Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemperal-preservation-entropy-or-contiguity-or-ontological-preservation.

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be
undertaken over it. Such a hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojecting/supererogating/zeroing insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’, more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes more-or-less similar-to-those-of-the-song construed as constituting the song). As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while
many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at their apathetic threshold as these rather develop into denaturing\textsuperscript{16} wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the- reference-of-thought— categorical-imperatives/axioms/registry-teleology } stifling prospective sublimating possibilities, thus requiring prospective fundamental reconception. While such prospective re-projection/re-anticipation recognises prior human cumulated knowledge as enabling institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-&lt;perspective—ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism-determinism’&gt; right up to the present, it also cognisant that at a certain point the ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’ becomes critically a drawback for the possibility of knowledge-reification—gesturing-\textsuperscript{in-prospective psychologismic—apriorising/axiomatising/referencing-{of-attendant—ontological-contiguity —educed—existentialising/contextualising/textualising-contiguity } —

As what becomes critical in such a context is no longer prospective knowledge-reification–gesturing-\(\text{in-prospective_psychologismic—apriorising/axiomatising/referencing—}\) \{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity \}—conflatedness \(\text{in—} \{\text{preconverging-disentailment–by}–\text{postconverging-entailment}\} \) as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently projected as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for advancing human progress); in so-doing apparently render human-subpotency/mortality bigger than existence-potency –sublimating–nascence,-disclosed-from-prospective-epistemic-digression as to immortality. But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity
providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellection’ not to recognise what is going on (as to wrongly imply that it is veridically in dialogical-equivalence<as-to-psychologismic~apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educted–existentialising/contextualising/textualising-contiguity }|-- conflation—in-[preconverging-disentailment-by]–postconverging-entailment,-in-self-becoming/self-conflation{/formative–supererogating~}), as such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity

In many ways this intellectual falsehood (so-construed herein as to ‘the implausibility of genuine lack of understanding as from a serious intellectual engagement’ but rather ‘strategic/calculated behaviour of mere institutional power even against genuine knowledge’ herein construed as a ‘decadent and dangerous conception of
knowledge’ that is effectively destructive of prospective human knowledge reifying and empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests. This is especially manifested when such an intellectual teleological-decadence-in-dimensionality-of-desublimating-lack-of

It will be as naïve as implying the validity of a common basis for doing arithmetic where an interlocutor insists on 2+2 as 5 but when appropriately explained the veridical assumptions of arithmetic goes on to insist 3+3 as 7; speaking not of a fundamental problem of arithmetic operation as of dialogical-equivalence but a fundamental question of ontological-bad-faith/inauthenticity on the naïve mental reflex that ‘anyway dialogical-equivalence’ is ever always assumed’ to then adopt an apriorising/axiomatising/referencing attitude of abusing the notion of dialogical-equivalence as to wrongly implied logical-dueness. Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an inclination ‘not just to evaluate logical coherence as of correctness or incorrectness or any other evaluation in-between on the basis of ontological-good-faith/authenticity’, but beforehand ‘to equally evaluate the apriorising/axiomatising/referencing in ontological-good-

Such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s² to ensure that calculations conform to its expectations for one temporal interest or another. But the reality of that universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness } as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-

In this regards the transcendental/transvaluating conception of aporeticism overcoming/unovercoming is of existential comprehensiveness and cannot be just about the physical world without social world implications and vice-versa as so-underlined with the fact that both are for-human-studies/for-human-constructs epistemic-projection by the underlying fact that these are the very same human-subpotency sublimation implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility {imbued-and-{hermeneutically/reprojectively/supererogatingly/zeroingly}educing-‘herein-specifically-relevant_human-subpotency’–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing~conceptualisation}; as inevitably the apparently socially innocuous Copernican, Galilean, Cartesian, Newtonian, etc. conception of the material world as of positivism/rational-empiricism in superseding their human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of ‘traditional mythological/supernatural conceptualisation of material world/things as of the universalising but non-positivism–medievalism preclusive-consciousness’ have constructive implications about corresponding requisite prospective positivism/rational-empiricism social-values (in superseding the human-subpotency–aporia/undecidability/dilemma/ought-

Likewise, it is herein contended that the future possibility for the natural sciences advancement is inseparable from the possibility of social and social-organisational advancement as of prospective human aporeticism overcoming/unovercoming as to the prospective deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought protensive-consciousness induced Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology and so over our present procrypticism–or–disjointedness-as-of–reference-of-thought occlusive-consciousness; and in effect this conjoint-epistemic-relationship-and-fate in the conceptualisation of the material and social world is even confirmed today as with the social and social-organisational framework that underlied and was necessary for most of the scientific and technological advances after the second-world war. feels strongly about the need for profound human thought should be able to do likewise, as
ultimate responsibility and choice notionally lies with the individual.

The psychopath is in a state of compulsing–nonconviction/madeupness/bottomlining

it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining

we ‘consistently’ have two sets of mental-dispositions having to do with the uninstitutionalised-threshold of all registry-worldviews/dimensions; as of metaphysics-of-presence--{implicated-nondescript/ignorable–void’as-to-presencing—absolutising-identitive-constitutedness} and metaphysics-of-absence--{implicated-epistemic-veracity-of-nonpresencing–perspective-ontological-normalcy/postconvergence} representations

rational-realism attends to the idea of human limited-mentation-capacity-deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’)

wrongly elevate psychopathic meaningfulness-and-teleology as of veridical ‘attendant-ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity’ rather than reflect the reality of its ‘formulaic meaningfulness-and-teleology’

The underlying fact about meaningfulness-and-teleology is that the apriorising–registry (as the individual grounding of the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic

‘social protraction of psychopathy across individuals and society’

The suspected psychosomatic basis for the psychopath to be slanted/’cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge (entitlement folie/folie raisonnante)’ as opposed to a logical motivation of a supplanting–conviction-as-to-profound-supererogation—of–attendant-intrdimensional’postconverging/dialectical-thinking–apriorising-psychologism or prelogic mental-disposition

‘mental roaming/drifting-cycle disposition known as postlogism-retreating’
social-discomfiture is in reality not a veridical logical 'contention’ but in veridicality/ontologically a ‘protracted manifestation’ of notional–procrystalism/notional-disjointedness-as-of-reference-of-thought.................

the psychopath overemphasises in a consciously active manner the empty forms of prosody in-of-themselves first and over the intrinsic attributive essence of meaning like overemphasising the toning form (toning triggering) and the supposition form (presumptuousness) in their expressed deductive reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised spontaneously when naturally expressing profound/deep conviction........................

mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism interlocutors, and so along five factors.................................

‘institutionalisation intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojecting/supererogating/zeroing psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’ ..............................................................

without necessarily differentiating such a conception of totalising-entailing between mythological and positivistic/rational-empirist totalising-entailing with both construed as universal ‘meaningfulness-and-teleology’, while the general sense of universal implicitly captures and exactifies/precises the conception of totalising-entailing in terms of ‘entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness’ as reflecting the implication of human limited-mentation-capacity-deepening as to the ‘notionalisation/notional-conception/amplituding of totalising-entailing so-reflected by the ontological-contiguity—of-the-human-institutionalisation-process’ (along the same lines as notional–deprocrypticism) thus amplificatorily rendering the conception of totalising-entailing (as to notionally–universal) as more ‘profoundly construed as from perspective relative-ontological-completeness’ as of the ontological-normalcy/postconvergence of existence/intrinsic-reality’ so-underlied by perspective ‘nondisjointing totalising-entailing’ or deprocrypticism.

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ predisposed human mind’ so-reflected as prelogism-as-of-conviction, in-profound-supererogation -<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> and so-construed as of human candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation’ —of–‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism-as-of-conviction, in-profound-supererogation -<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind operates by an ad-hoc and circumspect exaggeration or omission). In other words, the psychopath manifests postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-('<decontextualising/de-existentialising–of–attendant-intradimensional–apriorising/axiomatising/referencing’–induced-disontologising’–of–the–‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-

by its reference-of-thought-developing-as-of-instantiative-context—‘meaningfulness-and-teleology’ construed as ‘how can a perverted sought after outcome be obtained with an interlocutor or interlocutors with respect to a targeted end-goal or targeted individual by falsely projecting hollow-abstract logic notwithstanding that it is existentially unreal or it is faked or it is opportunistically raised or raised out-of-context (existential-decontextualised-transposition)’, i.e. meaning-as-form or pathologically/compulsively hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, contrasted to the normal prelogism ‘-as-of-conviction,-in-profound-supererogation’-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> minds construed as ‘what does the veridical logical-processing-or-logical-implicitation—supposedly-apriorising/axiomatising/referencing-in-conviction-as-to-profound-supererogation of a given existential situation intrinsically imply as relevant and sound outcome’, i.e. meaning-as-ontologically-veridical/in-conviction-as-to-profound-supererogation, whether thereafter the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation is rightly or wrongly assumed). Hence prelogism ‘-as-of-conviction,-in-profound-supererogation’-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> is all about the appropriateness of logic without any implication/questioning about any issue with the reference-of-thought on which logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation is based, and thus the idea of re-engaging is valid on the basis that the logical-processing-or-logical-implicitation—
supposedly-apriorising-in-conviction-as-to-profound-supererogation can be well performed subsequently despite an initial failure or possible initial failures. Whereas with postlogism\textsuperscript{7}—as-of—compulsing—nonconviction/madeupness/bottomlining—\{\textsuperscript{7}<decontextualising/deexistentialising—of—attendant-intradimensional—apriorising/axiomatising/referencing—\}-induced—disontologising’—of—the—‘attendant-intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant—ontological-contiguity —in—shallow—supererogation\textsuperscript{96}—<as—to—disontologising—perverted-outcome-sought-precedes-existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness—\}\textsuperscript{96} this essentially has to do not with an issue of \textsuperscript{7}logical-processing-or-logical-implicitation\textsuperscript{96}—supposedly-apriorising-in-conviction-as-to-profound-supererogation but rather an issue of \textsuperscript{7}perversion-of—reference-of-thought\textsuperscript{96}—<as—preconvergingly—apriorising/axiomatising/referencing—in—nonconviction/madeupness/bottomlining—as—to—shallow—supererogation\textsuperscript{96}, as \textsuperscript{7}logical-processing-or-logical-implicitation\textsuperscript{96}—supposedly-apriorising-in—conviction-as—to—profound-supererogation is on the basis of a sound—reference-of-thought (non—perversion-of—reference-of-thought) such that fundamentally ‘the notion of the dueness for \textsuperscript{7}logical-processing-or-logical-implicitation\textsuperscript{96}—supposedly-apriorising—<as—preconvergingly—apriorising/axiomatising/referencing—in—nonconviction/madeupness/bottomlining—<as—to—shallow—supererogation\textsuperscript{96} > as ‘first-order perversion, out of attendant—ontological-contiguity—<reifying—or—elucidating—of—prospective-relative—ontological—completeness —of—reference—of—thought—devolving—as—of—instantiative—context>’, of apriorising\textsuperscript{7}—reference—of—thought—elements/apriorising—registry—elements which are denaturing\textsuperscript{10} of implied—logical-dueness—or—scape, profile—or—stature, presumptuousness—or—arrogation, assumptions, value-reference and teleology\textsuperscript{99}. For instance, as of their relative-ontological-incompleteness-of-reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-completeness-of-reference-of-thought positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on ones cloths and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism relative meaningfulness-and-teleology relative to the ‘utter and brute’ animistic interpretation as neuterising that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary tales’ in shoring up that posture, speaking of its threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-attendant-intradimensional-prospectively-disontologising-preconverging/dementing-apriorising-psychologism. This is a most elaborate articulation of neuterising as to Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology implications but it equally applies where meaningfulness-and-teleology is ‘just about miscued’ say between positivism–procrypticism and prospective depprocrypticism with the latter underlying the disjointedness-as-of-reference-of-thought of the former as to its neuterising, for instance in the case of psychopathy and corresponding conjugated-postlogism as social psychopathy as in the various illustrations highlighted herein and particularly as more obviously revealed with childhood psychopathy. that while being at an uninstitutionalised-threshold like universalisation–non-positivism/medievalism by mere-and-vague impression-driven/good-naturedness/wishfulness of amplituding/formative wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>} in social-aggregation-enabling, people will ‘simply by magic’ find themselves articulating positivistic meaningfulness-and-teleology without grasping that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring crossgenerational process is effectively the mechanism for ‘overcoming non-positivism/medievalism uninstitutionalisation meaningfulness-and-teleology’ to be able to then reveal, construe and uphold positivistic Being and meaningfulness-and-teleology, and this equally applies with regards to overcoming our procrypticism–or–disjointedness-as-of-reference-of-thought meaningfulness-and-teleology neuterising’ to attain futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism Being and meaningfulness-and-teleology. As a further elucidation, a comparison can be made between a construct of ‘notional–referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring

Such a basic conception of comparative axiomatic-constructs in their reflection of the very same <amplituding/formative—epistemicity>totalising—devolved—purview-as-domain-of-construal—as-intrinsic-reality/ontological-veridicality highlights that ontologically-veridical meaningfulness is a construction or derived-construction as of inherent intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it; the insight here being that ‘relative completeness/profoundness of axiomatic-construct/reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ which refers to the transcendental-enabling/sublimating/supererogatory—de-mentativity conceptual framework that sets up the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for a registry-worldview’s/dimension’s reference-of-thought construction possibilities of derived axiomatic-

It is psychoanalytic-unshackling commitment and not grounded knowledge construct commitment, because it is for instance about articulating ‘prospective positivism axiomatic-construct \langle\textit{occlusive-consciousness neuterising-induced}\rangle- reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘non-positivism axiomatic-construct \langle\textit{warped-or-preclusive-consciousness neuterising-induced}\rangle- reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’, or in the case of articulating ‘futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’ as of prospective notional~deprocrypticism axiomatic-construct \langle\textit{protensive-consciousness deneuterising -induced}\rangle- reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘positivism–procrypticism axiomatic-construct \langle\textit{occlusive-consciousness neuterising-induced}\rangle- reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness. This analysis brings out what is effectively meaningfulness as it shows that meaningfulness is more
completely about apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights thus involving the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating

Remarkably, such a maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation behind the ontological-contiguity—of-the-human-institutionalisation-process enabling the human existential tale in successive institutional-cumulation/institutional-recomposition ⟨historiality/ontological-eventfulness /ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism-determinism⟩ is always rather perceived intradimensionally as an exceptional-askance and unordinary. For instance, the maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence—{implicated-epistemic-veracity-of nonpresencing–perspective–ontological-normalcy/postconvergence} analysis does apply with respect to superstitions, universal human rights, free society, modern science, etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-
askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold \(^0\) and as of prospective institutionalisation with respect to \(^5\) maximalising-recomposuring-for-relative-ontological-completeness \(^8\) — unenframed-conceptualisation as the process enabling prospective relative-ontological-completeness \(^7\) — reference-of-thought of same \(\text{amplituding/formative–epistemicity} \) totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality hitherto considered off limits to any challenging \(^5\) maximalising-recomposuring-for-relative-ontological-completeness \(^7\) — unenframed-conceptualisation at the uninstitutionalised-threshold \(^0\) but then acknowledged thereafter after prospective institutionalisation; with the implication that the possibility for all prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity as of opened-construct-of—meaningfulness-and-teleology \(^9\) arise only by \(^5\) maximalising-recomposuring-for-relative-ontological-completeness \(^7\) — unenframed-conceptualisation but presences in their \(\text{amplituding/formative} \) wooden-language-\(\text{imbued—averaging-of-thought-}<\text{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology} \) as-of-\(\text{‘nondescript/ignorable–void ’–with-regards-to-prospective-apriorising-implications}>\) consider \(^5\) maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation as of exceptional-askance and unordinary due to their \(\text{amplituding/formative–epistemicity} \) totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \(^3\) mental-reflex avoiding being ontologically decentered and preconverging-or-dementing \(^2\) — apriorising-psychologism. Insightfully, this point out the circumspective nature of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on the one hand outrightly articulating construed ontological-veridicality at the expense of avoiding any Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology \(^9\) al engagement, as such a psychoanalytical

This underlying notion of ‘notional–conflicatedness\(^13\)/constitutedness\(^14\)-to-conflicatedness\(^13\) construal/conceptualisation’ can further be expanded upon contrastively with regards to knowledge practice in many an epistemic-totalising\(^1\)-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality not subject to immediate-constraining causality\(~\text{as-to-projective-totalitative–implications-of-}\) prospective- nonpresencing–for-explicating-ontological-contiguity thus rather eliciting atomising/taking-to-pieces apriorising/axiomatising/referencing-\{of-attendant–ontological-contiguity \(~\text{educed–existentialising/contextualising/textualising-contiguity }\)\}_ constitutedness\(^14\)-in–preconverging-entailment that induces relatively poor ontological-performance\(^7\)-<including-virtue-as-ontology>. The central element here has to do with the pervasiveness of ‘conceptual-patterning’ that actually speaks of a nombrilistic as \(<\text{amplituding/formative–epistemicity}>\) totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^1\) approach to conceptualising knowledge
based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as validated by amplituding/formative–epistemicity–causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such an apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity } constitutedness in preconverging entailment ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory–de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual-patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness of reference-of-thought, as of the incompleteness of the preconverging–de-mentating/structuring/paradigming of human reference-of-thought. Such
that a naïve categorisation/taxonomisation conceptual-patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the preconverging–dementating/structuring/paradigmig of human reference-of-thought; with the consequence that it is not ‘notionally postconvergingly–de-mentated/structured/paradigmed’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-disentailment by} postconverging entailment but rather suffers from apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—constitutedness in preconverging entailment. This weakness is underlined and resolved by the notion of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that enables apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging-disentailment by} postconverging entailment in line with attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity —<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought-devolving-as-of-instantiative-context>. It is such a conceptual-patterning mental-reflex associated with categorising/taxonomising dispositions in apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—constitutedness in preconverging entailment that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such
categorised/taxonomised thematics in of themselves’ as if an epistemic-totalising ~devolved–purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ~<as-to-perspective~ontological-normalcy/postconvergence-implied~‘prospective-aporeticism-overcoming/unovercoming’>, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places attendant–ontological-contiguity ~<reifying-or-elucidating-of-prospective-relative-ontological-completeness ~of~reference-of-thought~ devolving-as-of-instantiative-context> above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whosever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }~constitutedness ~in~preconverging entailment defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising apriorising/axiomatising/referencing-{of-
focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory~de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity immortal/first-party. Further, such conceptual-patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—confinedness—in—preconverging-disentailment—by—postconverging-entailment in (re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—(imbued—postconverging/dialectical-thinking —‘projective-insights’/‘epistemic-projection-in-conflatedness ’—of—notional~deprocrypticism—prospective-sublimation) ) originary/event —of—prospective-ontology-origination projection into attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity —<reifying—or-elucidating-of—prospective-relative-ontological-completeness —of—reference-of-thought—devolving—as—of—instantiative-context>, it emphasises mere de-mentative/structural/paradigmatic patterns inducing apriorising/axiomatising/referencing—{of—attendant–ontological-contiguity ~educed—existentialising/contextualising/textualising-contiguity }—constitutedness—in—preconverging-entailment, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory-de-mentativity construal highlights the ontological-contiguity of all knowledge as of their "reference-of-thought-as-to-preconverging/postconverging-de-mentating/structuring/paradigming dynamic relationship, conceptual-patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual-patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in apriorising/axiomatising/referencing–of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity ~constitutedness –in–preconverging entailment rather than striving to expand the transcendental-enabling/sublimating/supererogatory-de-mentativity <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual-patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual-patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory-de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual-patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual-patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory-de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve
categorising/taxonomising conceptual-patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity epistemicity—causality—as-to-projective-totalitative—implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity nature and differences as well as their divergence in meaningfulness-and-teleology implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/supererogatory—de-mentativity epistemicity—causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing—for-explicating-ontological-contiguity renewal of a same totalising—devolved—purview—as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—constitutedness—in-preconverging-entailment undermining requisite creativity as of apriorising/axiomatising/referencing—of-attendant—ontological-contiguity—educed—existentialising/contextualising/textualising-contiguity—conflatedness—in-preconverging-

