preservational (not ontologically ontological-normalcy/postconvergence) and likewise for all other equation where A’s condition applies, we’ll then be talking about an uninstitutionalised-threshold\textsuperscript{102}. The implication is that the registry-worldview/dimension then loses its qualification as being intemporally-preservational, and the psychological tool that is then elicited (from a prospective and new \textsuperscript{83} reference-of-thought–\textsuperscript{8} categorical-imperatives/axioms/registry-teleology\textsuperscript{99}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as articulated with the arithmetic technique that corrected the equation result from \textsuperscript{72}.5 to by adjusting for A’s condition which is now the \textsuperscript{83} reference-of-thought or veridical-thinking-reference-over-preconverging-or-dementing\textsuperscript{20}-reference/ontologically-veridical/ontological-contiguity\textsuperscript{67} registry-worldview/dimension) is known as \textsuperscript{15} de-mentation\textsuperscript{36} (supererogatory-ontological-de-mentation-or-dialectical-de-mentation–stranding-or-attributive-dialectics). Even though going by its illusion-of-the-present/present-consciousness, the superseded registry-worldview/dimension will still wrongfully strive for a mental-devising-representation at that uninstitutionalised-threshold\textsuperscript{102} of ‘ontological-thinking (not preconverging-or-dementing –apriorising-psychologism–stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> which is ontologically wrong, just as all <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness registry-
worldviews/dimensions do at their uninstitutionalised-threshold. For instance, the recurrent-utter-uninstitutionalisation mindset\(^{83}\) reference-of-thought doesn’t think of itself that way but rather as a nondescript/ignorable–void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing\(^{20}\)-narratives) or a-registry-worldview’s-or-dimension’s-ignoring-of-its-prior-relative-ontological-incompleteness -of- reference-of-thought-as-an-ontologically-flawed-neuterisation\(^{60}\)-or-bracketing-or-epoché of \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising–conflated–meaningfulness-and-teleology}\>\text{-as-of-notional–deprocrypticism-reflected–historiality/ontological-eventfulness}/\text{ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–epistemicity–relativism–determinism>\> with respect to its threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\>\text{-as-to–attendant-intradimensional–prospectively-disontologising–preconverging/dementing–apriorising–psychologism>}, and such a representation of its mentation is the invention/mental-devising-representation of the base-institutionalisation mindset by its better ontological-completeness-of-reference-of-thought, likewise with ununiversalisation and\(^{10}\) universalisation, non-positivism/medievalism and positivism, and prospectively with procrypticism and deprocrypticism, we will certainly be hardly pre-inclined to acquiesce to a preconverging-or-dementing\(^{20}\)-apriorising-psychologism mental-devising-representation of our\(^{7}\) perversion-of-reference-of-thought\>\text{-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> with respect to the denaturing\(^{7}\) of the\>\text{-categorical-imperatives/axioms/registry-teleology}\>\text{-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness. This insights perfectly highlight that our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t has any end.}

