totalising ‘~resubjecting or totalising-entailing~reconstrual’) very much explains why prospective knowledge generation is not associated with an absolutising conception of denoting/citation as to the fact that it can hardly be said Einstein was among the best Newtonian physics scholar when analysed in terms of mere academic ‘presublimating relic/artifactual–beholdening-constitutedness historicity-tracing— in-presencing–hyperrealisation/hyperreal-transposition’ Newtonian physics (but rather it is his appropriate notional~citationality emplacement as to nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection that so-decisively enabled his pioneering of prospective physics). Such a relation with prospective knowledge generation today particularly in domains-of-study susceptible to blurriness induces a markedly desublimating conception of notional~citationality as to when the ‘artifice of academic and institutional politics’ leads to a conception of knowledge as of ‘an institutional and academic nombrilism of self-presence/self-constitutedness in-perspective–epistemic-abnormalcy/preconvergence’ to which prospective human aporeticism overcoming/unovercoming is relatively irrelevant’ such that the construal of knowledge as to denoting/citation implications carries its very own ‘academic and institutional politics of knowledge’ undermining organic-knowledge notional~citationality (with notional~citationality so-implied in self-becoming/self-conflatedness /formative–supererogating-<projective/reprojective—aestheticising-re-motif-and–re-apriorising/re- axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence> psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as to reference-of-thought postconverging–dementating/structuring/paradigming). This further explains overall the fundamental ontological and purposeful deficiency of a presencing—absolutising-identitive-constitutedness notion of denoting/citation as to the fact that ‘full notional~citationality’ will rather speak of the scalarising nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic construal of the ‘substantive abstract-tissue—

This is so-equally graspable for instance in the patent case of say a God-of-plane or superstitious conception of modern medicine in an animistic social-setup that cannot simply be construed as ‘explained away by a circumstantial thorough positivistic/rational-empiricism elucidation of how a plane or modern medicine works’ since such an animistic social-setup existentialising-frame is so-thoroughly beholdening to its ‘mystical/spirits conception of things’ going by its ingrained ‘reference-of-thought specific preconverging/dementing’–qualia-schema’ that at best only a circumstantial constraining is induced (and not a positivistic/rational-empiricism knowledge value as to its prospective ‘nonpresencing-

But
the possibility to induce blurriness is pedantically taken up in a blurring conception of the ‘literary/poetic metaphor’ as to obfuscate with the literary trope as to what such thinkers like Derrida and Foucault ‘meant or can mean as metaphor’ failing to factor in that their lifetime work is ‘all their metaphor’ they are talking about (as to their eliciting of prospective reflexive as re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking—‘projective-insights’/‘epistemic-projection-in-conflatedness—’of-notional–deprocrypticism-prospective-sublimation) encounter/confrontation with existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective—ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>). conflatedness in [preconverging-disentailment-by]-postconverging-entailment is no more difficult to contemplate but for pedantic consciously or unconsciously elicited misanalysis and blurriness. With such pedantic blurriness undergirded by such a ‘statement that certain things are unspeakable’ rather herein construed as the very hallmark of such institutional disontologising undermining of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications because human civilisation/enlightenment/progress is exactly about metaphorising as ‘making unspeakable things speak’ (as tangible like the metaphors of Newton making abstract forces conception to speak, Einstein making spacetime conception speak, Mendel making hereditary characteristics to speak, etc. and in all such cases not only counterintuitive-and-idiosyncratic to their epochal minds but initially also to their instigators very own minds, and just as herein as tangible as to the explicited veracity of the <cumulating/recomposing–attendant-ontological-contiguity>-successive registry-worldviews/dimensions reference-of-thought specific preconverging/dementing –qualia-schema reflecting their specific prospectively ontologically-flawed nondescript/ignorable–void imbued self-presence/self-constitutedness as from prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection so-implied as human de-mentation SUPEREROGRATORY-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics as to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development–as-infrastructure-of—meaningfulness-and-teleology, institutional-development–as-to-social-function-development and living-development–as-to-personality-development). It can be appreciated (as of an anthropological insight) that a positivistic/rational-empiricism mindset encounter with say an animistic social-setup cannot relate to the latter in ‘absolute terms of effectively demonstrable positivistic/rational-empiricism systematicity/entailment of sublimating’ (as it will so-relate to a fellow positivistic/rational-empiricism mindset) as this will induce excessive mental alienation to the ‘point of the positivistic-with-animistic mutualising mental shutdown’. But rather such a relation will be ‘within the scope of the animistic collective-social implications of human limited-mentation-capacity’ (or within the scope of the ‘debarking positivistic community and animistic social-setup shared/mutual collective-social implications of human limited-mentation-capacity’) to integrate prospective positivising ontologising-and-re-ontologising over the animistic social-setup prior non-positivising disontologising; as to the positivising mindset projection of ‘constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ imbuing human ontological-commitment’<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of- existential-reality>’ but then at the same time this equally allows for the possibility for an anti-positivising disontologising as to temporal social-stake-contention-or-confliction. This so-explains more elaborately (with respect to prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology”) the crossgenerational nature of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring exercise of attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity induced ‘epistemic-growth/disquiet/discomfort{induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as–historiality-{science/authenticity/nonextrication}-beyond-mere-formulaicity-as–historicity-tracing-{science-ideology/fashionability/distraction}} as to

more than just prospective nascent-particular/incipient-and-material/technical-sublimations—
<blinded-to-their-relative-ontological-completeness – reference-of-thought- devolving> but
is made comprehensive and complete with its appropriate ‘supererogatory—wholesomeness/profound-supererogation’ of prospective ‘reference-of-

In this regards, it can be appreciated that the veridically comprehensive and complete sublimating–nascence of technical and scientific progress like shipbuilding and other ocean voyage technologies rather came into their full realisation as to a healthy global commercial relations these enabled over their initial pirating, warring and exploitative dehumanising pursuits (speaking of their requisite human epistemic-growth/disquiet/discomfort-as-from-existence’s—effusing/ecstatic—inlining-as—historiality—{science/authenticity/nonextrication}-beyond-mere-formulaicity-as—historicity-tracing—{science-ideology/fashionability/distraction}} that is rather decisive and indispensable to all ‘sublimating–nascence incipience/immediacy/directness’ as to their requisite ‘prospective reference-of-thought appraisal of sublimating–nascence comprehensiveness/nonimmediacy/indirectness’). Such an insight as to the supererogatory—wholesomeness/profound-supererogation of organic-knowledge for say present-day institutional-development—as-to-social-function-development can be garnered with the patent case of say knowledge for the management of a nuclear facility which is much more than its mere inherent processive technicalities (‘knowledge as a mere doable thing’) but equally with the technicity/profundity extending to the facility operators reflexive and contemplative appreciation of the dangerousness of nuclear materials and processes and ability to critically take appropriately conservative and cooperative or autonomous decisions to stave off any potential crises (with these associated elements including their mental/psychological
suitability construed as the requisite epistemic-growth/disquiet/discomfort-\emph{(induced-sublimation, as-from-existence’s—effusing/ecstatic—inlining-as- historiality-}\{science/authenticity/nonextrication\}-beyond-mere-formulaicity-as- historicity-tracing-\{science-ideology/fashionability/distraction\}) tied to that knowledge and so within the framework of the facility thought-out/contemplated operational and designing conception integrative of such sublimating operation). This reality about the \textbf{supererogatory—wholesomeness/profound-supererogation}⁹⁶ of organic-knowledge is relevant in all institutional domains as well but for when it comes to conveniencing, popularising, merchandising and media-ratings driven purposes which may be innocuous in other contexts but turn out to be particularly consequential when permeating and undermining the political process as to when human sovereign participation is in-effect construed as utterly dissociated with ontological-veracity; as to the fact that there can be ‘a thin-and-tenuous line between ontological-good-faith/authenticity⁶⁹ imbuing sublimation and ontological-bad-faith/inauthenticity⁶⁴ imbuing gimmickiness/desublimation’ as to human aestheticisation—and—aestheticisation-towards-ontology, wherein apparently ‘gimmicky techniques’ are effectively sublimating as to their specific aestheticising/creative/artistic existentialising–frame but are rather desublimating when poorly aestheticised out of such specific aestheticising/creative/artistic existentialising–frame or when ‘circumstantially appreciatively aesthetically shallow/encumbering/vague/blond/incomplete/etc.’ or when poorly reflected in domains of aestheticisation-towards-ontology where profound ontological-pertinence is important (requiring in all such cases the appraisal of appropriate \textbf{supererogatory—wholesomeness/profound-supererogation}⁹⁶ in postconverging—dementating/structuring/paradigming⁷⁰). This underlies the very ontological-normalcy/postconvergence epistemic-projection with regards to the conception of ‘ontological-good-faith/authenticity⁶⁹ as to ontological-good-faith/authenticity⁶⁹~postconverging—de-

It can be appreciated in this regards as to the archetypal case of Galileo prosecution that in many ways the technical demonstrations with his telescope were more or less accommodable to his persocutors with their grander issue being the implications of his interpretations on their overall nonpositivising/rational-empiricism conception of the world; and in many ways such an attitude is not exclusive to any one Age and society, and our very own positivism–procrypticism as to its occlusiveness is very much bound to turn a blind eye to its inconvenient truths as to prospectively requisite <amplituding/formative>disposedness/psychologismic-construct—{(as-to-orientation/value-construct/valuation—and—derived-parameterising)} and <amplituding/formative>entailment—{(as-to-totalising-contiguous/coherent—factuality-of—variability)}. Whilst in effect the sublimating—nascence of ‘prospective nascent—particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving>’ like the natural sciences is construed relatively as to its cumulating/recomposuring unbeholdingen, transcendence, decomplexification for organic-knowledge and disentailment with respect to ‘prior nascent—particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological—

Further such non-ontologising/disontologising surreptitious knowledge-without-knowledge/knowledge-outside-knowledge/extra-knowledge conception of thought fails to recognise the very universal-transparency\{transparency-of-totalising-entailing,-as-to-entailing,<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\} implications upon true thinking as to when it claims to rather belonging to given societal and cultural traditions (rather than the pertinence of claiming prospective sublimation short-and-simple); speaks of a ridiculous twist to the conception of knowledge as if there can be (as to the manifest sublimating–nascence incipience/immediacy/directness of the natural sciences) any given specific societal and cultural chemistry, biology, geology, etc. or is it the case that Einsteins physics applies only to his Germanic/Swiss tradition or Lavoisier chemistry applies only to his French tradition or Newtons physics applies only to his British tradition or Galileo’s physics applies only to his Italian tradition, etc.? In many ways such a surreptitious claim to veridical societal and cultural traditions that have to ‘supposedly be protected from prospective existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as to perspective–ontological-normalcy/postconvergence.
implied-‘prospective-aporeticism-overcoming/unovercoming’>’ speaks of a surreptitious self-anointedness that do not veridically reflect advantageously upon prospective individual, institutional and social emancipation/sublimation possibilities but rather speaks to an undercurrent of vague domineering that is not socially accounted (especially as can be reflected as from the ‘dragged-out nature or psychologismic–epistemic-acutisation<as-to-postconverging–dementating/structuring/paradigming,-eliciting-of-existence’s-sublimating-nascence-in-prospective-aporeticism-overcoming/unovercoming>’ of ‘prospective ‘reference-of-thought appraisal of sublimating–nascence comprehensiveness/nonimmediacy/indirectness’) but for a mere sense of social ascendancy which paradoxically leaves in its ‘non-ontologising/disontologising wake’ socio-econo-political crises and malaises to which the majority of the citizenry only come across in serenity as to their numbed/manipulatable/gullible underlying sense of common nation-belonging (and most critically manifests of a veridically suboptimal human-decisionality<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> capacity). In this respect, the ontologically-veridical elucidation of the ‘socially radiating sway of non-ontologising/disontologising surreptitious knowledge-without-knowledge/knowledge-outside-knowledge/extra-knowledge desublimation (substituting over prospective veridical knowledge sublimation possibilities of social and institutional constructs as to veridical prospective implicated_attendant–ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity’)’ effectively speaks to the given registry-worldview/dimension manifest human and social notional–ontological-performance including-virtue-as-ontology/vices-and-impediments with regards to its epistemic—projective-equalisation exercise (‘exercise of the epistemic—projective-equalisation of human station of presencing—absolutising-identitive-constitutedness’ as to prospective
(’nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic—projective-equalisation’); as can be veridically construed (and as so-profoundly elucidated further above) rather as from the elaborate conception of ’nonpresencing–or–withdrawal–or–metaphysics-of-absence-{implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}—or—transcendental-reasoning-of-event—as-prospective-ontology-origination (as to its full/comprehensive/dragged-out \textsuperscript{103} universal or totalising-entailing conceptualisation implications of aetiologisation/ontological-escalation). Prior to such an elucidation, it can be appreciated pertinently that human <amplituding/formative–epistemicity>totalising–thrownness-in-existence as to limited-mentation-capacity implications necessarily/inevitably burdens human intelligibility with an ‘incipient/seeding contradiction of passion’ (with passion so-being incipient/seeding with regards to human ‘germinative intensification—amplituding of aestheticisation—beholdening-out-of-bechancing’ / ‘taxingness-of-originariness,–imbued–sublimating-by-desublimating–amplituding as to the backdrop-of-inherent-immanent-existence’s–sublimation-structure-<of-’unsurrealistic-as-real’–ontological-normalcy/postconvergence>’). The paradox between human limited-mentation-capacity (as to epistemic impassion) and omnipotentiality (as to epistemic dispassion) embroils human intelligibility in its limited-mentation-capacity-deepening \textsuperscript{53} exercise (as reflected upon its social-functioning-and-accordance—as-of–social-stake-contention-or-confliiction as to manifest human ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliiction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’). While existence (as to its sublimating–nascence exuding) is utterly of dispassionate/detached/unflustered seedingness/incipience, human limited-mentation-capacity means that human-subpotency can only educe as much intelligibility (as to its conceptivity(epistemic-reflexivity/epistemicity-relativism-determinism—for—inlining with phenomenal existence) as from human sublimating dispassion (so-construed as ‘appropriate

transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as to the fact that dispassion projects of ‘a clarity/intelligibility that is not veridically of a human construction exercise (as to an undertone/hint of presencing—absolutising-identitive-constitutedness associated with the term construction) but rather veridically of a prospective human mental liberation/empowerment exercise’ as so-liberated/empowered from the cloudiness of impassion (as can be appreciated with limited-mentation-capacity-deepening as from the more advantageous postconverging relative-ontological-completeness epistemic-projection perspective over preconverging relative-ontological-incompleteness). It is with this explanatory backdrop that a ‘prospective deprocripticism—or—preempting—disjointedness-as-of-reference-of-thought sublimating dispassion epistemic—projective-equalisation conception’ can be perceptibly-and-pensively be understood; as of its requisite ‘appropriate human dosage of self-reflexivity tempered/distempered projective-insights with respect to the sublimating—nascence of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation —<as-to-perspective—ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’ and so-reflected by its dispassion epistemic—projective-equalisation conception (beyond our positivism—procripticism impassion epistemic—projective-equalisation ontologically-deficient level of human conception of social-functioning-and-accordance—as-of—social-stake-contention-or-confliction). In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing meaningfulness-and-teleology’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential
sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendency with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a de-mentative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value
This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate weltering that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein ‘the more
doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can de-mentatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to
thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of supererogatory–progressivity’ as so-associated with debt servitude and dementative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances.
(especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow-supererogation economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation’ omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-
confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied notionally by a basic level of supererogatory–progressivity allow for the ‘delusion/sleight projected about a purist conception of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/vested-interest—drivenness—<as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of ‘presencing—absolutising-identitive-constitutedness
social-vestedness/normativity—<discretely-implied-functionalism>’). Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the modern-day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation’ of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to ‘presencing—absolutising-identitive-constitutedness
social-vestedness/normativity—<discretely-implied-functionalism>’). The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian
and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from a totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is preconvergingly–de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’. Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that de-mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over ‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an

In other words, the notion of ‘the other’ as aetiologisation/ontological-escalation is much more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled
commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity for ontologically-veridical virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, a different interpretation can be made about the posture of a thinker like Heidegger during the troubled years of the 30s; as effectively, the implication of Heidegger’s analysis of the situation which he associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology misunderstood as implying that it lies with a historical tradition like the Ancient Greece tradition or German Folk tradition rather than lying with an underlying transcendental universal notion construed as ‘going beyond them-and-us logic’ as of the implications of universal human emancipating potential of re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking ‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional-deprocrypticism-prospective-sublimation⟩, and this fundamentally scuppered his possibility of ‘attaining a conception of prospective notional-
contiguity/epistemic-contiguity <profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> as of the need for prospective relative-ontological-completeness ‘of-referent-of-thought’, rather than an ‘ontologically-flawed idea implying a certain given historical tradition’. Likewise, but with regards to virtue analyst analyses that are naively articulated on the basis of the ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’ as of our <amplituding/formative–epistemicity>totalising–self-referencing-syncrretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness ‘of-referent-of-thought leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the de-mentative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’, divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity <profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> as of prospective relative-ontological-completeness ‘of-referent-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments. This existential reality about
<amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ~<as-to-perspective–ontological-normalcy/postconvergence-implied~‘prospective-aporeticism-overcoming/unovercoming’> inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of ’s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care–and–episteme’ in ontological-contiguity as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness ~of~ reference-of-thought perspective construed-as reasoning-from-results/afterthought of modernity. Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notional-contiguity/epistemic-contiguity ~<profound-supererogation -of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema> as of prospective relative-ontological-completeness ~of~ reference-of-thought, as implicit with the case of Derrida’s spirit insight. Ultimately, the ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought apriorising/axiomatising/referencing/intellligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ should ontologically nurture the requisite psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective notional-

As a further elucidation, prospective notional-contiguity/epistemic-contiguity\textsuperscript{62}\textsuperscript{96}\textsuperscript{62}\textsuperscript{96} as of prospective relative-ontological-completeness\textsuperscript{87}\textsuperscript{87} of reference-of-thought actually points out that the uninstitutionalised-threshold\textsuperscript{02} is rather a point of \textsuperscript{1} de-mentation\textsuperscript{15}\textsuperscript{15}(supererogatory-ontological\textsuperscript{2} de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care–and–episteme over the uninstitutionalised-threshold\textsuperscript{02} attitude/mental-disposition/care–and–episteme. We can effectively grasp why Heidegger’s implicated insight as of notional-discontiguity/epistemic-discontiguity\textsuperscript{63}\textsuperscript{96}\textsuperscript{63}\textsuperscript{96} between—prior-shallow-supererogation\textsuperscript{96}\textsuperscript{96}-of-mentally-aestheticised\textsuperscript{20}\textsuperscript{20} preconverging/dementing\textsuperscript{21}\textsuperscript{21}–qualia-schema\textsuperscript{21}\textsuperscript{21}\textsuperscript{21} but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity\textsuperscript{63}\textsuperscript{96}\textsuperscript{63}\textsuperscript{96} between—prior-shallow-supererogation\textsuperscript{96}\textsuperscript{96}-of-mentally-aestheticised\textsuperscript{20}\textsuperscript{20} preconverging/dementing\textsuperscript{21}\textsuperscript{21}–qualia-schema\textsuperscript{21}\textsuperscript{21}\textsuperscript{21} as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its
inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity —of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating

In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporeticism overcoming/unovercoming (underlying that Descartes’ dimensionality-of-sublimating\textsuperscript{\langle<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\rangle} as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{\langle\rangle} is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as–spontaneity-of-aestheticisation in then secondarily inducing his thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation). That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated
rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity\textsuperscript{37} rationalism schema/dissemination\textsuperscript{28} that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval-scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity implication that the natural can be thought of operationally and in sublimation on its own terms—as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and postconvergingly—dementating/structuring/paradigming the possibility of elucidation of any subject on this thinking educating sublimation basis’. In effect Descartes project is actually as to existence-potency\textsuperscript{19}—sublimating—nascence,—disclosed—from-prospective-epistemic-digression relative-ontological-completeness\textsuperscript{87} of apriorising/axiomatising/referencing as of positivism/rational-empiricism, and so from the prior\textsuperscript{17} presencing—absolutising-identitive-constitutedness\textsuperscript{14} of non-positivism/medievalism. With both the budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme and postmodern\textsuperscript{11} deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, we may be forgiven to confuse-and-dismiss their schema as-to-de-mentative/structural/paradigmatic—disseminative-implications as of prospective reasoning-through/messianic-reasoning as incoherent from a shallow-and-immediate

The appropriate contemplative perspective for the appreciation of their schema as-to-de-mentative/structural/paradigmatic—disseminative-implications is effectively crossgenerational as of the amplitude/breadth of reference-of-thought implied transcendence-and-sublimity/sublation/supererogatory–dementativity; as we can effectively appreciate that the very mathesis universalis schema/disseminative metaphoricity engendering our positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity—between—prior-shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema_and_prospective-profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema analysis, implied as of prospective relative-ontological-completeness—of—reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness—of—reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising/circumscribing/delineating construct being the reference-of-thought. We can grasp that it is not existence and purviews/domains of existence
which will adjust to human-subpotency for ontologically-veridical meaningfulness-and-teleology but rather human-subpotency adjusting as to existence-potency sublimating-nascence, -disclosed-from-prospective-epistemic-digression; with such adjusting being construed as of prospective relative-ontological-completeness. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness -of- reference-of-thought/relative-ontological-completeness -of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification, implied as of de-mention-(supererogatory-ontological-de-mention-or-dialectical-de-mention- stranding-or-attributive-dialectics) with regards to the reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In lieu the poor intuition is to imply that we are already well grounded and that prospective meaningfulness-and-teleology is an incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation to our already established psychoanalytic disposition rather than a maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation in resetting-our-psychoanalytic-disposition/prospective-grounding as of <amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought in apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity ~educated— existentialising/contextualising/textualising-contiguity }—conflicatedness ~in—{preconverging-disentailment by}—postconverging-entailment, such that this leads to apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity ~educated— existentialising/contextualising/textualising-contiguity }—constitutedness ~in—preconverging-entailment when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust to our human-
prospective institutionalisations’ reference-of-thought do not have their own attitude/mental-disposition/care–and–episteme as of their underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. This phenomenological insight in recognising that there is ‘an underlying metaphoricity-induced relative-emancipating migration’ from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism–procrypticism to the prospective postmodern man as of deprocrypticism, calls for a full appreciation of this most profound phenomenological transcendental process of corresponding ‘human attitude/mental-disposition/care–and–episteme migration’ inducing successive apriorisings/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human meaningfulness-and-teleology as of prospective relative-ontological-completeness reference-of-thought; and so, as of retrospective and prospective meaningfulness-and-teleology interpretation construed as historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism–determinism’. Such a conception that goes beyond our natural inclination of ‘referring to’ and ‘adhocly-and-scantily’ identify other retrospective and prospective registry-worldviews/dimensions reference-of-thought apriorising/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme from our present attitude/mental-disposition/care–and–episteme, towards an ontologically-veridical transparent ‘to be or existing as wholly immersed-and-engrossed’ existential projection insight about all registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme is what underlies the protensive-consciousness of deprocrypticism, from which standpoint as of its ontological-completeness-of-reference-of-thought such an ontologically-veridical analysis of ‘human attitude/mental-disposition/care–and–episteme migration’ can be undertaken, for retrospective

tainment. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as
science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon/projection of meaningfulness-and-teleology\textsuperscript{99} about attendant–ontological-contiguity\textsuperscript{72}–educed–existentialising/contextualising/textualising-contiguity\textsuperscript{67}’; but then at its uninstitutionalised-threshold\textsuperscript{02} where its reference-of-thought de-mentative/structural/paradigmatic ontological-flawed implications of believing in superstition set in as of its prior relative-ontological-incompleteness\textsuperscript{88}–of-reference-of-thought, it always systemically faces notional–procripticism/notional–disjointedness as of vices-and-impediments\textsuperscript{105} arising from non-positivism/superstitious human-subpotency existentially constrained temporal ontological-performance\textsuperscript{72}–<including-virtue-as-ontology> as wooden-language\textsuperscript{8} (imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology) in usurpation of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon/projection of meaningfulness-and-teleology\textsuperscript{99} about attendant–ontological-contiguity\textsuperscript{72}–educed–existentialising/contextualising/textualising-contiguity\textsuperscript{67}’ now in false certainty/assurance. This
points out that when consciously aware of uninstitutionalised-threshold\footnote{102} manifestation, we can’t naively operate as of our prior institutionalisation ‘perceptual perspective/framing/reference/horizon/projection of ‘meaningfulness-and-teleology’ about attendant–ontological-contiguity\footnote{102}–educed–existentialising/contextualising/textualising-contiguity\footnote{102}, as of the fact of the beyond-the-consciousness-awareness-teleology\footnote{102}<in-preconverging–existential-extrication-as-of-existential-unthought>\footnote{99} preconverging-or-dementing –apriorising-psychologism human-subpotency existentially constrained temporal ontological-performance\footnote{12} <including-virtue-as-ontology> as <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing – narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology } in usurpation; such that an enlightened insight is able to bring up and examine a preconverging-or-dementing\footnote{20}–apriorising-psychologism representation as temporal denaturing\footnote{16} ontological-performance\footnote{12} <including-virtue-as-ontology> of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon/projection of ‘meaningfulness-and-teleology’ about attendant–ontological-contiguity\footnote{102}–educed–existentialising/contextualising/textualising-contiguity\footnote{102}. But this conception is a reflection of more than just ad-hoc temporal manifestations at uninstitutionalised-threshold\footnote{102} but rather points out, besides the trite or more grave consequences of this state of affairs as a result of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional~firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, that the possibility for all prospective institutionalisations necessarily passes through understanding ‘human-subpotency existentially constrained temporal ontological-performance’ <including-virtue-as-ontology> as <amplituding/formative> wooden-language-{imbued—temporal—mere-

In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>} of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-verbatim will adjust to it, however our myopic/cloistered 60–100 years of living perspective. That is, grounding of meaningfulness-and-teleology is certainly required, but as of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity it is not about grounding as of the present but rather as of psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective relative-ontological-completeness-of-reference-of-thought; and as highlighted elsewhere it is ontological-completeness-of-reference-of-thought (of human-subpotency as of its limited-mentation-capacity-deepening) that can imply human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence. It should be noted here that this ontology’s-directedness-as-Being/ontologically-veridical notion of human-subpotency singularisation-<as-to-the-nondisjointedness/entailment-

Thus reification aetiologisation/ontological-escalation is implied as of human ontological-performance\textsuperscript{77}<including-virtue-as-ontology> potentiative-aspiration for singularisation\textsuperscript{<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism. Ultimately, it is the reification of ‘meaningfulness-and-teleology\textsuperscript{99} as of the prospective relative-ontological-completeness\textsuperscript{86}—of—reference-of-thought that reflects intemporal value reference, and not the \textsuperscript{<amplituding/formative>} wooden-language\{imbued—averaging-of-thought~<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>\} as of the prior relative-ontological-incompleteness\textsuperscript{86}—of—reference-of-thought as of temporal-to-intemporal ontological-performance\textsuperscript{77}<including-virtue-as-ontology> which is rather in
such a prior registry-worldview/dimension denaturing \(^{16, 35}\) meaningfulness-and-teleology\(^{99}\), and implying effectively that they are of lesser intellectual-and-moral dialogical-equivalence-<as-to-psychologismic–apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity} |= conflaggedness ~in \{preconverging-disentailment by\}–postconverging-entailment,-in-self-becoming/self-conflatedness /formative–supererogating\(^{2}\). This further explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the \(^{56}\) meaningfulness-and-teleology that there is and can exist is ontological as of prospective relative-ontological-completeness\(^{87}\), such that any such implied meaning is only ontologically intelligible with its reification as of prospective relative-ontological-completeness\(^{87}\)-of\(^{83}\) reference-of-thought, as so implied from singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism as the reflection of ontologically-veridical \(^{56}\) meaningfulness-and-teleology\(^{99}\). This points out that as of its very own \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-}\text{syncretising/circularity/interiorising/akrasiatic-drag}\(^{34}\), a registry-worldview/dimension \(^{83}\) reference-of-thought is not the ontologically-veridical point of conceptualisation of intemporal value reference, which is rather as of prospective relative-ontological-completeness -of- reference-of-thought reification of \(^{56}\) meaningfulness-and-teleology\(^{99}\), as we can appreciate with regards to all prior institutionalisations but will certainly be complexified/inhibited to construe the same as of our positivism–procrypticism as from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\(^{56}\) meaningfulness-and-teleology\(^{99}\) as of prospective deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought prospective relative-ontological-completeness\(^{87}\) perspective. The fact is no registry-worldview/dimension as
instigated prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, is construed as ‘putting-into-question its existentially invested conception of “meaningfulness-and-teleology”, which is rather a contradiction of sorts given human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating

\(<\text{amplituding/formative}\)-supererogatory-de-mentativeness\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\) inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness–of- reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipating vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness–of- reference-of-thought; and in due course, by its causality-as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity constraining it crossgenerationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-origin
potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness of reference-of-thought with the latter’s <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag>, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity constraint as of <amplituding/formative–epistemicity>causality as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness of reference-of-thought naïve non-transcendental <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag>, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘preconverging-existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of “meaningfulness-and-teleology”’. The intemporal
‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiologisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing mortals that we are for our prospective emancipation. Without an insight about reification and dereification, the notion of singularisation projected epistemic-immanence/veridical-epistemicity-relativism-determinism as it reflects ontological-completeness-of-reference-of-thought for ontologically-veridical meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology reflecting dereified and reified construals of attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence of attitudinal~psychologism-apriorising/axiomatising/referencing {of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity}.

However, compounding this situation making relevant the need to contrast reification and dereification and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance ^-<including-virtue-as-ontology> manifestation of psychopathy and social psychopathy which is ‘de-mentatively/structurally/paradigmatically associated with the denaturing of the <amplituding/formative-epistemicity>totalising~devolved apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the <amplituding/formative-epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \ backdrop for existential-instantiations aposteriorising/logicising/deriving/intelligising/measuring \ meaningfulness-and-teleology\; with the fundamental implication that there are thus divergent apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of psychopathic induced postlogism \slantedness, and its social cognisance and integration as conjugated-postlogism \so-conjugating as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfirture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of social psychopathy. Such tendencies are hardly of aetiologisation/ontological-escalation as their emphasis lies in preconverging-existential-extrication-as-of-existential-unthought, rather than postconverging-nonextricatory-existential-preempting-of-existential-unthought in enabling Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—as-of—universal projection implications attitude/mental-disposition/care—and—episteme event—or-operant implications to all and sundry’; such that fundamentally, such tendencies do not address de-mentatively/structurally/paradigmatically defining issues of a registry-worldview/dimension as of its vices-and-impediments like the comprehensive implications of disjointedness-as-of reference-of-thought/procrypticism with regards to our positivism–procrypticism or say the comprehensive implications of non-positivism in a medieval or animistic social-setup. Prospective notional-contiguity/epistemic-contiguity—profound—supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema thus effectively implies deneuterising ‘exteriorisation attitude/mental-disposition/care—and—episteme’ of meaningfulness-and-teleology—as-metaphoricity superseding/overriding the prior reference-of-thought temporally neuterising ‘interiorisation...

However, approbating we may be predisposed to such palliative virtue constructs as of lack of dispensing-with-immediacy-for-relative-ontological-completeness−by-reification/contemplative-distension, the fact is these are not really the underlying drivers for virtue transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and are peripheral to more ontologically profound theorised-or-untheorised emancipating events driving virtue transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness−of reference-of-thought, notwithstanding our state of beyond-the-consciousness-awareness-teleology−<in-preconverging–existential-extrication–as-of–existential-unthought>. The fact is from an ontological standpoint, we inherently are no more virtuously exceptional even with regards to the earliest of humans, and so as of the very same species potency, and thus we can’t ascribed inherent virtuous superiority by the mere token of our own practice. Rather the exceptionality behind human virtuous potential lies ontologically

the notional~conflatedness1 of notional~deprocrypticism. However, it is equally critical to
grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception
Such a postmodern suprastructuralism double-gesture reification holds that knowledge involving virtue-as-ontology is truly organic knowledge as of its appropriate attitude/mental-disposition/care—and—episteme with respect to human social-stake-contention-or-confliction; with the adherence to the reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of such organic knowledge construed in intemporality as supplanting conviction-as-to-profound-supererogation of ‘attendant-intradimensional’ postconverging/dialectical-thinking—apriorising-psychologism; whereas mechanical knowledge is rather predispose to adhere as of temporal threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to—attendant-intradimensional’ prospectively-disontologising—preconverging/dementing—apriorising—psychologism> to such mere reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology. The latter points to an inappropriate attitude/mental-disposition/care—and—episteme which is not beholden to the prospective institutionalisation but rather is of preconverging—existential-extrication-as-of-existentia-untought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical knowledge attitude/mental-disposition/care—and—episteme and organic knowledge attitude/mental-disposition/care—and—episteme. While the full implications of a positivism/rational-empiricism organic knowledge attitude/mental-disposition/care—and—episteme will imply an end to such
practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms–as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care–and–episteme as of its prior relative-ontological-incompleteness–of–reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in
preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate meaningfulness-and-teleology to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipating virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfulness-and-teleology as of any specific human society relative-ontological-incompleteness-of-reference-of-thought as fundamentally denaturing, and likely to induce transversality—sublimating—existential-eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency—totalising—entailing—as-to-entailing—amplituding/formative—epistemicity—totalising—in-relative—ontological-completeness). Ultimately, such a double-gesturing hold out the possibility in reflecting holographically—conjugatively-and-transfusively the ontological-contiguity of the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriate. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empricism attitude/mental-disposition/care—and—episteme, by implying from a postmodern perspective
that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing<-amplituding/formative–epistemicity-totalising~in-relative-ontological-completeness }. Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation<-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity<-between–prior-shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema_and_prospective-profound-supererogation -of-mentally-
aestheticised-postconverging/dialectical-thinking –qualia-schema>. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘universal projection implications attitude/mental-disposition/care–and–episteme’ event–or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human <amplitudding/formative–epistemicity>totalising–thrownness-in-existence (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originar–as–unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking –projective-insights/’epistemic-projection-in-conflatedness ‘-of–notional–deprocrypticism-prospective-sublimation) creative insight and appreciation of any
pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification–gesturing-<in-prospective_psychologismic–apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity } — conflatedness –in- {preconverging-disentailment_by] postconverging-entailment> insight.

Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification-in-singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>-as-veridical-epistemicity- relativism-determinism implied <amplituding/formative–epistemicity>causality-as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity’ shows that there has always been beyond-the-consciousness-awareness-teleology—<in-preconverging-existential-extrication-as-of-existential-unthought>‘institutional investment’ that is not always just of eruditic ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness-of-axiomatic-constructs-and-reference-of-thought, and that true knowledge especially as it portends to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so

much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity\footnote{undermining of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\footnote{meaningfulness-and-teleology}}\footnote{meaningfulness-and-teleology} due to ‘lack of social\footnote{universal-transparency}’\footnote{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness }’. In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness\footnote{reference-of-thought as underscoring medieval vices-and-impediments with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporal individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of-reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register-of–meaningfulness-and-teleology\footnote{meaningfulness-and-teleology} stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\footnote{meaningfulness-and-teleology} as of its crossgenerational transcendental implications and as reflected from the insight in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental
and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of their ‘re-projection/re-anticipation’ about ‘the very same physics <amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ which was then validated as of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity, and so divulged by existence-potency'~sublimating–nascence,-disclosed-from-prospective-epistemic-digression; as prior human experience wouldn’t have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn’t any prior ‘logocentric transcendental-signifier’ as of the prior classical-mechanics—axiomatic-constructs construed as presencing—absolutising-identitive-constitutedness enabling the obtention of any such conclusions from the given classical-mechanics—axiomatic-constructs apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—constitutedness—in–preconverging entailment, but rather it is by apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in {preconverging-disentailment by}–postconverging-entailment with regards to ‘the very same physics <amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs was construed as of nonpresencing-<perspective–ontological-normalcy/postconvergence>. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to
prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/superragation-de-mentativity is as of an ‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-sub potency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freplay différance, as a putting into question exercise, and subject to <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity validation before attaining defining-transcendence and defining-sublimity’; and différance as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual-patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency~sublimating-nascence, disclosed-from-prospective-epistemic-digression so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes.
Organic-knowledge as such implies priorly a supplanting—conviction-as-to-profound-supererogation⁹—of—‘attendant-intradimensional’—postconverging/dialectical-thinking —apriorising-psychologism deference to the prescience of existence-potency —sublimating—nascence,—disclosed-from-prospective-epistemic-digression over any human-as-mortal framing of⁹⁶meaningfulness-and-teleology⁹⁹ including oneself-as-human-as-mortal, as it is human mortality-as-temporality⁹⁸ that is rather what is in need for further Being and consciousness development. Thus the postconverging—de-mentating/structuring/paradigming of sublimation for a registry-worldview/dimension⁸³ reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness¹—of—reference-of-thought over human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness⁸³—of—reference-of-thought, and so by maximaliing-recomposuring <amplituding-formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential postconverging—de-mentating/structuring/paradigming of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation—ununiversalisation,¹⁰³universalisation—non-positivism/medievalism, and positivism—procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality⁹⁹—as-of-neuterisation /relative-ontological-incompleteness ⁱpreconverging—existential-extrication-as-of-existential-unthought. In other words, an intemporal—as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension⁸reference-of-thought in prospective relative-ontological-completeness⁰—of-axiomatic-construct-or—⁵³reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension⁸reference-of-thought in prior relative-ontological—
incompleteness\textsuperscript{88}, even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social\textsuperscript{103} universal-transparency\textsuperscript{104}\{transparency-of-totalising-entailing-, as-to-entailing-\langle amplituding/formative–epistemicity\rangle totalising–in-relative-ontological-completeness\}'. But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness\textsuperscript{87}-of-axiomatic-construct-or-reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} comes into terms with both \textsuperscript{7} presencing—absolutising-identitive-constitutedness\textsuperscript{21} and \textsuperscript{6} nonpresencing-<perspective–ontological-normalcy/postconvergence> on the basis of the prospective relative-ontological-completeness\textsuperscript{1}/ontological-contiguity\textsuperscript{67} of the latter over the prior relative-ontological-incompleteness\textsuperscript{88} of notional-discontiguity/epistemic-discontiguity \textsuperscript{-<between—prior-shallow-supерerogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema_and_prospective-profoun督-supерerogation -of-mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema> of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human\langle amplituding/formative–epistemicity\rangle totalising–purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{23} but rather difference-in-nature/difference-in-apriorising-or-
axiomatising-or-referencing between presencing-absolutising-identitive-constitutedness and nonpresencing-perspective-ontological-normalcy/postconvergence. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon/projection as of prospective relative-ontological-completeness notional-contiguity/epistemic-contiguity’ construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology grounded on such a developed consciousness perspective/framing/reference/horizon/projection. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon/projection as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation meaningfulness-and-teleology without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon/projection as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation-ununiversalisation mindset perspective/framing/reference/horizon/projection’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon/projection as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon/projection’ to grasp positivistic meaningfulness-and-teleology without first developing a ‘positivistic mindset perspective/framing/reference/horizon/projection’ to grasp positive meaningfulness-and-teleology without first developing a ‘positive mindset
perspective/framing/reference/horizon/projection as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’; and prospectively for a ‘positivism–procripticism mindset perspective/framing/reference/horizon/projection’ to grasp notional–deprocripticism meaningfulness-and-meaningfulness without first developing a ‘notional–deprocripticism mindset perspective/framing/reference/horizon/projection as of protensive-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social universal-transparency transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness’ such charlatanism is exposed for what it really is, explaining the panickiness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness
contemplation is absolutely given-and-determined as of the implication that all
meaningfulness-and-teleology should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising’, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing as of prospective relative-ontological-completeness -of- reference-of-thought bringing about transcendence-and-sublimity/sublimation/supererogatory de-mentativity as of nonpresencing-<perspective-ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness and prospective relative-ontological-completeness, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ but rather a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ of the new
herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity as such simply refers to signification adjunctiveness to ‘underlying signifying-construct of language’ as of both the meaningfulness-and-teleology implications to the so-renewed ‘underlying signifying-construct of language’ and the specific adjunctive-metaphoricity-signification within such renewed ‘underlying signifying-construct of language’. Metaphoricity is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing meaningfulness-and-teleology as an epistemic-totalising/circular construal’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-mentation-capacity as of growing certitude from the opening up of nonpresencing,<perspective–ontological-normalcy/postconvergence> by human re-projection/re-anticipation ultimately validated by existence/ontology’s-directedness-as-Being causality—as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity. Further, metaphoricity as such speaks of the evasiveness of all human meaningfulness-and-teleology at uninstitutionalised-threshold as recurrently pointed out herein as of token threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-