Ultimately, the idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of attendant–ontological-contiguity —educted–existentialising/contextualising/textualising-contiguity —<reifying-or-elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought—devolving-as-of-instantiative-context> that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. Such an analytic insight as of a notional~deprocrypticism (protensive-consciousness deneuterising—induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness analysis as of its prospective relative-ontological-completeness —of—reference-of-thought/ontological-normalcy, points out that actually, and according to this author’s view, such a currently discussed philosophical issue as the hard problem of consciousness arises as a result of a fragmented thematic construal as of apriorising/axiomatising/referencing—of—attendant—ontological-contiguity —educted—existentialising/contextualising/textualising-contiguity }—constitutedness—in-preconverging-entailment wherein a more profound view of the philosophical enterprise as intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity <amplituding/formative—epistemicity—causality—as-to-projective-totalitative—implications—of—prospective—nonpresencing,—for—explicating—ontological-contiguity here hasn’t been entertain sufficiently to point out that effectively it is a problem that actually ‘devolves out’ of the more fundamental

Interestingly, from our vantage positivism/rational-empiricism perspective, we’ll certainly construe the supposed intradimensional resolution of existential issues of prior relative-ontological-incompleteness reference-of-thought as of ontological-performance—including-virtue-as-ontology arising in recurrent-utter-uninstitutionalisation as intradimensional meniality-or-hyperbole and rather resolvable as of base-institutionalisation superseding projection/anticipation, and same with base-institutionalisation–ununiversalisation as intradimensional meniality-or-hyperbole and rather resolvable as of universalisation superseding projection/anticipation, and same with universalisation–non-positivism/medievalism as intradimensional meniality-or-hyperbole and rather resolvable as of positivism/rational-empiricism superseding projection/anticipation, but we won’t or hardly construe of the same as of our <amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag about our positivism–procrypticism as it being of intradimensional meniality-or-hyperbole and rather resolvable as of notional-deprocrypticism as preempting—disjointedness-as-of-reference-of-thought superseding projection/anticipation! ‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. Now, the issue
of a centered–epistemic-totalisation defect arises where the given ‘reference-of-thought-as-of-
‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-

Derridean decentered-infinite-freeplay can also be construed as an interpolatory–epistemic-

‘traditional classical mechanics axiomatic-construct’ is a given ‘centered–epistemic-totalisation

been the way Derridean deconstruction has been commonly applied as in effect all our

decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates
the centered–epistemic-totalisation exercise for the insight of a futural différance as of the
latter’s transcendental–epistemic-totalisation that underlies
apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educated–
existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-
disentailment by} postconverging-entailment in breaking with the philosophical tradition or
human knowledge conceptualisation tradition or towards fulfilling the understanding of Being.
In this regard talking about the physics example again, such a Derridean freeplay différance is
akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-
complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which
then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and
later on Theory-of-relativity and Quantum-mechanics, and today with respect to various
theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to
futural différance is the notion of \langle amplituding/formative–epistemicity\rangle totalising–self-
Referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of beyond-the-consciousness-awareness-teleology, as of pre-converging-existential-extrication-as-of-existential-unthought, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold temporal individuations circular undermining of the prospective institutionalisation reference-of-thought-as-to-postconverging–de-mentating/structuring/paradigming implied transformation/shift as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness-of-reference-of-thought, as well as the idea of temporal individuations ‘synchronising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold reference-of-thought which is in totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with its ultimate crossgenerational collapsing for the prospective institutionalisation’s reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency ⟨transparency-of-totalising-entailing, as-to-entailing ⟩ as of prospective relative-ontological-completeness of the prospective institutionalisation’s reference-of-thought of the prospective institutionalisation’s reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness as of the
reality/ontological-veridicality, as to ‘human amplituding/formative epistemicity’ totalising–purview-of-construal’ or ‘amplituding/formative epistemicity’ totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicit axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being any conception as of meaningfulness-and-teleology of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/ reference-of-thought’, as the axiomatic-construct/ reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal, eliciting of prospective supererogation <as-to-perspective–ontological-normalcy/postconvergence-implied–’prospective-aporeticism-overcoming/unovercoming’> for human-subpotency possibilities for devolving meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, with increasing ontological-performance <including-virtue-as-ontology> as of human transcendence; even though such a conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration as to mere-extrapolating/constituting/abstracting/deducing/inferring of elucidation outside—attendant—
ontological-contiguity\textsuperscript{67}~educed–existentialising/contextualising/textualising-contiguity\textsuperscript{40}, whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring/instrument-validating-measuring\textsuperscript{<as-to-postconverging-or-dialectical-thinking}\textsuperscript{–apriorising-psychologism>~educed–existentialising/contextualising/textualising-contiguity\textsuperscript{40} as of maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{57}—unenframed-conceptualisation. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory~de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory~de-mentativity’. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context as to attendant–ontological-contiguity\textsuperscript{67}~educed–existentialising/contextualising/textualising-contiguity\textsuperscript{40} of other applied and transcendental-enabling/sublimating/supererogatory~de-mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with
heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as knowledge-reification–gesturing–in-prospective_psychologismic–apriorising/axiomatising/referencing–of-attendant–ontological-contiguity–educed–existentialising/contextualising/textualising-contiguity–conflatedness–in–preconverging-disentailment–by–postconverging-entailment> for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about sublimating-validation/desublimating-invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential sublimating-validation/desublimating-invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest–subpotency–(in-transitive-
of mathematical equations’ without the prior insight about the physics domain-of-study and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating/supererogatory-de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\[9\]. The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating/supererogatory-de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory-de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension\[83\] reference-of-thought-as-of-\[83\] reference-of-thought—devolving-teleological-de-mentating/structuring/paradigmning-of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness\[87\] of reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence\[61\] implicited-epistemic-veracity-of-nonpresencing-<perspective–ontological-normaley/postconvergence>\[605\] that however deficient,
that each registry-worldview/dimension does have its own sense of logic as of its self-conscious

registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working

Such mutual unintelligibility, with regards to reference-of-thought, speaks of differing ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of ‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with amplituding/formative-epistemicity-totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory—de-mentativity implications as of human limited-

Such a logicism disposition is rather in apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity～educed–existentialising/contextualising/textualising-contiguity}—constitutedness in preconverging entailment and is behind such naïve contention that philosophy doesn’t carry transcendental implications and actually undermines other approaches that strive for transcendental-enabling/sublimating/supererogatory-dementativity by way of conceptual-patterning arguments blinded to transcendental implications of knowledge as derived from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation<as-to-perspective–ontological-normaley/postconvergence-implied-prospective-aporeticism-overcoming/unovercoming>. In the bigger scheme of things, this author holds that the deepest ‘phenomenological transcendental-point-of-departure handle’ in the conception of meaningfulness-and-teleology ontological-performance—including-virtue-as-ontology as of transcendence-and-sublimity/sublimation/supererogatory-dementativity reflected by metaphysics-of-absenceimplicitized-epistemic-veracity-of-nonpresencing<perspective–ontological-normaley/postconvergence> is wholly sufficient as

Further as of such phenomenological transcendental apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment by} postconverging-entailment, there is no issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency/sublimating–nascence, disclosed from prospective epistemic digression, but rather an issue to humankind arising as of human-subpotency in the full-potency of existence with all the problem of existence being the issue of humankind’s limited-mentation-capacity implications as failing Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of ontology’s-directedness-as-Being. The phenomenological insight here about the nature of ‘existence as so construed as of ontology’s-directedness-as-Being’ is that Being is the apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging-disentailment by} postconverging-entailment as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation selectivity inherent in existence that rather skews presence states towards the ‘ontological statistical-exception’ of intemporality/longness over temporality/shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality–to-intemporality were to be arising in equivalence/equal-measure. Thus, such
from which Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology⁹ exercise we can’t as of soundness-or-ontological-good-faith/authenticity⁹ exculpate ourselves to then pretend ours is the registry-worldview/dimension reference-of-thought that is non-transcendable as of our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag , when the insight of prospective transcendence-and-sublimity/sublimation/superrogatory–de-mentativity implications as of deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought avails, and so as the apriorising/axiomatising/referencing–{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—confatedness¹° in {preconverging-disentailment–by}–postconverging-entailment upholding prospective coherence/contiguity of ontology’s-directedness-as-Being. This further explains why there is need for corresponding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology⁹ with respect to human technical development, and as with prior technologies future technologies will necessarily imply renewed human self-consciousness which is not by itself a given and needs to be ‘thought through and effectively conceptualised’ with respect to the future implications of human development, nuclear weapons knowledge, electronic communication, artificial intelligence, etc. as ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-

Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual-patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory de-mentativity implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/ reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity <-<between—prior-shallow-supererogation -of-mentally-aestheticised—preconverging/dementing –qualia-schema_and_prospective-profound-supererogation -of-mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema> of axiomatic-construct but rather a problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity of axiomatic-construct for grander human ‘meaningfulness-and-teleology’ ontological-performance <-<including-virtue-as-ontology>, as of the very same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. The notion of axiomatic-construct in ontological-contiguity arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity. ontological-contiguity rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct/reference-of-thought of construal; which for instance renders the idea of general relativity in relative ontological-contiguity and newtonian physics in relative notional-discontiguity/epistemic-discontiguity-between—prior-shallow-supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema_and_prospective-profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity—between—prior-shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema_and_prospective-profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema’ will seem to imply correlatedness by the very nature of the term continuity. Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-

Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological 56meaningfulness-and-teleology could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness—of—reference-of-thought apriorising/axiomatising/referencing—of-attendant—ontological-contiguity —educed—existentialising/contextualising/textualising-contiguity }—constitutedness—in—preconverging—
entailment as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness reference-of-thought is a de-mentative/structural/paradigmatic deficiency inducing the totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness reference-of-thought apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging–disentailment–by} postconverging-entailment which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational meaningfulness-and-teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-teleology, with transcendence-and-sublimity/sublimation/supererogatory–de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory–de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism—of-social-functioning-and-accordance as of human
as social universal-transparency avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic-totalisation facticity but crossgenerationally human ‘re-conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on ‘meaningfulness-and-teleology’ with respect to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of ‘meaningfulness-and-teleology’ within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ of ‘meaningfulness-and-teleology’ with regards to perceived social-
stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34} human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34} induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology\textsuperscript{99} within a given social-setup in the immediate-and-short-term. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness\textsuperscript{57}–of reference-of-thought occurs because de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of–meaningfulness-and-teleology\textsuperscript{99} given their supposedly coherent ontological-commitment\textsuperscript{<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming ~as-being-as-of-existential-reality>} as of more profound

However, such a conception of supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming as-being-as-of-existential-reality> is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation meaningfulness-and-teleology as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of meaningfulness-and-teleology social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of–social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s
reference-of-thought—categorical-imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency—{transparency-of-totalising-entailing—as-to-entailing—<amplituding/formative—epistemicity>totalising—<in-relative-ontological-completeness } about such metaphoricity instigative reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality> that is subject to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression validatory <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment ⁹<implied—self-assuredness-of-ontological-good-faith/authenticity ⁹~postconverging–de-mentating/structuring/paradigming ⁹as-being-as-of-existential-reality> respectively as of superstitious spiritualism ⁵meaningfulness-and-teleology⁹ or scholasticism pedantic dogmatism ⁵meaningfulness-and-teleology⁹, as of the given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity ⁹~postconverging–de-mentating/structuring/paradigming ⁹as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism
or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-faith/authenticity’—postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility for prospective metaphoricity to demonstrably undermine the implied supposedly coherent ontological-commitment of such prior social-setups registry-worldview/dimension of meaningfulness-and-teleology, and so as of the prospectively induced <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing—for-explicating-ontological-contiguity superseding meaningfulness-and-teleology as from existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression epistemic-or-notional–projective-perspective of relative-ontological-completeness of reference-of-thought by way of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing—for-explicating-ontological-contiguity such as with prospective positivism/rational-empiricism meaningfulness-and-teleology. However, given the inheritance of social-stake-contention-or-confliction, inevitably prospective metaphoricity undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphoricity and by that token elicit sophistic/pedantic inclinations to such prospective metaphoricity meaningfulness-and-teleology. Further any such prospective metaphoricity ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of positive-opportunism—of-social-functioning-and-accordance as of particular and general social interest. That said, a social-setup is ever always ‘existentially invested’ to a given registry-worldview/dimension and the fact of greater knowledge-reification–gesturing

meaningfulness-and-teleology is basically nothing and worthless, likewise as of the temporal ‘mental and existential investment’ of base-institutionalisation–ununiversalisation prospective universalisation antinihilism

meaningfulness-and-teleology is basically nothing and worthless, same with universalisation–non-positivism/medievalism and prospective positivism, and equally so for positivism–procripticism and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocripticism. Explaining in many ways why the elicitation of value as of prospective secondnaturized institutionalisation rather occurs as of the superseding of

<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporality. Ultimately, prospective metaphoricity in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuation realistically implies that it is rather fundamentally a question of grasping the mechanism that tips the balance towards human intemporality/longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-disposition as to absolute ontological-commitment

<implied—self-assuredness-of-ontological-good-faith/authenticity~postconverging–de-
mentating/structuring/paradigming–as-being-as-of-existential-reality>. More critically, such a conception of prospective metaphoricity cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling-<in-deferential-formalisation-transference>, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology-<in-preconverging-existential-extrication-as-of-existential-unthought> with respect to prospective metaphoricity as of the implications of such undermining of social deferential-

In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–depocrypticism metaphoricity© implications are necessarily spurious and associated with our positivism–procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity© implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that budding-positivism can be demonstrated as more ontologically pertinent as of <amplituding/formative–epistemicity> causality <as-to-projective-totalitative–implications-of-prospective–nonpresencing, for-explicating-ontological-contiguity, so long as it is socially and institutionally credible to uphold non-positivism © meaningfulness-and-teleology© in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity© that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus’s heliocentric world work or engagement with Galileo’s support of heliocentrism then his persecution for publishing, rather speaks de-mentatively/structurally/paradigmatically of the covert/underhanded nature of the medieval establishment pedantic disposition as of the implications of ideas undermining medieval dogma

But then at such a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold, there is a relative variance of ontological-completeness-of reference-of-thought as of the prospective relative-ontological-completeness’-of- reference-of-thought in intemporality/longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness’-of- reference-of-thought in temporality/shortness entailing the uninstitutionalised-threshold; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the notional-firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold and the prospective institutionalisation; given the variance of temporality/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism, and prospectively procrypticism—or–disjointedness-as-of-reference-of-thought with intemporality/longness rather as respectively in base-institutionalisation, universalisation, positivism and prospectively deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought. The bigger point here being that the very notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educated–

In this case such overcoming of neuterisation with reference to the variance of the <cumulating/recomposuring–attendant-ontological-contiguity >successive registry-worldviews/dimensions is rather conceived as deneuterising as of the variance in prospective
insight about such a deneuterising\textsuperscript{17} storied-construct/ontologically-valid-narration from the fact that a non-positivism/medievalism or animistic social-setup is ‘not committed in a \textit{amplituding/formative–epistemicity}totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{14}’ to positivistic/rational-empiricism meaningfulness-and-teleology\textsuperscript{99} with regards to occurrences and incidents best explained and dealt with by such positivistic meaningfulness as of the latter’s prospective relative-ontological-completionness of reference-of-thought. As such non-positivism/medievalism or animistic social-setup ‘will not be self-effacing as of its ontologically-flawed \textit{amplituding/formative–epistemicity}totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{14}’-temporal-mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about its uninstitutionalised-threshold\textsuperscript{102} of non-positivism and the prospective institutionalisation of positivism’. This equally explains how our positivism–procrypticism mental-disposition is construed in deneuterising\textsuperscript{17} from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology\textsuperscript{99} as of prospective notional–deprocrypticism perspective ‘as not self-effacing as of its ontologically-flawed \textit{amplituding/formative–epistemicity}totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{14}’-temporal-mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about the uninstitutionalised-threshold\textsuperscript{102} of its procrypticism–or–disjointedness-as-of reference-of-thought and the prospective institutionalisation of deprocrypticism’. This is actually the ontologically-veridical phenomenological transcendental framework for construing/conceptualising human temporal character and social formation mental-dispositions as of uninstitutionalised-threshold\textsuperscript{02} and prospective-institutionalisation based on the dynamics of limited-mentation-capacity, unlike a naïve neuterising mental-reflex that by its \textit{amplituding/formative–epistemicity}totalising–self-referencing-

Central and critical to achieving such a deneuterising analysis in grasping the full and complete possibilities of ontologically-veridical construal of human meaningfulness-and-teleology given human temporal-to-intemporal mental-dispositions as of prospective institutionalisation and uninstitutionalised-threshold is the notion of beyond-the-consciousness-awareness-teleology -<in-preconverging-existential-extrication-as-of-existential-unthought>. It is exactly what renders a veridical ontological-escalation or aetiologisation of the human condition possible as the historiality/ontological-eventfulness /ontological-aesthetic-tracing-. It is most critical because at any registry-worldview/dimension, human self-consciousness is a mental-reflex as of being-only-in-institutionalisation-and-hence-only-of-a-meaningfulness-and-teleology-that-is-intemporal while defectively ignoring-and-undermining the veridicality of uninstitutionalised-threshold -and-its-assorted-and-conjugated-temporal-meaningfulness-and-teleology such that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is always perceived as unnatural when , in the sense that ‘it-is-others,-as-of-the-

with that of the construal of knowledge as organic-knowledge or mechanical-knowledge

beyond-the-consciousness-awareness-teleology is all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold in temporal/shortness-of-register-of meaningfulness-and-teleology terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity —of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference secondnaturing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism’ is in a state of totalising–self-referencing-syncretising/circularity/interiorising/akrasiacal-drag of a medieval worldview will grasp that that unique demonstration of medieval-postlogism / perversion-of–reference-of-thought-as-preconvergingly-apriorising/axiomatising/referencing-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing- orlogical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as ‘prelogic supplanting–conviction-as-to-profound-supererogation’ —of-‘attendant-