Another aspect highlighted by the Arithmetic equation comparison is with respect to the appropriateness and defects of meaningful references with respect to ontological-veridicality/intrinsic-reality. This subknowledging\textsuperscript{\textsuperscript{54}}-impulse/compulsive-dementing\textsuperscript{\textsuperscript{20}} disposition points out that the actual and given meaningfulness being subknowledged/pervertedly-represented is ontologically-veridical both registry-wise (soundness-or-ontological-good-faith/authenticity\textsuperscript{\textsuperscript{69}}-of-\textsuperscript{\textsuperscript{94}} reference-of-thought-wise) and logic-wise (the normal arithmetic operation of the BODMAS equation) as it is intemporally preservational and thus ontologically-veridical\textsuperscript{\textsuperscript{63}} reference-of-thought/ontological-contiguity\textsuperscript{\textsuperscript{67}}. It is this pedestal that is the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-\textsuperscript{\textsuperscript{\textsuperscript{83}} reference-of-thought’–as-conflatedness\textsuperscript{\textsuperscript{1}}}-or-ontological-reprojecting/longness-of-register-of-\textsuperscript{\textsuperscript{\textsuperscript{67}} meaningfullness-and-teleology\textsuperscript{\textsuperscript{99}}}) pedestal, organic as it is both registry-wise (soundness-or-ontological-good-faith/authenticity\textsuperscript{\textsuperscript{69}}-of-\textsuperscript{\textsuperscript{83}} reference-of-thought-wise) and logic-wise striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. It is the superseding and intemporal pedestal for articulating ontological meaningfulness (intrinsic-attribution). The third pedestal as demonstrated involves the integrating and \textless amplituding\textgreater formative–epistemicity\textgreater totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag\textsuperscript{\textsuperscript{34}} by temporal-dispositions both unconsciously (ignorance) and consciously (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) with A’s condition/subknowledging impulse as if it was ontologically veridical, and obviously leading to the wrong result thus failing/not-upholding-\textless as-of-apriorising/axiomatising/referencing\textgreater intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In the case with B it involved resolving the Arithmetic equation as if A’s condition was appropriate resulting in \textless 0.5 \textgreater which is ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity/–between—prior-shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema_and_prospective-profound-supererogation -of-mentally-

This is the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> pedestal, as registry-wise it is not striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and so fundamentally its logical-contention is voided (as apriorising–registry precedes and defines logical pertinence), such that such a disposition that integrates subknowledging -or-mimicking-impulse/compulsive-dementing registry-worldview-wise/dimensional-wise speaks of the registry-worldview/dimension as in de-mentation\textsuperscript{102} (supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) at that uninstitutionalised-threshold. The fourth meaningful reference is actually a variance of the given organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of-\textsuperscript{13}reference-of-thought’–as-conflatedness\textsuperscript{13}-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) pedestal which is registry-wise and logic-wise pertinent. It is about the intellectual and virtue driven aetiologisation/ontological-escalation (as per this paper aim and other studies) in grasping the human ontological implications and articulating the-Good/understanding/notional–knowledgereification–gesturing <in-prospective_psychologismic–apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }–conflatedness in {preconverging–disenchant-by}–postconverging–entailment> <amplituding/formative–epistemicity>causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity construct for the possibility of a conceptual insight and de-mentative/structural/paradigmatic resolution with regards to (at the registry-worldview/dimension or intradimensional level) procrypticism/the-reality-of-human-notional–firstnaturedness—temporal-to-intemporal-
psychologism (as their implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{99} are all undue and pervertedly implied). So we then speak of an utter/\textsuperscript{55} maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation (not incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation) ‘ordered construct’ of the meaningfulness of the intellectual aetiologisation/ontological-escalation as the organic-comprehension-thinking (organicalism/\textsuperscript{87} intemporal-prioritisation-of-reference-of-thought—as-conflatedness—or-ontological-reprojecting/longness-of-register-of—\textsuperscript{56} meaningfulness-and-teleology) pedestal reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the registry/registry-worldview defects of both the subknowledging impulse pedestal and the threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{13}—as-to-‘attendant-intradimensional’-prospectively-disontologising—preconverging/dementing—apriorising-psychologism> pedestal.