The implications of this reality as of metaphoricity explains why epistemes are fundamentally and necessarily constricted as of their specific registry-worldview/dimension\(^{8}\) reference-of-thought; as ultimately epistemes are as relevant as the ontological-possibilities divulgeable by presencing—absolutising-identitive-constitutedness\(^{14}\) and nonpresencing-<perspective–ontological-normalcy/postconvergence>, such that in the case of the latter there is no prior insight about the veracity of any episteme before it is divulged with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{99}\) as presencing—absolutising-identitive-constitutedness\(^{14}\). Consider in this regard Galileo’s implying positivistic episteme metaphoricity\(^{57}\) over a medieval Establishment scholasticism-and-mysticism episteme as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{99}\) as the necessary backdrop for the knowledge he articulates and all subsequent positivistic knowledge. In many ways, this author as of organic-knowledge is very much aware of the ‘drawback implications’ of our positivism–procrypticism episteme as of its apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity }–constitutedness\(^{14}\) in-preconverging-entailment with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{99}\) as of prospective notional–deprocrypticism psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption-as-futural-différance-freplay\(^{2}\) with respect to our \(^{8}\) procrypticism–or–disjointedness-as-of–reference-of-thought
uninstitutionalisation and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Galileo could well had possibly recasted his implied positivism in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing–or–withdrawal–or–metaphysics-of-absence–metaphors-of-absence{implicated-epistemic-veracity-of-<perspective–ontological-normalcy/postconvergence>}–or–transcendental-reasoning-of-event –as-prospective-ontology-origination perspective/framing/reference/horizon/projection of positivism meaningfulness-and-teleology we entertain today. Likewise, as of such metaphoricity episteme, the meaningfulness-and-teleology herein implied as of its essence cannot do without this hermeneutic/reprojecting/supererogating/zeroing circle phenomenological ontology elucidation as of its psychoanalytic-unshackling apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }–conflatedness in {preconverging–disentailment–by}–postconverging-entailment; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon/projection and then contention/argumentation within such articulated
perspective/framing/reference/horizon/projection, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon/projection for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality<for-sublimating–existential-eventuating/denouement>--of-affirmative-and-unaffirmative–disambiguated–’motif-and-apriorising=axiomatising/referencing’ complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality<for-sublimating–existential-eventuating/denouement>--of-affirmative-and-unaffirmative–disambiguated–’motif-and-apriorising=axiomatising/referencing’ cumulative
authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a long way to ‘open-up’/‘throw-up’/‘reveal’ new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon/projection before contention/argumentation as of any given perspective/framing/reference/horizon/projection, thus implying ‘poor critical judgment’. With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallow-minded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallow-minded/banal/flimsy readings are cumulated and summed as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling<in-deferential-formalisation-transference> are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of <amplituding/formative> wooden-language}<imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>}, such
that as of the history of such critiques it will be naïve not to factor in the reality of ontological-

about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-

The overall insight here of such ontological-bad-faith/inauthenticity\(^6\) can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon/projection of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social\(^10\) universal-transparency\(^10\)—\(\text{transparency-of-totalising-entailing-}\langle\text{transparency-of-totalising-entailing,-}\langle\text{as-to-entailing-}\langle\text{amplituding/formative–epistemicity}\rangle\text{totalising–in-relative-ontological-completeness}\rangle\rangle\)’ with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the
social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic
disease theory conception subverting their own non-positivistic healing practice
notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-
faithe/inauthenticity critique with respect to postmodern-thought: whether when pretending to

in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation,

all this as a manifestation of perverted intellectual institutional-being-and-craft. While
postmodern-thought is not and has never been immuned from genuine intellectual criticism not
only from other schools-of-thought but among postmodern and poststructuralist thinkers

subversion of progressive thinking and go on to permeate social practices and media practice,
thus rendering social and critical thought impotent. Further knowledge as understood by this
author is more than just the conception of its intemporal-as-ontological nature but knowledge is
much more completely and potently notional−knowledge as it understands as well the
implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity\(^n\) shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity\(^n\) rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/ universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness\(^n\)—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, and intellectuals’ choice of ontological-bad-faith/inauthenticity\(^n\) is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence-(implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normaley/postconvergence>) will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness\(^n\)-of-axiomatic-construct-or-reference-of-thought over a <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^n\) as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought ‘as of the prospective relative-ontological-completeness -of-axiomatic-construct-or-reference-of-thought of a better knowledge perspective/reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness\(^n\) with regards to reference-of-thought and its derived meaningfulness-and-
teleology\textsuperscript{9}, with the implication that we need to a prospective relative-ontological-
completeness\textsuperscript{8} of reference-of-thought to be able to articulate intemporal-as-ontological
construal as of the internal-dialectics/différance of \textsuperscript{3}meaningfulness-and-teleology\textsuperscript{9}. In other
words, all concepts, notions as of ontologically-veridical \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{9}, are
made to have their internal-dialectics/différance as of nonpresencing-<perspective–
onontological-normalcy/postconvergence> for their sublimation and transcendence-and-
sublimity/sublimation/supererogatory~de-mentativity into more profound and more complete
\textsuperscript{5}meaningfulness-and-teleology\textsuperscript{9}. For instance the ‘postmodern take’ about science is rather a
more profound and complete notion of science than the ‘modern take’, such that a ‘modern
approach’ to the conception of science naively fails to factor in unlike the ‘postmodern
approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus
translated into the prior need for prospective relative-ontological-completeness \textsuperscript{8}; wherein the
‘modern take’ might naively consider medicine as simply providing medications and remedies,
the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will
factor in socioeconomic, education, information, environmental, gender and power relations
issues underlying healthcare and medical delivery as a more profound and complete notion of
medical science; construed effectively as of deprocrypticism–or–preempting—disjointedness-
as-of\textsuperscript{8}reference-of-thought. Thus, for postmodern-thought the capacity to attain relative
ontologically-veridical \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{9} comes down to the capacity of
arriving at the very essence of \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{9} while overcoming the
drawback of our human limited-mentation-capacity. This insight about the essence of things is
what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference,
Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-
text, all construed by this author as of attendant–ontological-contiguity ~educed–
existentialising/contextualising/textualising-contiguity\textsuperscript{8}; is the enabling approach for human
ontological-reconstituting–as-to-conflatedness\textsuperscript{13} as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating\textsuperscript{12})

of our supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology\textsuperscript{9} in relative-ontological-completeness\textsuperscript{7}. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern postconverging–de-mentating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of \textsuperscript{amplituding/formative–epistemicity}causality \textsuperscript{as-to-projective-totalitative–implications-of-prospective–nonpresencing,–for-explicating–ontological-contiguity}', but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity’ as herein implied by this author with ‘the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} congruent,-cogent-and-operant entailing framework of ontological-contiguity\textsuperscript{67}'. Anecdotally, the shallow-mindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification for perspective and insight, given
the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity⁶⁷—of-the-human-institutionalisation-process⁶⁶ as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology⁶⁹ and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sublimity/sublimation/superreductory—de-mentativity is behind the respective registry-worldviews/dimensions as of their given reference-of-thought specific neuterising as well as the ultimate deneuterising—referentialism of deprocrypticism. But then ontological-bad-faith/inauthenticity is equally elicited by ‘lack of social universal-transparency’ (transparency-of-totalising-entailing—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness ⟩’ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ arises for instance in the sense that however ‘wishful’ the causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing,—for-explicating-ontological-contiguity transcendental-possibilities/potential as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the
Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue but rather their insistence was an implicit understanding that the non-positivistic ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-incompleteness—of—reference-of-thought (and were thus more fundamentally projective dimensionality-of-sublimating ⟨amplituding/formative⟩supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation⟩). This manifests itself in the form of many an intellectual
increasing disposition ‘to misunderstand’ others works, as there are little common stakes for breakthroughs but rather the stakes are increasingly of institutions academic visibility and tenure with emphasis on likeminded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance; with a resultant sense of socioeconomic and socio-political impotence as such blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and preconverging–de-mentating/structuring/paradigming of academic institutional setups into increasingly into notional–pedantising/muddling/formulaic-hollowing-out—insubontologisation/subpotentiation-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) are not dissociated from the effective possibility for transcendental-enabling/sublimating/supererogatory–de-mentativity, especially as such breakthroughs require the spontaneity of Dionysian arrangements. Consider a metaphysics-of-absence \((\text{implicated-epistemic-veracity-of-nonpresencing-} <\text{perspective-ontological-normalcy/postconvergence}>\) elucidation with regards to say a remote/isolated non-positivistic animist/base-institutionalisation society for instance which by some token has sustainable-and-learned access to basic but greatly enhancing productive techniques from travellers of a positivistic culture but without a substantial corresponding organisational and institutional diffusion associated with such greatly enhancing productive techniques due to the very brief nature of the encounter or disconnected/incoherent/perfunctory/chaotic nature of their relations, this will de-mentatively/structurally/paradigmatically have degenerative effect on such an animistic social organisation wherein this isn’t enhancing of the society’s social organisation and relations and will be possibly disruptive. This example isn’t that farfetched as anthropological evidence of such cases abounds with many native societies so disrupted by culturally alienating positivistic material diffusion. Human material/technical development and corresponding mentality as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology are inextricable and critical in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity — of-the-human-institutionalisation-process including our positivism–procypticism registry-worldview/dimension. Correspondingly, from the vantage position of our present positivising/rational-empirical ontological-completeness-of reference-of-thought with respect to a non-positivism/medievalism worldview, we can garner an insight of the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-suprerogation¹⁰<as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism> of the postlogism⁷⁷-and-conjugated-postlogism⁷⁷ in a non-
like psychopathy and social psychopathy. This speaks of the very nature of all threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{(1)} with regards to the limits of a registry-worldview’s/dimension’s institutionalisation (whether base-institutionalisation, \textsuperscript{(2)} universalisation and positivism eliciting respectively the uninstitutionalised-threshold\textsuperscript{(3)} of ununiversalisation, non-positivism/medievalism and procrypticism) across all the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{(5)} wherein the prior/transcended/superseded registry-worldview’s/dimension’s \textsuperscript{(6)} reference-of-thought in its \textsubscript{amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \textsuperscript{(3)}} (as metaphysics-of-presence\textsuperscript{(4)}\textsubscript{(implicated–‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness ): illusion-of-the-present/present-consciousness/mirage) is representing itself as ‘postconverging-or-dialectical-thinking\textsuperscript{(7)}—apriorising-psychologism and dialectically/contendingly in-phase’ whereas from the prospective institutionalisation registry-worldview’s/dimension’s \textsuperscript{(8)} reference-of-thought, as of the ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective, it is ‘preconverging-or-dementing –apriorising-psychologism and dialectically/contendingly out-of-phase’. The reason for the ontologically defective \textsubscript{amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \textsuperscript{(3)}} is that all registry-worldviews/dimensions \textsuperscript{(8)} reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/supererogatory–de-mentativity)’ in their conventioning, and thus to the exclusion of prospective ontological profoundness of \textsuperscript{(8)} reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been \textsubscript{amplituding/formative} wooden-language\textsuperscript{(9)} (imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of–...
However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening expansion of ontological-depth as increasing ontological-completeness-of-reference-of-thought (or reducing relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’). Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to meaningfulness-and-teleology whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding meaningfulness-and-teleology. A further example will be say ‘the God-of-plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in <amplituding/formative–epistemicity>totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag (its metaphysics-of-presence implicited ‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness ) and goes on articulating meaningfulness-and-teleology even in the new existential transcendental/superseding contextualisation in terms–as-of-axiomatic-construct of the doubly-prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension. Given such a state of <amplituding/formative–epistemicity>totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag, the notion of generating
meaningfulness-and-teleology\(^9\) from the ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective priorly implies a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, and so by maximalising-recomposuring-for-relative-ontological-completeness\(^8\)—unenframed-conceptualisation. Equally we can imagine that making a positivistic argument in the midst of a non-
positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental orientation will be geared to their traditional sense of meaning and living as absolutely defining, but then the ‘center’ had moved from their world (from non-positivistic as base-institutionalisation/animistic or medieval preconverging-or-dementing apriorising-psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking—apriorising-psychologism center). Likewise such a suprastructural articulation of our positivism–procrypticism relationship to its postlogism that includes psychopathy and social psychopathy will apparently not make any sense to our present but then ontologically our present is now decentered as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to-‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing apriorising-psychologism, though our mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-dementing apriorising-psychologism as well. However, to the extent that it is ‘not such amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal/shortness-of-register-of–meaningfulness-and-teleology inclinations’ that drove human registry-worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-threshold from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to universalisation–non-positivism/medievalism to positivism–procrypticism (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of–meaningfulness-and-teleology) extrication in any registry-worldview/dimension with no upholding of transcendent possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over human temporal complexes (and such a ‘transversality-for-sublimating–existential-

Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as <amplituding/formative--epistemicity> causality <as-to-projective-totalitative--implications-of-prospective--nonpresencing,-for-explicating-ontological-contiguity> of \(\text{‘meaningfulness-and-teleology’}\) going by their given limited-mentation-capacity. Transcendence-and-sublimity/sublimation/superceratory--de-mentativity and transcendental-enabling/sublimating/superceratory--de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-
mentation-capacity-deepening’ implies more and more profound reconstruals/reconceptualisations (<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought) inducing transformative implications with respect to ‘meaningfulness-and-teleology’ as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogue speaking thus of human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing–as-to-possibilities-of-self-becoming-as-of-existing-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence. As knowledge conception as contrasted to sovereign conception, ‘transcendence and transcendental-enabling/sublimating/supererogatory–de-mentativity’ doesn’t recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about \(9.8 \text{ m/s}^2\) on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory–de-mentativity), with respect to transcendental-enabling/sublimating/supererogatory–de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices of ‘meaningfulness-and-teleology’ as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-veridicality of
the "meaningfulness-and-teleology" itself but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition’, and so with respect to "historiality/ontological-eventfulness"/ontological-aesthetic-tracing, 'perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism', politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating/supererogatory–de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality–ontological-coherence_or_superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendentental-enabling/sublimating/supererogatory–de-mentativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendentental-enabling/sublimating/supererogatory–de-mentativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory–de-
transcendental-point-of-departure handle as of the notional–conflatedness of notional–deprocrypticism deneuterising—referentialism’ reflected by metaphysics-of-absence–{implicated-epistemic-veracity-of- nonpresencing–<perspective–ontological-normalcy/postconvergence>} in the conception of ‘meaningfulness-and-teleology’ ontological-performance–<including-virtue-as-ontology> as of the transcendental implications in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, we can appreciate that the <cumulating/recomposuring–attendant-ontological-contiguity-successive registry-worldviews/dimensions conventioning are increasingly ontologically-driven in their value construct as it is more and more profound ontological-veridicality that enables human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and the ontological-contiguity—of-the-human-institutionalisation-process in the first place; with the notional–deprocrypticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent.
This highlights that a registry-worldview’s/dimension’s construes in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as being the absolute ontological determinant of ‘meaningfulness-and-teleology’ ontological-performance »<including-virtue-as-ontology>, and that ‘meaningfulness-and-teleology’ as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of ‘meaningfulness-and-teleology’ ontological-performance »<including-virtue-as-ontology>, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-‘meaningfulness-and-teleology’ as of prospective deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought with regards to our positivism–procrypticism, such a phenomenological transcendental-point-of-departure handle reflected by metaphysics-of-absence «implicated-epistemic-veracity-of- nonpresencing->perspective–ontological-normalcy/postconvergence⟩ for the conception of ‘meaningfulness-and-teleology’ ontological-performance »<including-virtue-as-ontology> is necessarily ‘suspicious’ of our presence society ‘conventioning-limits’ in its beyond-the-consciousness-awareness-teleology »<in-preconverging-existential-extrication-as-of-existential-unthought> naively construed mental-reflex as the absolute ontological
determinant of "meaningfulness-and-teleology", with regards to its capacity of appreciating prospective relatively profound pure-ontology as herein implied that de-mentatively/structurally/paradigmatically supposedly supersedes our positivism–procrypticism registry-worldview’s/dimension’s institutionalisation reference-of-thought. This explains why fundamentally most human transcendental ideas of progress have been re-originary-as-unenframed/unbeholdening/outlier-conceptualisation ideas which ‘proponents ultimate purpose (beyond-the-consciousness-awareness-teleology)-<in-preconverging-existential-extrication-as-of-existential-unthought>’ weren’t fundamentally a ‘direct convincing’ of humans exercise as of social-aggregation-enabling but rather in projecting a big picture of the-Good/understanding/knowledge-drive as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, however unintelligible, as a prospective institutional percolation-channelling exercise as validated by ultimate causality as-to-projective-totalititative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity with subsequent corresponding formalisation and secondnaturings. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued ‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>—existentialism-form-factor that ‘human knowledge is necessarily a secondnaturings construction’ and not an ‘intemporal-disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of–meaningfulness-
and-teleology\(^9\), which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the notional-deprocripticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche and institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^{10}<-\text{as-to-}^\prime \text{attendant-intradimensional}^\prime \text{-prospectively-disontologising-preconverging/dementing-apriorising-psychologism}\rangle . Thus human knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology\(^{99}<-\text{in-preconverging-existential-extrication-as-of-existential-unthought}\rangle .

[The notion of ‘beyond-the-consciousness-awareness-teleology\(^{99}<-\text{in-preconverging-existential-extrication-as-of-existential-unthought}\rangle ’ as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology\(^{99}<-\text{in-preconverging-existential-extrication-as-of-existential-unthought}\rangle ’ speaks of the mental state as of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^{99}<-\text{as-to-}^\prime \text{attendant-intradimensional}^\prime \text{-prospectively-disontologising-preconverging/dementing-apriorising-psychologism}\rangle \text{ by its relative-ontological-incompleteness\(^{88}\)-of- reference-of-thought at the point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation (also referred to as ‘uninstitutionalised-threshold\(^{102}\’) where the mental-disposition/mindset\(^8\)-reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology\(^{99}\)-
implies ‘conscious’ and/or ‘unconscious’ as of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing –apriorising-psychologism> at the uninstitutionalised-threshold of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-reference-of-thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology-of-reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. By extension, psychopathic/postlogic induced deception can only be construed as beyond-the-consciousness-awareness-teleology-as when eliciting ignorance (as of ‘lack of constraining social

This effective realism as of rational-realism is the requisite insight in understanding how supposedly re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking–projective-insights/epistemic-projection-in-
transcendental notions of intemporalit/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. Further along the rational-realism line of thinking, the fact is paradoxically that as more cuttingly demonstrated with ‘cultural diffusion driven transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’, the mechanism of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is not a simplistic transference from a more ontologically-completeness-of-reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its transcendence; as notions and ideas of the prospective reference-of-thought gradually creep over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms–as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful
cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further amplituding/formative-epistemicity totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of thought; as explanations for the cure will still be advanced in terms-as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s reference-of-thought. amplituding/formative-epistemicity totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimony displayed by succeeding institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing/perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’, which may wrongly imply being out of the scope of human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective-ontological-normalcy/postconvergence>’—existentialism-form-factor, and thus fundamentally undermine ontologically-veridical analysis where exceptionalism is adhered to instead of the mediocrity principle. This quite sums up the amplituding/formative-epistemicity totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mechanism by which re-originary-as-unenframed/unbeholdening/outlier-conceptualisation (imbued-postconverging/dialectical-thinking—‘projective-insights’/‘epistemic-projection-in-
transcendental ideas (transcendental in terms of putting in question the prior reference-of-thought-devolving, beyond just novel ideas within the same reference-of-thought), whether by diffusion or internal transformation, come to be dominant when ontologically pertinent; as even the ‘moult’ intellectual/emancipator, beyond the consciousness-awareness-teleology, is coming from a point of habitation with prior traditional ideas (consider the case of Newton with alchemic notions), wherein acceptance of the new ideas they are purporting only comes after an unconscious process of suspicion and denial of such nagging new ideas until they arrive at a firm point of supplanting-conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism before admitting to themselves the possible veracity/ontological-pertinence of the ideas, and so as their very own socially which makes it unsurprising that even socially is a necessary process for the ultimate acceptance of prospective causality—as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity as this subsumes-as-supplant-(as-of-the-more-profound-construal-of-attendant-ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—reifying-or-elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought-devolving-as-of-instantiative-context) the prior causality—as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity. It is hardly the case of just a direct
intemporal sense of “meaningfulness-and-teleology” transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a “presencing—absolutising-identitive-constitutedness” consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to crossgenerational import (prospective-institutionalisation as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). It is doubtful that Galileo or Diderot and others of their inclination were naïve to think that their initiatives will immediately lead to a positivistic transformation of society but they certainly had a cynical sense of crossgenerational purposefulness (whether beyond-the-consciousness-awareness-teleology - <in- preconverging existential-extrication-as-of-existential-unthought>). This equally explains why in all epochs, however different the nature, there is an inherent temporal mental-disposition abhorrence of transcendental ideas as putting into question the present and present interests (for instance, even the industrial revolution when considered as actually generating material wealth was poorly perceived by many trade guilds). It is only the ‘imbricatedness/threadedness/recomposing as of attendant—ontological-contiguity — educed—existentialising/contextualising/textualising-contiguity — reifying-or-elucidating-of-prospective-relative-ontological-completeness — reference-of-thought— devolving-as-of-instantiative-context> as to existence-potency ~ sublimating—nascence,—disclosed—from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing—that-further—epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective

where the solution to additions of the
aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-
measurements ("meaningfulness-and-teleology") taken involves rewards depending on how
big is the number with the Donor not in a position to pay particular attention to the exact sums
to be resolved if a character is in a position to fiddle with the implied sum to be resolved like
deliberately using the defective
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements as persion-of-refence-of-thought-as-preconvergently-

psychopathy especially at adulthood). Now supposed to resolve a ‘purposeful measurement’
(‘meaningfulness-and-teleology’), A appropriately uses a correct
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements (appropriateness-of-reference-of-thought-as-of-conflatedness \( \)) and find out
that the numbers measured and to be added are 5+2 and is trying its best thereafter to resolve
the sum but fails in its logical-processing-or-logical-implicitation—supposedly-apriorising-in-
conviction-as-to-profound-supererogation and gives 9 as the answer, this doesn’t void
logically re-engaging with A with respect to other sums in terms of
aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-
measurements to be undertaken (as to logical-processing-or-logical-implicitation—
supposedly-apriorising-in-conviction-as-to-profound-supererogation \( \)) so long as A learns and
understands the addition principle well. This instance of A’s reference-of-thought where it is
not perverted (correct
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-in-
conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for
addition calculations is part and parcel (whether successful or not) of prelogism \( \). Now
supposed B is in a position and has the mental-disposition to covertly add 1 to any of the
numbers measured and to be involved in the calculations to be undertaken before then
calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (‘meaningfulness-and-teleology’) is undertaken erroneously rather implying $6+3$ instead of $5+2$ (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as $5+2$) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) is flawed since B is not committed due to its perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) to genuinely strive for correct answers (ontological-veridicality), and this speaks of the possibility of B denaturing an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant’ to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose reference-of-thought is not perverted, such that A’s defect is a defect–of–logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance, on the other hand B’s defect is a Being/ontological/existential–defect, i.e. the
teleological disposition of B inherently carries the defect (to the point that B can be socially-functional-and-accordant\(^9\)) while committing the defect, i.e. where the veridical notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not universally transparent as a ‘negative covert vista’). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B. In the instance where C is ignorant of B’s Being/ontological/existential–defect, there is a possibility of re-engaging with C but only where B’s condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity of normal additionality with such a social-aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C (where B’s condition is not exposed to it), D, E and F or temporal-endemisation/temporal-enculturation of B’s condition for B, C (where B’s condition is not exposed to it), D, E and F. It should be noted that C (where B’s condition is not exposed to it), D, E and F technically speaking have a ‘derived-Being/ontological/existential–defect’ as well, and so to the point that they consciously perceive it can be socially-functional-and-accordant\(^9\) to them wherein lack of ‘social universal-transparency\(^{10}\) which protects the internal-coherence of meaning for virtue’ enables their own ‘covert negative vista’ however ad-hoc as conjugated-postlogism\(^7\), i.e. as to the conjugated-ignorance of C (where B’s condition is not exposed to it), conjugated-affordability of D, conjugated-opportunism of E, conjugated-exacerbation of F, and conjugated-social-chainism of B, C (where B’s condition is not exposed it) D, E and F, and conjugated-temporal-enculturation to B’s condition of B, C
(where B’s condition is not exposed to it), D, E and F; and they cannot therefore be re-engaged logically with (as of ‘prelogism’-as-of-conviction,-in-profound-supererogation<br>

postlogism (psychopathy) and conjugated-postlogism (as social psychopathy) are enabled,
endemised and enculturated by the possibility of the phenomena being socially-functional-and-accordant without negative consequences to its agents so long as it is not socially universally transparent, and so eliciting the respective temporality/shortness over the intemporality/longness of adhering to proper apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (ontologically-veridical meaningfulness-and-teleology). Further more than postlogism and conjugated-postlogism being just passively socially-functional-and-accordant, a more active socially-functional-and-accordant framework is often induced by extrinsic-attribution on the token of eliciting social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity’, This is highly specific and circumscribe for efficacy-sake from accrued involvement with childhood psychopathy (with regards to adult psychopathy or adult postlogism) wherein achieving the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance threshold enabling postlogism/psychopathy and/or conjugated-postlogism/social-psychopathy involves an insight about how ‘lack of constraining social universal-transparency–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) of perversion-and-derived-perversion-of–reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > determines how prelogism-as-of-conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’ logical-dueness-precedes-disontologising-logical-outcome-arrived-at> minds will act as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Besides and critically as well, in addition to this inherently induced faulty-mentation-procedure-deception
In this regard, prelogism77-as-of conviction, in profound supererogation, minds generally adopt a generalising approach for determining ‘the overall registry-worldview’s/dimension’s– reference-of-thought-for-social-functioning-and-accordance experiences and recounts with any specific individual’ including psychopathic or conjugated-postlogism77, and in so doing construe dichotomously the said individual’s as adhering or not-adhering to the registry-worldview’s/dimension’s– reference-of-thought-for-social-functioning-and-accordance (and so specifically judged rather in various shades of the registry-worldview’s/dimension’s– reference-of-thought-for-social-functioning-and-accordance implied mechanical-knowledge), as entails with associating or not associating the said individual in given occasions or in specifically given aspects of life depending on such experiences and recounts. With this in mind (based on its dormant childhood development experience), the adult psychopathy personality arising from its growth experience (and correspondingly the protraction into conjugated-postlogism77 behaviour in this regard), wherein its childhood psychopathy failing the registry-worldview’s/dimension’s– reference-of-thought-for-social-functioning-and-accordance induced a shift in behaviour such that in lieu of ‘such preposterous acts-and/or-narratives of vicious postlogism77-as-of compelling–nonconviction/madeupness/bottomlining’

vicious acts-and/or-narratives’ with respect to another individual or situation, as the occasion may arise, to be overlooked/absolved/exonerated/exculpated socially). This faulty-mentation-procedure-deception mental-disposition at adulthood psychopathy is more profound than just an ad-hoc trite association between committing a given vicious act and initiating a given limited ‘compensating directed pseudo-virtue act-and/or-narrative’ in compensation as is the case at childhood psychopathy, since the adult psychopath discovers at that stage that such triteness of association is relatively inefficient for attaining the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance (but rather requires a more profound association of the ‘postlogism -as-of- compelling–nonconviction/madeupness/bottomlining—(‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>–induced-disontologising’–of-the–

As then during its childhood the ‘compensating directed pseudo-virtue acts-and/or-narratives’ are relatively universally transparent socially for what these truly are, as rather being associated with its faulty-memmentation-procedure-deception mental-disposition of ‘perversion-of- reference-of-thought⟩; as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation⟩; ‘than just merely or confused with innocent virtue acts-and/or-narratives’; and as ‘interlocutors in prelogism ‘as-of-conviction,-in-profound-supererogation’⟩; -existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at⟩ come to grasp the deliberativeness/consciousness of the artificial and fallacious systematic eliciting of ‘compensating directed pseudo-virtue acts-and/or-narratives’ as a crude-trite-compensating mechanism for its urge to commit ‘postlogism’-as-of-‘compulsing–nonconviction/madeupness/bottomlining⟩; ⟨‘decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing⟩; induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued–⟨contextualising/existentialising–attendant-ontological-contiguity⟩; -in-shallow-supererogation⟩; -as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness⟩) vicious acts-and/or-narratives’ and is thus socially-dysfunctional at childhood. Whereas at adulthood psychopathy the overcompensating involves a surreptitious upending/undermining/blurring of this underlying insight that the ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-
narratives’ is rather as of a personality development derived-from and connected-with such fallacious crude-trite-compensating at childhood; such that it is then adopted and relayed as contending thus wrongly validating its apriorising−reference-of-thought-elements/apriorising−registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology (which are actually outside attendant−ontological-contiguity−educted−existentialising/contextualising/textualising-contiguity <reifying-or-elucidating-of-prospective-relative-ontological-completeness −of-reference-of-thought- devolving-as-of-instantiative-context>) as first-level deception, and thus enabling the infinite possibilities of second-level deception from their logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation. sublimity/sublimation/supererogatory–de-mentativity can be further elucidated with regards to
two remarkable historical developments which while inherently exceptional, to say the least,
aren’t truly transcendental. Consider for instance that transcendental is generally considered as
the central notion of Kantian philosophy. The reality however is that the supposed
transcendentalism is actually an elaboration in the terms of the actual and true rational-
empiricism/positivism reference-of-thought transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity established by Descartes’ thinking
proposition and scepticism exercise as the fundamental basis for continuously re-elaborated
‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity (Copernican revolution) is not eliciting a
‘postconverging-or-dialectical-thinking‘–psychology or psychology-of-mentation-dynamics or

‘<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-

(which is exactly what Descartes’ thinking proposition and scepticism exercise does with respect to the non-positivism/medievalism psyche/placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology⟩). The Kantian construct is an elaboration well within the psychical framework established by dimensionality-of-sublimating ⟨<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ ‘extended rationalism’ thinking proposition and scepticism exercise, and Kantian \textsuperscript{5} meaningfulness-and-teleology \textsuperscript{8} is utterly comprehensible and intelligible to that psyche/mentation, though in many ways it is a more profound elaboration of ‘meaningfulness-and-teleology\textsuperscript{99} issues. So it is actually an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument within the extended-rationalism \textsuperscript{8} reference-of-thought that doesn’t psychically and meaningfully supersede it but elaborates within it; and it doesn’t reference an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling–(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology⟩ as implied by a ‘postconverging-or-dialectical-thinking \textsuperscript{71}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’, as from Recurrent-utter-uninstitutionalisation to Base-institutionalisation–ununiversalisation, to \textsuperscript{10} universalisation–non-positivism/medievalism, to Positivism–procrypticism, and prospectively to deprocrypticism; as successively non-rules–apriorising/axiomatising/referencing–psychologism-as-impulsive-or-accidented-or-random-mental-disposition–as ‘base-constitutedness’ of \textsuperscript{83} reference-of-thought)
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) gives way to rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,—{as ‘first-level presencing—absolutising-identitive—constitutedness of reference-of-thought’} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) which gives way to
{‘apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity ~educated—existentialising/contextualising/textualising-contiguity }—conflatedness in—{preconverging—disentailment—by}—postconverging-entailment of reference-of-thought’}; and wherein the successive mindsets/ references-of-thought and institutionalisations are suprastructural to each other (beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought>). Insightfully, this highlights that human mentation capacity is in a dynamic cumulation as of the ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation of its limited-mentation-capacity-
It puts into question the Kantian philosophical exercise (Copernican revolution) of striving to establish universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow-to-deepening–limited-mentation-capacity, as-limited-mentation-capacity-deepening. (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existing-reality as the absolute apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existing-reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the
Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/ALCHEMY/essences/medieval registry-worldview/dimension certainly does has a name (transcendence-and-sublimity/sublimation/supererogatory-de-mentativity). But then it is more the case that from an amplituding/formative-epistemicity/posture holding only one registry-worldview/dimension as absolute, then prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather a beyond-the-consciousness-awareness-teleology-as-of-existential-unthought notion. Besides, Kant’s notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (transcendental idealism) and subsequent philosophical development of the notion is one relating to immediate phenomenal conceptualisation rather construed as ‘phenomenal-abstractiveness of presence’ (and more precisely phenomenal-abstractiveness of presence as of the positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implied by Descartes) rather than a construal of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as implied herein as of limited-mentation-capacity-deepening with respect to the-very-same-immanant-existence/intrinsic-reality/ontological-veridicality,-as-to-'human'epistemicity-totalising-purview-of-construal’ as superseding–oneness-of-ontology as an all-encompassing amplituding/formative-epistemicity/posturing as superseded reality
at a given point in time (erroneously construed as the absolute point of human thought apriorising, without a decentering sense of projection with respect to the prior and prospective). But existential-reality as of its human mental apriorising/axiomatising/referencing (heuristically at least) started well before that point and carries on well after that point, and such an exercise is more profound when it construes human mental apriorising/axiomatising/referencing along the full existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existence as it redefines meaningfulness-and-teleology on the basis of human limited-mentation-capacity-deepening in its construal/conceptualisation of a superseding–oneness-of-ontology construed as transcendentational-enabling/sublimating/supercategorical–de-mentativity. Insightfully, this author construes an existential-reference/existential-tautologisation basis of such human mental apriorising/axiomatising/referencing process for the transcendentational-enabling/sublimating/supercategorical–de-mentativity of successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendentental registry-worldviews/dimensions rather as of an exercise of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation over conceptualisations of human mental apriorising/axiomatising/referencing process on a simple categorisation reflex basis as elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity which tend to require constant heuristic adaptations to sync in contiguity with existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existential-reality and avoid virtualities, as wrongly
operating on the basis of an absolute point of human thought apriorising/axiomatising/referencing that doesn’t recognise that successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions are defining transcendent-enabling/sublimating/supererogatory–de-mentativity for new prospective relative-ontological-completeness-of-reference-of-thought and so-reflected as to the de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) undergirding the ontological-contiguity-of-the-human-institutionalisation-process. In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the existentialising/contextualising/textualising-contiguity of existence as of human shallow-to-deepening–limited-mentation-capacity–deepening as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening, as further elaborated herein. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ psyche as ‘<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling–(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-

It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating/supererogatory-de-mentativity <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument relationship to <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity as of its non-scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not
achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-verbatimidity/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual-patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-verbatimidity/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity construction having to do with an agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our

conflatedness—in {preconverging-disentailment-by}–postconverging-entailment notion as of prospective relative-ontological-completeness—of—reference-of-thought and implying rather a prospective transcendental depth-of-thought/~reference-of-thought. This equally explains why the implied supratransversality—in-sublimating–existential-eventuating/denouement—of–motif-and-apriorising/axiomatising/referencing as of aetiologisation/ontological-escalation is necessarily a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation that needs to take into account this ‘paradox of transcendence-and-sublimity/sublimation/suprerogatory–de-mentativity’. And critically so, because beyond just ‘human conscious willing’, transcendence-and-sublimity/sublimation/suprerogatory–de-mentativity necessarily implies the ‘prospect of humans to appreciate/understand meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology—in-preconverging–existential-extrication-as-of-existential-unthought’; such that, de-mentatively/structurally/paradigmatically/necessarily, that which gets to ‘conceptualise/construe beyond-the-consciousness-awareness-teleology—in-preconverging–existential-extrication-as-of-existential-unthought’ is necessarily ontologically-asymmetrical as rather imbued with intellectual-and-moral responsibility over that which doesn’t get there (and so, even with regards to a basic non-transcendental construal of asymmetrisation within a same registry-worldview’s/dimension’s reference-of-thought like Doctor –Patient, Parent –Child, Server –Customer, Teacher –Student etc. as ensues from a Derridean binary opposition analysis). However at uninstitutionalised-threshold, the notion of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation is not readily acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded reference-of-thought—
to uphold meaningfulness-and-teleology as such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness of reference-of-thought will certainly grasp the pertinence of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation as of deconstruction/ontological-reconstituting—as-to-conflicatedness—aetiologisation/ontological-escalation; so construed, as prospective relative-ontological-completeness-of-reference-of-thought brings about deepening sense as to apriorising/axiomatising/referencing—psychologism of transcendentally-enabling-level-of—ontological-good-faith-or-authenticity/objectification/desubjectification-as-objectification—as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as antinihilism meaningfulness-and-teleology construal for a sounder and sounder relationship with intrinsic-reality/ontological-veridicality. In this respect, it should be noted that in the example on the denaturing of Additionality as further articulated below with regards to the characters A, B, C, D, E, F and Z, it is naïve to think that the characters A, B, C, D, E, F will simply acquiesce to Z’s supposedly ontologically-veridical posture, as by their prior relative-ontological-incompleteness-of-reference-of-thought as beyond-the-consciousness-awareness-teleology view—in-preconverging-existential-extrication-as-of-existential-unthought they may operate on a logic that once such a situation as A induced additionality defect deception develops as of ‘lack of constraining social universal-transparency—{transparency-of-totalising-entailing—as-to-entailing—amplituding/formative—epistemicity—totalising—in-relative-ontological-completeness}, that’s fine and implicitly others could just as well consciously go along with it, and that it is just as implicitly legitimate as of the ‘amplituding/formative wooden-language—{imbued—temporal—mere-

Likewise, it could be asked whether such an aetiologisation/ontological-escalation notion as notional-deprocripticism institutionalisation implied suprastructuration over our positivism–procripticism is rather not a beyond-the-consciousness-awareness-teleology notion as of the present wooden-language mental-disposition and mental-projection. The fact is that registry-worldviews/dimensions operate as of their ontological representation of reality within the limits of their categorical-imperatives/axioms/registry-teleology which provide them with their ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ (so derived from prior ontological-faith-notion-or-ontological-fideisim induced projective-insights/postdication/deconstruction), but then the further possibility of expanding the axiomatic-construal/axiomatic-conceptualisation of ontological representation of reality as prospective registry-worldview/dimension suprastructuration requires new projective-insights/postdication/deconstruction to establish more profound reference-of-thought–categorical-imperatives/axioms/registry-teleology as new/prospective ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific

Hence the reason why the vices-and-impediments inherent of a given registry-worldview/dimension cannot be de-mentatively/structurally/paradigmatically/ontologically resolved within it as there is need for prospective ontological-completeness-of-reference-of-thought structured to inherently supersede such vices-and-impediments, whether as base-institutionalisation in superseding recurrent-utter-uninstitutionalisation, universalisation superseding base-institutionalisation–ununiversalisation, positivism superseding universalisation–non-positivism/medievalism and deprocrypticism superseding positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought. The central idea here being that the most critically important notion in the situation of A, B, C, D, E, F and Z, is Z’s upholding of prospective transcendental-enabling/sublimating/suppererogatory-de-mentativity over any temporal extricatory preconverging–de-mentating/structuring/paradigming, however, the enculturation and mass thinking behind temporal extricatory preconverging–de-mentating/structuring/paradigming. This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more ‘profound level of living in the realm of human thoughtfulness’ based on eudaemonic-contemplation of ‘intemporal-prioritisation-of—reference-of-thought—as-conflatedness—or—ontological-reprojecting that then ‘invents/creates’ the de-mentative/structural/paradigmatic possibility for prospective institutionalised-being-and-craft as there isn’t any inherent intemporality—longness but for the disposition for ‘maximalising-recomposuring-for-relative—ontological-completeness’—unenframed-conceptualisation out of the apathy of the ordinariness/averageness of any prior registry-worldview/dimension institutionalised-being-and-craft setup. Hence such intemporality —longness as ‘maximalising-recomposuring-for-relative—ontological-completeness’—unenframed-conceptualisation need its

representation-perversion has various shades of ‘temporal/shortness to intemporal/longness depth/register of meaningfulness stranded finalities/teleologies’. This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a ‘dereifying act’, then spills water on a chair and goes and tells dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting–conviction-as-to-profound-supererogation—of–attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism or prelogism in that a child who has a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—of–attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism or prelogism is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does. One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism—as-of-conviction,—in-profound-supererogation—<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at> (‘poor or bad supplanting–conviction-as-to-profound-supererogation—of–attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism’), whether by omitting or exaggerating in a circumspect and ad-hoc manner but relative to attendant–ontological-contiguity—educed–existentialising/contextualising/textualising-contiguity—<reifying-or-

The idea being about arriving at a sought-outcome by taking a posture that does not attach a depth of supplanting–conviction-as-to-profound-supererogation—of–attendant-intradimensional–postconverging/dialectical-thinking—apriorising-psychologism on narratives but rather simply ‘the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real’. Thus the psychopathic postlogic mindset and by derivation conjugated-postlogism/preconverging-or-dementing—integration mindset is one of relating to meaningfulness as valid by ‘the mere performative-form representation of meaningfulness’ rather than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to perform in interlocution rather than express a genuine sense of supplanting–conviction-as-to-profound-supererogation—of–attendant-intradimensional–postconverging/dialectical-thinking—apriorising-psychologism and hence the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution associated with transcendental-enabling/sublimating/supererogatory–de-mentativity, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism and its derivation/adoption by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism . More precisely, it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining
(<decontextualising/de-existentialising~of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-’attendant–intradimensional–ontologising’–imbued<-contextualising/existentialising–attendant–ontological-contiguity’>;in-shallow-supererogation<-as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>) and the notion of a lie which is in manifest prelogism -as-of-conviction,-in-profound-supererogation -<existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> (be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation —of–’attendant-intradimensional’-postconverging/dialectical–thinking –apriorising-psychologism’) as with a lie the implied–logical-dueness (with the corresponding implied–reference-of-thought/implied-registry elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality but as of ‘effectively due’ 54logical-processing–or-logical-implicitation–supposedly-apriorising-in-conviction-as-to-profound-supererogation. The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the
lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-

of the various anthropological societies mindsets/reference-of-thought/consciousness-awareness-teleology; whether as recurrent-utter-uninstitutionalisation psychologism, base-institutionalisation-ununiversalisation psychologism, universalisation–non-positivism/medievalism psychologism, positivism–procrypticism psychologism, and prospectively notional–deprocrypticism psychologism equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing–apriorising-psychologism’ as of their relative-ontological-incompleteness-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–reifying-or-elucidating-of-prospective-relative-ontological-completeness–of-reference-of-thought–devolving-as-of-instantiative-context as ontologically-veridical. Thus, notional–deprocrypticism as decentering and preconverging-or-dementing–apriorising-psychologism the positivism–procrypticism registry-worldview reference-of-thought will certainly imply an altogether different psychologism of meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset/reference-of-thought of meaningfulness-and-teleology with its psychologism/psychologism-construct, and so it is
prospective-relative-ontological-completeness -of- reference-of-thought-devolving-as-of-instantiative-context> in reflecting/perspectivating the relative-ontological-incompleteness\(^7\)-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance of positivism–procrypticism and all the lower registry-worldviews/dimensions. Basically, this idea of ‘human temporal uninstitutionalised-threshold\(^{102}\) mental-disposition’ as metaphysics-of-absence-{implicitied-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>} points out that ontological analysis should rather be from the prospectively implied ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’, and in this instance implying an ontological analysis of psychopathy and social psychopathy from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^3\) as of prospective notional–deprocrypticism registry-worldview\(^3\) reference-of-thought and not the present positivism–procrypticism, just as analysing notions-and-accusations-of-sorcery should rather be from the prospective positivism registry-worldview\(^3\) reference-of-thought and not its present\(^{103}\) universalisation–non-positivism/medievalism registry-worldview\(^3\) reference-of-thought; as of the fact of fundamental registry-worldview/dimension ‘prospective registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^{102}\)–defect-<as-Being-or-ontological-or-existential–defect>\(^3\), so construed in order to supersedes its preconverging–de-mentating/structuring/paradigming vices-and-impediments\(^{103}\). Structural/paradigmatically/de-mentatively, this idea extends to all issues implying metaphysics-of-absence-{implicitied-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>} ‘human temporal uninstitutionalised-threshold\(^{102}\) mental-disposition’. This brings home the underlying notion of rational-realism as construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening\(^{53}\) as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by
way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’). Wherein, going by its first impulse with respect to its ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental ‘meaningfulness-and-teleology’.