It is rather the crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of the non-positivism/medievalism mindset/reference-of-thought into a positivistic mindset/reference-of-thought that is ontologically-speaking to be construed as the postconverging-de-mentating/structuring/paradigming resolution of the vices-and-impediments\footnote{105} arising from a non-positivism/medievalism worldview with respect to such notions-and-accusations-of-sorcery. The same applies with respect to our positivistic–procrystalism worldview and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\footnote{97} as of prospective notional–deprocrystalism worldview). We can appreciate such metaphysics-of-absence-{implicated-epistemic-veracity-of-nonpresencing-⟨perspective-ontological-normalcy/postconvergence⟩} insight as of say in a situation of cultural diffusion the requirement that a recurrent-utter-uninstitutionalisation social-setup opportunistically grasping mere effecting possibilities of base-institutionalisation knowledge, as of relative convenience to individuals, are much more better off equally coming into terms institutionally with the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced intemporality\footnote{102}/longness behind the ‘inventing of the base-institutionalisation culturally diffused knowledge’ for an optimum accrual of the Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness–

But then this ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ is just one aspect of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{\circledast}\) as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{\circledast}\); as we can appreciate that despite the positivistic inclinations of the Copernicus, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating/supererogatory–de-mentativity not only to science but transcendental-enabling/sublimating/supererogatory–de-mentativity as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{\circledast}\) with respect to the
knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications⟩⟩’ are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of secondnatured education practically available to everyone interested, and so while alienating and considering general social wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications⟩⟩ as improper and unqualified. This was to avoid a circularity of wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications⟩⟩ undermining of the intemporal-projection of their specific knowledge/science, as they contribute in overall Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’. The point here is that at uninstitutionalised-threshold the idea of ‘equal opinionatedness’ doesn’t apply by the mere fact that knowledge of intrinsic-reality itself doesn’t arise by wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications⟩⟩ but rather ontological-pertinence, and the point in reflecting holographically-⟨conjugatively-and-
transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as knowledge-led is to harness ontological-pertinence and not <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable—void ’-with-regards-to—prospective-apriorising-implications>}, thus explaining deferential-formalisation-transference as of institutional percolation-chanelling. This point is central and critical to the very notion of society-as-social-construct, as society is caught between the notion of sovereignty as-allowing-basic-level-of—universal-individual-and-collective-self-affirmation-striving-for-social-equality and the notion of knowledge as-of-selective-construal-of-social-value-and-institutional-hierarchisation-as-of—<amplituding/formative—epistemicity—causality—~as-to—projective-totalitative—implications-of-prospective—nonpresencing.—for-explicating—ontological-contiguity—overriding-social-equality-for-the-sake-of-individual-and-social-emancipation-as-of—efficient-ontological-performance—<including-virtue—as-ontology>—implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought—categorical-imperatives/axioms/registry-teleology—,-for—aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology—with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’ within this articulated framework as enabled by ‘social—universal-transparency—langle—transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—
epistemicity totalising in relative ontological completeness'. This articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of amplituding formative episemicity totalising self-referencing syncretising’ prior to eventual prospective relative ontological completeness of reference of thought accommodation. This is equally the knowledge and sovereignty dynamics that prevail within any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather through an exercise of increasing ‘social universal transparency—{transparency of totalising entailing, as to entailing, amplituding formative episemicity totalising in relative ontological completeness}’ thus enabling ‘intemporal ontological faith notion or ontological fideism—imbued underdetermination of motif and apriorising axiomatising referencing as so being as of existential reality instigated ontological contiguity of the human institutionalisation process as of difference conflatedness— as to totalitative reification in singularisation as to the nondisjointedness entailment of prospective nonpresencing —as veridical episemicity relativism determinism implied amplituding formative episemicity causality as to projective totalitative implications of prospective nonpresencing, for explicating ontological contiguity’ associated with Being development ontological framework expansion as to depth of ontologising development as infrastructure of meaningfulness and teleology. However, all along this ontological contiguity of the human institutionalisation process a suboptimal relation between knowledge and sovereignty undermines Being development ontological framework expansion as to depth of ontologising development as infrastructure of meaningfulness and teleology as of various
pertinent social manifestations: –wherein sovereignty is affirm over knowledge as ‘supposedly being knowledge’ by a culture of mere social-aggregation-enabling of temporal-to-intemporal hotchpotch opinionatedness, notwithstanding the underlying transcendental-enabling/sublimating/supererogatory–de-mentativity in formal institutional percolation-channelling–<in-deferential-formalisation-transference>, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality ‘-as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions; –wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating/supererogatory–de-mentativity as to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression; –the ontologically-flawed articulation of knowledge by an intellectual disposition akin to

development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of—<meaningfulness-and-teleology> despite the inherent circular distractiveness of
temporality, and ultimately so as enabled by ‘social universal-transparency’
The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating/supererogatory-de-mentativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism meaningfulness-and-teleology constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaux, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency-(transparency-of-totalising-entailing-as-to-entailing-amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness)’. effect of knowledge as empowering various institutional domains. Further, as implying the superceding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential reference-of-thought, transcendental knowledge is of a circular but consistent exercise of amplituding-formative-epistemicity-totalising-renewing-realisation/re-perception/re-thought, and so due to the ‘existential and emotive commitments’ it is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-discontiguity -<between—prior-shallow-supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema_and_prospective-profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema>- reference-of-thought and introducing the prospective ontological-contiguity reference-of-thought as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—

This explains why it is not a fundamental contradiction as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor at uninstitutionalised-threshold \(^{102}\) that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits ontologically-flawed ‘uninstitutionalised-threshold \(^{102}\) by prospective institutionalisation dialogical-equivalence-<as-to-psychologismic–apriorising/axiomatising/referencing- {of-

Such a temporal/shortness-of-register-of—meaningfulness-and-teleology ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ is fundamentally due to the dementative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/suprerogatory—de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of—meaningfulness-and-teleology ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology —in-preconverging-existential-extrication-as-of-existential-unthought denaturing of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of ‘the mere positive-opportunism—of-social-functioning-and-accordance’ it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care—and—episteme as of intemporality/longness behind ‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing, so-construed as organic-knowledge. Organic-knowledge requires the
articulation of "meaningfulness-and-teleology" rather in postconverging-nonextricatory-existential-preempting-of-existential-unthought terms—as-of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the very attitude/mental-disposition/care—and—episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and- adoption of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be reconstrued circularly in animistic or medieval terms—as-of-axiomatic-construct as of the latter teleologically-degraded prior relative-ontological-incompleteness—of—reference-of-thought "meaningfulness-and-teleology". Likewise "meaningfulness-and-teleology" articulated as of depocrypticism—or—preempting—disjointedness—as-of—reference-of-thought relative to our positivism—procrypticism necessarily requires priorly the requisite apriorising-teleological-elevation-in-ontological-contiguity from positivism—procrypticism’s disjointedness—as-of—reference-of-thought mindset into depocrypticism’s preempting—disjointedness—as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme as otherwise such knowledge will be teleologically-degraded in circular positivism—procrypticism disjointedness—as-of—reference-of-thought terms—as-of-axiomatic-construct as of prior relative-ontological-incompleteness—as-of—reference-of-thought "meaningfulness-and-teleology", even though in the latter case our <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence—(implicated—'nondescript/ignorable—void —)

The point here is that the meaningfulness-and-teleology so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon/projection for its prospective transcendence-and-sublimity/sublimation/supercratory–de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetio logicalisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming and not temporal extricatory preconverging–de-mentating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t have any inherent meaningfulness-and-teleology as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme underlying its meaningfulness-and-teleology thus requiring the latter’s prior apriorising-teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme ‘for the notion of the mutual contemplation of Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-disposition/care–and–episteme with respect to human meaningfulness-and-teleology, as it is what underlies apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as of a given registry-worldview’s/dimension’s institutionalisation reference-of-thought.
and-teleology. Thus an attitude/mental-disposition/care–and–episteme can pertinently be defined as the 'assumed-and-unflinching apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument transversality\textsuperscript{ф} <for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated-'motif-and-apriorising/axiomatising/referencing’\textsuperscript{ф} inducing a given specific nonpresencing-<perspective–ontological-normalcy/postconvergence> outcome with regards to prospective relative-ontological-completeness -or-incompleteness-of- reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of \textsuperscript{ф}meaningfulness-and-teleology\textsuperscript{ф} associated with that attitude/mental-disposition/care–and–episteme; and so, whether such a framework is a reference-of-thought as of overall construal-as-existence/existential-possibilities, or within a reference-of-thought like a social projection <amplituding-formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality or specifically with living-as-of-human-personality-developing. For instance, with respect to coming across and living say in an early hunter-gather society with its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-unflinching transversality\textsuperscript{ф}<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated-'motif-and-apriorising/axiomatising/referencing’\textsuperscript{ф} as of the attitude/mental-disposition/care–and–episteme of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-teleology\textsuperscript{ф}-<in-preconverging–existential-extrication-as-of-existential-unthought> as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given \textsuperscript{ф}reference-of-thought, say in our positivism/rational-empiricism
reference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme, and further at the individual level as of changing attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-developing. Attitude/mental-disposition/care–and–episteme as so-construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally–collateralising-beholdening-protohumanity’-to-‘attain-sublimating-humanity’-as-to-existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression to supersede human temporality/shortness <amplituding/formative> wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) to be able to achieve transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’, and so as of intemporality. With regards to living-as-of-human-personality-developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental-disposition/care–and–episteme that it has a poor dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as of its more direct focus on instant-sensations-and-carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-
completeness\textsuperscript{27} -by-reification/contemplative-distension\textsuperscript{27} as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development--as-to-personality-development---as---dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{27} -by-reification/contemplative-distension\textsuperscript{27} is construed as the more profound attitude/mental-disposition/care--and--episteme for human optimum living, and so over say an animal-like immediacy attitude/mental-disposition/care--and--episteme\textsuperscript{5} of living. With regards to the second-level of social aetiologisation/ontological-escalation associated with ‘attitude/mental-disposition/care--and--episteme--dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{27} -by-reification/contemplative-distension\textsuperscript{27}’, for achieving transcendence-and-sublimity/sublimation/supercerogatory-de-mentativity; humankind construes of existence as ‘more than just plain living as animals’ but as enabling for various domains of social projections dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension\textsuperscript{27} so-implied across the various registry-worldviews/dimensions, whether in an animistic social-setup involving animistic practices or in the modern social-setup as of our modern practices involving subject-matter specialisms, trade roles, functionaries, arts, research, sports and other activities, etc.; with each involving their specific attitude/mental-disposition/care--and--episteme dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{27} -by-reification/contemplative-distension\textsuperscript{27}. The idea being that this provides more existential possibilities by the overall expanded human capabilities available directly or indirectly to fulfil individuals desires and needs. Finally the third-level reflects ‘intemporal ontological-faith-notion-or-ontological-fideism--imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing--as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} as of difference-conflatedness-as-to-totalitative-reification-in-singularisation<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> -as-veridical-epistemicity-
enabling framework of human emancipation as of technical and existential possibilities arising from prospective relative-ontological-completeness-reference-of-thought. We can get an insight of registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme contrast as clarified in the preceding example as of the technical and existential emancipating possibilities that can be contemplated with a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in an early hunter-gather social-setup inclined to construe of ill-health as bad omen; and appreciate that the human-subpotency is much more than stalling at any prior relative-ontological-incompleteness-reference-of-thought registry-worldview/dimension, and so not only retrospectively but equally prospectively. Thus, an attitude/mental-disposition/care–and–episteme can pertinently be defined as the ‘assumed-and-unflinching transversality〈for-sublimating–existential-eventuating/denouement〉of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ inducing a given specific nonpresencing-〈perspective–ontological-normalcy/postconvergence〉outcome with regards to prospective relative-ontological-completeness-or-incompleteness-of-reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of meaningfulness-and-teleology associated with that attitude/mental-disposition/care–and–episteme. It can be construed with regards to prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as a de-mentative/structural/paradigmatic adjunctive-metaphoricity-signification inducing-and-upholding a prospective ‘underlying〈amplituding/formative–epistemicity〉totalising/circumscribing/delineating signifying-construct as〈amplituding/formative–epistemicity〉totalising/circumscribing/delineating reference-of-thought-‘devolving’. In other words, a registry-worldview’s/dimension’s reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is utterly

relative-ontological-completeness of apriorising/axiomatising/referencing. Thus with regards
to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care–and–episteme underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care–and–episteme of a given institutionalisation’s reference-of-thought as of prospective relative-ontological-completeness of-axiomatic-construct-or-reference-of-thought and thus its corresponding meaningfulness-and-teleology, and the other doesn’t as of prior relative-ontological-incompleteness. This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting holographically-conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism meaningfulness-and-teleology, speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its amplituding/formative-epistemicity causality as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity induced positive-opportunism—of-social-functioning-and-acCORDANCE as of scientific, medical, technical advancements, free society, etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic

This is critically the case with registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought prior relative-ontological-incompleteness reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of presencing—absolutising-identitive-constitutedness while the new/prospective/superseding as of its prospective relative-ontological-completeness reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of prospective nonpresencing—<perspective—ontological-normalcy/postconvergence>. This brings home the reality that it is inevitable that all uninstitutionalised-threshold are necessarily ‘de-mentatively/structurally/paradigmatically conflicted’, with prospective transversality—<for-sublimating—existential-eventuating/denouement>—of-affirmative-and—

This is the case since at a registry-worldview’s/dimension’s uninstitutionalised-threshold, such a framework of logical-congruence of dialogical-equivalence is de-mentatively/structurally/paradigmatically superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental-disposition/care–and–episteme reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for conceptualisation, but then at its uninstitutionalised-threshold (as implied from prospective

Rather the attitude/mental-disposition/care–and–episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge by its given amplituding/formative-epistemicity-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms—as-of-axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness, thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation. While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness, ontological-bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness’ amplituding/formative-epistemicity-causality—as-to-projective-totalitative–implications-of-prospective- nonpresencing—for-explicating-ontological-contiguity and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidy passing for genuine intellectual scepticism. These subterfuges are behind the awkward, unnatural and clobbered nature of human development for the past two centuries as civilisation is construed and developed in ‘an undertone reaction/anticipation of threat’ rather than natural as of human communion. Thus ‘subterfuges of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of \textsuperscript{7} meaningfullness-and-teleology \textsuperscript{9}’ arise as of the suboptimality of human intemporality /longness which suffers from human apprehensiveness of humans, thus undermining the notion of human intemporal/ontological/social/species/\textsuperscript{11} universal/transcendental/\textsuperscript{12} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{13}—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming. The latter as deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought as of its ontological-completeness-of—reference-of-thought/ontological-normalcy/postconvergence is the effective basis for evaluating the ontological-veracity of all preceding reference-of-thought as of its deneuterising—referentialism that breaks-down the various neuterising to their basic human limited-mentation-capacity dynamics implications. In this regard, their successive profoundness as of their ‘successive (uncircumscribing/undelineating-as—epistemic-totality with recurrent-utter-uninstitutionalisation) circumscribing-as—epistemic-totality—or—delineating-as—epistemic-totality’—existential—epistemic-totalisation-scheme-of—meaningfulness-and-teleology’ speaks of more and more profound convergence-as-of-accumulation of human-subpotency grasp of the full-potency of existence coherence/contiguity.
It should be noted as well that the afore is focused on the abstract ‘reference-of-thought/epistemic-totalisation level of différance/internal-dialectics/difference-deferral, as it is actually reflecting ‘the backdrop construed as human sublimation-educaing—textuality/hermeneutic/reprojecting/supererogating/zeroing—as-to-possibilities-of-self-becoming-as-of-‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’ for the effectively devolving différance/internal-dialectics/difference-deferral teleological process of meaningfulness; given that the abstract ‘reference-of-thought/epistemic-totalisation level so-established rather enframes teleologically-devolving-as-drifting meaningfulness with regards to ‘social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective’ construed from notional–deprocrypticism deneuterising, to fully reflect the ontological-veridicality of mental-states as of affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring<as-to-postconverging-or-dialectical-thinking apriorising-psychologism> and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<as-to-preconverging-or-dementing apriorising-psychologism> stranding dialectics. For instance, reflecting in an early hunter-gatherer society the ‘candid existential expressiveness’ of how one is suffering from bad omen on the backdrop of its ‘recurrent-utter-uninstitutionalisation totalising/circumscribing/delineating <amplituding/formative–epistemicity> reference-of-thought–devolving—différance/internal-dialectics/difference-deferral’ construed as disambiguation its uninstitutionalised-threshold meaningfulness-and-teleology. Thus this will disambiguate, specifically ‘with regards to the ill-health <amplituding/formative–epistemicity> totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality’ the recurrent-utter-uninstitutionalisation random-as–uncircumscribing/undelineating-as-‘epistemic-totality’ ‘existential–epistemic-totalisation-

due to the impossibility of the very first humans as of their limited-mentation-capacity and yet inexperience/unaccumulated-experience to be able to reason more than their initial apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument will permit as of their state of recurrent-utter-uninstitutionalisation ‘non-rules—apriorising/axiomatising/referencing—psychologism,—as-impulsive-or-accidented-or-random-mental-disposition’, and hence their construal of ‘meaningfulness-and-teleology’ as of ‘their relative ‘neuterising’. Likewise the ultimate possibility of human crossgenerational institutional-cumulation/institutional-recomposure—(as-to—historiality/ontological—eventfulness /ontological-aesthetic-tracing—<perspective—ontological—normalcy/postconvergence-reflected—‘epistemicity-relativism-determinism’>) as enabling the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of notional~deprocrypticism/<amplituding/formative—notional~preempting—disjointedness—as-of—reference-of-thought is the backdrop for deneuterising —referentialism enabling the full transparent ontologically-veridical elucidation of human ‘meaningfulness-and-teleology’ construed as of ‘historiality/ontological-eventfulness’ /ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism-determinism’>; as of the possibility of deneuterising 17. In the bigger scheme of things, as of the notional~conflatedness of notional~deprocrypticism as deneuterising 17—referentialism, what had hitherto been conceived notionally as logicism is herein exposed as effectively superseded by the notion of différance/internal-dialectics/difference-deferral so-construed as of ‘reference-of-thought-or-axiomatic-construct-devolving-as-of-ontological-reconstituting—as-to-conflatedness’—différance/internal-dialectics/difference-deferral’ and as implied as-of-the-construal-of-différance/internal-dialectics/difference-deferral-of—‘meaningfulness-and-teleology’; and so with respect to the more ontologically-veridical reality of human
variance of uninstitutionalised-threshold\textsuperscript{102} prior relative-ontological-incompleteness\textsuperscript{89} -of- reference-of-thought and prospective institutionalisation relative-ontological-completeness\textsuperscript{87} -of- reference-of-thought. For instance, such epistemic-break/epistemic-resetting associated with the overall ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} necessarily explains the ‘mutually transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–’motif-and-apriorising/axiomatising/referencing’ unintelligibility’ of the Galileos, Newtons, Diderots episteme articulating prospective positivising/rational-empiricism\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{79} and the Establishment scholasticism medieval dogmatic episteme. The implication here is that the articulation of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of \textsuperscript{83}reference-of-thought is by itself tied up to a prospective epistemic disruption, construed as of soundness-or-ontological-good-faith/authenticity\textsuperscript{69} -of- reference-of-thought, beyond just grounded knowledge as of the prior episteme which is rather construed as of unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{64} -of- reference-of-thought. Such transcendental epistemic-breaks/epistemic-resetting arise because humankind is subpotent as of its knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue to the full-potency of existence, and in the human construal/conceptualisation of intrinsic-reality/ontological-veridicality, the ‘superseding party’ is not any involved humans as knowledge agents but inherent existential-reality itself, with any such humans as knowledge agents only ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’, with such delegation inherently revoked as of their failed ‘kowtowing to existential-reality’. To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency\textsuperscript{103} –{transparency-of-totalising-entailing,-as-to-entailing,-amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness }, an
apparent episteme as of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-'human-construal'' arises as of institutional-being-and-craft. But then, where transcendental implications as of prospective institutionalisation prospective relative-ontological-completeness-of-reference-of-thought point to more profound reference-of-thought for construing/conceptualising existential-reality putting such a prior episteme in question, this induces a state of mutual ontological-bad-faith/inauthenticity between the prospective episteme and the prior episteme as of the lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-'human-construal'' with respect to social universal-transparency-{transparency-of-totalising-entailing, as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness}; and so more than just as of beyond-the-consciousness-awareness-teleology-{in-preconverging-existential-extrication-as-of-existential-unthought}, but further because as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor, there is ‘a drift from the ideal of knowledge agents only as ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’ towards a teleologically-degraded exercise of institutional-being-and-craft muddlement. It should be noted that such a notional construct of episteme interpreted herein is implied as of ‘dynamic social <amplituding/formative–epistemicity>totalising~self-referencing-syncretising’ across the entire social spectrum as of notional–episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger
scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity—in/of-the-human-institutionalisation-process as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor arise wherein ‘the prior shaman is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthoods of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, antinihilism and transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme de-mentatively/structurally/paradigmatically loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought undermines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of meaningfulness-and-
teleology\textsuperscript{9} ontological-performance\textsuperscript{10}–<including-virtue-as-ontology> turning rather towards social-aggregation-enabling implications as \textsuperscript{9}meaningfulness-and-teleology\textsuperscript{9} ontological-performance\textsuperscript{10}–<including-virtue-as-ontology>, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of--\textsuperscript{9}meaningfulness-and-teleology\textsuperscript{9} as of ontology’s-directedness-as-Being going by the human intemporal/ontological/social/species/\textsuperscript{5} universal/transcendental/\textsuperscript{8} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{8}—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality\textsuperscript{7}/shortness or intemporality\textsuperscript{5}; such that even the budding-positivists carried elements of scholasticism but were more definitely of a positivistic outlook, and many scholastics articulated notions which could more fruitfully be developed in a positivistic outlook but were stifled by their scholasticism dogmatic intellectual commitments. In effect, human limited-mentation-capacity however the institutionalisation-level as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnatures—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor implies that it