Ontologically-speaking, a temporal naivety with regards to psychopath and its protraction as social psychopathy is that going by the dynamism of its faulty-mentation-procedure-deception-or-urge\textsuperscript{55} towards ‘extrinsic-attribution’ (the eliciting of the temporality/shortness of others is the sufficient basis for getting one’s way), is that the number of people ‘convinced’ by perverted extrinsic-attribution involving social-and-temporal-trading can have any bearing to the ontological-veridicality/intrinsic-reality in any way. While temporally-speaking, psychopathic situations often lead to a-country-of-the-blind-and-the-one-eye kind of scenario, wherein a thousand blinds may strive to convention out the one-eye, but then it wouldn’t still cut it, ontologically-speaking. (Certainly, it is equally and very possible that if such a one-eye isn’t beholden to a ‘sense of intemporal\textsuperscript{98}/shortness whether with respect to temporally outdoing or undermining the
phenomena by acting in a manner that is overall of a temporal/shortness-of-register-of-
meaningfulness-and-teleology\textsuperscript{[99]} nature. But that will still be temporality\textsuperscript{[97]}/shortness and the
notion of an aetiologisation/ontological-escalation as of intemporality \textsuperscript{/longness} will no more
be better advanced. Further beyond and more than just with respect to one case of psychopathy
but as of intellectual-and-moral-inequivalence/non-correspondence construing the \textsuperscript{100} universal
human social phenomena of psychopathic postlogism\textsuperscript{[77]} and conjugated-postlogism\textsuperscript{[77]} across
space and time together with the bigger insight of grasping human nature and the overall
possibilities thereof. Insightfully, as well it won’t be surprising that such a \textsuperscript{100} universal
projection will possibly meet with a more protracted-and-protracting psychopathy and social
psychopathy manifestation going by overall human temporal-to-intemporal mental-disposition
existential-form-factor as varied temporal-dispositions come into the frame and are elicited, just
as an intemporal projection within a non-positivism/medievalism setup aspiring for a

like notions-and-accusations-of-sorcery and which is not palliative to a given situation will equally elicit a social protractedness

low-life purposefulness in both meaningful-frameworks). Rather this then points to the nature
of postlogic \textsuperscript{[74]} perversion-of-\textsuperscript{'reference-of-thought'} as-preconvergingly-
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > with temporal-dispositions; (unconsciously) ignorance and (consciously) other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Ontologically, it is then the subject of contention and aetiolisation/ontological-escalation of the organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) pedestal, both in apriorising–registry and registry-worldview terms as it is reflected/perspectivated as de-mentation-(supererogatory-ontological-de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics). The critical reason for this is that the intemporal-disposition is rather inclined to be utter about intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the complete and sufficient stand for knowledge and virtue with anything else being denaturing much in parallel as intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity doesn’t accommodate human temporality, and so will not even entertain involving in anyway with social-and-temporal-trading exercise which is non-ontological (since it is fundamentally a perversion-and-derived- perversion-of- reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, and has nothing to do with issues of defect–of- logical-processing-or-logicalement-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s– reference-of-thought-for-social-functioning-and-accordance). This can further be elucidated analysing perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > of a different nature in a superseded registry-worldview/dimension like non-positivism/medievalism registry-
worldview/dimension which should provide an even greater insight analysing from our present perspective, and we can then comparatively project this with respect to notional–deprocrypticism and procrypticism. For instance, accusations of witchcraft in non-positivism/medievalism societies are ontologically about subknowledging\(^9\)/perversion-of-reference-of-thought\(<\)as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(>\) as-of-unsoundness-or-ontological-bad-faith/inauthenticity\(-\)of-reference-of-thought/preconverging-or-dementing\(-\)apriorising-psychologism based on the fact that such societies didn’t develop and integrate notions of empirical and rational cause-and-effect positivistic ideas as reference-of-thought–categorical-imperatives/axioms/registry-teleology\(\,\)for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (a mentation-capacity that further furthers the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as modern-day positivistic registry-worldview), as it universally informs the present positivistic worldview and thus the impossibility to sound intelligible in case such an accusation of witchcraft is made today. So structurally, the non-positivism/medievalism society is shaped-and-inclined to integrate and entertain phantasmagorical notions of someone being accused as a witch or sorcerer. We can garner a similar insight just as with the ‘disambiguation of notional–firstnaturedness—temporal-to-intemporal-dispositions–so-construed-as-from-perspective–ontological-normalcy/postconvergence’ as ontological-escalation/aetiologisation’ above, where supposed an intemporal mindset/ reference-of-thought who is in a non-positivism/medievalism society was to be accused of witchcraft by someone inclined to accuse people of witchcraft (because of a pathological-condition/subknowledging\(^9\)-impulse/compulsive-dementing) and who obviously is wrong, as we know today that the notion of witchcraft is ontologically unsound and ridiculous as the ability to perform magic and the like by anyone cannot be demonstrated veridically. The disposition to accuse people of