This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn’t give agency (or at the least ‘perceived’ sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in adjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion
of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present ascendency of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity’ that has accompanied human limited-mentation-capacity-deepening in construing/conceptualising ‘meaningfulness-and-teleology’. Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-deepening that actually is behind all threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation ~<as-to- ‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing – apriorising-psychologism> of the <cumulating/recomposuring–attendant-ontological-contiguity>-successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of de-mentative/structural/paradigmatic social implications, one other sort of idealism remains to be
recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence\[\langle\text{implicated-`nondescript/ignorable–void ‘-as-to- presencing—absolutising-identitive-constitutedness}\rangle\text{ and metaphysics-of-absence-}\{\text{implicated-epistemic-veracity-of-}

This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction rather as socially-functional-and-accordant}\[\boxed{23}\]. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present \[\boxed{56}\] meaningfulness–
and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in terms–as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘huma prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms–as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms–as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipating institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the ‘perpetually stable notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold’, across all registry-worldviews/dimensions references-of-thought but for the fact that they have different reference-of-thought–categorical-imperatives/axioms/registry-teleology-for-

Thus calculations (logically-derived meaningfulness) in such an institutionalised framework are effectively in ontological-good-faith/authenticity\{postconverging–de-mentating/structuring/paradigming\}

But then human existential-reality comes with human limited-mentation-capacity-deepening with limited grasp of intrinsic-reality at various stages of human emancipation up to the modern-day, such that social universal-transparency\{transparency-of-totalising-entailing-as-to-entailing-\langle\text{amplituding/formative–epistemicity}\text{totalising-in-relative-ontological-completeness}\}\text{ required for ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and
historical evidence consistently points to a different structure with regards to the ‘human

the reality (as metaphysics-of-absence<{implicitited-epistemic-veracity-of- nonpresencing–<perspective–ontological-normalcy/postconvergence>}) of the notion of ‘human temporal uninstitutionalised-threshold\textsuperscript{102} mental-disposition’ that de-

[We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant -threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-modalities-of-the-’ reference-of-thought-as-of- incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation-inducing-the-uninstitutionalised-threshold —in the same social space that statements of ‘maximal-as-intemporal-operating-modality-of- reference-of-thought-as-of- maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation-as-inducing-the-prospective-institutionalisation’ are made but with both construed in the conventioning of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction as effectively ‘non-dissociable’, thus validating the notion that institutionalisation is not about solipsistic transformation into the intemporality-drive (longness-of-register-of—meaningfulness-and-teleology disposition) but rather about acceptable thresholds for the registry-worldview/dimension institutionalisation defined social-functioning-and-accordance—as-of–social-stake-contention-or-confliction, explaining why uninstitutionalised-threshold are bound to arise successively in the ontological-contiguity—of-the-human-institutionalisation-process (out-of-human temporality) together with corresponding prospective institutionalisations (out of-human intemporality) with the latter enabling <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought of defined social-functioning-and-accordance—as-of–social-stake-contention-or-confliction as of the notional-contiguity/epistemic-contiguity —<profound-supererogation -of-mentally- aestheticised–postconverging/dialectical-thinking –qualia-schema> in reflecting
holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process. This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-construct further development requires that it can utterly be put into question by pure-ontology apriorising/axiomatising/referencing-{of-attendant-ontological-contiguity ~educated-existentialising/contextualising/textualising-contiguity }—confaitedness—in-{preconverging-disentailment-by}-postconverging-entailment with no conventioning complexes’! (As a reminder, the notion of intemporality/temporality is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction nature of the being domains-of-study of the social world should not naively imply a construct that isn’t ontological or otherwise, as in both instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity as an otherness from any emotional-involvement/subjectification/notional <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiac-drag predilection of the inquirer’. This elucidation is equally to highlight that the idea of socially-functional-and-accordant ‘modular-thresholds’-of-notional—firstnaturesness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>-dissociability is
beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains-of-study.) The conventioning of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction effectively ‘non-dissociable’ modular construal of temporal-dispositions and intemporal-disposition rather as of socially-functional-and-accordant thresholds, has deterministic implications with regards to ‘interdimensional/transdimensional/transcendental registry-worldview/dimension-level of analysis’ as well as ‘notional~firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuation-level of analysis’; for construing the implications of such ‘modular-thresholds’-of-notional~firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–dissociability social-functioning-and-accordance—as-of–social-stake-contention-or-confliction effectiveness-or-ineffectiveness and ontological-resolution as of ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism by way of the grander ontological-normalcy/postconvergence

<existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—
logical-dueness-precedes-disontologising-logical-outcome-arrived-at> tends to be relative. That is, even within a registry-worldview’s/dimension’s institutionalisation basis we don’t necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-teleology<in-preconverging-existential-extrication-as-of-existential-unthought>) given our relative-ontological-incompleteness of reference-of-thought and secondly by projective-arbitrariness/waywardness in the choices we
make, and this get even worst at the uninstitutionalised-threshold. Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute reference-of-thought–prelogism-as-of-conviction,-in-profound-supererogation-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal preconverging–dementating/structuring/paradigming and further so with respect to increasing informality as in the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology} of all human institutions, and particularly where social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing,<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} is blurred and not forthcoming as logic tends out to be an issue of making-a-mistake-at-one-moment-expressing-the-most-profound-conviction-as-to-profound-supererogation-at-the-other-moment in a circular reference-of-thought. This tendency is further exacerbated with the dynamic conjugation of temporal-dispositions (’ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to postlogism-slantedness. This reality of our reference-of-thought–prelogism-as-of-conviction,-in-profound-supererogation-<existentially-veridical–‘attendant-intradimensional-apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> as being in effect subpar rather than absolute and specifically more compromised at uninstitutionalised-threshold and as associated with postlogism as

The point being that “meaningfulness-and-teleology” construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of “reference-of-thought–prelogism”–as-of-conviction,-in-profound-supererogation” “existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at” as of reflex but equally examine ‘as of circumstances pointing to uninstitutionalised-threshold’ the possibility of the ontological-veridicality of interlocutors threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation “as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism> mental-dispositions, and as is often associated with mental-dispositions geared towards ‘flawed impression-driven, expletive-driven and non-intellectual critique’ contention. This difference between threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation” “as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism> and “reference-of-thought–prelogism”–as-of-conviction,-in-profound-supererogation” “existentially-veridical–‘attendant-intradimensional’–apriorising/axiomatising/referencing”–logical-dueness-precedes-disontologising-logical-outcome-arrived-at” critically explains how the “cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions psychoanalytically-unshackled/memetically-reordered/institutionally-recomposured going by the fact that
This will explain why the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation -<as-to- ‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing – apriorising-psychologism> within a prior registry-worldview/dimension utterly disappears within the prospective registry-worldview/dimension ‘meaningfulness-and-teleology’, in the sense that notions-and-accusations-of-sorcery for instance are not entertained in a positivism social-setup as the positivism/rational-empiricism social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative– epistemicity>totalising–in-relative-ontological-completeness⟩ knows this to be non-veridical ontologically-speaking giving its prospective relative-ontological-completeness-of-reference-of-thought. This imbued potency in social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative– epistemicity>totalising–in-relative-ontological-completeness⟩ across all registry-worldviews/dimensions is what explains the possibility of social transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. The reason for this is that the entire construct of human social-functioning-and-accordance—as-of–social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed ‘reference-of-thought–prelogism’–as-of-conviction,-in-profound-supererogation’-<existentially-veridical– ‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at’ to ‘meaningfulness-and-teleology’ as of both the individual’s expectation and the social’s expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to ‘parasitise’ it, as a failing social-construct as of ‘universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance,
however dubious, a rationale that is meant to be socially functional. Basically, the postlogism\textsuperscript{77}-

reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >. The further
implication is that such surreptitiousness, marginality and circularity with regards to a registry-
worldview’s/dimension’s temporal-dispositions are often construed rather as circumventive
issues as of temporal extricatory preconverging–de-mentating/structuring/paradigming, and not
by ontological-veridicality insight as of de-mentative/structural/paradigmatic
Thus ensuring ontological-veridical social universal-transparency is de-mentatively/structurally/paradigmatically inherently ‘advantaged ultimately’ by the social-construct functioning. (But then this can rather be achieved in the medium to long term as of a crossgenerational transcendence-and-sublimity/sublimation/supererogatory de-mentativity import and hardly so in the short-run, given that in the short-run the issue of the registry-worldview/dimension relative-ontological-incompleteness reference-of-thought is a drawback in this respect. As the framework of generalised social referencing of meaningfulness-and-teleology is a circular-pervasiveness closed-structure as of the habituated predicative-insights for meaningfulness-and-teleology based on the relative-ontological-incompleteness reference-of-thought of the registry-worldview/dimension as prior (despite the relative-ontological-incompleteness reference-of-thought induced distinctive-alignment-to reference-of-thought-apriorising/axiomatising/referencing and override any such sense of relative pure-ontology apriorising/axiomatising/referencing {of-attendant-ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment by} postconverging entailment as of prospective relative-ontological-completeness reference-of-thought apriorising/axiomatising/referencing {of-attendant-ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment by} postconverging entailment). So the transcendental meaningfulness-and-teleology implied as of projective-insights about the prospective registry-worldview/dimension predicative-insights of meaningfulness-and-teleology going by its
prospective relative-ontological-completeness\textsuperscript{87} -of- \textsuperscript{83} reference-of-thought doesn’t supersede the prior’s ‘circular-pervasiveness closed-structure of habituated predicative-insights for \textsuperscript{9} meaningfulness-and-teleology\textsuperscript{99}’ in the short run. Chinua Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes \textsuperscript{9} meaningfulness-and-teleology\textsuperscript{99} in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness\textsuperscript{88} -of- \textsuperscript{83} reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness\textsuperscript{87} -of- \textsuperscript{83} reference-of-thought had moved on to the new/prospective \textsuperscript{9} meaningfulness-and-teleology\textsuperscript{99} which is now antipodal to his, hence his confliction with his circular-pervasiveness \textsuperscript{amplituding/\textit{formative}} wooden-language\textsuperscript{imbued—averaging-of-thought-<\textit{as-to-leveling/ressentiment/closed-construct-of-}} meaningfulness-and-teleology \textsuperscript{as-of-‘nondescript/ignorable–void ’-with-regards-to-\textit{prospective-apriorising-implications}>} which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness \textsuperscript{amplituding/\textit{formative}} wooden-language\textsuperscript{imbued—averaging-of-thought-<\textit{as-to-leveling/ressentiment/closed-construct-of-}} meaningfulness-and-teleology \textsuperscript{as-of-‘nondescript/ignorable–void ’-with-regards-to-\textit{prospective-apriorising-implications}>} when the foreign cultural diffusion arrived before superseding it crossgenerationally. We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of\textsuperscript{8} reference-of-thought with regards to \textsuperscript{9} meaningfulness-and-teleology\textsuperscript{99} construal where Nunez’s ‘seeing of the environment’ \textsuperscript{reference-of-thought as of it prospective relative-ontological-completeness\textsuperscript{7} -of-axiomatic-construct-or-\textsuperscript{7} reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ \textsuperscript{reference-of-thought as of its prior relative-ontological-incompleteness\textsuperscript{8}. This is because the personhood and socialhood formation have
been constructed in circular-pervasiveness out of the prior ‘reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is a wooden-language imbued—averaging-of-thought-as-to-leveling/resentment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications} that hardly entertains its own transcendability/dementativity, and why transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather crossgenerational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their reference-of-thought despite their respective inherent prior relative-ontological-incompleteness-of-reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to-reference-of-thought-from-an-ontological-normalcy/postconvergence-epistemic-or-notional–projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and
subsequently upon himself. This reflects the mental-disposition of all registry-worldviews/dimensions uninstitutionalised-threshold, including our own as positivism–procrypticism as of its disjointedness-as-of-reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to-reference-of-thought-notwithstanding any notion of relative prospective ontological-completeness-of-reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective <amplituding/formative-epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology> apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather such a demonstration is more de-mentatively/structurally/paradigmatically, together with all other such demonstrations of the prospective <amplituding/formative-epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology> apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of the prior <amplituding/formative-epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology> apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in its circular-pervasiveness’ at its uninstitutionalised-threshold as of its ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought; thus qualified as transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity/suprastructuration. Just as the exercise of demonstrative convincing on the basis of a scientific principle within a non-positivistic social context ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather de-mentatively/structurally/paradigmatically, together with all other such demonstrations as of scientific and positivistic principles/axioms/\textsuperscript{7} reference-of-thought meaningfulness-and-teleology\textsuperscript{9} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of non-scientific and non-positivism \textsuperscript{8} <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought\textsuperscript{8} devolving-as-of-instantiative-context—‘meaningfulness-and-teleology\textsuperscript{9} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in circular-pervasiveness’ at its uninstitutionalised-threshold\textsuperscript{10} as of its ontologising-deficiency/relative-ontological-incompleteness\textsuperscript{10} of-reference-of-thought. We can grasp an abstract sense of this situation as follows. Supposed human limited-mentation-capacity-deepening\textsuperscript{13} as inducing more and more profound projective-insights construed as the successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments representing the \textsuperscript{14}<cumulating/recomposuring–attendant-ontological-contiguity >successive registry-worldviews/dimensions\textsuperscript{14} reference-of-thought under which their respective predicative-insights construct their respective ‘meaningfulness-and-teleology\textsuperscript{9}, so grounded axiomatically as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights; is compared imaginarily to ‘mental-dispositions at different successive ascertaining-perspectives unbeknown-to-each other for gauging the overall earth landscape’ (representing analogically ‘different \textsuperscript{14}<cumulating/recomposuring–attendant-
measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring—
purpose—of-obtained-measurements’ on the basis of its ‘sea-level-height
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’; and this same mental-reflex applies successively to relatively ‘lower-
level-heights
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (prior registry-worldviews/dimensions) with respect to relatively ‘higher-
level-heights
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental difficulty
is that ‘no given
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and
by reflex circularly undertakes predicative-insights from its
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and
it is only the long run crossgenerational habituation construed as of de-mentation
(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-

or-dementing —apriorising-psychologism as of distractive-alignment-to—reference-of-thought-

doesn’t exist just as the logical-dueness of the animist reference-of-thought with their God-of-

satellite-level-height
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (as deprocrypticism) that ultimately provides the ideal ‘ascertaining-
perspectives for gauging the overall earth landscape’. Besides, why the explication herein is necessarily implying a prospective reference-of-thought (as the author in here with a supposed notional–deprocripticism reference-of-thought construal as implying a prospective relative-ontological-completeness reference-of-thought over our positivism–procrypticism), the fact is that any transcendental analysis is caught in two worlds as two different reference-of-thought in striving to explicate the ontological pre-eminence of the prospective reference-of-thought as of ontological-normalcy/postconvergence, thus facing the dilemma that by mental-reflex we are not ‘habituated’ to the notion of our reference-of-thought being construed as ‘preconverging-or-dementing–apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within nonuniversalisation uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking, within recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing–apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold will react when construed as preconverging-or-dementing–apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing–apriorising-psychologism and not thinking representation of ourselves construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective depcrypticism–or–preempting—disjointedness-as-of–reference-of-thought perspective as in disjointedness-as-of reference-of-thought and rather in distractive-alignment-to reference-of-thought <$ of-apriorising/axiomatising/referencing $> ! Thus the
reality of this analysis in that sense is ‘sparing as of our high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{76}–self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature’ for the sake of deconstructive-engagement/engaged-destruktion because an analysis construed as of \textsuperscript{8}reference-of-thought is all about mental-soundness or unsoundness representation (with no logical engagement implication) hence rather of a psychoanalytic-unshackling purpose; as a change of \textsuperscript{8}reference-of-thought implies a change of perspective/apriorising/axiomatising/referencing/intelligibility/setup/measuring instrument of–meaningfulness-and-teleology\textsuperscript{99} as a shift of the curve-of-prospective-relative-ontological-completeness–of-reference-of-thought/axiomatic-construct and not a change in logic as a change along the same \textsuperscript{8}reference-of-thought/curve-of-prior-relative-ontological-incompleteness–of-reference-of-thought/\textsuperscript{7}logical-processing-or-logical-implicitation\textsuperscript{74} supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{71}. In other words, a truly direct notional–deprocrypticism ontological analysis will be a ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism of our positivism–procrypticism as we by reflex ‘mentally break-in’/dement a non-positivistic \textsuperscript{8}reference-of-thought (as we don’t engage it on the basis of the non-positivistic \textsuperscript{8}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99}, -for- aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99} just as a notional–deprocrypticism analysis will not engage us on the basis of our \textsuperscript{8}procrypticism–or–disjointedness-as-of–reference-of-thought \textsuperscript{8}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99}, -for- aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99}, and so in both cases as of the relative ontologising-deficiency/relative-ontological-incompleteness\textsuperscript{8}–of–reference-of-thought of non-positivism and \textsuperscript{8}procrypticism–or–
disjointedness-as-of-reference-of-thought). But then wholly carried out in both instances it will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness’ reference-of-thought over prior relative-ontological-incompleteness reference-of-thought took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God-of-plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic ‘meaningfulness-and-teleology’; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness reference-of-thought accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a notional–deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as procrypticism–or–disjointedness-as-of-reference-of-thought reference-of-thought–categorical-imperatives/axioms/registry-teleology failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism–procrypticism as preconverging-
or-dementing \textsuperscript{1}–apriorising-psychologism/not-thinking and decentered, and wrongfully trying to engage \textsuperscript{2}meaningfulness-and-teleology\textsuperscript{99} in positivism–procrypticism terms–as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-reference-of-thought. (More like a non-positivistic mindset\textsuperscript{7} reference-of-thought insisting to contendingly engage a positivistic mindset\textsuperscript{8} reference-of-thought but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of \textsuperscript{4}reference-of-thought as of its prior relative-ontological-incompleteness\textsuperscript{9} reference-of-thought. Such insight point out that the ‘mental tools’ available to a mental state of recurrent-utter-uninstitutionalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing \textsuperscript{1}–apriorising-psychologism with respect to an implied prospective state of base-institutionalisation, the ‘mental tools’ available to a mental state of base-institutionalisation–ununiversalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing \textsuperscript{2}–apriorising-psychologism with respect to an implied prospective mental state of ununiversalisation, the ‘mental tools’ available to a state of universalisation–non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing \textsuperscript{3}–apriorising-psychologism with respect to an implied prospective mental state of positivism, and prospectively the ‘mental tools’ available to a state of positivism–procrypticism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing \textsuperscript{4}–apriorising-psychologism with respect to an implied prospective mental state of deprocrypticism. Thus unlike is the case with issues of logical-dueness/logical-pertinence as of appropriateness or inappropriateness of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation, issues of perversion-and-derived\textsuperscript{7} perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \textsuperscript{7} rather render such notions as forgiveness/overlooking/resetting nothing more
but vague totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{1} misconstruing based on ‘a naïve traditional reflex’ that truly has no grander virtuous implications but quite the contrary as actually endemising/enculturating vices-and-impediments\textsuperscript{105} as when so-construed as a wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing — narratives—of-the- reference-of-thought— categorical-imperatives/axioms/registry-teleology } failing/not-upholding intertemporal-preservation-entropy-or-contiguity—or—ontological-preservation; thus transforming such ‘denaturing’ notions of forgiveness/overlooking/resetting into a temporal mental-disposition causality—as-to-projective-totalitative—implications-of-prospective— nonpresencing.—for-explicating—ontological-contiguity ‘misconstrued vicious insight disposition’ thus rather endemising/enculturing vices-and-impediments\textsuperscript{101}! As the question that arises is what does it mean to forgive/overlook/reset with regards to a temporal mental state of prior relative-ontological-incompleteness—of—reference-of-thought beyond-the-consciousness-awareness-teleology\textsuperscript{8} in preconverging existentially-extrication-as-of-existential-unthought\textsuperscript{6} circular-pervasiveness at its uninstitutionalised-threshold\textsuperscript{02} in perversion-and-derived— perversion-of-reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining—as-to-shallow-supererogation > as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism? It effectively means perpetuating the endemising/enculturation of the given uninstitutionalised-threshold\textsuperscript{02} reference-of-thought. What is of relevance is a veridically uninhibited/decomplexified ‘understanding of how the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} works and induces prospective institutionalisations’ as a ‘The-Good/understanding/notional~knowledge-reification—gesturing—<in-
prospective vices-and-impediments\textsuperscript{105}, and thus ‘our shouldering of the given transcendence-uenabling-uninstitutionalised-threshold\textsuperscript{102} in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/inauthenticity\textsuperscript{1}/nihilistic underlying this prior relative-ontological-incompleteness\textsuperscript{88}—reference-of-thought behind our uninstitutionalised-threshold\textsuperscript{102}’s perversion-and-derived\textsuperscript{74} perversion-of- reference-of-thought\textsuperscript{102} as vices-and-impediments\textsuperscript{105}, and so as of an opened-construct-of—meaningfulness-and-teleology\textsuperscript{99} prospective transcendental mental inclination for prospective relative-ontological-completeness —of— reference-of-thought virtue-as-ontology’. Otherwise, such a notion of forgiveness/overlooking/resetting with respect to perversion-and-derived\textsuperscript{74} perversion-of—reference-of-thought\textsuperscript{102} shouldn’t be narrowly interpreted only with regards to our positivism registry-worldview/dimension in its wooden-language\textsuperscript{7} but should go back ironically to the very beginning at recurrent-utter-uninstitutionalisation to imply forgiveness/overlooking/resetting within it same thus undermining the very notion in reflecting holographically—conjugatively-and-transfusively—of-the-human-institutionalisation-process\textsuperscript{7} as the very de-
but rather wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of-
‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>} starting at the recurrent-utter-uninstitutionalisation in permanence that doesn’t allow for any such transcending enabled by the ontological-contiguity—of-the-human-institutionalisation-process. In other words the notion of forgiveness/overlooking/resetting with respect to perversion-and-derived perversie-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supenerogation is rather vague, as the more fundamental issue here is that human meaningfulness-and-teleology as of human limited-mentation-capacity for construing virtue-as-ontology/ontology/intrinsic-reality/ontological-veridicality is ‘ever dementatively/structurally/paradigmatically in need for prospective relative-ontological-completeness-of-reference-of-thought’ and that is what is to be sought after as with the recurrent-utter-uninstitutionalised striving for base-institutionalisation, the base-institutionalised-ununiversalised striving for universalisation, the universalised–non-positivist/medievalist striving for positivism and in our case the positivist–procryptist striving for notional–deprocrypticism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; and so as of human limited-mentation-capacity-deepening enabled by reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ and so allowed by de-mentation—(supenerogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics). Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness
basis that human mental capacity is a given as if there is no de-
mentative/structural/paradigmatic issue of relative-ontological-incompleteness reference-of-thought with no recognition of any such ontological-contiguity—of-the-human-institutionalisation-process as human limited-mentation-capacity-deepening retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived perversion-of reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social <amplituding/formative-epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed de-mentatively/structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity within the framework in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process involving human limited-mentation-capacity-deepening.

In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental de-mentative/structural/paradigmatic issue as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism–procrypticism disjointedness-as-of reference-of-thought. In which case such vague approaches will simply imply beyond-the-consciousness-awareness-teleology—<in-preconverging-existential-extrication-as-of-existential-unthought> naïve perpetuation in <amplituding/formative–epistemicity totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag\(^1\) of the fundamental vices-and-impediments\(^2\) with both uninstitutionalised-threshold\(^3\), thus explaining the fundamental dilemma of all institutional Establishments in their \(<\text{amplituding/formative}>\) wooden-language\(^4\) \{imbued—averaging-of-thought-\(<\text{as-to-leveling/ressentiment/closed-construct-of—}\n\text{meaningfulness-and-teleology }\text{-as-of—'nondescript/ignorable–void ’-with-regards-to—prospective-apriorising-implications}>\}. Such confusion arises from a misconstruing of what is veridically implied deconstructively/ontological-reconstitutively by \(<\text{de-mentation}>\) \(\langle\text{supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or—attributive-dialectics}\rangle\), which implies that ‘any registry-worldview/dimension presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^9\) as of its prior relative-ontological-incompleteness\(^8\)-of—reference-of-thought’ is ‘a preconverging-or-dementing\(^7\)-and-decentered-prior-institutionalisation’s—categorical-imperatives/axioms/registry-teleology\(^9\) placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^9\) as unsoundness-or-ontological-bad-faith/inauthenticity\(^4\)-of—reference-of-thought’ from the ‘prospective registry-worldview/dimension presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^9\) as of its prospective relative-ontological-completeness\(^7\)-of—reference-of-thought’ as ‘a postconverging-or-dialectical-thinking\(^1\)-and-centered-prospective-institutionalisation’s—categorical-imperatives/axioms/registry-teleology\(^9\) placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^9\) as soundness-or-ontological-good-faith/authenticity\(^4\)-of—reference-of-thought’. Certainly, we can recognise the veracity/ontological-pertinence of the above articulation with respect to retrospective registry-worldviews/dimensions placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^9\) as of their prior relative-
mentativity hence our untranscendability for a de-mentative/structural/paradigmatic reference-of-thought—categorical-imperatives/axioms/registry-teleology—, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’, and paradoxically thus by implication that there is no relative-ontological-incompleteness—reference-of-thought, to then wrongly imply such articulations of forgiveness/overlooking/resetting and positive-psychology are of intemporal projection whereas these are actually of conscious or unconscious beyond-the-consciousness-awareness-teleology temporal/shortness-of-register-of—meaningfulness-and-teleology projection. This insight explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/ontology articulated above as of de-mentative/structural/paradigmatic nature of the-Good/understanding/notional—knowledge-reification—gesturing—in—prospective psychologismic—apriorising/axiomatising/referencing—of—ontological—contiguity—educed—existentialising/contextualising/textualising-contiguity—in—preconverging-disentailment—by—postconverging—entailment—amplitude—formative—epistemic—causality—as—to—projective—totalitative—implications—of—prospective—nonpresencing—for—explicating—ontological—contiguity construal/conceptualisation, and not naïve at best palliative construals in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the fact that each registry-worldview’s/dimension’s reference-of-thought is inherently a metaphysics-of-presence—{implicated—nondescript/ignorable—void—as—to—presencing—absolutising—identitive—constitutedness } construed as postconverging—or—dialectical—thinking—
and-centered-prospective-institutionalisation’s—categorical-imperatives/axioms/registry-teleology soundness-or-ontological-good-faith/authenticity—of—reference-of-thought that is in a circular-evasiveness from more ontologically-veridical metaphysics-of-absence

{implicated-epistemic-veracity-of—nonpresencing—<perspective—ontological-normalcy/postconvergence>—} construals/conceptualisations as implied by prospective relative completeness-of—reference-of-thought which rather construes it as a preconverging-or-dementing—and-decentered-prior-institutionalisation’s—categorical-imperatives/axioms/registry-teleology unsoundness-or-ontological-bad-faith/inauthenticity—of—reference-of-thought. The ontological implication is that beforehand/axiomatically with respect to the cross-engagement of a prior relative-ontological-incompleteness—of—reference-of-thought and a prospective relative-ontological-completeness—of—reference-of-thought, the former is priorly invalidated into a preconverging-or-dementing—and-decentered-prior-institutionalisation’s—categorical-imperatives/axioms/registry-teleology unsoundness-or-ontological-bad-faith/inauthenticity—of—reference-of-thought by the latter as a postconverging-or-dialectical-thinking—and-centered-prospective-institutionalisation’s—
categorical-imperatives/axioms/registry-teleology soundness-or-ontological-good-faith/authenticity—of—reference-of-thought, invalidating by implication the logical-dueness/logical-pertinence as of logical-processing-or-logical-implicitation—supposedly—apriorising-in-conviction-as-to-profound-supererogation of the former. This we can grasp retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our positivism and the non-positivism/medieval registry-worldview/dimension going by our prospective relative-ontological-completeness—of—reference-of-thought with respect to its prior relative-ontological-incompleteness—of—reference-of-thought. But since we have been habituated as of our existential formation within our <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—
meaningfulness-and-teleology -as-of-\textsuperscript{`}-nondescript/ignorable-\textsuperscript{-}void \textsuperscript{’}-with-regards-to-prospective-apriorising-implications\textsuperscript{>\text{	extregistered}} to be in logical-dueness for \textsuperscript{5} \textsuperscript{logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation} by default and thus always contendingly relevant on the basis of sharing a mutual positivism reference-of-thought, we will hardly entertain though a notional–deprocrypticism cross-engagement implied invalidation of our logical-dueness for \textsuperscript{5} \textsuperscript{logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation} and thus rendering us contendingly irrelevant on the basis of our prior relative-ontological-incompleteness\textsuperscript{2\textsuperscript{-}of-\textsuperscript{2}-}reference-of-thought construed as disjointedness-as-of\textsuperscript{2}-reference-of-thought. But then ironically such a unde-mentativity posture could as well be adopted by a non-positivism/medievalism\textsuperscript{8} reference-of-thought in its own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-or-dialectical-thinking\textsuperscript{1\textsuperscript{-}and-centered-prospective-institutionalisation’s–\textsuperscript{\textsuperscript{2}\textsuperscript{-}categorical-imperatives/axioms/registry-teleology\textsuperscript{9}} with its logical-dueness for \textsuperscript{5} \textsuperscript{logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation} valid by default. This point out that there is necessarily a central growth element of a de-mentative/structural/paradigmatic reference-of-thought– categorical-imperatives/axioms/registry-teleology\textsuperscript{9\textsuperscript{-}for-aposteriorising/logicising/deriving/intelligising/measuring–}meaningfulness-and-teleology\textsuperscript{9} for crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ allowing for de-mentativity and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such de-mentative/structural/paradigmatic \textsuperscript{amplituding/formative–epistemicity–causality \textsuperscript{as-to-projective-totalitative–implications-of-prospective- nonpresencing.–for-explicating–ontological-contiguity} of vices-and-impediments\textsuperscript{105} of our prior relative-ontological-
incompleteness of reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is. The bluntness of reality/ontology doesn’t recognise the mortals that we are and we can’t advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid ‘human closure of meaningfulness-and-teleology’ which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction. The fact is such an articulation is not idle but rather the requisite fervour associated with many an enlightening thought, however qualified as impropriety, as a wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications start arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of notional~deprocrypticism prospective relative-ontological-completeness of reference-of-thought is restored by doing away with ‘ontological-veridicality tolerance as stretched-truth’ and articulating a ‘mental break-in’/preconverging-or-dementing—apriorising-psychologism of positivism—procrypticism meaningfulness-and-teleology at its procrypticism uninstitutionalisation as of
disjointedness-as-of-reference-of-thought from notional-deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, just as we’ll appreciate that were the animists insistent say on relating to the plane as God-of-plane to a point implying their potential non-transcendability as of psychoanalytic-unshackling in due course, ‘ontological-veridicality tolerance as stretched-truth’ is no longer warranted but a direct ‘mental break-in’/preconverging-or-dementing—apriorising-psychologism by a demonstration to uphold ontological-veridicality. Such a demonstration might be construed as of a simple paper plane demonstration of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity principles or extraordinarily a flight from the flight deck with explanation or more extensively articulating that things work by natural causes and effects with no spirits inside them thus implying that a positivism-centered meaningfulness-and-teleology is more ontologically pertinent. Certainly such a ‘mental break-in’/preconverging-or-dementing—apriorising-psychologism demonstration with regards to our procrypticism reference-of-thought as of its disjointedness-as-of-reference-of-thought construed from a notional-deprocrypticism reference-of-thought perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights will look weird to us going by our circularly pervasive <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag procrypticism–or–disjointedness-as-of-reference-of-thought, but it is more of ontological-veridicality/intrinsic-reality even though we are unhabituated to it since it is beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought and not yet by social universal-transparency –{transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness }.

But that is technically/abstractly speaking inappropriate from an ontological-veridicality perspective requiring unassailability/reliability/dependability at uninstitutionalised-threshold. As explained elsewhere and implied above it is the conceptualising (by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation) of a reference-of-thought—categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as of apriorising/axiomatising/referencing—{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness —in {preconverging—dissentailment by}—postconverging entailment that enables such a certitude at uninstitutionalised-threshold of an epistemic-totalising—devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality by its specific institutionalisation. This is an uninstitutionalised-threshold\[102\] situation which is necessarily beyond-the-consciousness-awareness-teleology\[99\] \(\langle\text{in-preconverging-existential-extrication-as-of-existential-unthought}\rangle\) and without social\[103\] universal-transparency\[104\] \(\langle\text{transparency-of-totalising-entailing,-as-to-entailing-}\langle\text{amplituding/formative–epistemicity}\rangle\text{totalising–in-relative-ontological-completeness}\rangle\) of the visitor. This example is exactly along the lines of the reference-of-thought–categorical-imperatives/axioms/registry-teleology\[100\], for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\[99\] needed for construing postlogism\[77\]/psychopathy and conjugated-postlogism\[77\] as of its social model at uninstitutionalised-threshold\[102\], and so by way of\[55\] maximalising-recomposuring-for-relative-ontological-completeness\[87\]—unenframed-conceptualisation (the latter is what sets up apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments and is of imbricatedness/threadedness/recomposuring attendant–ontological-contiguity\[100\]—educed–existentialising/contextualising/textualising-contiguity\[40\]–reifying-or-elucidating-of-prospective-relative-ontological-completeness -of-reference-of-thought-devolving-as-of-instantiative-context>, in contrast to elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside—attendant–ontological-contiguity\[87\]—educed–existentialising/contextualising/textualising-contiguity\[40\] which is what renders-operant/incidenting predicative-insights). It is only then that such an established institutionalisation framework allows for elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside—attendant–
ontological-contiguity on the basis of the established reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology before the institutionalisation of such a specific uninstitutionalised-threshold takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity. At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ of positivism–procrypticism that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticim or ‘disjointedness-as-of-reference-of-thought’–as-misappropriated–meaningfulness-and-teleology going by the visitor’s relative-ontological-incompleteness–reference-of-thought as of positivism–procrypticism, while the explainer of the situation has factored in notional–deprocrypticism–reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology to preempt the induced procrypticism or ‘disjointedness-as-of-reference-of-thought’–as-misappropriated–meaningfulness-and-teleology from the childhood psychopathy slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of notional–deprocrypticism–reference-of-thought–categorical-

While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism condition of the child. Likewise, a visiting stranger in such a non-positivistic social-setup might just as well have a similar reaction as the visitor in a positivism–procrusticism social-setup by believing and reacting to the childhood psychopathy manifestation as the non-positivism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity~in-reification/dereification entertains/is-cognisant-and-integrative-of/is-in-notional-contiguity/epistemic-contiguity <profound-supererogation of-mentally-aestheticised~postconverging/dialectical-thinking –qualia-schema>, with superstitious claims in its ‘meaningfulness-and-teleology’. as of notions-and-accusations-of-sorcery and positivism social-setup as of psychopathy and social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-aftereffect/aftereffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism\textsuperscript{77} individuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-positivism in lieu of an ontologically-veridical positivism\textsuperscript{8} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{19}, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99} and a conventioning positivism–procrypticism as procrypticism in lieu of an ontologically-веридичдeal notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{83}, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99}. That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism\textsuperscript{77}/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to reference-of-thought– of-apriorising/axiomatising/referencing\textsuperscript{30} as undermining apriorising/axiomatising/referencing–of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-disentailment–by}–postconverging-entailment induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness\textsuperscript{88}–of– reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism\textsuperscript{77} as conjugated-ignorance’ is rather inclined to wrongly imply a
‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed

desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the
fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy’. The

In other words, prospective relative-ontological-completeness-of-reference-of-thought is ‘precedingly/supersedingly dementatively/structurally/paradigmatically cogent and comprehensive framework of meaningfulness-and-teleology’ such that any arising temporal disruption of

The implication at the registry-worldview level is that base-institutionalisation ‘wholly carries all the meaningfulness-and-teleology\(^9\) that can be as of intrinsic-reality/ontological-veridicality’ over a state of recurrent-utter-uninstitutionalisation, and likewise for universalisation over base-institutionalisation–ununiversalisation, positivism over universalisation–non-positivism/medievalism, and in our case futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^9\) as of prospective notional–deprocrypticism over our positivism–procrypticism. The point here is to highlight that [apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }— conflatedness\(^5\) in {preconverging-disentailment–by}–postconverging-entailment’ doesn’t imply any symmetrisation of meaningfulness-and-teleology\(^9\) with regards to perversion-and-derived–perversion-of–reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(\geq\) since the latter is de-mentatively/structurally/paradigmatically not logically-due for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation in the very first place as is erroneously assumed by temporal projection mental-reflex. But rather, it implies an utter de-mentative/structural/paradigmatic reconstrual of meaningfulness-and-teleology\(^9\) as of intrinsic-reality/ontological-veridicality wholly by the intemporal projection of the prospective relative-ontological-completeness\(^5\)-of-

due to relative-ontological-incompleteness of reference-of-thought, and specifically in the case of positivism–procrypticism, due to disjointedness-as-of-reference-of-thought. This equally underlies on the basis of dynamic-cumulative-aftereffect/aftereffect at the individuation-level and registry-worldview/dimension-level of analyses the notion of ‘decentering’ as of de-mentation—supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics, as the idea of value-reference if wrongfully ontologically construed as determined by the <amplituding/formative> wooden-language as imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of-'nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications> as respectively non-positivism reference-of-thought or as procrypticism reference-of-thought, then in effect the phenomena of non-positivism/medievalism postlogism like notions-and-accusations-of-sorcery as well as psychopathic-postlogism -and-its-social-integration as of our procrypticism–or–disjointedness-as-of-reference-of-thought will respectively be wrongfully construed to be of existential/ontological transcendental-enabling/sublimating/supererogatory–de-mentativity veracity. The bigger point being that symmetrisation implying mutual recognition of reference-of-thought can only arise where there is mutual appropriateness-of-reference-of-thought-as-of-conflatedness as existential/ontological transcendental-enabling/sublimating/supererogatory–de-mentativity veracity thus enabling the logical-dueness of both interlocutors to arise as of their soundness-or-ontological-good-faith/authenticity of-reference-of-thought in the very first place, notwithstanding thereafter the appropriateness or inappropriateness of the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation exercise which is then an altogether different issue of effective/ineffective logic as prelogism-as-of-conviction,-in-profound

both instances, such an apparently naïve intellectual disposition will point to relative intellectual impertinence at best, and at worst conscious ontological-bad-faith/inauthenticity angling to cynically undermine universal veracity/ontological-pertinence as of the opportunity of implying poorly objectifiable-as-desubjectifiable/subjectified incidental analysis as pre-eminently of universal import. Anecdotally, we know as of our uninstitutionalised-threshold that in effect the technical constraints of the law tend to supersede the spirit of the law as it is naïve to think that a ‘sense of rightness’ is all that matters before the law, and this extends to human meaningful and organisational principles in
general. Such that temporal-dispositions fulfilment of such ‘mechanistic’ effectiveness as mechanical-knowledge ‘without the non-constraining and abstract organic mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the emanant-kind that-had-driven the reference-of-thought construal in the first place’ distort in due course organic meaningfulness-and-teleology, as of temporal mental-dispositions of shortness-of-register-of meaningfulness-and-teleology. Thus such implied prospective reference-of-thought, social organisations and institutions as organic meaningfulness-and-teleology then tend to develop ‘subcultural reorientations’ that are ‘mildly alien’ and ‘on-occasional gravely alien’ to the (especially in the extended-informalities of the social and institutions) original organic-knowledge conceptualisation as of the implied prospective reference-of-thought social and institutions meaningfulness-and-teleology. The statements articulated priorly (before the square brackets texts digression) speak of the
mental complex that only serves ‘flawed egos’ and is of no ontologically-veridical import). The point of this distinction made between the nature of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ registry-worldview’s/dimension’s reference-of-thought and ‘human temporal uninstitutionalised-threshold mental-disposition’ registry-worldview’s/dimension’s reference-of-thought, as of prospective ontological-normalcy/postconvergence is to put into perspective the idea that the present and as of our present social construction and individuations as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly implied exception rather being a confusion between ‘cumulated institutionalisation’ (which we carry by being secondnatured at the backend in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process as of human limited-mentation-capacity-deepening leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporality/longness (which overall is no more greater than that of humans of previous -successive registry-worldviews/dimensions); and further that we are just of the same ‘human temporal uninstitutionalised-threshold mental-disposition’ as all humans past when it comes to making solipsistic choices at uninstitutionalised-threshold, which choices when of intemporality-drive solipsistic-choices are maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation leading to prospective institutionalisations. This notion of human mental-disposition and by extension meaningfulness-and-teleology as comprising, rather as a more complete and grander
conceptualisation, a registry-worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold facet, so construed by metaphysics-of-absence \{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>\}, carries institutionalisation and uninstitutionalised-threshold implications with respect to the determination of ontologically-veridical meaningfulness-and-teleology as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. Such metaphysics-of-absence \{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>\} considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold implications with respect to ‘a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’), like deferential-formalisation-transference, ordered-construct, percolation-channelling-<in-deferential-formalisation-transference> and transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’. Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic meaningfulness-and-teleology (as ‘moulting’ firstnature/intemporal conceptualisation of what developed to become today our scientific
practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific meaningfulness-and-teleology as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity), given the social non-positivism/medievalism uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-awareness-teleology existential-extrication-as-of-existential-unthought. This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality mental-disposition that conceive of positivistic meaningfulness-and-teleology in the uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of causality~as-to-projective-totalitative~implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling-<in-deferential-formalisation-transference> possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-
reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory dementativity as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnaturing prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling-in-deferential-formalisation-transference and transversality-for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’. In another respect, with regards to scientific meaningfulness-and-teleology and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory dementativity that induces social deference to formal knowledge constructs and other formal constructs, on the basis that that will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal wooden-language-imbued–averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology–as-of–nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications’ mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative

transcendental-enabling/sublimating/supererogatory—
de-mentativity by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness of reference-of-thought increasingly defer domains of meaningfulness-and-teleology more and more to formal constructs while increasingly reducing the sphere of the extended-informality as of its free-for-all nature. The bigger point being that even in our positivism–procrypticism registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—
de-mentativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific meaningfulness-and-teleology terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—
de-mentativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought}<as-to-

mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding virtue (as of aetiologisation/ontological-escalation), and not ‘human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>} mental-dispositions and projections’. Hence the construal of knowledge construct in such domains that are spurious and blurry as with respect to postlogism /psychopathy social implications should as of precedence be about articulating the illuminating insight that ultimately allows for the attainment of their own deferential-formalisation-transference based on ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions
and projections’, and undermining a social relations with regards to knowledge and virtue that is based on ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} mental-dispositions and projections’, and so in order to release the inherent virtue imbued in true knowledge. The afore elucidations are mainly to point out that it is naïve to construe the analysis of postlogism phenomenon including psychopathy on the assumption of an overall ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social as of the present as metaphysics-of-presence-{implicitied-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness } instead of assuming a ‘human temporal uninstitutionalised-threshold’ mental-disposition’ of the social by prospective metaphysics-of-absence-{implicitied-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}, since the construal of our postlogism as of psychopathy and social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective, reflected from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism registry-worldview’s/dimension’s reference-of-thought. Insightfully, by metaphysics-of-absence {implicitied-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>} we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-positivism/medievalism social-construct mental-disposition is one of human registry-worldview’s/dimension’s institutionalisation of an intemporality ‘-drive whereas in fact it is one of human uninstitutionalised-threshold of temporalities-drives such that it is

The same applies with psychopathy in our positivism–procripticism, as the wooden-language-imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable–void ’—with-regards-to-prospective-apriorising-implications> in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal preconverging–de-mentating/structuring/paradigm 

and not intemporal/ontological/social/species/*universal/transcendental/*maximalising-recomposuring-for-relative-ontological-completeness*—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigm as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as de-mentatively/structurally/paradigmatically superseding the positivism–procripticism registry-worldview/dimension vices-and-impediments*! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of being at the backend in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity*—of-the-human-institutionalisation-process* of institutional—

Interestingly, supposed by some circumstance an individual of a positivistic insight found themselves in a non-positivistic community, whether base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness\textsuperscript{}\textsuperscript{of} reference-of-thought, by ‘intemporal-prioritisation-of reference-of-thought’–as-conflatedness\textsuperscript{12}–or-ontological-reprojecting its mental-disposition will be to unleash its\textsuperscript{55} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{97}–unenframed-conceptualisation intemporality\textsuperscript{52}–drive to supersede the non-positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{\textsuperscript{\associationsymbol}} that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more
than just the circumstantial situation will equally appreciate that positivistic thinking over
animistic or medieval thinking will go a long way in improving the community’s existence. It is
interesting to grasp the difference in the dereifying and reifying construal of attendant–
ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity here
between the non-positivists mindsets and the positivist mindset as of underlying relative-
ontological-incompleteness and relative-ontological-completeness reference-of-thought
and respectively as of their divergent non-positivists dereification perspective and positivist
reification perspective; as seeing the positivist stranger walking into the supposed ‘evil forest’
will be the confirmation for members of the non-positivist social-setup of its viciousness-or-
supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into
the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-
supernaturalness-or-evil-disposition going by their supernatural conception of attendant–
ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity –in-
reification/dereification as of their prior relative-ontological-incompleteness of reference-

equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism–
procrypticism registry-worldview/dimension as of its prior relative-ontological-
incompleteness of reference-of-thought, as the notion of proof/evidence is more critically

notional-contiguity/epistemic-contiguity of-mentally-
aestheticised-postconverging/dialectical-thinking in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter meaningfulness-and-teleology as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the universal ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the de-mentative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness of reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ; with the implication that such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning contortion is rather in transversality-for-sublimating—existential-eventuating/denouement—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ of the prior relative-ontological-incompleteness of reference-of-thought and the contorted prospective relative-ontological-completeness of reference-of-thought from their respective existentialism intelligibility stances. This contortion as of prospective relative-ontological-
completeness’ -of- reference-of-thought projection is what marks ‘transcendental acts of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and- apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis- or-acumen/asceticism’ as of reasoning-through/messianic-reasoning’ whether of philosophical implications as with say Socrates or philo-religious implications as of postconverging- nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because inherently the state of prior relative-ontological-incompleteness -of- reference-of-thought ever always fails to accompany prospective state of prospective relative-ontological- completeness’ -of- reference-of-thought but for the induced crossgenerational transcendental metaphoricity’ possibility, and the contortion is more of a token as of the metaphoricity’ possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de- mentativity and without which token contortion there is ‘no existential reference for such transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, as a gesturing of metaphoricity’ that is ‘beyond the prior relative-ontological-incompleteness’ -of- reference-of-thought full ’meaningfulness-and-teleology’ implications contemplation’. The contortion implies that there is ‘nothing any more important than upholding the metaphoricity’ possibility for prospective relative-ontological-completeness’ -of- reference-of-thought’; as transcendental instigation can’t be of ordinary inclination at one moment and at another moment of transcendental inclination, as this will only ‘teleologically-degrade and devalue’ the implied prospective relative-ontological-completeness’ -of- reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into the ordinariness of prior relative-ontological-incompleteness’ -of- reference-of-thought thus psychoanalytically/exegetically/symbiologically existentially undercutting the token contortion existential reference for prospective relative-ontological-completeness’ -of- reference-of- thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Thus
ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ only evolves into such asceticism as of contortive metaphoricity gesturing for prospective relative-ontological-completeness-of-reference-of-thought as of post-converging-nonextricatory-existential-preempting-of-existential-unthought; and has historically acted as a sort of internal cultural diffusion disposition. Such a prospective ontological conception of asceticism rather as of reasoning-through/messianic-reasoning asceticism, different from asceticism as reasoning-from-results/afterthought or institutional asceticism, should basically be understood as of the general notion that all human meaningfulness-and-teleology are naturally ‘correlate-aesthetic-constructs as of the various reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation in successive prior relative-ontological-incompleteness—towards-ontological-completeness of deprocrypticism’ as of their specific reflection of the very-same-immanent-existence/intrinsic-reality/ontological-veridicality—as-to-human-amplituding/formative—epistemicity—totalising—purview—of-construal’ (just as implied with the case highlighted herein of the ‘ill-health amplituding/formative—epistemicity—totalising—devolved—purview/domain—of—construal—as—intrinsic-reality/ontological-veridicality/existential-reality’); and are so derived as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being—as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance—including-virtue—as-ontology’ equivalence/correspondence with the full-potency-of-existence’s—sublimating—nascence—as—of—its-coherence/contiguity’ and construed as of ontologically-veridical difference-confinedness—as-to-totalitative-reification—in-singularisation—as-to-the-nondisjointedness/entailment—of-prospective—nonpresencing—as—veridical-epistemicity—relativism—determinism; with the

hermeneutic/reprojecting/supererogating/zeroing psychology is necessarily cognisant and departs from a construal of the fundamental instigation of human knowledge and emancipation as of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ parrhesiastic asksis-or-acumen as of reasoning-through/messianic-reasoning’, as establishing in the very first place the prospective relative-ontological-completeness reproducibility—mathesis/motif/thrownness-disposition,—as—reproduciability-of-aestheticisation for reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so prior to assumed ‘meaningfulness-and-teleology’ aposteriorising/logicising/deriving/intelligising/measuring. Hence such a notion cannot be construed on the basis of ordinarily assumed ‘meaningfulness-and-teleology’ aposteriorising/logicising/deriving/intelligising/measuring which doesn’t put into question its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it is rather submerged/drowned into it by mental-disposition reflex; but rather as implied as of reasoning-through/messianic-reasoning, such a hermeneutic/reprojecting/supererogating/zeroing psychology is more about instigating a parrhesiastic psychoanalytic-unshackling soul-searching acumen. notional-deprocrypticism is very much alien to our positivism–procrypticism cloistered-

necessarily faces the fact that the human mind is ever always entrapped in an existentially-

We can appreciate that the psychoanalytic-unshackling of all prior registry-worldviews/dimensions reference-of-thought is rather one that shouldn’t wrongly be reinforcing/propping-up the human subject as if a given reference-of-thought in prior relative-ontological-incompleteness as of dissingularisation as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness /epistemic-nonimmanence/flawed-epistemicity-relativism-determinism has its very own complete transformative and emancipative potential as if of fully-attained singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemicity-relativism-determinism, but an ontologically-veridical psychology rather warrants implying the human subject displacement/decentering as the de-mentative/structural/paradigmatic possibility of the human subject emancipation with regards to the successive prior relative-ontological-incompleteness registry-worldviews/dimensions superegoic vices-and-impediments; wherein postconverging-or-dialectical-thinking apriorising-psychologism reasoning-from-results/afterthought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation at its uninstitutionalised-threshold is construed as preconverging-or-dementing—apriorising-psychologism as of prospective postconverging-or-dialectical-thinking apriorising-psychologism reasoning-through/messianic-reasoning reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation up to the prospective ontologically-uncompromised—referentialism of deprocrypticism. But then the human reality across all registry-worldviews/dimensions, isn’t inherently ‘of immediate intellectual responsiveness’ to the notion of its uninstitutionalised-threshold and the corresponding superseding of this as of prospective institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus, but then paradoxically from the beginning of times superstitious beliefs had pervaded all the echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ of human ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating meaninglessness-and-teleology/reference-of-thought-devolving. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its preconverging-or-dementing–apriorising-psychologism uninstitutionalised-threshold which it tends to represent as nondescript/ignorable–void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing–narratives), for the possibility of its prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity into prospective institutionalisation. This reality is known as human ‘supererogatory–de-mentative constraint’ to prospective
institutionalisation transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of the possibility of prospective relative-ontological-completeness reference-of-thought. Human supererogatory-de-mentative constraint is fundamentally associated with poor universal-transparency -{transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } with respect to social-stake-contention-or-confliction at uninstitutionalised-threshold. This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of <amplituding/formative> wooden-language (imbued—temporal–mere-form/virtualities/dereification/akrasiatic-