Such that we can garner that it is a positivism registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness\(^8\)-of\(^9\) reference-of-thought\(^1\) social\(^1\) universal-transparency\(^1\)-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}\(^8\)} that makes it untenable for non-positivism/medieval temporal mental-dispositions to elicit non-positivism/medieval implied temporality\(^8\). Likewise, prospectively it is a notional–deprocrypticism registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness\(^8\)-of\(^9\) reference-of-thought social\(^1\) universal-transparency\(^1\)-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}\(^8\)} that can render it untenable for procrypticism temporal mental-dispositions to elicit\(^8\) procrypticism–or–disjointedness-as-of\(^9\) reference-of-thought implied temporality\(^8\). Thus aetiology/ontological-escalation is not about transforming the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-

The reality of human registry-worldview’s/dimension’s institutionalisation and uninstitutionalised-threshold mental-dispositions imply that at the uninstitutionalised-threshold prospective institutionalisation knowledge as transcendental-enabling/sublimating/supererogatory–de-mentativity is not socially integrated directly as of dimensionality-of-sublimating ⟨amplituding/formative⟩supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ exercise engaging with intemporal-as-ontological ‘meaningfulness-and-teleology’. Such prospective intemporal-as-ontological ‘meaningfulness-and-teleology’ is not necessarily perceived at the uninstitutionalised-threshold as any more pertinent for attaining social approbation than other temporal ‘meaningfulness-and-teleology’ as of the said uninstitutionalised-threshold. This point out that maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation mental-dispositions in their intemporality/longness or longness-of-register-of–meaningfulness-and-teleology are as of a projected-or-anticipated apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness in {preconverging–disentailment-by}–postconverging-entailment of social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) for institutional and formal deferential-formalisation-transference as of percolation-channelling-{in-deferential-formalisation-transference}. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory-de-mentativity causality as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity construal as implied with notional-deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human-totalising-throwness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency/hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our syncretising/circularity/interiorising/akrasiatic-drag in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by
existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory--de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human totalising–thrownness-in-existence I exist therefore existence is of transcendental-enabling/sublimating/supererogatory--de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance--including-virtue-as-ontology implies the need for a sound perpetuating construct of universal projection as intemporality--or-longness-of-register-of--meaningfulness-and-teleology as the opportunity for prospective transcendental-enabling/sublimating/supererogatory--de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative universal implications as beyond presence issues and complexes as it sublimates presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing-totalising–in-relative-ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory--de-
mentativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive de-mentative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s \( \text{apriorising/axiomatising/referencing-} \{ \text{of-attendant-ontological-}\) ~educed–existentialising/contextualising/textualising-contiguity \( } \) \( \text{constitutedness} \) in preconverging entailment to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce \( \text{universal human meaningfulness-and-teleology} \) but was caught up in the \( \text{amplituding-formative-epistemicity} \) \( \text{totalising–thrownness-in-existence} \) \( \) \( \) \( \) \( \) \( \) \( \) \( \) \( \) \( \) \( \) \( \) \( \text{transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency/hyperbole-of-temporal-to-intemporal-ontological-performance} \) \( \) \( \) \( \text{universal ‘response construal’.} \) This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation \( \text{meaningfulness-and-teleology} \) in them-and-us basis and whether this isn’t a
recipe for potential disaster as all them-and-us rationale are just variances of the same insanity!

We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence-(implicated-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-
normaley/postconvergence⟩) as of notional-deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence-(implicated-'nondescript/ignorable–void ' as-to- presencing–

But then an adjunctive-metaphoricity -signification so produced as reflected by ‘a transcendental syncretising-effecting meaningfulness-and-teleology’ like the construal of budding-positivism/rational-empiricism in medieval society, may turn out in-due-course/crossgenerationally to be of an even greater meaningfulness-and-teleology

Existence itself as the absolute a priori underscores such a conception given the human species sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing—as-to-possibilities-of-self-becoming-as-of-existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence as of existential-stakes migration; since the existential dispositions of human subjects relative to social-stake-contention-or-confliction arises as of ‘their living existential-instantiations’, and where they construe meaningfulness-and-teleology as not self-referentially covered by the ‘underlying amplituding-formative-epistemicity-totalising/circumscribing/delineating signifying-construct of language’, they will inevitably articulate adjunctive-metaphoricity-significations to that prior ‘underlying amplituding-formative-epistemicity-totalising/circumscribing/delineating signifying-construct of language’. In another respect with regards to language acquisition as mirroring a child’s existential integration into the dynamics of social-construct existential situations/instances, stakes, institutions and processes, a new born child existential integration into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity\textsuperscript{17}-significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-

But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery
rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment’—<implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of—existential-reality> for its evolving-and-devolving construct of ‘meaningfulness-and-teleology’! Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-social ‘meaningfulness-and-teleology’, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay’ with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes

The implication here resonates with the idea that knowledge is much more than the construal of conceptual sublimation knowledge outcome, but rather its construal as notional~knowledge involving the dynamic understanding of both its temporality /misconstrual/desublimation and intemporality -as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différance-freeplay involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising\textsuperscript{55}—referentialism and thus beyond \textquoteright\neuterising\textquoteright reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\textsuperscript{24} of the uninstitutionalised-threshold \textsuperscript{02} and the prospective institutionalisation; as the \textquoteleft effecting implications of knowledge\textquoteright are more than just about its conceptualised intemporality\textsuperscript{52}-as-ontology but involves grasping this together with the implications of temporality\textsuperscript{9}, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential \textquoteleft meaningfulness-and-teleology\textquoteright signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon/projection that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon/projection tend to be in apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—constitutedness\textsuperscript{14} in preconverging entailment. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay is the existentially veridical and effective basis for reflecting historiality/ontological-
outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful "meaningfulness-and-teleology". Such a perspective should possibly usher in a 'suprastructural postmodernism in everything' including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity "with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations", granted as of their beyond-the-consciousness-awareness-teleology - <in-preconverging-existential-extrication-as-of-existential-unthought> ; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality/longness doesn’t take its due place, it is occupied by ignorance as of human temporality/shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-"meaningfulness-and-teleology". Basically, just as the adjunctive-metaphoricity-signification instigation of positivistic rationality as a potent construct took the form of a centered–epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-"meaningfulness-and-teleology", postmodern-thought and as of its underlying phenomenological depth transcendentally carries prospective Being adjunctive-metaphoricity-signification as of a potent construct for a centered–epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human existence, and so for the better of Being-development/ontological-framework-expansion-as-to-

d Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional—conflatedness of notional—deprocriptism deneuterising — referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-différance-freeplay and is the maximal ontologically veridical articulation of apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity ~educed— existentialising/contextualising/textualising-contiguity)—conflatedness—in—{preconverging—disentailment—by)—postconverging-entailment—that ‘undermines the privileging of —syncretising/circularity/interiorising/akrasiatic-drag as of its ubiquitous-protractedness as to de-mentative/structural/paradigmatic ‘ontological-contiguity or difference-of-kind’ disposition, and so beyond just reflecting such ‘presencing—absolutising-identitive—constitutedness privilege undermining as of transcendental outcomes implied by historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism’>. While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of apriorising/axiomatising/referencing—{of-attendant—ontological-contiguity ~educed— existentialising/contextualising/textualising-contiguity)—conflatedness—in—{preconverging—disentailment—by)—postconverging-entailment, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas
experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing—as-to-possibilities-of-self-becoming-as-of—existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that 'meaningfulness-and-teleology' imply by default a given perspective/framing/reference/horizon/projection, such that as of a

meaningfulness-and-teleology facet. Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay différance’ is fundamentally incomplete as of comparison with the implied apriorising/axiomatising/referencing—{of-attendant–ontological-contiguity—educed–existentialising/contextualising/textualising-contiguity }—conflatedness —in—{preconverging-disentailment by}—postconverging-entailment of accreting-substitutive-subsumption-as-futural-différance-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate ‘perspective/framing/reference/horizon/projection implications’ with regards to ‘meaningfulness-and-teleology’, and so as disambiguating presencing—absolutising-identitive-constitutedness from nonpresencing—<perspective–ontological-normalcy/postconvergence> by their respective

conceptualisation, such that unsuspectingly the ‘Derridean quasi-transcendental-freeplay differance’ not doing that rather represents the ‘presencing—absolutising-identitive-constitutedness' as the common perspective/framing/reference/horizon/projection for both, thus falsely pointing to ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ between ‘presencing—absolutising-identitive-constitutedness' and ‘nonpresencing—ontological-normalcy/postconvergence’ (rather than difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing), and so contradictorily as if both are of the presencing supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument—for-conceptualisation. With the reality that ‘nonpresencing—ontological-normalcy/postconvergence’ is wrongly-and-unsuspectingly given as of common ‘presencing—absolutising-identitive-constitutedness', thus inducing a relative ontologically-flawed quasi-transcendental freeplay as ‘nonpresencing—ontological-normalcy/postconvergence’ is rather in notional-discontiguity/epistemic-discontiguity—between—prior-shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema_and_prospective-profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> when analysed as of ‘presencing—absolutising-identitive-constitutedness'. Consider in this regard ‘the very same physics <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal—as-intrinsic-reality/ontological-veridicality/existential-reality’ with the articulation as of prior relative-ontological-incompleteness being ‘traditional classical mechanics axiomatic-construct’ and the articulation as of prospective relative-ontological-completeness—of-axiomatic-construct-or-reference-of-thought being the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; now, articulating meaningfulness-and-teleology of ‘the very same

In any case thus such a ‘Derridean quasi-transcendental-freeplay différance’ doesn’t have any serious ontological consequences with respect to presencing—absolutising-identitive-constitutedness since it is reflected with the Glas experimental project, but it fails to recognise the possibility of a futural différance where meaningfulness-and-teleology is construed as of the prospective nonpresencing-<perspective–ontological-normalcy/postconvergence>

prospective relative-ontological-completeness —of-axiomatic-construct-or- reference-of-

‘the very same physics amplituding/formative–epistemicity totalising—devolved—

strange feeling upon physicists wedded to ‘traditional classical mechanics axiomatic-construct’
with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-

unenframed-conceptualisation articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipating-relativism-driven-recomposing-constructivism-towards-singularisation developments in physics since then, even though its meaninglessness-and-teleology remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective
evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuation-ontological-performance\textsuperscript{72} \textless \textless including-virtue-as-ontology \textgreater ; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme\textsuperscript{5} of dual-language/split-mentality as of \textless amplituding-formative-epistemicity \textgreater totalising–thrownness-in-existence\textsuperscript{35} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{72} \textless \textless including-virtue-as-ontology \textgreater ). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme\textsuperscript{5} of warring nations in the early 20\textsuperscript{th} century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18\textsuperscript{th} and 19\textsuperscript{th} centuries the dual-language/split-mentality of \textsuperscript{103} universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipating social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern \textsuperscript{18} deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care–and–episteme\textsuperscript{5} renewal as implied for notional ontological-
faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced transcendence-and-sUBLImity/sublimation/sublimation/supererogatory-de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology’<in-preconverging-existential-extrication-as-of-existential-unthought>, that reflects a human tacit awareness that the grounding of its ‘meaningfulness-and-teleology’ is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care—and—episteme for more profound-and-complete ‘meaningfulness-and-teleology’. While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a ‘reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism ‘reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of ‘reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into ‘meaningfulness-and-teleology’ as grounded on a given ‘registry-worldview’s/dimension’s ‘reference-of-thought <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential—epistemic-totalisation-of—meaningfulness-and-teleology’ as well as the ‘psychological comfort’ habituated at the given ‘neutering. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism is exactly the capacity to construe ‘meaningfulness-and-teleology’ as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t
allow for meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology - in preconverging existential-extrication-as-of-existential-unthought arising as of human prior relative-ontological-incompleteness of reference-of-thought. But then veridical absolute certainty is ever a promise always held in prospective existence-potency ~sublimating-nascence, disclosed-from-prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing, and so as of the certainty of human limited-mentation-capacity prospective relative-ontological-completeness of-axiomatic-construct-or reference-of-thought <amplituding/formative-epistemicity> causality as-to-projective-totalitative-implications-of-prospective- nonpresencing, for explicated-ontological-contiguity for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, implied as of intemporal-preservation-entropy-or-contiguity or ontological-preservation. This explains why ontology’s-directedness-as-Being is the direction of meaningfulness-and-teleology grounding as always prospective as of prospective relative-ontological-completeness of reference-of-thought; and so, as of the successive base-institutionalisation, universalisation, positivism and notional-deprocrypticism registry-worldviews/dimensions nonpresencing-

human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-
singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-

postmodernism fundamentally misconstrue that they are departing, as of their reference-of-
thought, from a less real position to evaluate a more real position; more like the irony of trying
to evaluate the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs
from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what
fundamentally underlies the naïve misunderstanding of human-subject-emancipating-
relativism-driven-recomposuring-constructivism-towards-singularisation-<as-to-the-
non-disjointedness/entailment-of-prospective-non-presencing>. For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly
conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had
to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human
limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-
ontological-incompleteness—of-reference-of-thought. It is human limited-mentation-
capacity-deepening as of prospective relative-ontological-completeness—of-reference-of-
thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the
ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the
macroscale’, etc. that as of the human-subject-emancipating-relativism-driven-
recomposuring-constructivism-towards-singularisation-<as-to-the-
non-disjointedness/entailment-of-prospective-non-presencing> exercise brought about the
more profound insight enabling the conception of the theory-of-relativity-together-with-

nonpresencing-for-explicating-ontological-contiguity by existence-potency sublimating-nascence-disclosed-from-prospective-epistemic-digression; as all along humankind existence as of human-subpotency, the new reality so espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening for human emancipation. Thus implying existence-potency sublimating-nascence-disclosed-from-prospective-epistemic-digression is ‘not really about any variation as of the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation as to the nondisjointedness/entailment-of-prospective nonpresencing directed directly to inherent-existence-as-of-existential-reality/existence-potency sublimating-nascence-disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation as of human limited-mentation-capacity-deepening bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation as of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising meaningfulness-and-teleology that increasingly reflects existence/intrinsic-
reality/ontological-veridical’. Thus this actually lead to ‘more and more objective
meaningfulness-and-teleology’ as we cannot argue that the theory-of-relativity-together-
with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—
axiomatic-constructs since it involved the human-subject-emancipating-relativism-driven
recomposuring-constructivism-towards-singularisation that led to human limited-
mentation-capacity-deepening. Quite the contrary, it is that exercise in inducing prospective
relative-ontological-completeness—of-axiomatic-construct-or—reference-of-thought that
brings about greater objectivity, as reflected in the ontological-contiguity—of-the-human-
institutionalisation-process behind Being-development/ontological-framework-expansion—as-
That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal

syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by
default without a double-gesturing, on the ‘wrong assumption that they already have the most
ontologically-developed perspective/framing/reference/horizon/projection for grasping
prospective ‘meaningfulness-and-teleology’, and failing to project/anticipate prospectively
the implications of their very own shallow limited-mentation-capacity implications from a
deeper prospectively-construed perspective/framing/reference/horizon/projection. Such a
‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence
{implicated—nondescript/ignorable—void—as-to—presencing—absolutising-identitive-
constitutedness} illusion-of-the-present/present-consciousness/mirage, with hardly any
contemplation of the retrospective and prospective projective-insights for construing
ontologically-veridical ‘meaningfulness-and-teleology’. This paradox for human knowledge,
as implied with the postmodern double-gesture reification, highlights that the human
preconverging/postconverging–de-mentating/structuring/paradigming for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing—limited-mentation-capacity-deepening to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as underlying a given registry-worldview’s/dimension’s reference-of-thought for meaningfulness-and-teleology conceptualisation and ontological-performance-including-virtue-as-ontology. In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity deepens by human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing—nonpresencing—paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension institutionalisation’s reference-of-thought as of its prospective relative-ontological-completeness–of-reference-of-thought in terms of the prior registry-worldview/dimension uninstitutionalised-threshold’s reference-of-thought as of it prior relative-ontological-incompleteness’s reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-

Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness\textsuperscript{89-}reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking\textsuperscript{21}—apriorising-psychologism over the modern take as prospectively decentered-as-preconverging-or-dementing\textsuperscript{20}—apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-veridical-science-in-practice, and its pursuit for the most profound-and-complete objectivity of meaning as of prospective relative-ontological-completeness\textsuperscript{89-}reference-of-thought by renewing appraisal of intrinsic-reality/ontological-veridicality by 1human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation-\textless \textsuperscript{as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing}\textgreater as of human-subpotency apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educated- existentialising/contextualising/textualising-contiguity }—conflatedness \textless \textsuperscript{in}preconverging–disentailment—by}–postconverging-entailment’, and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of \textless \textsuperscript{preconverging–}motif-and-apriorising/axiomatising/referencing’–imbuing>—existentialising—enframing/imprintedness\textless \textsuperscript{as-to-} historicity-tracing—}in-presencing—

