([y\\_masuda0208@yahoo.co.jp](mailto:y_masuda0208@yahoo.co.jp))

$$\sum_{x=1}^{\infty} \left( \frac{2 \cdot a \cdot b}{\left( a \cdot \left( x - \frac{1}{2} \right) \right)^2 + b^2} \right) = \pi$$

$(\because b > a > 0)$
