

# The God is proven in Theism, for there is dogma of His Existence.

**To prove something means to demonstrate, that the God agrees with you, as the knowledge of a human is the knowledge, which holds his God. The God of Knowledge. To prove God to God is easy; and so, from the fact that God is proven for theists, and for atheists the God is not debunked, it follows that God is proven for atheists as well.**

As demonstration, that Christian people have proven own God, look up the verses: 1 Corinthians 15:34, Acts 1:3, 1 Corinthians 13:2 and the Christian Theology with the following theorem:

Thesis: Omniscient One exists.

Consequence: He knows that the Omniscient One exists.

Conclusion: there is hidden knowledge that the Omniscient One exists.

Objection: "the Buddhists have proven the transmigration of souls, but the Christians have not debunked it. So, it has been proven for the Christians as well?"

We are talking about God, not about the transmigration of souls. Do not change the subject. At first step one must prove the theism by separation of it from atheism, and only then one must discover which theistic ideas are true. Do not mix these two steps together!

Objection: "Thousands of gods in the world. Which of them do actually exist?"

There is only the Existing God; for God is the name, and so the rest ones are idols that do not actually exist. Agnosticism (as a "scientific scepticism" in God's existence) is nothing more than a logical mistake when the Existing God and the Non-existent idol (satan and his beloved invention - atheism) are taken for one person, cf. Matthew 6:24. Since there is the Existing God and the non-existent god, then the Existing God really exists. From this theory comes out, that atheists are so sure that there is no god, because they have an idol in their minds that does not exist.

Objection: "Atheists do not believe in their non-existent idol."

Yes, because he does not exist! The Absolute Nothingness is taken for the idol. They are just the most advanced pagans. On Earth, there are only three basic nations in the eyes of Christian God: Jews, Christians, and Gentiles. If you are an unbeliever, then you are a Gentile. You have an idol - Absolute Nothing. See Wikipedia article "Nothing in Philosophy".

Please study the history of paganism. Look up the modern paganism in YouTube: "human sacrifice in CERN", because anything can be taken as most high priority and value in life: dust (scientists proudly say, that we came from star dust), as well Nothing. Scientists say, that we came from Nothing without need of God. Thus, Nothing is the very first thing in history, Nothing took Holy seat of God.

Objection: "You keep starting these threads "proving" God's existence, basically advancing the same "proof" each and every time. Your "proof" doesn't become more credible just because you keep repeating it."

It is 10000000 times more easy to prove God than to convince people to give me Nobel Prize for that.

Objection: "Correction, most atheists don't say god is nonexistent, but that there's insufficient reason to believe he exists. Come up with sufficient evidence for god's existence and these atheists will change their minds and believe he exists. P.S. Atheism is about belief or, specifically, what you don't believe. An atheist doesn't believe in any gods. Agnosticism is about knowledge or, specifically, about what you don't know. An agnostic doesn't know if any gods exist or not."

Stop juggle with words: "we do not know, that there is no God, we just do not believe, that there is God." You have no idea what faith and belief is, because you are non-believer.

Objection: "I guess that would work to prove the existence of little trolls and elves, too. For instance, I was never able to debunk them,

either, while my good friends in Iceland claim knowledge that they exist."

Yes, they exist. Because the devil is making them.

Objection: "your own "God exists for theists, and atheists can't debunk, so God exists" statement is completely fallacious, ridiculous, and standing at the very outer rim on the border of sanity."

So, it might strike then somebody. It might work its purpose then. That is why Dr. Niels Bohr (founder of Quantum Mechanics) jokingly remarked to a student that his theory was crazy, but not crazy enough to be true.

Objection: "Now that's funny. As if religious faith and belief are the only kinds of faith and belief in the world. In any case, can I likewise say that you don't know what atheism is because you're a theist? Of course I can because you've set up the criterion, silly as it is."

Because there is Absolutely Nothing in common between God and satan, there are no common notions nor common definitions between theism and atheism: "between us and you a great chasm has been set in place, so that those who want to go from here to you cannot, nor can anyone cross over from there to us" Luke 16:26. That is why it is not possible to convert atheist by logic: he does not understand you, see the Lord Jesus Christ has problem with the hidden atheism as well: "Why is my language not clear to you? Because you are unable to hear what I say. You belong to your father, the devil, and you want to carry out your father's desires. He was a

murderer from the beginning, not holding to the truth, for there is no truth in him. When he lies, he speaks his native language, for he is a liar and the father of lies." John 8:43-44.

Objection: "The fact that the invisible magical dragon that lives in my garage is proven to ME and for YOU this invisible magical dragon is not debunked, it follows that you also have proof my my invisible magical dragon. By golly the logic is INDISPUTABLE!"

You are making the common and most spread among the unbelievers logical fallacy. You are mixing two steps to the Faith. These steps are: 1. to separate atheism from theism, 2. find out which theistic ideas are true. Your magical dragon is simply example of paganism, shamanism.

### Conclusion

Finally, if the God of Knowledge is not perfectly 100% proven, then there can not be any knowledge or proof, even physical or mathematical. Because there is no Absolute Judge what is wrong and what is right, even in scientific sense. Therefore, He would have no right to burn atheists and sinners after the Judgement Day.

Conclusion: the God is Spirit of Truth Himself.

Because atheism is not only „not proven“ and can not be ever proven (latter simply implies, that atheism is unscientific idea), but also repeatedly refuted by Science (look up, e.g. „Universe shall not exist, Michio Kaku“, „New findings have physicists questioning reality“ in YouTube), atheism is akin to pagan religion. More precisely, atheism differs from any theism only in its hatred of God, the atheist does not love God so much that he does not give him neither a place nor a right to exist. The church of satan in America also behaves like

atheism. Therefore, satan is the very first atheist in the history of the world.

Are these peer-reviewed papers (look up <https://youtu.be/e3lhXAfdw0w> and Genetics Research Confirms Biblical Timeline BY JEFFREY P. TOMKINS, PH.D. JANUARY 09, 2013 <https://www.icr.org/article/genetics-research-confirms-biblical> ), which proved Creationism, debunked already? Perhaps they are all debunked now, because of this verse: "Here I am! I stand at the door and knock. If anyone hears my voice and opens the door, I will come in and eat with that person, and they with me." Revelation 3:20, so the God does not break the "door". If a human wants to ignore the facts, the facts become debunked sooner or later. The great Richard Dawkins said: "God, why are you taking so many efforts to hide Yourself from us?" (in the end of the video "Expelled: no intelligence allowed" by Ben Stein).

Nevertheless, the true faith is not blind, one can know all and be believer in God: God is not atheist, cf. 1 Corinthians 13:2.