The implication here is that hitherto postmodern-thought had been naively and falsely conceptualised within the ‘modern take attitude/mental-disposition/care–and–episteme’ as of its procrypticism–or–disjointedness-as-of-\textsuperscript{[reference-of-thought, instead of implying the ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of–\textsuperscript{[reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ which prospectively represents the modern as preconverging–or–dementing–apriorising-psychologism while the postmodern is postconverging-or-

Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/constatations about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/constatations about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus the ontologically affirmatory position adopted herein as of the prospective ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme ’ is not contradictory but rather complementing their positions as it rather reinterprets their observations/remarks/constatations as of human limited-mentation-capacity prospective relative-ontological-completeness of reference-of-thought <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity ; wherein for instance, for the recurrent-utter-uninstitutionalisation \textsuperscript{17}reference-of-thought ill-health is as of a attendant–ontological-contiguity\textsuperscript{18}–educed–existentialising/contextualising/textualising-contiguity\textsuperscript{19}–lowest-level-reification perceptivity-as-of-bad-omen while for the positivism reference-of-thought ill-health is as of a perceptivity-as-of-full-disease-and-scientific-theory-construct-as-

Just as it was perceived as a fool’s errand by the Descartes, Galileos, Diderots, etc., to contemplate of genuine intellectual engagement between their budding-positivism/rational-empiricism ventures with traditional medieval scholasticism, especially with regards to the latter’s institutionally-associated dogmatic censure and persecution, and thus with the former resorting to discursive strategies for universal-transparency \(\{\text{transparency-of-totalising-entailing, as-to-entailing, } \langle\text{amplituding, formative}\text{-epistemicity}\rangle\text{-totalising-in-relative-ontological-completeness}\} \) as of overall underlying human ontological-commitment \(\langle\text{implied—self-assuredness-of-ontological-good-faith/authenticity }\rangle\text{-postconverging—de-mentating-structuring/paradigming }\langle\text{as-being-as-of-existential-reality}\rangle \) as to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation for relative-ontological-completeness; it is inevitably the case that what is most critically warranted is for the ‘prospective/new postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought aprorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care—and—episteme’ to articulate its full-fledged discourse as of universal-transparency \(\{\text{transparency-of-totalising-entailing, as-to-entailing, } \langle\text{amplituding, formative}\text{-epistemicity}\rangle\text{-totalising-in-relative-ontological-completeness}\} \) as of the liberality of thought allowed for in open society notwithstanding such extra-intellectual and media-driven perverted representation of postmodern-thought. institutionalisation framework the idea of ‘concurrent <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective-

However, at its uninstitutionalised-threshold the prospective ‘concurrent <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective– nonpresencing,-for-explicating-ontological-contiguity’ as of the prospective institutionalisation’s basis of validation of knowledge grounded on the reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the prospective institutionalisation’s <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought– devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology:<in-preconverging-existential-extrication-as-of-existential-unthought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of ‘concurrent <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity’
prospective-nonpresencing-for-explicating-ontological-contiguity’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–‘devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–‘devolving’, which should and cannot be ignored by any proponent of prospective de-mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent <amplituding/formative–epistemicity>causality –as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism—of-social-functioning-and-accordance that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and
open society, technical advances, better social organisation, etc., then leading to a reasoning-
from-results/afterthought institutionalisation and enculturation of such (re-originary–as-

knowledge as of its ‘concurrent <amplituding/formative–epistemicity>causality ~as-to-
projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-
ontological-contiguity ’ is very much limited and such prospective ‘concurrent
<amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-
prospective- nonpresencing,-for-explicating-ontological-contiguity ’ however its ontological-
veridicality cannot be naively construed as all that which is needed to effectuate social
transformation and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity.
We can appreciate this for instance in the case of cultural diffusion with respect to many a non-
modern traditional social-setting where modern-day medicine however its overall ‘concurrent
<amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-
prospective- nonpresencing,-for-explicating-ontological-contiguity ’ over other types of
premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to
social goodwill deferential-formalisation-transference to perceived overwhelming-relative-
effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has
the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived
overwhelming-relative-effectiveness’. This equally manifests as of prospective de-
mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance
by postmodern-thought and particularly so as postmodern-thought has still been undergoing its
full construction. The implication here is that all prospective transcendental
meaningfulness-and-teleology superseding uninstitutionalised-threshold do not come about as of simplistic
continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive ‘detour to
social goodwill deferential-formalisation-transference to perceived overwhelming-relative-
effectiveness’ instigated-and-upheld by the associated successive prospective ‘concurrent
<amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-
prospective- nonpresencing,-for-explicating-ontological-contiguity’ postconverging–de-

implication of such an indirect nature of human social-stake-contention-or-confliction
framework validation of transcendental knowledge as of ‘detour to social goodwill deferential-

‘concurrent <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–
implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity’ implies
that just as prospective de-mentative/structural/paradigmatic transcendental knowledge
prospective ‘concurrent <amplituding/formative–epistemicity>causality ~as-to-projective-
totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-
contiguity’ could be ‘objected to as of human social-stake-contention-or-confliction
framework’ notwithstanding its inherent prospective relative-ontological-completeness–of–reference-of-thought given its prior lack of ‘detour to social goodwill deferential-
formalisation-transference to perceived overwhelming-relative-effectiveness’; any such prospective de-mentative/structural/paradigmatic transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ that as of its prospective relative-ontological-completeness reference-of-thought supersedes the prior relative-ontological-incompleteness reference-of-thought, just as positivism/rational-empricism superseded non-positivism/medievalism scholasticism. Likewise ‘concurrent amplituding/formative–epistemicity>causality as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity’ ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying sterile/anecdotal imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance including-virtue-as-ontology of any ‘reference-of-thought– categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’.

Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought
teleology<sup>809</sup>-<sup>preconverging</sup>-existential-extrication-as-of-existential-unthought>, the new/prospective attitude/mental-disposition/care–and–episteme given its prospective relative-ontological-completeness -of- reference-of-thought is wrongly construed as deriving posteriorly from the prior relative-ontological-incompleteness -of- reference-of-thought, this induces apriorising/axiomatising/referencing- {of-attendant-ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—constitutedness<sup>1</sup>-<sup>preconverging</sup>-entailment ‘as has been the case with prior postmodern-thought construed as of a modern take attitude/mental-disposition/care–and–episteme ’; thus leading to a sort of postmodern-thought mechanical knowledge that is in many ways just budding and poorly acted upon. Ultimately, a ‘new/prospective postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ crossgenerational development, which is its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, as of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought is rather a notional–conflatedness as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness -of- reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard,
central to translating-as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its human-subject-emancipating-relativism-driven-recomposuring-constructivism-towards-singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing as of huma attendant–ontological-contiguity ~educated–existentialising/contextualising/textualising-contiguity’; and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of preconverging~’motif-and-apriorising/axiomatising/referencing’–imbuing>—existentialising—enframing/imprintedness—as-to– historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of—reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness’ re-originary—as-unenframed/unbeholdening/outlier-conceptualisation{imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflicatedness °of-notional–deprocrypticism-prospective-sublimation} appraisal of human narratives as to dimensionality-of-sublimating °{amplituding/formative} supererogatory–dementativeness/epistemic-growth-or-conflicatedness /transvalutive-
‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, in defining which
reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is ‘relevant as the attitude/mental-disposition/care–and–episteme’ of wholly immersed-and-engrossed ‘meaningfulness-and-teleology’. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care–and–episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhoecly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the
‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-of-reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-and-teleology between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality-for-sublimating–existential-eventuating/denouement–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-teleology’ as of their given neuterising-as-of-prior-relative-ontological-incompleteness-of-reference-of-thought if a ‘prior/old/superseded attitude/mental-disposition/care–and–episteme’ or deneuterising-as-of-prospective-relative-ontological-completeness-of-reference-of-thought if a ‘prospective/new/superseding attitude/mental-disposition/care–and–episteme’, whilst the ‘present attitude/mental-disposition/care–and–episteme’ is then rather adhocly-and-scantily identified now as either deneuterising if it in relation to the prior/old/superseded or neuterising if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension implications, ontologically-veridical representation of attitude/mental-disposition/care–and–episteme means ‘to be or exist as of the given registry-worldview/dimension reference-of-thought’ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-
flawed as it registers into the ‘present attitude/mental-disposition/care–and–episteme’ unlike the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination of representation as it overrides the ‘present attitude/mental-disposition/care–and–episteme’.

Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care—and—episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of amplituding-formative—epistemicy-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated—temporal-intemporality12 at its ontologically-veridical uninstitutionalised-threshold102, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold102 pointing to its prior relative-ontological-incompleteness—of—reference-of-thought. Thus, the manifestations of temporality/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold102 are construed as aberrations/oddities going from this wrongly
implied intemporal/longness-of-register-of—meaningfulness-and-teleology posture in
temporality/shortness manifestations thus leading to their endemisation/enculturation from ‘ontologically-flawed and inevitability analyses’ conception. Thus a ‘modern take attitude/mental-disposition/care–and–episteme’ is de-mentatively/structurally/paradigmatically disempowered to address issues of its temporality/shortness as of the vices-and-impediments at its uninstitutionalised-threshold. So because its amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is ‘existentially invested’ in modern social-stake-contention-or-confliction framework of meaningfulness-and-teleology as of procrypticism–or–disjointedness-as-of-reference-of-thought from where it derives its value-construct and value-reference, as it hardly countenances that prospective transcendental knowledge implied value-construct and value-reference is not meant to be of ‘idle’ relevance to the modern social-stake-contention-or-confliction framework but rather redploy an altogether empowering perspective of prospective relative-ontological-completeness of reference-of-thought postmodern social-stake-contention-or-confliction framework of meaningfulness-and-teleology of value-construct and value-reference at the procrypticism uninstitutionalisation. Such prospective change as of de-mentation of supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or–attributive-dialectics of attitude/mental-disposition/care–and–episteme can be appreciated retrospectively with respect to non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme which from our modern take attitude/mental-disposition/care–and–episteme we rather construe as vague scholastic pedantic dogmatism with regards to budding-positivism/rational-empiricism, but then such a conclusion as of their non-positivism/medievalism habits and traditions is not necessarily obvious to the non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-

thought exercise on the basis of ‘relic-or-orthodoxy knowledge’ induced disparateness-of-conceptualisation.<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’>. It is herein contended that the critical notion underlying wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications}, ressentiment and leveling specifically with reference to Heideggerian and Nietzschean thought can actually be interpreted critically as relating rather to ‘originariness-parrhesia,—as—spontaneity-of-aestheticisation over the human atrophying tendency for prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ with regards to ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression. But then Heidegger failed to realise that the induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity of the Socratic-philosophers universalising-idealisation as well as that of Descartes and other budding-positivists rational-empiricism/positivism were both originariness-parrhesia,—as—spontaneity-of-aestheticisation disseminative events induced as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression involving transcendence-and-sublimity/sublimation/supererogatory—de-mentativity from non-universalising sophistry and medieval-scholasticism pedantic dogmatism respectively; and so as to the fact that dimensionality-of-sublimating—{<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation} as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation is aporetically
the more fundamental incipient/seeding originariness-parrhesia,—as—spontaneity-of-aestheticisation to both Descartes thinking-proposition for budding-positivism and Socrates’s
universalising-idealisation in then secondarily inducing their respective reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ and thus in many ways the naïve/flawed conception of Platonism and Cartesianism today arise as to a reasoning as from reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation perspective whereas Descartes and Plato—and—Plato’s Socrates are more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising and ancient-sophists non-universalising respectively.

These induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity later on became prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of their mere ‘atrophying mechanical practice’ with succeeding generations, and so just as Nietzsche equally appreciated that Christianity was becoming a mere ‘atrophying mechanical practice’ of succeeding Christian generations as for instance with ascetic practices becoming more of symbolism/aura and losing their inceptive emancipating inspiration. Thus with all these instances rather warranting renewed originariness-parrhesia,—as—spontaneity-of-aestheticisation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation and so as of prospective projection as implied with the ontological-contiguity—of-the-human-institutionalisation-process, but instead Heidegger will elicit a naïve turn to the pre-Socratics while Nietzsche will express admiration of Buddhism as both being of grander originariness and ontological-good-faith/authenticity.

However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation notion of philosophy, it is herein contended that this relatively deficient analysis reflects the fundamental ontological-deficiency of subsequent philosophies influenced by Kantian
philosophy which is rather ‘as a projection within the very same intelligible Cartesian/budding-positivists induced rational-empiricism/positivism registry-worldview’/dimension’s supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-

leads to grander ontological-performance \[^{1-2}\langle\text{including-virtue-as-ontology}\rangle\]. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of \[^{10}\langle\text{universalising-idealisation}\rangle\] thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern-day science ontologisation; and besides, it can equally perfectly be claimed that even our modern-day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to \[^{amplituding/formative}\langle\text{wooden-language-(imbued—averaging-of-thought—}\langle\text{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignoreable—void ’-with-regards-to-prospective-apriorising-implications\rangle}\rangle\); pointing to the centrality of originariness-parrhesia,–as–spontaneity-of-aestheticisation as more

It is thus not odd that as of human emotional-involvement implications, Socratic-philosophers \(^{10}\) universalising-idealisation and budding-positivists projected meaningfulness-and-teleology\(^{99}\) infrastructure rather met initially with the antipathy of their underpinning–suprasocial-construct and <amplituding/formative> wooden-language\(\langle\text{imbued—averaging-of-thought-}<\text{as-to-leveling/ressentiment/closed-construct-of–}\)

meaningfulness-and-teleology <as-of-‘nondescript/ignorable–void’-with-regards-to-
prospective-apriorising-implications} and specifically had to face up respectively with the value-construct conception of their temporal/sycophantic-sophistic\textsuperscript{79} presencing—absolutising-identitive-constitutedness\textsuperscript{1} ontologically-flawed disparateness-of-conceptualisation\textsuperscript{79} unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity’\textsuperscript{179} whether with the Ancient-sophists or medieval-scholasticism pedants. We can further appreciate the critical impact of the\textsuperscript{10} universalising-idealisation\textsuperscript{79} meaningfulness-and-teleology\textsuperscript{99} infrastructure of the Socratic-philosophers and their successors as providing the appropriate\textsuperscript{79} meaningfulness-and-teleology\textsuperscript{99} infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced\textsuperscript{79} meaningfulness-and-teleology\textsuperscript{99} infrastructure of budding-positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-flung societies opportunistic activities distortive of budding-positivism\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{99} infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever always caught up between on the one hand human limited-mentation-capacity to come to terms with ‘transvaluation as <amplituding-formative-epistemicity> causality ~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{22}—of-the-human-institutionalisation-process\textsuperscript{68} anamnesis as of difference-conflatedness\textsuperscript{13} -as-to-totalitative-reification-in-singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> -as-veridical-epistemicity-relativism-determinism underlying the human
construction-of-the-Self’ and on the other hand ‘the effective ontological-impertinence/dereification arising in the conceptualising of human value-construction as of a wooden-language-{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignoreable—void ’—with-regards-to-prospective-apriorising-implications—}\) in any given registry-worldview’s/dimension’s presencing—absolutising-identitive-constitutedness—of—meaningfulness-and-teleology and so whether as of trepidatious (recurrent-utter-uninstitutionalisation), warped (base-institutionalisation—ununiversalisation), preclusive (universalisation—non-positivism/medievalism) or occlusive (positivism—procrypticism) implications’. This discrepancy (between the human capacity to achieve transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically—conjugatively-and-transfusively the ontological-contiguity of-the-human-institutionalisation-process points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-
construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon/projection’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of
c<amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective– nonpresencing,–for-explicating-ontological-contiguity comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern-day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of <amplituding/formative–epistemicity>causality ~as-to-projective-totalitative–implications-of-prospective–
nonpresencing—for-explicating-ontological-contiguity, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive [presencing—absolutising-identitive-constitutedness] is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating historicality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflectsed—epistemicity-relativism-determinism> notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity> ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality> to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-
reification–gesturing–<in-prospective.psychologismic~apriorising/axiomatising/referencing-

positivism/rational-empiricism social–value-construction as such from the prospective
perspective of deprocrypticism–or–preempting—disjointedness-as-of– reference-of-thought
can be analysed-and-construed as imbued with occlusive collateral aspects of rather
nondescript/ignorable–void 1 falsely implying ‘the appropriate exhaustiveness of our rational–
empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as
aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of
economic dysfunction and inequities as occlusively-collateral to economic ideologism, social
dysfunction and discriminations as occlusively-collateral to domineering and secluding social
narratives, sophistic/pedantic and vested interest undermining genuine sovereignty
paradoxically as of obscured-and-deluding knowledge and misinformation that undermines
individuals sovereign competence and choice with regards to increasingly skewed-contrived-
and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger
global framework of competing politico-cultural values with individuals and societies rather
construed occlusively as collateral damages. Transvaluation analysis thus ensues from the
human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of
unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic
disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance/ontology/morality/ethics/etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-

Basically, thus the reality of prospective social–value-construction critically arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning induced originariness-parrhesia,—as–spontaneity-of-aestheticisation with respect to the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, which when naively construed in presencing—absolutising-identitive-constitutedness\textsuperscript{1} as of prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation simply reflects the \langle\textit{amplituding/formative–epistemicity}\rangle totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34} of the prior registry-worldview/dimension as reflected with its social value-construct dilemmas. Insightfully, the very essence of ‘overall existence phenomenal appraisal of ‘meaningfulness-and-teleology’ as associated with philosophical aspects (beyond the our artificial subject-matter divisions referring to aspect where virtue, value, ontological principles and epistemic issues are of central concern) is one of interpretation given that the ordinary human-framework-of-experiential-existence is ‘a directly comprehensive and fulsome framework amenable to interpretation’ whereas ‘specific epiphenomenon–{in-the-overall-ecstatic-existence-supervening-conflatedness } appraisal of ‘meaningfulness-and-teleology’ especially as of their unordinary human-framework-of-experiential-existence like natural sciences while informed by ordinary human-framework-of-experiential-existence background/sense-of-things further require and accentuate their epiphenomenal manifestations (which are beyond ordinary human-framework-of-experiential-existence) with the devising of experimentations (as providing the prolongation for human interpretation capacity with respect to such epiphenomenal manifestations, as in reality even the natural sciences are fundamentally interpretative as ‘specifically aphoristic/cogent/pointed extensions of the underlying human philosophical interpretative disposition for knowledge-reification–gesturing<-in-prospective_psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity –educed–existentialising/contextualising/textualising-contiguity }—conflatedness –in-{preconverging-disentailment_by}-postconverging-entailment’). It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical

'prospective-aporeticism-overcoming/unovercoming'”. A further twist to such a poor
conception of human sovereignty and free-will in the social arises as of an improper appraisal
of the ‘implications of deferential-formalisation-transference as being de-
mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of
human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically
about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-
fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-
of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws
up the costing for a plumbing job explaining to the customer what is advantageously entailed in
a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-
operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure
that their professional assessment will truly resolve the technical issue (as they are just looking
to contract the job) is not really advancing the sovereign choice of the customer compared to
another plumber who undertakes a candid professional assessment that may not sound
advantageous with the customer (as they are more critically interested in the ‘fulfilment as of
sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve
the technical issue; as any such customer in a deferential-formalisation-transference situation
will most likely agree. Such operation of human sovereignty and free-will, beyond more or less
simplistic social situations as the case highlighted above, is supposedly implied in the operation
of all human institutions as of their inherent deferential-formalisation-transference proxy
nature; but in many ways such a notion of ‘implications of deferential-formalisation-
transference as being de-mentatively/structurally/paradigmatically both-intensional-and-
extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing
complexity and size of human institutions as to what such implications really are, and so
especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather de-mentative/structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall ‘expected equity of all individuals for
social–value-construction’ in relative-ontological-incompleteness /relative-ontological-completeness ⟨sublimating–referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative–supererogating–<projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence⟩⟩ <amplituding/formative–epistemicity> causality ~as-to-projective-totalitative–implications-of-prospective–nonpresencing.–for-explicating–ontological-contiguity in reflecting holographically–<conjunctively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process; going by the phronesis/practicality as of our positivism–procrypticism occlusivity, the assessment of institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’, as advancing human sovereignty and free-will as of deferential-formalisation-transference implications, can be rather straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern-day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater
public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are preconvergingly–de-mentated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern-day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies
or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven 'subterfuges', overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening\(^{53}\) as to the ‘relative-ontological-incompleteness’/relative-ontological-completeness\(^{54}\) as to the

Consider in this regards for instance as of the presencing—absolutising-identitive-constitutedness notion of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-
coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument –for–conceptualisation in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<as-to-preconverging-or-dementing –apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the

not truly escape the ontological prism as of existence being the absolute a priori, and rather

The underlying point here is that there is no

The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in existence. The very possibility for prospective human knowledge generation thus calls for human dimensionality-of-sublimating

speaking of true humanity projection for prospective secondnaturing institutionalisation (that goes on to broaden-the-latitude-of-human-collective-consciousness), and so over the wrongfully elicited self-satisfaction of sophistic/pedantic presencing—absolutising-identitive-constitutedness in preconverging-existential-extrication-as-of-existential-unthought failing to address the universal implications of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness—and-its-institutionalisation bluntly profess that ‘human temporality/shortness wooden-language–imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology–as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>’ is in want for secondnatured knowledge and institutionalisation, and so as to the former human limited-mentation-capacity-deepening (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment

In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–dementating/structuring/paradigming –as-being-as-of-existential-reality>). And implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality’/shortness <amplituding/formative> wooden-language⟨imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of-’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩’ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening’). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and
normalcy/postconvergence>–existentialism-form-factor, as to the possibility for genuine human reification and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression) is effectively what underlies human institutional paralysis and social-vestedness/normativity as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology—in-preconverging-existential-extrication-as-of-existential-unthought> ) is predicated upon and drags along the shiftiness-of-the-Self as from prior human stake-contention-or-confliction

Such that such ontologically-flawed presencing—absolutising-identitive-constitutedness becomes a psychological entrapment of an overwhelming presence hardly capable of profound re-originariness/re-origination but for its thresholding to the accrued historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition perception of temporal/shortness human stakes-contention-or-confliction framework; with the consequence that this mitigates the possibility to broaden-the-latitude-of-human-collective-consciousness off-the-beaten-path of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition (as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, institutional-development—as-to-social-function-development and living-development—as-to-personality-development) as to the relation with human lopsided material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a desublimation/gimmickiness rather than its very own sublimation in tandem with material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/alooiness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks
of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of "presencing—absolutising-identitive-constitutedness" of "meaningfulness-and-teleology" given "historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition". Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now de-mentatively/structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of "Being-development/ontological-framework-expansion—as-to-depth-of-ontologising—development-as-infrastructure-of—meaningfulness-and-teleology", institutional-development—as-to-social-function-development and living-development—as-to-personality-development) such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic-or-notional—projective-perspective of re-originariness/re-origination as implied with prospective "deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to "presencing—absolutising-identitive-constitutedness" of "meaningfulness-and-teleology" given "historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition" bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor
appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness 
meaningfulness-and-teleology’ the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology -<in-preconverging-existential-extrication-as-of-existential-unthought> ); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation— and—aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-and-teleology with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness’ -by-reification/contemplative-distension. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orginariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a presencing—absolutising-identitive-constitutedness ’ -of— ‘meaningfulness-and-teleology’ given ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism’>. This is very much in line with the idea that every registry-worldview/dimension certainly has a conceptualisation of the notion of progress but such a conceptualisation is naively grounded on its presencing—absolutising-identitive-constitutedness (as it engages in the complexification of meaningfulness-and-teleology on the basis of its very same apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument it construes/reproduces as absolute) and fails to appreciate that it is rather by putting in question its supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation as of the apriorising/axiomatising/referencing–psychologism that it then aligns to existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression; and so because the initiation by human limited-mentation-capacity of the supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-

true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient \textit{presencing—absolutising-identitive-constitutedness} analyses that fail to factor in that the very notion of ‘positivistic science experimental framework’ of \textit{historiality/ontological-eventfulness}/ontological-aesthetic-tracing-<\textit{perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism}> was developed and enculturated/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their medieval-scholasticism (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern-day science experimental framework speaks of the characteristic nature of a flawed prior_knowledge-reification—gesturing-<in-prior\_psychologismic—apriorising/axiomatising/referencing—\{of-attendant—ontological—constituuedness—\textit{in—preconverging—entailment}\} exercise that doesn’t factor in human limited-mentation-capacity-deepening as of ‘relative-ontological-incompleteness’/relative-ontological-completeness \{\textit{sublimating—referencing/registering/decisioning,—as-self—becoming/self-conflatedness}/formative—supererogating—<\textit{projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence}>\} as to human-and-social—expectations/anticipations—metaphoricity—\textit{as—rede-mentating/ restructuring/reparadigming—psychologism} as to <\textit{amplituding/formative—epistemicity} causality—\textit{as—to-projective-totalitative—implications-of—prospective—nonpresencing,—for-explicating-ontological—constituuedness}>. This difference between a ‘purist science/ontology epistemic-conception of veracity/truth’ and the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity \langle\text{discretely-implied-functionalism}\rangle implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is critically
reflected in the fact that the former orientation is priorly-and-ultimately concerned with existence’s foregrounding entailment (postconverging narrowing-down sublimation-as-to ‘existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation ’-in—reflecting—‘immanent-ontological-contiguity ’;—as-operative-notional—deprocrypticism) imbued sublimation whereas the latter is critically concerned with ‘conceptions of human abstract interpositions as of elaboration-as-to-mere—extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—attendant—ontological-contiguity ’—educed—existentialising/contextualising/textualising-contiguity ’ that are not necessarily subject to phenomenal/manifest existence’s foregrounding entailment (postconverging narrowing-down sublimation-as-to ‘existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation ’-in—reflecting—‘immanent-ontological-contiguity ’;—as-operative-notional—deprocrypticism); and so-peculiarly implied with the ‘importing/exporting of reductionisms’ (as to the fact that there is no physics reductionism of physics or say mathematics reductionism of mathematics or biology reductionism of biology as to being the real and natural orientation for the specific physics, mathematics and biology epistemic-conceptions of their respective epistemic-conceptions phenomenal/manifest—subpotencies (in-transitive-confalvement reflexivity,—in—the—full—potency-of-existence’s—sublimating—nascence) to explain human psychological and social phenomena that ‘end up implicitly denying the very obvious reality of the psychological and social subpotencies (in-transitive-confalvement reflexivity,—in—the—full—potency-of-existence’s—sublimating—nascence). In many ways taking such ontologically-flawed interpretations seriously induces human impotency and desublimation (as to the implicated contention that the human ‘supposedly has no profound sublimating social and socio—psychological phenomenal/manifest—subpotencies (in-transitive-confalvement reflexivity,—in—the—full—potency-of-existence’s—sublimating—nascence)’ with the ‘supposedly profound
phenomenal/manifest-subpotencies\{\textit{in-transitive-conflatedness – reflexivity, in-the-full-
potency-of-existence’s–sublimating–nascence}\}' construed rather in reductionist terms of biology/neurology or physicalism) as is often also associated with social-
vestedness/normativity\textit{-discretely-implied-functionalism} disparateness-of-conceptualisation\textit{-unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'}; thus ‘actually denying the metaphysical nature and thus ontological nature of the sublimating social and socio-psychological’ such that existence-potency \textit{~sublimating–nascence,-disclosed-from-prospective-epistemic-digression} sublimation implications with regards to the social and socio-
psychological are hardly contemplated and recognised as so-projected herein as to the ontological-contiguity\textit{-of-the-human-institutionalisation-process};. But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest-subpotencies\{\textit{in-transitive-conflatedness – reflexivity, in-the-full-
potency-of-existence’s–sublimating–nascence}\} to then ‘utilise the clout to falsely imply substitutive/reductionist sublimation over the social and socio-psychological phenomenal/manifest-subpotencies\{\textit{in-transitive-conflatedness – reflexivity, in-the-full-
potency-of-existence’s–sublimating–nascence}\}’ (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). But then the giveaway of such a flawed conception of science/ontology lies in the fact that such approaches do not project any ‘\textit{amplituding/formative–epistemicity}totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ as all pretences of science/ontology must demonstrate and aspire to (consider in this regards the ‘\textit{amplituding/formative–epistemicity}totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of physics, chemistry, biological, genetic theories as to the ontological-

such biological/neurological and evolutionary substitutive/reductionist interpretations of the

The reality of such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological is rather one that points out that the ‘traditional nature versus nurture debate itself is fundamentally an axiomatically bankrupt conception’ since ‘not even such proponents implicitly point to an underlying human drivenness and functioning of the social and socio-psychological framework on the basis of any such supposed ‘\textsuperscript{amplituding/formative–epistemicity}totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity\textsuperscript{67} of biological/neurological and evolutionary substitutive/reductionist interpretations’, but rather the strategies of such proponents (beyond-the-consciousness-awareness-teleology\textsuperscript{99} -<in-preconverging-existential-extrication-as-of-existential-unthought>) work paradoxically only by impliciting the reality of the ‘\textsuperscript{amplituding/formative–epistemicity}totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity\textsuperscript{67} of the social and socio-psychological epistemic-conception phenomenal/manifest–subpotencies\textsuperscript{67} (in-transitive-conflatedness –reflexivity, -in-the-full-potency-of-existence’s–sublimating–nascence) (as to their implied sublimating existence’s necessitating implications and consequences)’, and then surreptitiously project/select/pop-up (in totalisingly-disentailing—discretion/whim-of-thought) opportune/ad-hoc biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological frame–of–ontological-contiguity\textsuperscript{67}, and so as of vague disparateness-of-conceptualisation-\textsuperscript{unforegrounding-disentailment,-failing-to-reflect–immanent-

issues, crises and failures. A ‘purist science/ontology epistemic-conception of veracity/truth’
equally differs from the conception of veracity/truth as from the latitude of ‘human social-

construing of ‘knowledge as to existential knowledge-reification—gesturing—prospective—psychologismic—apriorising/axiomatising/referencing—of-attendant—ontological-

—in—[preconverging-disentailment by]—postconverging-entailment> privileging
manifest sublimating outcome in existence’ in contrast to the latter construing of ‘knowledge as
to collective acquiescence as to the privileging of human commendation-or-agreementing/convincing-among-mortals (rather than a detour to existence—
potency\textsuperscript{39}~sublimating–nascence,-disclosed-from-prospective-epistemic-digression) even over manifest sublimating outcome in existence’. Such a ‘purist science/ontology epistemic-conception of veracity/truth’ construes of knowledge as a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening\textsuperscript{53}’ (as involved in the reconceptualisation of the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics, etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening\textsuperscript{53}’ speak to the more profound reality that the ordinariness of human thought across the <cumulating/recomposuring–attendant-ontological-contiguity >-succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence’ despite the delusion of all registry-worldviews/dimensions in their \textsuperscript{79}presencing—absolutising-identitive-constitutedness\textsuperscript{14} as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions \textsuperscript{79}presencing—absolutising-identitive-constitutedness\textsuperscript{14} failure to directly grasp their very own <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{34}, even as the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). In other words, the ‘effective equilibration of human sublimating \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{9} across the <cumulating/recomposuring–attendant-ontological-contiguity >-successive registry-worldviews/dimensions’ does not lie with any

mentativeness/epistemic-growth-or-conflatedness/transvaluative-
traneptemicity/anamnestic-residuality/spirit-drivenness—equalisation). This latter insight is critical for all prospective human sublimation as ‘a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-
vestedness/normativity—discretely-implied-functionalism’ effectively renders any prospective
human emancipation and construction-of-the-Self pointless-and-contradictory; as to the fact
that even such advocates turn out to be incoherently muted-and-muddled with regards to such
an argument about ‘a false sense of a categorically/absolutely sublimated social-construct
ordinariness/commensicality and social-vestedness/normativity—discretely-implied-

social-stake-contention-or-confliction (beyond-the-consciousness-awareness—<in-
preconverging—existential-extrication-as-of-existential-unthought>). The purist
science/ontology epistemic-conception of veracity/truth’ is ever always about the ‘prospective

upholding of existence-potency\textsuperscript{39}–sublimating–nascence,—disclosed-from-prospective—epistemic-digression and de-mentatively/structurally/paradigmatically so-explains the very possibility for human progress. In contrast the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity\textsuperscript{<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather more bent upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence’s necessitating implications and consequences. Such notions of veracity/truth without articulating existence-potency\textsuperscript{39}–sublimating–nascence,—disclosed-from-prospective—epistemic-digression are vague disparateness-of-conceptualisation\textsuperscript{<unforegrounding-disentailment,—failing-to-reflect–immanent-ontological-contiguity>}, and worse still when accompanied by claims of humility as to inherent institutionalised prescience are more often than not mere manifestations of intellectual entitlement; (as to imply the society is inherently beholden to the mere institutionalised sterile/anecdotal imprimatur of intellection even as to when it projects intellectual desublimation associated with notional~pedantising/muddling/formulaic-hollowing-out—in—subontologisation/subpotentiation—(blurring/undermining-of-prospective—totalising-entailing,—as-to-entailing—\textsuperscript{<amplituding/formative–epistemicity> totalising~in-relative-ontological—completeness} as well as intellectually-distortive practices such as blind institutionalised priming/funnelling/staking of specific theoretical postures over genuine and profound ontological elucidation as to existential contextualisation with the associated academic careerism at the very antipode of genuine sublimating intellection) and so as reflecting the modern-day intellection relevant prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects
prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency\(^3\)–sublimating–nascence, disclosed-from-prospective-epistemic-digression; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective over the prior institutionalised/classical-mechanics—axiomatic-constructs with the latter never assuming any arrogance as to its prior methodologising/mutualising/organising/institutionalising conception of physics. Critically, with regards to the blurriness of ‘meaningfulness-and-teleology\(^9\) in the social that exposes prospective transcendental dispositions (as to dimensionality-of-sublimating\(^5\)}

Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given

Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness\textsuperscript{7} knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism–or–disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness\textsuperscript{87}. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness\textsuperscript{83} arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic-or-notional~projective-perspective) as to an epistemically-decadent <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatie-drag/denatured/preconverging-or-dementing — narratives—of-the- reference-of-thought– categorical-imperatives/axioms/registry-teleology }; and so as to the fact that the magnanimity of dispensing-with-immediacy-for-

This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification–gesturing-<in-prospective psychologismic–apriorising/axiomatising/referencing- {of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity } conflatedness -in-{preconverging-disentailment by^3–postconverging-entailment} is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublation whether as of sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency\textsuperscript{19}–sublimating–nascence,-disclosed-from-prospective-epistemic-digression and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea

Hence basically the overall differentiation between ‘purist science/ontology epistemic-
conception of veracity/truth’ and ‘social-vestedness/normativity<discretely-implied-
functionalism> epistemic-conception of veracity/truth’ lies with their constraining whether
towards inherent existence projected implications or towards human-subpotency projected
implications respectively. This underlying point has de-mentative/structural/paradigmatic
implications with regards to human ‘meaningfulness-and-teleology’ (as to human Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of– meaninglessness-and-teleology , institutional-development–as-to-social-
function-development and living-development–as-to-personality-development). This
differentiation can be rearticulated in aestheticisation terms to imply that existence (as to
existence-potency ~sublimating–nascence,{-disclosed-from-prospective-epistemic-digression)
is ‘the scalar conception that enables prospective human sublimation as of aestheticisation-
towards-ontology’ while on the other hand human-subpotency (as to human ‘ presencing—
absolutising-identitive-constitutedness<amplituding/formative–epistemicity>totalising~self-
possibility-for-the-later-ontologisation’ prospective desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition as prospectively obviating ontology/ontological-veracity. This insightful grasp of the implications of human limited-mentation-capacity-deepening (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient grounding’ of relative human limited-mentation-capacity (however ‘the better relative ontological-deficiency’ implied as of relative-ontological-completeness), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance—<including-virtue-as-ontology> (associated with prospective human sublimation) into: ‘a scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism-determinism’> and ‘a non-scalarity/beholdening—<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation> perspective (with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’. Uncontemplative-distension is thus rather the recognition that human dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension doesn’t achieve absolute ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension rather reflects the epistemic perspective towards ontological-normalcy/postconvergence and not ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’); with the effective ‘scalarity/immanency of
existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just relative-ontological-completeness) underlying the overall existential dimensionality-of-sublimating \(<\text{amplituding/formative}>\text{supererogatory-de-mentativeness/epistemic-growth-or-conflatedness} /\text{transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\) as the inherent ontological-good-faith/authenticity~postconverging-de-mentating/structuring/paradigming effectively reflected as of notional~deprocrypticism. notional~deprocrypticism as such by its ontologically-uncompromised nature ‘technically entails’: prospective human ontological-performance~postconverging–de-mentating/structuring/paradigming effectively reflected as of notional~deprocrypticism.

effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity–sublimation-{as-to-underlying,-ontological-commitment}<implies—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–dementating/structuring/paradigming –as-being-as-of-existential-reality>} is strongly prone to desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholdening<as-to-what-has-gone-before-aesthetically-dementates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ in presencing—absolutising-identitive-constitutedness, while the former strongly constrained to high predicative-effectivity–sublimation-{as-to-underlying,-ontological-commitment}<implies—self-assuredness-of-ontological-good-faith/authenticity ~postconverging–dementating/structuring/paradigming –as-being-as-of-existential-reality>} is rather relatively amenable to sublimating historicity/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism–determinism> as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’. That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ‘social-vestedness/normativity<discretely-implied-functionalism> epistemic-conception of
veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) as superseding social intellection itself as an inherent exercise for the social domain’s ‘purist science/ontology epistemic-conception of veracity/truth’ (as to the latter’s prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective—ontological-normalcy/postconvergence—reflected—epistemicity—relativism—determinism>). Critically such a ‘purist science/ontology epistemic-conception of veracity/truth’ analysis very much point out that the social-construct is riddled with narratives of ‘supposedly veridical ontological justifications/grounds’ but which on closer examination as of ‘purist science/ontology epistemic-conception of veracity/truth’ turn out to be at the least sub-ontological—as-to-the-limitation-of-human-subpotency—in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence’s—sublimating—nascence>; and so as to the relative impertinence of the ‘social-vestedness/normativity—discretely—implied—functionalism’ epistemic-conception of veracity/truth’ (so-construed as from the ontological-normalcy/postconvergence epistemic-projection perspective). This insight further informs prospective notional—deprocrypticism appraisal of the ‘tight-and-entwined relationship between the overall human ontological-commitment implied—self—assuredness—ontological—good—faith/authenticity—postconverging—de—mentating/structuring/paradigming—as—being—as—of—existential—reality> (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity—sublimation—(as—to—underlying—ontological-commitment implied—self—assuredness—ontological—good—faith/authenticity—postconverging—de—mentating/structuring/paradigming—as—being—as—of—existential—reality>) (reflecting ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’). In this regards, the de-mentative/structural/paradigmatic implications of ‘human notional—firstnaturedness—temporal—to—intemporal—dispositions—<so—

the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for our

But then as across the successive registry-worldviews/dimensions, the uninstitutionalised-threshold is a fertile spot for sophistic/pedantic practices whether as with the Ancient-sophists or medievalism-scholastics or today institutional-being-and-craft notional–pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}. is herein contended that a tradition of philosophy introduced and propped up after the second-

with this orientation (as to perceived geostrategic reasons for undermining the possibility of
unfettered thought paradoxically uncritical/thoughtless about the social implications associated

that in many ways (given the inherent impotency it induces as recognised explicitly and implicitly by even its very own leading figures) has had the consequence of ‘undermining the natural social critical thinking that should enable the proper intellectual framing and addressing of human and social issues leading to a rather subservient intellectual posturing to socially dominant vested-interests/actors’ as so-reflected in the current impotence of the political exercise with mediating institutions failing sovereign-equanimity as political, economic and social stakes cumulatively default to vested-interests as to their \cite{presencing—absolutising-identitive-constitutedness} \textit{preconverging} \textit{‘motif-and-apriorising/axiomatising/referencing’} \textit{imbuing} \textit{existentialising} \textit{enframing/imprintedness} \textit{as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition}. This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocrypticism respectively are actually projective-insights speaking to the fact that huma prospective emancipation should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology') which rather requires instigative notional-asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the 'pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnaturing of positivism/rational-empiricism was the notional-asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,- eliciting-of-prospective-supererogation (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.). Since the relative-ontological-completeness logical-basis/logic,-as-derived-from—transversality<for-sublimating—existential-eventuating/denouement>--of-affirmative-and-unaffective-disambiguated-‘motif-and-apriorising/axiomatising/referencing’ is in transversality<for-sublimating—existential-eventuating/denouement>--of-affirmative-and-unaffective-disambiguated-‘motif-and-apriorising/axiomatising/referencing’ with the relative-ontological-incompleteness logical-basis/logic,-as-derived-from—transversality<for-sublimating—existential-eventuating/denouement>--of-affirmative-and-unaffective-disambiguated-‘motif-and-apriorising/axiomatising/referencing’>, it is only the sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation that

In other words, genuinely projected knowledge as of ontological-good-faith/authenticity ~ postconverging — de-mentating/structuring/paradigming is more than just the mechanical construct but speaks of the ‘ontological-good-faith/authenticity ~ postconverging — de-mentating/structuring/paradigming existential-condescension — of apriorising/axiomatising/referencing — psychologism’ as of veridical existential relationship/signature as organic-knowledge. This is more obviously grasped with respect to human institutional-development — as-to-social-function-development and living-development — as-to-personality-development as to the positive-opportunism — of-social-functioning-and-accordance implications eliciting a decomplexed placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of such ‘ontological-good-faith/authenticity ~ postconverging — de-mentating/structuring/paradigming existential-condescension — of apriorising/axiomatising/referencing — psychologism’ but less obvious and poorly grasped with regards to prospective Being-development/ontological-framework-expansion — as-to-depth-of-ontologising-development-as-infrastructure-of — meaningfulness-and-teleology. In this respect with regards to human institutional-development — as-to-social-function-development and living-development — as-to-personality-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional — client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary — meaningfulness-and-teleology desublimation which wouldn’t achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical
meaningfulness-and-teleology (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with the relation thus involving the requisite ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism> of the professional with a corresponding deferential apriorising/axiomatising/referencing–psychologism of the client’ and so as reflecting the sublimating knowledge ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming beyond-and-above the desublimating ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming of ordinary meaningfulness-and-teleology. However, this sublimating knowledge ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ across all registry-worldviews/dimensions is ever always poorly appreciated with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (even though from a retrospective perspective we can grasp the preconverging/dementing–qualia-schema of ‘the God-of-plane’ type of articulation of say base-institutionalisation as of animistic social-setup as from our positivism/rational-empiricism reflex ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ but it is important to note that such an animistic social-setup doesn’t project of any such preconverging/dementing–qualia-schema placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology going by its presencing—absolutising-identitive-constitutedness just as we will be disinclined to contemplate about the more veridical preconverging/dementing–qualia-schema of our procrypticism–or–disjointedness-as-of–reference-of-thought

professional choices and callings made well beyond just a question of their remunerative or supposed incidental social prestige worth). Part and parcel of the genuine social intellectual–function/posture is to undermine this skewing towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology of positive-opportunism—of-social-functioning-and-accordance of institutional-development—as-to-social-function-development and living-development—as-to-personality-development) and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given ‘presencing—absolutising-identitive-constitutedness’ ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Copernicuses, Galileos, Descartes, Kants, Newtons, Leibniz, Rousseaux, Diderots, Pasteurs, Lavoisiers, Teslas, Einsteins, etc. upon whose ‘meaningfulness-and-teleology infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human ‘meaningfulness-and-teleology’ (and so not only with human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-
development-as-infrastructure-of—a meaninglessness-and-teleology but is equally reflected in a poor-spirited bland conception of human institutional-development–as-to-social-function-development and living-development–as-to-personality-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning–suprasocial-construct projected and preconvergingly–de-mentated/structured/paradigmed ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-threshold of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as underlying presencing—absolutising-identitive-constitutedness end up as the registry-worldviews/dimensions Establishments underpinning–suprasocial-construct as to dominance/vested-interest—drivenness—<as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness <preconverging—’motif-and-apriorising/axiomatising/referencing’—imbuing> existentialising—enframing/imprintedness—<as-to— historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> of social-vestedness/normativity of discreetly-implied-functionalism and social-stake-contention-or-confliction. This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our modern-day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ with regards to the human species on Earth and strife to preempt such a cataclysm as to their technical capacity. In other words, our intellectual-and-moral responsibility is already engaged as to our \(<\text{amplituding/formative–epistemicity} \text{totalising–thrownness-in-existence} \>\) and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness\(^{17}\) as to overall existential dimensionality-of-sublimating\(^{25}\) \(<\text{amplituding/formative–supererogatory–de-mentativeness/epistemic-growth-or-conflatedness } /\text{transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\>\). Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given presencing—absolutising-identitive-constitutedness self-justification of uncertainty of prospective human sublimation), the comprehensive coherence of human sublimation in
‘immaterial/social overall relative-ontological-incompleteness’–presublimation-construct–of–‘meaningfulness-and-teleology’ instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations–<blinded-to-their-relative-ontological-completeness – reference-of-thought– devolving>’. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of–‘meaningfulness-and-teleology’ of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective human aporeticism overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technically more efficient guns with gunpowder didn’t imply just killing animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking—apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness and the immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of–‘meaningfulness-and-teleology’ of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing–
psychologism enculturated/constructed social-pragmatic-framing-of—predicative-effectivity—sublimation—(as-to-underlying,—ontological-commitment—<implied—self-assuredness-of-ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming —as-being-as-of-existential-reality>)’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains ‘the enlightenment struggle against feudalism and slavery as advocated say with such a thinker like Rousseau’ as to the fact that the technical and scientific progress as to relative-ontological-completeness weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—‘meaningfulness-and-teleology’ value-construct and shallow-supererogating methodologising/mutualising/organising/institutionalising <preconverging—’motif-and-apriorising/axiomatising/referencing’—imbuing—existentialising—enframing/imprintedness—(as-to— historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition)’, but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism—of-social-functioning-and-accordance driving the secondnatured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possibilities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension immaterial/social sublimation considerations that rise to the aporeticism overcoming/unovercoming challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘ historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with ‘meaningfulness-and-teleology’ of our positivism—
procrysticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual–function/posture as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination ⟨so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence⟩ perspective of notional-deprocrysticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness –presublimation-construct–of–meaningfulness-and-teleology; as prospective material/technical sublimation is associated with a discrepant ‘immaterial/social overall relative-ontological-incompleteness’–presublimation-construct–of–meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations–<blinded-to-their-relative-ontological-completeness–reference-of-thought-devolving>’ that goes on as of presencing—absolutising-identitive-constitutedness to render the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. increasingly of relic/artifactual human ontological-performance -><including-virtue-as-ontology> reflected in their failing effective outcomes of equanimity/balance; wherein their practice increasingly tends to dominance/vested-interest actors and sycophantic-sophistry induced desublimating narratives as to the wooden-language ⟨imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct–meaningfulness-and-teleology—as-of–nondescript/ignorable–void–with-regards-to-prospective-apriorising-implications⟩ displayed in the public domain (caught-up/entrapped in ‘a politico-institutional beholdening

as to human incapacity to psychically project the overall existential dimensionality-of-sublimating (\langle{\text{amplituding/formative}\text{–epistemicity}}\text{–totalising–in-relative-ontological-completeness}\rangle)

about the notional–deprocrypticism reflected in the overall ontological-contiguity—of-the-human-institutionalisation-process explains why the
universalising-idealisation of the Socratic-philosophers is not a ‘disengaged articulation but subverts’ non-universalising sophistry, why budding-positivism is not a ‘disengaged articulation but subverts’ non-positivising medieval-scholasticism and prospectively why postmodern-thought and herein notional–deprocrypticism is not a ‘disengaged articulation but subverts’ present-day disjointing/disparateness/disentailing

universalisation, positivism and prospectively notional–deprocrypticism (as of their respective prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology) are respectively subversions of the aporeticism overcoming/unovercoming of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-

The veracity of human knowledge as ever always a ‘non-disengaging epistemic articulation as to the totalising oneness of existence manifest sublimations’ lies with the very immanent–ontological-contiguity of existence that epistemically speaks to the ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as so divulging/disclosing existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’; such that human knowledge-reification–gesturing<in-

muddlement is more critically as of the inconsistency associated with both sceptical arguments (with sceptical arguments not necessarily notional–pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} when assuming a coherent/consistent threshold of scepticism in want for elucidation) as well as surreptitiously acquiescing/accommodating argumentations, wherein in both instances the inconsistency is bent on blurring/undermining universal-transparency_{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} as to a dementative/structural/paradigmatic implication that renders prospective knowledge impotent and so out of ontological-bad-faith/inauthenticity in desublimating–existentialising–decisionality gesturing of attenuating/devaluing, blurring and trivialising wherein there is ‘supposedly no totalising-entailing conception of ‘meaningfulness-and-teleology’’ thus allowing for totalisingly-disentailing—discretion/whim-of-thought pretense-of-sublimation rather unconstrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. Critically the ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ associated with nascent-particular/incipient-and-material/technical-sublimations{-blinded-to-their-relative-ontological-completeness – reference-of-thought-devolving} is necessarily of totalising-entailing as to the immediate-potency of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation thus relatively undermining such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing associated with social-and-institutional-frameworks-of—referencing/registering/decisioning as of ‘blurriness’ in existentialising–decisionality’ (that is, where the latter does not extensively intrude into the former as for instance in determining-and-
demarcating the framework of natural sciences research). Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such ‘beholding as sovereignising–imbued-subontologisation/subpotentiation’ gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness, wherein blurriness is reflected with desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification–gesturing within

Such lousiness and as broadly reflected in poor media editorialising in many ways increasingly turns media accessibility into intellectual pre-eminence as ‘intellection is no longer about depth of contemplation and knowledge-reification–gesturing <in prospective psychologismic–apriorising/axiomatising/referencing {of-attendant–ontological contiguity ~duced–existentialising/contextualising/textualising-contiguity } conflatedness in {preconverging disentailment by} postconverging entailment> for sublimation but rather about gimmicky-and-flashy threads of mere communication performance’ with many such interlocutors openly admitting-and-manifesting their critical lack
of relevant intellectual thematic competence as popularity then supposedly becomes the driving
driving force of thought; the fact though remains (however the seemingly trivialising concern about
such media driven pop-intellectualism as rather unimportant in some milieus of more profound
intellectual contemplation) that unfortunately in many ways directly or indirectly (as to the
social-and-institutional-frameworks-of—referencing/registering/decisioning susceptibility to
‘blurriness’ in existentialising–decisionality’ and as encouraged by dominance/vested-interest
actors) such pop-intellectualism end up being elevated as the summum of intellection in the

In this regards, it is contended that the argumentation articulated herein are strictly striving towards aetiolagination/ontological-escalation conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism in reflection of ‘abstract human intemporal individuative ontological-performane (as to the backdrop of the notionalisation/notional-conception/amplituding of knowledge in reflection of human notional–firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence>) while striving for totalising-entailing pertinence of thought’ and so projecting beyond any implications of personalising/particularising import but rather turning towards ‘ontological elucidation import as it then reifyingly-and-empoweringly enables human sublimation as to prospective operationalising construals’ and so-reflected in the idea that the fundamental stakes of prospective knowledge-reification–gesturing<-in-prospectivePsychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }—conflatedness -in-[preconverging-disentailment-by]-postconverging-entailment> is about prospective social-stake-contention-or-confliction or not prior social-stake-contention-or-confliction (as for instance prospective positivistic “meaningfulness-and-teleology” is not developed to go about articulating/relation-to meaningfulness-and-teleology as to the prior social-stake-contention-or-confliction of non-positivistic meaningfulness-and-teleology), and so by the mere implications of dimensionality-of-sublimating

human history is intimately tied to ‘perceived urgency in social mood’ whether as to a mood of

It is no wonder that periods following heights of acute hegemonic strifes especially as associated with warfare come to be tempered with a genuine social intellectual–function/posture obverse/self-deprecatory to such hegemonic manifestations; more like symbolising a sense of failing a more critical human purposefulness usurped in the fantasy of such hegemonic strife. In another respect, exactly because of this disillusionment arising from hegemonic strifes the very genuine social intellectual–function/posture (as to its abstract notional/epistemic possibilities for prospective sublimation/emancipation so-undermined by dominion/statal–logic) tend to be paradoxically re-construed (on the basis of dominion/statal–logic) as at best subject to the dominion/statal–logic and at worst

In our modern-day context, the very essential ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ of the modern democratic process is now paradoxically surreptitiously re-construed as the very cornerstone for dominion/statal–logic⟩ {preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations–de–mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising–beholdening–<whether–trepidatious-or-warped-or-preclusive-or-occlusive>–and–its–consociated-dominance/vested-interest-subontologising-skewed-influence–as-to-social–vestedness/normativity–<discretely-implied-functionalism>} subverting the sublimating–existentialising–decisionality of the genuine social intellectual–function/posture; and so as to the fact that the democratic process ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ is incomplete without an adequate-and-healthy enlightening public-debate with such enlightening encumbering upon a genuine social intellectual–function/posture. In many ways the very idea of the ‘democratic public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural ascendency over ‘the supposedly democratic platforming and stakeholding in defining the very issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically skewed media debates and socio-econo-political thought-makers/thought-making overtly associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and

Critically in this respect the very artifice available to modern-day democracy dominion/statal–logic ⟨preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising–beholdening–<whether–trepidatious-or-warped-or-preclusive-or-occlusive>--and–its–consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity--<discretely-implied-functionalism>⟩ involves the ‘punctual and surreptitious undermining of knowledge-driven sublimating–existentialising–decisionality at moments of decision’, and thereafter it doesn’t matter in effect whether the human sovereign–function/posture comes to think otherwise and disapprovingly of the given decisions, as better still so long as this rather plays the role of a psychological-outleting that project a falls sense of public accountability of poor or no effective resolutive course, this mechanism of ‘punctual and surreptitious undermining of knowledge-driven sublimating–existentialising–decisionality at moments of decision’ can perpetuate itself as to a Machiavellianism underlying the dominion/statal–logic ⟨preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising–beholdening–<whether–trepidatious-or-warped-or-preclusive-or-occlusive>--and–its–consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity--<discretely-implied-functionalism>⟩ relation with the human sovereign–function/posture. ‘supererogatory–human-subpotency’–effecting is critically relevant in appraising that ‘technical/profound articulations are not made gratuitously’ (in contrast to a modern-day unnecessary ‘social-and-media reflex of facility/convenience’ shunning technicity/profundity which goes on it is herein argued to be at the ‘infrastructural/root source of the cultivation of public and institutional discursive mediocrity’ as to ‘enculturating a practice of public

interestedness/profundity mediocrity and public awareness/accounting/decisioning mediocrity’ whereas the technicity/profundity of modern-day training and professions rather points to the fact of a public potentially capable to handle more creatively profound/technical public analysis and public debate rather than just ‘parsimonious/frugal ratings-driven defining conception of intellectual analysis prone to desublimating disorientation, misanalysis and irrelevance’) as to the requisite social notional–self-distantiative contemplative technicity/profundity that inherent existence sublimating–nascence warrants to make available appropriately sublimating <supererogatory–human-subpotency>–effecting (whether as to direct knowledge acquisition or appropriate percolation-channelling-<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness). This poor appreciation of technicity/profundity in the public arises as of a poor projection of existence’s sublimating–nascence to wrongly imply that the individual ‘is perfect as they are’ with supposed ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-by-institutional-by-social sovereign’s service’, and critically wrongly implying that knowledge as to organic-knowledge can be acquired without the requisite ‘epistemic-growth/disquiet/discomfort-{induced-sublimation,-as-from-existence’s—effusing/ecstatic–inlining-as- historiality-{science/authenticity/nonextrication}-beyond-mere-formulaicity-as- historicity-tracing-{science-ideology/fashionability/distraction}} as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification/contemplative-distension’ of the individual as to their ‘appropriate notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>’, while at the same time ‘a pseudo-contrition as to awareness of such relatively shallow technicity/profundity cultivated in such social-and-media spaces’ doesn’t deter such spaces (consciously or unconsciously) from surreptitiously acting as of profound technicity/profundity at critical moments of public discourses with the consequence that ‘there is an opaque
connection/continuity between public, media and institutional discursivity with social and institutional outcomes as if these are discrete and unrelated activities’ (whereas the supposed relevance of discursivity has to do with how it allows for comprehensible public ‘epistemic-growth/disquiet/discomfort—induced-sublimation, as-from-existence’s—effusing/ecstatic—

The concrete and natural human psychological disposition with respect to knowledge as to organic-knowledge is in appreciating that for critical thinking even for the novice it is imperative to truly engage with the substance of the matter comprehensively-and-insightfully notwithstanding the level of exactifying comprehension (again whether as to direct knowledge acquisition or appropriate percolation-
channelling-<in-deferential-formalisation-transference> enabling the sovereign–
function/posture ontologising-aptness). The abstraction-of-thought/principled-thought articulated with subject-matters content is not done gratuitously as it is often popularly advanced especially with ‘ontologically-flawed frameworks of blurriness’ and ratings/sales immediate interests’ susceptible to normalised/stereotyped/selfhelping/feel-good construal of knowledge. Subject-matter abstraction-of-thought/principled-thought content are not so-produced gratuitously in the sense that this effectively speaks to: the requisite sophistication/complexity for ‘full incipient supererogating breadth of human intelligibility transmutation’ (as ‘<supererogatory–human-subpotency>–effecting imbued epistemic-totalising  preformulating/preframing/premeaningfulness of notional~originariness-parrhesia,—