Thus as of the more critical insight that prospective relative-ontological-completeness reference-of-thought is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness, for resolving a given registry-worldview/dimension vices-and-impediments; this notion of human supererogatory-de-mentative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as implied by a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ that emphasises the ‘Lacanian subject’ growth as of de-mentation–supererogatory–ontological–de-mentation-or-dialectical–
a human disposition to decontortion at uninstitutionalised-threshold arise on the naïve basis that human temporal willing/volition can effectively supersede the ontological integrity/veracity of meaningfulness-and-teleology as it reflects existence’s coherence/contiguity as of singularisation-projected epistemic-immanence/veridical-epistemicity-relativism-determinism. But then such a decontortioning disposition as can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitional of our uninstitutionalised-threshold where we are actually preconverging-or-dementing—apriorising-psychologism and prospectively dialectically-primitive, notwithstanding our attendant ontological-contiguity—of-the-human-institutionalisation-process can thus be construed as one of increasingly undermining the human subject temporal decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness; wherein across the successive institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism, decontortion is ontologically-constrained both as of the ‘dynamic construal of appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal of appropriate-as-intemporal existential human mental-disposition’. The former is ontologically-constrained as of causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing,—for-explicating-ontological-contiguity in undermining the human temporal inclination to phenomenality/phenomenal-manifestation decontortion, while human temporal mental-
disposition for decontortion is additionally ontologically-constrained with availability of
universal-transparency {transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness }.
Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural
sciences is hardly subjected to decontortion while relatively subjective
phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to
decontortion as of blurriness and emotional-involvement. In another respect the implications of

has implications with the ontological-performance <including-virtue-as-ontology> as of the
effective productivity potential of human knowledge construction. In this regard, it is herein
contended that the historically recurrent critique of naïve formalisation particularly in many a
field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology
and epistemology naïvely construed as of inherent transcendental signifier’ such as in the
analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as
well as many a natural science domain, that purport to conceptualise complex social
meaningfulness-and-teleology in naïve naturalistic methodology terms, all arise because of a
flawed predisposition to identitive-constitutedness as-‘epistemic-totality’-dereification-in-

as its very own transcendental signifier which ultimately manifestly–as–inherently enables transcendence–and–sublimity/sublimation/supererogatory–de-mentativity as the very essence of knowledge. This has led in many ways to a dissonance between their knowledge productivity implications and existential reality wherein for instance psychological and psychiatric science seems to imply that all along its practice human psychological illnesses have multiplied many
times over as of ever transforming and expanding formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care–and–episteme. Such an approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather abstract as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant–ontological-contiguity—educated—existentialising/contextualising/textualising-contiguity. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already preceding/superseding as of ‘ecstatic totalising-entailing/nested-congruence’, with the consequence that it naively construes of reification as simply projecting ‘the supposedly reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality and thus misrepresenting, denaturing and producing relatively ontologically-flawed ‘meaningfulness-and-teleology’. Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness /relative-ontological-completeness {sublimating–referencing/registering/decisioning,—as-self-becoming/self-conflatedness/formative–supererogating—<projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence>} with respect to temporal-to-intemporal ontological-performance /<including-virtue-as-ontology> which is what enables the reification of

In this regard for instance, the well-articulated Foucauldian discourse of ‘speech activity’ conceptualisation associated with the notion of parrhesia more critically enables its knowledge-reification–gesturing<in-prospective_psychologismic–apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity \}——conflatedness —in—\{preconverging-disentailment by\}—postconverging-entailment> with regards to the possibility of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as can be projected from an Ancient Greece context right up to our modern and futural context in contrast to say analytic philosophy ‘speech act’ which by its atomising/taking-to-pieces formalisation orientation is in many ways by its mere denotative/connotative apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity \}——constitutedness —in—\{preconverging-disentailment by\}—postconverging-entailment connotative nature of ‘speech activity’ discourse as of its contextualising ecstatic-totalising-entailing/nested-congruence; such that the former assumes rather an identitive-constitutedness|‘epistemic-totality'|dereification-in-dissingularisation<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > -as-flawed-epistemicity-relativism-determinism<amplituding/formative-epistemicity>causality—as-to-projective-totalitative–implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity posture as of atomising/taking-to-

It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-commitment \( \text{\textit{implied—self-assuredness-of-ontological-good-faith/authenticity}} \) \text{\textit{~postconverging–de-mentating/structuring/paradigming}} \text{\textit{as-being-as-of-existential-reality}} \text{\textit{in producing knowledge as ‘meaningfulness-and-teleology’}}; \text{\textit{such that critically, appropriate philosophical phenomenal insight with regards to ‘the general and normal day to day experience about living itself’ as of observational and articulated ontological-pertinence sufficiency, and as supplemented with the grasp and engagement with other philosophical works, speaks of veridical scientific insight and validity subject to \( \text{\textit{amplituding/formative–epistemicity}} \text{\textit{causality}} \text{\textit{as-to-projective-totalitative–implications-of-prospective- nonpresencing,–for-explicating-ontological-contiguity}}, \text{\textit{and so because such well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’ in the philosophical domain-of-study is generally more ontologically profound and comprehensive as of apriorising/axiomatising/referencing–\{of-attendant–}} \) \}

Insightfully, while in many ways such an elucidation hardly needs to be explicited in many a natural science domain-of-study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of <amplituding/formative–epistemicity–causality ~as-to-projective-totalitative–implications-of-prospective–

The fact is notwithstanding the ‘onticising specifisms of existence’s ecstatic manifestation’ of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity

In this regards, such hermeneutic/reprojecting/supererogating/zeroing and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the de-mentative/structural/paradigmatic possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel\(^\textit{10}\) universalising-idealisation that ‘runs-through/is-deflating’ by its evental \(-\text{instigation}\) traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced\(^\textit{10}\) universalising-idealisation transformative \(^{5}\) meaningfulness-and-teleology\(^\textit{9}\) infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a\(^\textit{7}\) presencing—absolutising-identitive-constitutedness\(^\textit{13}\)
orientation that Socratic-philosophers were institutionally ‘anti-democratic’, going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning-(as-devoid-of-attendant-ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity ’s–reifying-or-elucidating-of–’prospective-relative-ontological-completeness ’;–so-rather-enabled–by-a–nonpresencing–divulging-of-momentous–historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–’epistemicity-relativism–determinism’> as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic-philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the comprehensive process of our modern democracy’ such that modern-day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human ‘meaningfulness-and-teleology’ is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-

Likewise, the transformative nature of budding-positivism more than just as garnered from the precised
narrative accounts about budding-positivist thinkers, lies more profoundly with its meaningfulness-and-teleology infrastructure impact on the developing enlightenment social developments and as this budding-positivism metaphoricity epistemic-ricochettingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic/reprojecting/supererogating/zeroing insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional

This will explain why the ontological-contiguity—of-the-human-institutionalisation-process as of ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology aestheticisation’ is ‘highly parrhesiastically economical’ as reflected in the overall ontological-contiguity—of-the-human-institutionalisation-process ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation’; wherein only the perception of unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance—<including-virtue-as-ontology> of prior reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation epistemic-ricochettingly/transepistemically elicits ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’. This is so because given the taxingness-of-originariness any such ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ has to resolve considerably unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance—<including-virtue-as-ontology> of prior reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation for such ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology aestheticisation’ underlying ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ to be worth the epistemic-ricochetting/transepistemicity effort, with the preference for any such effort rather directed at the complexification of the prior reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation. This will explain for instance why as of the furtherance in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process, the ‘institutional-development—as-to-social-function-development’ ‘meaningfulness-and-teleology’ aestheticisation’ with regards to language development hasn’t warranted any ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above human ‘meaningfulness-and-teleology’ aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility {imbued-and-

Another criticism is the inclination for such atomising/taking-to-pieces formalisation predisposition to start out with ad-hoc disparate conceptualisations as of identitive-constitutedness—as-‘epistemic-totality’—dereification-in-dissingularisation—<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > -as-flawed-epistemicity-relativism-determinism that often poorly reflect the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality rather than the contrary approach that delves directly in attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity and then reifies-out conceptualisations.
as of difference-conflatedness\textsuperscript{13} as-to-totalitative-reification-in-singularisation-as-the-nondisjointedness/entailment-of-prospective-nonpresencing-as-veridical-epistemicity-relativism-determinism. The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very wooden-language-imbued-averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications that is supposed to be reified but now under the sterile/anecdotal imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural reification/elucidation projection as from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought, failing to factor in the attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality, wherein the
constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-teleology /knowledge as of knowledge-reification–gesturing–in–prospective-psychologismic–apriorising–axiomatising–referencing–{of-attendant–ontological-contiguity ~educted–existentialising/contextualising/textualising-contiguity } conflation –in–{preconverging-disentailment-by}–postconverging-entailment’, as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and not presuming-and-skirting-around them, before further expanding on the elucidation/reification of their manifestations as validated or can be falsifiable by <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of–prospective–nonpresencing–for-explicating-ontological-contiguity; or otherwise this simply leads to a loss of the sense of ontologically-veridical reality. Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational knowledge state with respect to the possibility for prospective social transcendence-and-sublimity/sublimation/suberogatory–de-mentativity, induces a penchant for flawed intellectually supplementing rhetoricisation rather than reification as well as naïve focussing on disparateness of conceptualisations-and-interpretations as of lack or poor constraining <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of–prospective–nonpresencing–for-explicating-ontological-contiguity disposition rather than an orientation towards the ‘transversality<for-sublimating–existential-eventuating/denouement>--of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ or transversal-analysis-towards-validatory-selectivity-

Such a construal of relative truth doesn’t imply a lack of commitment in truth, but is utterly the contrary as of ‘a much more critical and ontologically decisive commitment to truth and growing truth’ as any pertinent critique can garner in Foucault’s truth-delogocentering works/research-programme and its extensive interpretational citability in other scholarly works/research-programmes as of its scholarly advancing of the humanities and social sciences; as his works/research-programme quest for truth ‘expands the conception of truth beyond our presencing—absolutising-identitive-constitutedness’ amplituding/formative-epistemicity—totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions as if all the world that has ever existed is as of ‘presencing—absolutising-identitive-constitutedness’, and displaces/decenters the human subject as of its ‘presencing—absolutising-identitive-constitutedness’ cloistered-consciousness for a more mature and nuanced conception of truth and the implications of truth; and so, beyond the contemplation of naïve atomising/taking-to-pieces formalisation dereifying rhetorisations that border on amplituding/formative wooden-language—imbued—averaging-of-thought—as-to—

It is herein contended that existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-as-to-perspective—ontological-normalcy/postconvergence-implied-

Thus, in all cases the overall implications for the optimum advancement of human knowledge is most critically about constraining knowledge to attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity elucidation/reification rather than just mere formalisation as of conceptual-patterning for its own sake. The fact is the natural sciences are already naturally constraint to knowledge-reification–gesturing–eloquent–existentialising/contextualising/textualising-contiguity elucidation/reification–formalisation as of conceptual-patterning for its own sake. Consider in this regard the implications of interpreting natural science transcendent-enabling/sublimating/supererogatory–de-mentativity knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual-patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about

We can appreciate that the naïve conceptual-patterning of conceptualisations in many a social domain-of-study failing to disambiguate divergent knowledge implications-and-contributions as of knowledge-reification—gesturing <in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness > {preconverging-disentailment by} postconverging-entailment end up transforming subject-matters into descriptive enunciations of weak existentially explanatory and predicative capacity. The entire project of human meaningfulness-and-teleology is nothing but one of creatively elucidating/reifying existence/existential-possibilities, ‘with no out of existence knowledge project’, which is merely delusional. Thus, what is critically missing here is the fundamental constraining reality for creative knowledge-reification—gesturing <in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness > {preconverging-disentailment by} postconverging-entailment>, and so over the mere possibilities for abstracting conceptualisations. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection and appreciation for grasping the attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity reifying gestures of postmodern-thought and other critical theories, and end up often haranguing such orientations by striving to constrain them on the basis of vague abstractions as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity. This
contiguity — conflatedness — in {preconverging-disentailment by} — postconverging-entailment

insight often goes missing with many a subscriber to the formalisation credo, as of reification along the three frames indicated above (as of same scholar interest-of-study, scholars of the same generation interest-of-study and scholars cross-generationally developing interest-of-study). In this regard, the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve conceptual-patterning conception of knowledge; going by their profound association with earlier scholars and more specifically Heidegger and Nietzsche. From a creative knowledge-reification–gesturing<<in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness — in {preconverging-disentailment by} — postconverging-entailment> construal perspective, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual-patterning of concepts originarily/as-of-event available to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual-patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual-patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative knowledge-reification–gesturing<<in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness — in {preconverging-disentailment by} — postconverging-entailment> causality — as-to-projective-totalitative–implications-of-prospective- nonpresencing,—for-explicating-ontological-contiguity of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-
reality/ontological-veridicality,-as-to-‘human<amplituding/formative-epistemicity>totalising–purview-of-construal’, with the intellectual’s job to the best of their abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying-or-elucidating the headway as of ‘repeating/repetition of ^5 maximalising-recomposing-for-relative-ontological-completeness^5—unenframed-conceptualisation for knowledge-reification–gesturing-<in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }= conflatedness ~in-{preconverging-disentailment_by}–postconverging-entailment>, inducing successive differences of ontological-performance^7-<including-virtue-as-ontology> of ^7 meaningfulness-and-teleology^9 as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative-epistemicity>totalising–purview-of-construal’ with increasing prospective relative-ontological-completeness’. This is especially the case where such headway mirrors ‘pure-ontology’ articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a solid ontological pathway just as physicists orientation and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth, in both instances as of their knowledge-reification–gesturing-<in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }= conflatedness ~in-{preconverging-disentailment_by}–postconverging-entailment>. Unlike the apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity ~educated—existentialising/contextualising/textualising-contiguity }—constitutedness in preconverging entailment rampant with human and social conceptualisations, it is important to grasp that conceptualisations in many a natural science domain tend to be naturally as of apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity ~educated—existentialising/contextualising/textualising-contiguity }—conflicatedness in {preconverging—disentailment—by}—postconverging-entailment totalising-entailing/nested-congruence given their theoretical, conceptual and operant existential contiguity/congruence <amplituding/formative—epistemicity> causality as-to-projective-totalitative—implications-of—prospective—nonpresencing—for-explicating-ontological-contiguity with ‘the ecstatic singularity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human<amplituding/formative—epistemicity>totalising—purview-of-construal’ implied with regards to all such seemingly ad-hoc conceptualisations being contiguously reflected across space and time’. We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting
wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. That underlying dynamic theoretical-conceptual-operant interrelatedness speaking of singularity-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism is often very much lacking in many a social domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the same wholeness/nested-congruence nature with many natural science conceptualisations. Immanence-function-conflatedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness and prior relative-ontological-incompleteness is fundamentally flawed as of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }~constitutedness in preconverging entailment, as all the objectifying discursivity that is ontologically-veridical is as of the apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }~conflicatedness in {preconverging–disentailment–by)–postconverging-entailment} of prospective relative-ontological-completeness over prior relative-ontological-incompleteness construed as immanence-function-conflatedness. Thus metaphoricity of non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a positivism mindset registers as of positivism immanence-function-conflatedness reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstitution, spiritualism, etc. This same conception holds with the notional–deprocrypticism immanence-function-conflatedness overriding the ‘meaningfulness-and-teleology’ of procrypticism–or–disjointedness-as-of reference-of-thought mindset ‘supposedly in an objectifying/contending discursivity’ with the notional–deprocrypticism mindset, as the latter reflects the underlying positivism–procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of reference-of-thought. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring, with immanence-function-conflatedness implying that all the meaningfulness-and-teleology is necessarily as of the prospective relative-ontological-completeness over the

Immanence-
function-conflatedness equally highlights knowledge as of its essential organic construct implications. As an apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity–educated–existentialising/contextualising/textualising-contiguity} constitutedness in–preconverging-entailment predisposition tends to imagine that knowledge is basically a cumulative exercise to an already soundly postconvergingly–de-mentated/structured/paradigmed mindset, but nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-reshaping-as-transforming the postconverging–de-mentating/structuring/paradigming of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God-of-plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness–of–reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of
while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a ‘construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive research-programme implications’, but this should however implicitly reflect concurrently the underlying notions of falsifiability\textsuperscript{12} -or-deferring-falsifiability\textsuperscript{12} and validation-or-deferring-validation. It is herein contended that it is the implicated orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough knowledge-reification–gesturing\textsuperscript{<in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflicatedness ~in–\{preconverging-disentailment~by\}–postconverging-entailment> in their scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes’ turn out to be of weaker existential ramifications. This insight equally informs the supplanting–conviction-as-to-profound-supererogation of ‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism herein that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further knowledge-reification–gesturing\textsuperscript{<in-prospective_psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—}}

Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-faith/inauthenticity criticism exactly because of its strong scholarly research-programme attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity, and thus an immanence-function-conflatedness insight in the study of the social as of its inherent complex nature is certainly justified to adhere to a research-programme epistemic model as herein articulated. In another respect, while intellectualism as of organic knowledge implications in many ways commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-threshold, human existential-investment as of its temporality /shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent in the sense that transcendental knowledge is articulated mostly as of its undermining of human temporal existential-investment. The bigger point here being that the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity lies in upholding-and-defending authentic intellectualism even as of metaphoricity beyond wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>} socially intelligible ‘meaningfulness-and-teleology conceptualisation in <amplituding/formative—
Epistemicity as such ironises on social intellectual nihilism as it is bent on undermining any temporality /shortness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality solipsistic intemporal /longness parrhesiastic askance, and as of immanence-function-conflatedness highlights and keeps wide-opened the prospect’ for prospective authentic intellectualism by undermining its blending with inauthentic untransvaluated–temporal-intemporal manifestations that usurp and undermine human transcendence-and-sUBLImity/sublimation/supererogatory de-mentativity. Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procrypticism social-setup to perceive our positivism–procrypticism humanistic knowledge system as absolute; it is immanence-function-conflatedness by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions reference-of-thought. With such immanence-function-conflatedness insight, the epistemic and methodological pretences as of our humanistic positivism—
procrypticism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic postconverging–dementating/structuring/paradigming as of their ultimate knowledge-reification–gesturing as knowledge; such that the immediacy of contention of appropriateness of epistemic and methodological approaches is less critical, as ultimately all knowledge constructs and their epistemic and methodological commitments face their long term bottomline reevaluation as to their relative knowledge construed as their research-programmes. This speaks of the fact that such a conception of epistemic commitment as of research-programme is effectively one of epistemic singularisation as to the nondisjointedness/entailment of prospective nonpresencing projected epistemic-immanence/veridical-epistemicity-relativism-determinism so-implied as of ontological-normalcy/postconvergence associated with ontologically-uncompromised—referentialism deprocrypticism; and very much overcoming the limiting effect of our present
conception of epistemic commitment as rather dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-
institutional backing for research needing major funding and/or resources. Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence-and-sublimity/sublimation/supererogatory–de-mentativity wouldn’t be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs as to conflict with the naïve social ‘sense of presence’ as absolute, and so because it is all about the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human’amplituding/formative–

It is quite absurd to think that the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity especially, as of our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, lies wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the

transcendence-and-sUBLImity/sublimation/supererogatory–de-mentativity. While today that
notion of contrariety has in many ways sanked in and been accepted with natural science
knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter
is that the possibility of the profound study and emancipation of the social inevitably comes
with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was
what brought about the positivistic mindset today that allowed for modern-day science to
develop and just as well modern-day social science, it is inevitable that a further development
of human knowledge as of its organic knowledge construct warrants a further ‘decentering of
the human subject’ as implied by ‘deprocrypticism–or–preempting—disjointedness-as-of-
reference-of-thought; and justified by the fact that if previous generations had to undergo their
psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed
into the corner of our intellectual nihilism when we seem to pretend that we are beyond the
prospect of our transcendence-and-sUBLImity/sublimation/supererogatory–de-mentativity.
Immanence-function-conflatedness analytical implications equally arise as of the
‘countervailing transversality<for-sublimating–existential-eventuating/denouement>–of-
affirmative-and-unaffirmative–disambiguated–motif-and-
apriorising/axiomatising/referencing’ relation induced as of <amplituding/formative–

what validates epistemic-veracity as of prospective relative-ontological-completeness as
relevant for the protracted-consciousness of notional–deprocrypticism. Thus for such a notion
of research-programme as articulated herein rather than just implying mere epistemic

precedence of prospective relative-ontological-completeness<amplituding/formative–

inherently projects a ‘practical picture of human epistemic determination’ of ‘maximal
prospective-nonpresencing,-for-explicating-ontological-contiguity. Central to such epistemic-veracity thinning out is the very essential process behind increasing ontological-contiguity—of-the-human-institutionalisation-process which is deferential-formalisation-transference. Besides deferential-formalisation-transference associated epistemic-veracity relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such deferential-formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient <amplituding/formative>wooden-language⟨imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications⟩epistemic impertinence. Prospective notional-deprocrypticism necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological-completeness—of-reference-of-thought associated <amplituding/formative-epistemicity>causality—as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity, with the implication that our positivism–procrypticism uninstitutionalised-threshold epistemic-veracity is in many ways construed as of epistemic impertinence at its disjointedness—as-of—reference-of-thought uninstitutionalised-threshold and superseded by futural Being-development/ontological-framework-expansion—as-to-depth-
of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology” as of prospective notional–deprocrypticism disseminative epistemic-veracity and so as the prospective epistemic-veracity thinning out outcome of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity determinant selector as of the deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought disseminative research-programme coherence and ontological-contiguity. The idea being that the notional–deprocrypticism epistemic-veracity as of such disseminative research-programme coherence and ontological-contiguity equally imply an underlying falsifiability–or-deferred-falsifiability and validation-or-deferred-validation as a constraint to the social domain-of-study meant to render it more thoroughly amenable. capable of reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of knowledge-reification–gesturing–conflatedness–in–{preconverging-disentailment–by}–postconverging-entailment for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Such a notional–deprocrypticism epistemic-veracity implication is pertinent because blurriness and un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective function of
prospective- nonpresencing,-for-explicating-ontological-contiguity as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, the ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality-<for-sublimating–existential-eventuating/denouement>–of-affirmative-and- unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ constraining to the ‘superior party’ that is existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their apriorising/axiomatising/referencing- of-attendant–ontological-contiguity educed–

critical because the notional-deprocrypticism reference-of-thought warrants a more originary/as-of-event mental-disposition ‘beyond just responsiveness to secondnatured institutionalisation’ but equally the capacity to assume dimensionality-of-sublimating-⟨amplituding/formative⟩supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equality⟩ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen behind the ‘inventing’ as of reasoning-through/messianic-reasoning with respect to ‘upholding and defending ontological-veridicality beyond constraining-and/or-secondnatured institutionalisation framework’ as well as actually perpetuating prospective ontologically-veridical sublimation-as-of-deprocrypticism-immanented-implications, and so as of a fundamental mental-disposition for perpetually preempting—disjointedness-as-of-reference-of-thought. With the foregoing immanence-function-conflatedness insight, of most critical importance and decisiveness as dementatively/structurally/paradigmatically anchoring futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional-deprocrypticism meaningfulness-and-teleology is the need for a notional-deprocrypticism reconceptualised conception of the human construction-of-the-Self. In this regard, we can appreciate critically that hitherto and as of a natural human predisposition to ⟨amplituding/formative–epistemicity⟩totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the psychology traditions have tended to ad-hocly construe construction-of-the-Self as of a human-subpotency flawed absolutising epistemic reference, and so over an existence-potency–sublimating-nascence,-disclosed-from-prospective-epistemic-digression absolutising epistemic reference, specifically as so-construed from our positivism–procrypticism registry.
worldview/dimension flawed absolutising epistemic reference. The fact that existence/intrinsic-reality/ontological-veridicality precedes human-subpotency thus questions the veracity of the ontological orientation of traditional psychology/psychoanalysis; wherein ‘the human psychology of absolutising epistemic reference is wrongly conceived as of ontological-normalcy/postconvergence rather than as of epistemic-abnormalcy/preconvergence’ considering the necessarily decontorting human-subpotency psyche on the constraint of our ontologically-compromised reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of our amplituding/formative—epistemicity—totalising—thrownness-in-existence. The implication here is that we cannot have a human-subpotency flawed absolutising epistemic reference that as of human-subpotency can surpass the ontological-veracity of the full-potency of existence/intrinsic-reality/ontological-veridicality as absolutising epistemic reference as of ontological-normalcy/postconvergence, and so given human-subpotency prior relative-ontological-incompleteness implied flawed prospective ontological-performance—including-virtue-as-ontology. This element of the dynamic evolution of the human psyche and the underlying instigative agency, herein articulated as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\textsuperscript{1}/ontological-fracturing/desublimation/gimmickiness complex’, is mostly lost to traditional psychology that doesn’t register our own positivism–procrypticism prior relative-ontological-incompleteness\textsuperscript{83}-of-reference-of-thought as of an ontological-normalcy/postconvergence/referentialism notional–deprocrypticism perspective of analysis as of singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>-projected epistemic-immanence/veridical-epistemicity-relativism-determinism. We can perceive the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing\textsuperscript{10}–qualia-schema’ associated with akrasia-susceptibility-or-akrasiatic-drag complex only from the perspective of prospective relative-ontological-completeness\textsuperscript{83}-of-reference-of-thought, and so as of the latter’s difference-conflatedness\textsuperscript{13}-as-to-totalitative-reification-in-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>-as-veridical-epistemicity-relativism-determinism as from the ontological-conguitity of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, as it reflects-and-contemplates of the uninstitutionalised-threshold\textsuperscript{12} of the prior relative-ontological-incompleteness\textsuperscript{83}-of-reference-of-thought
from a prospective positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in this regards, with respect to ‘God-of-plane’ type of expression in an animistic/base-institutionalisation setup wherein their fundamental apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument psychologism is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued/devolved in the animistic/base-institutionalisation apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought psychologism of meaningfulness-and-teleology<sup>99</sup> in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag<sup>34</sup> with its uninstitutionalised-threshold<sup>12</sup> as a nondescript/ignorable–void<sup>56</sup> (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing<sup>20</sup>-narratives) whereas such a representation as a nondescript/ignorable–void<sup>60</sup> wouldn’t be recognised from the positivism/rational-empiricism perspective as of its prospective relative-ontological-completeness<sup>87</sup>–of–reference-of-thought. inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of ‘human-subpotency in its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’], and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical ‘meaningfulness-and-teleology’ implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by <amplituding/formative–epistemicity>causality-~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity]. Thus intemporal ontological-performance-<including-virtue-as-ontology> ever always warrants huma prospective relative-ontological-completeness-of-reference-of-thought for empowering and responsible meaningfulness-and-teleology for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its
vices-and-impediments, and as the very possibility for prospective ontological-performance arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence’s~sublimating~nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human <amplituding/formative–epistemicity>totalising~thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipating possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic wooden-language–(imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology–as-of–‘nondescript/ignorable–void ‘-with-regards-to-prospective-apriorising-implications>]? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance as of human <amplituding/formative–epistemicity>totalising~thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

It is this insight that validates the ontological-veracity of the conception of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self’ /ontological-fracturing/desublimation/gimmickiness complex’, and it is inherently so-validated as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality

Thus, human akrasia-susceptibility-or-akrasiatic-drag complex is rather construed here as of the prior relative-ontological-incompleteness causality as-to-projective-totalitative—implications-of-prospective-nonpresencing,—for-explicating-ontological-contiguity in the shiftiness-of-the-Self as of living, institutional and Being ontological-performance—including-virtue-as-ontology arising as of human temporality wherein ‘human-subpotency temporality’/shortness flawed absolutising epistemic reference’ as it induces flawed ontological-performance by its totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ‘wrongly seem to advantageously substitute’ for the potent as intemporal absolutising epistemic reference ontological-performance of the existence-potency—sublimating—nascence, disclosed from prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality perspective. In this regard, traditional psychology fails a theoretical-conceptual-operant accounting for the changing construction-of-the-Self, as reflected by the fact that ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigating recurrent shot for prospective relative-ontological-completeness as reasoning-

This explains why Socrates construed knowledge as virtue, given that what approaches absolutising capacity in the human is rather the ‘sense-of-right-orientation with regards to human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of existentially-becoming-and-developing phronetic/practicality situations as to existence-potency~sublimating–nascent,-disclosed-from-prospective-epistemic-digression (with anamnesis so-construed as ‘dimensionality-of-sublimating ⟨<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩mental-disposition’) and not any presencing—absolutising-identitive-constitutedness\textsuperscript{14} as reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. This in many ways explains many a critic misinterpretation of a rift between Socrates and Plato as of their emphasis on anamnesis and the forms/ideas on the one hand and Aristotle on the other hand as of his phronesis/practicality emphasis (on the basis of the specific \textsuperscript{10}universalising-idealisation phronetic/practicality situations as to its defining existence-potency~sublimating–nascent,-disclosed-from-prospective-epistemic-digression). The fact is that Socrates (and as momentously reflected in his abhorrence of writing as of his focus on the ‘very spirit-of-things in his pedagogy’ over ‘mere reproducing by writing that is not necessarily pedagogically instructive’, and thus not contradictory with Plato’s writing as of recording-for-posterity) and Plato were more engaged with establishing overall philosophical insight beyond just their \textsuperscript{10}universalising-idealisation renewed reproducibility—

In this regards, Socratic philosophy as of its knowledge is virtue contention recognises that the impression-driven/good-naturedness/wishfulness of any given reproducibility—mathesis/motif/throwness-disposition, as reproducibility-of-aestheticisation whether as of non-universalising sophistry or even prospective Socratic-philosophers universalising-idealisation is not sufficient to ‘absolutely capture’ ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency sublimating–nascence, disclosed from prospective-epistemic-digression, and that such a possibility lies in perpetual knowledge-reification–gesturing-in-prospective-psychologismic–apriorising/axiomatising/referencing {of attendant–ontological-contiguity ~educted–existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment by} postconverging-entailment disposition as of the-Good/understanding/notional–knowledge-reification–gesturing-in-prospective-psychologismic–apriorising/axiomatising/referencing {of attendant–ontological-contiguity ~educted–existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment by} postconverging-entailment / amplituding/formative–epistemicity causality as to projective-totalitative-implications-of-prospective–nonpresencing, for explicating-ontological-contiguity. Thus Socratic philosophy as of its very ‘anamnesis core implications’ doesn’t only supersedes prior

The reality thus is that prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity from a presencing—absolutising-identitive-constitutedness perspective is not actual ‘meaningfulness-and-teleology’ but rather such is rather acting as a constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity —postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality> to which the social-setup cannot overtly turn around and wholly assume a
contradictory nihilistic disposition; with metaphoricity rather inducing prospective meaningfulness-and-teleology mostly as of prospective crossgenerational reasoning-from-results/afterthought. In this regards as of the possibility of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, this author is of the opinion that any intellectual endeavour must precedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural
course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology). Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal—to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence—’–existentialism-form-factor there is an effective mechanism of human registry-worldview’s/dimension’s institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that’s why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when

In the same vein, we tend as of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the de-mentative/structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuation-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance-including-virtue-as-ontology is inherent, the underlying de-mentative/structural/paradigmatic reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance-including-virtue-as-ontology in that individual or institution rather than just identitive inherence. Such an overall prospective institutionalisation metaphoricity constraining is very much unlike what we may naively imagine the prior human meaningfulness-and-teleology to be from an after the fact analysis; since such a process is much more critically more than just ‘mere transmission/spreading of scientific and liberal meaningfulness-and-teleology’ for say a suprasocial or wooden-language–{imbued–averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology–as-of–‘nondescript/ignorable–void’–with-regards-to-prospective-apriorising-implications>} human mindset processing’, but critically was an epistemic-ricochetting/transepistemicity process that was in many ways beyond-the-consciousness-awareness-teleology–<in-preconverging-existential-extrication-as-of-existential-unthought> unlike our subsequent reasoning-from-results/afterthought contemplation afterwards ‘wrongly implying a metaphoricity as of a self-consciously instigated prior suprasocial or wooden-language–{imbued–averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology–as-of–‘nondescript/ignorable–void’–with-regards-to-prospective-apriorising-implications>} comprehensive sense of prospective metaphoricity’. in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology ricochetting that speaks of the de-mentative/structural/paradigmatic reality of a human epistemic-veracity as of prospective relative-ontological-completeness appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such implied suprasocial or wooden-language mindset not dispensing-with-immediacy-for-prospective-ontological-completeness/contemplative-distension, and so in order to effectively put in perspective the deficiency of epistemic-veracity so-inherent when it comes to prospective metaphoricity implications of operant prospective intemporal individuation transversality-of-affirmative-and-unaffectative-disambiguated-'motif-and-apriorising/axiomatising/referencing’ intemporal projection as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for reasoning-through/messianic-reasoning. Thus metaphoricity as such is a notion that is beyond just simplistic transmission/spreading of prospective meaningfulness-and-teleology as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology as say the commonality of such metaphoricity inclined re-originary-as-unenframed/unbeholdening/outlier-conceptualisation.(imbued-postconverging/dialectical-thinking ‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional-deprocripticism-prospective-sublimation) thinkers sharing a common emancipating metaphoricity mathesis/motif-thrownness-disposition like Socrates, Plato, Aristotle and their schools with their universalisation projection or the Descartes, Galileos, Copernicuses, Newton, etc. with budding-positivism/rational-empiricism. But rather beyond such shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology that is instigative, metaphoricity is critically about the prospective ricocheting postconverging-de-mentating/structuring/paradigmning implications for inducing such prospective meaningfulness-and-teleology implications on the fabric of the social as an epistemic-totality framework (beyond-the-consciousness-awareness-teleology-<in-preconverging-existential-extrication-as-of-existential-unthought>), as the supposedly
coherent ontological-commitment<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality> of ‘self-assuredness-of-ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming~as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ of the social-setup exposes it to such an epistemic-ricochetting/transepistemicity metaphoricity. This is so because in the long run transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ of temporal-to-intemporal–ontological-performance~<including-virtue-as-ontology>~of-narratives is rather as of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective-nonpresencing ~for-explicating-ontological-contiguity selecting/skewing-towards intemporality/ontological-veracity as to existence-potency~sublimating–nascence,~disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup value construct lies somewhere between the possibility of its conventioning-referencing and its presencing—absolutising-identititive-constitutedness Being-development/ontological-framework-expansion~as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, when it comes to assessing the possibility of prospective meaningfulness-and-teleology inducing of metaphoricity. It is not necessarily the case that a society that doesn’t or poorly appreciate the implication of science will value as of immediacy prospective Being-development/ontological-framework-expansion~as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology like the cultivation of science over its conventioning-referencing as a cultural inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting disposition towards the
cultivation of science as in Europe and the Arabic world during the medieval period, or even disparity in ontological progressiveness within the very same societies at various epochs. Thus the assumption that any given society or period is absolutely turned/committed to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology including our modern period, is a flawed appraisal; as in many ways, beyond our perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-threshold as of the privileging of conventioning-referencing over purely prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the implication of the conception of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism metaphoricity in our positivism–procrypticism; as its brings to the self-consciousness the reality that the implication of such a notional–deprocrypticism articulation is bordering on the limits/thresholds of our institutional capacity for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of a privileging of conventioning-referencing disposition to adopt and assume intellectual nihilism at such an uninstitutionalised-threshold; it is herein contended that the reality is similar to that which scuppered Arabic medieval science or scuppered medieval China progressiveness. worldview/dimension social-construct is involved in a constructive (as of its institutionalising disposition) and destructuring (as of its disposition at its uninstitutionalised-threshold) relationship with ontological-veracity, this is exactly what inevitably validates the articulation of ontological-veracity/ontological-veridicality as more completely involving the displacement/decentering-of-the-human-subject priorly as implied with Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative in reflecting the need to undermine human destructuring-threshold

\[ \text{⟨/presublimating–desublimating-decisionality⟩–of-ontological-performance} \]~

\<\text{including-virtue-as-ontology}>\to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completeness implications; reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thus the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness \[\text{as of projected apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity ~educed–}{existentialising/contextualising/textualising-contiguity} \} ==\text{constitutedness} \]−in {preconverging–disentailment by}–postconverging-entailment. This is very much unlike the Ricoeurian narrative theory conception that while of palliative and practical significance is in relative apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity ~educed–}{existentialising/contextualising/textualising-contiguity} \} ==\text{constitutedness} \]−in {preconverging–entailment since it poorly deals with logocentrism implications as of prior relative-ontological-incompleteness on ontological-veracity; as it construes of ‘logocentric habituated social conditions’ as inherently ontological or beyond ontological treatment while failing to countenance the ‘decentering heavy lifting’ involved in undermining ontologically impertinent ‘logocentric habituated social conditions’ in enabling the ontological-contiguity—of-the-
human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology right up to our present, and as of prospective transformative emancipating possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold–{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance\textsuperscript{72}–<including-virtue-as-ontology> nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcedence-and-sublimity/subimation/supererogatory–de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochetting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcedence-and-sublimity/subimation/supererogatory–de-mentativity meaningfulness-and-teleology\textsuperscript{72} whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsche, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold–{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance\textsuperscript{72}–<including-virtue-as-ontology> nature is effectively what underlies in ontologically neutral/objective terms–as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the
ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrpticism prior relative-ontological-incompleteness\textsuperscript{87} human social-stake-contention-or-confliction in disjointedness-as-of\textsuperscript{87} reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms–as-of-axiomatic-construct of the circumstantial social primacy of this temporal framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness\textsuperscript{87} deprocrpticism; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding-positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the \textsuperscript{103}universalisation–non-positivism/medievalism prior relative-ontological-incompleteness\textsuperscript{89} temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness\textsuperscript{87} positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness \textsuperscript{131}by-reification/contemplative-distension\textsuperscript{27} (as of human self-surpassing—existentialism-form-factor,\textsuperscript{131}in-overcoming–notionally–collateralising-befolding-protohumanity’to–‘attain-sublimating-humanity’as-to-existence-potency \textsuperscript{131}–sublimating–nascence,\textsuperscript{131}disclosed-from-prospective-epistemic-digression\textsuperscript{131} to supersede human temporality\textsuperscript{17}/shortness <amplituding/formative>\textsuperscript{131}wooden-language\textsuperscript{131}(imbued—averaging-of-thought–\textsuperscript{131}as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology \textsuperscript{131}as-of–‘nondescript/ignorable–void ’\textsuperscript{131}with-regards-to–
prospective-apriorising-implications>); which will explain in many ways the difficulty of the Copernicuses, Galileos, Descartes', Diderots, etc. so effectively enculturate their budding-positivism. With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction as of its disjointedness-as-of-reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness notional–deprocrypticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporality/longness and temporality/shortness as to human limited-mentation-capacity relative ontological-performance<including-virtue-as-ontology>. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness notional–deprocrypticism that we can appreciate more profoundly the universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of prospective relative-ontological-completeness notional–deprocrypticism herein construed as human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing>; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter’s state very own
deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness^{7}/contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness^{87} positivism/rational-empiricism, we don’t ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is universally emancipating as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\[\{uninstitutionalised-threshold\sqrt{\text{presublimating–desublimating-decisionality}}\}--of-ontological-performance^{72}<\text{including-virtue-as-ontology}> nature inherently points out why human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of intemporal metaphoricity^{77} epistemic pertinence doesn’t lie with any inherent suprasocial framework or
unification of knowledge and virtue, with a deliberate adherence to the derivation ‘akrasiatic’ rather than the traditional derivations ‘acratic’ or ‘akratic’ to mark such a break, and further the term ‘antiakrasiatic’ also along the same lines is further meant to emphasise the underlying idea that akrasia is a ‘notion of lack’ which ‘anti disposition’ as of relative-ontological-completeness is then about superseding the lack, and such relative-ontological-incompleteness is superseded rather as of supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument–for-conceptualisation in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective-nonpresencing,–for-explicating-ontological-contiguity of human limited-mentation-capacity-deepening that goes well beyond a ‘golden mean’/moderation/temperance, etc. behaviour interpretation as implied with ‘enkrateia’ which, as explained and further elaborated elsewhere herein, doesn’t has an ontological-basis as it is rather an impromptu articulation of a sense of desirability but fundamentally lacks the-Good/understanding/notional–knowledge-reification–gesturing–<in-prospective_psychologismic–apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness—in–{preconverging-disentailment–by}–postconverging-entailment/<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective–nonpresencing,–for-explicating-ontological-contiguity reference of ontological-contiguity but for naively and wrongly implying good-natured qualities as being ontological; and such ‘antiakrasiatic disposition’ is more critically reflected as of underlying human ‘intemporal-as-ontologically-veridical/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and—

This destructuring-threshold\textsuperscript{3} (uninstitutionalised-threshold /presublimating–desublimating-decisionality)―of-ontological-performance\textsuperscript{72} ―<including-virtue-as-ontology> analysis effectively points to the fact that human akrasia-susceptibility-or-akrasiatic-drag complex is such a decisive and determinant notion with respect to the human psyche as the critically interceding notion with respect to human social construction-of-the-Self and as it remains a transitive and constant notion in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{58} as to the destructuring implications at uninstitutionalised-threshold\textsuperscript{02} implied human-subpotency epistemic-or-notional~projective-perspective in dissingularisation-<as-to-the-disjointedness/disentailment-of- presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemicity-relativism-determinism relative to existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression epistemic-or-notional~projective-perspective in singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemicity-relativism-determinism. as such an antiakrasiatic analysis of uninstitutionalised-threshold notionally/epistemically
reflects the ontological-contiguity —of-the-human-institutionalisation-process; and so,
similarly as the analysis of prospective possibilities of disease and illness is not about being
pessimistic about the biology of human beings but is notionally/epistemically reflective of the
possibility for the further development and provision of medicine and healthcare, and just as the
projective analysis of lack of science and technology capacity is not about being pessimistic
about human technical development but is notionally/epistemically reflective of the possibility
for the further invention of technologies and scientific discoveries. We can appreciate here that
the very same epistemic/notional conceptualisation with respect to the human subject as with
natural subject-matters elicits in the former high emotional involvement whereas the latter as of
its direct <amplituding/formative–epistemicity>-causality -as-to-projective-totalitative-
implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity elicits
low emotional-involvement, but for the case where with regards to high and conflicting human
social-stake-contention-or-confliction even the natural domain is not immuned from high
emotional-involvement as with the climate change issue for instance. The point being made
here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that
human progress happens anyway, but then such naïve criticism only recounts the fact of human
progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity
implications for prospective human progress’ it fails to account for how human progress occurs
in the very first place or even whether there is any underlying process for its occurrence or non-
ocurrence. Actually, human progress occurs because of effective human constructive
disposition to supersede identified-and-defined destructuring-threshold-\{\text{uninstitutionalised-
threshold } / \text{presublimating–desublimating–decisionality}\}–of-ontological-performance\textsuperscript{72}–
<including-virtue-as-ontology> and as reflected at uninstitutionalised-threshold\textsuperscript{102}. As the
Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently
metaphorising societies didn’t progress on the basis that human progress occurs anyway but
because they effectively superseded their identified-and-defined ontological-performance\textsuperscript{72}–
<including-virtue-as-ontology> destructuring-threshold-\{\text{uninstitutionalised-
threshold } / \text{presublimating–desublimating–decisionality}\}–of-ontological-performance\textsuperscript{72}–
<including-virtue-as-ontology> and uninstitutionalised-threshold \textsuperscript{102}, and it is this difficult task
of crossgenerational mobilisation that enables the prospective constructiveness-of-ontological-
performance\textsuperscript{72}–<including-virtue-as-ontology> for human Being-development/ontological-
meaningfulness-and-teleology , institutional-development–as-to-social-function-
development and living-development–as-to-personality-development. The implicated passivity
behind such reflections that human progress occurs anyway again highlights why the
intemporal mental-dispositions behind the superseding of destructuring-threshold\textsuperscript{72}–

We can appreciate in this regards that the intemporal projection as of base-institutionalisation implies an incisive/edgy
apriorising-teleological-elevation-in-ontological-contiguity beyond recurrent-utter-uninstitutionalisation social-stake-contention-or-confliction as of its ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ in

Ultimately, human de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) is the notion underlying human self-consciousness as of construction-of-the-Self all along in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’. It all arises from the ‘human capacity for decomplexified/uninhibited preconverging-or-dementing—apriorising-psychologism’ in order to then ‘prospectively induce originarily/as-of-event prospective postconverging-or-dialectical-thinking—apriorising-psychologism’. In this regards, we can factor in for instance that more critically rather than construing the prospective reification of the humanities and philosophy for instance in terms of breakthroughs along the lines of say exceptional methods or capacity along the lines of our ‘positivism–procrypticism attendant-ontology—as-of-conventioning-referencing’, the reality of any such transcendence-and-sublimity/sublimation/supererogatory—de-mentativity will rather be ‘a more candid face-up with our procrypticism—or—disjointedness-as-of—reference-of-thought’ as herein implied by
this author as of the notion of ‘beyond-the-consciousness-awareness-teleology’<in-preconverging-existential-extrication-as-of-existential-unthought>-instructing-being-and-craft, muddlement and other intellectual complexes/inhibitions’ that de-mentatively/structurally/paradigmatically as of a destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating–decisionality} of-ontological-performance<including-virtue-as-ontology> cloud/undermine the potential for further intellectual emancipation, and so similar to the breakthrough that brought about budding-positivism/rational-empiricism as of say the reasoning-through/messianic-reasoning Galilean gesturing postconverging–de-mentating/structuring/paradigmging based on the fact that looking in the telescope we can appreciate how the planets moved around the sun and as this budding-positivism/rational-empiricism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation was relayed by other budding-positivists, and so over the destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating–decisionality} of-ontological-performance<including-virtue-as-ontology> of traditional medieval no-trouble disposition to perceive and take comfort in traditional medieval-scholasticism reasoning-from-results/afterthought notional–pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} as if critical reification will arise by that pathway. In other words, the possibility of all huma prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of ’incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation disposition but rather more concretely only after human decomplexing/uninhibiting de-mentative/structural/paradigmatic development ‘weaning humankind from its traditional complexes/inhibitions reasoning-from-
results/afterthought conceptualising flaws’ that then brings about the corresponding existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression level for human emancipation as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation; and this is effectively reflected in all cases of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Whether of low or high emotional-involvement, it is inevitably the case that the de-mentative/structural/paradigmatic possibility for prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity ever always and has ever always involved or been-grounded-on-prior ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ inducing the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring; as we can appreciate for instance that without the secondnatured institutionalisation arising as from the Galilean gesturing reasoning-through/messianic-reasoning highlighted above, there wouldn’t have been the human psychology reflected in the displacement/decentering-of-the-human-subject as of the resultant reasoning-from-results/afterthought later on in the 20th century to acquiesce to such breakthroughs like theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs with barely any social contestation. Thus psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, as of human de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) implied prospective postconverging-or-dialectical-thinking—apriorising-psychologism and prior preconverging-or-dementing—apriorising-psychologism, is merely a reflection of the fact that human

