

108sepMy Publisher's Father's Name was "Ted": The MHCE8S Story is thus as Surprising as was the Sinking of the Battleship Hood

George R. Briggs

Abstract: It is noted that my ViXra publisher's fathers name was "Ted". Therefore this connection between "ted" and "briggs" indicates that MHCE8S theory of the universe is as surprising (and important) as was the sinking of the Battleship Hood.

Just as the British public in 1936 rejected their king Edward ("ted" is a short¹ form of edward), the american public has thus far rejected MHCE8S theory. This is occurring despite the strong evidence that **nature** is trying to alert us to the correctness of the theory, as it once alerted us to the dangers of relying on obsolete battleships.

1. "Ted", Wikipedia English, (2019)