Critically when push comes to shove, such blatantly flawed conception of true knowledge but socially accommodated as to ‘a social-functioning-and-accordance—as-of–social-stake-contention-or-confliction conception associated with immediate public ratings and/or sales/merchandising’ (over the ‘epistemic-growth/disquiet/discomfort—{induced-sublimation,—as-from-existence’s—effusing/ecstatic–inlining-as—historiality—{science/authenticity/nonextrication}-beyond-mere-formulaicity-as—historicity-tracing—{science-ideology/fashionability/distraction}} as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension’ implications of ‘constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ imbuing human ontological-commitment <implied—self-assuredness-of-ontological-good—faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of—existential-reality’) are found to be wanting in contrast with the true nature and existential sublimating/desublimating implications of professional/technical/scientific knowledge inherent subject-matter content as abstraction-of-thought/principled-thought (notwithstanding supposedly professional/technical/scientific auxiliary/substitutive practices of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-by-

It is herein contended howver counterintuitive that the idea of understanding 100\% of knowledge content at one go (as commonly assumed and cultivated with such content driven by public ratings and/or sales/merchandising as to excessive simplification, distortion, superficiality, ephemerality and attention-grabbing undermining organic knowledge) is very much detrimental for a profoundly engaging and sublimating practice of public exposition to knowledge as so-inducing the degradation/banalisation of content in order to supposedly capture the most number of people at one go, and so it is herein argued very much contrary to the natural human potential for profound knowledge assimilation which is rather of hermeneutic/reprojecting/supererogating/zeroing potential. A lot of true learning, understanding and engagement (beyond attention-grabbing and simplification convenience) comes and
expands hermeneutically/reprojectively/supererogatingly/zeroingly as to re-exposition to same and similar content for eliciting an active thought/contemplative engagement that is sufficiently challenging to people's true intellectual growth possibility as to creatively eliciting and developing true contemplative interest and not just passivity (however the habituation of a plainness that turns out to seem to be ‘the popular choice’ to which in reality all individuals can succumb to but which is as of their self-reflection actually subpotentiating with regards to the ‘broad existential panoply of human epistemic-growth/disquiet/discomfort–sublimation–as-from-existence’s—effusing/ecstatic–inlining–historiality—\{science/authenticity/nonextrication\}-beyond-mere-formulaicity–historicity-tracing–\{science-ideology/fashionability/distraction\}) as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness–by-reification/contemplative-distension~necessary for prospective ontologisation/re-ontologisation as to epistemic-totalising~resubjecting or totalising-entailing–reconstrual of attendant–ontological-contiguity~educed–existentialising/contextualising/textualising-contiguity–in-elucidation–or–reification). The consequence being that a ‘shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in-constitutedness"/preconvergence in an atmosphere of incoherence between concrete–social-reality-<as-to-manifest-sublimation/desublimation> and overall public perception of concrete–social-reality-<as-to-manifest-sublimation/desublimation>’ is critically inadequate for ‘neutral sovereign–function/posture upholding’ as so particularly elicited with distractive-alignment-to- reference-of-thought-<of-apriorising/axiomatising/referencing>" issues. The fundamental point here is that existence— as-the-absolute-a-priori-of-conceptualisation—<as-to-sublimating-withdrawal,-eliciting-of-prospective-supererogation-<as-to-perspective—ontological-normalcy/postconvergence-implied—’prospective-aporeticism-overcoming/unovercoming’> makes nonsense of any such vague notion as ‘neutrality by the balancing of human-subpotencies’ so-reflective of ‘vested interests driven conception of balance as to discrete interests’ (rather than common/mutualising interest conception of balance rather requiring the cultivation of a veridical social exercise of notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> as to implied social formativeness-<as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>-of—meaningfulness-and-teleology reflective of ‘nonpresencing-<perspective—ontological-normalcy/postconvergence> epistemic-projection implications), with such ‘vested interests driven conception of balance as to discrete interests’ rather an exercise consciously or unconsciously of manifest ontological-bad-faith/inauthenticity in preconverging—existential-extrication-as-of-existential-unthought. Thus ontological-veracity (as
to the pertinence of ‘overall social intellection-aptitude body’ as to its capacity for ‘neutral sovereign–function/posture upholding’) rather arises as of a ‘human knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism imbedded theoretical/conceptual/operant implications detour to existence-potency/–sublimating–nascence,-disclosed-from-prospective-epistemic-digression’ in pointing out the prospect of sublimating/desublimating–existentialising–decisionality socio-econo-political outcomes and implications rather than the ‘passive deification of institutional process/processiveness as of mere-formulaicity-<as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising>’ (underlying why such a deficient social intellection posture will tend to be one step behind cumulating desublimating socio-econo-political outcomes as if it is most critically about reflecting upon such cumulating desublimating–existentialising–decisionality socio-econo-political outcomes rather than truly a posture of anticipative analysis and preemption). This mere process/processiveness induced deficiency is often critically reflected in a ‘barest and passive/poorly-reflexive conception of sovereignty in the democratic process’ that is poorly cognisant of the appropriate overall social enlightenment/knowledge imbuing oversight of the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) that is ‘much more than about leaving the room for competing/contending parties narrations/orientations/advocacies for socio-econo-political existentialising–decisionality but appraising-and-critiquing the effective coherence of such narrations/orientations/advocacies as to socio-econo-political outcomes expectations of the sovereign–function/posture’; so-underlying the more profound-supererogation notion of sovereignty associated with ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to
social dynamics of veridical social knowledge percolation-channelling-<in-deferential-formalisation-transference>. The consequence of this mere process/processiveness induced deficiency is reflected in an entrenched dichotomy of the democratic process between the reality of recurrent narratives of disontologising socio-econo-political outcomes on the one hand and on the other hand a publicly cultivated <preconverging–`motif-and-apriorising/axiomatising/referencing’–imbuing>exis

It is thus critical for humanity as a whole and as of social science practice to inculcate the attitude that despite the blurriness of human social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality, that doesn’t mean this gives leeway for political and other dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>; as to the fact that the pretense of a social science/ontology dies (with respect to the emancipation/sublimation possibilities for the 8.5 billion humans on Earth) when such an illegitimate pretense is not bluntly challenged notwithstanding any browbeating as ‘supposed intellectuals’ lose their intellectual soul when they acquiesce to the <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiac-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology } of any such dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> that thrive as to temporal advantageousness on eliciting the lowliness of human contemplation in inducing consciously or unconsciously prospective human desublimation/disempowerment. imagination of derived technologies will not arise) and along the same lines it can only be of the utmost disappointment to realise that at the very core of academic institutionalised social and philosophical contemplation is the manifestation of a pedantry that doesn’t have or project the lack of the least insight about the historicity/ontological-eventfulness/ontological-aesthetic-tracing/perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-determinism of social and philosophical ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity/epistemicity-relativism-determinism imbued theoretical/conceptual/operant implications’ as underlying the effective sublimating human and social expectations/anticipations that sublimatingly beget societies up to our age and as of relevance for prospective human and social construction. For such dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity/discretely-implied-functionalism and notional-pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation/blurring/undermining-of-prospective-totalising-entailing-as-to-entailing-amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness, the punctual/immediate temporal advantageousness for eliciting the lowliness of human contemplation consciously or unconsciously prospective human desublimation/disempowerment as inherently validatory of a decadent conception of human self-referencing-syncretising in terms of self-presence/self-constitutedness/in-perspective-epistemic-abnormalcy/preconvergence of presencing—absolutising-identititive-constitutedness/preconverging-motif-apriorising/axiomatising/referencing—imbuing— existentialising—enframing/imprintedness—as-to-historicity-tracing—in-presencing-hyperrealisation/hyperreal-transposition; but then in reality it is herein contended that in the middle to long run such posturing falsehoods are untenable notwithstanding their apparent punctual/immediate impression for the simple reason that veridical knowledge is not built on eliciting human sovereignising beholdening but rather eliciting human ontological-
commitment of self-assuredness of ontological good-faith/authenticity as to ontologising-depth in epistemic re-originariness/re-origination projective/reprojective cross-subjection to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation (and it is in this regards that human history speaks of re-originary-as-unenframed/unbeholding/outlier-conceptualisation, imbued—postconverging/dialectical-thinking of projective-insights/epistemic-projection-in-conflatedness of-notional-deprocrypticism-prospective-sublimation) as to human-subpotency of fatedness-of-sublimation-over-desublimation to existence-potency sublimating—nascence, disclosed-from-prospective-epistemic-digression in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process). At the ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ such a conceptualisation may seem frivolous but then the work/job of doing philosophy and thinking is not for those of ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’; that is why such pettiness-of-minds cannot recognise true work/job when they see it and it is herein contended are better off elsewhere rather than ‘merely hanging to the thread of institutional prescience’ devoid of ‘aptitudinal-substantive-pertinence reflected in a predisposition for totalisingly-disentailing—discretion/whim-of-thought’ that fails prospective human re-ontologisation/omnipotentiality. The above insight provides a relevant backdrop for a truer appreciation of what is entailed by prospective non-presencing of ontological-normalcy/postconvergence anarchic-growth/anarchisation for re-ontologisation since critically any registry-worldview/dimension imbued prior-institutionalisation-threshold—by—prospective-uninstitutionalised-threshold is rather of ‘self-referencing-syncetising forward-facing postconverging—or—dialectical-thinking—apriorising-psychologism epistemic—projection of mere-formulaicity—as—to—mere-formulaic—

But then ontology/science being as of existence doesn’t kowtow–and–subject-to the ‘little human mortal’ thresholds about existence, and it is up to the human to undertake its ‘epistemic-growth/disquiet/discomfort–{induced-sublimation,–as-from-existence’s—effusing/ecstatic–inlining-as- historiality–{science/authenticity/nonextrication}–beyond-mere-formulaicity-as-historicity-tracing–{science-ideology/fashionability/distraction}}\textsuperscript{79} as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}–by-reification/contemplative-distension\’, for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{99} as of notional–self-distantiation–<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>/<‘distantiation of contemplative existentialising–frame as to transversality–<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{100} imbuing \textsuperscript{46}historiality/ontological-eventfulness\textsuperscript{53}/ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism-determinism’>, and so rather than falsehood terms of ‘contrastive equivalence’ implied distractive-alignment-to–‘reference-of-thought–<of-apriorising/axiomatising/referencing>\textsuperscript{90}. notional-nondisjointing totalising-entailing’ for it to be socially potent and effective). We can appreciate in this regards that the ‘sublimating–existential-decisionality potency of a scientist thought is not in-and-about themselves’ as so-manifested in a ‘normalised/stereotyped/selfhelping/feel-good conception of knowledge’ but rather ‘their inherent coherent knowledge formulation technicity/profundity and elucidating elaboration’ which then has to avoid explicited or implicited contradictions with regards to the knowledge technicity/profundity ‘enhancement of the overall social-setup self-reflexivity as of the breadth of socially cogent percolation-channelling—<in-deferential-formalisation-transference> existentialising–frame of intellectualism’; as so-involving the illuminating genuine social intellectual–function/posture, the appraisal of the ‘overall social intellection-aptitude body’ as well as generalised social advocacy in contemplating about prospective ‘re-ontologising/potentiating/optimisable sublimating–nascence ontologising-depth perspective as of the full-potency of existence’. In other words, ‘existence imposes its sublimating rules to the human mortal subpotency’ as the very ‘fundamental meaning of science’ (notwithstanding vague human-subpotency self-important ‘methodologising/mutualising/organising/institutionalising’ anti-intellectual fooling-about and complotment); in a continual prospective relativistic process of human limited-mentation-capacity-deepening. In this respect, it is herein contended as of a most intimate appreciation that such anti-relativism stances which will imply no human progress occurs are ‘so moronic’ it is doubtful these are held out of true conviction (bad or good), but rather are ‘cynical and strategic anti-intellectualism stances hanging upon mere sterile/anecdotal institutional imprimaturing (as overplaying the card of ‘minimum-and-balancing expectations/anticipations of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction’ as to the protection offered by sensibility/decorum of sterile/anecdotal institutional imprimatur)’ in undermining the implications of prospective profound-supererogation entailing.

The implication here is that a human mental-reflex of ‘mere-formulaicity-<as-to-mere-formulaic—methodologising/mutualising/organising/institutionalising> of ruling and rule-making as to apriorising/axiomatising/referencing’ is ever always of wanting ontological-veracity in need for ‘corrective human profound-supererogation\textsuperscript{96} imbuing human limited-mentation-capacity-deepening\textsuperscript{53}. unusual/inordinary amount of mental resource in an unusual/inordinary existentialising–frame

succinctly the very same overall ‘human hermeneutic/reprojecting/supererogating/zeroing
supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness drivenness of epistemicity’
as experiential contrivance/arrangement of ordinary/usual life though in a different

‘implicated-or-explicited–philosophically’ in driving the exactifying/precisioning—of-

scientific experiments or observations) and not overriding the very same human
hermeneutic/reprojecting/supererogating/zeroing
supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness drivenness of epistemicity
(reflecting the fact that the notions of scientific experiments and observations are just
extensions of a human hermeneutic/reprojecting/supererogating/zeroing
supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness contemplation of ordinary
existential experience and observations). Such a ‘nonpresencing—ontological-
normalcy/postconvergence’ conception of epistemicity it is herein contended is of most
profound social and overall knowledge aporeticism overcoming/unovercoming relevance.
Human angling-of-imaginary (unlike the predisposition to mere-formulaicity<as-to-mere-
formulaic—methodologising/mutualising/organising/institutionalising> of human psychical-nascency) construes of knowledge as of emergent social conception and instigation for knowledge formation/creation (and so beyond and unfazed by its supposed manifest institutional capture/catchmenting) with regards to the veridical existential veracity of knowledge for prospective ontologising/re-ontologising sublimating/emancipating expansion of human ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’. In this regards, desublimating attitudes of mere sterile/anecdotal institutional imprimaturing do not necessarily constrain the possibility for divergent social interests for prospective existential ontologising/re-ontologising conception for sublimating knowledge-reification–gesturing<inprospective psychologismic–apriorising/axiomatising/referencing-{of-attendant–ontological-contiguity ~educed–existentialising/contextualising/textualising-contiguity }— conflatedness <in–preeconverging-disentailment by] postconverging-entailment> (and critically veridical intellectualism rather perceives institutional stature as the opportunity to further demonstrate and invest in demonstrating its effective intellectual relevance whereas an institutionalised notional–pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,< as-to-entailing<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness } tend to construe of institutional stature as a defensive fall-back as to mere-formulaic institutional-sterile/anecdotal imprimaturing and institutional-legalism poorly upholding/perpetuating the veridical knowledge sublimating contemplation behind the institutional formation/creation in-the-very-first-place as so-inceptively instigated as of ‘prior originariness-parrhesia,—as–spontaneity-of-aestheticisation in want for prospective originariness-parrhesia,—as–spontaneity-of-aestheticisation with human limited-mentation-capacity-deepening ’ and as so-failing to prospectively relay genuine-knowledge production as
rather undergirded as of dimensionality-of-sublimating\(^\dagger\)<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemic/anamnestic-residuality/spirit-drivenness–equalisation\(\rangle\). Such an incipient social conception and instigation of prospective
genuine-knowledge as to its veridical existential veracity underscored the Socratic-philosophers
and their successors development of philosophical schools propounding\(^\ddagger\)universalising-
idealisation in sublimating self-assuredness-of-ontological-good-faith/authenticity\(\rangle\)–postconverging–de-mentating/structuring/paradigming\(\rangle\)–as-being-as-of-
existential-reality subverting the Ancient-sophists ‘non-universalising sophistry ontological-
bad-faith/inauthenticity\(\langle\)–preconverging–de-mentating/structuring/paradigming\(\rangle\)’, likewise
budding-positivism movements with their correspondences and initiatives in sublimating self-
assuredness-of-ontological-good-faith/authenticity\(\rangle\)–postconverging–de-
mentating/structuring/paradigming\(\rangle\)–as-being-as-of-existential-reality ultimately led to the
subversion of medieval-scholasticism ‘non-positivising scholasticism ontological-bad-faith/inauthenticity\(\langle\)–preconverging–de-mentating/structuring/paradigming\(\rangle\)’, and today in
many ways the postmodern movement is more potent as to its social dynamics of ‘liberation
and emancipation’ (however incipiently crude as to its sublimating self-assuredness-of-
ontological-good-faith/authenticity\(\rangle\)–postconverging–de-mentating/structuring/paradigming\(\rangle\)–as-being-as-of-existential-reality) in the face of surreptitious and spurious strategies of anti-
intellectual misanalysis, misinformation and complotment as to our modern-day ‘pedantic
totalisingly-disentailing—discretion/whim-of-thought ontological-bad-faith/inauthenticity\(\langle\)–preconverging–de-mentating/structuring/paradigming\(\rangle\)’. Thus the more
centrally defining element of human angling-of-imaginary speaks to human capacity for
contemplation of metaphysics-of-absence\{implicated-epistemic-veracity-of-nonpresencing-
<perspective–ontological-normalcy/postconvergence>\} epistemic-projection which is in many
ways elusive to psychical-nascency disposition. But then this is no more different for the implicit projective-insights approach to thinking pervading the natural sciences; as to a fundamental aptitudinal capacity to think in terms of perspectives (implicitly speaking to such notions like projections and fields of conceptualisation that do not absolutise our present conceptualising framework and actually factor in the limited-mentation-capacity as to apriorising/axiomatising/referencing to then project of the implications of human limited-mentation-capacity-deepening of apriorising/axiomatising/referencing). In this regards, (and as priorly indicated herein just as conceptualising ‘the actuality-<as-to-history> of physical manifestations of the cosmos as astronomy’ with physics rather construed as the ‘archaeological/deconstructive–conceptualisation-<as-to-its-ahistorical-emancipation> of such an actuality conception that is astronomy’ with the implication that the ‘beholdening astronomical manifestations of planetary phenomena, planets, stars, galaxies, etc. as to a given shape of the universe and its becoming’ are conceptualised from the ahistorical-emancipation of physics as of an underlying physics archaeological/deconstructive–conceptualisation that allows for the momentous sublimating $^{46}$historiality/ontological-eventfulness$^{38}$/ontological-aesthetic-tracing-<perspective–ontological-normacy/postconvergence-reflected-'epistemicity-relativism-determinism'>$^{46}$ of astronomy to be construed and so unlike a naïve desublimating $^{46}$historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition approach that fails to factor in that the varied ‘beholdening astronomical manifestations of planetary phenomena, planets, stars, galaxies, etc. as to a given shape of the universe and its becoming’ are rather undergirded by an ahistorical-emancipation of conceptualisation of congruent physics principles as to their underlying ontological-contiguity$^{67}$), in many ways the implicited notions of Foucauldian genealogy/archaeology and Derridean différence deconstruction as well as explicited herein as of the ontological-contiguity$^{67}$—of-the-human-institutionalisation-process$^{68}$ (implied de-mentation–supererogatory–ontological–de-mentation-or-dialectical–de-