In all these instances, the sophists as of its preconverging—existential-extrication-as-of-existential-unthought with respect to social-stake-contention-or-confliction are ever always inclined to eliciting-of-immediacy-as-of-relative-ontological-incompleteness dereification for wooden-language ⟨imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications⟩ disposition, and when the outcome of reasoning-through/messianic-reasoning dispensing-with-immediacy-for-relative-ontological-

Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity—of-the-human-institutionalisation-process as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology′, what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the present one as of an overall human tale, as the threat of rationalising the implications of such a human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications necessarily involves a parrhesiastic reifying gesture of dispensing-with-immediacy-for-relative-ontological-completeness′ -by-reification/contemplative-
distension which is ‘never always the easiest of notion’ for human disposition, especially as this often always implies the displacement/decentering-of-the-human-subject, it is inevitably the case that such ideal as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parhesisatic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning’ has to reckon with the temporal social-stake-contention-or-confliction human sophistry eliciting-of-immediacy-as-of-relative-ontological-incompleteness—dereification for disposition meant at stifling the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and so beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought. the mere sake of preserving and avoiding the denaturing of the 
universalising-idealisation 
meaningfulness-and-teleology or positivising/rational-empiricism meaningfulness-and-

emancipation is exactly the most difficult thing for humankind to countenance, and that is 
exactly why the successive uninstitutionalised-threshold arise in the first place; and the 
sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its 
temporal social-stake-contention-or-confliction has always been addressed not by a faulty 
pretence of mutually objectifying intellection between genuine intellectualism and sophistry, 
which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt 
parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it
This is akin to the mathematician opened to mutual calculating even where one could produce a wrong solution as of aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance but this only holds with the mathematical apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for engaging genuinely and naturally in the calculations; where that apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit is lost, fundamentally the notion of mutual calculating is then ontologically and epistemically flawed. Ultimately, the notion of ‘meaningfulness-and-teleology’ as of ontological-veracity is about the ‘reasoning-through transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ of contentsions for the determination of existence-potency—sublimating–nascence, disclosed-from-prospective-epistemic-digression as of causality as-to-projective-totalitative–implications-of-prospective- nonpresencing, for-explicating-ontological-contiguity; and it is rather different from a sovereign construct grounded on sovereign choice whether there is ontological-veracity or ontological-impertinence. The human existential tale as ‘humanity project’ has ever always been one of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-

The secondnatured institutionalisation constructs as of sovereign institutions and establishment frameworks are ‘not to be necessarily-and-absolutely considered as knowledge reifying frameworks’, as could falsely be implied by cohorting sovereign institutions and establishments surreptitiously usurping the knowledge-reification–gesturing-<in-prospective.psychologismic-apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity }—conflatedness—in-{preconverging-disentailment_by}–postconverging-entailment> role and as beyond-the-consciousness-awareness-teleology -<in-preconverging-existential-extrication-as-of-existential-unthought> surreptitiously defining what can be thought or not thought. The fact is such implied underpinning–suprasocial-constructs are mainly secondnatured whether as sovereign representation or establishment constructs, and can easily be caught up in their own <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag^ in prior relative-ontological-incompleteness with respect to social-stake-contention-or-confliction and are thus not the absolutising framework of human ^meaningfulness-and-teleology^, as the social knowledge-reification–gesturing-<in-prospective.psychologismic-apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity }—conflatedness—in-{preconverging-disentailment_by}–postconverging-entailment role must always be opened to ‘intemporal individuation ontological-faith-notion–or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis–or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as of the
possibility of its arising in any humans and in whatever specific purviews of existence, as this is what is instigative of ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’; as it is only by the latter process that the ‘suprasocial obsession/myopism as of a given registry-worldview/dimension social-stake-contention-or-confliction’ can be superseded, as of reconstruing recurrent-utter-uninstitutionalisation underpinning—suprasocial-construct rather as of base-institutionalisation, base-institutionalisation—ununiversalisation underpinning—suprasocial-construct rather as of universalisation, universalisation—non-positivism/medievalism underpinning—suprasocial-construct rather as of positivism, and prospectively positivism—procrypticism underpinning—suprasocial-construct rather as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. We can appreciate in this regards that the universalising-idealisation philosophers and budding-positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning—suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning—suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’ induced as of ‘intemporal ontological-faith-notion—ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/ axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis—or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’, is nothing but <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which obviously doesn’t register/is-unaccounted internally because (but from the existence-potency—sublimating—nascence—
disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notional–deprocrypticism perspective) de-mentatively/structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to see of its defective ontological-performance’<including-virtue-as-ontology> as it surreptitiously implies that it is absolute beyond-the-consciousness-awareness-teleology’<in-preconverging-existential-extrication-as-of-existential-unthought>’. The fact is, it is this possibility of the universalising-idealisation philosophers Socrates/Plato/Aristotle and the budding-positivists putting into question their conventioning-referencing ‘meaningfulness-and-teleology’ and value that allows for prospective institutionalisation to arise as of universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the <cumulating/recomposuring–attendant-ontological-contiguity>-successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology’ leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology’; and in this regards, we can appreciate that the pre-Socratic world very much construed of critical ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-
expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding-positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, and likewise it is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, that in many ways just as the manifestation of postlogism-slantedness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to—prospective-apriorising-implications} and underpinning—suprasocial-construct —meaningfulness-and-teleology integration of their given non-positivism and superstition, in many ways the manifestation of psychopathy and social psychopathy in our positivism—procrypticism is equally subject to our wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to—prospective-apriorising-implications} and underpinning—suprasocial-construct underlying disjointedness-as-of—
reference-of-thought muddlement of social-stake-contention-or-confliction as of our uninstitutionalised-threshold; and in both instances insightfully point to underlying reference-of-thought relative-ontological-incompleteness at destructuring-threshold (uninstitutionalised-threshold /presublimating–desublimating–decisionality) of ontological-performance <including-virtue-as-ontology> which is the grander issue of aetiologisation/ontological-escalation as to the fact that fundamentally prospective positivism registry-worldview/dimension supersedes-and-deflates the vices-and-impediments of non-positivism as of animism or medievalism and thereof their devolving associated manifestations of non-positivism and specific superstitious nature as well as the idea that prospective deprocrypticism—or–preempting—disjointedness-as-of reference-of-thought supersedes-and-deflates the overall vices-and-impediments of our positivism/rational-empiricism manifestation of procrypticism—or–disjointedness-as-of reference-of-thought underlying the devolving social manifestation of psychopathy and social psychopathy. Thus the practice of construing absolutely the <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of any given registry-worldview/dimension in relative-ontological-incompleteness like our positivism–procrypticism speaks of a loss of ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology’ to the given registry-worldview/dimension conventioning-referencing. In this regards, we can appreciate that our own projection of prospective notional–deprocrypticism implied Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of its prospective singularisation projected epistemic-immanence/veridical-epistemicity-
apriorising/axiomatising/referencing–psychologism as being of ontological-normalcy/postconvergence to go on to imply a practice of reification of psychological traits is what is emancipating of the human condition with the implication that any given registry-worldview/dimension in relative-ontological-incompleteness reference-of-thought say animistic or medieval could just as well be considered in ontological-normalcy/postconvergence and that what is emancipating of the human condition is the reification of psychological traits as of its meaningfulness-and-teleology despite the supposed deficiency of its given meaningfulness-and-teleology in relative-ontological-incompleteness, thus failing to grasp that the more decisive transformation of the human subject is the displacement/decentering-of-the-human-subject as of construction-of-the-Self in reflecting holographically-and-transfusively the ontological-contiguity underlined as of human limited-mentation-capacity-deepening antiakrasiatic disposition since this is effectively what de-mentatively/structurally/paradigmatically by the induced ontological-performance including-virtue-as-ontology enables the superseding-and-deflating of the overall individual and social vices-and-impediments arising as of the relative-ontological-incompleteness of the successive registry-worldviews/dimensions; and wherein our conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism turns out to be rather skewed towards our positivism–procrypticism perspective with the implication of history considered mainly as of succession of

animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly
the case that the human-potentiation of freewill of the parents is engaged with regards to their
responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-
positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-
ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (as the
relative-ontological-incompleteness in the latter case renders it as an ‘ought indeterminacy’
while the relative-ontological-completeness in the former case renders it as an ‘is
determinacy’); but then, a general underlying human potentiation of freewill of all humans is
engaged passively to the effect that prospective relative-ontological-completeness inducing
prospective self-consciousness/construction-of-the-Self reflected as of Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology in deflating human vices-and-impediments, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is dementatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance-arising-as-of-the-intemporal-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance—including-virtue-as-ontology’ equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human-amplituding/formative–epistemicity-totalising–thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory–de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipating possibilities, and then contend to make any given reasoning-from-
results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-nondescript/ignorable—void-with-regards-to-prospective-apriorising-implications? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance—including-virtue-as-ontology as of human epistemicity-totalising-thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. Further, in the specific instances it is important to recognise that natural determinism invalidation of sovereign options/choice or freewill ‘applies critically only as of poor self-consciousness/construction-of-the-Self implications arising from the underdevelopment of Being/ontological-framework-expansion or self-consciousness/construction-of-the-Self incapacity as of say insanity’, and not necessarily as of lack of new knowledge-construct or technical-development; in the sense that say a criminal that had gone uncaught before a new technical-development like DNA testing establishes their criminal responsibility as of human potentiation, cannot talk of natural determinism implications as a defence just as covert predispositions associated with vices-and-impediments as of ‘self-conscious drive’ cannot be qualified to be of natural determinism implications when unmasked. We can imagine that futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{16}meaningfulness-and-teleology\textsuperscript{12} as of prospective notional–deprocrypticism inclined agent given its ‘intemporal-prioritisation-of-\textsuperscript{17}reference-of-thought’–as-conflatedness -or-ontological-reprojecting can effectively forego the normally construed positivistic \textsuperscript{15}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{9}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as projected \textsuperscript{1}amplituding/formative\textsuperscript{2} wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing — narratives—of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology } failing/not-upholding-\textsuperscript{as-of-apriorising/axiomatising/referencing} intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ‘valued-viability’ to expend on a ‘so-construed most important work’ that can be done in a positivism–procrypticism registry-worldview/dimension, as of prospective institutionalisation into notional–deprocrypticism (more like an archaeologist might don on dirty clothing and dig their hands in mud and rubbish ‘like an animal’ to find out about the treasures that are human histories); and by that equally implying prospectively the decentering and dialectical–de-mentation of positivism–procrypticism \textsuperscript{1}amplituding/formative\textsuperscript{2} wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignoreable—void ’-with-regards-to-prospective-apriorising-implications>}. Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/ reference-of-thought will most likely not necessarily perceive and construe the ‘achievement motives and temporal-stakes in animistic or medieval lives and
living’ in the non-positivistic social-setup as ‘grandest living’ but rather the maximalising-
recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation ‘of positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of existential worth’ from its vantage ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective. There is nothing inherently wrong with achievement motives across all registry-worldviews/dimensions conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. However, with regards to a prior registry-worldview’s/dimension’s wooden-language—{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable–void ‘with-regards-to-prospective-apriorising-implications> denaturing of meaningfulness-and-teleology so construed prospectively, whether as of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism, such motives are necessarily superseded-and-overridden or subsumed-as-supplanted or transvaluated in the bigger picture of human eternalising aspiration as of the intemporal/longness-of-register–meaningfulness-and-teleology individuation mental-disposition of ‘inventing’ the successive becoming possibilities in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as inducing successively base-institutionalisation, universalisation, rational-empiricism/positivism and prospectively deprocrypticism; as going by ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing—psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ across retrospective and by implication prospective registry-worldviews/dimensions. To rather assume the notion that ‘achievement motives across all registry-worldviews/dimensions conventional

In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘intemporal-prioritisation-of-’reference-of-thought’–as-conflatedness’ or-
ontological-reprojecting that enables human memetic-rescheduling (psychoanalytic-unshackling/institutional-recomposing) as from recurrent-utter-uninstitutionalisation to modern-day positivism–procrpticism and prospectively depoercpticism; together with the idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory preconverging–de-mentating/structuring/paradigming relationship with meaningfulness-and-teleology (undermining the implied reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the wooden-language–(imbued–temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives–of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) as deterministic thus subknowledging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-dementing–apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism–imbued-underdetermination-of-motif-and–apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft ‘inventing’. But then transcendental constructs of meaningfulness going beyond the ‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective reference-of-thought of meaningfulness, is an afterthought social recognition by the prospective registry-worldview’s/dimension’s
reference-of-thought institutionalisation, not the social recognition of their own registry-worldview’s/dimension’s reference-of-thought (as the prior/transcended/superseded), as transcendental meaningfulness-and-teleology involves psychical and institutional recomposuring of high contrariety implications to human temporality/shortness as putting into question the present as prior/old, but then the vocation of all transcendence-and-sublimity/sublimation/superseding/de-mentativity as all knowledge is not about being responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superseding/de-mentativity of an intersolipsistic nature. It is equally important to grasp that transcendence-and-sublimity/sublimation/superseding/de-mentativity is the more profound origination of reference-of-thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually transcendental and this is not to be confused with its distance/remoteness as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’ (whether as base-institutionalisation, universalisation, positivism or prospectively notional–deprocrypticism knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superseding/de-mentativity and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/superseding/de-mentativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior reference-of-thought–categorical-imperatives/axioms/registry-
teleology\textsuperscript{9} with the prospective one for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) \textsuperscript{55}— maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation \textsuperscript{<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought}, in contrast to a naïve \textsuperscript{55} incrementalism-in-relative-ontological-incompleteness\textsuperscript{88}—enframed-conceptualisation mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking \textsuperscript{83}—reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity \~educed–existentialising/contextualising/textualising-contiguity \}—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising \~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising \~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The point here is to highlight that where
the need for ‘reappraisal of reference-of-thought’ arises as for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, it will be naïve to imply that knowledge is neutral failing/not-upholding-as-of-apriorising/axiomatising/referencing> to register that all knowledge is the outcome of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as ‘reappraisals of reference-of-thought’ and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of reference-of-thought that enabled it to be as of the present reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the reference-of-thought for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness-of-reference-of-thought. Hence it is rather ontological-completeness-of-reference-of-thought that is the viable construing reference of knowledge with its transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications for completing the reference-of-thought, and so not only with regards to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of retrospective registry-worldviews/dimensions reference-of-thought but equally with the implication of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity for prospective registry-worldview’s/dimension’s reference-of-thought as so validated by ontological-normalcy/postconvergernce. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as perversion-and-derived-
perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation within the positivism–procripticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } hence speaking of the positivism–procripticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived- perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation while prospective uninstitutionalising-facet insight will rather overlook such implied denaturing as of beyond-the-consciousness-awareness-teleology-in-preconverging-existential-extrication-as-of-existential-unthought. This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a registry-worldview’s/dimension’s uninstitutionalised-threshold defining its very notions of lawfulness and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc. across the full breadth and depth of human institutions dynamic social construction of perceived social-stake-contention-or-confliction at that uninstitutionalised-threshold especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–procripticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the
social dichotomy notions implied above, and so as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, uninstitutionalised-threshold mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory preconverging–de-mentating/structuring/paradigming. This is very much in sync with the reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity in amplituding/formative–epistemicity causality as-to-projective-totalitative–implications-of-prospective nonpresencing—for-explicating-ontological-contiguity induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or crossgenerationally as intemporality-asymmetric-subsumption-of-temporality.

This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-completeness-of-reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiologisation/ontological-escalation in notional–depocrypticism apriorising/axiomatising/referencing–of-attendant–ontological-contiguity reduced–existentialising/contextualising/textualising-contiguity conflatedness in preconverging-disentailment by postconverging-entailment and so over procrypticism disjointedness-as-of-reference-of-thought denaturing and harkening back in undermining psychopathy and social psychopathy as the more specific individuation-level denaturing. Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is
very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence—existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-positivism/medievalism postlogism manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness reference-of-thought issue wherein the incidental denaturing of such manifestations reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiologisation/ontological-escalation apriorising/axiomatising/referencing—of-attendant–ontological-contiguity —educed–existentialising/contextualising/textualising-contiguity conflatedness in {preconverging-disentailment—by}—postconverging-entailment directed to the bigger and subsuming issue of relative-ontological-incompleteness—of—reference-of-thought for inducing notional–deprocrypticism over procrypticism or positivism over non-positivism/medievalism respectively that harkens back to undermine in a decisive and nonextricatory and non-palliative manner the associated postlogism. apriorising/axiomatising/referencing—of-attendant–ontological-contiguity —educed—existentialising/contextualising/textualising-contiguity conflatedness in {preconverging-disentailment—by}—postconverging-entailment as such implies an utter shift as the curve-of-prospective-relative-ontological-completeness—of—reference-of-thought thus superseding the curve-of-prior-relative-ontological-incompleteness—of—reference-of-thought now being construed as preconverging-or-dementing—and-decentered-prior-institutionalisation’s—

Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements systematically keeps on making wrong aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (systematically flawed meaningfulness) as its fundamental registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—as-Being-or-ontological-or-existential–defect (in registry-worldview terms of implications). On the other hand, a lying deception is tantamount to undertaking an inappropriate measurement-as-of-aposteriorising/logicising/deriving/intelligising/measuring–purpose (flaw logical-processssing/act-execution-implicitation meaningfulness) with an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is not defective (thus appropriateness-of-reference-of-thought-as-of-conflatedness). This point to the ad-hoc nature of lying deception wherein there is nothing inherent that precludes subsequent appropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation meaningfulness where the contextual-ambiguity-constraint(s) are resolved. This technique of mentally grasping the psychopath and other postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal prelogism-as-of-conviction,-in-profound-supererogation <$existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind ordinarily aligns to meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp the psychopath’s and other postlogic mental-dispositions which mental-alignment are rather as of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <$as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> with respect to meaningfulness). Paradoxically, this is the fundamental strength
of psychopathy, i.e. to get the normal prelogism as-of-conviction,-in-profound-supererogation mind to wrongly elevate psychopathic meaningfulness-and-teleology as of veridical attendant-ontological-contiguity educed existentialising/contextualising/textualising-contiguity rather than reflect the reality of its formulaic meaningfulness-and-teleology which is ‘meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’. So when we talk about psychopathy we are talking about perversion-of reference-of-thought as-preconvergingly apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation rather than logical defect (defect of logical operation/processing/contention).

and logic as an operation of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity^6^—deduced—existentialising/contextualising/textualising-contiguity based on the meaning’s implied ^1^reference-of-thought—^6^categorical-imperatives/axioms/registry-teleology^1^ valid only inasmuch as the reference to the ‘registry elements’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology^9^ is ‘existentially’ established. *Critical for ontological-veridicality of meaningfulness and knowledge, the relatively ontologically-complete—reference-of-thought defines what is meaningfulness as of its ‘soundness-or-ontological-good-faith/authenticity^10^-of-reference-of-thought’ construed as ‘postconverging-or-dialectical-thinking”—apriorising-psychologism and centered understanding’ over the relatively ontologically-incomplete—reference-of-thought as of its ‘unsoundness-or-ontological-bad-faith/inauthenticity—of-reference-of-thought’ construed as ‘preconverging-or-dementing”—apriorising-psychologism and decentered understanding’. Slanting (and by derivation cohering-slanting) is ‘technically coherent logical articulation’ however over flawed or non-existent apriorising—reference-of-thought-elements/apriorising—registry-elements, and thus falsely implying the apriorising—reference-of-thought-elements/apriorising—registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology^9^ as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-ontological-good-faith/authenticity^10^-of—reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-ontological-good-faith/authenticity^10^-of—reference-of-thought in the first place) so ‘we don’t tend to question the
being/ontological/existential veridicality of \(\text{reference-of-thought}\{\text{reflected-as-soundness-or-ontological-good-faith/authenticity } \text{-of- reference-of-thought}\}. \) But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cinglé-effect’ of the implied-\(^{\text{reference-of-thought/implied-registry and its elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology}}^{\text{99}}\) is rather obvious and we don’t normally process/operate logically the childhood psychopathy’s non-veridical hollow mimicking narratives since ‘we just invalidate those apriorising–registry-elements to start with as not of being/ontological/existential veridicality’. For instance in the case above, where John were to witness Dad punish his sister Mary for spilling water on a chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging\(^{\text{94}}\) of meaning’ (meaning-by-the-mere-illological-possibility-of-it-being-formulaically-narrated) determines that if in a ‘dereifying act’ he spilt some water on a chair and said it was Peter, Peter will be punished by dad; dad, however, having an ‘attendant–ontological-contiguity’ –\(\text{educed–existentialising/contextualising/textualising-contiguity}^{\text{30}}\) sense/projection of meaning’ doesn’t even dare to operate/process the logic articulated by John (a logic which in-of-itself while utterly sound technically, but is actually irrelevant in the given context by its fundamental logical-undueness’ as of its unsound-reference-of-thought/unsoundness-or-ontological-bad-faith/inauthenticity\(^{\text{44,of-}}^{\text{8}}\) reference-of-thought/mental-perversion) as he simply engages his unsoundness-or-ontological-bad-faith/inauthenticity \(\text{-of- reference-of-thought by way of distractive-alignment-to}^{\text{83}}\) reference-of-thought-<of-apriorising/axiomatising/referencing>\(^{\text{99}}\) \(\) and then reflect the 83reference-of-thought or registry-teleology\(^{\text{99}}\) of John as 4perversion-of-reference-of-thought-\(<\text{-as-preconvergingly-apriorising/axiomatising/referencing-in-}}^{\text{nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}^{\text{99}}\) or mental-perversion

The underlying fact about meaninglessness-and-teleology[9] is that the apriorising–registry (as the individual grounding of the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right and sound in abstract terms but does the apriorising–registry (‘reference-of-thought) apply?, i.e. The faulty-mentation-procedure-deception-or-urge[12] is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing ’ of the elements of the apriorising–registry as of ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology[8] which are: implied–logical-dueness-or-implied-scape (the implied–logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the
psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought, i.e. slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing-of-narratives! So with the psychopath, you don’t watch the logic, you watch out for the reference-of-thought/apriorising-registry for mental-perversion or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought! However, the natural level of human interlocution engagement ‘is not the enlightenment of the retracing of an interlocutor’s sets-of-narratives’ (as this could vary anywhere from say a few days or weeks to years of supplanting-conviction-as-to-profound-supererogation of attendant-intradimensional-postconverging/dialectical-thinking apriorising-psychologism engagement, for such an insight to arise), but rather as of ‘specific singular circumstantial narrative of interlocution without a comprehensive attendant-ontological-contiguity—educed—

mental-disposition is one of ‘slanted-cohering/conjoining’ as it rather further integratively
rationalises the latest iterated narrative as an elucidation rather than a further preconverging-or-

The idea that the ‘natural level of human interlocution engagement is a perpetuation’ can be understood insightfully with respect to a non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism reference-of-thought terms when invalidated positivistic terms doesn’t imply that such interlocutors will instantly dramatically change their reference-of-thought into the positivistic terms with their successive contentions (due to <amplituding/formative—epistemicity—totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag—), as their reference-of-thought remains rather in non-positivism/medievalism circularity/recurrence/repetition/repeatability, and in the big picture in all likelihood can only be ‘weaned from’ crossgenerationally as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposing. Likewise the ‘natural basis of human interlocutory engagement tends to be perpetuating’ when it comes with psychopathy and social psychopathy with respect to its eliciting of a ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of—incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold—{as-procrypticism}’, thus equally implying a <amplituding/formative—epistemicity—totalising—self-referencing—

conviction-as-to-profound-supererogation —of–attendant-intradimensional”–
postconverging/dialectical-thinking –apriorising-psychologism or prelogic mental-disposition.
It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the
normal process of prelogism–as-of-conviction–in-profound-supererogation” –<existentially-
veridical–attendant-intradimensional–apriorising/axiomatising/referencing–logical-dueness-
precedes-disontologising-logical-outcome-arrived-at> logical articulation with respect to
‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example
highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing\textsuperscript{16} postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation ‘-or-prelogism ‘-basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing\textsuperscript{16} postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation ‘-or-prelogism ‘-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition). Even if this latter narrative is proven to be false (as it is another\textsuperscript{74} perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge\textsuperscript{43} not being the logic itself, but in wrongly implying as existentially real the ‘apriorising– reference-of-thought-elements/apriorising–registry-elements (out of attendant–ontological-contiguity\textsuperscript{77}–educed–existentialising/contextualising/textualising-contiguity) ‘-reifying-or-elucidating-of-prospective-relative-ontological-completeness ‘of reference-of-thought-devolving-as-of-instantiative-context’)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order
faulty-mentation-procedure-deception-or-urge\textsuperscript{13} paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge\textsuperscript{13} operating \textit{logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation} on such false axioms. Thus, with respect to postlogism\textsuperscript{77} generally what is critical for the psychopath/postlogic-mindset is to be seen as being prelogic supplanting–conviction-as-to-profound-supererogation\textsuperscript{6}—of-'attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism even if it is a perception of ‘poor or bad supplanting–conviction-as-to-profound-supererogation—of-'attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism’ since that will validate the ‘apriorising–\textsuperscript{3} reference-of-thought-elements/apriorising–registry-elements (out of attendant–ontological-contiguity\textsuperscript{6}—educed–existentialising/contextualising/textualising-contiguity)’ on the basis that it was the \textit{logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation} that was wrong hence the possibility and credibility not to question the reference-of-thought/apriorising–registry/categorical-imperatives/axioms and to re-engage \textit{logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation} by ‘prelogism’\textsuperscript{8}—as-of-conviction,—in-profound-supererogation—existence-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at re-engaging reflex’ wrongly turning the issue into one of \textit{logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation} instead of construing a perversion-of-\textit{reference-of-thought—<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> ‘preconverging-or-dementing’—apriorising-psychologism/unsoundness-or-
ontological-bad-faith/inauthenticity-of-reference-of-thought manifestation’). The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation’-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction-as-to-profound-supererogation to or prelogism, at-a-pedestal,-in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling such hollow mimicking in hollow-constituting-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking-iterative-looping-set-of-dereifying-hollow-narratives-and-acts as absolving/fleeting/escaping-reflex–logic among different set-of-interlocutors (this is simply because postlogism in hollow-constituting-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness’ unlike postlogism as prelogism which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at’), and inducing mutual misconstruing; and the reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its postlogism in hollow-constituting-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (which is an unusual and rare social experience given that a psychopathic
personality and postlogism in hollow-constituting are an outlying phenomenon) with one set-of-interlocutors will involve either a temporal commitment to the postlogism (due to the ‘lack of constraining social universal-transparency (transparency-of-totalising-entailing-as-to-entailing-amplituding-formative-epistemicity-totalising-in-relative-ontological-completeness) as inducing vices-and-impediments which will then make it alienating) or a ‘fool-me-once-phenomenon’ where there is a relative insight on postlogism in hollow-constituting from some interlocutors with no more commitment given the inconsistency of the hollow-constituting in postlogic-backtracking-iterative-looping-set-of-dereifying-hollow-narratives-and-acts as absolving/fleeting/escaping-reflex-logic, in time speaking to the fundamental mental denaturing involved in postlogism in hollow-constituting in postlogism in hollow-constituting in postlogism in hollow-constituting the extrinsic-attrition inclination is in constant need for new sets-of-interlocutors. The mental process that takes place in the ignorant prelogism as-of-conviction,-in-profound-supererogation-existentially-veridical-attendant-intradimensional-apriorising/axiomatising/referencing-logical-dueness-precedes-disontologising-logical-outcome-arrived-at mind is an alignment to the psychopath’s (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) postlogism-formulaic slanting compulsing-nonconviction/madeupness/bottomlining-{‘decontextualising/de-existentialising-of-attendant-intradimensional-apriorising/axiomatising/referencing}-induced-disontologising-of-the-
narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted ‘out of context’ unfavourably with non-veridical hollow mimicking narratives about the psychopath’s ‘socially-perceived-value as of social-stake-contention-or-confliction target’ (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; ‘consternation’ wherein narratives with a ‘sense of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on the interlocutor about the target, ‘certainty’ wherein narratives with a ‘false sense of undoubtedness’ are projected about the target on the interlocutor, and finally ‘a sense of passive or suggestive alienation’ towards the psychopath’s target is projected upon the interlocutor to ‘subconsciously induce a sense of alienation from the target’. The psychopath then strives to settle on the whole of this process circularly doing likewise with other new and pertinent interlocutors as well (commitment). By and large this circularity thus involves these four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with its corollary, social psychopathy, this disposition (passive or suggestive alienation) is at various level-of-consciousness-and-wittiness extended to the social-construct as a comprehensive nature of extrinsic-attribution. Passive or suggestive alienation as such with corresponding ‘temporal-dispositions miscuing’ which is ‘misconstrued as intrinsic ontological depth-of-conviction-as-to-profound-supererogation’*. The underlying reason for the entirety of this mental process in the psychopath has to do with its ‘mere-formulaic constrained/unconstrained perception and relation to meaningfulness-and-teleology’* (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-
conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism’ is not really ontologically-speaking a prelogic/conviction-as-to-profound-supererogation\textsuperscript{60} mental state but rather technically a ‘miscuing/dialectically-or-contendingly-out-of-phase postlogic mental state’. There are two stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as an ignorant of psychopathic postlogism\textsuperscript{77} in hollow-constituting-as-disjointed-

misappropriation-of-meaningfulness-and-failing-intemporal-preservation> to which the interlocutor aligns prelogically and then miscues, and then secondly (in addition), as ‘committed-by-temporality\textsuperscript{79}/interest over intrinsic-veridicality’ whether in the form of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-

social-aggregation/temporal-enculturation-or-temporal-endemisation. It should be noted that this psychopathic manifestation process can be mimicked in the context of social psychopathy, and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/inflected/mimicked/in-protraction-to-psychopathic-preconverging-or-

dementing\textsuperscript{71}–apriorising-psychologism’. Over a given or extended period the underlying effect sought by the psychopath might stick, especially where the social target, interlocutors and others are utterly unaware of the mental state of the psychopath, and so evolving more like a social-discomfiture of relationship over ‘socially-perceived-value as of social-stake-contention-or-confliction’ (*social-discomfiture as such can be defined as the subsequent, ignorant or deliberate/disingenuous, adherence as if veridical to the slanted and hollow mimicking narratives of the psychopath with the corresponding perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-

It should be noted that suprastructuring implies reflection about an utterly and mentally dialectically-or-contendingly-out-of-phase; as of non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-preconverging-or-dementing\textsuperscript{20}—apriorising-psychologism/not-veridical-thinking-reference-rather-preconverging-or-dementing -reference as-the-temporal-dispositions-are-dialectically-out-of-phase/dialectically-primitive as suprastructurally reflected

Paradoxically, the normal prelogism-as-of-conviction,-in-profound-supererogation–<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at mind is so attached by supplanting–conviction-as-to-profund-supererogation—of–‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex to the notion of the essence of supplanting–conviction-as-to-profund-supererogation—of–‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism meaning (as it is not priorly inclined to put into question narratives but rather to quickly operate/process logic to arrive at outcome while ‘trusting’ that the other is also prelogism–as-of-conviction,-in-profound-supererogation–<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at in their apriorising–registry, and so because psychopathy is a relatively outlying phenomenon thus the natural human personality development doesn’t take it much into account in the bigger scheme of things, i.e. it will be ‘a waste of too much mental energy’ to be verifying in detail the apriorising–registry implied—
logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology \(^9\) of every interlocutor, so mentally the human mind has developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and appearance’; but such a scheme is strictly speaking ontologically incomplete and underminable but it is standard as it ‘saves mental energy and time’, hence it is the strongest factor for the social prevalence of psychopathy and its social psychopathy corollary, and by extension all postlogism /perverted-as-disontologising-outcome-sought-precedes–logical-dueness across all registry-worldviews/dimensions); that it will find it hard to articulate or for that matter not believe the comprehensiveness and extent by which the psychopath can produce non-veridical hollow mimicking narratives towards its end purpose, particularly as it is a rather social outlying phenomenon and hence not usually integrated in many an individual’s conceptualisation of social relations and phenomena. That’s why the manifestation of ‘poor or bad supplanting–conviction-as-to-profound-suprerogation of–attendant-intradimensional’

In so doing, the psychopath has a parallel formulaic-representation-of-meaning/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated which ‘subknowledging’/mimics’ the fundamental elements of ‘supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’-postconverging/dialectical-thinking – apriorising-psychologism deductive meaning’ such that the (adult) psychopath’s non-veridical hollow mimicking narratives come across paradoxically as highly credulous. Basically the relevant question for the psychopath is: ‘how was the hollow mimicking form that can be grasped in a prelogism 78-as-of-conviction,-in-profound-supererogation –<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind deterministic of other prelogism 78-as-of-conviction,-in-profound-supererogation –<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-

a consciously active manner the empty forms of prosody in-of-themselves first and over the
intrinsic attributive essence of meaning like overemphasising the toning form (toning
triggering) and the supposition form (presumptuousness) in their expressed deductive
reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised
spontaneously when naturally expressing profound/deep conviction; thus naturally the
psychopathic mindset/reference-of-thought has an unusually large repertoire of ‘sense of
meaningfulness associated with empty forms of prosody’ since it artificially perceives them as
more critical than the supplanting–conviction-as-to-profound-supererogation—of--’attendant-
intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism
 mind’s intrinsic meaningfulness the forms of prosody are latently associated with. The peculiarity with
the psychopath and in the instance of protracted slantedness/social psychopathy with the case of
exacerbation for instance, is the over-elaboration of such forms in a way that is rather an
instrumentalisation of form of expression and not natural expression (mimicking or vague-
rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-
vague-vocalisation-or-subknowledging). In fact, it is often the case that such line of rather
‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an
entire set of the psychopath interlocutor’s in conjugated-postlogism in their ‘conjoining
looping narratives of flawed-existential-elevation-of’ reference-of-thought (pointing to
vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-
and-vague-vocalisation-or-subknowledging), and can be an advanced insight of a
‘psychopathic/postlogic and social psychopathic/conjugated-postlogism’ situation’,
construable with an appropriate maximalising-recomposuring-for-relative-ontological-
completeness — unenframed-conceptualisation. This mirrors the operant case highlighted further below, wherein the implied meaningfulness (of postlogic/psychopathic, conjugated-postlogism /preconverging-or-dementing -integration and supplanting—conviction-as-to-profound-supererogation —of ‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism mental-dispositions) is existentially-traced as of the circularity/recurrence/repetition/repeatability as to existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_attendant-ontological-contiguity —educed—existentialising/contextualising/textualising-contiguity —reification_or_intrinsic-reality—ontological-coherence_or_superseding—oneness-of-ontology to establish ontological-veridicality, and not simply operating on the ‘naïve supposition of’ universal human prelogism—as-of-conviction,-in-profound-supererogation —<existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness-precedes—disontologising-logical-outcome-arrived-at’ without factoring the ‘postlogism mere-formulaic slanting —compulsing—nonconviction/madeupness/bottomlining—<decontextualising/de-existentialising—of-attendant-intradimensional—apriorising/axiomatising/referencing—induced-disontologising—of-the—‘attendant-intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant-ontological-contiguity—<as-to-disontologising—perverted—outcome-sought-precedes—existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing—logical-dueness—mental-disposition’ of the postlogic/psychopathic and conjugated-postlogism /preconverging-or-dementing -integration mindsets/reference-of-thought. It is important to note that the psychopath’s targeting is highly evolutive throughout its life (along human personality development stages) as ‘socially-perceived-value as of social-stake-contention-or-confliction’ with others arise and ‘the possibility of going undetected’ permits. The psychopath being ‘out-of-phase’ is pushed by a
intradimensional’-prospectively-disontologising-preconverging/dementing –apriorising-pychologism’. Thus, a non-ignorant temporal pedestal mindset/ reference-of-thought whether affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation may find it in their temporal-self-interest to cynically elevate the psychopath’s postlogism -as-of- compelling–nonconviction/madeupness/bottomlining-(‘<decontextualising/de-existentialising-of-attendant- intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the- ‘attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant- ontological-contiguity’; in-shallow-supererogation -<as-to-disontologising-perverted- outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional– apriorising/axiomatising/referencing’-logical-dueness>) or slantedness/threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to-‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising- psychologyism–or-mimicking-or-subknowledging’, when this is not socially universally transparent (at uninstitutionalised-threshold). Further, the element of the need to be socially-functional-and-accordant first, implies that psychopathy is ‘more than just the drive of a pathological individual’ but inevitably psychopathy and correspondingly social psychopathy involves a ‘social split-dynamism’ wherein the ‘unordinary eliciting’ of temporal interest among some as extrinsic-attribution (praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.) is the basis for the targeting of another or others, further compounded by the fact that while so-called ‘rules of sound logic’ abstractly permeate more or less effectively most of our formal setups, their sociological pertinence is actually far from established, but for the fact that broad and large general education diminishes social egregiousness in this respect, as specifically ‘reasoning by significant others’ is actually the more common mental-disposition in the extended-informality-{susceptible-to-effecting-
parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology

including the ‘informal spaces’ of formal setups, with the result that this is a further factor that makes psychopathy poorly graspable as simply of individual denaturing \(^1\) dynamics rather than of social denaturing \(^2\) dynamics, thus better construed phenomenally as social psychopathy; as logic will often tend to be ‘rationalised in social rather than abstract terms’ depending on level of individuals intuition about the underlying dynamism of the postlogism \(^3\)-as-of-\(^4\) compulsing—nonconviction/madeupness/bottomlining-⟨‘decontextualising/de-existentialising—of-attendant-intradimensional—apriorising/axiomatising/referencing⟩-induced-disontologising’-of-the—‘attendant-intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant-ontological-contiguity—>;—in-shallow-supererogation—<as-to-disontologising-perverted-outcome-sought-precedes-existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing—’logical-dueness⟩⟩ mental-disposition (going by experience), and then their sense of abstraction or gullibility or disposition to bandwagon effect with respect to a critical aetiologisation/ontological-escalation. (The implication here is that, for instance, it will be very naïve for an investigation involving a psychopath without the investigators being extra-cautious with respect to the underlying social aggregation linkage of potential interlocutors). Hence, the above phenomenon is further compounded in increasing profoundness (i.e. where the psychopath’s childhood delirium gives way to an adulthood mental articulation which is diffused/with-hardly-any-social untransparency \(^5\) (transparency-of-totalising-entailing—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness— ⟨but-rather-select-transparency—to-some about the nature of the psychopath’s veridical mental state) when the ‘temporal prelogism’—as-of-conviction,—in-profound-supererogation—<existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes—disontologising-logical-outcome-arrived-at⟩ interlocutor’, by the mechanism of ‘induced-ring—

equally a social dynamism aspect wherein the issue of ‘social allegiance, affordability and

The underlying mental-disposition of the psychopath as postlogic and the temporal prelogic/conviction-as-to-profound-supererogation minds pedestals that endemise/enculturate this process thus becoming conjugated-postlogism”, is known as ‘extrinsic-attribution’, i.e. the idea of satisfying an interlocutors sense of temporal interests is more important and critical in gaining their support than the notion of intrinsic truth/veridicality of meaning (intrinsic-attribution) thus reflecting their threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>. Ontologically, this requires an altogether PURIST and UNCOMPROMISING intemporal/ontological conceptualisation of such a-comprehensive-social-temporal-hodgepodging which is rather ontologically-discontinuous. This author qualifies as procrypticism preconverging-or-dementing –apriorising-psychologism, and so as ‘ONTOLOGICAL ENTRAPMENT’ going by the ‘human solipsistic/emanant template of institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’. At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding-<as-of-apriorising/axiomatising/referencing> slanted mental process as it faces the negating social reaction of its immediate family environment and
the grander society with respect to its compulsive-slanting—preconverging-or-dementing—apriorising. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation—in-postlogic-backtracking—as-iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’—absolving-or-fleeting-logic-reflex-or-escaping-logic wherein ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness, i.e. vague-rhyming-or-copied-mimicry—or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging’) from ‘a direct and blatant faulty-mentation-procedure-deception-or-urge’ for postlogic slantedness’ in a given social space during its childhood to a state in which the psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-urge’ for postlogic slantedness to attain an apparent normal social equilibrium or socially-functional-and-accordant state within any given social space as it develops into adulthood’. It is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting—conviction-as-to-profound-supererogation—of—attendant—intradimensional—postconverging/dialectical-thinking—apriorising-psychologism interlocutors, and so along five factors: - MATURATION (as childish slanted delirious non-veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-ontological-bad-faith/inauthenticity—of—reference-of-thought/slantedness become harder to perceive); - INDIRECTNESS (as the psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-urge, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner); - SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical
hollow mimicking narratives and comparing with the effective social reality context to establish whether the narratives are sound); - CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine supplanting–conviction-as-to-profound-superoeration —of–attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism narratives’ and at an even deeper level mimicking ‘profound supplanting–conviction-as-to-profound-superoeration —of–attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slanting—preconverging-or-dementing —apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the compulsive-slanting—preconverging-or-dementing —apriorising, etc. oince it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. Further slanting is done at what it perceives to be ‘the credulity-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding —as-of-apriorising/axiomatising/referencing> is an experiential basis that ultimately skews (‘intemporality —asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superoerogatory —de-mentativity) it into more strategic postlogic slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism —slantedness is not socially —universally-transparency, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially—

order for the former to conjoin to its postlogic-backtracking<-iterative-looping–‘set-of-
dereifying-hollow-narratives-and-acts’>). So basically, as social-and-confliction-stakes
develop from childhood to adulthood, likewise the psychopath’s postlogic narratives exercise
develop and become increasingly serious in its social consequences as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the
development of the specific psychopath. The fact, however, is that many of those who grow
together with the psychopath (immediate family, close family friends and relatives, etc.)
generally have some insight, however wobbly, into this mental process. Further, psychopathic
phenomenon meets with varying impact levels as it’s just a way of being/living for the
psychopath, and differences in the setup of 'socially-perceived-value as of social-stake-contention-or-confliction' context and time might play a role in making its social consequences benign or aggravated. But then psychopathy and its social consequences, as a social
phenomenon, is often wrongly perceived as exclusively due solely to an individual (the
psychopath). This is rather an incomplete picture of things actually. The psychopath in a way
can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-contention-or-confliction’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising–reference-of-thought-elements/apriorising–registry-elements which when wrongly acquiesced to is the foundation for its faulty-mentation-procedure-deception-or-urge ; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-reflex–logic and the deliriousness/delirious-effect/cinglé-effect). Paradoxically, this faulty-mentation-procedure-deception-or-urge points to the fact that the slanted child psychopathy mind has ‘a developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity~<reifying-or-elucidating-of-prospective-relative-ontological-completeness ~of-reference-of-thought- devolving-as-of-instantiative-context>, which is what validates logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as a process reflecting existential-reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology ), in the formation of a basic and normal supplanting–conviction-as-to-profound-supererogation~of–attendant-intradimensional–postconverging/dialectical-thinking –apriorising-psychologism of prelogism ~as-of-conviction,–in-profound-supererogation~<existentially-veridical–‘attendant-intradimensional–

The paradox being that the prelogic supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism mindset/\^1 reference-of-thought will project its own mental-disposition unwittingly upon the psychopath (in the case of adult psychopathy but not in the instance of childhood psychopathy where the latter’s deliriousness/delirious-effect/cinglé-effect is often obvious due to lack of maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of–social-stake-contention-or-confliction), and paradoxically then wrongly validate the psychopath as prelogic supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism with respect to meaningfulness as of ‘requisite existentially veridical logical-dueness (of apriorising—reference-of-thought-elements/apriorising–registry-elements) and logical-processing-soundness driven construct’. However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism, the rest of the human mental-dispositions include varying levels of temporality^9/shortness (when there is no social universal-transparency^11-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness }) of our acts at ‘uninstitutionalised-threshold^10’ thus there is not ‘intemporal social universal-transparency^11-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } of notional~firstnatedness—

That is, abstractly, with respect to 'socially-perceived-value as of social-stake-contention-or-confliction' humans do solipsistically/emanantly/becomingly suffer perpetually, at ‘uninstitutionalised-threshold’, from the temporal-dispositions of slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome with institutionalisation/intemporalisation and formalisations with corresponding internalisation of values or secondnaturing. However, at circumstances where the institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the ‘extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology); then ‘a induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ will elicit the ‘mediocrity/averageness of mind’. This is strongly the case with psychopathy which when ‘successful’ (and not perceived deliriously but rather wrongly integrated prelogically/in-conviction-as-to-profound-supererogation ) will often perfectly elicit an ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-
ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dynamism’ in the social-construct such that others will find it to their temporal self-interest to perpetuate, whether circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can rationalise their dispositions and acts. This as ‘social psychopathy’ as a result of the psychopath’s initiated postlogism77 in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (involving protracted/derived slantedness), in the absence of social104 universal-transparency104⟨transparency-of-totalising-entailing,-as-to-entailing<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ⟩ on the veridicality of narratives with respect to social-and-confliction-stakes tends to induce56 ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (at the point of such lack of social104 universal-transparency104⟨transparency-of-totalising-entailing,-as-to-entailing<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ⟩ of its postlogism77-slantedness to many a supplanting–conviction-as-to-profound-supererogation—of–attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism interlocutor as the ‘uninstitutionalised-threshold’). Hence psychopathy when studied dynamically is rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally influences social behaviour as at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-thresholding rather than ontological rightness for rightness sake’, whether intemporal (the-Good as longness-of-register-of–meaningfulness-and-teleology99) or temporal (shortness-of-register-of–meaningfulness-and-teleology99), hence its relation to sociopathy which is a more generalised notion of social vices-and-impediments105. The social psychopathy phenomenon (in
behind a registry-worldview’s/dimension’s institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation of prospective \( \text{reference-of-thought–categorical-imperatives/axioms/registry-teleology} \). To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a new human perversion-of- reference-of-thought \( \text{as-preconvergingly} \).

apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \( \geq \) caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality \( \text{for-sublimating–existential-eventuating/denouement} \) of affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ \( \text{as from ontological-normalcy/postconvergence} \)). Thus \( \text{reference-of-thought–categorical-imperatives/axioms/registry-teleology} \) are ‘inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging /mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders categorical-imperatives/registry/axioms-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation null and void, calling for the overcoming of the slantedness/decandoring/distractive-alignment-to- reference-of-thought \( \text{of-apriorising/axiomatising/referencing} \) \( \text{of mental-devising-representation and the articulation of new \( \text{reference-of-thought–categorical-imperatives/axioms/registry-teleology} \)} \), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reflecting intrinsic
categorical-imperatives/registry-worldview/axioms-for-intemporal-preservation-entropy-as-of-ontological-normalcy). In the bigger scheme of things such ‘institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>⟩’ as articulated above gives coherence in conceptualising a continuity in the human emanant/becoming anthropological experience; as putting into perspective and not excepting any particular stage of institutionalisation/intemporalisation, as we might tend to do by focussing on the present positive registry-worldview which is just the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—one of the human-institutionalisation-process, while ignoring the ‘effective and causative intemporal-disposition behind the institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>⟩} transcendental/psychoanalytic-unshackling process’, which skews (‘intemporality—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory-de-mentativity) ‘the cross-section of human entropic being’ in the medium to long run towards intemporal-disposition preservation while undermining temporal-dispositions. Such a depth-of-thought as projected by the ‘institutionalisation intemporal-preservation-entropy-or-contiguity—or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojecting/supererogating/zeroing psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the
definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall perspective of the human species we can’t afford not to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) as it is because every successive transcendental level ‘did its homework’ that we are in the positivistic world, and we can’t confuse ‘being at the backend of the institutional-cumulation/institutional-recomposurc{(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>)} with us being inherently exceptional (it is the transcendental/psychoanalytic-unshackling process of undermining perversion-of- reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > that is). Hence ‘our homework’ is to articulate our very own perversion-of- reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > for the possibilities of the future, and not strive to arrive at a normalcy of ‘our temporal-preservation-as-pseudoimporterality -preservation’ which speaks of inherent relative-ontological-incompleteness -induced,‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>’, as-it-is-thus-‘in-wait’-for-`perversion-of-`reference-of-thought<-as-preconvergingly-

It should be noted that while ‘institutional-cumulation’ and ‘institutional-recomposure’ are used interchangeably, however, the two terms carry two different connotative emphases necessary to make the conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process of human institutional transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (with respect to intemporal-preservation-entropy-or-contiguity—or–ontological-preservation) while institutional-recomposure stresses the peculiarity of the transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity/memetic-reordering wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposured peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposed in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposured into notional–deprocrypticism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive
recomposuring/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposuring. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’>}

effort. Hence dimensionality-of-sublimating –{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}

instigation recurrently inducing the institutionalisation/intemporalisation process (which is not an analogical notion but a contiguous notion as to ontological-contiguity by its intemporal-preservation-entropy-or-contiguity–or–ontological-preservation across institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-

This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposure⟨as-to-historiality/ontological-eventfulness ⟩ ontological-aesthetic-tracing⟨perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’⟩ analysis) is not, as may wrongly be thought, analogical but is rather ‘an ontologically-contiguous meaningfulness-and-teleology reference’ (given the contiguity in the ‘precedingness/supersedingness/ascendency-and-continuity of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation referencing’ across all cumulating/recomposuring institutionalisations); i.e. memetic contiguity as the underlying principle of memetic-reordering which is the ‘contiguous dynamism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the continuous transdimensional/transcendental relation of intemporal and temporal-dispositions’ at uninstitutionalised-threshold, and so, across all cumulating/recomposuring institutionalisations whether from a retrospective, present or prospective perspective. Psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring process can then be defined as arising when a registry-worldview’s/dimension’s {cumulated/recomposured}-consciousness-awareness-teleology is transcended/superseded as to human limited-mentation-capacity-deepening, at its uninstitutionalised-threshold.