witchcraft will be the subknowledging\textsuperscript{94}-impulse/compulsive-dementing\textsuperscript{90} pedestal. The disposition to entertain and further exploit such situations (as anthropologists perfectly understand the abhorrent role of such notions as witchcraft in the social-stake-contention-or-confliction of non-positivism/medievalism societies) in conjunction of temporal-dispositions that are unversally-recurrent or universal across all times (postlogism\textsuperscript{77}-slantedness, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) is the threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation -as-to-'attendant-intradimensional’-prospectively-disontologising-preconverging/dementing –apriorising-psychologism pedestal which is rather an extricatory preconverging–dementating/structuring/paradigming (of the situation, to fulfil temporal inclinations or distractive-temporal-prioritisaton and not intemporal preservation); given the lack of a social universal-transparency of-totalising-entailing,-as-to-entailing-\textsuperscript{87} \textit{(amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness )} of the idea that the notion of witchcraft is bogus, with corresponding lack of perceived untenability/internal-contradiction/internal-incoherence/institutional-constraining of such a notion, thus a collective-consciousness that doesn’t register it as preconverging-or-dementing\textsuperscript{70}–apriorising-psychologism (as we do today) and finally, no ontological alienating reason for not believing, endemising and enculturating the phenomenon of witchcraft. The organic-comprehension-thinking (organicalism’/intemporal-prioritisation-of-\textsuperscript{83} reference-of-thought’–as-conflatedness -or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{99}) pedestal will rather be an inclination to see that the lack of empirical and rational reference-of-thought–categorical-imperatives/axioms/registry-teleology ,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the non-positivism/medievalism registry-worldview/dimension is actually, in the bigger scheme
of things, what is at the basis of not only the ‘one locale accusation of witchcraft, specifically so with this individual but its general integration as a socially viable and entertained notion in this locale’. But more critically, from its intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming to be intemporally-preservational, more than the notion of just attaining only to the ‘one-locale’ accusation of witchcraft, for the intemporal mindset/reference-of-thought in organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought—as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) the problem is now the insight about the intellectually and morally wrong in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of accusation of witchcraft and the implications across all societies of the human species qualified as non-positivism/medievalism, with the bigger ontological implications of this specific accusation rather being how is this enlightening de-mentatively/structurally/paradigmatically about the endemisation and enculturation of vices-and-impediments associated with superstition in the said registry-worldview/dimension. That is, the problem is now about the aetiologisation/ontological-escalation that can be made to address such lack of positivistic empirical and rational notions in all possible human societies qualified as non-positivism/medievalism. In other words, the graver ‘de-mentation’ (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) problem’ for the organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought—as-conflatedness—or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology)/intemporal-prioritisation-of-reference-of-thought—as-conflatedness—or-

disontologising–preconverging/dementing –apriorising-psychologism>/temporal prioritisation pedestal that entertains notions of witchcraft (as the intemporal mindset/ reference-of-thought is thus anecdotally ‘boxing far below its weight’). Rather it is about articulating a comprehensive de-mentative/structural/paradigmatic dialecticism reasoning-through/utterion (not reasoning-with incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation with temporal-dispositions mindsets) between non-positivism/medievalism and positivism for prospective ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring away from the vices-and-impediments of a non-positivism/medievalism superstitious mental-disposition towards a prospective positivistic mental-disposition which is the virtue that is the ‘de-mentative/structural/paradigmatic resolution’ to the superseded registry-worldview/dimension not only superstitious specific vices-and-impediments but equally critical the overall de-mentative/structural/paradigmatic amplituding/formative–epistemicity causality ~as-to-

With this insight the ontological ‘terms of reasoning’ of the subknowledging impulse/compulsive-dementing pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging–or–dementing –apriorising–psychologism strivng to establish whether the accused is involved in witchcraft; the ‘terms of reasoning’ of the threshold–

In other words, the temporal-dispositions are not logically-contending but ontologically or dialectically preconverging-or-dementing –apriorising-psychologism as they are rather the subject of contention and