This brings up the notion that while candoring/straightness is the way meaning is represented within any registry-worldview/dimension institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, this is just a mental-devising-representation for implying intemporality\(\text{of-thought}\) without which meaningfulness is not functional in the registry-worldview’s/dimension’s {cumulated/recomposured}-consciousness-awareness-teleology\(\text{cumulated/recomposured}\), but then at that same prior registry-worldview’s/dimension’s uninstitutionalised-threshold \(\text{transcendence-and-sublimity/sublimation/supererogatory--dementativity}\) into a prospective registry-worldview’s/dimension’s {cumulated/recomposured}-consciousness-awareness-teleology\(\text{cumulated/recomposured}\) put into question this candoring/straightness mental-devising-representation and the prior registry-worldview’s/dimension’s consciousness-awareness-teleology\(\text{cumulated/recomposured}\) is then represented as preconverging-or-dementing\(\text{apriorising-}
psychologism/decandoring/oblongated. This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics). Stranding purely has to do between placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology and ontological-veridicality/ontological-contiguity of reference-of-thought (from the ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective); with the ontologically-veridical/ontological-contiguity mental-devising-representation stranded/represented as straight, and various shades of notional-discontiguity/epistemic-discontiguity-<between-prior-shallow-supererogation-of-mentally-aestheticised-preconverging/demitting-qualia-schema_and_prospective-profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking-qualia-schema-as-of-epistemic-decadence in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping-set-of-dereifying-hollow-narratives-and-acts> stranded as oblongated/decandored in reflection/perspectivation of their veridical perversion-of-reference-of-thought-as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, beyond their <amplituding/formative-epistemicity>totalising-self-referencing-syncrretising/present-consciousness/illusion-of-the-present. Hence we know of the following de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics) as preconvergently-de-mentated/structured/paradigmed registry-worldviews/dimensions: recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procripticism–or–disjointedness-as-of-reference-
of-thought (our own prospective mental stranding); as these form the backdrop for the articulation of transcending anticipatory and preemptive reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the prospective registry-worldview/dimension that are the resolution to the vices-and-impediments of the prior (uninstitutionalised-threshold) registry-worldview/dimension, successively as base-institutionalisation, universalisation, positivism and prospectively, depredicrysicism. Each of such psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (along the institutional-cumulation/institutional-recomposure-process), have particular ‘central recomposuring determinants’ which the new registry-worldview is coming after, as follows: (i) for Base-Institutionalisation, it has to do with the requisite ‘organising rules/principles’ as ‘a memetic ontological entrapment’ for superseding recurrent-utter-uninstitutionalisation (as an inherently-preconverging-or-dementing–apriorising-psychologism-or-subknowledging–or–perversion-of-reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation,–and-corresponding-amplituding/formative–epistemicity-totalising–self-referencing-syncretising’ relation to meaningfulness). (ii) for universalisation, it has to do with requisite ‘projection rules/principles’ as ‘a memetic ontological entrapment’ for superseding ununiversalisation (as perversion-of-reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, of base-institutional meaningfulness). (iii) for Positivism, it has to do with the requisite ‘empirical rules/principles’ as ‘a memetic ontological entrapment’ for superseding
infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism institutionalisation/intemporalisation, and any ‘complex’ we’ll have about that has to do with our illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage than the ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective). This equally explains why uninstitutionalised-threshold equally carried a complex about their registry-worldview/dimension and these complexes certainly sound unintelligible to us given our vantage perspective at the backend of the institutional-cumulation/institutional-recomposure process. With rational-realism (deprocrypticism), institutionalisation/intemporalisation raises the issue of notional-discontiguity/epistemic-discontiguity~between—prior-shallow-supererogation of mentally-aestheticised—preconverging/dementing—qualia-schema_and_prospective-profound-supererogation of mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> (undisambiguation as notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence> are wrongly given the same elevation), and relevantly so at the procryptic transcendence-and-sublimity/sublimation/supererogatory—dementativity/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor at the procryptic uninstitutionalised-

As a corollary, meaningfulness or rather memetism or suprastructural-meaningfulness (the more veridical nature of meaningfulness beyond intradimensionality as being transdimensional/transcendental) should be notional and reflect this notional–firstnaturedness—temporal-to-intemporal-dispositions<so construed-as-from-perspective–ontological-normalcy/postconvergence> nature of notional–deprocrypticism institutionalisation/intemporalisation to the point of inducing a collective consciousness/social universal-transparency\textsuperscript{103} ⟩\textit{transparency-of-totalising-entailing,-as-to-entailing-} \textit{amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } of ‘knowledge-notionalisation’ (knowledge as understanding not only of the ideal/intemporal but equally how the temporal/defective works distractively, to anticipate and preempt the latter perverseness but doing so rather in a superseding ontologically-minded manner) and intemporal skewing (‘intemporality\textsuperscript{52}-asymmetric-subsumption-of-temporality\textsuperscript{98}’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity)/deferential-formalisation-transference as virtue and (postconvergence) ontological-veridicality/ontological-contiguity\textsuperscript{27}; in contrast to the hotchpotching of notional-discontiguity/epistemic-discontiguity ←between—prior-shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema_and_prospective-profound-

For instance, the uninstitutionalised-threshold\textsuperscript{17} for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-
uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with universalisation–non-positivism–or–medievalism and our positivism–procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in a recurrent-utter-uninstitutionalised registry-worldview. Knowledge-notionalisation as such carries a transcendent-existentialism/in-full-existential-depth-of-notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>—implications which is more than just reactionary to the possibility of temporality/shortness (shortness-of-register-of–meaningfulness-and-teleology) but rather ‘a transcendent-existentialism maturing of thought’ (intemporality as longness-of-register-of–meaningfulness-and-teleology) that takes abstract cognisance of temporality/shortness as an intransient potency (hitherto accounting for the circularity/recurrence/repetition/repeatability of human circular–uninstitutionalised-threshold) to be conceptually understood and superseded recurrently and perpetually. Critically, this insight about the effective nature of ontological-normalcy/postconvergence (in its becoming in a conscious transdimensional/transcendental-meaningfulness or memetism or suprastructural-meaningfulness) as ‘postconverging-or-dialectical-thinking—anapriorising-psychologism—by—preconverging–or–dementing apriorising-psychologism dialectics/dialectical-dynamism’ indicates that while psychoanalytically prior registry-worldviews/dimensions had hitherto been based on mental-devising-representations of ‘thresholding meaningfulness constructs’ (with their reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy–or–contiguity–or–ontological-preservation) within their ‘functional institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy–or–contiguity–or–ontological-preservation’, notional–deprocrypticism going by ontological-

Thus fundamentally preconverging-or-dementing—apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity—of—reference-of-thought does not arise because of failure of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation but rather because of failure of reference-of-thought as of perversion-and-derived—perversion-of-reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing—in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation. This is unlike the case where logical-engagement of mental-devising-representation as ‘postconverging-or-dialectical-thinking’—apriorising-psychologism'/soundness-or-ontological-good-faith/authenticity—of—reference-of-thought is still relevant where there is failing/not-upholding—as-of-apriorising/axiomatising/referencing> logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation (like calculating the answer of an arithmetic operation wrongly) so long as the reference-of-thought is sincerely/genuinely working in adherence to arithmetic axioms to produce the right answer. To illustrate, suppose X and Y are contending (ontological-reference) to know what 5+4 will give as answer (ontological-veridicality), if X is using pencils to count but inadvertently misplaced a pencil or doesn’t perfectly understand how to stack up the pencils to use to count the whole lot, then where his answer was to come out as 5+4=8, we talk of defect-of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as X sincerely wants to calculate to produce the right answer but X’s logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation failed. This doesn’t invalidate the notion that Y can still engage X as ‘possibly-of-postconverging-or-dialectical-thinking—apriorising-psychologism’/possibly-of-soundness-or-ontological-good-faith/authenticity of-reference-of-thought in contending (appropriateness-of-reference-of-thought-as-of-conflatedness) with respect to another arithmetic operation, that is, possibly after pointing out to X where they went wrong in their operation of arithmetic. While threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing—apriorising-psychologism> performers subsequent acts of-similar-or-protracted-contextualisation to their prior acts verified to be of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing—apriorising-psychologism> are priorly projectively invalidated by reflex as ‘possibly-of-preconverging-or-dementing—apriorising-psychologism’/possibly-of-unsoundness-or-ontological-bad-faith/inauthenticity of-reference-of-thought and not ‘possibly-of-postconverging-or-dialectical-thinking—apriorising-psychologism’/possibly-of-soundness-or-ontological-good-faith/authenticity of-reference-of-thought.

To illustrate, suppose X above rather slyly and deliberately (preconverging-or-dementing—a priorising-psychologism mental-devising-representation) miscalculated (non-ontological-reference/non-contending-reference) the answer (in notional-discontiguity/epistemic-discontiguity <between—prior-shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema_and_prospective-profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema>) and Y grasps this, then this invalidates the notion that Y can still ‘genuinely’ engage X (ontological-pertinence) with regards to another arithmetic operation of-similar-or-protracted-contextualisation, with respect to the upheld context behind X’s sly and deliberate basis for miscalculating. Interestingly, while the socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation explains how and why successive institutional-cumulation/institutional-recomposure{(as-to-

Insightfully, we can grasp the ‘intemporal/ontological signal’ pointing to a socially-betraying-threshold-of-ontologising-depth-of-analysis with regards to a dimension’s/registry-worldview ‘preconverging-or-dementing–apriorising-psychologism phenomenon’ like psychopathy and social psychopathy (with respect to procrypticism or perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of positivistic meaningfulness) or accusations and notions of sorcery (with respect to medievalism); as this has to do with human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-

Thus for instance with regards to adult psychopathy and the induced social psychopathy, it will be naïve to simply analyse on a dichotomous basis of psychopathy and its violation of social norm, with the idea that psychopathy is associated with temporal-dispositions destructuring-threshold (uninstitutionalised-threshold /presublimating–desublimating-decisionality)~of-ontological-performance”-<including-virtue-as-ontology> ‘as of the positivism–procrypticism registry-worldview’s/dimension’s socially-betraying-threshold-of-ontologising-depth-of-analysis’/socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (in conjugation to ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfure-or-

Thus the need, in order to attain such a prior requisite ontological/intemporal insight, to ontologically construe (as to deferential-formalisation-transference) contexts of psychopathy and social psychopathy (and generally contexts of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation – `<as-to-

In this respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it ‘becomes existentially in a dynamism of conventioning and ontology’. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to perversion-of- reference-of-thought<as-preconvergingly-
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation > phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some
degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant ‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals- and institutional levels, and worst still perpetuate social ignorance simply by wrongly implied, naïve and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with regards to psychopathy is that these often tend to be short-sighted given the unsustainable nature of the arguments in the middle to long run, and tend to be based on inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-formative-epistemicity-totalising-in-relative-ontological-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In this respect, one can cite at individuals-levels instances of many a human interest story tragedy in the press which often go unanalysed, and in the bigger institutional-level for instance what is the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably due to grave and unprincipled mismanagement with profound social repercussions. The implied intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging-de-mentating/structuring/paradigming, contrasted with a temporal extricatory preconverging-de-mentating/structuring/paradigming, is necessarily the prospective transcending/superseding registry-worldview/dimension. Consider the case of contending about

like accusations and notions of sorcery in a non-positivism/medievalism setup where there is no intradimensional intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming given the obliviousness to a positivistic ontological-reference-of-veridicality/contending-reference-of-veridicality as it is suprastructural/beyond the registry-worldview’s/dimension’s recomposured-consciousness-awareness-teleology to non-positivism/medievalism. Likewise the positivistic meaningful frame is oblivious to its procrypticism, and corresponding resolution as notional–deprocrypticism as the prospective/transcending/superseding ontological-reference-of-veridicality/contending-reference-of-veridicality. Further, this notion of registry-worldviews/dimensions having socially-betraying-threshold-of-ontologising-depth-of-analysis (that need to be suprastructured by prospective/transcending/superseding registry-worldviews/dimensions) explains why a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ aligned with ontological-normalcy/postconvergence is what escapes and provides for grander emancipating possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/{cumulated/recomposured}-consciousness-awareness-teleology in reference (as ‘tentative references-of-thought’) of this same one (ontological-normalcy/postconvergence) ontology/ontological-veridicality/intrinsic-reality and
our corresponding/derived meaningfulness-and-teleology thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the finality of such a ‘postconverging-or-dialectical-thinking psychology or psychology-of-mentation-dynamics or natural-psychological-dynamics’ is one that aligns with and is driven by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) wherein ontological-normalcy/postconvergence is ‘an abstract conceptualisation that by artifice covers for human limited but deepening mentation capacity’. Ontological-normalcy/postconvergence (as to epistemic relative-ontological-completeness) abstractly refers to any relevant/implied registry-worldview/dimension that is in a reflected/perspectivated state of prospective transcending/superseding whether as base-institutionalisation, universalisation, positivism or notional–deprocrypticism as having ‘relative sound/ontologically-veridical reference-of-thought status’, in relation to a corresponding reflected/perspectivated state of prior transcended/superseded registry-worldview/dimension whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism which is then correspondingly of ‘relative unsound/ontologically-impertinent reference-of-thought status’, and so going by the inherent human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnatures—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>—existentialism-form-factor that arises by the mere fact that all the institutionalisations are of the same ‘human form-factor’ with their ‘snowballed differences’ arise solely due to limited-mentation-capacity-deepening involving institutional-cumulation/institutional-recomposure<as-to historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-

Typically, such an insight with regards to compulsing–nonconviction/madeupness/bottomlining
is obvious and transparent with respect to the childhood psychopathy/cinglée mental-disposition, given that an initial encounter often involves a natural ‘postconverging-or-dialectical-thinking–apriorising-psychologism reflex’ by the interlocutor with respect to their initial narratives but after some familiarisation we come to understand that the initial narratives are in fact preconverging-or-dementing–apriorising-psychologism and thus our expectation of the subsequent narratives they iterate is to initiate or be ready to align by a mental-devising-representation as a ‘preconverging-or-dementing–apriorising-psychologism reflex’. This preconverging-or-dementing–apriorising-psychologism veridicality explains both the childhood and adult psychopath disposition for absolving-logic-or-perpetually-fleeting-logic-reflex-or-escaping-logic based on extrinsic-attribution wherein the mental-disposition is to move postlogically/disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness from one set of narratives to the other and one set of interlocutors to the other with the idea convincing is the notion of getting more people ‘mechanically convinced by vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging’ and not an articulation of supplanting–conviction-as-to-profound-supererogation—of–'attendant-

It should thus be noted that the preconverging-or-dementing—apriorising-psychologism of reference-of-thought of a registry-worldview/dimension implicitly reflects a defective/sub-par relative state-of-conceptualisation in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (a fundamentally defective/sub-par state-

In other words, the state of being non-positivism/medievalism with respect to ontological-normalcy/postconvergence is already a defective state ‘in-wait as of prior relative-ontological-incompleteness-reference-of-thought defective as to preconverging-or-dementing–apriorising-psychologism as to mere-formulaic positivistic meaningfulness-and-teleology’ for issues of superstition/lack-of-rational-empiricism to arise whether we talk of sorcery, bodily mutilations and their effects, charlatanisms, etc. Likewise, it will be naïve to imply that our registry-worldview as positivism–procrypticism is in absolute sync with ontological-normalcy/postconvergence by the mere fact that we are at the backend of the institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism>}, as we can equally project prospectively from a retrospective projection insight to grasp how ‘from an utter hermeneutic/reprojecting/supererogating/zeroing circle exercise of ontological-reconstituting–as-to-conflatedness/deconstruction (of our notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature)’ how procrypticism (preconverging-or-dementing–apriorising-psychologism as to mere-formulaic positivistic ‘meaningfulness-and-teleology’)}
in a positivistic registry-worldview de-mentatively/structurally/paradigmatically endemises psychopathy and social psychopathy. intemporal enculturation even when such positive-opportunism—of-social-functioning-and-

grander human the-good. This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipating potential’ over ‘deluded idealisms’ that simply create space for falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since basically knowing-is-acting as of conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism! Rational-realism (as to prospective deprocrypticism) as such involves rather elucidating
distractive-alignment-to- reference-of-thought-<of-apriorising/axiomatising/referencing>/decandoring with three de-
mentative/structural/paradigmatic teleologies: - subknowledging-impulse/compulsive-
dementing temporal-disposition (psychopath), with ‘slanted mechanical narratives’ (preconverging-or-dementing-apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); - subknowledging-temporal-dispositions-teleologies (the-various-temporal-dispositions-teleologies), with ‘banal mechanical narratives discomfiture’ (preconverging-or-dementing-apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); and - the intemporally given and ontologising teleology which ontologically reflects/perspectivates the subknowledging-impulse/compulsive-dementing-temporal-disposition-{psychopath} and the subknowledging -registries-teleologies (the-various-temporal-dispositions-teleologies), from a ‘organic-comprehension-thinking depth as the de-

Thus at the uninstitutionalised-threshold, it is counterintuitive for temporal-dispositions not to perceive their registry-worldview/dimension as ‘un-transcendable’

Galileo’s medieval ‘round world utterances’ nor Darwin’s and others ‘evolution contentions’ are not idle-and-dispensable articulations as all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (occurring at the registry-worldview/dimension or intradimensional level and not logical operation/processing/contention level, are fundamentally about a new existential mental-devising-representation orientation) need to ‘break-the-mind’ of the prior temporal pversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > existential mental orientation to avoid postconverging-or-dialectical-thinking–apriorising-psychologism-<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> (for example, no ‘God-of-plane’ for say an animistic mental orientation that sees gods and spirits as causative, i.e. avoiding to operate the meaningfulness-and-teleology of a transcendent registry-worldview/dimension in terms–as-of-axiomatic-construct of the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the transcended registry-worldview/dimension). This starts with the would-be transcendence-and-sublimity/sublimation/supererogatory–de-mentativity inducing intellectual(s)/emancipator(s) ‘owns reflexive individuation maximalising-as-transcendental liberation/emancipation’ from the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of such prior registry-worldview/dimension from which it/they necessarily come from as well as not heeding generalised-social-temporal-preserving-mental-inclinations; and so, consistently

That’s how the ‘given reality’ is being subknowledged/registry-perverted. The technique to be utilised comprehensively for grasping the social psychopathy dynamism is by articulating an intemporal-referencing transversality-of-affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’ ontological-normalcy/postconvergence reality construct (by intemporal transversality-of-affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’ as from ontological-normalcy/postconvergence is meant an approach that makes the given prelogism-as-of-conviction,-in-profound-supererogation-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at reality the ‘reference of soundness-or-ontological-good-

Analyst’s intellectual articulation known as SUPRASTRUCTURING, wherein the universal ontological implication of social psychopathy dynamism across the human species (across space-and-time) the social/ontological—de-mentating/structuring/paradigming is drawn so that the principles so articulated can be applied in all incidental cases of social psychopathy dynamism (with the intellectual responsibility of avoiding just an ad-hoc/circumstantial based analysis and never elevating such poor rationalisations into an ontology, i.e. avoid the extrication preconverging–de-mentating/structuring/paradigming). SUPRASTRUCTURING effectively involves: (a) ‘registering’/de-mentation/supererogatory—ontological—de-mentation—dialectical—de-mentation—stranding—or-attributive-dialectics of the perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing—in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > associated with social psychopathy dynamism, i.e. procrypticism—disjointedness-as-of-reference-of-thought mental-slantedness/decandoring (b) ‘superseding’ by developing universal axiomatic construct/categorical-imperatives preempting ‘(a)’ above which are habituated over a generation or two of the human species for notional—deprocrypticism institutionalisation/intemporalisation transcendence-and-sublimity/sublimation/supererogatory—de-mentativity involving its formalisations and internalisations (psychoanalytic-unshackling by: (i) articulating a social universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—transparency—amplituding/formative—

For instance, de-mentatively/structurally/paradigmatically the positivistic mental frame is in alienated-disposition/logically-incongruent and generates internal contradiction towards the non-positivism/medievalism mental frame as otherwise you have <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or the referencing/registering/decisioning of meaning in terms–as-of-axiomatic-construct of the registry-worldview/dimension that needs to be superseded/preceded/overridden/uttered, for instance, retrospectively the ‘God-of-plane’… type of proposition from an early animistic society which doesn’t comes to terms with the prospective positivist worldview construct as it hangs on to its non-positivist reference-of-thought–categorical-imperatives/axioms/registry-teleology, and this will equally apply prospectively between notional~deprocrypticism and procrypticism as the procryptic mindset/reference-of-thought will strive to register meaning not prospectively taking account of procrypticism as a ‘mental perversion/defect’, and likewise retrospectively with the ‘medieval mindset’ with respect to the positivist mental frame. This obviously calls for an ‘intellectual/scientism detachment’ towards the perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation registry-worldview/dimension, with an intemporal-disposition sense of contributing to the bigger possibilities for of the species, i.e. intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation

This way of hermeneutic/reprojecting/supererogating/zeroing ‘ontological reasoning’ to arrive at ‘intemporal-or-ontological meaning’ that is beyond any amplituding/formative–epistemicity–totalising–self-referencing-syncretising/self-centered/present-consciousness/illusion-of-the-present/mirage mental projection within just a given registry-worldview/dimension so as to ‘grasp fundamental intemporal-disposition as of the inherent nature of existential-reality’ is central to the notional–deprocrypticism registry-worldview/dimension as a doppler-thinking exercise known as suprastructuralism. Suprastructuralism is grounded on ontological-normalcy/postconvergence insight and places ‘abstract intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ above the reference-of-thought–categorical-imperatives/axioms/registry-teleology devising (supposedly for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) meant to represent it in a given registry-worldview/dimension as prior/transcended/superseding (which as such is now construed as ‘perversion-of-’ reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation in the mental-devising-representation of intrinsic-reality/ontological-veridicality, thus requiring new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology to ‘preserve the abstract and intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’. Deprocrypticism’s suprastructuralism involves ‘intemporality’-

preservation in grasping the denaturing\(^5\) of reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{16}\) as of ontological-normalcy/postconvergence basis of analysis, and by so doing grasping the precedingness/supersedingness/ascendency of intrinsic-reality.

[Referentialism involves a reference-of-thought (so-characteristic of the prospective deprocrypticism registry-worldview/dimension) construing existence and existential-conceptualisation/construal as about the ‘precedingness of becoming’ as of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—confabulated\(^2\) in {preconverging-disentailment by} postconverging-entailment rather than apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—constitutedness\(^{14}\) in preconverging-entailment (notwithstanding the instances of the latter’s attendant approximating-nature for conceptualisation/construal rather construed as presencing—absolutising-identitive-constitutedness\(^{14}\)). apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—constitutedness\(^{14}\) in preconverging-entailment tend to fallaciously imply ‘existence of things in existence’ whereas apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—confabulated\(^2\) in {preconverging-disentailment by} postconverging-entailment rightly implies ‘things becoming in existence rather as subsumed-in-existence in a superseding–oneness-of-ontology’; so because apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—constitutedness\(^{14}\) in preconverging-entailment takes a simplistic shot at construal/conceptualisation of existential-reality practically presuming this to be ‘effectively absolutely real and final’ but then with human limited-mentation-capacity-deepening\(^{53}\) this is
erroneous hence the need for re-categorisation/re-adaptation/re-classification as ‘re-

But then the inherent nature of existence in relation to human limited-mentation-capacity-deepening construal of it is one of evasiveness as implied by the ‘imbricatedness/threadedness/recomposuring as of attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity ~reifying-or-elucidating-of-prospective-relative-ontological-completeness —of— reference-of-thought— devolving-as-of-instantiative-context as to existence-potency ~sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing—that-further—epistemically-unconceal—the-very-ontologically-same-existential-reality’ such that we are only occasionally and partially aware about the critical defective nature implied by apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity }—constitutedness—in–preconverging–entailment in categorisation schemes, thus fundamentally defining the limits even of a presencing—absolutising-identitive-constitutedness as of existential-
construal/construals. The implication is beyond just the notion of knowledge construal/conceptualisation categorisation schemes and scheming but extends to the very inherent construal/conceptualisation of knowledge as of its implied ontological and virtue construct itself; so because the de-mentative/structural/paradigmatic basis of categorisation scheming are equally the de-mentative/structural/paradigmatic basis of the inherent analysis and "meaningfulness-and-teleology" construed/conceptualised. Since categorisation schemes (whether construed/conceptualised beyond-the-consciousness-awareness-teleology define the "reference-of-thought of categorisation construal/conceptualisation of knowledge", it is critical to grasp that the inherent de-mentative/structural/paradigmatic limits/defects of such "reference-of-thought of categorisation construal/conceptualisation of knowledge" are systemic hence inducing "flawed-existential-elevation-of-reference-of-thought" as of ontological and virtue implications (as ontologically-perspectival-degraded-as-decentered/preconverging-or-dermenting-reflexive/entailing-teleology-differentiation-as-of-subtransversality<in-desublimating-existential-eventuating/denouement—of-motif-and-apriorising/axiomatising/referencing) at the given "reference-of-thought of categorisation construal/conceptualisation of knowledge". constitutedness in preconverging entailment re-categorisation/re-adaptation/re-classification’. Consider the example of the ‘God-of-plane’ type of expression in an animistic/base-institutionalisation setup, where their fundamental psychologism is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued in the animistic/base-institutionalisation psychologism, until down the line the latter’s meaningfulness-and-teleology<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, by way of continuous ‘presencing—absolutising-identitive-constitutedness’ as ‘recurrent re-categorisation/re-adaptation/re-classification of the prior apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity}—constitutedness in preconverging entailment of reference-of-thought’ is critically rid of the very essence of animistic/base-institutionalisation psychologism inducing an overall break into a positivism psychologism. It is interesting to note that going by the psychologism of a base-institutionalisation social-setup reference-of-thought for instance, the idea of arithmetic as we may grasp today in a positivistic registry-worldview/dimension Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, and as of its operant nature, isn’t the case in its operant conceptualisation in such a base-institutionalisation social-setup <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving-as-of-instantiative-context—meaningfulness-and-teleology as rather the mental-disposition apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in the use of numbers is more about acting in currying favours or in view to receiving favours meaningfully as of ‘<amplituding/formative–epistemicity>totalising~nominal-as-tendentious—implicated_attendant–ontological-contiguity~educed–

Thus use of numbers is defined by other ideas in such early hunter-gather and animist societies given Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology like the notion of wealth accumulation, which will be predominantly about ‘inducing a sense of social obligation or faithfulness or deference’ from other persons, and so together with other cultural peculiarities that avoid hoarding and emphasise wealth display, gifts, etc. Psychologism (as being central in apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity } conflatedness -in {preconverging-disentailment by] postconverging-entailment or rather ‘presencing—absolutising-identitive-constitutedness’ as recurrent re-categorisation/re-adaptation/re-classification of apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity }-~educed–existentialising/contextualising/textualising-contiguity }
constitutedness, refers to the underlying human reflex mental scheme of a given registry-worldview’s/dimension’s reference-of-thought ‘allowing for its given capacity to supersede its psychological complex in construing causality as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity transcendent-enabling/sublimating/supererogatory–de-mentativity and corresponding meaningfulness-and-teleology’. The bigger question could be asked; why doesn’t humans in recurrent-uninstitutionalisation spontaneously articulate and relate to meaningfulness-and-teleology as humans in base-institutionalisation–ununiversalisation, who do not do likewise as humans in universalisation–non-positivism/medievalism, who do not do likewise as humans in positivism–procrypticism? Is it a difference in species, as of successive species? Obviously, no! As we know from history and anthropology that cultural diffusion has shown that all humans are able to come to terms and operate at the highest forms of human registry-worldview’s/dimension’s institutionalisation. This fundamentally points to the centrality of a registry-worldview’s/dimension’s reference-of-thought psychologism ‘placeholder-setup/mentation/mental-devising-representation/consciousness-awareness-teleology as arising and determined by its specific limited-mentation-capacity-{as from relative apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—constitutedness in preconverging entailment to relative apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-disentailment by} postconverging entailment construal/conceptualisation as soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’. The underlying human psyche is in need of a ‘framework of intelligibility construal/conceptualisation’ as its mental-scheme (psychologism) by which
humans, given their limited-mentation-capacity-deepening, can then project ‘mental and existential investment’ in a world of perceived stakes (social, natural and/or supernatural) in a ‘social framework of intersolipsistic deambulation’ (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential possibilities, on the basis of its limited-mentation-capacity-deepening determining its prospective relative-ontological-completeness -of- reference-of-thought, as enabled by the ‘social framework of intersolipsistic deambulation’. This ‘social framework of intersolipsistic deambulation’ is highly linear as of the possibilities for construing human psychical and institutional readjustments in inducing successive institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>) which are thus equally in a linearity. This notion of ‘social framework of intersolipsistic deambulation’ harkens back to that of human registry-worldview’s/dimension’s institutionalisation by its socially-functional-and-accordant thresholds of notional–firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence> further redefining the possibility of uninstitutionalised-threshold as the threshold for failing/not-upholding the institutionalisation’s reference-of-thought–categorical-imperatives/axioms/registry-teleology and the possibility of prospective institutionalisation as renewing reference-of-thought–categorical-imperatives/axioms/registry-teleology for upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence with respect to the uninstitutionalised-threshold, thus further redefining successive prospective socially-functional-and-accordant thresholds as successive
prospective registry-worldviews/dimensions. Thus, implying a dual-faceted representation of human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-of-presence  \((\text{implicted-}'\text{nondescript/ignorable–void}'-\text{as-to-}\ \text{presencing–absolutising-identitive-constitutedness})\), the present registry-worldview’s/dimension’s \(\text{reference-of-thought}\) by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in secluding its uninstitutionalised facet from placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(\text{reference-of-thought}\) with any sense of uninstitutionalised-threshold \(\text{being}\) rather an afterthought posture rather with respect to the prior registry-worldview/dimension uninstitutionalised facet of \(\text{reference-of-thought}\). It is this appreciation successively implied registry-worldviews/dimensions prospective relative-ontological-completeness\(\text{reference-of-thought}\) emphasising both institutionalised-and-uninstitutionalised-facets that naturally validates the notion of a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that is counterintuitive to a stigmatic/mented psychology as conceptualised today. when factoring in such mental-dispositions as believing in superstitions, alchemy, notions-and-accusations-of-sorcery, etc). As we come to recognise that such an approach renders the meaningfulness-and-teleology as value-reference of every registry-worldview/dimension at the backend of the institutional-cumulation/institutional-recomposure ⟨as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism⟩ as the absolute determinant of what can be psychology, with a naivety that doesn’t allow consciously, (as consciously decentering and pivoting with respect to human psychical and institutionalisation implications), for prospective transcendence-and-sublimity/sublimation/supererogatory de-mentativity, as it doesn’t factor in the said registry-worldview/dimension prior relative-ontological-incompleteness of reference-of-thought to then project that there may be a prospective relative-ontological-completeness of reference-of-thought which meaningfulness-and-teleology as value judgment transforms psychological-construal/psychologism. The best possible outcome in this regard is as of the construal of a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing—psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as it establishes prospective relative-ontological-completeness of reference-of-thought by social
As setting up the relevant attendant psychology is only by a construal that the best possible psychology-construct/psychologism is necessarily attained by reifying-or-elucidating-of-prospective-relative-ontological-completeness -of-reference-of-thought-devolving-as-of-instantiative-context (that is, ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’), and so successively across all registry-worldviews/dimensions, whether retrospectively or prospectively. This insight about the nature of a mented/stigmatic psychology compares with the instance about a Kantian absolute apriorising/axiomatising/referencing exercise; in that in both instances, human mentation capacity is construed as absolutely given at all times, with that mentation capacity rather ‘reflexively and erroneously’ absolutely construed as of the positivistic mindset/ reference-of-thought, and what is not factored in is the fact that there is a human limited-mentation-capacity that maximalisingly-recomposes as of human shallow-to-

preservation-entropy-or-contiguity–or–ontological-preservation ushering in notional–deprocrypticism as prospective institutionalisation. In this regard, we’ll certainly
inherently relate to preceding successive uninstitutionalised-threshold\textsuperscript{02} of recurrent-utter-

and in \[\text{(supererogatory–ontological–de-mentation-or-dialectical–de-

respect to such a representation of our denaturing\textsuperscript{1} of positivistic meaningfulness as our

<amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reference-of-thought as of the apriorising/precedingness of attendant–ontological-contiguity 02–educted–existentialising/contextualising/textualising-contiguity reflecting this reality beyond and above it from the positivism perspective. Thus it is fundamentally the case that the requisite construal/conceptualisation as decentered and in de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of an uninstitutionised-threshold 02 is hardly just one of ‘simplistic knowledge elucidation’ but rather an elucidation as of intellectual courage in bluntly asserting decentering and de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Intellectual courage as imbuing knowledge with organic profoundness of intemporal-disposition philosophy rather than just a mechanical construct of technicalities is the central driver for all initiated transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and prospective
institutionalisations, as this goes beyond intellectual institutional-being-and-craft, since there is ‘no magical knowledge technicality’ for implying a more profound ontological-completeness-of-reference-of-thought over a relatively relative-ontological-incompleteness-of-reference-of-thought but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-positivism/medievalism mindset/reference-of-thought, fundamentally so with respect to such an intrinsic-reality/ontological-veridicality knowledge construct issue associated with transcendental-enabling/sublimating/supererogatory-de-mentativity rather than a conventioning sovereign construct-choice issue associated with social-aggregation-enabling. In this regard, the issue arising is ‘altogether not a knowledge elucidation problem’ with respect to the implied representation of uninstitutionalised-threshold as decentered and in de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) but rather a ‘psychological complex issue’ of the prior/transcended superseded reference-of-thought. This explains why the issue is construed ontologically in ‘psychologism terms as of amplituding/formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, as requiring a coming to terms with the understanding implied by prospective institutionalisation as of its more profound attendant-ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–reifying-or-elucidating-of-prospective-relative-ontological-completeness–of-reference-of-thought–devolving-as-of-instantiative-context; as more fundamentally, Galileo’s use of a telescope to demonstrate a heliocentric system with respect to the non-positivism/medievalism reference-of-thought is not about the inherent knowledge implications to which the non-positivism/medievalism mindset/reference-of-thought has ‘mentally shut-off’ to, but fundamentally about the ‘psychological complex’ of the non-positivism/medieval world of countenancing such
meaningfulness as jeopardising the prior (non-positivism/medievalism), with the implication rather for the need of the prospective psychologism as the positivism institutionalisation psychologism (<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought foundation as new placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology) requisite knowledge or meaningfulness-and-teleology reference-of-thought. Such equally applies with respect to notional–deprocrypticism prospective institutionalisation relative to our procrypticism uninstitutionalised-threshold. In other words, prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is construed not in terms–as-of-axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic causality as-to-projective-totalitative–implications-of-prospective- nonpresencing–for-explicating-ontological-contiguity outcomes construed as the overtly compelling aspect of the knowledge’ validating a knowledge construct but is construed rather in terms–as-of-axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discretional contemplative aspect of the knowledge, behind the thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is grounded on such an underlying reference-of-thought associated with organic-knowledge qualified as the institutionalisation psychologism. In this regard, a chemist or botanist for instance in a non-positivistic as medieval or animistic/base-institutionalisation setup will certainly not confuse the fact that its demonstration of chemical reactions or a plant demonstration to approval in such a social-setup necessarily imply that ‘the underlying positivism mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discretional contemplative aspect as of ontological-faith-notion-or-

Such
organic-knowledge gets institutionalised to an extent by the habituation as of
circularity/recurrence/repetition/repeatability of the mechanical-knowledge implied

The further implication is that notional–deprocrypticism is rather construed as a perpetuating metaphysics-of-absence \{implicated-epistemic-veracity-of nonpresencing \langle perspective–ontological-normalcy/postconvergence \rangle\} which driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality can then enable that way the perpetual upholding of organic-knowledge. This ‘mechanical-knowledge by organic-knowledge’ implication for conceptualising institutional-cumulation/institutional-recosposure\{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing \langle perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’\rangle\} is validated by ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ across retrospective and by implication prospective registry-worldviews/dimensions. The ontological-contiguity\{of-the-human-institutionalisation-process\} behind the institutional-cumulation/institutional-recosposure\{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing \langle perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’\rangle\} doesn’t only imply that the ontological-contiguity\{of-the-human-institutionalisation-process\} is simplistically the result of ‘social-universally-transparent-and-implicitly-formulated direct-constraining-construct’ successively as: non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition in recurrent-utter-uninstitutionalisation, ‘rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism’ in base-institutionalisation—

The conjugation of other shades-of-temporality\textsuperscript{98} to postlogism \textsuperscript{77} induces their respective

psychologism, in want for prospective institutionalisation. The underlying insight being that
human formulation of meaningfulness-and-teleology is necessarily incomplete because of its
limited-mentation-capacity and thus comes with an inherent sense/projection of ontological-
appropriateness, and as of human developing ontological-completeness-of-reference-of-
thought, as the driving element in upholding ontological-contiguity/ontological-veridicality.
This notion as reflected by ontological-faith-notion-or-ontological-fideism—imbued-
underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-
existential-reality (as it enables the further expansion of the registry-worldview’s/dimension’s—
reference-of-thought-for-social-functioning-and-accordance intemporal-thresholds and so as
of ontological-emancipation-beyond-just-virtue) should be the critical and decisive
constructive/institutionalising/nascent–sublimating-decisionality element for attaining
notional–deprocrypticism wherein the ‘social-universally-transparent-and-implicitly-formulated direct-constraining-construct’ as mechanical-knowledge is construed as overlapping
with the ‘complementing grander social-universally-non-transparent-thus-non-constraining-
element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed
as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ as organic-
knowledge. The reality of ontological-faith-notion-or-ontological-fideism—imbued-
points to the fact that the traditional construal of knowledge often tacitly as of intemporal/longness-of-register-of—meaningfulness-and-teleology—is incomplete and rather speaks of ‘vague intellectual intemporal-romanticism’ and doesn’t fit with the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—notional—firstnatures—temporal-to-intemporal-dispositions=<so-construed-as-from-perspective—ontological-normalcy/postconvergence>—existentialism-form-factor as upheld by the mediocrity principle underlying a rational-realism perspective, and explains why articulating knowledge merely as ‘mechanical-knowledge’ is bound to lead to its distortion/perversion/misconstrual by the mere fact of human temporal/shortness-of-register-of—meaningfulness-and-teleology—mental-disposition adhering rather to wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology)—implied by the mechanical-knowledge explaining the successive need for ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality-to overcome such distortion/perversion/misconstrual; as in fact despite such a vague idealism as intemporal-romanticism, implicitly where highly pressing we tend to be obliged to recognised this temporal-to-intemporal reality as implied in the way we go about developing many a social formal construct. Thus notional—deprocrypticism knowledge as overlapping the mechanical with the organic, as of the intemporal/longness-of-register-of—meaningfulness-and-teleology—mental-disposition driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality.
existential-reality behind the mechanical-knowledge, is a further validation of the idea of notionalisation/notional-conception/amplituding of knowledge which emphasises in principle and beforehand/as-of-a-priori a deliberative consideration of this temporal-to-intemporal human disposition in relating to mechanical-knowledge as of prospective possibilities for a better preempting of temporality/shortness and skewing towards the intemporal/longness-of-register-of—‘meaningfulness-and-teleology’, and so as of organic-knowledge overlapping. Further, the reality of a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>”—existentialism-form-factor means that human meaningfulness at all times is more of ‘a solipsistic transversality—<for-sublimating—existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—‘motif-and- apriorising/axiomatising/referencing’ of human meaningfulness as of temporal-to-intemporal mental-dispositions transversality—<for-sublimating—existential-eventuating/denouement>—of- affirmative-and-unaffirmative—disambiguated—‘motif-and- apriorising/axiomatising/referencing’ and ‘not a ‘solipsistic commonness of meaningfulness that wrongly implies no notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> mental-dispositions’, as any commonness is ‘a commonness implied with respect to secondnaturing institutionalisation as of social-functioning-and-accordance—as-of—social-stake-contention-or-confliction thresholds’, with the implication that there is no point acting and relating with knowledge as if it is about a solipsistic transformation into intemporality/longness but rather relating to it as a secondnaturing exercise of skewing (‘intemporality—asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity or deferential-
formalisation-transference) with respect to the institutionalisation/intemporalisation process as virtue (a notion equally implied by many a prophesying metaphysico-theological construct as the intemporality/longness and transcendental projections as of their limited-mentation-capacity in their own times in resolving the issues of human temporality/shortness in their times). In which case while such intemporality/longness cannot be construed as of a social commonness of reference-of-thought, it’s occurrence if it does occur can only be construed in transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing” (more like the abstract notion of faith, by definition and as implied in many a creed, however metaphysical though, can only be solipsistic to an individual and not amenable to a commonness of social contemplation) as of abstract intersolipsism. The Nietzschean metaphor ‘God is dead’, as of human emancipation, is one whose validity can only be countenance where it implies the capacity of human pretence of intellectual-and-moral sublimation, and not the notion of intellectual-and-moral decadence. *Thus to sum up, the overall notion of apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity }–confatedness in {preconverging–disentailment–by}–postconverging–entailment in relation with other elucidative associated notions can further be clarified as follows in ‘interdimensional/transdimensional/transcendental terms in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process’ as well as ‘individuation terms of human temporal-to-intemporal mental-dispositions’. In other words, suprastructuralism (as of its referential and ontological-normalcy/postconvergence emanance perspective and as a doppler-thinking exercise) ushers in a whole new comprehensive registry-worldview across the entire social construction-of-meaning called deprocrypticism, much like positivism did over non-positivism/medievalism or universalisation over ununiversalisation or base-institutionalisation over tert-uninstitutionalisation. Central to such ‘a universal notion of deprocrypticism’ is the idea of an utter-recomposuring-ontologising by upholding ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, involving postdication with postdicatory techniques and postdicatory mindset/ reference-of-thought in reflection of the suprastructural and ontological-

The bigger point of successive institutionalisations has to do overall with their specific

Such dynamic and mutually beneficial insight at the meta-conceptualisation and incidental further extends to other related incidental issues relevant to the meta-conceptualisation. It should be noted that this overall explanatory exercise is ‘not reasoning by analogy’ but rather contiguous (ontological-contiguity”) as the fundamental notion is institutionalisation/intemporalisation entropy (intemporal-preservation contiguity; by a skewing device (‘intemporality”)–asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-

humans having in reality ‘notional–firstnaturedness—temporal-to-intemporal-dispositions–so-

‘uninstitutionalised-threshold’. More like the modern notion of medicine doesn’t work on the
idea of exceptional people, as this will ultimately lead to a wrong and superstitious disease
theory, but accepts that de-mentatively/structurally/paradigmatically bacteria, cancer, organ
failure, etc. cause disease and that the virtue of medicine is about how to understand and
preempt the above causations; likewise deprocryptic virtue operates on a realistic grasp of
human subknowledging/mimicking/temporal-to-intemporal-solipsistic-projections at
uninstitutionalised-threshold and then strives to skew/deferential-formalisation-transference for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-preservation entropy/contiguity). We can garner such emanant (becoming) ‘psychoanalytic unshackled insight’ of how we transcended from non-positivism/medievalism to a positivistic registry-worldview. A literary insight can also be grasped reading Chinua Achebe’s Things Fall Apart on how a community where a traditional registry-worldview with its sense of purpose had to deal with positivistic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Think of the state of the mind of Okonkwo of the Umuofia Clan. Though, in this case the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is by cultural diffusion rather than by internal philosophical transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Basically, all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity involve ‘a psychoanalytic-unshackling of this sort’. Counterintuitively, it should be understood that no transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rational because you rationalise by operating logic on a sound registry-worldview/axiomatic construct/categorical-imperatives but then the need for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity due to perversion-and-derived- perversion-of-reference-of-thought supersedes/precedes logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, so you rather have a
reinvention as <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought of a new and better registry-worldview/axiomatic-construct/categorical-imperatives by the psychoanalytic-unshackling coming from its better grasp/<amplituding/formative–epistemicity>causality—as-to-projective-totalitative~implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity of the world/intrinsic reality. Basically, we can say that human-emanant/becoming-transcendence is the first level of human invention (incremental inventions of relatively sounder minds; with the would-be ‘intellectual-analysts’ undergoing their own philosophical/first-level transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to liberate themselves before secondnaturing/institutionalising for the new possibilities for the species; noting that, this doesn’t mean that the Descartes, Comtes, Galileos, Newtons, Darwins… of the world, miraculously came up with positivism to supersede/precede/override/utter medievalism, as they were of medieval stock but by philosophical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity could project beyond the limits of non-positivism/medievalism even were they were still imbued with remnants of the old like alchemic beliefs. Hence it is the transcendental process that is actually critical)! Now what positive can come from psychopathy? From the intemporal perspective NONE. Besides specific social consequences of psychopathy as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath; by and large, ontologically and as reflected by the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology), the psychopath’s and other postlogic articulations have a nefarious effect, on social—meaningfulness-and-teleology particularly in ‘spheres of extended-informality—susceptible—

This effectively forms the recomposured backdrop for prospective transcendental construct of deprocrypticism, as the ‘ontologising organic-comprehension-thinking (organicalism/\text{ intemporal-prioritisation-of- reference-of-thought}’–as-
confoundedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) that reflects/perspectivates the protracted threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-'attendant-intradimensional'-prospectively-disontologising-preconverging/dementing-apriorising-psychologism. But then, a psychopath can be so irrational that in temporal terms it might do a lot of ‘good’ to a specific individual or group of individuals (for instance, steal and distribute or even some other things but coming initially from a vice; as may be enabled by the psychopath’s faulty-mentation-procedure-deception-or-urge to attain an outcome). This dynamic element can make psychopathy and social psychopathy difficult to deal with as a social phenomenon, as the questions are not only how culpable is the psychopath but extend to who is temporally getting what from the psychopathic situation, what accounts and narratives should be believed, etc., thus requiring an utter and intemporally uncompromising ontological conceptualisation to construct an <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity science. That said, beyond just about such a present worldly take to societal issues, there is a bigger question of the universal implications on human civilisation of postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomena as reflected above regarding the contiguous process of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation behind human civilisation. It is equally important to note that as much as the psychopath seem to have a weird mentality (slantedness), the incidence and initiation of psychopathy, equally has to do both with the nature of the psychopathic/postlogism mind contrasted to the nature of the ‘normal supplanting-conviction-as-to-profound-supererogation’ of ‘attendant-intradimensional’-
outcome-sought-precedes-existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness⟩ or postlogism
in preconverging-or-dementing—apriorising-psychologism)! Straying into a basic elucidative anthropopsychology/the-anthropological-continuity (a novel hermeneutic/reprojecting/supererogating/zeroing approach to psychology); extrinsic-attribution is a fairly common social mental-disposition, at ‘uninstitutionalised-threshold’ as we are not inherently intemporal (the-Good as longness-of-register-of—meaningfulness-and-teleology) in our solipsistic projection but have the potential of temporal (shortness-of-register-of—meaningfulness-and-teleology) solipsistic/emanant projections of postlogism-slantedness//ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought- devolving ontological-performance-<including-virtue-as-ontology>. The mechanism of institutionalisation/intemporalisation and formalisation ensures that because of the positive-opportunism—of-social-functioning-and-accordance that the intemporal-disposition (as it syncs with intrinsic reality and is thus ontological) brings to the cross-section of human temporal interests at 'socially-perceived-value as of social-stake-contention-or-confliction', it tends to skew (‘intemporality—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity)/deferential-formalisation-transference and dominate temporal-dispositions in the medium to long perspective. For instance, everyone will like to see a good legal system to ensure that they do not fall afoul of a bad judgment even if, circumstantially, maybe they themselves may be inclined not to have others or some others to enjoy the same (of course, the internalisation of our ‘present institutionalised/intemporalised positivistic meaningful worldview’ will seem to imply that we do have a first nature disposition to be inherently civilised to want to universally wish that
everyone have to deal with a fair legal system, that anyway is to the credit of the institutionalisation/intemporalisation process, but that is a secondnatured/internalised construct). This explains why there is no need to breach the scientific principle known as the ‘mediocrity principle’, (which says that there are no exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in reality man is a notional~firstnatures~temporal-to-intemporal-dispositions<-so-construed-as-from-perspective~ontological-normalcy/postconvergence> creature in its moral/virtuous-agency); to explain why society tends to improve/progress. Rather, the intemporal-disposition de-mentatively/structurally/paradigmatically brings more overall good and hence skews (‘intemporality’^2-asymmetric-subsumption-of-temporality‘), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/suprerogatory-de-mentativity) man in the medium to long perspective towards ‘the-Good/understanding/notional~knowledge-reification~gesturing<-in-prospective_psychologismic~apriorising/axiomatising/referencing-\{of-attendant~ontological-contiguity ~educed~existentialising/contextualising/textualising-contiguity \}~conflatedness ~in~\{preconverging-disentailment~by\}~postconverging-entailment~/<amplituding/formative~epistemicity~causality ~as~to~projective~totalitative~implications-of-prospective~ nonpresencing~-for-explicating-ontological-contiguity (institutionalised, formalised and internalised)’. This elucidation is important because while internalisation might point to the social good it is important to understand that when dealing with our solipsism at ‘uninstitutionalised-threshold’ we aren’t anymore intemporal (the-Good as longness-of-register-of~‘meaningfulness-and-teleology’\) than temporal (shortness-of-register-of~‘meaningfulness-and-teleology’\) going by the ‘mediocrity principle’, and the analysis should take account of this (by not just operating/processing logic but construing notional~firstnatures~temporal-to-intemporal-dispositions<-so-construed-as-from-

‘attendant-inradimensional’—prospectively-disontologising—preconverging/dementing—apriorising-psychologism>. Why talk of ‘uninstitutionalised-threshold’? This is the underlying notion of ‘a grand theory of psychology’ that has been missing to turn psychology from a preconverging—de-mentating/structuring/paradigming of the human presencing—absolutising-identitive-constitutedness social-vestedness/normativity—discretely-implicitly-functionalism as modern into a postconverging—de-mentating/structuring/paradigming across-and-of-all-times of nonpresencing—perspective–ontological-normalcy/postconvergence>! Why? The foundation of a human psychological science should be fundamentally about ‘the contiguity/entropy conceptualisation of the human psyche’ (and as this permits institutional-cumulation/institutional-recomposure—historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective–ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism’) or anthropopsychology or ‘the-anthropological-continuity’, i.e. cumulating/recomposing from recurrent-utter-uninstitutionalisation, based-institutionalisation—ununuversalisation, universalisation—non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism). The present treatment of psychology will seem to imply that all psychology is about psychoanalytic techniques on the modern positive mind, which is rather naïve and uninsightful not just in terms of scope but critically depth of conceptualisation. The answer to this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of
‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation abstractly allows for human-subpotency survival/existence/emanance/fulfilment/flourishing in existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency ~ sublimating–nascence, disclosed-from-prospective-epistemic-digression and assumes a fundamental referencing base in the study of the psyche (noting that by saying ‘notion’ is meant, the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation covers the concepts of temporal preservation (including subknowledging, mimicking)-to-intemporal preservation, just as the notion of good covers the concepts of good-to-bad). Correspondingly, this notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involves ‘mental candoring’ where mental-devising-representation syncs with intrinsic-reality and mental decandoring where mental-devising-representation is a wrong/flawed perverted representation of intrinsic-reality. If we have an anthropological continuity/anthropopsychology, then the continuity as entropy is the exercise of candoring as ‘straightness/soundness-or-ontological-good-faith/authenticity’ of reference-of-thought referencing/registering/decisioning or registry-teleology (being a functional representation of how an intemporalising registry-worldview/dimension perceives itself) and decandoring as ‘perverted/brazen-but-unsoundness-or-ontological-bad-faith/inauthenticity’ of reference-of-thought referencing/registering/decisioning or registry-teleology (being a functional representation of how a prospective intemporalising registry-worldview/dimension perceives the prior-and-'preconverging-or-dementing’–apriorising-psychologism registry-worldview/dimension); with this latter representation undermining the ‘temporal-dispositions solipsistic/emanant postlogic miscuing presumptuousness/arrogation effect’ as the unconscionability-drag responsible for perversion-of reference-of-thought as preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > across the institutional-cumulation/institutional-recomposure-{as-to-

highlights the vacuousness in all transcendental relations wherein the transcended is vacuous
with respect to the transcending. Such vacuous transcendental manifestations involves dialectically (the transcended and transcending relation with regards to:) deductive narratives instances, life episodes, life schemes, general being/existential dispositions and the specific existentialism/full-existential-depth-implications involved with a registry-worldview/dimension; wherein temporal-dispositions present-consciousness (in their illusions-of-the-present) perpetually portray candor and straightness but on retrospection are shown to be decandored and oblongated which ontologically implies these are veridically of \textsuperscript{99} de-mentation\textsuperscript{99} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as of preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism-\textsuperscript{21}<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> notwithstanding their wrongly projected postconverging-or-dialectical-thinking\textsuperscript{2}\textsuperscript{1}–apriorising-psychologism-\textsuperscript{21}<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase>. This is ontologically foundational (more like the apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument grounding spirit of arithmetic cannot be undermined in any way possible and you then have the possibility of sound arithmetic thereafter). \textsuperscript{99} de-mentation\textsuperscript{99} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) prevents temporal-dispositions (in the articulation and re-articulation of narratives) by the ‘temporal-dispositions disjunction/skipping’ to ‘wrongly imply the narratives subsequently articulated and re-articulated are of intemporal-disposition teleology\textsuperscript{99} hence wrongly implying candored and straightness, whereas these are in effect \textsuperscript{99} amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \textsuperscript{3} iterating narratives of temporal-dispositions teleologies’; and so, by way of coring which involves accounting-for-temporal-dispositions-defect/preconverging-or-dementing\textsuperscript{2}\textsuperscript{1}–apriorising-psychologism (the-perversion-of-the–categorical-imperatives/axioms/registry-teleology\textsuperscript{99}–for-intemporal-

This ensures in effect ‘the de-mentation\(\) (supererogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-attributive-dialectics).-in-a-contiguity-of-increasing-ontological-normalcy/postconvergence’.

Ontology is an altogether coherent construct with no room for excepting from coherence, which then simply implies the superseding of any such pretence of an excepting. (For instance, we can be calculating the sum \((5 \times 5)+5–5\), and make the mistake to say \(5 \times 5 = 24\) but then overlook it and agree together that the answer should be \(24\) and go on to resolve the entire equation as \(24\).

This type of non-ontological thinking (a non-ontological thinking is also known as a misanalysis or misthinking or misreasoning or mislogic or preconverging-or-dementing–apriorising-psychologism–stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> or <amplituding/formative–epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or notional-discontiguity/epistemic-discontiguity <between—prior-shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema_and_prospective-profound-supererogation -of-mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema>, as there is no veridical meaningfulness that exists out of ontology or isn’t in ontological-contiguity\(\) is highly prevalent in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology) of society as social-aggregation-enabling, the reason we strive to formalise whether in terms–as-of-axiomatic-construct of laws, institutions, organisations, etc. The basic fact is that the virtue of the intemporal-disposition constructs cannot accommodate non-ontology since
reality doesn’t adjust to man and it is man that adjusts to reality. The de-mentation
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-

In other words, de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-

For instance, the mental-devising-representation of a non-positivism/medievalism mindset/reference-of-thought relating to say an accusation of sorcery by an intemporal positivistic mindset/reference-of-thought will not be limited to that particular instance but carries the ‘disambiguation of notional—firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence> as ontological-escalation/aetiologisation’ that speaks to metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation dispositions of that non-positivism/medievalism mindset/reference-of-thought by way of de-mentation (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) from the intemporal positivistic mindset, and upholding such the ‘disambiguation of notional—firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence> as ontological-escalation/aetiologisation’ for the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that collapses/overrides the non-positivism/medievalism mindset/reference-of-thought crossgenerationally (consider the diffusion of positivistic registry-worldview and its psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of non-positivistic registry-worldviews/dimensions in the th and early 20th century). Stranding defines the ‘decandored registry-worldview/dimension dialectically—or-contendingly-out-of-phase/dialectically-primitive) mental-devising-representation’ such as the mental-devising-representation of recurrent-utter-
uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, and so, beyond the illusion-of-the-present/present-consciousness of all these <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions which in their <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present will tend to wrongly recover/syncretise to project straightness/candoring of mental-devising-representation as intemporality /longness rather than decandored/oblongated mental-devising-representation as temporality^8. Stranding is validated by the fact that transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation speaks of an ‘institutionalisation/intemporalisation constraint/secondnaturing’ and ‘not temporal-dispositions transformation into intemporal-disposition as dimensionality-of-sublimating^8 (<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation); and this idea is so foundational that it is beyond-and-supersedes/precedes/overrides/utters the consciousness-awareness-teleology^99 of temporal-dispositions such that ‘they are not called upon in argumentation’, just as we are not consciously called upon to establish whether blood flows in our body, as it is a preceding/superseding truth that supersedes/precedes/overrides/utters our thinking or not of it! Thus <de-mentation>(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is rather intemporally/ontologically conceptualised for its validation and integration in the survival-and-flourishing imbued institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> (formalisms and internalisations) mechanism with the implied <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-

At which point de-mentation (supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding—or-attributive-dialectics) articulates temporal-dispositions teleologies orientations as ‘subknowledging’/mimicking/mental-perversions/slantedness manifestations at that ‘uninstitutionalised-threshold’, i.e. the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation of temporal-dispositions undermining the very ‘intemporal-preservation-entropy’ supposedly they are supposed to uphold). For instance, the positive (as to intemporal project) will not engage in a direct logical convincing with the non-positivisitic/medieval mind as this just validates to the non-positivism/medievalism disposition that its non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation relation with meaningfulness-and-teleology\(^5\) is sound such that it goes on to operate/process logic by <amplituding-formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^3\) non-positivism/medievalism meaningfulness-and-teleology\(^8\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\). Rather the positivistic mindset/ reference-of-thought will project the new reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivism (as rational-empiricism/positivising basis of reasoning) through positivism institutionalisation/intemporalisation percolation-channelling-\(<\text{in-deferential-formalisation-transference}>\) and highlighting, in the bigger scheme of things, the relative sublimating efficiency and positive-opportunism—of-social-functioning-and-accordance of a positivism-based rule of law, social organisation, polity, nation-building, etc. based on positivism axioms and which inherent effectiveness and supersedingness/transcendence breaks the non-positivism/medievalism mindset/ reference-of-thought (which are not rational-empirical/positivising and tend to essences, alchemic-logic,
sorcery constructs, etc.) with its defective reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{10}–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This takes an utterly impersonal form (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. The ‘transcendental/transdimensional/interdimensional/'\textsuperscript{11}maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation complex-of-stranding’ refers to the counter-intuition from a registry-worldview/dimension perspective in not representing itself as stranded (decandored or oblongated or in threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation \textless \textasciitilde as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing \textless \textasciitilde \textasciitilde preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \textgreater \textasciitilde as perversion-of-the–categorical-imperatives/axioms/registry-teleology\textsuperscript{10}–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and rather syncretises in operating those same reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{10}–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation prospectively; while that same registry-worldview/dimension intuitively recognises that a prior/superseded registry-worldview/dimension subknowledges/mimics and self-reference-syncretises it’s reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{10}–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold\textsuperscript{12}. The reason for the human ‘transcendental/transdimensional/interdimensional/'\textsuperscript{11}maximalising-recomposuring-for-relative-

The notion of the social-construct as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming is actually an aspirational ideal and reference for ‘human intemporal projection towards it’ but it isn’t ontologically veridical by the inherent solipsistic human nature due to a notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> human reality, and thus the need for institutionalisation to skew (‘intemporality -asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) towards intemporality/intemporal-preservation as human secondnaturing. This elucidation is vital in pointing out that the teleology of rational-realism as notional–deprocrypticism (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism in existence as ontological (so-reflecting
disposedness/psychologismic-construct (as-to-orientation/value-construct/valuation-and-derived-parameterising) and entailment (as-to-totalising-contiguous/coherent-factuality-of-variability)’ and so as to the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility (imbued-and-

That is, knowledge-notionalisation involving grasping and understanding both the ignorances/desublimation/temporal-dispositions and ideals to better skew/deferential-formalisation-transference towards idealism as the fulsome ontology, and not failing/not-upholding—as-of-apriorising/axiomatising/referencing to understand or overlooking the ignorances/desublimation/temporal-dispositions as the temporal on the wrong basis that all that matters is the ideal as intemporal. Furthermore, temporal-dispositions tendency to pervert/dement/subknowledge—preconverging-or-dementing—as-if-of-sound-
knowledge) mimick-and-syncrise at uninstitutionalised-threshold \(^{102}\) with the dialectical consequence of the development of the <cumulating/recomposing-attendant-ontological-contiguity >-successful registry-worldviews/dimensions (institutionalisations) validates the appropriateness of striving rather for transversality <for-sublimating-existential-eventuating/denouement>-of-affirmative-and-unaffirmative-disambiguated-`motif-and-apriorising/axiomatising/referencing’ and not nested-congruence to uphold intemporality \(^{52}\), and hence a complete ontology. To put it in other terms, for instance, transversality <for-sublimating-existential-eventuating/denouement>-of-affirmative-and-unaffirmative-disambiguated-`motif-and-apriorising/axiomatising/referencing’ of ‘keeping the faith’ only in the intrinsic operation of rules of arithmetic (transversality <for-sublimating-existential-eventuating/denouement>-of-affirmative-and-unaffirmative-disambiguated-`motif-and-apriorising/axiomatising/referencing’ among interlocutors, in principle or notionally, so that at all times it is always about the intrinsic reality of the arithmetic and not the agreement-disagreement of any human interlocutors as we are all mortals and likely to corrupt such intemporal rules with our mortality out of an intemporal frame of reference that is transcendental-enabling/sublimating/supererogatory-de-mentativity) is vital to preserving ‘ontological arithmetic’ as transcendental-enabling/sublimating/supererogatory-de-mentativity, whereas if the notion of arithmetic calculations was to involve social-and-temporal-trading with other humans (interlocutors logical nested-congruence) instead of intemporal exercise, it is obvious that down the line the notion of ‘ontological arithmetic’ will sooner or later be corrupted and/or teleologically-degraded as more likely than not the intemporality \(^{77}\)/purity of mathematics will be compromised to human mortals stakes of social-and-temporal-trading as social-aggregation-enabling, and so as of postlogism \(^{77}\)-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation,
do not carry the same connotation as a shallower temporal analysis intradimensional to the transcended dimension (as to its given institutional-development–as-to-social-function-development and living-development–as-to-personality-development so-referenced to its given Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology). The idea is not to idle in articulating meaningfulness within the dimension in need of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. For instance, a positive mind’s articulation of defective meaningfulness in non-positivism/medievalism registry-worldview/dimension is not to ‘idle’ by relating and staking such meaningful articulation in terms–as-of-axiomatic-construct of the non-positivism/medievalism world sense of meaningful purposefulness but rather to project a positivistic worldview’s transcendental meaningful purposefulness. In that sense, actually for the social scientist and philosopher words like dialectically-or-contendingly-out-of-phase, primitive, decandored, perverted don’t carry the ordinary and temporal connotations of stigmatising under a temporal extricatory preconverging–de-mentating/structuring/paradigming. Rather, these are critical and actively sought after notions that provide the ‘dialectical backdrop’ for enabling prospective
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. The idea is that these notions are veridically dialectical notions that apply in all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity unlike a simplistic ‘history fixating conceptualisation’ will have. In other words, our non-positivism/medievalism ancestors’ possibility of being-represented/mental-devising-representation as dialectically-or-contendingly-out-of-phase/dialectically-primitive) is the opportunity for the contrastive construction of a superseding/transcendental registry-worldview/dimension that brought about the relative virtue in the positivistic registry-worldview/dimension of their great-grandchildren today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in a notional-deprocrypticism institutionalisation/intemporalisation with respect to procrypticism. In the bigger picture, identifying inherent virtue in the institutionalisation/intemporalisation process on the basis that humans of all generations (times and epochs) are ‘capacity-wise same’ as per notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective-ontological-normalcy/postconvergence> going by a preconverging/postconverging-de-mentating/structuring/paradigming of mentation-capacity (shortness-of-register-of—meaningfulness-and-teleology\(^9\) to longness-of-register-of—meaningfulness-and-teleology\(^9\)) with respect to the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, but for the semblance of the superiority of latter registry-worldviews/dimensions which is nothing but the result of being at the backend of the institutional-cumulation/institutional-recomposure-⟨as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’⟩⟩ process. Ontological-normalcy/postconvergence equally involves articulating the possibility for the supersedingness of the intemporal-disposition over temporal-dispositions as
intemporalisation/institutionalisation, and so, involving ‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> accountability’ beyond an ‘idle temporal-dispositions stigmatisation’. In that spirit, it can be reasoned that the intradimensional ‘ontological blindspot’ in human mental-devising-representation (wherein temporal perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> by miscuing, and in subsequent derivation of disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising of temporal-dispositions perversions/defects of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-<including-virtue-as-ontology> conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing—apriorising-psychologism), actually points to a decandored/slantedness of the temporal-dispositions (and not candored/straightness), and is definitional of all registry-worldviews/dimensions perversion-of-reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> whether recurrentutter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, as these are in epistemic-decadence-and-derived-epistemic-decadence, i.e. not veridical but perverted and requiring transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. In this regard, the hermeneutic/reprojecting/supererogating/zeroing exercise originates from an even more wildly idiosyncratic (but personal incommunicable) reflexive process initiated rather spontaneously by the author a few years back which has formed the backdrop for this ‘rather
relatively benign idiosyncrasy’ in this paper as the reader may come across and is the explanation for many of the author’s insights. It is this mechanism of deconstructing meaningfulness exhaustively in search of an idiosyncratic but profound philosophical and creative insight that allows the hermeneutic/reprojecting/supererogating/zeroing design in a ‘continuous meaningfulness reshuffling in the quest for veracity/ontological-pertinence’ analogical to a twisty puzzle cube exercise in order to infer and arrive at a profoundly explanatory hermeneutic/reprojecting/supererogating/zeroing insight extending to the possibility of a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibilities for transcendental institutionalisation/intemporalisation of notional~deprocrypticism (superseding the vices-and-impediments of, as well as human emancipation over, procrypticism). Going by an ‘ontologically contiguous comparison’ with reference to Arithmetic where a condition was to cause a character to resolve additionality as 1+3=5, 2+5=8, 5+6=12, etc., the ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective) of additionality with regards to this character will always involve as of reference-of-thought–categorical-imperatives/axioms/registry-teleology that subtracts 1 from the results of that character’s operations of additions (as the imbricatedness/threadedness/recomposuring for upholding existential-reality), and the usual principles of additionality (its traditional reference-of-thought–categorical-imperatives/axioms/registry-teleology of simply summing directly) will be existentially rendered null and void in order to allow for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Now supposed such a framework (reference-of-thought) for resolving Arithmetic calculations now involves the contribution of 6 characters working in
collaboration with each contributing their specific arithmetic principle role while taking
cognisance of the others roles in ‘resolving arithmetic calculations’ (as ontological-
completeness-of-"reference-of-thought”, and so taking into account the prior mentioned
character with its defect of additionality; wherein such a framework is BODMAS-based with
character B working on brackets operations, character O working on order operations, character
D working on division operations, character M working on multiplication operations, the
priorly mentioned character A working on addition operations and character S working on
subtraction operations, and so (from ontological-normalcy/postconvergence epistemic-or-
notional~projective-perspective) setup for resolving arithmetic calculations (ontological-
completeness-of-"reference-of-thought setup). Naturally, the "reference-of-thought–
categorical-imperatives/axioms/registry-teleology",-for-intemporal-preservation-entropy-or-
contiguity–or–ontological-preservation (as the usual BODMAS Arithmetic rules) should apply
but this is no longer existentially the case in this instance, where the equation is for instance
7(\sqrt{64}+3-1)-\{6+4-2\}÷2. Going by the natural arithmetic rules for BODMAS, the equation will
be resolved first with the brackets, and within the brackets for the first brackets the order
operation is first carried out, that is, \sqrt{64}=8 and then addition 8+3=11, then subtraction 11-
1=10. For the second brackets, addition as 6+4=10, then subtraction as 10-2=8. The division
operation then follows with the second brackets result as 8÷2=4. Then the multiplication
operation with the first brackets result as 7×10=70. Finally, comes the subtraction with 70-4=66
as the final answer that is ontologically-veridical (in ontological-normalcy/postconvergence).
But then, in this particular case where character A (Addition) operation of additionality is
perverted as stated above as a result of its condition, the equation will resolve as \sqrt{64}=8,
8+3=12, 12-1=11, for the first brackets, and 6+4=11, 11-2=9, for the second brackets. The
division operation with the second brackets yields 9÷2=4.5, and the multiplication operation
with the first brackets yields 7×11=77. Finally, subtracting both brackets gives 77-4.5=72.5 as
the final result which is ontologically wrong (from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective), and points to the fact that all the 6 BODMAS characters, not only A (Addition) the additionality defect character have failed ontological-veridicality/ontological-contiguity as of their relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ <as-to-
‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing – apriorising-psychologism> (from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective), as reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are not by themselves the definitive basis for ontology/intrinsic-reality/existential-reality as these are only as pertinent as they are ontologically-veridical/ontologically-continuous/contextually-contiguous (in ontological-normalcy/postconvergence). This ontological state with respect to all the characters registries (not only A) is known as perversion-and-derived- perversion-of- reference-of-thought-<as-

television }, with reference-of-thought–categorical-imperatives/axioms/registry-teleology nothing more but human mental inventions (construed by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) for the sake of achieving ontology/intemporal-

Hence the notion of ontological-normalcy/postconvergence and postdication construes intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as superseding/preceding over projected \(<\text{amplituding/formative}>\) wooden-language-\{\text{imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought– categorical-imperatives/axioms/registry-teleology }\} in affirming ontology/ontological-veridicality/intrinsic-reality (notwithstanding their traditional personhoods-and-socialhood-formation mental-dispositions anchored on projected \(<\text{amplituding/formative}>\) wooden-language-\{\text{imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought– categorical-imperatives/axioms/registry-teleology }\}). In which case the resolution for the Arithmetic equation (supposedly where A, Addition, is unamendable due to a condition), will involve the other characters taking cognisance of A’s (Addition’s) condition and adhere to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation over projected \(<\text{amplituding/formative}>\) wooden-language-\{\text{imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought– categorical-imperatives/axioms/registry-teleology }\} in affirming ontology/ontological-veridicality/intrinsic-reality (as the appropriateness-of-\(\text{reference-of-thought-as-of-conflatedness}\) over A’s induced preconverging-or-dementing-\(\text{reference/ perversion-of-}\)
Thus the new categorical-imperatives/axioms/registry-teleology\textsuperscript{\textdagger} for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation deployed with respect to resolving calculations (ontological-completeness-of-\textsuperscript{\textdagger} reference-of-thought will integrate the notion that additionality requires subtracting 1 from its results as well as taking cognisance that other characters will be perverted in their operation if they do not take cognisance of A’s (Addition’s) condition and subtract 1 from it before their operation (whether unconsciously by ignorance, expediently by affordability, and consciously by opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation).

For instance, B (Brackets) is still in a position to articulate an ontological-normalcy/postconvergence ontological-veridicality/ontological-contiguity\textsuperscript{\textdagger} of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective) by factoring in all the defects as follows: by reverting all other characters operation up to the point they had to deal with A (Addition) and subtracting 1 from the results at these point before allowing the other characters operations, which then yields the right result. That is $77 \div 7 = 11$ and $4.5 \times 2 = 9$ as reverting back, then $11 - 1 = 10$ and $9 - 1 = 8$ to factor in A’s (Addition’s) additionality defect to yield the results of the two brackets. Before then letting back the division and multiplication operations for both brackets respectively, giving $8 \div 2 = 4$ and $7 \times 10 = 70$. Finally $70 - 4 = 66$, giving the final result that is ontologically-veridical (in ontological-normalcy/postconvergence). So this approach is the new \textsuperscript{\textdagger} reference-of-thought– categorical-imperatives/axioms/registry-teleology\textsuperscript{\textdagger}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontologically-veridical/of-intrinsic-reality that B should be operating. It further speaks of how B will likely act in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation (of uninstitutionalised-threshold), where the
constraining elements of institutionalisation are not available, i.e. social universal-transparency\textsuperscript{105}\hspace{1em}\langle\text{transparency-of-totalising-entailing-as-to-entailing-}\text{amplituding/formative-epistemicity}\text{totalising-in-relative-ontological-completeness}\rangle\text{ of}\hspace{1em}\langle\text{perversion-of-reference-of-thought-}\text{as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}\rangle,\text{ internal-contradiction induced from}\hspace{1em}\langle\text{amplituding/formative–epistemicity}\text{causality-}\text{as-to-projective-totalitative–implications-of-prospective-}\text{nonpresencing,-for-explicating-ontological-contiguity}\text{ inoperance},\text{ de-mentation}\text{ (supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)}\hspace{1em}\langle\text{perversion-of-reference-of-thought-}\text{as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}\rangle,\text{ and intemporal projection superseding the transcendence-unenabling-uninstitutionalised-threshold}\text{ in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/inauthenticity} /\text{nihilistic as of temporality},\text{ with corresponding formalisation and internalisation as values), thence defining the given temporal-dispositions of B aetiologisation/ontological-escalation to be accounted for from similar individuations in such situations as a registry-worldview/dimension problem, in order to ensure intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontology. In the bigger scheme of things, this calls for a prospective registry-worldview/dimension institutionalisation articulation that supersedes/overrides such a temporal dynamism of\text{ perversion-of-reference-of-thought-}\text{as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation} dispositions at various social roles going from A’s condition, and the potential overlooking of the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation dispositions by all the other characters (B, O, D, M and S). Underlying such an intemporal orientation is the idea that
fundamentally the conjugation of such an \( \text{de-mentation} \{ \text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} \} \) and subsequent conjugation as with B above to the temporal-dispositions of a registry-worldview/dimension speaks fundamentally of the uninstitutionalised-threshold of that registry-worldview/dimension, reflected/perspectivated by the marginal perversion-of reference-of-thought-<as-preconvergingly-apriorising/axiomatising/referencing-in-

This by itself explains why the different registry-worldviews/dimensions are seemingly preconverging-or-dementing –apriorising-psychologism with respect to one another.
(from the prospective perspectives), and not that we are talking about different species of humans, as transcendentalism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is the foundational concept retrospectively, presently and prospectively; even though by the illusion-of-the-present/present-consciousness/epistemic-totalising ~self-referencing-syncretising/mirage, all dimensions, and not only ours, tend to think of themselves as definitely mentally straight/candored-and-dialectically-or-contendingly-in-phase with no uninstitutionalised-threshold which is obviously fallacious. The reason for this is that ‘postconverging-or-dialectical-thinking –apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity of reference-of-thought (as mental straightness/candored-and-dialectically-or-contendingly-in-phase) starts-and-ends/is-sound at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation where the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy/configuity is in ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic-or-notional–projective-perspective). Where instead such reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is of notional-discontiguity/epistemic-discontiguity <between–prior-shallow-supererogation of mentally-aestheticised–preconverging/dementing –qualia-schema_and_prospective-profound-supererogation of mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema>/non-ontological-and-non-contending-referencing–<thus-ontologically-or-contendingly-reflected-or-perspectivated-as-of-preconverging-or-dementing –apriorising-psychologism> (not-veridical-thinking-reference-rather-preconverging-or-dementing–reference), it is dementing (preconverging-or-dementing–apriorising-psychologism–stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-
phase>). This is further compounded as of epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, that is, as wrongful upholding and projecting postconverging-or-dialectical-thinking–apriorising-psychologism–stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> mental-devising-representation as so-manifested at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation while rather reflecting the uninstitutionalised-threshold that requires renewed mental-devising-representation, and this is not ontologically consistent and fundamentally undermines and overlook the idea of an insight about a prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity with the present registry-worldview/dimension corresponding to the superseded perversion-of-reference-of-thought–as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation registry-worldview/dimension. Thus but for the inherent difficulty of living and experiencing the effective personhoods-and-socialhood-formation existentialism across all the registry-worldviews/dimensions, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘beyond any one registry-worldview/dimension meaningfulness’ like ours is perfectly possible in garnering a more profound and informed insight on human nature whether presently, retrospectively to prospectively. In the bigger scheme of things, just as logic can only be grounded on coherent and concrete reference-of-thought–categorical-imperatives/axioms/registry-teleology based articulations for its ontological effectiveness and veridicality, human ontological transcendental possibilities arise from human individuations that correspond to the appropriate ‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the latter is made possible by the ‘so-renewed

conceptual pertinence in this Arithmetic ontological-contiguity\(^\dagger\) comparison can be rearticulated as follows for greater clarity. As previously highlighted the developmental psychology of the psychopath from childhood to adulthood, involves a child psychopath who is dysfunctional as its subknowledging\(^\dagger\) -impulse/compulsive-dementing\(^\dagger\) in hollow-constituting-\<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation\> is relatively transparent to interlocutors and it induces a ‘delirious effect’ given that it hasn’t yet maturated, is not yet indirect, is not yet spatialising, is not yet credulous and is not yet crafty in ‘its postlogism -as-of- compulsing–nonconviction/madeupness/bottomlining-\(<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing–induced-disontologising–of-the-\‘attendant-intradimensional–ontologising’–imbued–contextualising/existentialising–attendant-ontological-contiguity\>;-in-shallow-supererogation-<to-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness\>}; conditions which it increasingly attains from adolescence to adulthood with a corresponding inducing of the development of social psychopathy as its psychopathy conjugates/inflects/gets-mimicked with the temporal-dispositions of ignorance, unconsciously, and consciously with affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, in an absolving/fleeting/escaping-reflex–logic eliciting social psychopathy involving moving from various non-veridical/hollow sets-of-postlogic-in hollow-constituting-\<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation\> in postlogic-backtracking-\<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’\> as absolving/fleeting/escaping-reflex–logic, to others and from different sets of interlocutors to others. It is obvious that A’s condition/subknowledging\(^\dagger\)-impulse/compulsive-dementing\(^\dagger\)
disposition as an adult psychopath isn’t systematic with every interlocutor but rather it arises only in the face of perceived–social-stake-contention-or-confliction-and-confliction-targets and furthermore the profoundness of the postlogism -slantedness manifestation is directly related to the gravity of the perceived–social-stake-contention-or-confliction the situation and how the ‘evolving social psychopathy situation permits’. Hence the notion of A having an absolute condition wherein it increments additionality by 1 is rather an absolute ideal conceptualisation, as in reality it is a question of degree and highly circumscribed with the adult psychopath who needs to have a postlogic-equilibrium that can be socially-functional-and-accordant, unlike the dysfunctional child psychopath. This comparison equally articulates the nature of uninstitutionalised-threshold. Consider B (together with the other BODMAS characters) in the instance where despite A’s conditions they were to stick to the registry-worldview’s/dimension’s institutionalisation reference-of-thought– categorical-imperatives/axioms/registry-teleology thus effectively producing the wrong result 72.5 for the particular equation which is not intemporal preservational (not ontologically ontological-normalcy/postconvergence) and likewise for all other equation where A’s condition applies, we’ll then be talking about an uninstitutionalised-threshold. The implication is that the registry-worldview/dimension then loses its qualification as being intemporally-preservational, and the psychological tool that is then elicited (from a prospective and new reference-of-thought– categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as articulated with the arithmetic technique that corrected the equation result from 72.5 to by adjusting for A’s condition which is now the reference-of-thought or veridical-thinking-reference-over-preconverging-or-dementing-reference/ontologically-veridical/ontological-contiguity registry-worldview/dimension) is known as de-mentation—(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Even though going by its illusion-of-the-
present/present-consciousness, the superseded registry-worldview/dimension will still
wrongfully strive for a mental-devising-representation at that uninstitutionalised-threshold[02] of
‘ontological-thinking (not preconverging-or-dementing –apriorising-psychologism-<stranded-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation with respect to the denaturing\textsuperscript{16} of the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness. This insights perfectly highlight that our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t has any end to itself but for such dialectical readjustments to ontological-veridicality as ‘postconverging-or-dialectical-thinking’/apriorising-psychologism/soundness-or-ontological-good-faith/authenticity\textsuperscript{69}–of–\textsuperscript{83}reference-of-thought/candored-and-dialectically-or-contendingly-in-phase with regards to an intemporal-preservational registry-worldview/dimension institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and with superseded/transcended registry-worldviews/dimensions which are not intemporal-preservational at their uninstitutionalised-threshold\textsuperscript{102} as preconverging-or-dementing–apriorising-psychologism/oblongated/decandored-and-dialectically-or-contendingly-out-of-phase explaining the nature of mental-devising-representation of all institutional-cumulation/institutional-recomposure\textsuperscript{46}historiality/ontological-eventfulness /ontological-aesthetic-tracing–of-perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism\textsuperscript{97} whether from the perspective of a retrospect, our present or prospective point-of-reference. Another aspect highlighted by the Arithmetic equation comparison is with respect to the appropriateness and defects of meaningful references with respect to ontological-veridicality/intrinsic-reality. The comparison highlights 3 transversality–for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ pedestals of meaningfulness. Firstly, A’s condition with respect to additionality with the idea that it is bound to fail any arithmetic calculation
involving additionality. Thus the subknowledging\textsuperscript{14}-impulse/compulsive-dementing\textsuperscript{20} pedestal is of notional-discontiguity/epistemic-discontiguity \textsuperscript{<between—prior-shallow—supererogation -of-mentally-aestheticised—preconverging/dementing —qualia-schema_and_prospective-profound-supererogation -of-mentally-aestheticised—postconverging/dialectical-thinking —qualia-schema>/non-ontological-and-non-contending-referencing—thus-ontologically-or-contendingly-reflected-or-perspectivated-as-of-preconverging-or-dementing —apriorising-psychologism> (not-veridical-thinking-reference-rather-preconverging-or-dementing —reference). This is effectively the pedestalled state of psychopathic postlogism\textsuperscript{77}-as-of—compulsing—nonconviction/madeupness/bottomlining\textsuperscript{<decontextualising/de-existentialising—of—attendant—intradimensional—apriorising/axiomatising/referencing>-induced-disontologising’—of—the—’attendant—intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant—ontological-contiguity >;—in—shallow—supererogation —as—to—disontologising—perverted—outcome-sought—precedes—existentially-veridical—’attendant—intradimensional—apriorising/axiomatising/referencing’—logical-dueness>\textsuperscript{⟩} in hollow-constituting<as-disjoined-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> as of vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging\textsuperscript{70}, inducing attendant—ontological-contiguity\textsuperscript{67}—educed—existentialising/contextualising/textualising-contiguity <reifying—or-elucidating-of-prospective-relative-ontological-completeness —of—reference-of-thought—devolving—as-of-instantiative-context>/non-veridical-hollow-narratives to be reflected/perspectivated from the intemporal/ontological angle as unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{74}-of-reference-of-thought or \textsuperscript{74}perversion-of—reference-of-thought\textsuperscript{<as-preconvergently-apriorising/axiomatising/referencing—in—nonconviction/madeupness/bottomlining—as—to—shallow—supererogation > as to preconverging—or-dementing\textsuperscript{70}—apriorising-psychologism and so in
subknowledging\textsuperscript{11}-impulse/compulsive-dementing\textsuperscript{20} disposition points out that the actual and given meaningfulness being subknowledged/pervertedly-represented is ontologically-veridical both registry-wise (soundness-or-ontological-good-faith/authenticity \textsuperscript{\textsuperscript{-of-}} reference-of-thought-wise) and logic-wise (the normal arithmetic operation of the BODMAS equation) as it is intemporally preservational and thus ontologically-veridical/ reference-of-thought/ontological-contiguity\textsuperscript{7}. It is this pedestal that is the organic-comprehension-thinking (organicalism/\textsuperscript{\textsuperscript{-intemporal-prioritisation-of-}} reference-of-thought\textsuperscript{\textsuperscript{-as-conflatedness\textsuperscript{13} -or- ontological-reprojecting/longness-of-register-of-\textsuperscript{14} meaningfulness-and-teleology\textsuperscript{99}}}) pedestal, organic as it is both registry-wise (soundness-or-ontological-good-faith/authenticity\textsuperscript{29}-of- reference-of-thought-wise) and logic-wise striving for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation. It is the superseding and intemporal pedestal for articulating ontological meaningfulness (intrinsic-attribution). The third pedestal as demonstrated involves the integrating and amplituding/formative-epistemicity\textsuperscript{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{11}} by temporal-dispositions both unconsciously (ignorance) and consciously (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) with A’s condition/subknowledging impulse as if it was ontologically veridical, and obviously leading to the wrong
result thus failing/not-upholding-as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In the case with B it involved resolving the Arithmetic equation as if A’s condition was appropriate resulting in which is ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity’-between—prior-shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema-and-prospective-profound-supererogation–of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema’ rather than which is ontologically veridical. This is the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising-psychologism pedestal, as registry-wise it is not striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and so fundamentally its logical-contention is voided (as apriorising–registry precedes and defines logical pertinence), such that such a disposition that integrates subknowledging–or-mimicking-impulse/compulsive–dementing registry-worldview-wise/dimensional-wise speaks of the registry-worldview/dimension as in de-mentation (supererogatory–ontological–de-mentation–or–dialectical–de-mentation—stranding–or–attributive-dialectics) at that uninstitutionalised-threshold. The fourth meaningful reference is actually a variance of the given organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of–reference-of-thought’–as-conflatedness–or–ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) pedestal which is registry-wise and logic-wise pertinent. It is about the intellectual and virtue driven aetiologisation/ontological-escalation (as per this paper aim and other studies) in grasping the human ontological implications and articulating the-Good/understanding/notional–knowledge-reification–gesturing-in-prospective_psychologismic–apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising–

So we then speak of an utter\[<\text{maximalising-recomposuring-for-relative-ontological-completeness}\] unenframed-conceptualisation (not \[<\text{incrementalism-in-relative-ontological-incompleteness}\] enframed-conceptualisation) ‘ordered construct’ of the meaningfulness of the intellectual aetiologisation/ontological-escalation as the organic-comprehension-thinking (organicism/’intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) pedestal reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the registry/registry-worldview defects of both the subknowledging\[<\text{-impulse}\] pedestal and the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\[<\text{–as-to-}'attendant-intradimensional'-prospectively-disontologising–preconverging/dementing \text{–apriorising-psychologism}\] pedestal. Ontologically-speaking, a temporal naivety with regards to psychopath and its protraction as social psychopathy is that going by the dynamism of its faulty-mentation-procedure-deception-or-urge towards ‘extrinsic-attribution’ (the eliciting of the temporality/shortness of others is the sufficient basis for getting one’s way), is that the number of people ‘convinced’ by perverted extrinsic-attribution involving social-and-temporal-trading can have any bearing to the ontological-veridicality/intrinsic-reality in any way. While temporally-speaking,
psychopathic situations often lead to a-country-of-the-blind-and-the-one-eye kind of scenario, wherein a thousand blinds may strive to convention out the one-eye, but then it wouldn’t still cut it, ontologically-speaking. (Certainly, it is equally and very possible that if such a one-eye isn’t beholden to a ‘sense of intemporality’ and it is rather temporally-inclined, it might equally take the easier route of reasoning in terms–as-of-axiomatic-construct of country-of-the-blind temporality/shortness whether with respect to temporally outdoing or undermining the phenomena by acting in a manner that is overall of a temporal/shortness-of-register-of–meaningfulness-and-teleology nature. But that will still be temporality/shortness and the notion of an aetiology/ontological-escalation as of intemporality/longness will no more be better advanced. Further beyond and more than just with respect to one case of psychopathy but as of intellectual-and-moral-inequivalence/non-correspondence construing the universal human social phenomena of psychopathic postlogism and conjugated-postlogism across space and time together with the bigger insight of grasping human nature and the overall possibilities thereof. Insightfully, as well it won’t be surprising that such a universal projection will possibly meet with a more protracted-and-protracting psychopathy and social psychopathy manifestation going by overall human temporal-to-intemporal mental-disposition existential-form-factor as varied temporal-dispositions come into the frame and are elicited, just as an intemporal projection within a non-positivism/medievalism setup aspiring for a positivistic registry-worldview/dimension-level resolutive construal of their corresponding postlogism-compulsing–nonconviction/madeupness/bottomlining.

Vietnamese: 

like notions-and-accusations-of-sorcery and which is not palliative to a given situation will equally elicit a social protractedness of the phenomenon as varied temporal-dispositions come into the frame and are equally elicited. But then that is an inevitability with respect to the more critical universal projection low-life purposefulness in both meaningful-frameworks). Rather this then points to the nature of postlogic perversions of reference-of-thought<as-preconvergingly-

〈apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation〉 with temporal-dispositions; (unconsciously) ignorance and (consciously) other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Ontologically, it is then the subject of contention and aetiologisation/ontological-escalation of the organic-comprehension-thinking (organicalism/'intemporal-prioritisation-of-reference-of-thought’–as-conflicatedness)-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) pedestal, both in apriorising–registry and registry-worldview terms as it is reflected/perspectivated as de-mentation{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). The critical reason for this is that the intemporal-disposition is rather inclined to be utter about intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the complete and sufficient stand for knowledge and virtue with anything else being denaturing much in parallel as intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity doesn’t accommodate human temporality, and so will not even entertain involving in anyway with social-and-temporal-trading exercise which is non-ontological (since it is fundamentally a perversion-and-derived-perversion-of-reference-of-thought<as-preconvergingly-
apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, and has nothing to do with issues of defect–of-logical-processing-or-
logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance). This can further be elucidated analysing perversion-of- reference-of-thought—as-preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > of a different nature in a superseded registry-worldview/dimension like non-positivism/medievalism registry-worldview/dimension which should provide an even greater insight analysing from our present perspective, and we can then comparatively project this with respect to notional–deprocrypticism and procrypticism. For instance, accusations of witchcraft in non-positivism/medievalism societies are ontologically about subknowledging / perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as-of-unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought—preconverging-or-dementing—in-apriorising-psychologism based on the fact that such societies didn’t develop and integrate notions of empirical and rational cause-and-effect positivistic ideas as categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (a mentation-capacity that further furthers the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as modern-day positivistic registry-worldview), as it universally informs the present positivistic worldview and thus the impossibility to sound intelligible in case such an accusation of witchcraft is made today. So structurally, the non-positivism/medievalism society is shaped-and-inclined to integrate and entertain phantasmagorical notions of someone being accused as a witch or sorcerer. We can garner a similar insight just as with the ‘disambiguation of notional–firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence> as ontological-escalation/aetiologisation’
above, where supposed an intemporal mindset/referentiality who is in a non-positivism/medievalism society was to be accused of witchcraft by someone inclined to accuse people of witchcraft (because of a pathological-condition/subknowledging\textsuperscript{[9]}-impulse/compulsive-dementing\textsuperscript{[9]}) and who obviously is wrong, as we know today that the notion of witchcraft is ontologically unsound and ridiculous as the ability to perform magic and the like by anyone cannot be demonstrated veridically. The disposition to accuse people of witchcraft will be the subknowledging\textsuperscript{[9]}-impulse/compulsive-dementing\textsuperscript{[9]}. The disposition to entertain and further exploit such situations (as anthropologists perfectly understand the abhorrent role of such notions as witchcraft in the social-stake-contention-or-confliction of non-positivism/medievalism societies) in conjugation of temporal-dispositions that are\textsuperscript{[10]} universally-recurrent or\textsuperscript{[10]} universal across all times (postlogism\textsuperscript{[7]}-slantedness, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) is the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{<as-to-'attendant-intradimensional'-prospectively-disontologising–preconverging/dementing –apriorising–psychologism> pedestal which is rather an extricatory preconverging–dementating/structuring/paradigming (of the situation, to fulfil temporal inclinations or distractive-temporal-prioritisaton and not intemporal preservation); given the lack of a social\textsuperscript{[10]} universal-transparency\textsuperscript{<transparency-of-totalising-entailing,-as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } of the idea that the notion of witchcraft is bogus, with corresponding lack of perceived untenability/internal-contradiction/internal-incoherence/institutional-constraining of such a notion, thus a collective-consciousness that doesn’t register it as preconverging-or-dementing\textsuperscript{[9]}–apriorising-psychologism (as we do today) and finally, no ontological alienating reason for not believing, endemising and enculturating the phenomenon of witchcraft. The
organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-’ reference-of-thought’–as-conflicatedness’-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology’) pedestal will rather be an inclination to see that the lack of empirical and rational reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the non-positivism/medievalism registry-worldview/dimension is actually, in the bigger scheme of things, what is at the basis of not only the ‘one locale accusation of witchcraft, specifically so with this individual but its general integration as a socially viable and entertained notion in this locale’. But more critically, from its intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming to be intemporally-preservational, more than the notion of just attaining only to the ‘one-locale’ accusation of witchcraft, for the intemporal mindset/ reference-of-thought in organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-’ reference-of-thought’–as-conflicatedness’-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology’) the problem is now the insight about the intellectually and morally wrong in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of accusation of witchcraft and the implications across all societies of the human species qualified as non-positivism/medievalism, with the bigger ontological implications of this specific accusation rather being how is this enlightening de-mentatively/structurally/paradigmatically about the endemisation and enculturation of vices-and-impediments associated with superstition in the said registry-worldview/dimension. That is, the problem is now about the aetiologisation/ontological-escalation that can be made to address such lack of positivistic empirical and rational notions in all possible human societies qualified as non-
positivism/medievalism. In other words, the graver 'de-mentation\(\text{supercerogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics}\) problem' for the organic-comprehension-thinking (organicism/'intemporal-prioritisation-of-reference-of-thought-as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology)\(^8\)/'intemporal-prioritisation-of-reference-of-thought-as-conflatedness-or-ontological-reprojecting pedestal is 'why is society non-positivism/medievalism, and it is not in 'mentation equivalence' with a subknowledging-impulse/compulsive-dementing mindset\(^9\) reference-of-thought pedestal accusing it of witchcraft and the specific locale where such an accusation is made in threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^9\) as-to-'attendant-intradimensional'-prospectively-disontologising-preconverging/dementing-apriorising-psychologism\(^9\)/temporal prioritisation pedestal that entertains notions of witchcraft (as the intemporal mindset\(^9\) reference-of-thought is thus anecdotally 'boxing far below its weight'). Rather it is about articulating a comprehensive de-mentative/structural/paradigmatic dialecticism reasoning-through/utterion (not reasoning-with incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation with temporal-dispositions mindsets) between non-positivism/medievalism and positivism for prospective 'postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics' psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring away from the vices-and-impediments of a non-positivism/medievalism superstitious mental-disposition towards a prospective positivistic mental-disposition which is the virtue that is the 'de-mentative/structural/paradigmatic resolution' to the superseded registry-worldview/dimension not only superstitious specific vices-and-impediments but equally critical the overall de-mentative/structural/paradigmatic <amplituding/formative-epistemicity>causality~as-to-
projective-totalitative–implications-of-prospective–nonpresencing–for-explicating–ontological-contiguity such superstition to the creative emancipation of human meaningfulness and action. With this insight the ontological ‘terms of reasoning’ of the subknowledging-impulse/compulsive-dementing pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging-or-dementing–apriorising-psychologism striving to establish whether the accused is involved in witchcraft; the ‘terms of reasoning’ of the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation–as-to–attendant–intradimensional–prospectively-disontologising–preconverging/dementing–apriorising–psychologism pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging-or-dementing–apriorising-psychologism striving to establish and examine whether the accusation of witchcraft is true or not, with all the implied existential implications meaningfulness in both cases; and the ‘terms of reasoning’ of the organic-comprehension-thinking (organicalism/intemporal-prioritisation-of–reference-of-thought–as-conflatedness-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) will be to be dismissive of the two prior pedestals as in de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) and of preconverging-or-dementing–apriorising-psychologism<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> since in reality the elements of their apriorising–registry are perverted (implied–logical-dueness –as to accusation of witchcraft, implied-profile, implied-presumptuousness/arrogation, implied-assumptions, implied-value-reference and implied-teleology), and the issue will rather be about reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the perversion-of–reference-of-thought<as-preconvergingly–apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of a registry-worldview/dimension that endemises and enculturates the belief

In other words, the temporal-dispositions are not logically-contending but ontologically or dialectically preconverging-or-dementing—apriorising-psychologism as they are rather the subject of contention and aetiologisation/ontological-escalation from the intemporal-disposition given that these are dialectically-or-contendingly-out-of-phase and —unenframed-conceptualisation.

That is, in the bigger scheme when it comes to deciding between ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic-or-notional-projective-perspective) and the human temporal psyche, what gives-in is the human temporal psyche (and so for the betterment of the species); that is, from an animal that was emanantly/becomingly/solipsistically successively of a mental-devising-representation perspective preconverging-or-dementing apriorising-psychologism-stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase at recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and from a prospective articulation, procrypticism–or–disjointedness-as-of reference-of-thought, and so respectively, for their successive institutionalisations mental-devising-representation perspectives as postconverging-or-dialectical-thinking apriorising-psychologism-stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase of base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. In other words, across all times the ‘limits of thought’ is not ‘the averageness/banality/temporalisation of thought’ but rather ‘the disposition to intemporalise and ontologise human thought’, and so whether from a sense of intrinsic-reality one mortal is rightfully saying that the world is round and by expediency a majority of mortals are saying it is flat. That is the singular construct that man cannot lose across all generations to enable the perpetual existential regeneration of civilisation beyond just being a seconddnatured construct as mere-institutionalised-being-and-craft (which can often actually turn out to be alien to the intemporal-disposition apriorising–registry, that we can all potentially cultivate, that created, creates, and needs to keep creating the conditions for institutionalisation perpetuation)! It should be noted that the establishment of the reality of an apriorising/axiomatising/referencing–registry’s, or in the bigger picture,

The point then is that, from a transcending registry-worldview/dimension, the relation with its transcended registry-worldview/dimension is ‘not ontologically an exercise in logical-congruence with the transcended registry-worldview/dimension as a postconverging-or-dialectical-thinking\textsuperscript{7}–apriorising-psychologism exercise’ but rather ontologically an exercise in transversality\textless for-sublimating–existential-eventuating/denouement\textgreater of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ by reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) a preconverging-or-dementing\textsuperscript{71}–apriorising-psychologism

memeically/meaningfully not limited to-and-within one dimension-or-registry-worldview/intradimensionally but by reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, is transdimensional/transcendental in depth-of-meaningfulness as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation). de-mentation (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) as such is construed at the individuation-level as of the circularity/recurrence/repetition/repeatability in delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—reification_or_intrinsic-reality—ontological-coherence_or_superseding—oneness—ontological-preservations. This involves maximalising-recomposing—to-relative-ontological-completeness—unenframed-conceptualisation as enabled by de-mentation (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics) in disambiguating the intemporal-disposition as ontological and temporal-dispositions at the individuation-level; while at the registry-worldview/dimension-level it reflects the determination of the relative registry-worldviews/dimensions as of relative-ontological-incompleteness—of—reference-of-thought and relative-ontological-completeness—of—reference-of-thought. The implication is that soundness—or-ontological-good-faith/authenticity—of—reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy—or-contiguity—or—ontological-preservation (ontological-normalcy/postconvergence). There is no doubt that if by some secret manner ‘some individuals from recurrent-utter-uninstitutionalisation registry-
worldview/dimension’ were to appear and be able to live in our present positivistic social-setup (without us knowing beforehand that they are coming from the past to avoid inducing a confounding effect in our analysis), and intent on fully living based on the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemoral-preservation-entropy-or-contiguity–or–ontological-preservation of the recurrent-utter-uninstitutionalisation setup, our current psychology science most probably will treat them as pathological (preconverging-or-dementing–apriorising-psychologism). At which point, implying the conceptualisation of such an ontological-mental-pathology or de-mentation (in contrast to a physiological mental pathology) is much more a question of ‘ontology valour’ (ontology valour being defined as a registry-worldview’s/dimension’s ontology depth in relation to its conventionaling limitations with respect to pure-intemoral-ontology as to ontological-normalcy/postconvergence). But then, crazy as it may seem, this extends ontological-mental-pathology or de-mentation conceptualisation, on those very same terms of ontology valour, not only retrospectively but equally prospectively, as from a prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (with a corresponding insight about how we may be that preconverging-or-dementing–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> from such a prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’s reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemoral-preservation-entropy-or-contiguity–or–ontological-preservation (of course, that is, when occluding our illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage) herein construed as the prospective protensive-consciousness deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought registry-worldview/dimension. In the bigger picture, de-mentation–(supererogatory–ontological–de-mentation–or–dialectical–de-mentation–stranding–or–attributive–dialectics) effectively will
seem to place human \{cumulated/recomposured\}-consciousness-awareness-teleology in the backseat with ontology-in-its-inherent-dialectical-abstraction taking the frontseat in the articulation of intrinsic reality and correspondingly human mental-devising-representation. Actually, registry-worldviews/dimensions are rather prospectively \(<\text{amplituding/formative}\>\) wooden-language-\{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/\text{denatured/preconverging-or-dementing — narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology }\) of their own specific evolving successive existentialisms (with their full-depths-of-existential-implications specific evolving preconverging–de-mentating/structuring/paradigming), and with specific evolving percolation-channelling-\(<\text{in-deferential-formalisation-transference}>\) for prospective ontologising and ontologising-transcendence-and-sublimity/sublimation/\text{supererogatory—de-mentativity. Fundamentally, without the possibility of de-mentativity-of-the-human-psyche-for-prospective-institutionalisation involving \(\text{de-mentation—}\text{(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or—attributive-dialectics)}\), no registry-worldview/dimension will be transcendable (hence dementable/as-to-a-threshold-of-lack-of-thinking) for prospective institutionalisation. This is because \(\text{de-mentation—}\text{(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or—attributive-dialectics)}\) as such allows for a ‘human mentation capacity renewal’ by transcendence-and-sublimity/sublimation/\text{supererogatory—de-mentativity} (as it is by cumulation/reordering/recomposuring the prior institutionalisation mentation-capacity for a contiguous upholding of intemporal-preservation-entropy-or-contiguity—or—ontological—

occur) of the ‘veridical’ reference-of-thought of meaningfulness’ since it dents the mental-
dialectically-or-contendingly-in-phase, thus ‘granting the latter \(^8\) reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing\(^{22}\)-reference)’ over the former which is ‘no longer \(^8\) reference-of-thought’ in the sense that ‘we can’t think in medieval terms and be considered soundness-or-ontological-good-faith/authenticity\(^{69}\)-of-\(^8\) reference-of-thought today but rather ontologically-preconverging-or-dementing ‘apriorising-psychologism’. normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation); as this counter-intuition for transdimensional reasoning (which is not easily superseded and not even by this author articulating the notion but for this abstraction insight) is basically due to the subconscious-strength of the ‘intradimensional-subknowledging ‘-normalcy’ (epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) reference of personhood-and-socialhood-formation existentialism/full-depth-of-existential-implications such that the other notions will tend-to-get-lost-down-the-line by unconsciously returning to and/or admitting to the wrong intradimensional reflex-conceptualisations, at one point or the other, and so in lieu of and undermining the ontological-veridicality of the effectively veridical transcendental reality. ‘de-mentation~(supererogatory~ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) ‘beats’ this counter-intuition by simply and immediately bringing to the mind an ‘overarching conceptualisation’ of a de-mentation~(supererogatory~ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of superseding/transcending registry/registry-worldview-or-dimension (as straight/candored-and-dialectically-or-contendingly-in-phase) and a superseded/transcended registry/registry-worldview-or-dimension (as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase); around which all other dynamic constructions fall in place (whether organic-comprehension-thinking or threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation~as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing —apriorising-psychologism>, circumventive/distractive-temporal-prioritisation-of—reference-of-thought, subknowledging~‘-impulse, etc.). The other deconstructing terms while having specific analytical bearings do not carry this all-encompassing quality that liberates from ‘intradimensional-subknowledging~‘-normalcy’ (epistemic-totalising~self-referencing-
syncretising/illusion-of-the-present/present-consciousness/mirage inclination) as \( \text{de-mentionation} \) does as it further induces ‘transdimensional or memetic thinking’ by its implied \( \text{de-mentionation} \) in meeting up with ‘ontological-normalcy/postconvergence’ (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). For instance, while the term registry-worldview’s/dimension’s-uninstitutionalised-threshold \( \text{defect} \) brings to the mind a poor ontological disposition like the other BODMAS characters disposition to systematically operate additionality overlooking A’s condition, but it is a sense of \( \text{de-mentionation} \) that carries the intuition of an uninstitutionalised-threshold \( \text{defect} \), and construes a superseding/transcending registryregistry-worldview-or-dimension and a superseded/transcended registryregistry-worldview-or-dimension, and all the implications thereof. Now analysing the registry-worldview’s/dimension’s-uninstitutionalised-threshold \( \text{defect} \) term thereafter, we grasp that it is the ‘<amplituding/formative—epistemicity>totalising—self-referencing-syncretising’ in ‘notional-discontiguity/epistemic-discontiguity’ <between—prior-shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema_and_prospective-profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of the perversion-of-reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing<—apriorising-psychologism’ that makes it
registry-worldview’s/dimension’s-uninstitutionalised-threshold 12–defect-as-Being-or-ontological-or-existential–defect>35 (and not about defect-of-logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation) and this carries the implications of a registry-worldview/dimension defining defect (in a dialectics of prior/transcended/superseded and prospective/transcending/superseding 83 reference-of-thought–categorical-imperatives/axioms/registry-teleology99, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Specifically, de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as such implies registry-worldview’s/dimension’s-uninstitutionalised-threshold 12–defect-as-Being-or-ontological-or-existential–defect>35/not-just-a-logical-processing-or-an-implication-of-act-execution-or-a-implication-of-notion-of-agreement-or-disagreement-defect’ wherein we can perceive the complete picture of a registry-worldview/dimension defect by its relative-ontological-incompleteness35-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation –as-to-’attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism’ like recurrent-utter-uninstitutionalisation (with respect to base-institutionalisation), ununiversalisation (with respect to universalisation), non-positivism/medievalism (with respect to positivism) and our own dimension procrypticism’s (the-’preconverging-or-dementing–apriorising-psychologism of positivistic-meaningfulness) de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) (with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology99 as of prospective deprocrypticism). A similar articulation can be made with regards to each of the other deconstructing terms where de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-
attributive-dialectics) provides the better overarching conceptualisation from an ‘intemporal-prioritisation-of-’ reference-of-thought’-as-conflicatedness’-or-ontological-reprojecting reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference). Central to intemoral-preservation-entropy-or-contiguity—or—ontological-preservation is an ontological-normalcy/postconvergence that doesn’t recognise any uninstitutionalised-threshold to the projected wooden-language (imbued—temporal—mere-form/virtualities/dereification/akrasiac—drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology) considered circumventive/distractive-temporal-prioritisation-of-reference-of-thought over inherent ‘intemoral-prioritisation-of-reference-of-thought’—as-conflatedness—or-ontological-reprojecting of intemoral-preservation-entropy-or-contiguity—or—ontological-preservation; at which point of uninstitutionalised-threshold, de-mentation (supererogatory—ontological—de-mentation—or—dialectical—de-mentation—stranding-or-attributive-dialectics) is implied (in organic-comprehension-thinking over mechanical comprehension or as a de-mentation)
supererogatory~ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) for a renewed/prospective mentation for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting that ‘supersedes deterministically and operantly, without any discretion allowed’, circumventive/distraction-temporal-prioritisation-of-reference-of-thought. That is de-mentation-(supererogatory~ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is effectively the notion that, in recognition of the unchanging, preceding and inherent nature of intrinsic-reality with respect to the human psyche (and its mental-devising-representation of intrinsic reality) which is what ‘gives-in’/collapses ontologically/as-an-ontological-reference; enables, for the articulation of new mentations as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, the ‘giving-in’/collapsing of the mental-devising-representation of successive institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-`epistemicity-relativism-determinism’>) mindsets, notwithstanding the fact that the de-mentation-(supererogatory~ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) (of their reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is unintelligible/existentially-suprastructural to these superseded/transcended registry-worldviews/dimensions mindsets due to their <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage disposition. Supposed we were to make a profound analysis of our contiguous human mental-devising-representation/consciousness-awareness-teleology (in-dialectical/recomposuring-moments) from the appearance of human beings on earth, the effective linkage as new-mentations between those successive recomposuring
moments (whether recurrent-utter-uninstitutionalisation, base-institutionalisation-ununiversalisation, universalisation–non-positivism-or-medievalism, positivism–procripticism and prospectively perpetuation-of-deprocripticism) is as (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) in de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics); and this thus predicates or rather postdicates as well our own registry-worldview/dimension (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) over and as denaturing positivistic meaningfulness reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (procripticism) and implying a prospective need for deprocripticism. Postdication, when alluding to an (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) defining psychological science, will effectively hold that the conceptualisation of the social is very much a contiguous ontological disambiguation of a preconverging-or-dementing–apriorising-psychologism social of personhoods-and-socialhood-formation in existentialism/full-depth-of-existential-implications of notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>, from a prospective registry-worldview’s/dimension’s reference-of-thought in ontological-normalcy/postconvergence. Postdication means reasoning from a basis of ontological-normalcy/postconvergence wherein the prior/transcended/superseded registry-worldview/dimension is no longer referenced/registered/decisioned (as reference-of-thought) but ‘dialectically preconverging-or-dementing–apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought’ while the prospective/transcending/superseding registry-
worldview/dimension is referenced/registered/decisioned (as reference-of-thought) as ‘postconverging-or-dialectical-thinking’–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity ‘-of- reference-of-thought’ in construing meaningfulness. The grander issue that always arises is in existentialism terms, whether with regards to an obvious human disposition for temporal-accommodation as circumventive/distinctive-temporal-prioritisation-of reference-of-thought of being-and-existence as conceptualised within the successions-of-existing-in-human-life-spans or rather an abstract eternal-projecting disposition of ‘intemporal-prioritisation-of reference-of-thought’–as-conflatedness–or-ontological-reprojecting wherein the articulation of meaning, being and existence is in existentialism-terms intemperally-driven on the basis that that which is in need of transcending-the-intemporal (the temporal) cannot be seen-as-or-made-a-reference-of-intemporal/ontological-thought, and that it is exactly for that reason that human progress has been and will remain dialectically possible. That is, the reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) can only be the pedestal of an ‘intemporal-prioritisation-of reference-of-thought’–as-conflatedness–or-ontological-reprojecting as ontology with regards to apriorising-registry, contrasted to a circumventive/distinctive-temporal-prioritisation-of reference-of-thought-reference implying a perverted-registry reflected/perspectivated by its de-mention–{supererogatory–ontological–de-mention-or-dialectical–de-mention–stranding-or-attributive-dialectics}. Where the natural world is resolute with no compromise with the operation of such a notion as 1+1=2, the same cannot be resolutely affirmed in the human social-and-temporal-trading in the social world where on occasions 1+1 will add up to 5 where the effective constraining of institutionalisation is lacking. de-mention (supererogatory–ontological–de-mention-or-dialectical–de-mention–stranding-or-attributive-dialectics) (stranding) has the merits of articulating that for reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) to establish
veridicality, no such social-and-temporal-trading is beyond ontological-entrapment ‘by re-institutionalisation with new ^5 reference-of-thought–categorical-imperatives/axioms/registry-teleology^6,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation dialectically implying an ^15 de-mentation–{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} of transcended reference-of-thought–categorical-imperatives/axioms/registry-teleology^8,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (in our present case, notional–deprocripticism of ^80 procripticism–or–disjointedness-as-of–reference-of-thought, for a de-mentative/structural/paradigmatic resolution of defective-issues or vices-and-impediments^105 of our registry-worldview/dimension and just as critically the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential; just as positivism is the de-mentative/structural/paradigmatic resolution of defective-issues or vices-and-impediments^105 of non-positivism/medievalism together with the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential, and the same applies with ununiversalisation and ^10 universalisation, and recurrent-utter-uninstitutionalisation and base-institutionalisation); thus the potential to fully close the gap with regards to ontological-veridicality of the natural sciences in a ‘renewed maturation’ of the phenomenological ontological-performance^72,<including-virtue-as-ontology> conceptualisation of the social. Though with the weakness we must be able to rise up to, that ‘the social’ is existentially ‘emotionally involved’. But this can be and is effectively overcome by ‘appropriately ^10 universalising and detached meaningfulness by percolation-channelling-<in-deferential-formalisation-transference>’ as devised for all formalised and institutionalised settings capable of introducing, upholding and internalising the ascendancy of many a social outlying thoughts and meaningfulness which from a ‘purely mobbish social disposition’ as may arise in the extended-informality-(susceptible-to-effecting-parsimony-as-of-

given our own illusion-of-the-present/present-consciousnessas amplitudding/formative–

that such an analysis applies only to prior institutional-cumulation/institutional-recomposure
(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–
ontological-normalcy/postconvergence-reflected'-epistemicity-relativism-determinism'>). But
the fact is that such a profound conceptualisation will have to come to terms with the reality of
the implied existentialism/full-depth-of-existential-implications beyond our present sense of
personhoods-and-socialhood-formation if it were to avoid platitudinising, becoming circular
with dead-ends and lose its intemporal purpose and hence ontological purpose, and so for the
simple reason that it is the human psyche that ‘gives-in’ with respect to intrinsic-reality as
renewed/prospective ontological-veridicality, starting with that of the intellectual
analyst/analysts itself/themselves); as the human psyche gave-in from recurrent-utter-
uninstitutionalisation to base-institutionalisation, ununiversalisation to universalisation, non-
positivism/medievalism to positivism, and where renewed/prospective ontological-veridicality does establish a new registry-worldview/dimension transcendental postconverging–de-mentating/structuring/paradigming shift as procrypticism to deprocrypticism, then the human psyche will equally have to give-in, and by the way all transcendence-and-sublimity/sublimation/superrationary–de-mentativity meet with some resistance or the other and thus a reason for transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ reflex to preserve the precedingness/supersedingness/ascendency of intrinsic-reality in adverting social-and-temporal-trading of meaningfulness. Part and parcel, of human intellectualism beyond mere-institutionalised-being-and-craft, as has historically been implied in the case with many a great human mind, is to recognise that the social-construct is ‘not an ontological absolute’ but rather a ‘conventioning construct at the limits of human ontological capacity’ and that that is ‘why it has got its defining issues and problems’ and further that ‘it progresses and transcends’, and the intellectual exercise goes beyond just reasoning within ambits of ‘temporally-and-socially-perceived-rightness-of-thinking’ to explore possibilities that might actually be ‘outright unpalatable’ in the temporo-social sense but in the bigger picture as an intemporal/ontological/social/species/∕universal/transcendental/∕maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming are indispensable. With the idea that an intemporal/ontological/social/species/∕universal/transcendental/∕maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming that prolongs to intemporality∕an-abstract-eternality while obviously of ‘less an immediate temporal existential sense of good to some humans’ is undoubtable of ‘an intemporal existential sense of good to all humans at all
times’ by its percolation-channelling-in-deferential-formalisation-transference wherein for instance, the de-mentative/structural/paradigmatic effect of the law is allowing for civilisational living but its circumstantial construal and application may not be in tune with the temporal interests of many but for its institutionalising constraining. This contrast between humans appreciating intemporal/longness as potentially of universal import and at the same time disposed occasionally to advanced their temporality, is what warrants ‘a constraining institutionalisation’. In the same vain, one may ask what’s the temporal benefit to Rousseau or Galileo instead of striving for greater aristocratic privileges for themselves; for the one to rather carry the mantle from one royal court to the other of affirming the possibility of human emancipation (by which we are all percolatively benefiting from today) or the other the mantle of a principled engagement and possibility of science starting with an uncompromising supplanting-conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’ postconverging/dialectical-thinking—apriorising-psychologism from observation that the earth is not at the centre of the solar system, by which a culture of science came to be established. And finally, how coherent are temporal meaningful frames built from such intemporal grand principles but lived on temporal dispositions in extrication in contradiction to such philosophies, and what is the very relevance of such temporal enculturation and endemisation to present-day social and institutional failures in society? And what’s the role of ‘intellectual irresponsibility’ in all of this? From an intemporal hence ontological depth-of-meaningfulness, preceding/supersedingly, ‘limited-mentation-capacity’ (for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is the reason for human registry-worldview/dimension perversion-of-reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation; implying that ‘ontological-normalcy/postconvergence’ is actually for prospective-transcendence-in-perpetually-upholding-
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation beyond the
defective ‘intradimensional-subknowledging’-normalcy or reflex-normalcy’ which is rather an
<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag (illusion-of-the-present/present-consciousness) inclination to overlook/aside the notion of prospective transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity at its own (limited-mentation-capacity-threshold) uninstitutionalised-threshold though it will obviously and paradoxically recognise
the need of prior registry-worldviews/dimensions to transcend (just as by reflex from our
perspective we will recognise such a need for base-institutionalisation over recurrent-utter-
uninstitutionalisation, universalisation over ununiversalisation, positivism over non-
positivism/medievalism but hardly prospectively the notion that our dimension has an
uninstitutionalised-threshold like procrypticism–or–disjointedness-as-of-reference-of-
thought with the need for prospective transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity as deprocrypticism). However, as
previously indicated such an insight can only be garnered, beyond our illusion-of-the-
present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage as all
registry-worldviews/dimensions wrongfully imply, given that ‘doppler-thinking’ wherein our

ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, beyond defective intradimensional-subknowledging "normalcy/reflex-normalcy, points to factoring in notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation as ‘knowledge-notionalisation’ to avoid wrongfully operating/processing of logic by the reference of the intemporal-disposition "reference-of-thought– categorical-imperatives/axioms/registry-teleology",-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontological (as it is in sync with intrinsic-reality/veridicality), where dealing effectively rather with temporal-dispositions. It should be noted that the peculiarity for achieving all the institutional-cumulation/institutional-recomposure<as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’> is about bringing the prior registry-worldview/dimension perversion-of- reference-of-thought<as-preconvergingly-apriorising/axiomatising/referencing-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation to its placeholder-setup/mental-devising-representation/mentation/\{cumulated/recomposured\}-consciousness-awareness-teleology\(^1\) awareness for the collective-mind to psychoanalytically-unshackle/memetically-reorder/institutionally-recomposure, and thus take-stock-and-supersede/transcend its limited-mentation-capacity-deepening \(-\)threshold (uninstitutionalised-threshold \(^2\)). This is brought to the collective-consciousness so that with regards to social-stake-contention-or-confliction-and-confliction it renews its psychoanalytic-equilibrium, as the latest ‘capacity boost’ with respect to what is the grander individual-and-social good as positive-opportunism—of-social-functioning-and-accordance\(^3\). For instance, achieving base-institutionalisation requires that it should be brought to the collective-consciousness that it is ‘perilous to survival-and-flourishing’ to remain recurrently-uninstitutionalised for the grander individual-and-social good as positive-opportunism—of-social-functioning-and-accordance\(^4\). Once this enters the collective-consciousness this leads to an inclination for a renewed psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring wherein recurrent-utter-uninstitutionalisation registry-worldview then becomes preconverging-or-dementing\(^5\)–apriorising-psychologism-\(<\)stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase, as it is recurrently-uninstitutionalised, as the backdrop for the straightness/candoring-and-dialectically-in-phasing of base-institutionalisation registry-worldview. This is relatively direct by the existential implications to survival-and-flourishing with the lower institutional-cumulation/institutional-recomposure\{-as-to-
historiality/ontological-eventfulness/ontological-aesthetic-tracing-\(<\)perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’\>\} of base-institutionalisation, \(^6\)universalisation and positivism. For deprocrypticism, an even stronger emphasis has to be placed on the abstract percolation-channelling-\(<\)in-deferential-formalisation-transference\> as setup from positive-opportunism—of-social-functioning-and-
accordance for survival-and-flourishing, just as with the positivistic registry-worldview which as well is relatively deferential with percolation-channelling-<in-deferential-formalisation-transference> (undermining <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/resentment/closed-construct-of—meaningfulness-and-teleology-as-of-'nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications>} or banality-of-thought) to formalised deference like the higher developed legal system involving lesser possibility for mob-and-disparate-justice as with the lower institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism>}, grander subject-matter expertise and lesser hearsays-and-vague-opinions limiting the ambit of the influence of the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology}; all geared to discriminate for supersedingness of the intemporal-disposition (longness-of-register-of—meaningfulness-and-teleology”) over temporal-dispositions (shortness-of-register-of—meaningfulness-and-teleology”) as percolation-channelling-<in-deferential-formalisation-transference> not only in the present but prospectively. In other words, higher institutionalisations imply greater ‘deferential-formalisation-transference’ wherein the ambits of the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology} with regards to meaningfulness shrinks as formal conceptualisations extend the intemporal-skewing (‘intemporality’-asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) and deferential model for construing meaningfulness. For instance, many a subject matter domain like meaning about the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially in
deference to abstract intemporal-disposition teleological conceptualisation voiding social
temporal-dispositions teleological dispositions. The reason is simple formal settings use the-

The bigger issue with regards to all the BODMAS characters is with respect to the limits of their \textsuperscript{83}reference-of-thought–\textsuperscript{8}categorical-imperatives/axioms/registry-teleology\textsuperscript{99},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which are readily predisposed to such \textsuperscript{74}perversion-of-\textsuperscript{83}reference-of-thought-The-as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > and subknowledging\textsuperscript{20}-impulse/compulsive-dementing\textsuperscript{20} whether by character A or any other character rather than just the fact that the condition (psychopathic postlogism in hollow-constituting\textsuperscript{-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation} for instance) is the causative factor of their failure to in ontological-normalcy/postconvergence ensure intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation. In any case the de-mentative/structural/paradigmatic resolution is with regards to the implications of metaphorically-a-million-and-one-instances-and-locales of perversion-of-reference-of-thought-as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation in the given registry-worldview/dimension as an aetiolisation/ontological-escalation (as notional-firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence individuations predictable and determinable teleologies). That is, fundamentally the appropriate conceptualisation of reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation is structurally-speaking about perpetually ensuring intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as the superseding/preceding notion (i.e. ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). In this regard, we may easily construe the fundamental defects-of—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as these enable perversion-of-reference-of-thought-as-preconvergently-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation with respect to intemporal-preservation-entropy-or-contiguity—or—ontological-preservation wherein successive institutional-cumulation/institutional-recomposure—(as-to—historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence—reflected—epistemicity-relativism-determinism) are analytical to various defective instances in operating the BODMAS equation. That is, while the condition/subknowledging—impulse/compulsive-dementing with A’s additionality results are wrongly incremented by 1, leading to the uninstitutionalised-threshold to be rightfully
corrected with new reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^\d\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involving subtracting 1; the defect of a second registry-worldview/dimension may involve subtracting 1 from the result of \( S \) as a condition/subknowledging\(^\d\)-impulse/compulsive-dementing of \( S \), requiring similarly new reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^\d\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation correction of the BODMAS characters as with the first registry-worldview/dimension to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Likewise, a third and fourth registry-worldview/dimensions defects could involve respectively a subknowledging\(^\d\)-impulse/compulsive-dementing /condition of \( M \) wherein the latter wrongly adds 1 to a multiplier before multiplying and a subknowledging\(^\d\)-impulse/compulsive-dementing /condition of \( D \) wherein \( D \) wrongly subtract 1 to a divisor before dividing, with these two latter registry-worldviews/dimensions equally requiring similarly new reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^\d\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation adjustment of the BODMAS characters as with the first and second registry-worldviews/dimensions to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Ultimately, a notional-deprocrypticism construal of the institutionalisation/intemporalisation process aiming to perpetually sync reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^\d\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in ontological-normalcy/postconvergence, is one that will bring to the mental-devising-representation, the BODMAS characters potential temporal-dispositions to perversion-of-reference-of-thought as-preconvergingly-apriorising/axiomatising/referencing-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and

‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. The implications for the science of psychology can thus be drawn out. The articulated notion of \( \text{de-mentation-} \langle \text{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics} \rangle \) brings up the central conceptual role of psychology as about understanding human mental-devising-representation and the implications thereof. Central to this \( \text{de-mentation-} \langle \text{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics} \rangle \) process is a dialectical exercise of stranding; either as mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase to imply a superseded/transcended/unsound registry-or-registry-worldview/dimension or as mentally straight/candored-and-dialectically-or-contendingly-in-phase to imply a superseding/transcending/sound registry-or-registry-worldview. \( \text{de-mentation-} \langle \text{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics} \rangle \) further implies that instead of a ‘conventioning influenced and driven’ more or less notational study of human psychological phenomena as is the case today; we can ‘think’ of psychology in \( \text{de-mentation-} \langle \text{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics} \rangle \) terms of \( \text{de-mentation-} \langle \text{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics} \rangle \) of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-to-conflicatedness as dialectical transformation as-prospective reference-of-thought \( \text{de-mentation-} \langle \text{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics} \rangle \) with respect to either mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase representation or
mentally straight/candored-and-dialectically-or-contendingly-in-phase representation) as ‘directed’ simply by demonstrable ontological-veracity/ontological-relevance/ontological-reference-of-thought of transdimensional-meaningfulness–apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument; leading to a psychological science which is more comprehensive, timeless and unbounded by its conceptualisation as it emphasises psychological-representation/mental-devising-representation as more ‘ontologically-driven/ontologised’ rather than ‘conventionally-driven/conventionalised’. In so doing, overriding and superseding the analyst illusion-of-the-present/epistemic-totalising/self-referencing-syncretising/present-consciousness/mirage referring to the instance where the personhood-and-socialhood-formation intradimensional conventoning induces an ‘analytical-complex’ with respect to an ontologically veridical psychological-representation or mental-devising-representation. As implied psychological-representation/mental-devising-representation is then fundamentally determined by the depth/profoundness-of-ontological-veracity/depth/profoundness-of-ontological-reference of a given registry/registry-worldview-or-dimension as it upholds ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) over reflex-normalcy or intradimensional-subknowledging-normalcy. Ontological-normalcy/postconvergence appropriately points to the pertinence for ontological construal as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots_or_attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–reification_or_intrinsic-reality–ontological-coherence_or_superseding–oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for an appropriate de-mention—supererogatory—ontological–de-mention-or-dialectical–de-
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) \(^{15}\) de-mentation\(^{15}\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics). That is, a conventioning influenced-and-driven psychology tends to equate the conventional insights at one \(^{15}\) de-mentation\(^{15}\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) dialectical moment or registry-worldview/dimension as intradimensionally set in stone and across all moments whereas an ontologically-driven psychology acknowledges and recomposures to the dialectical evolution of \(^{15}\) reference-of-thought for a comprehensive, appropriate and veridical \(^{15}\) de-mentation\(^{15}\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) exercise. Such \(^{15}\) reference-of-thought of dialecticism registry-worldview-wise/dimension-wise (for \(^{15}\) de-mentation\(^{15}\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) exercise in reflection/perspectivation of psychological-representation/mental-devising-representation) are the institutional-cumulation/institutional-recomposure\(^{46}\) (as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing\(^38\)/ontological-normalcy/postconvergence-reflected-'epistemicity-relativism-determinism'>) as recurrent-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, \(^{10}\) universalisation/non-positivism-or-medievalism, positivism/procrypticism preconverging-or-dementing\(^{20}\)--apriorising-psychologism, and prospectively (critical for a prospective conceptualisation of psychology) perpetuation-of-deprocrypticism. This explains why this memetism/transdimensional-meaningfulness/suprastructural-meaningfulness psychology is a ‘postconverging-or-dialectical-thinking\(^{11}\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as it is driven/led by a reference to dialectical/ontological-veridicality (ontological-normalcy/postconvergence in successive ontological-
normalcy/postconvergence/postdicatory ontological-reconstituting—as-to-conflatedness/deconstruction of dialectical existentialisms/full-depths-of-existential-implications as reference-of-thought, rather than intradimensional-subknowledging-normalcy or reflex-normalcy) for de-mentation\{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics\} of reference-of-thought’ exercise in reflection/perspectivation of psychological-representation/mental-devising-representation, i.e. preconverging-or-dementing—apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> for the dialectically-and-ontologically-superseded/transcended/unsound registry/registry-worldview-or-dimension, and postconverging-or-dialectical-thinking—apriorising-psychologism-<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> for the dialectically-and-ontologically-superseding/transcending/sound registry/registry-worldview-or-dimension. This ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ is the foundation of a pure, emancipated and disinhibited psychology (both registry-and-registry-worldview-wise) as such a psychology is grounded exclusively on ontologically demonstrable references of the veridicality of registries and registry-worldviews/dimensions successive existentialisms/full-depths-of-existential-implications, and the corresponding ontological veracities implied. Such a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ contrasts with a ‘mented’ or ‘stigmatic’ psychology of weak memetism/transdimensional-meaningfulness/suprastructural-meaningfulness reference-of-thought for the simple reason that it is not founded on a pure dialecticism of ontological/dialectical-referencing but rather on intradimensional conventionalised referencing which wrongly hardly proxies the veridicality of ontological-normalcy/postconvergence or construe a dialectical-reference/ontological-reference for de-mentation.
Thus it mental-devising-representation is stigmatic or mented (set-in-place-or-a-period) as of preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism-\textless stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase\textgreater for the conventioning–superseded/transcended/unsound registry/registry-worldview-or-dimension, and postconverging-or-dialectical-thinking\textsuperscript{21}–apriorising-psychologism-\textless stranded-as-rightfully-straight/cedared-and-dialectically-or-contendingly-in-phase\textgreater for the conventioning–superseding/transcending/sound registry/registry-worldview-or-dimension. This will explain in many ways the more or less fitful development of modern-day psychology, more or less ‘uncertain of the ontological/dialectical pertinence of temporal-as-out-of-phasing-representation’ (in reflecting preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism) thus undermining its ontological-referencing veracity/ontological-pertinence with respect to an ‘\textsuperscript{15}de-mentation-\textsuperscript{13}(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) of ‘reference-of-thought’ exercise of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements in ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflicatedness\textsuperscript{13} as dialectical transformation as-prospective \textsuperscript{32}reference-of-thought. A dialectical ontological-reconstituting–as-to-conflicatedness\textsuperscript{13}/deconstruction of \textsuperscript{8}reference-of-thought (recognising human limited-mentation-capacity-deepening\textsuperscript{15} and the need to re-institutionalised/re-intemporalised resulting in the subsequent institutional-cumulation/institutional-recomposure-\{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-\}<perspective–ontological-
normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’⟩ as articulated above is not only the basis for memetism/transdimensional-meaningfulness/suprastructural-meaningfulness, but as well for avoiding what can be termed as the ‘ontological-circularity’ of modern-day psychology. Such ontological-circularities are engrained in all registry-worldviews/dimensions wherein the naïve pretence for a quest for deeper ontological-veridicality is rather just syncretic/circular and hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as fundamentally the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the said registry-worldview/dimension are at a dead-end with a de-mentative/structural/paradigmatic impossibility for a critical breakthrough just by the mere fact that the registry-worldview/dimension has attained its mentation-capacity-limitation or uninstitutionalised-threshold (as the nature of intrinsic-reality with respect to the human psyche is ontological-normalcy/postconvergence or inherently preceding or inherently superseding as it doesn’t change an iota, and it is the human psyche that gives-in in its mental-devising-representation to conform to intrinsic-reality). With such naïve efforts to keep up and develop profound meaningfulness based on the same registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology mostly a dead-end. Such ontological-circularities will include for instance the dead-end of medieval alchemy preconverging–de-mentating/structuring/paradigming with respect to positivistic chemistry postconverging–de-mentating/structuring/paradigming, a flat-world preconverging–de-mentating/structuring/paradigming with respect to a round world postconverging–de-mentating/structuring/paradigming, a creationism preconverging–de-mentating/structuring/paradigming with respect to an evolution postconverging–de-mentating/structuring/paradigming, a universal humanity postconverging–de-
mentating/structuring/paradigming with respect to aristocratic/racial/tribal preconverging–de-
mentating/structuring/paradigming, a science postconverging–de-
mentating/structuring/paradigming with respect to a superstition preconverging–de-
mentating/structuring/paradigming, etc. Naivety will be to think that issues of ontological-
circularity in our present positivistic meaningfulness (for transcending beyond our vices-and-
impediments and overcoming inherent inhibitions to human emancipation) are not in
veridicality about a need for a shift in prospective postconverging–de-
mentating/structuring/paradigming. This brings forward fundamentally the limited-mentation-
capacity/uninstitutionalised-threshold construct of our times (procrypticism) and the de-
